THIRTY-FOURTH YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, JUNE 18, 1920

NUMBER ONE

## SNYDER NEEDS NEW SCHOOL BUILDING

During April of this year a representative of the Division of High Schools of the State Department of Education visited the Snyder public schools and investigated the work in several high school classes. The Snyder high school already has nine and one-half units of affiliation, and the visitor of this year recommends that two more units be granted. This will make a total of twenty-one and one-half, provided that the specimens of work done are satisfactory. Many recommendations are made for the improvement of the Snyder public schools. Among the recommendations made might be mentioned the following, namely:

1. That a modern high school building be constructed as soon as conditions will permit.
2. That improvements be made in lighting facilities.
3. That a modern heating system be installed if the old building is to continue in use for any length of time.
4. That the elementary grade libraries be made standard for classified schools.
5. That, provided specimens submitted are satisfactory to the examiners, the following affiliation in additional subjects be granted: General Science 1 unit, Trigonometry 1-2 unit, and Commercial Arithmetic 1-2 unit.

With reference to the building at the Central school the report has the following to say:

"The Snyder high school is an antiquated, inconveniently arranged structure. It was not built according to present day accepted principles of school architecture. The lighting is insufficient and incorrectly arranged, coming from three sides in several rooms. If the paint were removed from the windows on the east and rear sides of the classrooms, much better light could be secured, and could be regulated with adjustable shades. The study hall is the only auditorium in the building, and it will barely seat the high school pupils with two in the desk. Clearly, Snyder needs an up-to-date modern high school building in order to do the community justice, and be in keeping with the general educational progress of the state.

In another place in the report further comment is made relative to the building arrangement.

"The lower floor of the building is occupied by the grades. Some of the rooms are very much crowded, there being from 45 to 60 pupils in them. Some of them are seated with double desks. These two conditions are conducive to some disturbance and disorder in the rooms, and render it practically impossible for effective work to be done. The supervisor was informed that the influx of people into this section to harvest the big crop of last year had caused an increase of about 170 scholars, and hence the crowded conditions. He was also informed that the authorities already are planning to relieve the unsatisfactory conditions in the grade rooms at the Central building by moving two grades to the ward schools, and employing additional teachers. This is a very commendable plan, and one which will protect the efficiency of the school, and its classification and affiliation, which would be greatly endangered under a continuance of present conditions."

## METHODIST CHURCH

Sunday school continues excellent. We are looking for you next Sunday. Fine fellowship and efficient teaching.

We received eight new members last Sunday. We were glad to welcome these into the work and fellowship of the church. We will have no preaching services at our church next Sunday as the pastor is at Teachers Western Training School at Dallas.

J. H. HICKS, Pastor.

The infant of Mr. and Mrs. W. B. Fenton west of Snyder died June 15.

## LABOR ISSUES NOT INVOLVED

Austin, Texas, June 7.—Governor Hobby gave out the following statement:

"I regret the necessity of sending troops to Galveston. The question is whether the best interest of the State shall be served or whether that interest shall be subordinated to a local controversy. Any issue with respect to labor organization or open shop organizations is not involved and I stand ready to protect either or both within the law and so long as that protection is not incompatible with the public welfare. The channels of trade affecting the life of the business of the state and affecting the living conditions and the occupations of all the people must be kept open and I shall exert the full limit of the state's power to accomplish that purpose. The supreme sovereignty of the state will be maintained at any cost. If commerce is not resumed now and if freight is not moved without interruption the responsibility will rest with the carriers. It will not be the fault of the state."

## MISSIONARY DELEGATES HOME FROM AMARILLO

Mrs. C. C. Higgins and Mrs. R. M. Stokes report a very profitable and enjoyable session of the N. W. Woman's Missionary Society at Amarillo last week. Snyder auxiliary feels very proud that our own Mrs. C. C. Higgins was chosen to represent this conference as Corresponding Secretary. We are sure Mrs. Higgins will make good and be a wonderful help to the different local auxiliaries of the N. W. Conference. It will be of further interest to many of our town to know that Mrs. Nat Rollins was re-elected as president again.

## Wheat Harvest in Hale

Plainview, Texas, June 14.—Hale County opens the new wheat crop season with almost a clean slate, so that it will not have to worry about getting care for the old crop. It is figured that there are about 65,000 bushels of last year's crop yet to move through here.

Plainview has shipped 644,800 bushels of last year's wheat crop. The wheat season is now on with a bumper crop, through a shortened acreage.

## Foard County Wheat Harvest

Crowell, Texas, June 14.—Most of the wheat in Foard county has been harvested, and within the next ten days thrashing will commence.

Harvest hands have been hard to get, but more laborers are coming in every day. It is thought that by the time thrashing starts there will be hands enough to finish this year's crop.

Miss Lila Curnette of Snyder, Texas, is visiting relatives and friends in Waxahachie.—Waxahachie Light. Clay says: Dear Paper—Enclosed find check for one dollar and fifty cents. For same keep sending the old friend to the valley.—Clay L. Epley.

## AT THE AUDITORIUM

B. F. Looney, candidate for governor, will speak at the city auditorium Thursday evening, June 24.

## Keller-Burt

Miss Eula Bert and Mr. John Keller of this city were married on June 13th, at Hermleigh.

