> There are yet some sections of Texas that are a hundred miles and more from a railroad and Texas is the most important field in the union in the matter of railroad construction.

Phoenix, Ariz., Aug. 18.—I notice there are forty-six ocean steamers parked in the Gulf, made ready to haul of the Texas cotton as soon as it is delivered

I notice that the Iron Ore Railroad is building from Longview (an extention of the Santa Fe) to the red hemitte fields of Northeast Texas to haul of the iron ore of Port Boliver and ship it to Bethlehem, Pa., by water to be made up into the finished product

This is the basis of my saying Texas makes more in quantity and in value of the raw material and less in finished products than any state or country on the map.

More raw material is shipped abroad and more finished product is brought back. If this pays, why wouldn't it pay to work up the raw material at home? The best places in the world are Beaumont and Wichata Falls, where there is plenty of fuel oil to burn and oceans of water.

There ought to be some consentration of home capital to do these things. It can't be done all over Texas, but it can be done at some two or three places. There ferson and others at Llano, Cotton Mills ought to be all along the ought to be a big furnace at Jef-Brazos, Sabine, Colorabo and Llano rivers. Texas iron and cotton products ought to supply the entire Southwest, Cuba, Mexico and South America.

Neglected wounds produce old sores and these in time develop ulcers which eat away the vitality.

Ballard's Snow Linimer

Is a Healing Remedy for All Ailments of the Flesh of Man and Beast.

The speed with which this splendid liniment heals up a bad wound or sore has surprised and pleased those who were accustomed to the slower and uncertain effect of less powerful remedies. It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgla, sciatica, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment.

by the ordinary treatment.

It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disfiguring scars.

This remedy is needed in every home. If its great power and efficacy was generally known, no family would be without it.

The Best Pumping Engine on Earth.

Thousands of thoughtless farmers are doing the work of engines. Pumping water for stock and running all sorts of machines by muscle powea. Burning up human energy instead of cheap gasoline. It's the most expensive mistake a man can make a man can make to become a mere machine. Don't do it.

Pumping by Engine Power is Play!

A man can "take it easy" in the shade while the Farm Pump Engine works. The busy little engine is on the job and the cattle drink all they want. While smoking his pipe the farmer is thinking-"What a fool I was that I didn't get that dandy little engine long ago! It's the best 'hired man on the place!"

Moral: Get a Fuller & Johnson Farm Pump Engine.

RAILROAD OFFICIALS AND UNION MEN FEAR RE-SULT OF TROUBLE

LONG FIGHT VERY LIKELY

Shopmen of All Lines West of Mississippi Preparing to Make Demands

Houston Chronicle:

Both the railroads and the railroad umons are preparing for a threatened strike which, if startted, promises to become one of the most serious railroad strikes in the history of America.

The shop men of all lines west of the Mississippi river have been preparing for some time to make their demands for higher wages and shorter working hours.

The men are eager for an eight hour day. Now they are working nine and ten hours a day.

They are paid by the hour, but they figure that they ought to get as much money and work only eight hours. A seven cent raise is what they are preparing to demand.

The railroad offi cers on the other hand are preparing to give the men battle as they have never been fought before if they go out. The officials say that the many demands that have always increas ed their burdens have driven them to desperation. They say they cannot give anything more and

that every hand is against them, The people, they say have caused stringent laws to be passed and the men have continually tighten-

But the railroad officials know that they are treading on unsteady ground when they open up a war on the shopmen. There is no class of labor more tightly bound together than the shopmen of th railroads. Their organization is one that is managed secretly-in the dark-so to speak, and when they take action they move as one man.

The railroads remember the adage that it is the silent dog that be feared than any branch of labor. And the shopmen claim too, and firemen may be drawn into the trouble before it is over.

Situation Admittedly Serious:

Wall street is looking for troustand of the shopmen has been thoroughly discussed there. The officials admit that the situation is serious. All hands are hoping that the strike may be averted but none are too hopeful.

If it comes to pass it will be one of thew orst, very likely, that has been thrust upon the nation. Some railroads hope that the loyalty of the older men and the so ber heads will be used to bring about peace.

