

# The Snyder Signal

TWENTY-NINTH YEAR

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, JULY 9, 1915.

NUMBER FOUR

## ATTEMPT ASSASSINATION OF MORGAN

WOULD BE ASSASSIN BELIEVED IRRATIONAL ON ACCOUNT OF WORK

Glencove, July 3.—Officers at the sweating of Frank Holt, who today shot and wounded J. P. Morgan, say that he admitted that he was the man who put the bomb in the capital. It is claimed that he said he went to Washington from Ithica, where he had been teaching in Cornell University, set a bomb and then left about midnight for New York, going to J. P. Morgan's immediately. Police Captain Tunney confirms the officers' statement.

Doctors at Morgan's residence issued a bulletin, saying that Morgan's wounds did not involve any vital organ. His condition continues excellent.

It develops that the butler warned Morgan to go upstairs. Mr. and Mrs. Morgan ran upstairs, thinking that a burglar was there. They then came down again almost bumping into the intruder. Mrs. Morgan attempted to throw herself between the would-be assassin and her husband. Morgan pushed by and hurled a weight at the assailant just as the revolvers were fired. The bullets struck Morgan, but the wounds are not serious. It is claimed. The report that an operation would be performed on Morgan had not been confirmed. There are rumors that all is not well with him, however.

Under the sweating Holt said that he did not intend to kill Morgan, but felt that he was responsible for prolonging the war. Holt says that no one influenced him. He was arraigned charged with assault in the first degree, which covers attempted murder. Holt is believed to be irrational. The judge entered a formal plea of not guilty, and Holt was bound over for a hearing Wednesday without bail.

Washington, July 3.—The police have got word that Holt was the man, who set the capital bomb, but there are no details. Over the telephone, the government is trying to find if there is any widespread plot in the case. It is feared that there is an organized plot. Guards are being maintained around public buildings as a result.

By United Press.

Dallas, July 3.—Presiding Elder Sensabaugh of the Dallas district of the M. E. Church of the South, father-in-law of Frank Holt, was informed by the United Press that there is no doubt as to Holt being his son-in-law. Rev. Sensabaugh said that Holt had sent him a package from New York recently and that his wife got a letter this morning saying that he had been ill and despondent for a week. Rev. Sensabaugh declared that Holt was a strong advocate of peace and disciple of Mr. W. J. Bryan. He was strongly opposed to war. Holt had been overworking for five years and recently had been doing fourteen to eighteen hours work daily. He was not well. He was staying in New York for a couple of weeks and then planned to go to Ithica and come here, as he was engaged to teach French in the Southern Methodist University here. Holt has been teaching German in Cornell University.

Rev. Sensabaugh says that the strain is killing Mrs. Holt. No one is allowed to see her. Rev. Mr. Sensabaugh says that Holt was not Socialist nor anarchist.

By Associated Press.

New York, July 3.—J. P. Morgan, who is the financial agent for Great Britain in this country, was shot twice, but not seriously wounded, at his country home near Glencove, Long Island, today by Frank Holt, of Dallas, Texas, a man of mixed German and French descent, according to a statement given out.

In a signed statement, Holt said that he went to see Mr. Morgan to persuade him to influence the millionaires of the United States, who are financing the European war, to have an embargo placed on arms. Morgan was shot in the arm and hip, but talking over the phone to New York, saying that he was not seriously wounded.

## CHURCH SERVICES ON LAST SUNDAY

SERVICES AT RESPECTIVE SANCTUARIES—RECEPTION OF NEW MEMBERS

The churches in Snyder resumed services in their respective sanctuaries last Sunday morning and at night the Presbyterians, Christians and Methodists held a service together at the City Park Auditorium. Rev. J. C. Bigbee, pastor of the Presbyterian church preached an interesting sermon.

The Baptists had baptismal services Sunday afternoon. The ordinance was administered to three candidates and two others joined by letter.

The Christian church also had a baptismal service, when ten were baptized. Nine persons joined the Methodist church at the morning service and five of these were baptized at the altar.

There were two additions by letters to the Presbyterian church.

Brother Pearn will preach at the Auditorium next Sunday night.

OUTLAWRY SHOULD BE CONDEMNED

There are plenty of ways to rid a community of undesirable people and things without resorting to firebrands and dynamite. A man who will blow up a house and murder human beings is at heart a murderer of the assassin kind. A law abiding community shudders at the thought of a dynamiter in their midst. Human life is in peril, and no man can feel absolutely safe. Such lawlessness is bound to reflect on the good name and prosperity of the community.

The Signal is assured that since the outrageous occurrence here Wednesday night the gentlemen representing the promoters of the express has said that if there is to be trouble with labor here his people will not want to invest their money. The town needs honest laborers and the laws provide for removal of vicious and objectionable characters.

Morgan's butler struck Holt over the head with a coal hod, felling him. He was carried to jail.

Holt had two revolvers, two large boxes of cartridges, three sticks of dynamite, and a bottle of nitroglycerine. Holt said that the authority to shoot Morgan came from on high, but later Holt appeared unable to realize what had been done. The effect on the stock market was negligible.

Glencove, July 3.—Holt's confession was announced tonight by Justice Luyster and Thomas Lunny, head of bomb and anarchist squad, New York City detectives. They said Holt described the details of the explosion. The bomb was unique in the annals of the New York police department.

"I made the bomb," Holt is quoted as saying, "with three sticks of dynamite, some match heads and a bottle of sulphuric acid. I took three sticks of dynamite, bound them together and with a pocket knife hollowed out a hole in one and placed some match heads in the hole. Then I took a little bottle of sulphuric acid and put a regular cork in it. I tied the bottle to a stick of dynamite so the neck would be in the hole. I figured exactly how long it would take the sulphuric acid to eat through the cork and get to the match heads. I knew just exactly when the bomb would go off. After I placed it in the capital I hung around a while. I knew there was no danger of it going off then. I stayed in Washington until I heard the sound of the explosion. Then I caught a train to New York. Later came here."

The confession, which it is announced Holt made, came right after a newspaper man asked him if he did this and he had denied flatly to them any connection with the Capitol explosion. Holt said he went to the Morgan home with a pistol in his hand, and dynamite in his pocket, to stay there until Morgan "did something." He said he had no intention to harm Morgan but wanted to persuade him to stop the shipment abroad of munitions of war. Holt arrived at the Morgan home while Mr. and Mrs. Morgan and the British Ambassador were eating breakfast.

## TELEPHONE WORK IS PROGRESSING

LARGE NUMBERS OF WORKMEN EMPLOYED ON CONSTRUCTION WORK

The Southwestern Telephone Company is making rapid progress in the construction of their new telephone system at this place. They now have a force of workmen pushing the work as rapidly as possible. Four or five cars of material have been received and Manager W. P. Duckett states that the material is of the very best and that the work is in charge of skilled workmen which will guarantee Snyder a standard telephone system.

The construction work, necessitating so many men, is being done off the public highways, hence does not make a marked appearance, however the effect will be visible sooner or later.

Snyder welcomes this long hoped for improvement.

Delightful Joy Ride

Through the courtesy of Mr. and Mrs. J. Arch Farmer, the Signal editor and wife had the pleasure of a delightful automobile spin last Sunday evening. Mr. Farmer had his Ford in fine shape and as we sped on and on past green pastures and fields of luxuriant maize, kaffir, fetterita and cotton, the idea of distance passed out of mind and in just a little while we shut down the brakes on the public square at Ira. The town was quiet, the stores were all closed and Dr. Merrell, Druggist Brown, F. W. Hardee and other gentlemen were grouped in a bunch and it is supposed that Hardee was discussing on the latest curves in baseball and Huerta's probable fate if he is to be turned over to Villa's requisition.

After a short stop we sped on to Dunn and thence back to Snyder in time to go to church.

The country looks good, crops are clean and a fellow can't help feeling enthused in looking out over the broad views of valley farms and comfortable country homes.

A Trip to Colorado

A crowd of Snyder young folks went to Colorado Sunday and there they were entertained by the young people of Colorado. The Snyder boys and girls extend their hearty thanks to Miss Bennie Morgan, the hostess, at Colorado for showing them a good time. Including those who went from here were: Misses Lucille Galloway, Charlotte Sturdivant, Dara Dawson, Velma Howell, of Loraine. Messrs. Augustine Howell, Grayum Baker, Forest Sears, Dick Henderson, Newt Galloway and Ollie Bruton.

Miss Ruby Clark had been spending last week with the Colorado girls and returned home Sunday afternoon with the Snyder crowd.

NEW CONCRETE WORK —MORE IS NEEDED

The Signal rejoices with others because a concrete crossing is being built from the Blackard corner to the Post Office. New let us hope for the filling in of the gap at the northeast corner of the square.

While on this subject the Signal wants to compliment the State Bank people on building a concrete gutter along the north side of their building and the time is ripe to have the same kind of work done all around the public square. It would help the appearance and add to cleanliness.

Rollen Bell, of New Mexico who was sometime ago adjudged insane became troublesome Monday morning in the jail and when Sheriff Merrill went in to quiet him he rushed by Mr. Merrill and out through the door. The Sheriff and George Brown were quick to the chase and soon had the man back in the lockup.

