JUST TAKE IT EASY.
John Henry Crossover, he's a philosopher. Nothing disquiets him, nothing dismay; There he sits, whittling, worries be-littling, Laughing at life to the end of his days: "No use a-hurrying, fretting or worrying. John Henry Crossover, he's a philosopher. Finding each day a new theme for his mirth, Constantly bubbling, nothing a troubling. ABOUT SCHOOL LAND INTEREST.
The Attorney General's Department advised Thomas J. Coffee, County Attorney of Mitchell county, that when taxes assessed and levied against public school land remained unpaid and the owner of the land allowed the land to be forfeited for the non-payment of the interest due the State, and the said owner afterward repurchased the same land from the State, that a lien still existed against the land as prior to its forfeiture.
This opinion was expressly confined to those cases in which the owner of the land at the time of the forfeiture, became the purchaser after forfeiture, the department holding that when another person purchased the land, after the forfeiture, he would take it free from the lien which had existed against it to secure the taxes against the land prior to the forfeiture.
THERE IS SOMETHING WRONG.
J. W. Graves, a prominent farmer of Lubbock County, was here on business a few days ago. He likes the looks of the Snyder country. The land scape on the plains is too much of a sameness to suit him.—Snyder Signal.
That doesn't sound much like Will Graves. He evidently was a little "off" if he talked about the Lubbock country in any such way. The Avalanche feels sure the Signal mis- understood Mr. Graves, for he is a Lubbock booster—you bet, and is always on the job.—Lubbock Avalanche.
No. There is nothing wrong. Mr. Graves was rather enthusiastic in his praises of Lubbock, said it was a mighty good town in a mighty good country and is going to be better, but if he found Snyder and Scurry county more to his liking he knows a good thing when he sees it.

LATE LEGISLATIVE NEWS.

The initiative, referendum and recall met its Waterloo 84 to 36. It requires ninety-five, or two-thirds of the House membership to submit an amendment to the Constitution. Rogers of Wise county led the fight for the measure.

The House has adopted the Senate concurrent resolution submitting a constitutional amendment providing for bond issues for the State University, Agricultural and Mechanical College, penitentiary system and for public warehouses, with only two votes cast in opposition.

The Senate Insurance Committee has reported favorably upon the House bill regulating reciprocal insurance companies and the bill prohibiting life insurance agents from misrepresenting their own or rival companies.

The Senate has adopted the House concurrent resolution providing for sine die adjournment of the regular session April 1st.

Governor Colquitt is reported to have declared that between now and adjournment nothing save platform demands and appropriation bills would be read or considered by him.

Gov. Colquitt signed the married woman's rights bill and then presented the pen to the Houston lady who lobbied the measure through.

The Fort Worth Union Banner thinks it sees a tendency of government to seek to regulate men in everything they do. The radical union agitators did not see the evils of regulation until President Wilson said that organized labor, must go under the same rule as other organizations. Just while they could say to men who furnished the capital, you shall use your money as we like, employ whom we say, pay the wage we name deny the privilege of working to those whom we designate, it was alright to regulate private affairs, but this new rule goes the other way and it is awful.

SERVICES AT THE PRESBYTERIAN CHURCH SUNDAY

I learn some were disappointed last Sunday because I did not preach on some of the distinguishing features of Presbyterianism. I have been here now about three years and have had only one series of these kind of sermons. It has been my purpose to give one or two series after the meeting for the benefit of my new members and any who may be undecided as to their church preference. Unkind insinuations sometimes are heard toward one who has a little to say along those lines and as much about union as I do, and I have had some of them directed toward me. Hence there were two reasons why I announced that I would soon do some of that kind of preaching. For a number of reasons I did not begin it last Sunday, but will do so Sunday, March 30th, 11 a. m. and 7:30 p. m. "D. V." It is my purpose to begin with those things most desired by my auditors, and I discover they want me to speak first on the mode of baptism. So at 11 o'clock Sunday I will begin to inquire "What is the proper mode for baptism? I shall not be dogmatic or egotistical. Any one can hear me without being in the least affronted or embarrassed by anything I say. The consideration I have for my brethren who differ from me shall not desert me. This on this subject since I have been in Snyder, I think.

