**JESUS TALKS WITH NICODEMUS**

**LESSON TEXT**—John 3:1-11.  
**GOLDEN TEXT**—"For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."—John 3:16.

**PRIMARY TOPIC**—Nicodemus Visits Jesus.

**JUNIOR TOPIC**—The Visit of Nicodemus.

**INTERMEDIATE AND SENIOR TOPIC**—What It Means to Become a Christian.

**YOUNG PEOPLE AND ADULT TOPIC**—The New Birth.

The subject of the conversation with Nicodemus was the new birth. This topic had peculiar significance in the light of Nicodemus' station in life. He was a learned rabbi, a doctor of the law and presumably a man of good character. His coming by night indicates his timidity. Like Joseph of Arimathea he was afraid to openly espouse the cause of the new Teacher of Galilee lest he be put out of the synagogue.

**I. The Necessity of the New Birth** (vv. 1-7).

It is not a matter of choice as to whether one is to be born again but of necessity if he is ever to see the Kingdom of God. Regeneration is the first demand the Gospel of Christ makes upon men. The reasons for this are:

1. The Kingdom of God is a spiritual Kingdom; therefore there must be a spiritual birth in order to enter it. (v. 3). As we enter the physical Kingdom by a natural birth, so we enter the Kingdom of God by a supernatural birth.

2. The nature which we get through the natural birth is radically and essentially bad. Christ declares that that which is born of the flesh is flesh (v. 6). In Galatians 5:19-21, Paul gives a catalogue of the works of the flesh. The flesh cannot be improved (Jer. 13:23). Culture and education, do all you please, and it still remains flesh. Furthermore, in order to enter into the kingdom of heaven there must be a nature fitted for heaven. There is nothing that can be substituted for the new birth. Men are trying to substitute morality and education for the new birth. Nicodemus possessed these; yet Christ declared that he needed something more. Regeneration is the act of God through the Holy Spirit which quickens a man from spiritual death and plants within him God's own nature (II Pet. 1:4).

**II. The Mystery of the New Birth** (vv. 8-13).

Its process is mysterious, but its results are definite. You may not be able to discern from whence the wind cometh or whither it goeth, but you know that it blows by its effects. The fruit of our lives demonstrates our nature, whether it is heavenly or carnal. We need not be told that we have a physical birth for our bodies with their various faculties in exercise prove it. Even so the presence within us of a nature which has no affinity for the things of the world, a strong affection for God and a disposition to yield prompt obedience to His commands, proves that we have been born from above. Galatians 5:22, 23, is an infallible test.

**III. The Ground Upon Which the New Birth Rests** (vv. 14-18).

Christ's atoning death on the cross makes regeneration possible. He took the place of sinners. His infinite merit was placed to their account. He suffered in the sinners' stead. Just as the Israelites had only to look on the brazen serpent in the wilderness so the sinner must look to Christ uplifted upon the cross. See Num. 21:4-9, John 12:32, II Cor. 5:21, I Pet. 2:24. Our salvation cost on the part of God the giving up of His only begotten Son and on the part of Christ the sufferings and shame of the cross.

**IV. For Whom Salvation Was Provided** (vv. 16, 17). "Whosoever believeth on Him."

These verses give in a condensed form the whole plan of salvation. Observe:

1. The Source—God so loved.
2. The Ground—the death of Christ.
3. The Recipients—whosoever.
4. How Appropriated—believing in Him.
5. Results—should not perish; everlasting life.

**V. Men's Attitude Toward Christ** (vv. 18-21).

1. Some Believe and Are Saved. Those who believe are now free from condemnation (John 5:24).

2. Some Will Not Follow and Are Rejected. Therefore, Under the Condemnation of God. The cause of their unbelief in Him is their love of sin.

**"Speculation Vs. Certainties"**

When they asked the dying Faraday, "what are your speculations?" he replied that he was not "pillowing his head on any speculations." Said he, "I know whom I have believed, and am persuaded that He is able to keep that which I have committed to Him against that day."—Exchange.

**Former Texas Girl Trains Ballet For "Tokyo" State Fair Feature**

**LADYS HIGHT AS LITTLE GIRL LIVED IN HOUSTON AND DALLAS—HAS "MADE GOOD"**

Gladys Hight, former Texas girl, and now the head of the Gladys Hight School of Dancing, Chicago, will be responsible for the beautiful ballet numbers to be given in connection with "Tokyo," the magnificent fireworks spectacle at the State Fair of Texas, Oct. 11-26 this year.

Ten or fifteen years ago Gladys Hight was a little girl in Houston and Dallas. Her mother, Madame Virginia Lee Hight, was a well known and highly capable vocal instructor, who conducted big voice culture schools in both Texas cities. Miss Gladys received her first instructions in the art of dancing at the hands of Texas teachers, and continued her practice intensively, after her mother removed to Chicago. Now Miss Gladys, who has more than "made good," is the head of two big schools in the Windy City—one town in the loop district and the other out on Sheridan Road.