Bob Blackard says he went over on Bull creek this week and caught one fish that weighed six pounds and the next haul brought out one that was a ten pounder. Now, Henry, Kin and Tom want to leave Pace to run the store while they try their luck.

## THE NEGRO HOTEL WAS DYNAMITED

TWO BOMBS PLACED UNDER THE BUILDING—ONLY ONE IS EXPLODED

An attempt was made about 3 o'clock Thursday morning to blow up the two-story negro hotel situated a block southeast of the public square.

It is said there were two bombs placed on top of the ground under the southeast corner of the house. Only one went off. It shows to have been set off by a fuse about a yard long. The other bomb failed to shoot. It had been thrown further under and was immediately under a bed where it is said a man and a woman were sleeping. This bomb is dynamite and is being kept.

The explosion was heard by a number of people in the neighborhood. The floor of the room was considerably torn up, window panes were broken and the entire building was shaken and occupants of the house were badly frightened.

One negro woman said she smelled powder burning several seconds before the shock came.

The manager of the hotel says he was sleeping up stairs and was awakened by the explosion.

No negroes have ever lived in Scurry county until last year when they were brought here to pick cotton. There has been a general feeling that they were not wanted, but many people have employed negro help and their numbers have increased.

There have been murmurings of dissatisfaction because of the location of their hotel in the business district and reports have been circulated regarding the conduct of the people there.

It is supposed that the attempted dynamiting came as an expression of objection of some person or persons to the presence of these people. It is understood the dynamite case is being investigated and furthermore that steps may be made to localize the negro population in something like a specified district.

The hotel has been under watch for several days and on Wednesday of this week a complaint was made against the proprietor, charging him with keeping a disorderly house and Jim Percy was arrested Wednesday on the charge.

DARK MOONLIGHT PICNIC ON SHADY PRAIRIE

Messrs. Rob Strayhorn and Joe Stinson treated their friends to a Dark Moonlight picnic on the Shady Prairie Wednesday night. There were about ten automobiles with an average of five to the car and they hiked to the above named place where a most delightful time was spent. The hosts served thirteen fried chickens nine barrels of pickles and a few lemons.

The bunch returned home prior to the rising of the sun.

Band Concert

The Snyder Brass Band served a delightful concert at the City Park Auditorium last night and a large number witnessed the program.

Safe Blown at Roscoe

News was received here Thursday that the safe at the T. & P. depot at Roscoe was blown open by yeg-men Wednesday night and about \$35 were taken. A bomb was set on the safe at the express office but failed to explode. It is said that two pistols were stolen from the express office.

Frank Holt Ends It

Frank Holt, the man who tried to assassinate J. P. Morgan, committed suicide Tuesday night by leaping from the top of his jail cell and fracturing his skull. He had been identified as Muentner, charged with murdering his wife in 1906.

Miss Charlotte Sturdivant is employed at the Clerk's office as Deputy County Clerk and she is filling the position nicely.

Miss Velma Howell, of Loraine is visiting Miss Lucille Galloway this week.

## COUNTY COURT MEETS MONDAY

COURT WILL CONVENE MONDAY—JURY LIST FOR THE WEEK

County Court will convene next week with Judge C. R. Buchanan on the bench.

It is understood that there are a number of important cases on the docket.

Following is the list of jurors for the week:

J. W. Card, O. L. Jones, Lynn Henderson, T. W. Hodge, W. J. Beaver, E. B. Baugh, J. B. Adams, Joe Strayhorn, W. H. Shuler, J. T. Cary, E. P. Anisworth, Dock Kelly.

Colored Baptists Organize

The colored Baptists in Snyder held services Monday and Tuesday nights at the Baptist church and it is understood that they have their organization about completed. They are fixing up the old house just east of the express office near the R. S. & P. depot in which to hold their church services.

Mother Died at Stamford

Mrs. Penick, mother of Mrs. F. J. Grayum died at 2 o'clock Wednesday morning at her home in Stamford. She was nearly 84 years old. Mrs. Grayum has been there with her mother for several days. She sent a message to Mr. Grayum Wednesday morning informing him of the death and that the funeral would take place Thursday at Anson.

Saw Sights in the Auto World

Mr. and Mrs. Fred A. Grayum returned Sunday morning after an absence of two weeks. While away they visited Detroit, Buffalo and Niagara Falls and had the pleasure of enjoying the beautiful boat ride from Detroit to Buffalo over Lake Erie, a distance of 282 miles and Fred says he did not get sea sick at all, but might have gotten sick if Mrs. Grayum hadn't been along.

They visited the large automobile plants of Dodge Brothers Motor Co.; Ford Motor Co. and others and Fred says he never dreamed of such immense auto plants and says he knows that some folks will not believe him when he tells the truth about such large factories and how many men they work.

He comes home more thoroughly convinced that automobiles are becoming a greater necessity everywhere and that it will not be very long until every man and woman will own a car.

He can talk your arm off about autos if you will give him a chance and does not seem to get tired of it.

Mr. Grayum represents the Dodge Bros. in seven counties surrounding Scurry, in the sale of their motor cars.

He says his trip through the factory was very interesting and will be worth a great deal to him in the future sale of cars.

We welcome them back and trust that the pleasant memories of their trip will linger in their minds for years to come.

The Signal is informed that Mr. McMullan's wheat crop is turning out 25 bushels to the acre and he has 250 acres.

Work is going along on Mr. Towles new home in West Snyder. He is having solid work done for the foundation and the specifications insure an elegant building.

H. Clayton Teague caused a smile to spread over the printorial countenance one day this week as big as a dollar.

R. W. Myers and wife and W. H. Shuler and wife left Thursday for a thirty days visit with relatives at Center, Mississippi. This is the first trip in a number of years back to the old home.

Mrs. Ethel Wasson Bennek has been quite sick for several days with typhoid fever.

Mr. J. B. Pickle is able to be up after a tussle of more than a week with fever.

## PROPERTY VALUES HAVE INCREASED

SCURRY COUNTY TAX ROLLS SHOW BIG INCREASE OVER LAST YEAR

The tax assessor force have about rounded up the taxable values for the present year and have furnished the Signal with the following figures and estimates. Total property value for 1914, \$6,412,067. The rolls, aside from railroads show an increase of approximately \$145,000. It is estimated that the intangible value of the P. & N. T. Ry. will be increased which will be added to the above amount. The total value for the year cannot be given in full until the rolling stock value and the intangible values of the railroads are given out from Austin.

These figures are not guess work but show in cold facts the progress in the County. The population of the County has also increased at a good rate as shown by the increased number of school children reported by the County Judge.

REAL ESTATE TRANSFERS

Mrs. Bertie Newsom, et al to T. A. Richardson, lot 7 in block 92, Fluvanna, \$500.

Lon Smith to G. W. Underwood, lots 7, 8, 9, 10, 11 and 12 in block 92, Gross Sub. div. Scarborough addition \$1300.

J. H. Angell and wife to J. T. James part of Section 134, block 97, H. & T. C. \$225.

J. M. Stephens and wife to Miss Essie Swint, lots 5 and 6, Gross sub. div. \$500.

J. R. Williamson and wife to W. B. Fenton, east half of S. W. quarter of Section 246, block 97, H. & T. C., \$1,500.

R. W. Nelson and wife to W. J. Robinson, S. W. fourth of Sec. 16, block 3, H. & G. N., \$1,280.

W. W. Nelson, Jr. and wife, to Guy E. Paxton, lot 2 block 19, Blankenship add. \$2,500.

I. N. Beaver to Mrs. Kate Beaver, 320 acres out of Section 426, block 97, \$4800.

A. C. Wilmeth to Robt. H. Carnutte, lots 1 to 6 in block 15, Wilmeth addition, \$400.

O. L. Jones and wife to H. C. Gill, 140 acres out of Section 39, block 3, H. & G. N., \$2,000.

A. N. Harkrider and wife to W. T. Skinner, north half of lot 1 in block 24, Blankenship addition, \$250.

H. C. Mixon and wife to J. W. Jackson, lot 1 in block 52, Hermleigh, \$300.

A. T. Dickey to J. W. Miller, 145.7 acres out of section 96, block 3, H. & T. C., \$3500.

J. T. Adams and wife to W. M. Adams, 80 acres out of Sec. 21, blk. 3, H. & G. N. \$500.

J. C. Jackson and wife to W. J. Jackson, 80 acres out of Section 21, block 3, H. & G. N. \$1600.

W. M. Adams and wife to J. C. Jackson, 80 acres out of Section 21 block 3, H. & G. N., \$1440.

A. L. Elkins was here Tuesday from Post City. Our people are always glad to see Dad. It will be a long time before he'll have as many friends anywhere as he has in Snyder.

Mr. and Mrs. R. A. Irving left last week for El Paso where they will reside. Dr. and Mrs. Scarborough went with them. Dr. Scarborough came back Tuesday but his wife will remain there with the young folks for a few days.

Miss Lela Porter is visiting her friend, Miss Crosier at Paint Rock for a few days.

Every sack guaranteed to give satisfaction or your money refunded.