I am truly,
—U. C. HOWARD.

DISTRICT JUDGE PREFERRED TYPEWRITER PAPER

District Judge, Thomas, has never claimed to be a Spencerian artist when it comes to matters of chirography, but he thinks if he has time enough, he can write a legal document plain enough to read himself, at least if called to do so before he forgets the circumstances and the subject matter but, his honor had one handed to him the other day. He had written his charge in a case on trial and sent his jury to their room. He wrote the document hastily and under cramped physical conditions. Soon after retiring, the jury sent word that they wanted to speak to the court. The attorneys were called in and the jury solemnly took seats in the box. The court then said: "Gentlemen, what is your pleasure." The foreman, Mr. August Stahl, arose with the papers in his hand and addressed the court, "Your honor, we have your written charge in this case. We can read it, your honor, but we could read it more easily, if it were typewritten." The Court smiled and had the paper put in a more readable form.

J. Green, whose residence is unknown, to be and appear before the Hon. County Court, at the next regular term thereof, to be holden in the County of Scurry at the Court house thereof, in Snyder, Texas, on the 7th day of April, 1913, then and there to answer a petition filed in said Court, on the 25th day of February, A. Plaintiff alleges that the said note was secured by a chattel mortgage of even date with said note on the following described property, to-wit: Two mules, three years old, one

grey branded — on left thigh, one brown mule branded — on left thigh, which said chattel mortgage was duly filed for record in the office of the County Clerk of Scurry county, Texas, and the defendants J. PEOPLE BECOMING INTERESTED IN SILO BUILDING

A news special from San Angelo says:

Such great success has been made by stock feeders who fed their cattle during the winter on ensilage and cotton seed meal that many stockmen of this section are now planning to have silos erected.

It is conservatively estimated that more than two hundred silos will be erected in this section this year.

Snyder has a firm that are now making a study of silo construction and they expect to go into extensive manufacture of silos for this section of the country.

We have 5 per cent money to loan on town property. Snyder Abstract Company. 38-4f

Dr. and Mrs. S. W. Anthony, of Dumas, Texas, have been visiting with Rev. J. T. Howell and family this week. They have been visiting their daughter, Mrs. J. Winford Hunt of Snyder, Texas, and are now on their way to Clarendon, where they expect to locate. The Doctor is now in his eighty-third year, and has been a practicing physician on the frontier for sixty years. He has many friends at Dumas, who will not let him retire, and, so he contemplates a change in location, that he may be permitted to retire from his loved employ.—Post City Post.

Straight at It.

There is no use of our "beating around the bush." We might as well with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.—Advertisement.

FARMERS WAGE WAR ON JACK RABBITS

W. D. Sims said here this week that a number of men out in the neighborhood of the Sims ranch went on a rabbit round up last week. They captured about 200 of the enemy. The plan is to build a corral in V shape with the opening about 500 yards wide. Then the men make a drive and bottle the rabbits up in the wire trap, where the Huerta act is easily executed. The same party were to make another drive this week. If this method of warfare is kept up the insurgents will soon be annihilated.

USE OF CALOMEL PRACTICALLY STOPPED

For Billious Attacks, Constipation and all Liver Troubles. Dangerous Calomel Gives Way to Dodson's Liver Tone.

Every druggist in the state has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is often dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," says Grayum Drug Co.

Dodson's Liver Tone is personally guaranteed by Grayum Drug Co., who sell it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of sluggishness, you have only to ask for your money back. It will be promptly returned.

Dodson's Liver Tone is a pleasant tasting purely vegetable remedy—harmless to both children and adults. A bottle in the house may save you a day's work or keep your children from missing school, keep your liver working and your liver will not keep you from working.

DAUGHTER GETS FULL SHARE OF FATHER'S ESTATE

Winfield Scott, who died in Fort Worth 18 months ago was estimated to possess properties to the value of \$3,000,000. He also had a wife and a ten year old son. Also he had a daughter by a former marriage, who is now Mrs. Georgia Townsend, of Denver, Colorado.

