AND SNYDER SIGNAL

VOLUME XXXVII

SNYDER, TEXAS, THURSDAY, AUGUST 7, 1924

Number 10

SNYDER ORGANIZING LOCAL ORDER OF NEVER-SWEATS

The old order known as the Sons of Rest, so popular in Snyder a few years ago is being reorganized under the highly appropriate name of Never-Sweats. The names of the following appear on the list as charter members: Uncle Jim Hart, Judge Noble, A. M. Curry, D. P. Lane, T. J. Broxon and Uncle "Ap" Prewitt.

The old boys are sure that they will get their charter as everyone who has signed up is said to be of the very best material, although the principal qualification is that no member is supposed to be caught taking any sort of exercise violent enough to produce perspiration.

Snyder is said to be a fine field for working up a large membership in this popular, time-honored order, yet there are a number who desired to be charter members that were precluded on the grounds that they were seen doing manual labor at least once during the past six months which act would disqualify them for membership in the order for another six months.

Among those of this class is Perry Morris. Mrs. Morris is proprietor of the Alamo hotel, and Perry has a cinch on a good living, but he disqualifies himself for membership for six months last week when he was found guilty of painting a sign. He is now taking physical culture under Prof. Bolen hoping that he may be able to work up to a condition in which he can do the light work he has always followed without causing exhaustion and a flow of perspiration.

Another who has been cherishing the hope of being able to qualify is our venerable friend, Joe Strayhorn. Mr. Strayhorn has been here a long time. In fact he claims to have driven most of the stakes on the Llano Estacado, yet he is willing to give J. Wright Moor credit for having dug Deep Creek. But Mr. Strayhorn could not possibly qualify for six months at least, because of the fact that he was caught in the act of "cranking" one of the five tractors his force is using in building the dam to the big reservoir he is having built on his big ranch near town.

No action has yet been taken as to the election of officers, but J. D. Isaacs will probably be elected head of the order. He has always declared that farmers are of three kinds—tired, retired and rubber-tired, and that he can prove that he has always belonged to the first-named class. He says that T. J. Broxon is really and truly a retired farmer and that Joe Strayhorn is a fair sample of a rubber-tired farmer, as he always keeps on cold storage a flock of Fords ready to go whenever he presses the button.

Ben F. Smith has intimated that he would like to join, but his past record as an indefatigable laborer has caused many to question whether he could keep faith with the order and he will in all probability be rejected.

The "old boys" hope to have the authority to "meet and work" before another issue of the great moral weekly goes to press, and that a full report of the first meeting can be given to the Times' great throng of readers.

SNYDER MEN VISIT WORLD'S GREATEST IMPLEMENT FACTORY.

Messrs. A. V. McAdoo and R. C. Grantham, representatives of the B. F. Avery line of implements for this part of the country, returned last week from Louisville, Ky., where they were honored guests at company's big 100th anniversary jubilee.

The Bryant-Link Company, with Mr. McAdoo in charge, has built up a big trade for the Avery line in this part of the Dallas territory, and he was really and truly an honored guest by being shown many special favors by the heads of the great company in just recognition of his services in the matter of popularizing the Avery line in the Snyder trade territory.

Both Mr. McAdoo and Mr. Grantham were highly pleased with the courtesies shown them and declare that they were never so royally entertained in all their lives as they were on this particular occasion. They were dined and wined (that is as far as the Eighteenth Amendment would permit) and shown every other courtesy that would in any way contribute to their complete happiness.

WILL LEAVE FOR MARKET.

Mrs. W. E. Smith, in charge of the millinery and ready-to-wear department at Higginbotham's will leave Monday for the eastern markets where she will spend the next ten days purchasing a nice and up-to-date line of goods for their many customers in this trade territory.

Supt. and Mrs. Bagwell Home

Supt. and Mrs. Bagwell returned last week from an extended visit East. Mr. Bagwell was a delegate to the National Democratic convention at New York and while they were detained there much longer than they expected, they were able to see and study many things and places of historic, political and economic interest.

Mr. and Mrs. Bagwell left Snyder June 8, for Detroit, Michigan, on the way they stopped in Kentucky where they went through the famous Mammoth Cave, which is about ninety miles south of Louisville. At Detroit they bought a Dodge Sedan and shipped it across Lake Erie to Buffalo, N. Y., and made the remainder of the trip in it. After an interesting visit in Canada and at Niagara Falls they drove over the famous highways of New York and to the New England States, in Kittery, Maine, they visited the navy yards which is the head submarine yard of America, and while there they were taken aboard a submarine and shown all its wonders and workings.

They went to all the historic places of Cambridge, Boston, Bunkerton, Lexington and Concord, Harvard University and its famous botanical museum of glass flowers. They spent nearly three weeks in New York in the record-breaking Democratic convention where Mr. Bagwell was a delegate and Mrs. Bagwell served in the capacity of an alternate. While in New York they visited the outstanding points of interest. They had the good fortune of viewing the Atlantic fleet and going aboard the Leviathan and the Majestic, two ships taken from Germany after the world war and the largest ships afloat. From New York they went to Philadelphia, where they visited the old Continental Hall and other historic places. Then to Valley Forge where Washington spent the winter of 1777-78. Then to Gettysburg, the best kept and most authentically marked battlefield in the world. Quite a little time was spent in Washington, D. C., and its many places of interest and Arlington—our National Cemetery, where thirty-three thousand of our dead heroes are buried. They visited Mount Vernon—Washington's old home; Richmond, Va., Capital of the Southern Confederacy; the famous Stone Mountain near Atlanta, Ga., and on which the history of the Southern Confederacy is being carved; the famous old battle grounds, so well marked and kept, of Petersburg, Va., Cowpens and King's Mountain, Chickamauga and Chattanooga, Tenn.; Vicksburg, Miss.; the capitol buildings of Albany, N. Y.; Washington, D. C.; Richmond, Va.; Atlanta, Ga., and Jackson, Miss. The first fourteen hundred miles of their trip they did not drive a single mile on dirt roads.

GEOLOGIST FOSTER LOOKING OVER FIELD.

W. H. Foster, the geologist who located the Scurry County oil field, joined E. J. Thompson, manager of the Humphreys and Loutex interests here Tuesday.

In an interview with a Times reporter, Mr. Foster said that the Scurry County field was of the same formation and on the same fold as the Big Lake field which now has one three-thousand barrel well. He believes that the Scurry County field, which now has two producing wells, and another being drilled will be equal to the Big Lake field. The two wells are near Ira about thirteen miles from Snyder, but both Mr. Foster and Mr. Thompson are sure that the oil bearing formation runs within three or four miles of town.

TOMMY McDANIEL POISONED.

About 6 o'clock Monday afternoon Tommy McDaniels was taken desperately ill at his home near this city. He was rushed to this city for treatment. He was found to be suffering from ptomaine poisoning. He was dangerously ill for several hours but at the time of going to press he was much better and thought to be out of danger.

SEWER EXTENSION PROGRESSING FAST.

The work of extending the sewer system is progressing fast. The pipe has been laid on Scarborough Street almost to the Santa Fe station and on Plaid Street through Knott Street to the trunk sewer on River Street. This extension alone represents at least two miles of pipe with much more yet to be laid.

SNYDER MAY GET PHYSICAL CULTURE COLLEGE.

A Times representative in an interview with Prof. J. D. Bolen, Monday, was informed that a move is under way to establish a college of physical culture.