We will rent or sell you a sewing machine cheap. A. P. Morris.

### EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bone and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for Calomel. It is guaranteed to start your liver without stirring you up inside and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. No. 10

Mrs. Lee Boren has been elected principal of the Roeding school, four miles out from Fresno, California. Lee writes that he has been canning apricots that weigh four to a pound.

G. N. Richardson said a week ago that he has lots of cotton blooms on his farm at Dunn.

### MOTOR CAR PENETRATES DEATH VALLEY DESERTS

Los Angeles Engineer Completes a Strenuous Prospecting Tour. Locates Valuable Ores

Back from a 1000 mile tour thru California and Nevada desert lands, O. K. Parker, a well-known engineer of Los Angeles reports the discovery of valuable ore deposits in the heart of death valley.

Mr. Parker and a single companion crossed Death Valley in a Dodge Brothers touring car on a day when the temperature ran up to 170 degrees. The trip was made on the anniversary of the death of Peter Bush, a prospector who lost his life on May 30, 1914 while trying to cross Death Valley from Skiddoo to Rhyolite. Bush used a motor car, but the machine had been given such hard usage in the mountains that it failed him in the heart of the desert.

Parker's car crossed the Panamint range of mountains at a point where the summit reaches an elevation of 5,259 feet. From here the road drops down to a point below sea level on the floor of death valley.

The "Death Valley Dodge" as Parker christened his car made 967 miles on the seven days trip over the roughest kind of mountain roads and deep desert sand.

Eight miles of sand dunes were traversed on the Valley floor and sixteen miles of rough malapai rocks had to be covered on the slopes of Funeral range into Nevada. The car obtained a grand average of 20 1/2 miles to the gallon of gasoline varying from 26 miles on the roads to less than twelve in the heart of Death Valley. Just 2 1/2 gallons of lubricating oil were consumed, an average of 400 miles to the gallon.

Engineer Parker reports that the Dodge car climbed eight mountain ranges on the trip. The route led up to the Cajon pass, 3,916 feet above the sea level then down to Mojave Sink, 1,910 feet; then up to Blue Green summit, Mojave range 3,622; again down to Coolgardie basin, 1956 feet and up to Granite Well Summit at Pilot Knob, 4,812 feet, again the car descended to Ballarat Sink, 1,016 feet and up Wild Rose Canyon to Skiddoo Summit, to 5,259 feet elevation.

From Skiddoo Summit the route was down Emigrant Canyon to 250 feet below sea level in the Valley. This program of strenuous climbing was duplicated on the way out, the highest point reached being Searchlight Summit at an elevation of 4500 feet.

"The trip was undoubtedly the most severe test that any motor car could undertake" said Mr. Parker at the conclusion of the trip. It resembled a continuous ride on a gigantic roller coaster, except that we had every temperature on the thermometer. The car came through in splendid shape and deserves a world credit."

On the trip Parker and his companion secured specimens of valuable specimens of valuable ores, including molybdenite, a new metal which has unusual qualities of strength and lightness. It is probable that capital will be obtained to develop the new projects. It

Bennie Hull of Abilene came in Friday night to spend a few days with the home folks

J. D. Letcher was here for a few hours Tuesday.

Mr. S. R. Fickas and Joe Taylor went to Anson Tuesday to bring Mrs. Will Fickas and children of Memphis to Snyder for a visit.

Tom Broxson brought the Signal a section four inches long of a limb from one of his plum trees that had sixteen plums in a cluster.

## LOOKING TO A COMPETENT AMERICAN CITIZENSHIP

Dallas News.  
Readiness to use a musket in defense of the flag attests patriotism, of course. But patriotism imposes other duties than that. One's patriotism is put to the test on going to the ballot box as certainly as it is on going to the firing line. The patriot owes his country an honest vote. But again, the casting of an honest vote does not satisfy all the requirements of patriotism at the ballot box. One owes his country, also, an intelligent vote. His ballot must express a reasoned conviction as well as an

honest impulse if it is to fulfill the duty patriotism imposes. An ignorant vote is capable of as much mischief as a purchased vote. Hence the very valid reason for requiring that the voter shall be able to speak and read the English language. For without the ability to read and speak the English language it is impossible that one can put as much reasoned conviction into his ballot as patriotism requires. Therefore, as to the foreign-born, it may be said that the man who has not been in this country long enough to learn the English language is not ripe for citizenship, and that the one who though he has been here long enough, nevertheless has not learned the English language is either too dull or indifferent to be competent for citizenship.

The pending constitutional amendment which would permit only those who can speak English to vote is offered to the people of this State at what might be called a psychological moment. By voting for this amendment native patriotism can prove itself no less surely than it would by going to the firing line in defense of the flag.

## A SPIRIT OF JEALOUSY.

Mr. Bryan made a speech in New York a few days ago to 30,000 people or as many of that number as could get near enough to hear. He is reported to have said that he has worked faithfully with President Wilson for more than two years—they were in harmony on all important matters and especially in the matter of averting entanglements with other nations, and keeping out of war, but he failed to get credit for his part in the management of these diplomatic accomplishments.

This calls to mind a story of Mr. Vanderbilt who noticed when he drove Maud S. about the city of New York, people could be heard saying: "There goes Maud S." Mr. Vanderbilt became jealous and declared he was going to sell the horse.

Following the arrest of Huerta and his officers at El Paso it is expected that other Mexicans will be held. Seems like a big plot is being exposed.

Gov. Ferguson emancipated 22 convicts in honor of Independence Day.

## LITTLE SIGNALS

One of Snyder's great assets is the Southern National Highway, a piked automobile road running from Washington, D. C. to San Diego, California, or in other words extending from the Atlantic to the Pacific coast, touching a large number of cities and towns, including Snyder. It is estimated that at least twenty-thru cars—automobiles, go through here each day, stopping at the filling stations and at the garages. This is a demonstration of what energy, nerve and get up and get methods accomplish. Through the instrumentality of the Young Men's Business League this highway was obtained. Readers will readily see the necessity of an active Chamber of Commerce. Let's meet and organize.

A move in the right direction—the building of cross walks like the one now under construction between the post office and Blackard's store. Let the good work continue.

The cotton compress contract has not as yet been signed.

Get together and organize a Chamber of Commerce.

All pull together and stay together.

Agitate and carry out necessary undertakings.

Snyder is a rapidly growing city and naturally an undesirable element is apt to accumulate right under our noses. Colored people are essential here as the population increases, but caution should be used and a tight ban inaugurated. The negro hotel so near the square is not approved by the masses. Trouble might result, so why not begin now and colonize or adopt an agreeable plan that will be permanent pertaining to the government of the negro population? Get busy at once.

## FIGHTING RESOLUTION No. 1.

It is understood that Congressman Jeff McLemore of Houston and Dr. Barton, of Waco, head of the Anti-

Saloon League are both opposed to the constitutional amendment providing for a law to compel foreigners to become citizens before they may vote. Their argument is fired at that part of the bill to allow traveling men to vote away from home. They argue that such a law would make possible for men to go from box to box and cast fraudulent votes, but they seem to overlook the chance that is open now and industriously practiced by herding Mexicans over into border counties in Texas and voting them under their promise to take out naturalization papers. Newspapers are receiving numerous printed stuff opposing the voting away from home of traveling men, but the promoters keep silent as to the other feature of the proposed amendment.

One of the latest circulars sent out purports to be an expression from 45 senators and Representatives in which they claim to have changed mind since voting to submit the amendment. They now urge the people to defeat it. Out of all the entire membership of the legislature they find only 45 who will oppose the amendment.

## WITH OUR EXCHANGES

Our advice to the ten submarines which are going from Canada to England under their own steam is that they go under water also.—Dallas News.

That's where they'll go alright, if the Germans get a shot at them.

Dr. Weston returned home Saturday night almost cured and a changed man. He is now able to walk without using crutches, for the first time in eighteen months, and after about a week's rest, to recover from the treatment, will be able to resume his position as editor of the Record.—Colorado Record.

All the newspaper boys are glad to know the Doctor is even on one foot.

Dallas has an armless citizen who drives an automobile. Other cities have joy riders who might as well be armless as for any use they make of them.—Austin American.

A fellow who has to use both hands to guide his car is not wanted for joy riding.

It is regrettable that the United States can not see its way clear to turn Huerta over to the tender mercies of the little Chihuahua cow thief.—Austin American.

Those people across the border have cheated us out of an interesting show. If Huerta had gone on over there without stopping on this side,

he and Villa could have pacified without any embarrassment to Washington.

Because the personalities of no candidates are involved is no reason why the voters should fail to cast their votes.—Dallas County Democrat.

You are right about it, but a candidate for constable can put more vinegar in an election than would show up over a vote on an entirely new constitution.

We may do greater works than our forefathers, and ought to, but we will never do any better work than they did.—Farm & Ranch.

They worked FOR the other fellow some of the time.

Some people believe that the seat of a man's brain capacity is in his stomach. If such were the case Abraham Lincoln would have been, and Woodrow Wilson is, about one candle power.—Amarillo News.

Alexander Stephens wouldn't have been equal to a lightning bug; but there is some room for theory. Lots of political leaders are mostly stomachs and lungs.

