

## SNYDER, SLATON AND POST C. OF C. HOLD JOINT CONFERENCE

### NINETEEN CARS PILED UP IN BIG FREIGHT WRECK ON SANTA FE

### PARENT-TEACHERS' HALLOWE'EN PLAY

The Parent-Teachers' big Halloween Carnival that was advertised for last Monday night came off with splendid success and all seemed to enjoy themselves and the children were delighted.

By the time it was dark the crowd began to gather and soon the entire City Auditorium was full and running over.

The occasion was not only a very pleasant gathering, participating in wholesome amusement, but it was a financial success as far as the material in hand permitted. A great deal more edibles could have been sold, said the Parent-Teachers' Association if they had expected such a patronage from the city, which indicates that Snyder is behind the organization and is doing its part in forwarding the movement.

Mrs. E. J. Anderson, President, Mrs. O. P. Thrane, Chairman Financial Committee, who put forth untiring efforts that it might be successful, are delighted over the outcome of the entertainment. In fact all members of the Association were actively interested.

The spooks were there all dressed out in their evening attire which pleased the "kiddies." The fortune tellers were there to carry you into the mysteries of the future and expounded to you the characteristics of your individuality. Then there were the great side exhibitions, "Travelers in Greece," they carried you to the old ancient country and actually presented before your eyes the "Travelers in Greece." Then the "Paradise on earth," was presented, and to those who never witnessed this scene before were greatly amazed to see a "pair of dice on earth." The chamber of horrors, will no doubt, linger in the memory of those who saw it for many days. The thought uppermost in the mind while in the chamber of horrors was whether or not you would ever reach the exit before being devoured by those unseen inhabitants who were making weird unearthly noises. The twin camels, kisses for a time, the fishermen luck, all added to the diversion of the evening's entertainment.

The school appreciates the attitude of the Parent Teachers' Association, "That all work and no play" does not contribute to our best development. And by better school work we believe that each student will prove himself worthy of the wholesome amusements which the Association plans to give the Snyder children this year.

### U. S. PUBLIC DEBT

CUT \$465,000,000

Washington, Nov. 2.—A reduction of about \$465,000,000 in the public debt during October was announced today by the Treasury.

The total public debt on Sept. 30 stood at \$29,924,108,125.06, while on October 31st the total was \$23,459,148,496.59, making a decrease for the period of \$464,959,628.47.

The heavy decrease in the national debt during the last month, officials said, was accounted for by heavy redemption of government securities. Nearly \$400,000,000 worth of Treasury certificates were retired, while the usual Treasury financing was omitted on Oct. 15 and no new certificates issued until Nov. 1.

Mrs. C. E. Thacker of Sotwells, California was here a few days the first of the week the guest of Mrs. Will McCormick.

T. A. Richey has returned from Ben Franklin and is now assisting in the post office.

At five o'clock yesterday morning a southbound Santa Fe freight train went in the ditch two miles north of the Depot, just a little way beyond the Stoker place. It was not long until the news was learned down town and sightseers began to arrive at the scene of the wreck and there was a constant stream of visitors all day.

Nineteen cars left the track and at least twelve of these were piled on top of each other in one solid mass of ruin. The cars were splintered, bursted open and crushed in an unrecognizable condition. The cars were loaded with grapes, prunes, potatoes, wheat, oats, maize, cotton seed, coal, hay, and other things. There seemed to be four car loads of wheat which was scattered up and down the track for a hundred yards. The claim agent was soon on the ground and began the sale of grapes, prunes and potatoes to those who wanted to buy.

Six men were taken from the wreck in a pretty serious condition and hurried to town for medical attention. It was learned later, through Dr. H. E. Rosser, who had charge of the injured, that one of the men was seriously injured, sustaining a broken leg and a crushed arm, while the other five were not so bad and expected they would be up in a short time. These young men were what is commonly known as "hobos" making their way, which they did not deny, and were in the coal car when the wreck occurred. None of the trainmen were injured. It was reported generally that there were four more men under the wreckage and that a man could be heard talking while the work of removing the debris was going on, but the officials did not seem to think there were more men in the wreck. As we go to press the work of clearing the track is going on.

A small wrecker came down from Lubbock reaching the scene about twelve o'clock, but by five o'clock in the afternoon a big one from Amarillo had reached here and work began in earnest.

Most of the Snyder folks turned out during the day to view the wreck for it was an unusual sight and but few people ever saw so many cars piled up in one wreck. It was thought that the track would be cleared by this morning sufficient for the passage of trains and the resumption of service. No mail reached Snyder yesterday. It was supposed that a spreading rail was the cause of the wreck.

### THE EL FELIZ WITH MRS. O. P. THRANE

The El Feliz Club had quite a delightful meeting with Mrs. O. P. Thrane, October 28th. After a short business session five tables of "42" played with much enthusiasm. Mrs. A. J. Cody winning high score.

Hostess then served a one plate luncheon of ice salad, sandwiches, coffee and pie, to members and Mesdames Clyde Funk and Richard Webb, as guests. After refreshments hostess had quite a surprise in store, presenting each table with a neatly wrapped package. We were instructed to draw, lowest number being the lucky one. Those lucky in cutting for these favors were Mrs. W. R. Johnson, Mrs. H. G. Towle, Mrs. Hugh Boren, Mrs. Neil Gross and Mrs. Austin Erwin. Next meeting will be with Mrs. Austin Erwin, Nov. 11th.