When Scott's will went to probate it was found that Mrs. Townsend was to get a comparatively small portion of the estate and the widow and her son were to get by far the greater legacy. Mrs. Townsend filed suit to break the will, charging that undue influence had been used upon her father and the lower court sustained her contention. The case went to the court of Civil Appeals and has there been affirmed.

Cough Medicine for Children.

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substances and be most effectual. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by all Dealers.—Advertisement.

ECHOES FROM THE REVIVAL MEETING

Post, Texas, March 25, To the Signal:

I want to say a few words about the great meeting recently held in Snyder. I thank God for the privilege of visiting dead old Snyder once more and meeting my old friends and especially for the opportunity of hearing Bro. Grafton preach and to see the unity among the Christian people.

One could not tell from Bro. Grafton's preaching, to what denomination he belongs, neither could you tell but what all the Christian people were of the same belief. God will honor that sort of work.

Now, my Christian friends, there were many young people who made new resolutions to live better lives. You must help them. Give them some thing to do in religious lines to give them strength and you will soon see the fruits of your labors. May God's richest blessings rest with Snyder and all her good people is the prayer of your humble brother.

Four Weeks Constitute a Month.

Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation, which may appear in the columns of The Signal will be gladly corrected if called to the attention of the editor.

Can't you hear those little water imps amakin' the wavelets pop, and see those little figure bugs flippin' about the surface, and notice the "snake feeders" dippin' down to the water, and don't know the fish are ready to bite. These warm, still afternoons are awfully trying on the nerves of a fellow who just has to keep in doors.

Four or five Congressmen visited the Legislature at Austin last week to pry into the formation of Congressional districts. The fight has almost become personal between Congressman Smith and State Senator Hudspeth, and if those two men should fall into the same district there will be something doing from Colorado to El Paso.

An Ohio legislator, who charges that the great wave of immorality against which the world is so much aroused is blamable to women. He charges that decolette apparel leads to evil and he wants a law to regulate how women shall dress and to prohibit store keepers from exhibiting suggestive wearables. The old proverb ought to be revived, "shame be to him who evil thinks."

The Farmers Union, of Lamar county, has memorialized the legislature of Texas asking it to protest against prosecution of big corporations. They point out that when Texas wrested the big fine from the Waters-Pierce Oil Co., the oil consumers had to pay the fine in an increased price for oil. They claim that all money fines against any of the big concerns are finally paid by the people.

Representative McKamy, of Dallas county is pushing a bill in the House to permit betting in small amounts on horse racing. His purpose is to create new life in stock raising and infuse a little more life into the Dallas Fair.

MEXICANS HANG CIVIL PRISONERS

A news special from El Paso says: "Hanging from railway telegraph poles at Jaurez, are the bodies of Mariano Rodriguez, former police chief of Jaurez, and Rafael Esquir, a newspaper vender.

The two men had been held in the Jaurez jail as political prisoners but were removed by the Federals last Sunday.

It is said that Esquir had written for papers, blaming General Huerta for President Madero's death."

It seems to be the Mexican policy that any man who offends Huerta must die.

GOVERNOR WILL KILL KENNEDY LIQUOR BILL

The House of Representatives last week side tracked the Senate 9:30 saloon closing bill and substituted the Kennedy liquor bill, which although fathered by an anti is more to the liking of the pros, but Hugh Fitzgerald has told the Fort Worth Record that Gov. Colquitt will head the bill as soon as it strikes his desk.

The Governor is not overly friendly toward any of the saloon restricting measures and he will claim that a 9:30 closing law is a platform demand. It has been noticed that the Governor considers his own wishes in preference to the accumulated wishes of the legislature and if he personally dislikes a measure he is ready to kill it even without giving lawful reasons.

TEXAS LAND CONDITIONS FALSELY REPRESENTED

It is all very well to say "back to the farm," but will someone explain how it is to be accomplished?

All the desirable tillable land is held by speculators and only a small portion of it is for sale at the present time at any price.—Fort Worth Union Banner.

It is strange that a Journal representing an element of the intelligent citizenship of the country would say that farm lands cannot be bought. Of course there are lands being held for speculation, but there are thousands and thousands of acres of fertile tillable lands all over West Texas for sale at low prices and on terms that any industrious farmer can meet.