The Slatonite says that after all, the suicide craze is just one of nature's ways to rid the world of characters that would deteriorate the race.

Jim Wilson came in Saturday and purchased a new buggy and harness, all of which goes to show that he is possessed with a commendable ambition. Girard Reporter.

And some material substance.

A breachy cow is just about the meanest thing in the land, and a dry cow is worse than the others for the simple reason you don't pen them at night and can't watch them. Send the dry cows to the pasture where they belong.—Terry County Herald.

Then buy your neighbor's fence break so as to have her butchered.

Postmaster General Burleson has fired a big bunch of republican post-office inspectors in order to give the places to good democrats.—Granbury News.

Politicians who want office go on the brutal theory: "To the victor belong the spoils," but Henry Clay had a better test "Is he honest and capable."

Predictions are freely made that in less than sixty days the best fed steers will be selling at \$10 and perhaps \$11 per cwt.—Fort Worth Record.

People will continue to eat beef all the same.

The Plainview News questions the sanity of Harry Thaw because he told the truth about the size of a fish that he caught and then says it will require ten thousand cars to move the wheat grown this year in the Plainview country.

Are corporations really soulless?? There's the Kansas City Packers. They chase the elusive American dollar so fast that they snatch the tail feathers out of the eagle on the coin, yet they have sent three carloads of salt meats, beans, lard, flour and corn to the suffering and starving Mexicans at Monterey. To feed the hungry is certainly a soulful act.—Fort Worth Record.

Now, hear some pessimist say: "They stole it from American meat eaters."

The Supreme court of Texas, Justice Hawkins dissenting, has nullified the pool hall local option elections, holding that the legislature could not delegate its functions to the local citizenship, or words to that effect. The common citizen must submit to court rulings, but it looks like if the legislature may leave it up to local districts to prohibit the sale of liquor it could delegate the same local power to the control of pool halls.

House joint resolution to be voted on by the voters of Texas on July 24 proposes to amend the constitution so as to provide that a foreigner shall become a bonafide citizen of this state before he shall be allowed to vote. As the law is now, a foreigner has greater liberty than the natural born citizen.

## FERGUSON'S RESPONSIBILITY

The Ferguson administration will have to share responsibility for the increased tax rate, and it is responsible in just so far as it has encouraged extravagance and the creation of new methods of extracting money from the state treasury.—Granbury News.

In truth Gov. Ferguson found the state in debt and her public institutions going to the bad because former administrations had for political reasons held a low tax rate without reducing running expenses. Gov. Ferguson's policy is to raise money enough to pay off the old debts and establish efficient public service, even if it does cost more.

A prosperous farmer on taking hold of a run down farm wants to get rid of encumbrances and then supply it with good teams and tools so that he may get better results from the labor of making a crop. He is not willing to trifle with sorry tools, unfertilized land and inefficient hands. Do you think he is foolish or extravagant in going to so much expense? Yes, or no.

## AFRAID OF BALLOT CORRUPTION

Politicians who are so fearful that the adoption of senate resolution No. 1 will lead to a corruption of the ballot by permitting men to vote away from home, very studiously avoid discussion of that part of the amendment to require foreigners to be bonafide citizens. They seem to overlook the corruption that is said to prevail along the Mexico border from El Paso to Brownsville by reason of permitting half fledged Mexican citizens to be herded in and voted by political leaders. The Mexicans are ignorant of English language. They know nothing of our laws and institutions and don't care to know.

Taylor County has 5501 school children.

## Excursion Rates

Via

The Santa Fe will operate Standard Drawing Room Sleepers from Sweetwater to Los Angeles, July 8th, on train No. 921, with one day stop-over at Grand Canyon. Place your reservations with the Snyder agent. J. M. RODGERS, Agent. Snyder, Texas, July 2, 1915.

# Suppose

You run an electric fan 24 hours a day for 30 days

A small fan would cost for current - \$2.18

A large oscillator would cost for current - \$11.55

A ceiling fan would cost for current - \$13.40

Now figure what part of the time you would actually run your fan and you can figure that an electric fan is not a luxury but a hot weather necessity.

Townsend, Oldham & Co.

FOR SALE—25 Red Duroc Jerseys. Boar for service. R. W. Webb.

## DIAZ WAS A FAILURE

Old Porfirio Diaz who ruled Mexico for 35 years with a hand of iron is dead. It was said that he controlled his people by force and that Mexico prospered. Business interests grew strong under him, but these interests were owned by a few people, many of them syndicated in other countries. The people of Mexico were not made richer or happier or any more enlightened. Nothing was done to foster education or patriotism. Diaz had the opportunity to have made Mexico a great nation. He found it strangled by mismanagement and he left it in the same condition.

Gen Huerta is very deeply hurt over the treatment he is getting in El Paso. He says he gave his word of honor that he would not leave El Paso and also gave bond and yet he is locked up. Let him remember that his friend Orozco also gave bond but he is gone and Huerta's word of honor is below par in this country.

Villa and Carranza have both made requisition on the United States for Gen. Huerta, charging that he is guilty of murder in Mexico. Secretary Lansing has notified Gov. Ferguson that it is up to him to honor the requisition or not. It is a general opinion that it would be superfluous to grant both requests, for either one would probably be enough to dispose of the ex-president.

## We're Opposed to Mail Order Concerns Because—

They have never contributed a cent to furthering the interests of our town.

Every cent received by them from this community is a direct loss to our merchants.

In almost every case their prices can be met right here, without delay in receiving goods and the possibility of mistakes in filling orders.

## But—

The natural human trait is to buy where goods are cheapest. Local pride is usually secondary in the game of life as played today.

## Therefore

Mr. Merchant and Business Man, meet your competition with their own weapons—advertising.

## Advertise!

The local field is yours. All you need do is to avail yourself of the opportunities offered. An advertisement in this paper will carry your message into hundreds of homes in this community. It is the most modern of all advertising mediums. A space for your advertisement is open for you. Come in and see us about it.

## BETHEL

I was informed as to the agreement of Bethel and White Bluff having singing at one or the other places every Sunday. It was only talked of whereas I understood it was a settled agreement.

Miss Erlene Townsend and Misses Dot and Stella Womack visited the H. P. Wellborn home Saturday and Sunday.

Misses Maggie Huckabee and Dot Womack were visitors at the Davis home Friday.

Mrs. Warner Flippin and Miss Lotie Flippin were visitors of Mrs. F. L. Davis Saturday.

Mr. Allen Morris, of Miami, Texas visited Mr. W. H. Shuler and family Saturday.

Miss Velma Seabourne was the guest of Misses Virgie and Annie Davis Wednesday.

The Farmers Union of Scurry county met at the Bethel school house Thursday. The morning was spent in getting ready to attend to the business in the afternoon.

Promptly at 12 a bountiful luncheon was spread to all present. The house was called to order promptly at one o'clock. An invitation was given to outsiders to listen to a speech or two. Mr. F. I. Townsend in an able speech told of the needs of the farmers to organize themselves together as the business men of other branches had done.

The meeting was well attended.

Crops are growing nicely here now. Maize and feed stuff are nearly made. Cotton has been blooming for two weeks and is putting on fruit fast. Grass hoppers are thick as ever, but aren't doing any great damage as crops are too far advanced. There are good prospects for a bumper crop here now.

Mr. Will Abbott gave a party to the young folks Thursday night, which was well attended, not withstanding the shower that unexpectedly blew up, all reported a good time. Refreshments were served in the form of cake and ice cream to all who attended. Snap and the usual games were indulged in.

The showers Saturday morning prevented Bethel from playing Polar as intended, so the boys went to Crowder. Bethel won the first game easily making 7 scores to every one of Crowders. Bethel won the second game 10 to 3. Womack and Flippin were the Bethel batteries for both games. The features of the game were the playing of Wren, Bridgeman and Flippen. Womack allowed only 4 clean hits in two games.

A nice crowd attended the singing services at Bethel Sunday evening.

Mr. J. E. Davis and wife Sunday with W. B. Seabourne.

Joe Seabourne and Harold Freeman have gone to help with the harvest on the place.

Several Bethel young people attended the party at Mr. Brown's Saturday night.

Warner Flippin and family Sunday with W. W. Davis.

Joe Key returned from New Mexico a few days ago.

—MARK TWAIN.

## FLUVANNA.

Good rains have visited this vicinity within the last ten days which has revived everything. Crop conditions will now improve fast. A large acreage of feed has been planted since the rains. What stuff that was up is doing fine and promises good. Threshing has just opened up this week and will be the order of the day for the next ten days.

J. D. Letcher was transacting business in Abilene the first of the week.

Mr. E. L. Sewalt gave up control of the Miller Hotel last week and will move with his family to New Mexico within the next few days. Mr. A. T. Collier has taken charge of the hotel.

Mr. and Mrs. Will Tankersley lost their baby Monday. It was only a few hours old, and had apparently been doing well up to within a few minutes of its death.

Olin Hardy business editor of the Signal transacted business here Saturday.

Mr. and Mrs. Standifer of Ganado returned to their home Monday after

a two week's visit with Mrs. Standifer's parents, Mr. and Mrs. J. H. Whitaker.