The groom is a promising young business man of our city and the bride is one of our most charming young ladies with a host of admiring friends who wish for Mr. and Mrs. Keller a long and happy life and that their path may be strewn with roses.

## Beats Hot Water

The Signal is in receipt of a card from "Uncle" Charlie Dodson, saying he doesn't know when they will be at home and reminds us to not fall to start the Signal to them every week. He says: "The only way to keep us out of Snyder is to see we get the Signal. It is a tonic that beats hot baths, or drinking hot water."

We are doing our very best to get the Signal to him to keep his spirits up and to offset the volled threat to come home.

## The Other Fellow

By Rev. Jas. H. Tate, Staff Correspondent.

Proper consideration for the rights, privileges, convictions and feelings of the other fellow lie very closely to the roots of all well ordered society. Our social order will prove successful and satisfactory in exactly the same proportion that this principle is practiced. Scientists tell us that there are no two things exactly alike. Certainly there are no two people exactly alike. Dame nature has contrived to provide a marvelous variation of features, complexion and expression of human faces. The variations of thought and feeling are no less marked and distinct. If it were not so we would all want to move in the same direction, dress alike, act alike and work at the same job. Life would, therefore, be one continuous round of sameness.

While this ever-present variation of appearance, thought, feeling, etc. is essential, it is also very necessary that each person properly respect every other person—his feelings, ideas and employment. This is the only way by which we can really be good neighbors. Reciprocity is an essential law of good society. Some people are ever ready to receive courtesies, concessions and favors, but seldom find themselves ready to reciprocate. Such a course is sure, soon or late, to bring about an estrangement if not an actual break in friendship. The best way of all to have a good neighbor is to always be one yourself.

There are many people in America (there may be some such in other countries) who have but little regard for the rights of the other fellow. For instance, three or more homes have telephones on the same line. A calls up B for a talk—it may be in regard to private business. C takes down his receiver and listens, although he knows his number was not called, yet he "butts in," displaying gross impoliteness by his intrusion. He is not respecting his neighbor's rights. Everybody knows that two people are entitled to the exclusive use of the line, while

engaged in worth-while conversation. Again, a fair and considerate man puts a fence around a tract of land. For the convenience of his neighbors and the public, he goes to extra expense and provides gates. Then, from time to time, cold hearted, ungrateful persons will enjoy the privilege of passing through those gates, but leave them open or unlatched, thus causing the good man much trouble in getting stock back which had gone out that way, or letting others in where they do not belong. A case of no respect for the other fellow. I have seen people drive along the middle of a highway like a "limited special", having absolute right-of-way—everybody else being ordered to the siding. Such must have no regard for the rights of others. All they care for it to get by themselves.

Once again, there are some strangely constituted beings in the land who, when they become infected with some contagious disease, seem to be perfectly willing, almost anxious to convey the malady to as many other people as possible, regardless of results. A dozen people (may be many more) are thus infected and are sick, on an average of a month each, aggregating 360 days—equal to a whole year of suffering and expense for one person. All this because somebody had no regard for the other fellow. But, of course, some one bobs up to say that "everybody must have these diseases, anyway, hence as well now as later. This is mere gush. We will not all have these maladies if the infected ones will respect the other fellow. If it be granted that we must have all the common contagions, we don't want them now. We must all die some time, but we are not already for the exit now.

Well, this article must close. There is a guaranteed remedy for all our social ills, if only we will put it into practice. It is this: Love thy neighbor as thyself." "Whatever ye would that men should do to you do ye even so to them."

## Elections in School Districts

The Commissioners' Court was in session Monday and Tuesday and canvassed the returns of several school bond and special tax elections in the county and the following results recorded:

No. 14—Dermott: Election held on May 15. For school tax 11 votes. Against school tax 8 votes.

No. 25—Sulphur. Election held on May 15. For school tax 8 votes. Against school tax, none.

No. 3—Pylon. Election held on May 15. For school tax 5 votes. Against school tax 2 votes.

No. 33—Sharon. Election held May 29. Bond election for \$2200.00 worth of school bonds.

For bonds 10 votes. Against bonds 4 votes.

No. 28—Woodard. May 15, \$2,000.00 for bonds. For bonds, 6 votes. Against bonds, none.

No. 20—Ennis. May 15, special tax. For tax, 6 votes. Against, none. No. 19—Martin. June 12, special tax. For tax, 9 votes. Against, none.

## Death of W. H. Whitley

W. H. Whitley, aged 38 years, died last Sunday at the home of his brother, west of town and buried Monday in the Snyder cemetery. Rev. J. H. Hicks conducted the funeral services. Deceased had been in feeble health and came here to his brother's just a short time ago in hopes of prolonging life.

Born—In Snyder, June 10, to Mr. and Mrs. T. B. Ware, a boy.

Born—June 13, to Mr. and Mrs. J. P. Whitefield, six miles south of Snyder, a boy.

## Looney Coming to Snyder

Greenville, Tex., 6-14-'20. Hon. A. C. Wilmett, Snyder, Texas.

Dear Sir: I will speak in your city Thursday night, June 24th, at 8 o'clock, and will thank you to assist me in getting such publicity as possible. Thanking you in advance I am, Yours truly, B. F. LOONEY.

The highway graveling forces are at work now right up to the public square. Now, we hope the city and the people who own the property abutting the street to the Santa Fe depot will clean up the lots and see if we can't have a line of concrete walks from town to the Santa Fe.

