MUSIC, LITERATURE AND ELOCUTION

SEASON OF MENTAL AND SOCIAL CULTURE-THE COMMENCE-MENT EXERCISES

We have a week of delightful entertainment by musical and literary Preople, marking the closing of the school year and the advancement of our young people as demonstrated in public recitals is gratifying to the people and reflects credit upon pupils and teachers. The pupils of the school show splendid literary progress and in appearing before a critical audience they come with a degree of grace to challenge the admiration of the public.

The presentation at the opera house last Thursday night of that popular play "Under the Laurels' by the Expression Class, directed by Mrs. Hutcheson was entirely satisfactory. The caste had been aptly selected and well drilled so that the lines were well render-

On Friday night the Seniors, under the direction of Miss Mary Bullard presented "Esmeralda" in a way to show intelligent application and excellent training. These entertainments were witnesesd by large audiences and the people were pleased.

On Monday night the Junior pupils of Mrs. Hutcheson's School of Expression, assisted by pupils from Mrs. Barnes Music School rendered an entertaining program.

E. Hearn Died Suddenly.

Mr. E. Hearn who used to work with Mr. McClinton in the shoe making business in Snyder died suddenly last Monday afternoon at the home of a friend at Wastella. Since leaving Snyder he has been working at his trade in Sweetwater and occasionally visiting here. Last Monday he sent word to Mr. McClinton that his old time partner was still alive and kicking. It was just a short time after gettnig this cheerful message that the news came of his death from heart trouble.

Mr. Hearn formerly resided at Alvarado and was a member of the Odd Fellows lodge at that place. He was a quiet man and a good workman.

Railroad Man Visits Snyder

W. S. James, assistant general manager of the Rscoe, Snyder & Pacific railroad, was in Snyder yesterday and visited the Signal office. Mr. James passed a nice compliment on the appearance of the court house square, and stated that he had been reading what the Signal had been publishing with a boosting spirit regarding Snyder and her interests. He also admitted that Snyder's train service was not what it ought to be, but that it would necessitate an increase of \$25.00 per day passenger service to justify adding a double service for his road from Roscoe to Snyder. By early fall, with the present prosperous out-look, Mr. James is of the opinion that double passenger service would begin..

If preper affiliation could be made with the Texas & Pacific Railway there is no question but that the R. S. & P. would do their part toward a better passenger and mail service for Snyder.

THE men of the navy who "draw a defensive line of steel" along our coasts have ever, in peace and war, found enjoyment in tobacco.

And the best "navy" plug, STAR Chewing Tobacco, appeals alike to the "tar" and the officer.

And STAR is a capital G-O-O-D tobacco, fat with extra long, chewing leaf of the mellowest variety, with a taste that lasts. In each thick STAR plug there are 16 full, chewable ounces.

A pure food commission and a board of weights and measures couldn't improve on STAR'S unvarying standard of honest weight, quality and absolute cleanliness of preparation.

Here's what American men think of STAR:

The pound STAR plugs chewed in one year, if placed end to end, would stretch from Portland, Maine, clear over to Seattle, Washington, down to San Francisco, across to Key West and end at Atlantic City, N. J.

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as an assertion that inferior baking powders made of alum or phosphate of lime are as good as Dr. Price's, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Dr. Price's Cream Baking Powder is as pure and wholesome as the grapes in the vineyard, from which cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphates is because their cost is less to the manufacturer.

HERMLEIGH NOTES

From the Enterprise:

Hardy Chorn, son of J. I. Chorn, is now in the Bank of Hermleigh learning the intricacies of the banking business.

The little three months old baby of Mr. and Mrs. Calhoune, living on R. C. Herm's farm, five miles south of town, died Friday night of last week with pneumonia.

G. T. Mcore, was exhibiting a sample of wheat from Mr. M. L. Williams farm last Saturday which measured four feet with heads four inches long. Mr. Williams has about 250 acres of this wheat and with one Choice of Routes-Go one way, remore rain, he thinkks he will easily thresh out twenty five bushels to the acre.

Mr. J. S. Farr, one of the oldest settlers of Scurry county, and who owns a nice farm east of town, has in forty five acres of wheat which he said is the best he ever saw grow in this county. He also has in about sixty six acres of volunteer oats, that he thinks will make sixty bushels to each acre if nothing happensto them Mr. Farr has ordered him a binder and will be ready for the harvest when it comes.