Mr. J. R. Jenkins recently purchased him a new Ford car.

Mr. Watt Collier and family motored over from Colorado Sunday and spent the night with his brother, J. S. Collier, returning Monday.

B. N. Green and J. S. Daniels of Gail were over Monday after freight for their merchants.

If you want bargains that you couldn't find at the cost sales, go to C. R. Fellmy. He has 'em.

## NOTICE

A circular that has been placed on the streets might be misleading to some of my customers. Mr. C. W. Payne has never been a partner of mine, but did work for me on a percentage basis for two months and left my employ without notice and in debt to me.

I am still at the same place and expect to remain there. I have another car and buggy painter and guarantee to do your work right.  
M. M. ADAMS

## SHERIFF'S SALE

No. 7135-A. McCullough Hardware Co. et al. v. Schneider-Davis Company.

In the District Court for the Fourteenth Judicial District of Texas, Dallas County, Texas.

By virtue of an order of sale issued out of the Honorable District Court for the Fourteenth Judicial District of Texas, being the District Court of Dallas County, Texas, on the 13th day of May, A. D. 1915, in the case of McCullough Hardware Company et al. v. Schneider-Davis Company, No. 3135 A to me, a sheriff, directed and delivered, I have levied on this 12th day of June, A. D. 1915 and will between the hours of 10 o'clock a. m. and 4 o'clock p. m. on the first Tuesday in August, 1915 it being the 3rd day of said month at the Court house door of said Scurry county, in the City of Snyder, proceed to sell at public auction, to the highest bidder for cash in hand, all the right, title and interest which W. A. McCullough and McCullough Hardware Company or either of them had on the 28th day of November, 1910, on the following described property to wit:

The north-west quarter of Section 214, block 97, as said section was surveyed for the common school fund for the State of Texas, by virtue of certificate No. 43-5609, issued to the Houston & Texas Central railroad Company, said premises containing 160 acres of land more or less and being situated in the county of Scurry, in the State of Texas, and being the same land conveyed to the said plaintiff, W. A. McCullough by deed from J. Q. Richardson and M. L. Richardson, of date, April 28th 1910 to which deed and the record thereof reference is here made for more particular description. Such property being levied upon as the property of W. A. McCullough and McCullough Hardware Company to satisfy a judgment amounting to \$698.01 with \$12.40 costs of court in favor of Schneider-Davis Company, a corporation.

Witness my hand this 12th day of June, A. D. 1915.

W. A. MERRELL  
Sheriff, Scurry County, Texas

Mr. C. I. Jaeggli was here Monday from Hermleigh and said every thing is looking pretty good.

Burlap wheat and oat sacks at Coates Mercantile Company. 1tf

Mr. W. W. Echols of Hermleigh, called Monday at the Signal office in company with his grandfather, Mr. A. F. Wilson of Nashville, Ark. This is Mr. Wilson's first visit to West Texas and he likes the country fine. He has a number of relatives at Hermleigh, is proud of the fact that when he is there and gets all of the bunch in line, there are five generations of them. Mrs. Wilson is with him and they expect to remain here abouts for several weeks.

Burlap wheat and oat sacks at Coates Mercantile Company. 1tf

Mr. and Mrs. W. W. Hamilton arrived at home in Snyder last Sunday directly from San Francisco, where they went on their wedding trip. They will be at home in their own residence in West Snyder.

Burlap wheat and oat sacks at Coates Mercantile Company. 1tf

FIN, FUR AND FEATHERS, Opera House, Saturday the 10th. Matinee and night. 4

## AN IMPORTANT ADDRESS.

### SPLENDID REASONS FOR SUPPORTING THE SACKETT RESOLUTION.

Executive Committee for the Advancement of Higher Education in Texas Urge That This Amendment Prevail.

#### TO THE VOTERS OF TEXAS:

Among the Constitution Amendments to be voted on July 24th, is House Joint Resolution No. 34, better known as the Sackett Resolution. This proposed amendment concerns the State institutions for higher education, and we, the undersigned, desire to commend it without reserve to the people of the State, and to express the unqualified belief that the best interest of the State will be promoted by its adoption.

It is agreed by all who are familiar with the subject, that the existing provisions of the Constitution regarding these institutions are unsatisfactory. At present no money can be appropriated out of the general revenue for the erection of buildings for the University of Texas. This inhibition is the most serious obstacle to the growth of the University. Section 14, of Article 7, of the Constitution, now reads:

"The Legislature shall, also, when deemed practicable, establish and provide for the maintenance of a college or branch university for the instruction of the colored youths of the State, to be located by a vote of the people; provided, that no tax shall be levied, and no money appropriated out of the general revenue, either for this purpose or for the establishment and erection of the buildings of the University of Texas."

It is passing strange that the inhibition against the use of money out of the general revenue should appear as a "rider" in the section which provides for the establishment of a school for negroes. The urgent need of the buildings has been repeatedly stated by the board of regents in the most emphatic terms. The proposed amendment does not give the University any buildings; it merely empowers the Legislature to appropriate money for that purpose. Who would contend that the Legislature ought not to have that power?

The relations of the Agricultural and Mechanical College to the University are not satisfactorily determined by the present provisions of the Constitution. Nobody knows to a certainty what these relations are. Technically, by Section 13, the College is a "Branch" of the University. Is it, then, lawful to appropriate money out of the general revenue for buildings for the College? It has generally been held that it is lawful; but at least one governor has held that it is not. There is the ever present danger that after the Legislature has voted money for buildings for the College, the appropriation will be vetoed by the Governor on Constitutional grounds. Surely this uncertainty ought to be removed.

These two are serious objections to the Constitutional provisions as they now stand. The benefits to be secured by the adoption of the proposed amendment are of prime importance.

1. The Legislature will be authorized, in its discretion, to appropriate money for buildings for the University, the Agricultural and Mechanical College, the College of Industrial Arts and to provide otherwise for their support.

2. The Agricultural and Mechanical College will be separated from the University and made an independent college.

Conditions demand that this be done. In no other way will the College be able to be of the highest service to the people.

The amendment provides for no bonds. It lays no burdens upon the people.

3. In addition to separating the A. & M. College and the University, it also provides that the College of Industrial Arts for white girls shall be permanently located at Denton, with its own governing board. That school has no Constitutional status, and can, therefore, be moved by an act of the Legislature.

4. Under the terms of the proposed amendment a part of the permanent University fund will be transferred to the A. & M. College. The College undoubtedly has an equity in this fund. The College is a branch of the University. Of the

funds set aside for the purpose of creating the permanent University fund, one million acres were appropriated specifically for the University "and its branches." Again, the fact that the Legislature, in 1879, and in succeeding years, appropriated to the College a part of the revenue from this fund, established the fact that the public men of the time when the Constitution was adopted, believed that the College was entitled to a share in the permanent University fund. The Sackett resolution recognizes this equity and proposes a division which was considered just and fair by the Thirty-fourth Legislature.

The substance of the proposed amendment has been endorsed by the Democratic party, the Republican party, the Farmers' Congress, the State Farmers' Institutes, and by the Texas Bankers' Convention.

The amendment to Article 7, of the Constitution of the State of Texas, providing for the separation of the University of the State of Texas and the Agricultural and Mechanical College, known as the Sackett Resolution, is the response which the Thirty-fourth Legislature makes to these demands.

If the people were just establishing a system of higher institutions, they might well consider the plan of creating one comprehensive institution, whose functions should include all the activities now carried on by the existing institutions. There are strong arguments on both sides of that question. But the time for its consideration has passed. The Agricultural and Mechanical College has been in existence thirty-nine years; the University of Texas thirty-two years. Each has its own history, its own traditions, its own individuality, its own ideals. It is too late to think of consolidating them. They are now, in effect, two independent institutions and have always been so. The technicality under which the College is considered a part of the University, is little more than a legal fiction. It has led to uncertainty and friction, and has stood in the way of the full development of the Agricultural and Mechanical College. The ideal for the College is a school of technology of the first rank. It can never become such while it remains a "branch" of another institution, with vexatious questions continually arising, which affect its very existence.

5. Those who have for years urged the complete separation of the A. & M. College and the University, have done so on the broad ground that separation would be best for both schools. They believe that since these two schools have different spheres in which to work, their usefulness and efficiency will be enhanced by removing any feeling of dependency on the one hand, or responsibility on the other. They should be free from any alliance whatever, each left to its own management, to work out its own destiny, in its own way.

Their work leads along lines that naturally diverge, and so long as one is a branch of the other, friction and discord cannot be avoided.

"A University of the first class," and an A. & M. College, such as Texas ought to have, can be more easily attained by giving to each the same status in law.

We cannot imagine a condition fraught with more contention than would exist if both schools were forced under one yoke, each pulling in opposite directions, a condition liable to occur, unless this amendment is adopted.

Texas is so large and her agricultural interest so extensive and varied, and the need for mechanical arts so great, that the A. & M. College will never have cause to encroach upon the domain of the University.