Prof. Bolen is manager of the Snyder Athletic Club which has nearly 100 members. Prof. Bolen's plan is to prove to the people of Snyder and community through the athletic club the great value of systematic exercise, and later to interest local capital in assisting him in building a college. The Athletic Club has an option on a tract of land highly suitable for the buildings and grounds and has promise of assistance in a financial way by a number of our local capitalists.

Everybody, especially those who lead a sedentary life, needs systematic physical exercise in order to keep physically fit. It builds muscular tissue, strengthens muscles that are not regularly brought into use, aids in normalizing the circulation, aids digestion and offers one of the very best and most fascinating means of entertainment known. In fact, it makes the body less vulnerable against the attack of disease, besides being one of the best known treatments for stomach disorders and other diseases in which various classes of muscles are employed in performing specific functions.

Such a school would also afford a place for our boys and young men to go to spend a few hours in innocent as well as beneficial amusement where no profanity or any other evil practices would be tolerated.

The Times hopes that our business men and others may see fit to cooperate with Prof. Bolen in his great work and that the college may be built. Such a college would admit for membership both boys and girls and would be the first and only college of its kind in the state. Let's build it.

T. German of Snyder. All the children will be in Baird for the funeral with the exception of Mrs. German.—Sweetwater Reporter.

LIONS GIVE WEEKLY LUNCHEON

The Lions' weekly luncheon at the Woodrow hotel Tuesday was well attended. A number of propositions looking to the welfare of Snyder was discussed and preliminary steps toward getting them on foot were taken.

The Lions Club was popular even from its very beginning and is growing in popularity with each succeeding meeting. It is now one of Snyder's strong organizations, co-operative in its nature with city building as one of its chief objects.

14 TREMENDOUS THRILLS IN VITAGRAPH'S "MIDNIGHT ALARM."

Fourteen outstanding thrills are reported in "The Midnight Alarm," the Vitagraph special production, which will be shown at the Cozy theatre on Wednesday and Thursday. These thrills were tabulated by David Smith, the director, in calculating the superior audience value of his greatest picture.

These thrills are so interwoven with bits of romance and pathos and intrigue as to maintain the interest of the spectator at a high point throughout. A spectacular fire scene, a train crash, a near-wreck of a train at a draw-bridge, and rescue of the heroine from a vault in a burning building are some of the high spots in this pulsating play.

Alice Calhoun, Cullen Landis, Percy Marmont and Joseph Kilgour play the principal roles in this photoplay.

Mrs. J. A. Stallings and children returned Tuesday from a month's visit with friends and relatives in California. They report a most enjoyable visit. Mr. Stallings is also glad that they are home for he bet he was "shore tired o' batchin'."

COMING FOR RETURN ENGAGEMENT.

Show goers will be pleased to learn that Manville Brothers' Comedians are coming to Snyder for a return engagement. They will open Monday night on the City Lot in their popular play, "One Girl's Experience."

Manville Brothers' Comedians is one of the most popular funmaking shows on the road. They were here about two years ago and showed to large audiences. They are high-class show folks and always try to arrange their dates so that they will not interfere with religious meetings in the town.

CITY COUNCIL MET IN REGULAR SESSION LAST MONDAY AFTERNOON.

The City Council of the City of Snyder met in regular session last Monday afternoon with the following members of the Council present: A. C. Alexander, Mayor Pro Tem; Aldermen J. C. Dawson, Forrest Sears, Little Westbrook and W. R. Bell; A. C. Prewitt, Secretary.

RAIN AT CAMP SPRINGS.

A nice cotton shower fell at Camp Springs Wednesday afternoon. Tourists coming through on to Snyder say that the road was slippery for several miles in that community.

Snyder School Has 24 Units

A town or even a city is measured by the standard of its schools and churches. The Times, therefore, is pleased to announce to its readers the fact that our public school now has twenty-four units of affiliation, four units having been gained the past winter through the efficiency of our school board, the school spirit that characterizes our people and the ability each member of the faculty the past year.

The units gained the past year are as follows:

Physiology, 1-2 unit; commercial arithmetic, 1-2 unit; civics, 1-2 unit; raphy, 1-2 unit; civics, 1-2 unit; foods, 1-2 unit; home nursing, 1-2 unit; clothing, 1-2 unit; design, 1-2 unit. Total number of units gained the past winter, 4. Grand total number of units, 24.

LET'S HAVE THAT BOOSTER TRADE TRIP.

Now that Snyder has a good brass band that's not only ready but rearin' to go, why not get ready and have that big booster trip? The recent showers have put new life into the business men of Snyder, and everybody ought to be right up on his toes in an effort not only to keep business coming to Snyder but trying to get new business turned in this direction. By all means let's have that booster trip, and have it before the busy season begins.

WRECK ON HIGHWAY.

Mrs. S. S. Huffman and daughter, Mrs. Lee Roy Smith, were in town Wednesday doing some shopping. A Buick belonging to a M. C. Robinson of this city and a Chevrolet belonging to Mrs. Brawley of Hermleigh collided on the highway about a mile east of Snyder Wednesday night. No one was hurt but both cars were considerably damaged.

City Extending Water Mains

Mr. D. P. Yoder informs the Times that the work of laying additional water mains is now well under way. It is a service main two inches and one and one-half inches in diameter and will supply the residents in the new addition across Deep Creek south of the square. The length of this main will be about 1,000 feet.

Another main 500 feet long is also being laid on Scarborough Street, east to Church Street to the city laundry.

Thus Snyder continues to make improvements that not only tend to keep in the van guard with other leading cities of its size in West Texas but also make it a better place in which to live. Come to Snyder.

WEDNESDAY WAS BIG DAY FOR LOCAL LIONS CLUB

Palatable Luncheon Followed by Public Lecture

Snyder Lions were greatly in evidence last Wednesday when at 12:30 p. m., about forty members of the local order left their several vocations and repaired to the spacious dining room of the Manhattan hotel to partake of a sumptuous luncheon prepared by the management of Snyder's popular hostelry.

It is not necessary to say that the tables fairly groaned under the heavy weight, because those who know of the reputation of the Manhattan know some thing of its fame in handling luncheons and dinners on special occasions.

The symposium was rather informal. Judge J. M. Harris, in his usual affable manner, introduced the following visitors: Col. C. M. Adams, Dr. P. C. Coleman, J. C. Faris and W. E. Doss, after which the lions retired to their respective lairs to await the public lecture at the Cozy theatre at 2:00 o'clock, p. m.

The above hour found the theatre filled almost to its capacity. Judge Harris, after a few preliminary remarks concerning the purpose of the lecture, introduced Mr. J. M. Penlan, president of the Waco Drug Company. Mr. Penlan, after paying Snyder, Scurry County and West Texas in general some high, yet justly deserved compliments, introduced the speaker in whose honor the luncheon had been given, Mr. Jamie Heron, poet, humorist and lecturer of Orange, New Jersey.

Mr. Heron began his lecture by painting a beautiful word picture of West Texas, followed by reciting his poem entitled, "Texas." Mr. Heron stressed the importance of co-operation in the matter of community building which was the principal theme of his able discourse. By way of introduction, Mr. Heron began:

"Back of all this universe is a tremendous intelligence working out the destiny of all, working with all and working for all—ever progressing and going on, building. Is it not reasonable to suppose that if this Great Intelligence works always for others that we should be always working for others also? We may work for ourselves and make a living, but we are not here just to make a living; we are expected to build a life. And, we can only build a life one way and that is by helping others to build. Living better by helping others to live better. Organizing by helping others to organize. Progressing by helping others to progress. Bringing success and happiness by helping others to be successful and happy."