A joint meeting of the Chamber of Commerce of Snyder, Slaton and Post was held on last Friday evening at Snyder. The meeting was called by Secretary E. J. Anderson of Snyder in order that a closer working relation might exist between the bodies to the end that a mutual benefit be derived.

The body went into organization and elected Mr. Hartford of Post chairman after which a general discussion of things most needful was gone into.

The Primary aim of the joint meeting of these Chambers of Commerce was to discuss ways and means to improve the Colorado to Gulf Highway and to get before the traveling public this route and its advantages.

Hon. R. A. Baldwin of Slaton, representative of that district discussed in detail the advantages of the Colorado to Gulf highway and presented some plans by which the combined cooperation of these towns, if carried out would result in great good to every town along the route. Mr. Baldwin said that we did not visit each other in this way as much as we should, that Slaton and Post did not come to Snyder as often as they should and that Snyder did not go to Slaton and Post as often as she should. He emphasized the fact that accomplishments were made by a united effort and a harmonious working of an organization. Advertisers, he said, was absolutely essential. Advertisements should be put in some of the leading papers in the eastern states, showing the Colorado to Gulf highway.

Other talks were made by Mr.

Thrane of Snyder, Mr. Greenfield of Post, Rev. B. W. Dodson of Post and B. M. Holland of Slaton.

A motion was made and carried that a uniform log be made of the Colorado to Gulf Highway representing each town along the route. Mr. E. J. Anderson Secretary Scurry County Chamber of Commerce was appointed to get up the Log, also to place a big sign at Roscoe with a general description of the route and towns along the way.

This meeting is the beginning of greater things to be accomplished through the workings of these bodies together. A spirit of friendliness and co-operation prevailed throughout the meeting and a desire expressed by all the different organizations that these occasions should happen more frequently.

We people of Snyder are glad to have you come and hope we may have the pleasure of your visits often that good will and fellowship may abound and mutual benefits be derived.

The following visitors registered: H. G. Smith, Post, R. A. Baldwin, Slaton; Dr. Jno. Dressen, Post; F. M. Culberson, Slaton; M. A. Pembor, Slaton; Mrs. J. P. Markham, Slaton; J. P. Markham, Slaton; Mrs. W. E. Olive, Slaton; J. M. Boren, Post; Z. D. Kemp, Post; A. V. Hendricks, Slaton; Ben Williams, Post; T. R. Greenfield, Post, H. D. Talley, Slaton; J. T. Overby, Slaton; Rev. B. W. Dodson, Post; W. E. Olive, Slaton; R. E. Edwards, Post, E. A. Warren, Post; B. M. Holland, Slaton, Marshal Mason, Post.

## COMING OF MARSHAL FOCH TO AMERICA

The Dallas News in speaking of the visit of Marshal Foch to the United States very fittingly eulogizes the Marshal and the part that France had in the war in these words:

"The coming of the Marshall will stir remembrance and freshen the ties of comradeship between his own devoted land and ours. Not even from the present perspective after the war have we learned in this country properly to appraise the measure of France's sacrifice or the worth of her valor in defense of all that Frenchmen revere and love. Many of our overseas men arrived too late in the war to meet or see much but a France bled white with the agony of struggle. Some Americans came away with but a sorry account of her part in the war, not realizing that even then the flower of France were already sleeping beneath the sodden, shell blasted soil

they fought for so tenaciously and so well.

The roll-call of the dead tells the story. It is a story of a country that consecrated her all in battle. No matter who won the war, it was France who fought it; fought it while Belgium crumbled and England muddled fought it while Russia fell and America made up her mind; fought it passionately, fought it desperately, fought it with the last quivering ounce of strength of the last strapping lad. There is no fitter representative of fighting France than the man who directed that fight along the stubborn and staggering line from the mountains to the sea. America honors him as the world's distinguished soldier. But before he turns his steps to his home bound ship America will have learned to love him as his polis did and do.

## Judge Smith Addresses Sunday School

By request of the Supt. Judge Fritz R. Smith addressed the M. E. Sunday school last Sunday morning.

Judge Smith has been a member of the Board of Pardons of the State for the last four years or up until it was abolished about a year ago, and has had wide experience with criminals and has made criminality a study. The Sunday school lesson last Sunday was a temperance lesson and the relation existing between this lesson, the drink and kindred evils made his talk very interesting in as much as he was familiar with crime and attributable causes.

If we remember correctly, the Judge said that 95 per cent of the criminals of the penitentiary of Texas attribute their downfall directly

to drink. Society, the public in general should be aroused and alarmed. They should guard more carefully the community's interest as regards the evil influences that creep in unawares even in Snyder, he said, so called entertainments of questionable repute, such as rodeos, carnivals, etc., should not be tolerated.

It is satisfying to know though that less than 8 per cent of those who are raised up in the Sunday school in the State of Texas, go wrong, he said, and less than 18 per cent generally speaking.

Keep the Sunday school fires burning, eradicate the evil influences, and ever be awake to our individual responsibility, was the burden of his address.

At the Baptist Church. All regular services will be held at the Baptist church Sunday and Sunday night. Sunday school at the regular hour, 9:45 a. m. Tuesday night Dr. F. S. Groner, Secretary of State Missions, Dallas, Texas, will preach. Everybody respect-

strongest men and you will hear him fully invited. Dr. Groner is one of our with pleasure and profit.