The field for a university of the first class, in Texas, is so gigantic that the mind cannot grasp its boundaries. A school equipped as the University should be to furnish the most thorough training in all the professions, arts and sciences, will challenge the highest admiration of all the people of Texas, who love knowledge and progress, and the work of both (the University and the Agricultural and Mechanical College) together with the normal schools and the College of Industrial Arts, will meet every demand of the State for higher education.

The adoption of this resolution, on the 24th of July, we believe will wisely and permanently settle all differences between the A. & M. College and the University, and establish them on a sound and equitable basis, and forever remove any just cause for friction.

## Better Construction at Lower Cost

STUDY THESE CUTS

### What Interlocking Tile Is

It is a general wall-building material, suitable for use in every character of structure, from the cottage and small store to the mansion and skyscraper.

In it are combined the "cooler in summer, warmer in winter," and lightness of weight features of the hollow wall, with the strength of brick and concrete; in addition, it interlocks in the wall, making the strongest and most rigid wall that can be built. Every unit is a header.

Interlocking Tile is not to be confused with ordinary square tile, which is only designed and intended for partition, and other interior non-load-bearing walls.

### WHAT INTERLOCKING TILE DOES FOR ITS USERS

It builds at amazingly low cost (little more than that of good frame) walls that are non-conductive, light in weight, damp proof, comfortable the year around, and more efficient in every way. It increases the buying value of the building dollar.

Write for complete information. Government reports, etc.

FRASER BRICK COMPANY, Sole Manufacturers  
DALLAS, TEXAS

### POISON THE GRASSHOPPERS

The following formula for a poison for grasshoppers is being successfully tried out in many sections:

(1) Bran, 20 pounds; Paris green or arsenic, one pound; syrup, two quarts; three oranges or lemons (preferably oranges), and water, 3 1-2 gallons. Thoroughly mix the poison and bran dry. Squeeze juice of the fruit into the water, or better still, cut up the fruit, run through a meat chopper and add entire mass to the water. Dissolve the syrup in the water and with this mixture thoroughly wet the bran and poison, already mixed. Sow broadcast and put in piles among the hoppers very early in the morning.

(2) Mix together 1 part Paris green, two parts salt and forty parts fresh horse droppings by measure. Moisten with water until soft but not sloppy.

Distribute liberally in fields where hoppers are at work.

It is useless to say that these are poisons and that care must be taken.

Plenty of fruit now ripe and ready for use. More coming on. Price 75c at orchard and one dollar per bushel delivered in town.

W. E. SORRELS,  
3 miles East of Ira

George Evans returned a few days ago from the Harlingen country. He went there to get relief from rheumatism and says he was benefited. He says that is a good country. The land is rich, but the people there have draw backs, same as elsewhere. He saw the Lowes, B. C. Davenport and Jim Adams and they all seem to be doing well. Jim Adams sent word to the Signal that he hasn't had any malarial trouble and in fact weighs a few pounds more than ever.

To those interested in a writing school will find it much to their interest to communicate with Prof. M. R. Crawford, Ira, Texas. He is now conducting a Normal Writing school and will be pleased to consult with anyone interested in knowing the art of writing.

For particulars address:  
M. R. CRAWFORD,  
341 Ira, Texas

Bob Wilson of near Ira was here Monday with his big fine black horse.

### MARGARET VALE

Southern Beauty, and President Wilson's Niece, one of cast of Noted Players in "A Gilded Fool."

Miss Vale whose striking personality and youthful charm is bound to excite interest in spectators of "A Gilded Fool" plays the part of a young girl with a distinction and in-

dividuality that suggests all the culture and refinement of the best blood of the south, which is hers in full measure.

She is the daughter of Rev. Dr. Smith Flinn, a noted Presbyterian divine of Columbia, South Carolina. Besides being an actress of unusual ability and distinctive genius, Miss Vale is an author, having written a number of short stories and poems of merit. Altogether the distinction of being the President's favorite niece is by no means Miss Vale's sole claim to fame.

Rector's Cabaret Transformed Bodily to the William Fox Studio for "The Gilded Fool."

Everybody throughout the country has heard of Rector's famous restaurant, New York's smartest place of refreshments, but the tall prices charged and the general expensiveness of the place has kept away thousands who would have liked to visit it.

Now every man, woman and child in Snyder will have an opportunity to participate in the Rector Revels. One scene in the "Gilded Fool" shows him in the smart restaurant with a party of gay friends. Corks pop, eyes flash and diamonds gleam on white bosoms. Wonderful toilettes, the smartest creations of Paris and New York, mingle with the black and white of the men's evening dress, typifies the very smartest aspect of New York Millionaire night-life. The cost of this scene alone was \$5,000.00 but when you see it you will agree it was worth it.

William Farnum Talented Playwright and Dramatic Star who Lost his Life in the Destruction of the Lusitania is to be seen at his Best in "The Gilded Fool."

B. William Farnum dramatic star of Ben Hur, the Prince of India, The Sign of the Cross and other heroic dramas, portrays the leading part in this great film production.

"A Gilded Fool" as played by Nat Goodwin. A magnificent and stupendous picturization of one of America's greatest Stage Successes in which William Farnum portrays the old adage "A Fool and his money are soon parted."

### Huerta Is In Jail.

Gen. Huerta and his leading officer, Orozco, were kept under guard in El Paso to prevent them from jumping their bonds and getting into Mexico, where it is suspected they have loyal men in arms ready to start something.

Notwithstanding this precaution it is said that Orozco has disappeared. The old general was locked up under a new charge and investigation is in progress to find who else may be in the revolution plot.

### Nothing Excels

The high grade of fruit, canned goods and groceries now in stock. All lines are pure and fresh. No shelf worn or out of date merchandise offered as my store is new, my goods are new and it will make you feel like a new person to use the best the market affords. Remember, next door to the post office.

### RELLA WILLMETH

Mr. E. E. Grimes returned Saturday from his trip to California, the Panama Exposition and other points of interest in the great northwest. He hasn't had time yet to tell us about half the things he saw. Mrs. Grimes has gone to visit her mother in Oklahoma City and will probably not be home for several weeks.

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without it tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

## PELLAGRA AND HOOK WORM PERMANENTLY CURED

For eight years Dr. W. J. McCrary, a graduate practicing physician, has had the most remarkable success in curing Pellagra and Hook Worm diseases in his practicing territory in Northern Alabama, and now these wonderful Remedies are being offered to sufferers over the entire South. Cures have been effected in the very worst stages of Pellagra and Hook Worm by Dr. McCrary's Remedies, and the cure is permanent—not a temporary relief. Patients bed-ridden and out of mind treated seven and eight years ago for Pellagra were cured in a few weeks, and are in fine health today. Hundreds of testimonials are gladly given by these patients of Dr. McCrary.

TREATMENT FREE OF CHARGE IF WE DO NOT CURE YOU. WE ALSO DIAGNOSE YOUR CASE AND ADVISE YOU FREE. WRITE FOR BOOK AND FULL PARTICULARS TODAY.

### TEXAS SOAPSTONE.

"There is material in Llano County," says Dr. Wm. B. Phillips of the University Bureau of Economic Geology, "to which attention can be drawn, and that is the deposits of excellent soap-stone, suitable for stationary washtubs, laboratory and chemical desk tops, stoves for fireless cookers, etc. One of these deposits is north of the town of Llano and east of Valley Springs. The other is east of Llano about seven miles and close to the Llano River. We have some of these stones under examination. They saw easily, have close and dense structure and a crushing strength of 3,000 pounds per inch, with a weight of 169 pounds per cubic foot. They are practically fireproof.

"Another material to which attention may be drawn is the beautiful purplish red oxide of iron that occurs in Mason County. This makes an extraordinary paint. It grinds easily to an impalpable powder, has a soft and greasy feel, takes oil well,

and presents a very handsome appearance. "I have no quarrel with those who wish to go into large things and who have the necessary means. We are all engaged in the effort to develop the resources of this State, but I do think that if some of the money that has been foolishly spent in searching for oil and gas, where the chances were against success, had been spent in the endeavor to utilize other things, we would now be in better condition."

The people at Spur held a preferential post master primary. There were five men and one woman in the race and the woman, Mrs. Lena Evans, was elected.

Bishop E. D. Mouzen of the Methodist church has gone to Brazil to hold conferences for the church in that far away country.

Mr. W. R. Wren was here Monday and his intimate friends had to look at him twice to be sure of him. He had recently shaved off his whiskers.

### Fend In Georgia.

Columbia, Ga., July 3.—Extraordinary precautions are being taken by the Sheriff's office and coroner to prevent an outbreak when the inquest is resumed Monday over the bodies of Epps and Max Melton and John Leake, victims of a triple assassination, whose bodies were found in the Chattahoochee River three days ago.

The Melton and Teal factions are armed, and a pitched battle at the inquest is feared. Clues continue to be unearthed, which gradually are leading up to the point where the three men were murdered. Witnesses were found who heard shooting near Blanton's landing Sunday afternoon, and when they started to investigate, three witnesses saw three men running away. It was at Blanton's landing that they saw the three murdered men in an automobile with the Hargett brothers and John Land, Sunday afternoon.

The fact that the automobile party drove through the county where Epps Melton killed Manse Teal last August is regarded as significant.