"Do unto others as ye would they should do unto you. Putting the Golden Rule to work in business and in life and fearlessly applying its principles."

This was followed by a bit of pleasant humor and one of Mr. Heron's own poems which brought forth much laughter and applause.

The speaker then again took up his theme under the subject of "ORGANIZATION," as follows:

"Most business men are fairly well educated. They know how to read, write and cipher and talk, and they desire to be successful and happy. That is as it should be. But why are not more business men successful and happy? I think that the reason is that those who fail are in their wrong vocations. They are not doing the thing that they ought to do in building life. They are not organized."

Knowing that we are not successful and happy and admitting it is the first real step towards success and happiness, for we can become organized if we have the will to.

As all the leaves of all the trees in all the world are different from one another in some respect so are all humans different from one another and there is some one thing that each one can do better than anyone else and that is the thing that we must eventually do if we would be successful and happy. No man in the United States has the right to say that he cannot succeed and be happy for our constitution guarantees him that. "Every man has the right to life, liberty and the pursuit of happiness." There is no political, religious or class rights to hinder men from being successful and happy. Every man can be what he really wants to be. All he needs is understanding, organization and the will to do.

Organizing is more than merely arranging the details. It is a problem in salesmanship. Salesmanship is the fine art of changing the minds of others. If you have an article for sale, you proceed to change someone's mind to want that article more than they want the money value of it

in their pockets. When they want it that badly they will hand over their money and take your article. That is organization in business. Now try the same process in organizing yourself. Sell yourself to yourself. No one can do the selling but you for no one knows you like you do yourself, therefore, you must be your own salesman of yourself to yourself. Measure yourself. See where you stand in business and in life. These verses may help you."

The speaker then digressed with a few good laughable jokes and another original and highly appropriate original poem, after which he again took up his theme under the subject of Application, as follows:

"Seek ye first the kingdom of heaven and all things will be added to you," said the man who understood all things, even business. But, how does that apply to business? If we all understood and were organized we would see that Christ meant that, if we did business by the principle of the Golden Rule we would have success and happiness. What is the Kingdom of heaven that we may seek it? Some people look up to heaven as a beautiful place with every known comfort, where only the elect go when they die.

While others willingly admit that they do not know what heaven is or where it is but there is one thing sure and certain that if we do not get the kingdom of heaven here we will never get it hereafter. The kingdom of heaven is kingdom of happiness. If it isn't what is it? You must figure it out for yourself and I must do the same. My kingdom of heaven is the kingdom of happiness and I am going to get it right here by seeking it. There is only one way to get happiness and that is to give it, therefore, seek opportunity to give happiness to others and all things will be added to you. Some people are so eager to get happiness that they try to force it by seeking to get money that they might buy it and in their eagerness and haste they trample over others and make others unhappy, but they do not get happiness. Happiness cannot be bought nor can it be forced by making others unhappy; only one way will it come to us and that is by giving happiness to someone else—to others.

But how can we get happiness in business? Did you ever think just why you buy the things that you buy from day to day? Why does anyone buy? When the thought is born in our minds that we want something, it is because we have an idea that that something will make us happy in the use of it. That is why we want it and if we want it hard enough we will eventually get it. The next thought that comes to us after we make up our minds to get that something is where to get it. Immediately there flashes through our minds the place of business where we have gotten service before and as if drawn by some impelling, magnetic force we go to that place for the article we desire, but we do not go for the article so much as for the happiness that goes with the article when we use it. That is why people return time after time to the one store and that is why that one store is successful. Volume trade is built upon the basis of happiness. The store that makes the most people happy will eventually do the largest business. The heart of humanity is hungry for happiness and the man who will give the most happiness will surely profit most and be successful and happy and all other things will be added unto him—even money.

When we know that people want happiness in everything they buy we should try to keep only the things that will give happiness—goods of quality, purity and true to representation. That is giving happiness in the material. We must also give happiness in the price of the article. If the article is of the very best and it makes us happy and we are asked to pay an exorbitant price for it we cannot feel happy, or feel like returning to that shop again. Again if the quality is right and the price is right and the person who keeps the shop is grouchy, surely and overbearing or if he acts as if his customers are under a compulsion to him and to his store, he will not make people happy. He cannot expect to build up his business that way. The man who cannot smile should never keep a shop. The smile that is sincere will win many customers, make many friends, give much happiness and will build business. All things must harmonize to build business permanently. Material, price and effort must all be in harmony with one another to give service and bring success and happiness and thus we build better business by building better men."

TEXAS AGRICULTURE WILL COME INTO ITS OWN AT STATE FAIR

Coliseum at Dallas, Transformed into Magnificent Agricultural Building Many Exhibits

For the 1924 State Fair of Texas, at Dallas, Oct. 11-26 next, the former Coliseum, right at the entrance of the grounds, will become the new Agricultural Building.

This structure is 150 x 250 feet in dimensions, and the whole interior has been made over. More than 30,000 square feet of cement floor has already been laid, and the erection of handsome, attractive booths has been started. There will be booths for at least fifty county exhibits alone, with provisions for agricultural displays of every description, as well as space for numerous educational demonstrations, including that of A. & M. of Texas and other prominent universities.

One big feature is to be miniature reproductions of the buildings of various universities, an idea suggested and being worked out by Pres. R. L. Marquis of the Teacher's College at Denton. Most of the models, it is proposed, will be built by students in the manual training departments of the several institutions.

EXHIBIT JERSEYS AT STATE FAIR

"More men," or "grown men," are not the only exhibitors of Jersey cattle at the State Fair of Texas—far from it. Here's a lady exhibitor, and likewise a small boy exhibitor—Mrs. W. M. Waller and young Stanley Derry, respectively.

Mrs. Waller presides over the destinies of the Waller Farm near Handley, Stanley, with his brother, owns three head of fine Jerseys and lives near Grapevine. The picture was made at the annual picnic of the Texas Jersey Cattle Club, on the farm of Waite Trimble, near Grapevine June 28, when Mrs. Waller and Stanley won in the judging contest. Each showed an intimate knowledge of the fine points of fine cows. Each will have entries at the State Fair of Texas, Dallas, Oct. 11-26.

F. I. Townsend of Bethel was here Monday. Mr. Townsend says that cotton in his community is holding up remarkably well considering the excessive dry, hot weather.

BITTEN BY DOG.

S. M. Ziegler of Dermott and W. T. Ziegler of Camp Springs were in Snyder Friday. The former Mr. Ziegler was carrying a badly lacerated hand as a result of having been bitten by a dog, the wound being received while Mr. Ziegler was attempting to separate a number of dogs which were engaged in a free-for-all fight.

LEFT FOR MARKET.

Mr. and Mrs. J. H. Sears left Monday morning for the Eastern markets where they will spend some ten days buying a large and complete line of ready-to-wear millinery and general line of goods for their many customers in this trade territory.

BOY SCOUTS TO STERLING CITY.

W. S. Barcus, Scout Executive for Scurry, Nolan, Fisher and Colorado Counties, and H. B. Palmer of Dunn left Tuesday for Sterling City with the necessary equipment for an encampment that will last ten days. About 150 boys are expected to attend the encampment with at least 15 from Snyder and perhaps 40 from Scurry County. The boys will leave a week later. The encampment will be in charge of W. S. Barcus, Scout Executive; W. P. King, Deputy Commissioner; C. M. Boren, Scout Master; V. E. Pruitt, Assistant Scout Master.