She was in Texas early in August, in her way to Mexico City, where she is to study the native dances, in connection with her work, just as she studied Japanese dances in the jumbo Kingdom last year. During her stop in Dallas she told of her coming attraction at the State fair.

"I was very glad to have opportunity for training a ballet that would appear before 'home folks' of my childhood days," she said, "and so when Mr. Charles Duffield, the producer of 'Tokyo' told me what he

**GLADYS HIGHT**

wanted, I jumped at the chance.

"There will be twenty-four beautiful girls in the ballet number, one of which will be a fan dance and the other a typically characteristic Japanese number called the 'fishing dance.' You know, 'Tokyo' is based on the great Japanese earthquake, and the ballets come as showing the peaceful villagers enjoying themselves, before the holocaust swallows up their little town."

"Tokyo" will be given in the great race track infield at the State Fair, before the big grand stand, every night, and is declared to be the most awe-inspiring spectacle ever evolved.

A Mr. Livingston of Knox City visited the Singletary families since our last issue.

T. F. Singletary left Sunday for a visit of a few days at Knox City.

**FACING WRONG WAY**

In Arkansas a man and his wife were sitting outside their house when a funeral procession passed. The man was comfortably seated in a chair that was tilted back towards the street, his feet on the sill of an open window. "I think that's the funeral of ol' man Williams," he remarked. "Reckon it's the biggest seen in these parts for a while, ain't it, Carlina?" "A purty good-sized one, Bud," his wife replied. "I sure would like to see it," said Bud. "What a pity I ain't facin' that way!"

**Suppose He Didn't**

Terry, riding with Tim in the latter's motor car, began to worry as they approached a grade crossing neck and neck with an express train. "Wouldn't ye better stop and let her go by first?" he asked. "Aw, what's the matter wid ye?" demanded Tim. "Can't ye see the sign tellin' the engineer to look out for th' cars?"—Capper's Weekly.

**AT THE BIER**

"You say he was no believer in signs?" "Couldn't have been—drove full tilt right by one marked 'Danger—Slow Up.'"—

**Investments**

In this, a period of unrest and curious irritation, it's growing harder to invest without investigation.

**Ignition**

The force was out to lunch—leaving the bookkeeper alone in the store. A handsome young chap strode in. "Do they keep automobile accessories here?" he asked. The little bookkeeper smiled her sweetest. "Only me," she replied.—Good Hardware.

**DEEPEST WELL IN THE WORLD.**

The deepest prospect for gas in the world reached a depth of 7,000 feet last week in the Ligonire field in Pennsylvania, says the Texas Public Service Information Bureau. Geologists of the company are confident that gas will be reached after a bit more drilling.

This well was begun just four years ago. More than 114 tons of casing have been placed in the hole. So far not a cubic foot of natural gas has been produced from it.

Few of those who make use of natural gas in stove and heater give thought to the wearing and costly enterprise of seeking in that commodity, or the romance of extracting from below the ground what is left of the precious fuel.

It is a precarious game of chance in which the natural gas companies are engaged. The geologists point to the most likely places, and there the rigs are set up and drilling operations are commenced. As the wells which furnish the supply slow up in production or sob out the last of their life, other wells are drilled.

How often the utilities have played and lost has been of little interest in the past to the gas consumers. The supply was ample. What difference then did it make to them?

Now all that is changed. The supply is shrinking in spite of all the efforts to hold it. So the consumer is interested. He is watching closely the drilling operations of the companies seeking gas and yet more gas.

**ENTERTAINED BY MRS. HUGH BOREN.**

**A SAD DEATH.**

News of the death of Mrs. Ed Burdine which occurred at her home in Lamesa, Texas, Friday afternoon, Aug. 15, cast a shadow of gloom over the city.

The remains were brought to Snyder and funeral services held Sunday afternoon at 2 o'clock, at the cemetery, conducted by Rev. E. S. Dorsett, interment following.

Lillie Miller Burdine was born in Scurry County, Texas, March 4, 1898; died August 15, 1924, age 28 years, 5 months, and 11 days. She was a good, noble-hearted woman, a kind and indulgent mother, a loving and self-sacrificing wife, ever ready to do all she could for those who were suffering or sorrowful. To know her was to love her.

She leaves a sorrowing husband and two sweet little boys, ages 6 and 11, her heart-broken parents and five brothers, besides a host of relatives to mourn her loss. 'Tis so hard to know we will never see her smiling face again for we all loved her so.

But let's not weep for her, for we know she is at rest.