Mrs. Sed. A. Harris leaves today to visit her parents at Hico.

### CHRISTIAN SCHOLAR BECOMES ASSASSIN

Frank Holt had a college education and conversed in several languages, yet he was influenced by the kind of reading he indulged. The horrors of war over came his mental poise.

J. Pierpont Morgan is immensely rich, he exerts a moving influence in finance and politics. He is financial agent of Great Britain. He recently sanctioned a loan of \$100,000,000 to France and is said to be about to grant the same accommodation to England. These vast loans will enable those countries to carry on the war a little longer. Without outside aid the Allies could probably not supply necessary munitions. Morgan has consented to let them have the needed funds; therefore Morgan makes it possible to prolong the struggle.

In his frenzy Frank Holt believed that Morgan could stop the war if he would, and upon this idea, his mind dwelt upon the horrors being reported everyday and blamed Morgan for it. On this point his reason fled and thus a refined scholar, a man of peace goes into history as an assassin, a bomb thrower, a murderer.

Lubbock is going to build three miles of sidewalk.

Pool halls are being opened at Temple.

Three hundred Masons in Fort Worth witnessed the laying of the corner stone of the \$75,000 school building at the Masonic Home last Monday.

FIN, FUR AND FEATHERS. Opera House, Saturday the 10th. Matinee and night.

Deputy Sheriff H. E. Watson was shot to death at Longview Saturday by County Attorney F. A. Taylor.

Gainsville people will build a bridge across Red River seven miles north of that town.

Gen. Huerta came to El Paso to visit his daughter and was met by his old officer, Orozco. Suspicion was aroused and the two noted Mexicans were arrested.

### REBEL LEADERS IN CONSULTATION

Washington, D. C., July 5.—Miguel Diaz Lombardo, minister of foreign affairs for the Villa government, has joined Enrique Llorente, Villa's Washington representative in Washington. The Villa leaders are conferring informally with officials, and have recorded their willingness to enter into peace negotiations with Carranza, looking to the establishment of a new provisional government which will secure the immediate recognition of the United States.

The arrest of Huerta is a source of satisfaction to both the Carranza and Villa factions. Government officials are hoping that the efforts of the United States to prevent a counter revolutionary movement, will tend to bring Carranza and Villa elements together in a preliminary peace conference.

### To the Voters of the 105th District.

It has been said by a few that an "administration man" should be elected to the Legislature to succeed Mr. Baker. In other words, that a man should be elected who is pledged by his past affiliations to support whatever measures the Governor may approve. If this contention is correct then what is the use of electing representatives at all? If the function of the Legislative department of our state is simply to put into effect the ideas of the executive department, then why not save expenses by abolishing the legislative department and vesting all power in the executive department? This shows the logical effect of such a contention and illustrates its unsoundness. Of late years in Texas, partisan lines have been drawn so tightly that the fate of a measure depended largely upon where it originated, and not on its merits. This is an unfortunate condition, and one not calculated to advance the best interests of the state. The remedy is to elect men who will pass judgment on measures according to their merits and not according to whether they are sanctioned or opposed by the administration.

In voting for candidates for office in the past, from precinct officers up, I have never voted against any man because he did not agree with me as to who was the best man for another place. I never voted against any man because he did not support the same man for governor that I supported. Therefore I have no hesitancy in asking this same consideration for myself. And if my friends confer upon me the honor of being representative from this district, I pledge myself to vote in the same unbiased, unprejudiced way upon such matters as may arise. I shall endeavor to vote upon each and every measure advocated by Governor Ferguson that I believe to be for the good of Texas and of this district and I will oppose any measure that I do not think will have that effect. If elected, I shall do my best to vote right. I shall study each measure carefully as far as possible, and do my duty in casting each vote, as far as my ability and knowledge go. I do not think any man worthy of this office would allow his acts to be determined by the attitude of any man. I do not think any man worthy of the office who would favor a measure simply because the Governor favored it. I think a representative would violate his oath of office if he voted on any measure from either of these considerations, instead of from a conscientious study of the measure. I stand ready and willing to join hands with Governor Ferguson in all things that will make Texas a greater Texas, and in all things for the good of this district. And I will oppose him in anything that I do not think meets these requirements. In this connection it may be well to state that I have been informed that the only bill of importance at all likely to come up at the proposed special session of the Legislature is one intended to put the penitentiary system on a better basis and I believe that Gov. Ferguson has the business ability to plan a bill that will achieve this desirable end, and therefore one that will merit the support of all. If a bill meeting these requirements is proposed, I shall unhesitatingly support it.

Respectfully,  
HARDY M. BOYD.

In Memory of J. F. W. McFarland  
Whereas it has pleased our Supreme Sovereign of the Universe to Transfer from Dunn Lodge 1273 W. O. W., Sov. J. F. W. McFarland to the Grand Lodge in Heaven.

Sov. McFarland was a charter member of Dunn Camp, a member of the M. E. Church, South for twenty years, being 58 years old at the time of his death.

We bow submissively to the calls of our Supreme Ruler and say "Thy will be done."

Bro. McFarland's voice in the lodge and in the home is forever stilled, but his kindly words and uprightness of life will never die.

Resolved the Dunn lodge loses a true member, the family a loving father and devoted husband.

Resolved a copy of the above be recorded on the minutes of Dunn Lodge.

By order of Lodge, June 15, 1915.

J. W. KIRKPATRICK

Mr. and Mrs. John Whatley were in the city shopping Thursday.

### AMONG THE MERCHANTS

Mrs. G. A. Watson and baby Dorothy Beatrice, and brother, Mr. Gillis Stewart of Sabinal, Texas, are the guests of relatives in this city.

Mrs. C. B. Alexander and children are visiting relatives in Georgetown for several weeks.

Blackard Brothers have installed a revolving electric fan which keeps the breeze on the move.

Mrs. J. B. Jones, of Blooming Grove, is the guest of her sister, Mrs. J. H. Sears.

H. R. Guinn, an experienced grocery merchant of Hilton is now with J. W. Templeton. His family will arrive later, or as soon as a residence can be secured.

The big double action fan at the Opera House Theatre has a tendency to cause a fellow to feel that he is taking a summer trip in the frozen regions while sitting in the auditorium viewing the photo plays at this popular amusement place.

J. A. Carr of Anson is here prospecting.

E. C. Neely of Gainesville has accepted a position with the Owl Drug company.

Prof. and Mrs. Jno. W. Leftwich are taking a Normal course at Mineral Wells, preparatory to taking up the Hermligh School work at the beginning of the term this fall.

Chas. Yonge is now with C. R. Fellmy, the gent's furnisher.

The Lyric Airdome reports a rapid increase in the attendance each night and the people are enjoying the open air movie show. The business is being properly managed by the proprietor, Mr. Merrill, who is strictly onto his job.

Mr. and Mrs. Joe Caton, of the Caton-Dodson Dry Goods Emporium, have gone to Mineral Wells for a season of recreation and pleasure. Generally Mr. Caton takes his trips alone but this time Mrs. Caton is with him.

Joe Caton leaving on his vacation.

Mrs. Joe Caton also decided to go on a vacation.

Mrs. Weldon Coates is visiting at Omaha, Texas.

## REMEMBER

That we have every facility for turning out neat printing of all kinds. Letter heads, bill heads, office stationery, etc., furnished at the lowest prices first class work will permit.

### COL. BALL FAVORS SEPARATION.

June 15, 1915.

Hon. R. T. Milner,  
Bryan, Texas.

Dear Mr. Milner:

I am not only decidedly in favor of the permanent separation of the A. & M. College from the Texas University, but I am particularly well pleased with all of the provisions of House joint resolution No. 34, which is to be voted upon by the people of Texas—July 24th.

This amendment to our Constitution provides, as it should, for an equitable apportionment of university lands between the University, A. & M. College, Prairie View Normal and Industrial College in a manner, so I understand, satisfactory to each institution.

By its terms the medical branch of the University is permanently located at Galveston, a most admirable domicile therefor.

In addition, the A. & M. College of Texas is made an independent college and permanently located in Brazos County, and the amendment authorizes the establishment of junior agricultural colleges, subsidiary thereto and under the government of the A. & M. Board.

The Prairie View Normal & Industrial College is well located in Waller County, and by the terms of the amendment will be permanently established there, as a branch of the A. & M. College, governed by the same Board.

The College of Industrial Arts will continue at Denton, Texas, where it is doing a splendid work, and be maintained as an independent college.

The authors of this resolution have done well in making its purposes perfectly plain, so that all voters may properly understand its effect, and I sincerely hope that the amendment will be adopted by a very large majority.

I consider the provision of the resolution authorizing the establishment of junior agricultural colleges, subsidiary to and under the government of the A. & M. Board, as a very important one.

Texas is so large and our agricultural interests so pre-eminently important, that I feel sure that in time this provision will be evaled by the establishment of co-related institutions in different sections of the State, to supplement and carry out the great work of the Agricultural & Mechanical College.

Whatever differences of opinion may have existed, as an original proposition, as to the separation of the A. & M. College from the State University, ought now to be composed, as public thought for many years, evidenced by many party platforms, declarations of commercial bodies and resolutions of agricultural and labor organizations, has crystallized as to the necessity of such separation.