Jeff Davis, Pastor. Mrs. J. D. McClanahan left last Saturday for Blooming Grove to visit her parents.

## SCURRY COUNTY'S FIRST ANNUAL EXHIBIT PROVES GREAT SUCCESS

That Scurry county's First Annual Fair was a success goes without saying as everyone of the 5000 people who attended will attest. Despite the two days of worst weather during the year, the attendance was exceptionally good and the interest shown by the people splendid and only goes to show what can be expected from next year's exhibit which has already been planned for and is now being talked. Besides this plans are now on foot to pull off a sure enough mid-winter chicken show in December 1921 or January 1922.

This show will be conducted along regular poultry association lines and will be for the sole purpose of encouraging and developing the poultry industry in Scurry county.

The poultry exhibits were judged by Mr. C. P. Van Winkle, publisher of the Poultry News of Dallas, and ranking among the most prominent poultry experts of the United States.

The farm and garden products and live stock displays were passed on by Mr. C. M. Jennings, County Agent of Lubbock county. Long before opening time, all the cattle pens were filled and even though we are tooting our own horn, some of the best livestock in Texas were in the pens of the Scurry county fair.

Mr. W. S. Reed of Camp Springs had a notable farm display with something like 50 products from his farm on exhibition.

The children of the Snyder Public Schools in two days of time prepared an exhibit which would do credit to any occasion. The first to the eighth grades were represented with several hundred specimens of the children's handwork which created so much interest and enthusiasm that arrangements are being made to extend this work under the direction of a special committee to all the schools of the county with substantial prizes next year.

On account of the illness of Secretary Anderson this week, the Signal will be unable to publish the names of the prize winners until our next issue when a complete list will be given.

### Revival at Presbyterian Church.

Rev. and Mrs. W. E. Erwin with their singer, Mr. Frasier will be here Nov. 10, for a revival season.

Rev. Mr. Erwin needs no introduction to the citizens of Snyder as he has been here before, with Mrs. Erwin at the piano and Mr. Frazier to direct the choir forms a team in the Lord's service with whom Christian people can join hands with hope of success. Christians of all denominations are cordially invited to be with us in sympathy and cooperation.

If you can sing even whistle, join the choir.

## SNYDER SCHOOLS SHOW PROGRESS

Hon. School Board: At this time, the close of the second month of our school session, permit me to submit the following report:

Throughout the entire student body there has been manifested a highly satisfactory attitude both towards the work to be done and the observance of such rules and regulations as the best interests of the schools make necessary. An unusually large percentage of the pupils show a very careful preparation of their daily class work. A highly satisfactory interest in their work is manifested by almost the entire student body at all times. But a very small percentage requires coercion. The attendance is highly gratifying. There are, however, too many cases of tardiness. Up to this time we have been a little slow in administering punishment for this offense for the reason that in our efforts to break up the troublesome habit on the part of the children in coming to school too early, we have naturally confused some who either have no time peace at home or seem unable to keep with Western Union time, which is our standard. It is evident though that some are taking advantage of this temporary leniency and for that reason mild punishments are being administered where it is evident that the offense was committed through carelessness or indifference. Truancy is very, very infrequent.

From the standpoint of conduct the pupils have responded beautifully. They appear to appreciate and to respect their teachers to the extent that right conduct is the natural result. They are in a good humor and do not seem to regard their work as unpleasant tasks imposed upon them. Punishments for misconduct are very few. Especially is his true in regard to corporal punishment.

Here I feel that I would be remiss to my duty, if I failed to call attention to the very, very hearty co-operation the entire teaching force has given me at all times, the enthusiasm manifested in every phase of their work and the patience displayed in handling many ugly and trying situations that arise because of our poor physical accommodations such as buildings, worn out desks, broken stoves, and inadequate working equipment of all kinds. The splendid results being obtained under such conditions, discouraging as they are both to teachers and pupils, can only be obtained through the hearty cooperation, the unbounded enthusiasm and the unflinching fidelity to duty of just such a corps of teachers as are now serving the Snyder schools.

Again I must not fail to note the splendid support, the very manifest interest and the helpful co-operation extended us at all times by the patrons, the Parent-Teachers Association and you members of the School Board individually and collectively. With a continuation of this kind of sympathy and support I can see ahead of us nothing but a most successful year's work.

Respectfully,  
J. H. BURNETT,  
Supt. Snyder Schools.

#### HOME TOWN PAPER WEEK.

Nation Wide Movement Set For November 7-12.

Every Four Corners has its Home town week now-a-days, but all the boys and girls who have wandered from the Township Center cannot get back to enjoy the loved surroundings. But all can subscribe to the old home town paper and thus keep well in touch with the little spot they once called home.

What joy to run over the school promotions and find that the tota of a few years ago are moving higher and higher in scholastic circles and eventually blossom forth as the "sweet girl graduates," or the clean strong boys discarding knickers.

Angus McGugan's horse died yesterday; Peter McGregor will run for the county clerkship of the Hilltown Agricultural society; Lydia Munger has opened a millinery store in one side of the printing office; Mrs. Brown lost her hand satchel in the butcherery; Dr. Dorland is attending Clara Brown who is down with a severe cold; Mrs. Plater broke her ankle and is in the county hospital.

