NOTICE.

I am exclusive agent, of Scurry County, for the Post Home Farms and Ranches now being sold in Garza County, and I would like for all LIVE agents to get in touch with me at once. This land is selling very fast and any GOOD LIVE WIRE can make some nice business very easy. We have sold over 200 of these farms and the people are on them. Come up and let us show you what we have. There never was a proposition in Western Texas like this and probably never will be another. We want good people on this land and to do this we must have good agents. For further particulars write or phone,

We are building up a community of actual home owners and are anxious to inierest good, dependable men in our undertaking. We will sell raw land on which we will place improvements and charge against the land. In other words should you buy 160 acres, we will improve the same with a 4 or 5 room dwelling (with water piped into the kitchen), well and windmill, sheds for chickens, hogs and stock, and a silo if wanted. These improvements will cost from \$1500 to \$1700. We will not sell land unless it is to be farmed-no speculation.

One can buy 160 acres 10 to 15 miles from Post City, but near a school, at \$20 to \$22 an acre, plus the improvements mentioned above. We will sell you the land and improvements for a payment of \$2 per acre (\$320) down and \$1.75 an acre (280) per year at the unusually low rate of four per cent interest. Notes on or before. Payments cover both land and improvements.

Farms on the plains will be sold during 1915, to be occupied early in 1916, for \$2.00 an acre down and terms as above. Interest does not start until you go on the land. Next payment Jan. 1, 1917.

Also have just classified and put on the market the breaks, or grazing land. These lands will sell from \$6.00 to \$12.00 per acre. \$1.00 per acre cash, 50c per acre per year until payed out at 6 per cent interest. This goes in tracts of 640 acres and up.

Colorado River Near Normal

Austin, Texas, Sept. 19-The Colorade River is fast resuming its normal conditions, the recent flood hav-Drug and Press Association and ofing almost run out. With the passing of danger to the Austin dam from the fer to our people the Meritel line of flood, it now appears that the water peparations, made by the Association supply of the city will be effected. Since Friday the city's water supply has come from the reservoir, no water being pumped into the city's mains from the filtering trenches. The reser voir consists of four quadrants, each of 2,500,000 gallons capacity and the last of the quadrants was opened yesterday. Two of the quadrants were emptied in two days and at this rate the last quadrant will be exhausted by tomorrow morning and water must then again be pumped from the filtering trenches.

It is feared that the flood has resulted in damage to filtering trenches and it is probable that when the pumping is resumed the mains will be filled with muddy water.