Rev. J. H. Tate and Mr. D. A. Jones of Fluvanna were here Wednesday en route to Aspermont to look after some church affairs.

## VOLUME THIRTY-FOUR

The Signal closed volume 33 last week and starts in this week on volume 34. Thirty-three years of continuous service for Snyder and Scurry county as the Signal under its successive names. The Signal is the outgrowth from a line of succession that have always stood for the highest and the best. It has stood the pressure of hard rubs and has enjoyed seasons of brighter promise. It has never lost faith in the country and the people. The Signal is proud of its readers and its friends, an honorable, upright, progressive people, a people who delight in the friendship, confidence and prosperity of all alike. Where there are no class prejudices or sectional jealousies; where town and country recognize a community interest, realizing that the interests, the happiness, the progress and general welfare of all the people is our mutual heritage; where friends meet friends in glad accord regardless of calling or habitation.

The Signal has always sought to report the news, and to carry pleasure into the homes of Scurry county and it appreciates the co-operation and the expressions of friendship and confidence so often expressed by its readers.

## READY TO AID RAILROAD PLAN

Stamford is ready to meet Fort Worth half way in the building of the proposed northwestern railroad from Fort Worth to the great wheat belt of the Plains, and the business men of Stamford are ready to co-operate with Fort Worth business men in putting the venture over, according to a dispatch from W. Hamilton Wright, publicity manager of the West Texas Chamber of Commerce, to the Star Telegram.

The people in Stamford see in the proposed route the rejuvenation of the idea projected several years ago for the building of the Stamford & Eastern Railroad, which would have terminated in Fort Worth. Several miles of grade were thrown up between Stamford and Throckmorton.

"Stamford people are pointing out that the Katy is bidding its time for extension to connect with the territory at present monopolized by the Santa Fe in the Plains country," the dispatch says. "Only about thirty-five miles of track need be built from Spur at the northern terminus of the Stamford & Northwestern, and only a few miles from Rotan westward on the Katy to give Fort Worth two connections with the cream of the plains section. Snyder is on the surveyed line from Rotan to the Plains."

## Daughter Died in New Mexico

Mr. L. Caton received a message here Monday saying that his daughter, Mrs. J. A. Kennedy died Saturday at her home at Carizzo, New Mexico. The funeral party were starting by way of El Paso and San Antonio to San Benito, Texas where the remains would be buried.

Mr. Caton left here Monday afternoon expecting to meet the party at San Antonio and go to San Benito to attend the funeral. The Kennedys lived in this county up to about fifteen years ago. They used to own the Miller ranch in the north part of the county.

The special session of the Texas Legislature expires today by limitation. And Senator Buchanan and Representative Rosser are expected home Saturday.

Mr. and Mrs. D. B. Weatherby left Thursday for a summer visit at Coleman, Fort Worth and other parts, and later will go to Texarkana to take positions in the schools of that place. Mr. Weatherby has been principal of our high school and Mrs. Weatherby was a grade teacher.

L. O. Kimbro says the Sunday rain found his crop clean and J. C. Maxwell says his farm was never in better fix. George Richardson reports his crop doing fine and Corollus Davis says the Sunday rain was just right. John Stavely reports a good rain at Fluvanna.

The Strayhorn family have returned from their excursion.

## STATE TICKET IS NOW MADE UP

The Democratic Executive Committee met Monday in Dallas and made up the list of candidates for state offices. There are four candidates for governor—Neff, Thomas, Looney and Bailey.

When it came to placing Bailey's name on the ballot there was considerable discussion but went on by a vote of 15 to 4.

Some men who voted for it expressed opinion that Bailey is not eligible but they are willing to let it go that way.

John W. Gaines of Bay City led opposition. Judge Huff of Wichita Falls said the committee had no authority to determine a judicial matter. Luther Nichols, a spectator, told the committee that the things they were saying about Bailey are beneath his notice.

H. S. Moran of Weatherford favored putting Bailey on the ballot and said:

"I was among the first number of men who years ago met at Dallas and demanded that he resign as a representative of the people because he was carrying the secret code of the Waters-Pierce Oil Company in his coat pocket."

Judge Gaines said that he had always been the personal and political friend of Bailey and that he still was Bailey's personal friend, declared that the legislature passed a law last year which denies the committee the right to put on the ticket the name of any man ineligible to hold office, he said, and therefore, the committee should not put his name on the ticket.

As he concluded his speech, J. D. Cottrell of Plano asked him "what is the penalty?" Gaines then replied that the penalty was not prescribed.

Wolfe had stated that the objections to Bailey named in the protests were, first, that he is not a resident of Texas; second, that he is not a Democrat.

Cottrell then spoke and said that it was not up to the committee to decide on the eligibility of any man, nor upon his citizenship, and that such is a judicial function. Cottrell said that he himself did not believe Bailey either eligible or that he was a Democrat, but that it was not within his rights to decide questions like that.

John Davis said that as a matter of political expediency he believed the name of Bailey should be put on the ticket. He sat in the committee however, by proxy from Jno. B. Daniels of Temple, who, he said, had instructed him to vote against placing the name of Bailey on the ticket and let "us beat the stuffing out of him when he runs."

R. E. Huff, of Wichita Falls said he believed Bailey a citizen of Texas, but whether or not he is a resident of Texas is another matter.