Yet though he smiles at the old time styles, expressions he enjoys it all over and over again, for it takes his mind back where his wonderful boyhood days—happy days—were spent.

Hon. R. A. Baldwin of Lubbock in his address before the joint meeting of the Slaton, Post and Snyder Chambers of Commerce at Snyder last Friday said that he could see that Snyder had a wide awake newspaper and Chamber of Commerce. We do know the latter is true and hope there is some semblance of fact in the former. We thank Mr. Baldwin for those kind words. We are human and like complimentary words, and then it helps. It is better to have nice things said about you if you deserve it, rather than undue criticism. We do know that the Chamber of Commerce has done a good work for the short time it has been operating. They have started a movement that will result in untold good to the farmers and also the business interests of the town. The fair should be a permanent organization, and of course will be. The success of the one just passed will be a great incentive to make the next one a bigger and better one.

We wish to thank the business men, the Signal force, and all the ladies, teachers, and others of the

town who so willingly helped and patronized our entertainment at the city auditorium Monday evening, Oct. 31. These benefits are for the good of our town, and every effort put forth toward improving our school will be a permanent help. Let us all work together, and make Snyder school one to be proud of.

#### Texas School Attendance.

The department of Commerce, thru the Bureau of the Census, announces that according to the census of 1920 there are 779,222 children 7 to 14 years of age in the state of Texas, and of this number 652,476, or 83.7 per cent, were reported as attending school. In 1910 the percentage attending school was 76.8, thus indicating a gratifying improvement as regards school attendance between 1910 and 1920. Of the children 14 and 15 years of age in 1920, 79.1 per cent were attending school, and of those 16 and 17 years of age 48.8 per cent.

Of the white children 7 to 13 years of age, 78.4 per cent were attending school in 1910 and 83.8 per cent in 1920. For the colored children of the same age the percentage in the same interval increased from 70.2 to 84.

The percentage of children attending schools was considerably larger in the cities than in the country districts, the percentage for children in the urban population 7 to 13 years of age being 88.4, while in the rural population it was 82.1. "Urban" according to the census definition, includes all cities and other incorporated place of 2,500 population or more.

#### WORN NERVES.

Nervous troubles, with backache, dizzy spells, queer pains and irregular kidneys, give reason to suspect kidney weakness and to try the remedy that has helped your neighbors. Ask your neighbor.

Mrs. J. L. Abbott, Church st., Snyder, says: "I was in a pretty bad way with my back. At times there were sharp pains in the small of my back, which I could hardly bear and when I stooped over to put on my shoes in the morning it was an effort for me to straighten up, as the pains were so intense. I had terrible nervous spells and throbbing headaches. My feet and ankles would swell twice their normal size and mornings I felt tired and worn out. Doan's Kidney Pills had been used in the family for a good many years with wonderful results, so I took them and I am glad to say I certainly derived wonderful benefit from their use. I am not at all bothered in that way now, but occasionally I take a few Doan's as a preventive."

**That Nitrate Plant Again.**

Congressman Marvin Jones recently took Hon. Nicholas Longworth to task for his attitude on the Muscle Shoals project.

During the War the Government established a nitrate plant at Muscle Shoals on the Tennessee River to manufacture nitrate for making explosives for war purposes. After the war the engineers recognizing the value of the tremendous water power and of the established plants urged that dams be completed at a small expense and fertilizer manufactured for use on the farms, the claim being made that in this way fertilizer could be sold to the farmers at one-half the present cost. Mr. Longworth and others from manufactur-

ing districts strenuously opposed the completion of the project.

The entire project was about to be abandoned when Henry Ford offered to take the whole system off the hands of the government and to operate it in the interest of agriculture.

"For years," said the Texas member, "Mr. Longworth has been fighting the entire project and picturing it as public waste and extravagance. The government has spent some \$60,000,000 there.

"One would think that the gentleman from Ohio would jump at a chance to rid the government of the whole proposition. But all of a sudden when the manufacturer of 'Flivvers', Henry Ford, offers to pay the government \$214,000,000, Mr. Longworth becomes dumb. The outburst of oratory has not occurred; the flaming patriot has not spoken the eloquent tongue he has been silent. Oh, consistency, thy name is no Nicholas!

"What is the reason for the sudden cooling of the ardor of all these gentlemen? Can it be that the clause in Mr. Ford's offer that he guarantees to sell fertilizer at a net profit of not more than eight per cent frightens the other manufacturers, and that his offer to turn it over to the Government in the event of war as a powder plant scares the munition makers?

"There are those in Congress who balk at any legislation which has for its primary purpose the furthering of the interests of agriculture."

**Most Waco Prizes go to West Texas.**

"West Texas won first prize in the intersectional agricultural exhibit contest," at the Waco Cotton Palace, states a telegram received in Fort Worth from Porter A. Whaley, secretary of the West Texas Chamber of Commerce. West Texas, commonly thought of as a cattle raising section, has gained official recognition of her primacy in agriculture as well, and that when railroad and marketing facilities are not as good as other sections of the State.

West Texas also won thirty-seven individual firsts, and twenty-four seconds, at Waco, thus giving her a total of 75 per cent of all prizes.

West Texas cities are calling for more farmers, stating that less than one-third of the best grade of soil is being farmed. They have also asked Fort Worth to help them in securing more railroad facilities.—Fort Worth Star-Telegram.