The Fort Worth paper is bound to know that such is a fact, but it starts out on that erroneous statement as a predicate for an argument in favor of levying taxes on unused land, so high that the owners will prefer to sell.

W. W. Ditto and Ben Ditto, of route two, paid the Signal a pleasant call Monday.

WHY NOT A FLOWER CARNIVAL

Flora Culture Would Prove a Great Social and Elevating Agency.

The Signal would be glad to aid in every way possible toward arranging for a flower show to be held next fall as a benefit to the Snyder Cemetery Society. The City cemetery ought to be a sacred charge upon everybody in Snyder and it would be a good work if we will do everything possible to beautify the place.

That could be done if the Society would inaugurate a plan to provide funds to have the grounds cared for. An autumn flower show could be maintained and would not only bring funds for cemetery improvement, but would stimulate flower culture at the Snyder homes.

The people would take more pride in yards and gardens and the aesthetic effect would be far reaching.

A few roses and chrysanthemums growing about a home would be an attraction. Let each family try just a few of these things. There is plenty of water and the soil is well adapted to such growths and a little well directed effort will produce enough blooms to make a magnificent floral display. Several towns are doing it and Snyder can measure up to most any of them.

BATS TO PRAY ON MOSQUITOES AT PORT ARTHUR

Texas does something original most every week and other states and nations that desire to keep abreast of the times should send emissaries to Texas where they can see the fresh rush of life as it enters into new evolutions of progress. We are the thought centers of the nation and in this state powerful minds set in motion new economies that belt the earth in their travels.

The latest achievement is a duel between pests announced in press dispatches from Port Arthur. The Commercial Club of that city has procured a supply of bats to turn loose on mosquitoes that thrive in the swamps of Southwest Texas. The plan is said to work successfully and the bats disappear after ridding the country of mosquitoes.

The item above quoted will remind you that boxes of ants were brought from Central America to South Texas to eat up boll weevils, but the plan didn't work. Let us hope however that bats will take to mosquitoes as a diet then we may find some pest that will like to eat chicken mites and blue bugs.

The first open rupture in President Wilson's official family occurred when assistant secretary of State Huntington Wilson resigned his office because he opposes the policy of the administration regarding the Chinese Loan.

Governor Colquitt is said to be displeased with the kind of laws his legislature is trying to make. He charges the lawmakers with disregard for platform demands.

If those Philadelphia scientists succeed in finding the "Lost Region" in the Amazon basin they will probably find the Standard Oil Company and the McCormick harvester people already there and ready for business.

The Fort Worth Record's Austin correspondent says that there is some talk that Gov. Colquitt may be a candidate for a third term, however, if the state is not redistricted he is kinder slated for Congressman-at-large. The same correspondent says that legislators are trying to gerrymander the districts for special benefits. one proposed district reaches from El Paso to New Braunfels.

DIES AFTER DRINKING BOOZE BOUGHT FROM A NEGRO

Abilene, Texas, March 22.—Returning from a trip to this city last night Harry Bright and Oscar Smothers carried to the home of his parents the dead body of Arthur Reed, aged 19, son of R. J. Reed, a farmer living near Potosi.

Smithers stated that Bright and Reed had bought some whisky from a negro in Abilene and drank freely of it. Shortly after leaving the city both of them became very sick and within half an hour Reed died.

Bright later became unconscious but today substantially corroborated Smothers's story, except he said that Reed fell out of the buggy on the way County officials and physicians went out today and held an autopsy on the body.

Chemical analysis will be made in the belief that the whisky was poisoned or composed of deadly drugs.

Spring time has its pleasures and its trials. When a fellow can lounge on the creek bank and watch the cork float on the waves, and then see it jerked under, a spirit of life gets into a fellow, but when he has to dig in the garden and rake trash in the back yard, it is time for an acute attack of the leg ache.

SIMPLICITY OF OUR PRESIDENT

President Wilson considers the President of the United States as simply a man selected by the people to fill a certain official position and to discharge his duties as becomes a public servant. He started in by doing away with the inaugural ball—liquor has been barred from the White House. The White House Barber has been discharged, and the President shaves himself.