A. S. Moody of Houston, with a proxy, said he favored placing Bailey's name on the ticket because, "if you refuse to do so, you will make him a martyr."

Joe Cavitt of McGregor said it would be "expedient to put the name of Bailey on the ticket."

"I am willing to stand the displeasure of putting his name on the ticket," he said, "to have the pleasure of scratching it."

The Children's Day program rendered at the Presbyterian Church of Fluvanna, last Sunday, was pronounced a real success. The recitations, marches and music, on a rostrum appropriately decorated was a real treat to the big congregation which numbered about 250 people.

Following the program, the pastor outlined the S. S. Mission work being done by the Presbyterian Church in this country, and called for an offering to support this work. The people promptly responded by laying \$11.00 on the altar for S. S. Missions.

Morrow Realty Company can sell our land or town property if you will price it right.

The Republican convention ignored the League question, played shy on prohibition and woman suffrage and offended union labor. It is in order now that Webster Flannigan renew his question, "What are we here for?"

Judge Mack, trying a case against American woolen companies in New York on charge of profiteering, holds that woollens do not constitute wearing apparel and turned the defendant companies loose. Under that ruling the manufacturers may go ahead and hold up the buying public at will.

None but the officials of Galveston and some of the labor agitators have seen fit to condemn the action of Governor Hobby in keeping the port at Galveston open for commerce and protecting laborers who wanted to work. The business of the country was being tied up and the governor has demonstrated that the law is supreme.

Lowden withdrew from the race for president because he feared delay. General Wood withdrew to preserve harmony. These withdrawals came with the ninth ballot and when several bunches of delegates had decided to go to Harding.

Governor Hobby saved the shipping public from disaster when he sent troops to Galveston to protect laborers while they work. There were hundreds of dock hands who wanted to work but were afraid. The troops make it safe for them and many of the strikers have returned to their jobs—freight is moving and nobody was hurt.

Republican leaders resolved at their Chicago convention that republicans in the South must vote more or submit to a cutting down of their representation. They are imposing a hardship on their brothers. They vote as much as they can unless more of them paid poll taxes and they may as well know now that the poll tax law is not apt to be repealed.

The old guard of the G. O. P. were slow about coming to the front in the Chicago convention until a near scandal developed regarding campaign funds—and they decided they could not dare go before the country with the prominent candidates carrying such a load. Then the old guard got busy and declared the presidency is not an object of barter and they swung in line with Warren G. Harding of Ohio and Gov. Coolidge of Massachusetts—two men for whom no charge of boodler had been lodged. They had to go to rock-ribbed republican states for their material.

Joe Bailey is in favor of the open shop movement.

Thomas B. Love, National Democratic Committeeman for Texas, says the State Executive Committee should not think of keeping J. W. Bailey's name off of the State ticket, and really the election will permanently settle the matter if he

runs through, otherwise the Bailey people will still contend that Bailey and his "principles" are alive.

Both great parties are fighting shy of a platform expression on the liquor question. There is no liquor question any longer. Prohibition is here and it has come to stay. Why waste good white paper manufacturing a liquor plank, pro or con?—Abilene Reporter.

A plank on negro slavery would be just about as appropriate.

The Sweetwater Reporter would sustain Gov. Hobby in sending troops to Galveston to keep the ports open. The Reporter says:

Galveston is under martial law. Freight congestion is being relieved. When the public as a whole suffers because of a strike the government is right in taking charge of the situation.

**"WE CONDEMN"**

The Fort Worth Record thus synthesizes ten of the planks of the Republican platform:

- Plank 1—We condemn Woodrow Wilson.
- Plank 2—We condemn the Democratic party.
- Plank 3—We condemn all the laws of a Democratic congress.
- Plank 4—We condemn the way the war was won.
- Plank 5—We condemn the way the war winners of America were financed while shedding their blood in waging and winning the war.
- Plank 6—We oppose all Democratic laws and policies. We did not enact or create them.
- Plank 7—We denounce the federal trade commission. "It injures business."
- Plank 8—We condemn the federal reserve banking system because "the system is operated by the United States treasury. This is not in harmony with Republican traditions and practices."
- Plank 9—We condemn all the war tax laws enacted by the Democratic administration.
- Plank 10—We condemn Woodrow Wilson.

**Letter From Uncle Charlie**  
Hot Springs, Ark., 6-7-'20.  
Editor Signal:

I would like so much to tell your many readers about our visit to Mt. Vernon, the home of George Washington, and many other places of interest. I have them photographed on my mind and they will keep all right, and I can give it later. What I want to say now is to the farmers of the west. I took close note, and I made inquiry of many parties about the prospect of the 1920 crop. It so happened that I was routed back through West Virginia, Ohio, Indiana and Kentucky and of course Tennessee, and thus far in Arkansas Now I found out that it had rained so much that the farmers were far behind with their planting; that they will not get more than 66 per cent of their land planted, and of course that means high priced feed and a great shortage in foods of all kinds. It was real sad to see men out trying to plant corn and the ground so wet. In many localities I don't believe there will be over 40 or 50 per cent planted.

I can't tell much about the cotton crop, but I rather expect it will be short too, because it is getting so late to plant it and when it does dry up enough to plant, farm labor is so scarce that the farmer must generally do his own work.

I believe if the West has seasons they ought to put forth every effort to make a bumper crop this year, not solely for the money there is in it, but we are likely to be called on to help feed and clothe the East.