## RED CROSS GIVES ANNUAL BUDGET

\$19,361,657 Allotted for Current Program of Relief and Service.

### MILLIONS FOR VETERAN AID

Medical Aid for European Children Will Cost \$6,000,000 This Year.

Washington.—Expenditures totalling \$19,361,657 for carrying through its program of relief and services in the United States and overseas are outlined in the budget of the American Red Cross for the current fiscal year. This total is more than \$5,000,000 lower than the expenditure during the last fiscal year, when the disbursements reached \$24,402,741. It is announced at National Headquarters in a statement calling attention to the

necessity of continued support of the organization by response to the Annual Roll Call, November 11 to 24, if the vital work of the society is to be effectively carried on.

Outstanding among the items of the domestic budget is the appropriation of \$3,669,256 for work in behalf of the disabled ex-service man and his family. This appropriation represents the amount allotted to this work from National Headquarters only and does not take into consideration the millions being spent in chapters for relief of the World War veteran. It is in the chapter that the greater amount is spent in meeting this obligation of the Red Cross, the announcement continues, as manifested by figures of the fiscal year 1920-1921 when the total was approximately \$9,000,000, of which \$2,692,994 represented the disbursement of National Headquarters while the remainder was the chapters' contribution to this field of Red Cross service.

#### Vast Work for Disabled

Chief among the sub-divisions of the appropriation for work with veterans is that which concerns itself with assistance to disabled men and women in government hospitals. This item of \$1,790,000, an increase of more than \$500,000 over the appropriation

for the same work in last year's budget, will provide those personal services for the disabled and their families which are indispensable to supplement those provided by the government. The director of the Veterans' Bureau has recently expressed his desire that the Red Cross should continue and extend these "humanizing services." Other items of the appropriation for veterans' relief are proportionately increased. An additional appropriation of \$469,600 has been made for Red Cross work in connection with regular Army and Navy hospitals and with the regular Army and Navy.

For disaster relief, the Red Cross has set aside for the current twelve months an appropriation of \$543,976, virtually doubling the appropriation for the same purpose for the fiscal year 1920-1921.

More than \$2,000,000 is provided for service and assistance to the 3,000 Red Cross chapters by the national organization.

#### Helping Destitute Children

Other items of the domestic budget include \$498,546 for miscellaneous activities, including contributions restricted for special purposes and \$708,000 for management. Each of these items represents large reductions over similar appropriations of the previous year.

From a fund of \$10,000,000, \$5,000,000 of which was contributed through

the European Relief Council campaign and \$5,000,000 allotted by the Red Cross for child welfare work in Europe, there remains \$8,765,108 still available, of which it is estimated that \$6,000,000 will be required for this work during the current year. For Red Cross participation in the joint effort to relieve famine conditions in Russia, for final work in the China famine, for Junior Red Cross and other overseas activities including the closing of the old general relief program in Europe \$4,978,000 is made available.

In announcing the national budget, the Red Cross makes it clear that the figures do not include chapter expenditures or place any cash estimate on the invaluable service of volunteers in chapters.

**CARRYING ON SERVICE FOR DISABLED VETERANS OF THE WORLD WAR THAT IS COSTING \$10,000,000 A YEAR, THE AMERICAN RED CROSS IS HELPING FULFILL THIS NATION'S OBLIGATION TO ITS DEFENDERS. HELP THE RED CROSS CONTINUE THIS WORK BY ANSWERING THE ANNUAL ROLL CALL NOVEMBER 11-24, 1921.**

#### Three Species of Giraffe.

Dr. Samuel Johnson did not quit over the facts when, in his celebrated dictionary, he defined the giraffe as "an Abyssinian animal taller than the elephant, but not so thick. As a matter of fact, there are at least three species of giraffe—the one with two horns, long familiar to us, at the second that dwells in northern equatorial Africa, and shows a third front horn (in old bulls), or, in the Uganda variety, with as many as five sun horns on its crown. In the second species the patches in the network coloring are larger and of a brighter chestnut than in the ordinary kind.

## Are You a Renter?

Mr. Man, have you ever figured how much actual money you have given to the other man for the privilege of working his land? If not it is high time for you to begin using your brains as well as your hands and feet.

We know of men who are today renting land on basis of third and fourth as well as on halves and they have worked mighty hard to be compelled to give to the other man half and fourth of what they have produced. For illustration: One man in Scurry county had in 150 acres of cotton and has gathered around 60 bales of cotton. These 60 bales have brought him approximately \$6000.00 in cash and he has had to turn \$3000.00 in cash to the other man.

This \$3000.00 cash would have paid for one of our 160 acre tracts of the Davenport land located 7 miles from Snyder and he would have had a home and be working for himself. We call your attention to our advertisement of last week and again urge you to buy now while you can, and especially as we will sell these lands to you on a basis of one fourth cash and give you 1 to 5 years on the balance.

These tracts are cut into 80 and 160 acre tracts and some of the finest land in Scurry county can be found on this body of land. You won't find any softer or sweeter water in Scurry or at a shallower depth than there.

Field notes and abstracts all down to date. We insist that you give this your earnest attention and be among the 20 or 25 men who are going and are now buying this land.

Don't fail to come into our office and we will go over this proposition with you. We are the exclusive agents for this land. We have a large list of A1 improved farms for sale.

