JUST as the school children of France gave for their country's gift to the United States-the Statue of Liberty -so will American school children contribute "one cent and upward" for "America's Gift to France," a monumental statue by Frederick Mac-Monnies, the noted American sculptor, Mr. MacMonnies is contributing his services toward the monument which, It is 'estimated, will cost \$250,000.

The poster shown herewith, is by Albert Sterner, noted American portrait painter. It typifies the tribute which this country will pay to the French through the Marne monument. The poster will be displayed in cities, towns, and villages, and will designate many of the places where contributions may be made during the week of March 22-a free-will offering, in which numbers of contributors, rather than size of contributions, will be sought from school children and others, Contributions are now being receiv-

Republicans to Have Ticket.

The republicans of Scurry county met Saturday night and organized a Harding and Coolidge club with the following officers: G. B. Clark, chairman; E. J. Anderson, secretary; O. P. Thrane, treasurer.

It is the intention of this organization to put out an active ticket in the fall elections and to have several speakers of note visit this section during the campaign.

History Will Tell It. Here is what Gov. James M. Cox said about President Wilson in a Jackson Day speech last January:

"Yes, history will tell it all, and the name of the man who sensed the ills of the afflicted peoples of the earth, who sympathized with their honorable aspirations for freedom, and then wove the elements of simple justice into the fabric of international policy-his name will be chanted by the children of men yet unborn, while the names of those who made from their malignant spite a senatorial cabal against Woodrow Wilson will have been consigned to a part and place in the records of time too unimportant for voice to recall or memory to retain."

And even though some so-called democrats have gone about over Texas seeking to malign and condemn President Wilson, his name will go into history as the greatest statesman of the twentieth century. 100

What Comfort is . There . In the Knowledge of the Endless Life?

By Jas. H. Tate. I might answer in the language of St. Paul: "Much every way." We know that this life is very much limited-limited in every direction and in every conceivable This is especially true as regards duration. Life is but "a span," as "a vapor," like "a shadow." "It is appointed once unto men to die." In view of all this, the faithful Christian's consolation

lies in the fact that he knows he is moving toward a country where this limitation is not known, hence there is but little uneasiness about death. The sting of death is not nearly so painful. Revival meetings are very essen-

In the good old days gone never to return, those good old long and short meter songs of our boyhood and girlhood are fresh yet, such as "Rock of Ages," "Amazing Grace," "Nearer My God to Thee," "Without One Plea," and so on. They are good enough for kings and the poor lost ones. It's a truism "Never give a poor striving one a downward kick, but stretch out your hand and save him."