The idea of one great university, embracing in its sphere of activity every field of learning, has some attractions, but as a practical proposition such an institution is not now feasible.

I believe in a great University at Austin, but believe just as strongly in a great Agricultural & Mechanical College, separately maintained and managed.

In the nature of things, a student body, embracing the learned professions, with an increasing demand for raising its standard to meet that of other great universities, is not best adapted for the education of boys content to receive a liberal college education, or whose parents are unable to do more for them, and who desire special training in agricultural and mechanical arts.

The expenses of attendance upon a college situated as is the A. & M., is necessarily less, and that is at item which appeals strongly to me, as the difference in cost, sometimes means inability to finish at an institution of learning.

The University, as a part of our educational system, will serve a great purpose in giving Texas boys the advantages of a first-class university education.

The Agricultural and Mechanical College is another important unit in the system, providing a liberal education, as well as special training, and releasing the student body at an earlier period in life than a university can, with the same number of school years.

With the adoption of this amendment, carrying out the wishes of the thoughtful friends of both the University and the A. & M. College, I look to see the unfortunate jealousy which has existed between the friends of these institutions disappear forever, and a generous co-operation arise in its stead, which will insure the future greatness of these immensely important factors in our educational system.

Very truly yours,  
THOS H. BALL.

We Help Those Who Try to Help Themselves

## C. W. Post Home Farms

We are building up a community of actual home owners and are anxious to interest good, dependable men in our undertaking. We will sell raw land on which we will place improvements and charge against the land. In other words should you buy 160 acres, we will improve the same with a 4 or 5 room dwelling (with water piped into the kitchen), well and windmill, sheds for chickens, hogs and stock, and a silo if wanted. These improvements will cost from \$1500 to \$1700. We will not sell land unless it is to be farmed—no speculation.

One can buy 160 acres 10 to 15 miles from Post City, but near a school, at \$20 to \$22 an acre, plus the improvements mentioned above. We will sell you the land and improvements for a payment of \$2 per acre (\$320) down and \$1.75 an acre (280) per year at the unusually low rate of four per cent interest. Notes on or before. Payments cover both land and improvements.

Farms on the plains will be sold during 1915, to be occupied early in 1916, for \$200 an acre down and terms as above. Interest does not start until you go on the land. Next payment Jan. 1, 1917.

Also have just classified and put on the market the breaks, or grazing land. These lands will sell from \$6.00 to \$12.00 per acre. \$1.00 per acre cash, 50c per acre per year until paid out at 6 per cent interest. This goes in tracts of 640 acres and up.

# HUNTER'S GREAT CLEAN-UP SALE

Starts Saturday July 10th and closes Tuesday Aug. 3rd

## 21 Days of Rapid Selling

There comes a time with every well kept dry goods store that there should be a general cleaning up of all odds and ends. It is our policy at the end of every season to clean up all that season's goods and start the new fall season with brand new up to the minute stuff, therefore we have gone through the whole store and rounded up our entire stock of merchandise and branded them with red tags and marked them in plain figures at greatly reduced prices. You may come to this great clean up sale expecting the most unusual bargains in high grade merchandise that has ever been offered to the buying public of Snyder and surrounding territory.

This sale like all other sales put on by us shall be a genuine cut price, bargain sale. Everything in the store goes in this sale, nothing reserved-- positive satisfaction from start to finish, or your money back if you want it.

### TOO MANY SUMMER GOODS

We do not want to carry them over and we will not carry them over. we need the room for fall goods already bought and beginning to come in and above all we need the money that is invested in them, therefore we have cut the price regardless of what they cost. Do not take our word for it, but come opening day and see for yourself. Everything reduced, nothing is reserved, we must clean them out. Everybody in Scurry County who knows us will tell you that what we say in this advertisement will be true. Come the first day of the sale, come every day, tell your neighbors and friends about it and bring them along with you. It is to be a genuine cut price sale from start to finish FOR CASH. Nothing charged during the sale, please do not ask it, for it is the immortal cash that buys them at these prices and you can afford to borrow the money at 10 per cent to buy these goods with.

Plenty of help has been secured to wait upon you, so that you will not have to be wait. We are going to look for you, don't disappoint us. People will come for miles and miles around to this great sale, so we invite you all and assure you that your presence and patronage will be appreciated. we have held other sales in Snyder, we have never fell down on one yet and we do not expect to fall down or fail in making this one the greatest one we have ever held yet and with your cooperation, it will be.

**IN CONCLUSION:** Don't take anybody's word for it, but come and see for yourself. We have spared no pains to make this great clean up sale a great success. It will in every sense be a great clean up sale. Meet your friends and neighbors here.

Doors will be closed all day Friday, getting ready for the sale and marking down the goods. Last but not least, we are putting this sale on all by ourselves, thus saving the extra 10 per cent usually paid to a sales expert. This extra 10 per cent we will endeavor to divide with you. So be sure to attend this sale, for if you don't buy you will be missing the chance of a life time to save money.

**THE STATE OF TEXAS**  
County of Scurry

I, W. T. Skinner, Clerk of the County Court in and for Scurry County, Texas do hereby certify that the above and foregoing is a true and correct copy of the Delinquent Tax Rolls, arranged numerically as to abstract, Lot and Block number, as reported by W. M. Curry, Tax Collector for Scurry County, Texas, for the year 1914 and prior years.

Given under my hand and seal of office, this 15th day of June, A. D., 1915.  
(SEAL) W. T. SKINNER, County Clerk, Scurry County, Texas.

**A. & M. COLLEGE AND UNIVERSITY  
DIVORCEMENT ELECTION JULY 24.  
BURGES ARGUES FOR 34.**

The following unanswerable reasons for the separation of the A. & M. College and the State University are from Hon. Richard F. Burges, member of the Legislature from El Paso County. Mr. Burges is a graduate of the University and is one of the strongest and most influential members of the University alumni: Hon. R. T. Milner,

Manager Executive Committee for the Promotion of Higher Education, Bryan, Texas.

Dear Mr. Milner:

In my opinion, House Joint Resolution No. 34, commonly known as the Sackett Resolution, should be adopted at the election to be held on the fourth Saturday, which is the 24th day of July, for the reason that the people of Texas, both as evidenced by declarations in Democratic platform, by resolutions of representative bodies of farmers, and by successive votes in the State Legislature, have definitely expressed their desire that the University of the State and the Agricultural and Mechanical College should be separated from each other and each given a distinct and independent status.

The Sackett Resolution presents this issue to the people of Texas in the simplest form. No question of bond issue is involved in it, and no proposal of a permanent tax levy. The division of the permanent endowment fund, as embraced in the resolution, was arrived at by mutual agreement and compromise, and is probably as just as can be reasonably expected.

The especial advantage to the Agricultural and Mechanical College will be that the College will be removed from the equivocal and uncertain position in which it now stands in perplexing uncertainty as to whether or not it is only a branch college of the State University, subject to the constitutional inhibition against appropriations for permanent buildings.

The equally important advantages to the University from the adoption of the Sackett Resolution will be the removal from the Constitution of the unwise and unnatural provision forbidding appropriation for permanent buildings. It is difficult to conceive how the University (which has long since outgrown its clothes) can ever be suitably housed until this provision has been voted from the Constitution, as would be done by the adoption of the Sackett Resolution.

I earnestly believe that only two intelligent courses are open to the people of this State concerning the University and the Agricultural and Mechanical College: Either they must be consolidated in government and organization, or they must be completely separated and allowed to work out their separate destinies.

If former expressions of the will of the people are still indicative of the desire of the people of this State, then the two schools must be separated.

That is the sole real issue to be voted on in July. It is not complicated, nor encumbered by any proposals of permanent bond issues, permanent tax levies, or other incidentals or side issues.

If the Sackett Resolution is adopted, a clear and definite policy will have been established by the people, and it will only remain for the Legislature and the governing authorities of the University and College to carry out the will of the people.

(Signed)  
RICHARD F. BURGES,  
Of El Paso.

**PROF. DOUGHTY FAVORS SEPARATION.**

Prof. W. F. Doughty, State Superintendent of Public Education, is unalterably in favor of the separation of the A. & M. College from the University. In a letter to the Manager of the Committee for the Promotion of Higher Education in Texas, he says: "In my opinion, both schools will make greater progress under separate boards, and, no doubt, separation would end the envious feeling that seems to exist on the part of some zealous friends of both institutions."

Snyder, Texas

Over in the Philippines the Carabao is the general beast of burden. For all kinds of hauling this short-legged, long-horned buffalo is used.

It is more than a mere coincidence that the principal brand used with the Red-Star-Green-T oils in the Philippines is a picture of this animal with its name "Carabao."

To the native of these islands the Carabao represents service, valuable service continuously performed in many ways. What the horse was to the Texas ranchman in the early days, the Carabao is to the Philippine native.

To Texaco products are pictured to the native by the Carabao, indicating the service and its character, the quality and its usefulness. The same quality and service are available for you in your town under the Red-Star-Green-T emblem of Texaco fame. Ask for them.