Mexico, where one hears nothing spoken save Spick and Navajo, and believe me, when I occasionally have my bundle of Snyder Signals brought up from Magdalena, I surely revel in good old American words printed therein, and, again, I am back at home with the good people of Snyder.

Although, I often get homesick for Snyder and Snyder people, I really love this country. I love the rugged mountains with their evergreen cover of pines, cedar, aspens, pinon and spruce; I love the wonderful plains country surrounded by the mountains with the beautiful heavens and a full moon over head and with the occasional lonesome wail of a coyote on the air; I love the whole country unmarred by barbed wire fences and cultivated fields. This country makes me wonder why cities are, and why civilization.

If one wants to live a free life with the memories of a beautiful town and of a lovable people behind him and with a wonderful awe inspiring country before him, I ask that man of Snyder to come to New Mexico and on to Datil.

There are two motor routes and one rural route from the Snyder postoffice. The motor routes are 52.7 and 54.6 miles, or a total of 107.3 miles in length. The rural route is 29.1 miles in length, or a motor and rural routes.

In addition to these routes there are two total of 136.4 miles covered by the motor and rural routes. In addition to these routes there are two star routes of a combined length of 43 miles, making a grand total of 179.4 miles covered by all the routes emanating from the Snyder Post Office, over which routes mail is delivered daily to approximately 475 families, or 2500 patrons. These routes are so directed as to almost completely serve the territory within a radius of fifteen miles in all directions from town, with but very few of the patrons residing more than 1-2 mile from a daily mail route. A representative from the post office has been inspecting these routes as to their condition in general, more particularly the condition of the roads, and while engaged in this work, made some observations, that might be of interest to the public. The daily rural route mail service as at present organized and maintained is the very best means of establishing and preserving the business and friendly social relations that should always exist between the town and country, that we know of, and its mission in this respect, locally, has not failed. We had opportunity to amply justify

this statement in the exchange of commodities between the business men of town and the man from the country. The carriers bringing in the products of the farm and delivering merchandise to the patrons on the routes. It was not an infrequent occurrence to have a farmer hail the carrier with a broadside of interrogations as to the price of chickens and eggs and as to the tone of the cotton market, or giving orders for some article of merchandise to be delivered the following day. In this connection we were pleased to personally observe what we have long since learned to know to be a fact that the carriers serving the rural routes from Snyder are efficient and faithful postal employees and that they were given by the patrons of the rural routes which they served that standing in the animal kingdom which their conscientious and patiently performed service entitles them, and it gives us pleasure to speak here and now for them a continuance of this thoughtful consideration which is but their just dues. Likewise a contemplation of the nature and character of the postal service and its beneficent and ameliorating influences is sufficient cause for congratulation in that one may claim allegiance to a government that gives to its people such service, for rain or shine, through cold or heat this work goes on, with but one thought in the mind of all honest and conscientious employees to give efficient service. It takes but a moments thought to convince one that the postal department is not conducted as a money making institution, but solely to serve the people for the cost of maintenance is often beyond that of the income.

### 7,000,000 Slav Children Face Death.

Washington, Nov. 2.—Nearly 7,000,000 Russian children in the Volga region are facing starvation, Secretary of Commerce Hoover declared today before the House Military Affairs Committee.

Less than 1,400,000 of these children can be cared for by American relief efforts, the secretary said, although it is hoped that by January the number can be increased to 2,000,000. It will not be possible to afford relief to adults.

Declaring that this situation "hold a danger to America" in the possible spread of cholera and other diseases Secretary Hoover urged that Congress authorize the donation of surplus army medicines and clothing for Russian relief.

**The Sunday School Association.**  
The completion of the organization of the Scurry county Sunday school Association.

Some time ago Miss Vera Hunt, one of the workers sent out by the Sunday school Board of the Southern Baptist Convention, located at Nashville, Tenn., came to our county and organized The Scurry County Sunday School Association, with the following officers: E. C. Dodson, general Supt.; Mrs. Walter Gentry, Associate Supt. of District No. 1; and J. B. Adams, Associate Supt. of District No. 2; Miss Vera Smithers, Supt. of Standardization and Miss Dorcas Porter Secretary Treasurer.

At the fifth Sunday meeting held at Justiceburg, Oct. 30, 1921, the organization was completed by electing the following parties to fill the following offices:

1st For Associate Supt. with Miss Vera Smithers on Standardization, P. A. Miller.

2nd. For Supt of Grading and Organization, Mr. Gleston. L. N. Periman and Guy Casey.

3rd. For Better Buildings and equipment, Mrs. J. W. Humphrey, A. P. Morris and L. McQuinn.

4th. For Supt. of Teacher Training Miss Ida Kelley and Mrs. W. M. Morrow.

5th For Supt. Elementary Work, Mrs. Roland Bell and Mrs. W. L. Shaw.

6th. For Supt. of Organized Bible Class Work, M. Stacy, A. C. Alexander and A. N. Epps.

7th. For Supt. Publicity, W. R. Bell and Marvin Morrow.

8th. For Supt. Intermediate, Senior and Adult Work, M. E. Rosser and Mrs. M. E. Roeser.

Now, Mr. Editor, I beg for space for the following:

There are 3008 churches in the

state of Texas and 2,177 Sunday schools. There is twelve annual district Sunday school conventions for Texas. These districts are subdivided into 120 smaller districts called Associational districts of which two are in Scurry county Sunday school Association composed of 12 churches in Scurry county and one at Justiceburg located in Garza county. The 120 district Associations are all cooperating with the Baptist General Convention of Texas. Don't forget that the Baptist General Convention of Texas is in the Sunday school business, for the Master's cause.