He goes about in ordinary citizens clothes and goes to church to worship and not to be seen. People who stand around the church door to rubber at the President will be disappointed, unless they know him, for he refuses to garb up in any sort of special toggery. He lives the simple life and works at his job.

A WELL KNOWN KENT COUNTY CITIZEN DIES

Kent County News.

The people of Kent county were startled and pained last Tuesday evening when they heard of the death of their fellow citizen, Thomas Scoggin, which was caused by internal injuries received by his falling out of a buggy, between this place and Spring City. He was hurried home and given medical aid but congestion set in which was a sure weapon of death.

He is survived by a wife, a four years old child, mother and father and three brothers.

Everyone knew him to be a kind husband and considerate father. Anything he had was not too good for his friends.

The free conference committee had to take another round with congressional districting bill and the legislature may yet adjourn without doing anything.

THE HAPPY SPRING TIME IS ALMOST HERE

The time of year has almost come for spring to open and last Monday's temperature felt like the thing had arrived, but a fresh norther at night, caused some further notions. The mesquite timber has not yet begun to put out, and until that comes about the people may as well wait.

Farmers are beginning to plant crops. The season in the ground is still encouraging, though a little rain now would be acceptable. The high winds for the past two weeks have served to sap the moisture from the ground and rain will be needed in a short time. Such garden stuff as has been planted is struggling again, which was caused by internal gainst high winds and cool weather. Grass is beginning to show up and we will soon be in the midst of balmy spring time. Wheat and oats are looking good and farmers are hopeful in which was a sure weapon of death.

**PEACE PROSPECT IN MEXICO
LONG WAY OFF**

Conditions in Mexico continue to be turbulent. Warring factions are keeping up a system of bush whacking. The friends of Madero refuse to be pacified. They feel that their leader was assassinated in cold blood and they want to avenge his death. The Huerta faction, although backed by the existing government seems to be uncertain of their ground. Two elements will never harmonize and there will be internal disorder just as long as either faction retains control. There can be no progress toward constitutional peace or industrial progress until a new regime has been established.

The country is without money. Financiers will not care to loan the government money without clear title to the wealth of the republic and that wealth is an uncertain quantity. The soldiers will refuse to fight without pay. The rebels depend on insurgent millionaires and many of those have already put up the sinews of war to a limit.

Edward R. Bell writing to the Houston Chronicle on "Facts about Mexico," says:

"You can do a lot of fighting in Mexico on credit—if the hearts of the men are with the cause. This places the revolters in a better position than the government, because undoubtedly the spirit of revenge for Madero's murder is the great moving principle in the north and west, and revenge for Saurez in Yucatan. And it's not so easy as some may think to buy a real "revoltoso" Mexican soldier—unless he doubts the sincerity of his leader. The government, therefore, even if it gets itself financed, must buy the leaders to get the men, and it hardly seems that the present revolting leaders are of the kind easily bought.

But government soldiers to be held must be paid, and it may as well be understood that the thousands and thousands of troops Huerta is sending out of Mexico City all over the map, are largely phantoms of the mind. Whatever troops he can muster are needed close at home. There's trouble in Guerro, in Puebla, in Morelos—lots of it. There's trouble with the 6000 operatives of the Rio Blanco mills at Orizaba in the state of Vera Cruz. Mexico City itself must not be left unguarded. Zapata, with his hordes of hungry, outraging bandits in the mountains of the little state of Morelos, is but two days march away—and Zapata has had his greedy eyes on the treasures of Mexico City for a long time. That he was not allowed to bear a hand in the recent unpleasantness there must be filling his ambitious soul with regret.

If Huerta possessed the backbone of his old chief Porfirio Diaz, he would follow closer in the Diaz footsteps—make Zapata governor of Morelos, and Zagada governor of Guerro, and add their fighting savages to his strength. But Huerta, though pitiless, lacks the bold masterfulness of Porfirio Diaz. He dare not antagonize the polite Mexican gentlemen who are closely allied with him and who would not stand for such tactics. He must therefore, fight these two bandits and their forces along with the legitimate revolters of higher purposes, and this will keep him fairly busy for some time to come."