W. F. Burney was in town Monday and told the editor that he had got himself in the middle of a bad fix. He said having no idea that Mrs. Ferguson would be in the run-off, he told some of his neighbors that if Mrs. Jim was in the run-off, he would pledge himself to stomp the county for her. He says he couldn't make a speech to save his life and his neighbors to whom he made the pledge declare that he will have to make at least one speech or be dragged through a mudhole feet first.

DADDY.

You may sometimes think of mother, as the truest that could be; Or you may think that your brother Is best on land or sea.

But don't you ever think of Daddy, Who works all day for you? His warm love is just as holy; Just as kind and just as true.

Friends do very oft' forsake you— Daddy never would do this; His kind arms will ever take you, And you'll feel his loving kiss.

If your mother dear should die, You would be quite right, my dear; If to daddy you would fly; If I'm right, then you must hear.

My advice to you today, Which is: love your daddy kind, Let him lead you the right way— A fond daddy you will find.

NEW EDITOR ON THE JOB.

Howdy, folks.

In assuming charge of the Scurry County Times, we wish to say that we have located among the good people of Snyder and Scurry County after making several trips over West Texas in search of a location. We are going to say further that for several years Snyder and ourselves have been trying to get together, and since Snyder couldn't come to us, we have come to it. In brief, we are here, and hope to be permitted to stay, for a while at least, that we may be given a chance to make good. We are not coming with any waving banners or sounding trumpets, but in a quiet way, with a newspaper experience of more than thirty years and a purpose of serving the people of Snyder and Scurry County with a clean, newsy paper second to none in this part of the state. Our chief object, therefore, will be to gather and publish the news while it is news and to steer clear of factional fights. We do not intend, therefore, to fight the battles for any organization or individual, but we can be depended on to stand for right and for the up-building of the morals of Snyder and community at all times and at any cost.

We realize the ability of our predecessor and feel that it will require our best efforts to hold the Times up to its present high standard as a county weekly. We, therefore, kindly ask our readers to deal leniently with us until we get better acquainted and become more adapted to the ways of the West.

We wish to thank the scores of persons who have treated us so hospitably since coming to Snyder, for we can truthfully say that during the few days that we have been in your midst, you have caused us to feel that we are really and truly welcomed, and hope that no one will ever have any cause to regret the confidence reposed in us.

Yours truly,

J. L. MARTIN.

We see where a South Texas farmer is boasting of a five-legged calf, and an Arkansas farmer is claiming the only cow in the world with four horns. But those animals are valuable only as freaks. What the Times editor, who is a Methodist, wants is for some wizard to propagate a variety of chickens with four well developed drum-sticks. Of course if your neighbor raised the four-legged variety they would play havoc with your wife's garden—just think of a gang of chickens with four feet turned loose in a fellow's garden—but on the other hand imagine eight brown drum-sticks on a dish with only two necks, two bony backs and two gizzards! A fellow could make allowances for the destruction to his wife's garden.

Scientists who have been searching for fossils claim to have discovered eggs said to be at least eight million years old. The Times editor now knows what the trouble was with the couple he ordered "straight up" in a nearby town a few days ago.

CORRESPONDENTS WANTED.

The Times wants a live correspondent from every postoffice and community in the county. We know of no one source of news that adds so much to the real value to a county paper as live country correspondents. If you think you would care to act in that capacity, call or write for the liberal proposition we are offering.—The Editor.

J. L. MARTIN BUYS SNYDER NEWSPAPER.

(From the Roysse City News-Times.)

Mr. J. L. Martin of this city went to Snyder, Scurry County, last week and bought the Snyder Times, and he will assume the management of that paper on August 1.

Mr. Martin is one of the able and successful newspaper men of the state, having owned and operated papers at El Campo, Crowell, Roysse City and Mexia, all of which newspapers he developed into publications of the first class.

It is with feelings of both regret and pleasure that we make this announcement. We regret that he will leave Roysse City, where as a citizen he has done so much to advance the interests of the town and community, and pleasure that he has acquired a fine newspaper proposition which has great possibilities for development. That he will succeed is but to refer to his past successes in his chosen profession.

Their friends will be pleased to learn that Mrs. Martin and daughters will remain in Roysse City pending the disposal of their elegant new home here, which, we understand, is on the market. When this is done they will join Mr. Martin in his new home in the West.

A HUMDINGER.

This statement is made that there may be no injustice done anyone.

GAINES COUNTY FARM LANDS AT REASONABLE PRICES AND ATTRACTIVE TERMS

Very little ready money is required to own a good farm in the South Plains of the Texas Panhandle. Payments for your farm are on about the same basis as paying rent.

At Seagraves, Gaines County, Texas, we offer you farm land at prices from \$12.00 to \$20.00 per acre, cash payment down only one dollar per acre, four yearly payments of one dollar per acre and the balance in yearly payments of two dollars per acre with interest at six per cent.

This is strictly a general farming country. Abundance of pure water, no boll weevil; and cotton a sure crop. At present prices of cotton it will not take a great many bales to pay for a 160 acre farm in one season.

This is your big opportunity. If interested in securing a farm and home for yourself and family on very unusual terms, now is the time to act.

Address W. A. SoRelle, General Agent, 17 Santa Fe Building, Seagraves, Gaines County, Texas, for terms of sale and descriptive folder.

Sick Headache

"I have used Black-Draught when needed for the past 25 years," says Mrs. Emma Grimes, of Forbes, Mo. "I began taking it for a bad case of constipation. I would get constipated and feel just miserable—sluggish, tired, a bad taste in my mouth, . . . and soon my head would begin hurting and I would have a severe sick headache. I don't know just who started me to taking

Theford's

BLACK-DRAUGHT

but it did the work. It just seemed to cleanse the liver. Very soon I felt like new. When I found Black-Draught so easy to take and easy-acting, I began to use it in time and would not have sick headaches."

Constipation causes the system to re-absorb poisons that may cause great pain and much danger to your health. Take Theford's Black-Draught. It will stimulate the liver and help to drive out the poisons. Sold by all dealers. Costs only one cent a dose. E-104

Colette Was His Actress Sweetheart

By ANTHONY REIMERT

(© 1924, Western Newspaper Union.)

"MY GOD, Parrish!" Sergeant Smith stared at the constable who had entered the office. "Jameson's mother? Mother?"

"That's so, sergeant. Come from Ontario to see her son."

"What's she like, Parrish?"

"One of those dear old ladies you read about."

"And him waiting to go down under escort to be hanged," muttered the sergeant. "Parrish," he said, suddenly "that woman hasn't come two thousand miles to learn that. Listen!"

Jameson, in his cell, sat with his head in his hands. He had shot the storekeeper in a fit of frenzied jealousy over Colette, the little actress who had somehow drifted north, a derelict. Since then his fate had been inevitable. He had been tried and found guilty. Colette's frenzied pleas had not saved him. The girl had been sent south and in a week's time Jameson must start on his own grim journey unless—

The cell door opened. Sergeant Smith stood there. "Jameson, your mother's here from Ontario."

"God!" The constable sprang to his feet.

"She doesn't know. And we're not going to let her know. We're going out you've got to start north on patrol this evening. Till then you're a free man, so long as you don't stray from the post. I'm trusting you, Jameson. Keep up the bluff. You'll pretend to start tonight under charge of Smith—and we'll hustle her out on the boat tomorrow. Savvy?"