Now in regard to the duties of the officers elected to work in this district: You will receive a folder some time in the near future which will indicate some of your duties. Now look over the field. It is ripe to harvest. Every Sunday school in the entire association needs your help and your prayers. The organization has come to stay. Some of its greatest purposes are to put our Sunday schools up on a higher plane, to make them better, to get a better and more regular attendance; to help all the officers and teachers to become more efficient; to do the greatest amount of good to the greatest number of people, in the smallest time, and to keep it up until this age shall have an end.

I will perhaps write a short article on organization and co-operation for the next issue. Now in behalf of the Snyder B. Y. P. U. and all others who attended, that fifth Sunday meeting at Justiceburg I want to again extend our thanks to those big hearted people, those West Texas people for their kindness and the welcome with which they greeted us. Now for Bro. Jones the pastor, we want to say that his people certainly do love him and

he reciprocates their love.

Since writing the above, Bro. Humphrey, our incessant and almost untiring missionary tells me that the ladies organized their auxiliary, and that at night the young people set next Sunday to organize their B. Y. P. U. and that in the contribution to the seventy five million campaign Domino.

The Federated Woman's Auxiliary.

Was entertained by the Methodist ladies Monday afternoon at the Methodist Church, with a very interesting program, with the President, Mrs. Emmett Johnson, in the chair. The Meeting was opened with singing "The Kingdom is Coming," led by Mr. Yoder, with Mrs. Hamilton at the piano. Mrs. Johnson read as Scripture lesson 1st Kings 8:41-42 and Micah 1:1-5, followed by prayer led by Mrs. Jeff Davis.

Roll call, the president of each auxiliary with the members of her society standing, answered with a Scripture verse on Missions.

A splendid report was given from each auxiliary as to the great work being accomplished by their Missionaries and denominational schools and all the work that their church fosters.

Mrs. Hamlett gave the report for the Christian church, Mrs. Woodfin for the Baptist church, Mrs. Elza for the Presbyterian church and Mrs. Lee Stinson for the Methodist church. It was a great inspiration to hear these reports.

Miss Riley favored us with a beautiful solo.

Doris Buchanan gave a very appropriate reading on Mission work. The program closed with a beautiful duet, by Mesdames Hamilton and Morrow, after which we were all asked to go to the basement, where we were served to a delicious salad course. Everyone went away feeling like they had been greatly benefitted by attending this meeting.

**LUBBOCK FARM YIELDS  
\$204 IN TURNIPS**

Two hundred and four dollars an acre is a pretty fair return from two and one-half acres of a South Plains farm, especially when they are cultivated as a side line on days too bad for work in the field.

But that is the actual record of W. L. Boyd, who already has marketed seventeen loads of turnips from a two and one-half acre patch on his farm, four miles southeast of Lubbock, at an average of \$30 a load. This makes only 20,400 turnips, or two each for every man, woman and child in the county, and, when it is figured that any two of these turnips will make a full meal for the average family, it is seen that, on two and one-half acres of land, Boyd has marketed enough turnips to feed every family in Lubbock County for a week.

But the turnip market here is dragging, due to the fact that most residents have turnip patches of

their own. But the twelve or fifteen head of pure-bred hogs that live on the Boyd farm find turnip digging one of the best forms of pre-breakfast exercises—incidentally saving Boyd the cost of digging and marketing from house to house.

The turnip record is being duplicated every day by potato, bean, watermelon, cantaloupe, cotton, corn, maize and alfalfa records—for, with the growth of this section and the experimental work being done at the State Experiment Farm, the proper methods of cultivation and the most adaptable crops and varieties of seeds are being developed with the result that each season sets a new bunch of crop records.

**Bob Taylor's Dream of Heaven.**

Perhaps we all have read the following article by Bob Taylor but those who love the beautiful it is an epic that never grows old.

"What Heaven is I know not, but I have long dreamed of its purple hills and its fields of light, blossoming with immortal beauty; of its brooks of laughter and its rivers of song and its places of eternal love. I have long dreamed that every bird which sings of this life out here on earth may sing forever there in the tree of life and every consecrated soul which suffers the pain of this world may rest among the towers of Heaven and live and love forever. I long have dreamed of opal towers and of burnished domes, but what care I for gates of pearl or streets of gold, if I can but meet the loved ones who have blessed me on earth, see the glorified faces of father and little baby brother who died among the bursting buds of hope and take in my arms again my own darling baby who fell asleep ere her little tongue could lisp "Our Father who art in Heaven." What care I for the crown of stars and a harp of gold, if I cannot love and laugh and sing with my loved ones forever in the smile of my Savior and my God." —Selected.

**Texas Illiteracy.**

The Department of Commerce, through the Bureau of the Census, announces that according to the census of 1920 there are 295,844 illiterate persons 10 years of age and over in the state of Texas, "illiterate" meaning unable to write. Of this number 50,424 are native whites of native parentage, 30,219 are of foreign or mixed parentage, and 112,417 are of foreign birth. The number of illiterate Negroes is 102,053. In the total population 10 years of age and over the percentage of illiteracy is 8.3, which shows a slight diminution since 1910, when it was 9.9. In the case of the Negroes the percentage from 8.3 to 2.2. For the foreign born white the percentage was 30 in 1910, and 33.8 in 1920.