Corn is now worth from two to two and a half dollars per bushel and no possibility of it getting any cheaper. Certainly it looks like there will be people who may be put to it

to get bread for their children.

I am going to suggest that they raise all the garden stuff possible, and by all means, push the poultry business to a finish, for if they will do this it will help out wonderfully toward having a good living at home and that helps to save buying eatables that would have to be shipped in from other parts of the country. If we would put forth the effort we could raise and put up and keep enough sweet potatoes to feed thousands of people more than will be needed at home. Then blackeyed peas seldom ever fall there. Put them in late and they will keep well. It may be that people will be glad to get bread made out of maize or kaffir corn before 1921. I do not want to alarm anyone but just want to put them on their guard.

Send me a copy of the Signal at once to 420 Prospect Avenue, Hot Springs, Ark. I have not seen a good paper for several days.

"The Democratic nominee will be a great American."

The Republican platform is exactly contrary to the request of organized labor.—Samuel Gompers. The Republican platform is exactly contrary to expectations of farmers of America, the business men of America who are not seeking special privileges, the vast majority of Americans who believe in the rule of the people and not in the rule of the Penroses, the Knoxes, the Lodges, and the consolidated interests behind them. This should be a government of the people. Woodrow Wilson made it a government of the people for seven years. If the people are wise they will continue a government of the many and not of the select few.—Fort Worth Record.

**RAILROAD BUILDING RESUMES**

It is expected that at least 500 miles of new railroad will be built in West Texas during this year. The Federal Board of Commerce says: The San Antonio Rock Springs & Northern line from San Antonio to Monrovia, will be built immediately, according to promoters. It will have a mileage of 200 miles. The Kansas City, Mexico & Orient probably will build from San Angelo to Del Rio, 170 miles. The Missouri, Kansas & Texas will consider extension of its Rotan branch to Snyder, twenty-five miles, and may extend to a connection with a transcontinental line in New Mexico. The Stamford Northwestern may be extended to McKinney or Crosbyton. Besides the 60 miles mentioned the Ft. Worth Northwestern line may be built, adding an additional 200 to 300 miles. A line is now proposed from Mineral Wells to Breckenridge, a distance of forty-five miles.

The rapidly building Western country creates a demand for better transportation facilities. The old slow going service can no longer satisfy conditions. The people of West Texas call for the best in everything and are ready to come cross with patronage to support the right sort of equipment and service.

**INCOME TAX IS DUE**

Austin, Texas, June 11.—The following information for the guidance of taxpayers in the payment of the second installment of their income tax for the year 1919 is given out by Collector of Internal Revenue A. S. Walker.

"Bills for the second installment of the income tax for 1919, due on or before June 15, have been mailed to taxpayers. Unlike those of last year, the bills are non-detachable and are expected to be returned intact, accompanied by check or money order.

"Payment in this manner is particularly desirable. It helps the taxpayer by saving him a trip to the office and it helps the government by avoiding congestion at the cashier's window during the last few days preceding the date of payment. Besides a check is a receipt.

"Failure of a taxpayer to receive a bill does not relieve him of his obligation to pay his tax within the time specified. To avoid penalty and interest the tax must be paid in the office of the collector or branch office on or before June 15.

"Checks or money orders should be made payable to collector of internal revenue. Payments may be made at the office of the collector at Austin, Texas, or at any branch office in the state."

Out of the more than 3,000,000 Ford cars now in use, about sixty percent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living. A family car without an equal in low cost of operation and maintenance. We solicit your order for one now because the demand is large and continually increasing.

W. O. Kent is editor and manager of the Roby Star Record, recently taken over by the Terrell syndicate. Kent is a hustling newspaper man and is most sure to keep things stirred up.

Several homicide cases are on the court docket in Jones county but Anson wants it understood that the cases were transferred to that county.

The Texas Press Association met in annual session in Houston Thursday, Friday and Saturday of last week.

Warren G. Harding was reared on a farm in Ohio and during college days edited the college paper and thus got the newspaper spirit. Then his father set him up in business and in all these years he has kept up his newspaper connection.

Mr. Thomas declares for the abolition of a poll tax. He is wrong. There are thousands of persons in Texas who pay no taxes except a poll tax. The payment of a poll tax cut out the negro, Mexicans and low foreign vote, and thus makes the votes of good American citizens more valuable. The tax goes in the school fund, and thus benefits the school children. Don't repeal the poll tax law.—Plainview News.

You are right, Editor Adams, the poll tax law is a good one, for as you say it goes into the school fund and where could it be put to better advantage? We also say don't repeal the poll tax law. The welfare of our children is important above everything else.—Lynn County News.

A man or woman who is not willing to pay a poll tax can feel very little interest in the public welfare and the poll tax law cuts a big element in election fraud.

**Pull Together for an American Merchant Marine**

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$3,000,000,000.

Everybody agrees that we must keep this fleet on the seas.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—

We shall be in the position of a department store whose goods are delivered in its competitor's wagons.

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

Out of chaos and darkness, rising from a Rip Van Winkle twenty years sleep, we see a beacon light ahead.—“Just stand and watch yourself go by, Think of yourself as ‘he’ instead of ‘I.’”  
Pick flaws, find fault, forget the man in you,  
And strive to make your estimate true.  
The faults of others will then dwindle and shrink,  
Love's chain grows stronger by one mighty link.  
When you with ‘he’ as substitute for ‘I’  
Have stood aside and watched yourself go by.”