Jameson nodded like a man in a daze. The sergeant removed his shackles. He went out. In the office the little, gray-haired old woman was waiting. With a cry she fell upon his neck. The sergeant turned his head away.

"Guess he can't beat it," he told Parrish, "but keep an eye on him."

All that afternoon the old woman and the constable strolled about the fort. Sometimes they were out of sight for a few minutes, but it was clear Jameson had no intention of trying to make a get-away.

"I'm so proud and happy to see my son doing so well," the old woman told the sergeant gratefully.

"It's a pity he's got to start on patrol tonight," said Smith, "but that's orders from district headquarters."

"My son must do his duty," she answered proudly. "I'd be the last one to try to prevent him."

They had given the old lady the visiting inspector's empty room. The two sat there most of the afternoon. Toward dusk Parrish saw the old lady cross the parade ground toward the store.

"Guess she's going to buy him something," he meditated. He took the precaution to look in at the window of the inspector's room, however. Jameson was crouching there, his head in his hands, sobbing.

"Poor devil!" thought Parrish.

Smith came out of the office. "Time to start that fake patrol," he told him. "Hustle him a mile out of camp, come back round the cut-off and lock him into the cell again."

Parrish nodded. "Old woman's at the store," he said.

"Wait till she gets back. Then it's good-by." He crossed to the inspector's room. Just then the new storekeeper came hurrying up.

"Say—you know about old Mrs. Jameson?" he asked.

"Eh? What'd you mean?"

"No business of mine," grumbled the dull-witted man. "Only she went down the road and I heard a horse going like h—l for leather a few minutes ago in the direction of the brush, too."

"Wha-at?" The sergeant and the constable burst into the inspector's room. Jameson was still sitting there, his back toward them, his face hidden in his hands.

"Jameson!"

As the constable did not look around the sergeant advanced and shook him by the shoulders. Slowly Jameson turned his head.

They stared with stupefaction. They yelled with fury:

"You!"

Colette, the little actress, smiled.

"You'll have hard work catching Jim in the dark," she smiled. "That's a good horse I brought him."

Appreciated Effort

A pastor was called to a former charge to officiate at a burial. He arrived in town in time to chat with old friends, but soon saw a funeral party coming. He hastened to the cemetery and informed the undertaker he was to officiate. He performed his duties with usual sincerity.

As he was leaving the cemetery he saw another funeral procession approaching, and it dawned on him that he had participated in the wrong service.

The next day the undertaker, who had been in charge of the first funeral received a letter from the surviving relatives, thanking him for his thoughtfulness in having the pastor at the grave who spoke such words of comfort to them.—Indianapolis Star.

J. C. BEAKLEY REPORTS RAIN AT DUNN.

J. C. Beakley, former merchant at Dunn, but now prophet, philosopher and politician of that prosperous little settlement, was in Snyder Thursday. Mr. Beakley reports a quarter of an inch rain at Dunn, and a heavy rain east of that place. He says that Big Sulphur, which in most places was dry before the rain, was raining big Thursday morning.

Mr. Beakley is a good friend of the Times and is always welcomed to its sanctum.

LEFT FOR SANATORIUM.

H. B. Winston, wife and son, Harry, left Monday afternoon for Sweetwater, where Mr. Winston underwent medical examination for stomach trouble, which has been giving him a good deal of trouble for the past several weeks. Wade Winston, wife and Mrs. Clyde Boren went to Sweetwater Tuesday and spent the day with them. It was decided to take him from there to Waco for examination and perhaps they will go from there to Temple where he will enter the Temple Sanitarium for treatment and if thought necessary will undergo an operation.

The many friends of Mr. Winston are hoping to hear a favorable report on his condition and that after a thorough examination is made that it will be found that an operation will not be necessary and that he will soon be able to return home very much improved in health.

STRANGE SCENES IN "DRIFTING."

An atmosphere little known to the world is shown in "Drifting," the Universal-Jewel special production which comes to the Cozy theatre next Monday and Tuesday, with Priscilla Dean in the starring role.

"Drifting" is an adaptation of John Colton's stage play which was successfully produced by William A. Brady in New York. Alice Brady was the star of the stage piece.

Priscilla Dean has long been noted as an emotionalist of great sincerity, and it is a thing peculiar to her work that her roles always have what is professionally called "meat"—which is, in other words, human drama.

The role of Cassie Cook in "Drifting" is the role of a girl who has spent much time in China earning a living at the easy "game" of selling opium. Cassie Cook as she is pictured at the opening of the story is not a noble woman—but the story of her soul's redemption is the story of "Drifting."

ATTENTION.

Next Saturday night, August 9, is the regular meeting of Scurry Lodge No. 706 A. F. & A. M. Let all members be present.

B. H. Williamson and family of Johnson County visited the Baugh, Grantham and Gillum families Thursday.

Lesson for August 10
FIRST MIRACLE OF JESUS

LESSON TEXT—John 2:1-11.
GOLDEN TEXT—"Whatsoever ye shall command me, I will do."—John 2:5.
PRIMARY TOPIC—Jesus at a Wedding.
JUNIOR TOPIC—The Miracle at Cana.
INTERMEDIATE AND SENIOR TOPIC—How Jesus Adds to Joy.
YOUNG PEOPLE AND ADULT TOPIC—Jesus Enriching Social Life.

1. The Marriage Feast (vv. 1, 2). Marriage was ordained by God and the first wedding was sanctioned by His presence (Gen. 2:22-24). Indeed, He must have performed the first marriage ceremony. It is not only honorable in all (Heb. 13:4) but when based on true affection it is the highest and best of human relationships next to union with the Lord. It promotes the physical, moral and spiritual well-being of both husband and wife and makes possible an atmosphere for the nurture of children. Marriage is not only an honorable relation but a wedding is a most beautiful occasion for all normal human beings.

1. Attended by Jesus' Mother and His Disciples (vv. 1, 2). The friends at this marriage feast were related to Jesus by blood and grace. To be united to Jesus Christ by the bonds of grace does not interfere with normal human relations but sanctifies them.
2. Attended by Jesus (v. 2). God attended the first marriage on earth (Gen. 2:22) and Jesus, who was about His Father's business (Luke 2:49), set a mark of honor upon every spring of human life by gracing this marriage feast with His presence. The Redeemer of man as He entered upon His exalted career thus lifted the dignity and beauty of marriage to its proper place and glory. Man by polygamy, adultery, divorce and fornication has basely degraded it.

II. The Anxiety of Jesus' Mother (vv. 3-5).

1. The Wine Failed (v. 3). Although this was a trying social exigency it seems to have been quite natural. The arrival of Jesus and His disciples put a drain upon the resources of the host, for these guests were bidden after they had reached Cana.

2. Mary Presents the Need to Jesus (v. 3). The clear implication is that she requested Him to embrace this opportunity to present His Messianic claims by working a miracle to supply the lack of wine. We may learn two lessons from Mary:

(1) In our great needs, when our resources are exhausted, we like Mary should come to Jesus for help.

(2) Let us not prescribe to Jesus the manner in which His help is to be given. While it was right for Mary to come to Him in her need, it was not her province to dictate how help should be given.

3. Jesus' Assertion of Authority (v. 5). He respectfully reminded His mother that He had passed from her authority—that His Father's will was supreme.