By counties the percentage of illiteracy ranges all the way from 44.6 in Willacy county to one-tenth of 1 in Hansford county. Scurry County shows 1.2.

**CITATION BY PUBLICATION.**

THE STATE OF TEXAS: To the Sheriff or any Constable of Scurry County—Greeting: You are hereby Commanded to summon Mrs. Ellen K. Scott, B. P. Scott, A. D. Scott, W. T. Reece, J. H. McBride, L. L. Drago, C. D. Woods and I. M. Drago and Allie Drago,

by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 32nd Judicial District, to appear at the next regular term of the District court of Scurry county, to be held at the Court House there of, in Snyder, Texas, on the 4th Monday in December, A. D., 1921, the same being the 26th day of December, A. D., 1921, then and there to answer a petition filed in said court on the 18th day of October, A. D., 1921, in a suit, numbered on the docket of said court, No. 2202, wherein Floyd Shock is Plaintiff and P. S. McDermott et al are Defendants, and said petition alleging that heretofore to-wit: On June 12th, 1911, defendant and made, executed and delivered to P. S. McDermott his ten promissory notes, the foremost 9 being for the sum of \$200.00 each and the tenth for the sum of \$1700.00, interest thereon from date at the rate of 8 per cent per annum, payable annually, notes due one each year after date, providing for ten per cent on amount due as attorney's fees, if placed in hands of attorney for collection payable to P. S. McDermott or order at Snyder, Texas. All notes paid except last. Notes secured by vendor's lien on section 771, Block No. 97, H. & T. Co., Ry. Co. survey in Kent County, Texas, lien retained in deed from McDermott to plaintiff. That said last note is owned and held by plaintiff, is past due and defendants have refused and failed to pay the same or any part thereof. Interest due thereon from June 12th, 1920. Plaintiff being unable to collect same has placed same in hands of his attorney and agreed to pay him the ten per cent due thereon as attorney's fees, as in said note specified, which is a reasonable and customary charge in the premises. The defendant Ware has since sold said land to defendants I. M. Drago and Allie Drago, who assumed the payment of said notes in the deed of conveyance. That all other defendants are claiming some interest in said land which plaintiff avers to be junior and inferior to his interest and claim in and to said land. Plaintiff prays judgment for his debt, principal, interest and attorney's fees against defendants Ware, as maker, defendant McDermott as indorser and defendants I. M. Drago and Allie Drago as having assumed the payment of said notes, that all rights between plaintiff and defendants be adjudicated, costs of suit, foreclosure of his vendor's lien

with order of sale, etc. For general and special legal and equitable relief. For a more complete statement of Plaintiff's cause of action, reference is hereby made to Plaintiff's Original Petition, now on file in the office of the Clerk of the District Court, in and for Scurry county, Texas.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my Hand and the seal of said court, at office in Snyder, Texas, this the 18th day of October, A. D., 1921.

**What is a Good Citizen?**

—Fifty years ago the man who kept money at home or on hand to lend his neighbors was a good citizen.

—The man who hoarded money was never a good citizen at any age; but today, in the age of banking, it is certainly one of the first requisites of good citizenship for every man, woman and child to put every dollar they have in some bank.

**For Torpid Liver**

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White, of Keota, Okla. She continues: "I had a pain in my chest after eating—tight, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

### HALLOWEEN CARNIVAL A PRODIGIOUS SUCCESS

Snyder's 1921 Halloween was its 50th and sanest, indeed its most enjoyable.

The Parent-Teacher Association deserves much credit for that great community gathering and the unique specialties furnished for the occasion.

My! but there was a happy throng—good eats for the fathers, joy for the kiddies, thrills for the mothers and ecstasies for the lovers.

Goblins and spooks, fortune tellers and chambers of horrors on every hand. Fishing ponds, ten cent kisses, twin camels, the big elephant and the witches' paradise added much to the hilarity of the evening.

Witches and ghosts there were a plenty, and innocent merry making filled the air.

If you didn't get sprinkled with confetti, you were not there—if you didn't get your fill of delicious pies, rich sandwiches and cream candies you are a "tight wad," and if you didn't have a big time you deserve to die.

At no time in the history of our town, has Halloween been observed so fittingly. That a community spirit can be injected into our festivities, was clearly shown, and the way is paved for a closer union of our town people by these get together meetings.

### DUNN NEWS.

We are having some mighty fine weather. The sand is "constantly" blowing almost every day.

Farmers are nearly through with their year's work. Cotton pickers are leaving for the south, which proves an early winter.

Mrs. Billingsley attended the O. E. S. Grand Chapter at Fort Worth last week.

Mrs. W. M. Cunningham (nee Ethel Kay) was visiting friends here a few days last week before returning to her home in Rotan, N. Mex.

The box supper given Saturday night was pronounced a "Howling Success."

The Methodist Sunday school was reorganized Sunday morning. All are invited to come and join. The young people's class is putting on a campaign for new members.

The singing Sunday afternoon was largely attended. We were glad to have so many visiting people with us and hope they will come again.

Yes, the spooks made their appearance Monday night. Everybody had a wonderful time too. Mrs. Green, the principal of our school, served us with a nice cake when we appeared at their home. A number of games were played and all went home wishing for such a party more often.