Mr. J. E. Farrow, member of and representing the Chamber of Commerce of West Texas, exclusively, with headquarters at Stamford, was among us last week for the purpose of organizing our work. Mr. Farrow was earnest in his endeavors to convince our citizens of its wisdom. Our Catholic neighbors are holding memorial services, Father Becker, officiating.

We notice our efficient and genial sheriff among us occasionally. Rev. J. W. Morton, representing and associated with the North Colorado Association is the guest of our worthy pastor of the First Baptist Church, C. E. Leslie.

Messrs. Rector, Mobley and families left Sunday for an extended recreation and fishing trip on the Colorado and Concho rivers. We wish them success and hope they will enjoy their vacation from business cares.

Mr. John Patterson returned from an extended trip to Hale Center and reports everything looking fine.

J. S. Bowman, father of our esteemed citizen, Mrs. T. J. Rhea, and her brother-in-law, W. P. McLean, left for Greenville, their home, a few days ago. Mr. Bowman was once a resident of this county and is well known. Mr. McLean is a successful business man and has an eye on this place.

Mrs. Ethel Adams and Mrs. Plant returned from an extended trip to Amarillo.

W. S. Leslie, son of our esteemed friend C. E. Leslie, is on a vacation. He is a student at the State University at Austin.

E. C. Patterson is back home from the oil fields. He reports everything going up grade in that line.

The Odd Fellows from over the county met here the 12th inst., reorganizing the district association.

The following officers present: L. C. Darby, president; W. B. Thrash, secretary. The next place of meeting will be held at Dunn 2nd Friday in July next. Dunn and Foch teams made a contest for the “banner” in the initiatory degree with the result Dunn team still holds the banner. Sunday at 3 p. m. Foch lodge held memorial services at 1st Baptist Church, Rev. C. E. Leslie, officiating.

Our public school building is undergoing repairs made necessary by being damaged by fire some time ago. Mr. L. C. Hess has taken the contract to make good the building and putting in good shape for the coming fall term of school.

We repeat the invitation again for a building association at Foch. Put up some good business and dwelling houses. Don't all speak at once.

Does it pay to advertise. Just drop in and eat a square meal at our city restaurant and be convinced.

Improvements still going up grade. People are alive to self interest which should be. Let us keep the good work going.

Mr. Drape Higginbotham, one of our enterprising farmers here, just received an up-to-date harvester thresher of the latest model. We are told he will demonstrate this machine near here. Mr. Higginbotham deserves credit. He is one of our most successful farmers. We repeat again that good crops, good prices will put Foch on the map of wealth.

Farmers are getting busy ready for the harvesting of grain, hence few of them in town only when it rains.

There is no peace and little rest for the one who suffers from a bad back, and distressing urinary disorders. People around here recommend Doan's Kidney Pills. Be guided by their experience.  
C. D. Bozeman, shoemaker, Colorado, Texas, says: “About five years ago I had an attack of kidney trouble. The action of my kidneys was too free, especially at night, causing me to get up frequently. This kind of made me nervous and I couldn't stand the least noise. Doan's Kidney Pills had been used in our family with good results, so I started taking them. I only had to take one box of Doan's before the kidney action was regulated and I was entirely cured. I have been in fine health and haven't had the slightest sign of kidney trouble.”  
Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bozeman had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

**ABOUT THE PICNIC**  
The people seem to be all in favor of a picnic this year. Numbers of folks from the surrounding country are asking about it. Some have phoned in to the Signal to know what about it. The general idea is that we've just gotta have it.  
Ten years ago we pulled off a rouser and everybody was happy. An immense crowd were here and there was home-cooked grub enough for twice as many. A picnic must be fed largely on pies, cakes, fried chicken, potato salads and other home-cooked stuff and the women and children must be leading feature. The men folks are expected to see that the meats and ice are provided and then if they want to listen at political speakers they can do that while the children play tennis or watch the baseball games. The central point is that we must have the picnic.  
Miss Lueretia Morrow of Hermleigh was visiting and shopping in Snyder Tuesday.  
Mrs. Pearl Morrow of Gorman is visiting Mrs. Fish and family.

**FIRST BAPTIST CHURCH**  
The revival meeting conducted by the First Baptist Church will continue until Sunday night. All the preaching services at the city tabernacle. Sunday school at the church at 9:45. Nearly 250 in Sunday school last Sunday. Let's make it more next Sunday.  
Announcement will be made Sunday morning about the time and place of the baptizing. A number of candidates are in waiting and possibly others will come into our fellowship before Sunday.  
The meeting goes well from day to day, and much good is being accomplished. The messages of Dr. Routh are especially strengthening to the christian people at the morning services. Mr. Farr is leading the music in glorious way and the people are greatly enjoying it. Let's all help to make the remaining services the best possible.  
W. H. SIMS, Pastor.