4. Mary's Confidence (v. 5). Although with calm dignity He asserted His authority, there must have been some sign by which He gave her to understand that He would not fail her in this embarrassing emergency. She directed the servants to be ready to carry out whatever instructions He should issue.

III. The Water Made Wine, a Display of Jesus' Creative Power (vv. 6-9).

A miracle is the display of the supernatural. It is not against the laws of nature but the execution of issues beyond nature.

1. The Measure of This Miracle (v. 6). The six vessels had perhaps a capacity of 120 gallons. Jesus is unscathed in His gifts. Twelve baskets were left over from feeding the Five Thousand.

2. Its Freedom from Display (vv. 7, 8). The mighty works of the Lord are not for display, not for the gaze of men. While not for display, it was so real that the disciples and guests knew that it was wrought by divine power.

3. Its Design. Its primary aim was to show the divine glory. Though Jesus would not use His divine power to relieve His own hunger, He responded to the plea to supply the wants of others.

4. Its Reality (v. 9). This was not a sham, a make-believe. To prove its reality it was brought to the governor of the feast, presumably the bridegroom.

IV. The Surprised Table Master (vv. 10, 11).

The excellence of the wine was praised by the ruler of the feast. Christ gives, not only quantity, but quality.

Light and Darkness

A candle is not lighted for itself; neither is a man. The light that serves itself only is no true light, its own virtue is that it will soon go out. . . . Light unshared is darkness.—George MacDonald.

Prayer as a Weapon

Prayer is a strong wall and fortress of the church; it is a goodly Christian's weapon, which no man knows nor finds but he who has the spirit of grace and of prayer.—Martin Luther.

Community Building

Plant Beans to Conceal Neighbor's Chicken Coop

Would you disguise your garb with tropical verdure? It is simple. It will cost 5 cents. Likewise you can conceal the garbage of your next-door neighbor if he has selected architectural beauty. You can screen a neighboring chicken coop or an ugly back fence with an luxuriant kind of plant, the castor bean.

For 5 cents a packet of seeds containing around ten beans can be purchased. These plants should not be placed closer together than 5 feet. They grow from 6 to 10 feet tall under good cultivation and soil conditions make leaves from 2 to 4 feet in diameter and produce ornamental fruit all in the course of a single season. They are annual plants, grow easily from seed and can be transplanted without trouble.

The best variety for quick effect is the Zanzibar castor bean. It is cat aloqued usually under its botanical name, Ricinus Zanzabariensis.

In a Berwyn back yard last year two of these plants were planted to conceal a chicken house. The seeds were planted the last of April. Two plants were set out 5 feet apart. By July they had reached a height of 5 feet and a spread of 12, the huge leaves touching and overlapping. By midsummer the chicken house was hid from view in the rear of the yard. It will speedily conceal it. Other ornamental plants are quickly hidden.

The castor bean is the largest annual plant we have in the flower garden. It is always handsome and clear in foliage. Its needs are rich soil and a liberal supply of water which is always available in any city garden. These plants are ideal specimens to fill a corner, one plant being sufficient for a striking display.

The castor bean blossom spike is inconspicuous, but the big seed pods are ornamental. To offset the lack of flowers and to enhance the beauty of its huge tropical leaves which come in various shades from light green to bronzy red, tall flowering annuals may be associated with it with good effect. Two are unusually effective, the flowering tobacco and the spider plant. The spider plant should be planted at sufficient distance from the castor bean so that it won't be shaded and smothered by the big leaves. Four feet would be about right. The spider plant is found as Cleome Pungens in seed lists.

The flowering tobacco, Nicotiana glauca, are sweet scented, open their handsome flowers about four in the afternoon and close during the hot part of the day. They should be planted 18 inches apart. The seed is very fine, but germinates quickly and grows rapidly.

Move for Civic Tidiness

Carelessness in the matter of community tidiness seems to be increasing generally. England, always noted in the past for its neat and well-kept countryside, now complains that newspapers, lunchboxes and tin cans are thrown all over the landscape in barbarous desecration. Everybody in this country has either seen for himself or read about the unsightly state of our own main thoroughfares, our city streets and public works.

The national chamber of commerce is now pushing a movement in the United States, the purpose of which is to promote civic tidiness. It urges three methods of effecting this—education, the adequate provision of receptacles for waste and rubbish and the enforcement of the ordinances concerning cleanliness that already exist in many cities and towns.

Here is a reform that couldn't possibly be achieved by accompanying, and in which everybody, young or old, big or little, may participate. By starting at one's own doorstep and watching one's self throughout the day a lot of carelessness can be stopped. Any one who wishes can refrain from throwing paper or other litter around where it can become a public nuisance.

Locate With Care

Location of the tree may determine its selection as well as soil and climate. If there is small space which may be devoted to the future development of the tree, says the American Tree association of Washington, D. C., it would not be satisfactory to plant one which will attain huge proportions. More than any other determining feature in tree selection is the purpose which the tree is to serve. For a two-cent stamp for postage the association will send tree-planting suggestions. The planter should study trees growing in his immediate neighborhood and pick out the variety which will best serve his needs.

Rural Mail Box of Concrete

Roadside rural mail boxes are subject to collisions from careless driving, and a box of such a nature that it will do more harm to a colliding vehicle than it will suffer itself, will make the driver more careful. A receptacle of this kind being used in the western states, is one in which both the box and the support are solid concrete of substantial proportions. It is also ornamental, being formed to represent a tree trunk with the box resembling two small logs.

HUMAN LIFE CHEAP IN BUENOS AIRES

Knives Apt to Flash at the Wink of an Eyelash.

The Boca, Buenos Aires, is one of the most strangely fascinating places in the world. Seafaring men in Sydney, Marseilles and along the wharves of the London docks will talk of it; but the casual visitor to Buenos Aires, speaking no Spanish and wearing a presentable suit, cannot easily go there, for in the Boca, they say, a man may lose his life for half a crown or the coat upon his back, writes Arthur Mills from Buenos Aires to the London Daily Mail.

This may well be, for life is cheap in Argentina, whether it be on the great rolling cattle plains of the rugged North or in the fashionable restaurants of Buenos Aires. It was in the Boca that I first saw something of the soul of Argentina, as much perhaps as in the marble halls of the Jockeys club or among the picturesque horsemen of Entre Rios manœuvring their vast herds.

One Saturday, some while after midnight, I came to a cafe hard by the Pedro de Mendoza. There were assembled in that cafe all manner of men—sailors from a vessel bringing salt from Spain, Americans from a lumber boat, Norwegians, Greeks still coal-begrimed, some British seamen arrived with railway material, estimable Chinese cooks, little wrinkled grinning Japanese, Italians, Syrians, Russians.

Bolshevik and aristocrat alike concealed beneath tattered coats and a week's growth of stubby beard—some looking for work, some avoiding it—the parish dogs of a hundred ports. Across the rubbish-littered road, the ships that had brought these men lay at anchor in an endless stretching belt, themselves evidence of the mighty needs of the great South American capital.

On a raised platform four musicians in shirt sleeves played. But no one danced. The proprietor explained to me that, in a neighborhood where a man would draw his knife for the flicker of a woman's eyes, to encourage dancing was unwise.

The proprietor was something of a character himself, able to speak seven languages, including Kafir. He was a burly fellow and his barman looked pretty useful, too, if trouble should arise. But rows were avoided, the proprietor explained, pointing to two men in plain clothes in either corner of the room, ready to signal to him the first sign of an angry glance.