The Southern Pacific lines for the last ten years have been giving pensions to old and faithful employes who have worked for the lines over a long period of time. These pensions are for continuous and faithful service and the object is to insure the veterans a comfortable old age.

If they strike, however, they break the continuity of the service and lose their rights to old penaty for contempt. age pensions. For this reason the strike may have an effect more that would thrust upon the counfar more reaching than the trou- Baptist church at Hermleigh has country temporarily.

Darby & Son, Snyder, Texas.

This country has consistantly robbed Peter to pay Paul; it has paupered the the teaching profession. It has made great lawyers by illiminating great teachers. It has advanced medicine and pushed education to the back ground Harsh though these statements be, they are true.

look over the records of its jursits and its doctors, and you will be amazed to find how many of them were teachers first. And so throughout the Union. These men were good teachers, and the most of them liked their work, but they found soon enough, all of them, that no career lay open before to other professions. That is why to determin its jurisdiction a stepping stone. We fail to under every energetic and good teacher for : ome other line of work.

choice of such intellect and genius as the teaching profession, and no profession has allowed so much in tellect and genius to get away from it. This indictment is true every day. The hundreds of this year's college graduates who will teach next year will become the tens who are teaching the year after. The brainy men drop out one by one, though luck or fortune keep a few of them still in the schools. Yet it is more important that we have good teachers than that we have good doctors or good lawyers. Good teachers means good lawyers and doctors

There can be no getting away from the facts, we have made teaching a sacrifice for the man doing it. We have refused him due reward. We take from him self respect very often and give him nothing in return. We force him to turn to professions where the financial return is at least great enough to keep body and soul together. Yet a great teacher than a great lawyer. Why does the one acquire thousands where the other acquires hundreds? Why does the salary of a teacher not keep pace with the cost of living? Why do we spend millions for education and not pay the pilots more than a pittance?

Is it any wonder that our school system and our educational system alike are being severely criticized both abroad and at home?-Charleston News and Courier.

Texas Farms and Cities

Uncle Sam is proud of Texas and as he burns midnight oil over the adding machine computing the greatness of our State, he points with pride to our marvelous progress during the past decade.

The Federal Census Bureau announces that we have 416,377 farms and 312 cities in Texas, During the past decade we have opened up 64,187 new farms and built 121 new cities. No State in the union can approach us in agricultural and municipal development.

The Appropriation Bill is about ready for the consideration of the Governor. As a whole, the bill is quite an improvement over anything of the sort passed in recent years and an examination of the items reveal that our solons tried to sieze the swift horse of progress by the briddle as it passed. Of course there is human nature all through it and many of the items have had bad latin upon them, but the legislature struck the trail of civilization occasionally. Another legislature, and Texas will be getting on its feet

The state Senatorial and State Representative District Bill passed the House and Senate and the bill is as dry as a powder house. The Governor, however, may not approve the bill and the Pros have not a sufficient majority to pass over his veto, In the event of the failure of the Legislature to harmonize with the views of the Governor, it is likely that there will be no legislation at this sesmust be more richly endowed sion and the districts will remain is they are for the present.

> There has been eighteen subjects submitted for general Legislation to date as follows:

Appropriation, Re-Districting, Repealing the Automatic Tax law, Payment of Deficiencies, Special Appropriation for Prosecution of Election Frauds; Prescribing a Uniform System of Text Books Prescribing and Fixing the Jurisdiction of the Supreme Court; Reforming and Revising the Civil and Criminal Codes; Creating a State Normal Board of Regents; Creating the Position of Public Highway Engineer; Amending the Fire Insurance Law; an Eighten Hour Law; Congression al redistricting; Correcting Errors in the Civil and Criminal Codes for the transfer of Process of Sale of State Lands on Mustang Island to the School Fund; Road Law Permitting Bonds to be Issued on a Majority Vote. Twenty-four local subjects also have been submitted.

The appropriation and Re-Districting Bill have passed both Houses. The Senate refused to repeal the automatic tax law and all other matters are under way. Of the legislation submitted the Even Democrats who are op- most important to the people is Mr. Bailey sounds with the county and precinct