Miss Clara Bannister has returned by way of Dallas to her home at Gatesville.  
**A. C. WILMETH FOR COUNTY JUDGE**  
Mr. A. C. Wilmeth came in this week and authorizes the Signal to formally announce that he is a candidate for the Democratic nomination for the office of County Judge of Scurry county. There is probably no man in this county more generally known than A. C. Wilmeth. He has lived here for many years and is in fact a pioneer. He has been an active worker for every movement that has been made for the building of Snyder and Scurry county. He is never to busy to leave his private affairs to assist in any sort of worthy enterprise. He is a lawyer of long years experience and is a close student of public affairs. Col. Wilmeth is familiar with the financial and material affairs of the county. He is well posted in tax matters in school affairs, in road construction and other lines of public concern. He has had to do with all these things and is competent to advise. His well balanced legal mind enables him to preside justly in matters of judicial nature, and if he becomes county judge he will

discharge the duties of the office with justice to all concerned. He possesses the main qualities of fitness. He is a Democrat, he is honest, he is capable. Consider his claims.  
**WANTED**—We are in the market for a good farm fairly well improved, located on the divide and will pay the actual value for same in trade or part trade and some cash or a straight sale. Come in.—Dodson-Taylor Realty Co.  
San Antonio has a population of more than 141,000. That is more than Dallas is credited with.

## What a lot of argument there used to be about a woman driving an automobile

**T**ODAY she can "make a train" or fix a tire as well as anybody.

As soon as a luxury becomes a necessity the point of view changes.

II

Two or three years ago you would have listened to more varying opinions about tires than you could shake a stick at. Mileages, construction, treads and whatnot.

It's different now. Tire users are working towards a unanimous feeling.

You express it one way—the man down the street another. But sifted down it amounts to this:

That the only way to settle

your tire problem is to get a tire of known value and stick to it.

III

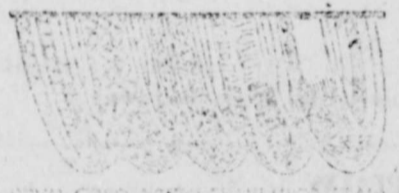

We recommend and sell U. S. Tires because their value is known.

There's no guess about it.

It was the U. S. quality policy which led to the perfection of the straight-side automobile tire, the pneumatic truck tire—two of the greatest additions to tire value that have ever been made.

As representatives of the oldest and largest rubber concern in the world, we are in a position to tell you something about tire values. Come in some day and talk to us.

Select your tires according to the roads they have to travel. In sandy or hilly country, wherever the going is apt to be heavy—Use U. S. Nobles.

For ordinary country roads—The U. S. Chain or Duro. For front wheels—The U. S. Main. For rear wheels—everywhere—U. S. Special Cord.

### KIL THEM WITH STEAM

New Orleans, June 13.—The pink boll worm, more destructive to cotton than the boll weevil, is to be steamed.

Poisoning has failed to kill the pest but it is expected that steaming will do the job and make it possible for oil mills to handle seed from infected territory. The decision was the outcome of a conference here between superintendents of cotton seed mills in Louisiana and other places where seed has been purchased from areas known to be infected with the worm.

**Re-Organized I. O. O. F. Association**  
The Scurry County Association of the Independent Order of Odd Fellows is to be re-organized at Foch next Saturday. The brotherhood will meet in the Lodge room at Foch at 2 o'clock p. m. and proceed to association work and then at night the visiting Odd Fellows will meet with Foch lodge for a contest in putting on the initiatory work. They want a bunch there from every lodge in Scurry county.

Mr. Clark, father of Mrs. J. H. Hicks, is reported quite sick this week.

J. C. Snuffer and A. H. Trice were here Saturday from Camp Springs getting out a batch of stationery for the Star Gin Company. They are going to have a first class gin plant there by fall time.

When you have stiffness and soreness of the muscles, aching joints and find it difficult to move without pain try massaging the affected parts with Chamberlain's Liniment. It will relieve the pain and make rest and sleep possible.

### Official Notice

Notice is hereby given of official call for a regular meeting of the Democratic Executive Committee of Scurry county, Texas to be held at the Court House in Snyder, at one o'clock p. m., Monday, June 21, 1920, to transact such business as may lawfully be brought before said committee for consideration.

It is hoped that every member of the committee will be present to have a part in lining up the affairs of the Democratic party of this county.

Respectfully,

A. C. WILMETH,  
County Chairman.

### KATY EXTENSION AGAIN CONSIDERED

The Signal hopes to see an early movement in Snyder to get a force thoroughly lined up to get in touch with the M. K. & T. people and get the Katy railroad extended from Rockford building and the Katy extension is in prospect. Those people, however will give this line secondary consideration unless pressure is brought to bear. They should be made to see that we want the road and then they will see it to their advantage to build it and it will be built.

### NOTICE TO CANDIDATES

Next Saturday (tomorrow) will be the 19th day of June and that is the last day upon which candidates for office may file their names to go on the official ballot. Keep this in mind, and if you have not already done so, do so. You have only till that time to get on.

The Executive Committee will meet Monday and make up the ticket and will assess the sum to be charged each candidate to pay the expenses of holding the primary elections on July 24th.

### Best Remedy for Stomach Trouble

"I am pleased to have the opportunity to say a good word for Chamberlain's Tablets," writes Mrs. Mamie Bertel of Moberly, Mo. "I think they are the best remedy for stomach troubles, biliousness and constipation I have ever used. I have taken them off and on for two or three years and they always relieve indigestion, tone up the liver and make me feel fine."

**HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING**

The experience of Mr. E. J. Tou- salik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.  
 He writes: "I have been suffer- ing with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only tem- porary relief.  
 "This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."  
 For any disease due to catarrh or catarrhal condition, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small in- testines, are some of the troubles for which PE-RU-NA is especially recommended.  
 PE-RU-NA can be purchased anywhere in either tablet or liquid form.

**DALLAS OFFICERS ACCUSED OF CRIME CONSPIRACY**

A news item from Dallas says: One of the most notorious gangs of automobile bandits, in which sev- eral Texas peace officers are impli- cated, has been broken up with the arrest of six men and a woman dur- ing the past few days, according to the local detective department.  
 The officers involved, including a chief of police, a deputy sheriff and a justice of the peace, have not yet been arrested but will probably be taken into custody within the next few days.  
 In a confession by one of the men it was stated that stolen automo- biles were turned over to a garage at \$400 a piece, and that the chief of police was paid \$100 on each care to keep quiet.  
 The justice of the peace also re- ceived his share of the loot.

**FROM ALAMO CITY**

San Antonio, Texas, 6-11-20.  
 Dear Signal:  
 It may be of interest to some of our friends at Snyder to know what has become of us.

We started on our trip about the last of April, and made our way thru the oil fields before the rains set in. We spent some time at Weatherford during the wet weather, and then came here. We came via Fort Worth, Waxahachie, Hillsboro, Waco, Tem- ple and Austin. We had very good roads except through Hill county and parts of Bell, where many bridges had washed away a few days before.  
 We reached here nearly three weeks ago. We intended going on to Cor- pus after a short stop here, but found it necessary for Mrs. Daven- port to submit to an operation, which she did on May 31. She spent ten days in the hospital, and is do- ing very nicely now, and strange to say, she don't have headache any more.

Please send the Signal to 302 Chicago Blvd., San An.  
 I don't know just when we will return to Snyder, but will try to be there when the first oil well comes in.

We would be delighted to hear from any of our Snyder friends.  
 Yours very truly,  
 P. E. DAVENPORT.

Mr. W. J. Grantham, of Snyder, Ark., is here this week for a visit to the Grantham family. This is his first visit here in four years and he still likes the town and people.

Daphne, Harold and A. D. Meador of Big Spring, are visiting their grandfather, D. W. Meador.

Ed J. Thompson has come back to Snyder to reside after an absence of three or four years. He was at Little Rock for a while, but has been in Fort Worth for the last year. His family will be here in a few days.

**'How We Cleared Our Summer Home of Rats,' by Mrs. Perry.**

"When we opened our seaside home last May, it was alive with rats. They'd gnawed all the uphol- stering. We cleaned them out in a week with RAT-SNAP. **WILL BUILD RAILROAD OR PAVED ROAD**

A meeting of the Plainview and Silverton railroad committee was held a few days ago.  
 It was decided to have a direct line surveyed from Plainview to Sil- verton, a distance of about 31 miles, and if found to be impossible to build a railroad that a hard surfaced or paved roadway be built between the two towns. A sub-committee was appointed to have charge of the work of making the survey, and to have it done as soon as possible.—Plain- view News.

**Helps Sick Women**

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, ... and the pains were very severe. A friend told me I had tried every- thing else, why not Cardui? ... I did, and soon saw it was helping me ... After 12 bottles, I am strong and well."

**CARDUI**

The Woman's Tonic

Do you feel weak, diz- zy, worn-out? Is your lack of good health caused from any of the com- plaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

There are more croakers to the square mile in America today than there were witches in New England two hundred years ago. They croak first at the general prosperity, next at the high cost of living, then at the income tax or some other kind of government exaction, interest profits and dividends should be high and every thing else low. Silly! If wages and profits were as high as at present, and the cost of living, includ- ing taxes, as low as in 1913, we should have an intolerable condition. During the last days of the Confed- eracy the most plentiful thing in the South was the Confederate money. Everybody had wads of it. Taxes were low, and the cost of living was based upon barter rather than upon monetary measurements. But were the people happy? They were not. They were little less miserable than are the Russians of today, for al- though they had the tokens of wealth as expressed in bundles of crude currency, they had not a sufficiency of food or clothing or household furnishings. That condition could as easily be repeated with Federal money as it was instituted with Con- federate money. A surplus of even a good thing subtracts from its value in proportion to its superfluity, and if we all had high wages, big divi- dends and low living costs, our in- crease of money over our living ex- penses would amount to nothing sub- stantial. What we think we mean by the expression "normal times" will never again be experienced until the volume of money and money's equi- valent, credit, shall come to ebb- tide. The reason why ten dollars today represents five dollars of pre- war value is because there are twice as many dollars available now as then. If this condition is to be per- manent we must adjust our living and thinking conditions. If it is not to be permanent, the sooner we get back to the level ground the bet- ter for all interests.—Dallas News.

**THE RAIN**

The rain last Sunday came with a dash not usual in this country. More like the showers seen over east, but it was a dandy downpour. Just about enough for the time, and the people were kinder glad. It seems to have been general over the country.

Mr. H. A. Goodwin said the other day that he had just met an expert geologist who wants to show us where to find oil and gas and intimated that it is right under the sidewalk at one certain place in town.

The Financial Committee are busy this week getting up the case seed to finance the picnic to be pulled off here July 8-9. They state that they will not have a report ready for this week but the picnic is going to be—it has to be. There is no such word as "fail" in their dictionary.