As we talked a girl passed by. She had dark, luminous eyes, swung her shapely limbs with the smoothest of motions, and carried herself with an air of easy grace, the special inheritance of her people.

A burly Scandinavian sailor, a blue cloth knotted beneath a red beard, caught her arm. She tried to free herself. Then words were exchanged and she turned and faced him like a wildcat. Next moment the proprietor jumped between the pair and pinioned the girl's hand to the knife hilt in her stocking. The barman leaped over the counter. Two other men appeared. In less than a minute the sailor was outside the cafe and the girl seated calmly in his place.

The proprietor remonstrated with her mildly. "I am Argentine," she said, snapping the syllables—a reply that appeared wholly satisfactory to all concerned, for they are a proud people, the Argentines, who give a swift answer for an insult, whether it be in the glittering cafe restaurant Abdullah or in the Boca on Saturday night.

Wanted Particulars

Several members of the United Confederate Veterans last Sunday afternoon were sitting around their quarters at the city hall, following the adjournment of the regular meeting. One of the veterans had been brought to the meeting in a friend's automobile, along with several of the family, all of whom attended church. The friend promised to call and pick up the oldtimer.

The old soldier was getting impatient. Finally, one of the younger members of the family hove into sight. Going to the car, the youngster said to the veteran, "We didn't mean to be late, but during church services, Brother Willie had a hard fit and we had to take him to the hospital." "That so," replied the soldier. "Who was he fittin'?"—Houston Post.

Water Pumps Itself

An Oregon mine, well up in the mountains, has taken advantage of its location to pump the water out of its galleries, though its mean depth is about 600 feet, without any cost save that of installation. The water literally pumps itself. The secret lies in the fact that the mine location is such as to make possible the construction of a power flume, carrying the water off into one of the nearby valleys and giving it a 1,500-foot head. Once the thing is started, it runs on indefinitely, the power from the flume being ample to run the mine pump.—Scientific American.

So Was This Snyder Woman, Who Tells Her Experience.

All too often women accept their pains and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Doan's Pills—a stimulant diuretic. This Snyder case is one of many:

Mrs. N. B. Moore says: "My kidneys acted irregularly and I had a dull hurting through the small of my back. At times the sharp, cutting pains through my back were so bad, it was hard for me to get around to do my housework. Doan's Pills, from Grayum Drug Store, cured me of the attack."

VERY FIRST BOTTLE BROUGHT HER RELIEF

Ascribing the splendid health she has enjoyed for the past six years to the help she received from Tanlac at that time, Mrs. Maggie LaFrance, 215 Archer St., Waco, Texas, Says:

"Tanlac made a new woman of me six years ago and since then I have appreciated good health as I never had before. I had been nervous, run-down, weak and dizzy for two years. My appetite had left me, my stomach always troubled me after eating; I never slept well and had so little strength and energy that I would just drag around in looking after my household duties. I had lost weight until I was just a skeleton of myself.

"Tanlac was so well suited to my needs that I felt better after the first bottle. Five bottles brought

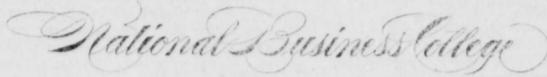

me complete relief from all my troubles and increased my weight 15 pounds. I now weigh 136 pounds which is more than I ever weighed and I have energy and strength in abundance.

"Besides doing all my own work I frequently help the neighbors with their work, too. I certainly can praise Tanlac, for I know from experience, and not from what others say, what a wonderful medicine it is."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

Tanlac Vegetable Pills, for constipation. Made and recommended by the manufacturers of Tanlac.

Messrs. Lee and Walter Humphrey of Linden are visiting in the H. H. Perser home six miles east of town this week.

The Times is glad to announce that the four children of J. W. Crawley, who lives eight miles east of Snyder, are rapidly recovering from typhoid fever.

Hon. J. A. Merritt was a pleasant caller at the editor's sanctum Tuesday. Besides being popular as a law-maker, and successful as a farmer, Mr. Merritt is a great poultry fancier and is breeding up a flock of birds of the very finest strain. He has already begun to do the preliminary work looking to the Scurry County Poultry Show which will probably be held about December 1. The poultry business has grown to be one not to be "cackled" at, and the farmer who is not letting a few pure bred hens help him supply his table, pay taxes and lift the mortgage is surely sleeping on his rights.

Clyde Funk and brother-in-law, Will Sanders, of Dundee returned the latter part of last week from a big vacation trip to South Texas. Mr. Funk says it was a "scaly" trick—the way he treated the "Finny" rube—but it was the sacrifice of the lives of some fine channel cats that contributed to the enjoyment of his vacation. His family visited at the home of Mrs. Funk's mother in Dundee while Mr. Funk was on his trip.

J. W. Fesmire and family returned Saturday from a vacation trip to Point Isabel. Mr. Fesmire says that every member of his party had a great time camping, fishing and hunting.

Makes Over Same Hat 12 Times in 5 Years

Seattle, Wash.—This city boasts the most economical woman in the country.

Mrs. Hannah Bunday has made over the same hat twelve times a year for five years. Each time she produces a new millinery surprise and is the envy of her admiring friends, who hustle to imitate her inventive genius. By the time many have copied her creation, Mrs. Bunday knocks them all cold with a newer and more startling conception.

Mrs. Bunday uses an assortment of ribbon, plush, plumes, flowers, cloth and colored yarns. The framework consists of a wide brim Filipino straw braid, which may be folded, plaited, bent, wet and turned inside out. She possesses a secret of making a dye that may be washed from the straw when another tint is desired.

Miss Ora Lee and Claireine Christian are visiting this week with friends in Wichita Falls.

WOMAN TOURIST WILL BOOST STATE FAIR

Emulating the example of Samuel Guy, Dallas real estate man, Mrs. L. L. Massengill of Lawrence, Tex., is to "boost" the State Fair while on a motor tour through West Texas and out into Yellowstone country. Mrs. Massengill wrote the publicity department of the State Fair that she was leaving Dallas July 15, and asked for several thousand copies of State Fair literature to take with her on her trip. The literature was furnished, and the loyal Texas woman was thanked for her offer. It is just such effort which lets the world know of the greatness of the State Fair of Texas—just such loyal cooperation that makes it great.

NEW INTERURBAN LINE READY BEFORE STATE FAIR OPENS

The new Denton Interurban will be in operation well before the opening of the State Fair of Texas, at Dallas, Oct. 11-26, it is announced. The Terrell line into Dallas, was opened just before the 1923 State Fair. By 1925, according to all indications, Dallas and Gainesville may be connected by trolley.

Mr. Dorward has about completed his nice home in the south part of town just north of Mr. Ferguson's home. J. W. Massey, a former resident of Snyder but now a resident of Sweetwater, was here the first of this week looking after his ranch interests in Scurry County.

DAIRY FACTS

MARKETING HAY IN ONE-POUND CARTONS

(Prepared by the United States Department of Agriculture.)
 Instead of hauling their hay 35 miles to the nearest market as they did for a number of years, farmers of White Pine county, Nevada, are now keeping the hay at home, feeding it to dairy cows, making their cream into butter in a co-operative creamery, and selling their butter to the towns that formerly bought their hay. For some years alfalfa hay, the main cash crop in two communities, had been selling for less than the cost of production. To remedy this condition, progressive farmers and the county extension agent made a careful study of the possibilities of developing other sources of farm income. They found that the mining towns which bought their hay were also importing all butter used from distant dairy centers, paying high transportation rates. As many farmers had a few cows, it was decided to try marketing the hay in the form of butter. A creamery was organized, the dairy specialist of the state agricultural college trained butter makers, and churning was begun in May, 1923, averaging at first about 100 pounds a week. Herds have increased in production as skill in feeding developed, and the market has extended as the excellent quality of the butter became known. By the end of the year, according to reports to the United States Department of Agriculture, the butter sales averaged more than \$1,000 a month and demand still greatly exceeded the supply.

Pastures Provide Most Economical Cow Forage

Dairy farmers are urged to make their plans for growing next year's feed crop, in a statement made public by A. C. Baer, head of the dairy department at Oklahoma A. and M. college.
 Here follows a list of crops which Baer says will furnish cheap, but excellent feed for dairy cattle:
 Early wheat, barley or rye pasture. Improved native pasture. Sweet clover pasture for early summer. Sudan grass pasture for late summer. Early fall wheat or barley pasture. Alfalfa hay for supplementary or winter feeding. Prairie hay for supplementary or winter feeding. Row crops, corn, kafir or cane for the silo. Cowpeas or soy beans for hay if alfalfa cannot be grown. "Pastures provide the most economical forage for dairy cattle."

Minerals for Dairy Cows

"Complex salt mixtures should not be purchased by farmers," asserts the Wisconsin experiment station. "If the cow is getting good clover or alfalfa hay in addition to her grains and silage the only thing she needs in addition is some common salt, possibly some bone meal or wood ashes, and, if necessary potassium or sodium iodide to prevent goiter. There is absolutely no need to spend money for any other minerals."

Cows Develop Unevenly

Dairy cows grow unevenly. Recent tests in Missouri show that the first spurt of development comes before birth, at the age of five or six months. The second spurt begins two months before birth and ends four and a half months after birth. The third spurt begins at about a year after birth and ends twenty-six months after birth. To cash in on these facts, feed an abundance when growth is naturally most rapid.

Soy Beans Gain Favor

Soy beans are steadily growing in favor among dairymen. They have some advantage over the two crops previously mentioned. When properly inoculated, they will grow on soils more acid in nature than alfalfa or red clover. They produce a good yield of palatable hay if cut when the beans are just starting to form. When weather conditions are favorable, the hay can usually be harvested without losing many of the leaves.

Alfalfa Hay Is Leader

Good alfalfa hay is generally placed at the head of the list of roughages suitable for dairy cows. Little need be said of its merits as a roughage. Were it not for the acid condition of the soil in many districts, the crop would be grown much more extensively than it now is. To overcome this, dairymen are advised to make an application of lime and include alfalfa in the ration.

Inexpensive Fly Spray

A spray commonly used by Iowa dairymen and recommended by the dairy section at Iowa State college. Is made by mixing four and one-half quarts of coal tar dip, four and one-half quarts of fish oil, three quarts of coal oil, three quarts of whale oil and one and one-half quarts of oil of tar. Dissolve three pounds of laundry soap, add the spray mixture and dilute the whole to thirty gallons with lukewarm soft water. This spray is not very expensive.

SCHOOL TEACHER'S LOVE FOR FINERY CAUSES DOWNFALL

Former Sauk Center, Minn., Girl Confesses to Theft of \$8,000 From Bank.

St. Paul, Minn.—A pretty "Main street" school teacher, who three years ago came to the Twin Cities to escape the tedium of small-town life in Sauk Center, Minn., the prototype of the Gopher Prairie of the Sinclair Lewis novel, faces a bitter penalty for indulging illegally a love of finery and gay companionships. Miss Leila Lewis twenty-eight, has just confessed to the theft of \$8,000 over a period of two years from the funds of the First National bank, where she was a book-keeper.

For two weeks the bank officials have known of the peculations, but did not make a formal complaint on account of the illness of the girl's mother. Recently Mrs. Lewis' funeral was held.
 Of the money taken not a cent remains. A half dozen hats, a few shimmering party gowns, some jewelry trinkets of small value and the memory of free-handed entertaining of her chosen girl companions are all that is left.

University Graduate.

Investigators are having difficulty in reconciling a number of other factors to an ordinary case of a bank book-keeper who stole. Miss Lewis is a graduate of the University of Minnesota, and friends recall that she was an exceptionally popular student, being a member of the Bib and Tucker, Pinafore, Y. W. C. A. and other organizations.

In Sauk Center, where she went to teach in the high school when she left the university she was a popular member of the town's "younger set," described more or less faithfully in

Made Fake Entries.

"Main Street." She gave up that position, paying \$120 a month, to come to St. Paul and work in the bank for a salary of \$75.

Miss Lewis confessed that she took the money not with any hope of gain from investments and ultimately replacing it, but simply to enjoy the luxuries that were forbidden to a worker receiving a moderate wage. The stolen funds went for clothes for herself, for elaborate gifts of trinkets and wearing apparel for her girl friends, for taxicab transportation in connection with her frequent parties in chop suey palaces and for her habitual treating of her friends.

Used Clever System.

The defalcations were made possible without discovery only by exceptional cleverness and a sound knowledge of accountancy, bank officials said, for the slightest slip in the system she used would have meant disclosure. Miss Lewis opened a charge account in the name of "Mrs. C. A. Wallace," who she said was her housekeeper, with an exclusive women's wear shop, and drew checks in this name. When they were presented at the bank she destroyed them and made false entries.

At the bank the former school teacher made many friends, and became especially valuable because of her knowledge of foreign languages, which she used to assist in handling the European correspondence.

Apparently Miss Lewis had few men friends. During recent months a young brother has frequently been her companion, but he told the police he had no suspicion that his sister's elastic finances had any other source than her salary. She expressed a hope that ultimately she would be able to replace the amount of the peculations, but her employers say her family has small resources.

Robbers Steal Clothes, Leave Man Naked in Car

Fresno, Cal.—Sheltered from the eyes of a curious world only in scanty side curtains, M. R. Parra, real estate man, was found in a highly embarrassed state of mind, crouched in the back of his machine where he had been stripped and left in his unconventional condition at an earlier hour by two unfeeling bandits. The holdup men got a valuable watch and chain and minor jewelry besides Parra's best suit of clothes.

RODE TO FAME WITH NOTED "CADET TROOP"
 The citizens of Tuscaloosa, Ala., arose early on a bright morning of '61 and watched a company of beardless youths in Confederate gray ride solemnly away toward the North. It was the Cadet Troop of the University of Alabama going to war. Within a brief span of time these school-boys had covered themselves with glory in some of the grimmest fighting of the war.
 One of these intrepid school-boys was Lurant Hatch, who now lives at 401 West Washington, St., Oklahoma City, Col. Hatch tells many thrilling anecdotes of campaigning under Forrest and Rucker.
 Col. Hatch is one of the thousands of well-known Oklahoma citizens now praising the new medicine Karnak.
 "From the time I rode with Forrest and Rucker until two years ago," he stated, "I always enjoyed fine health, but about that time I began to fail. I lost my appetite, my stomach was all out of order, and I got so weak it looked like I had about answered my last roll call. Nothing seemed to do me any good at all and as so many people were talking about Karnak I decided to try it. It is a pleasure to say that it has fixed me up in fine shape in spite of my seventy-nine years and when the boys call the roll at the next bivouac I'll be there feeling like my old self."
 Karnak is sold in Snyder by Grayum Drug Co.