SAYS MRS. FERGUSON NOT LEADER OF WOMEN.

To The News.

The men have had much to say in your columns about the run-off race for Governor, the women little. Give me some space to present the woman's side. We are invited to support Mrs. Ferguson and by that means, as they claim, elevate our sex. I do not see it that way and I can find no thinking woman who does.

If the Temple candidate was a leader of our sex and had taken part in public matters as many able and well-known Texas women do, and was brought out by women, the situation would be different and our crowd would gladly support her. The women know, however, that she was put forward by men politicians without our request or consent.

The women do not believe that she is qualified for the great office and fear that she will be a willing and helpless tool in the hands of her husband—a proxy Governor, so to speak. We expect to have a woman Governor some day, but she must be known in advance, a member of our sex able to direct the pen herself and who will need no man on earth behind the chair. There is too much man and too little woman about this political affair in Texas. We want the world to understand that Texas women are not all doll babies or school-girls by any means.

Permit me to say that above matter was submitted to a crowd of women in this place and met with their approval. I know that it will also be approved by lots of our sex at Palestine and Corsicana. We want a little sayso. The men are not the "whole cheese."

MRS. JAMES L. HALEY,

Jacksonville, Texas.

*The following is a correct copy of a letter taken from Home and State, published June 20th, 1914, written by Father Heckman, a Catholic Priest. This letter was mailed to the Catholic Church membership throughout Texas.*

May 29, 1914.

Dear Rev. Father.

True friendship induces me to say a word in favor of Hon. J. E. Ferguson, candidate for Governor. I have known him for years—he is a man of the highest honor and integrity and none more fit to be Governor.

He is not only a personal friend of mine but a true friend of our church and for years one of its monthly generous contributors.

Assuring you kindly that you make no mistake in supporting Mr. Ferguson for this exalted office, I am,

Yours cordially,

P. A. HECKMAN.

**RACING MEN INTERESTED  
IN STATE FAIR EVENTS**

Race horse owners all over the country are showing keen interest in the thirteen day running meet at the State Fair of Texas, Dallas, Oct. 11-26, according to Dr. A. E. Flowers, superintendent of the State Fair speed department.

"As soon as announcement was made that there would be thirteen days of racing at Dallas, inquiries or entry blanks and rules, began to come in," Dr. Flowers said. "Every indication is that we shall see some of the best horses in the country contesting for the aggregate of \$30,000 in purses that will be offered at Dallas."

There are to be four big stake events, entries for which close Oct. 1, with many later-closing events, the purses for which will be liberal and attractive. This year's stake purses will be materially increased over those of last year.

During the last week additional work on the big mile track at Dallas was begun, in the effort to put it in the pink of condition before next October. Hundreds of truck loads of fine road sand were spread over the black dirt of the track two months ago. This had the advantage of the rains prior to July 4, which mixed the sand and dirt thoroughly. The new work constituted running a great double disc harrow over the whole track, and still more thoroughly mixing sand and "gumbo" so that after rains will put the course in the best condition possible.

**READ OUR SHORT STORIES.**

Don't overlook the short stories each week in the Times-Signal. The editor is trying to run a paper for all classes, and must, therefore, publish some fiction. Our short stories are by standard writers and are clean and wholesome.

**WE ARE PROUD OF 'EM.**

The editor of the Times-Signal is indeed proud of its present fine corps of correspondents. Our Herneleigh correspondent came in last week with a batch of real live news. Mr. Zion, Ira and Dunn were also represented in last week's issue with live, newsy notes. Why not have your community represented. Come to the Times-Signal office and get stationary or write us and we'll send it. We want to make each correspondent our agent in his or her community to help us get subscriptions. You can make good money by getting subscribers for the Times-Signal in your community. So why not make some money and at the same time help us to make the Times-Signal a real county paper?

Luther Hines was here from Camp Springs last week. Mr. Hines says that the recent showers in this community will assure lots of cotton and considerable feed.

R. L. Lightfoot was here from Fluvanna Thursday on business. He says he likes the Times-Signal as a county paper and likes the editor's idea of having good correspondents from all over the county.

B. A. Worthington was here from Dunn Thursday. He says that Dunn Never-Sweats will probably attempt to get an auxiliary under the Grand Order at Snyder. Mr. Worthington probably didn't know that J. C. Beakley of Dunn is already a member in good "sitting," and would make an excellent president of the Dunn auxiliary. Mr. Worthington said that there had been good rains all around Dunn, but for some reason the city of Dunn had received a very small amount.

**SIX FOOTBALL GAMES  
DURING STATE FAIR**

Six big football games have already been scheduled for the great athletic stadium at the State Fair of Texas, during this year's exposition, Oct. 11-26. The stadium has been enlarged, with the seating capacity increased, and the playing field is in the pink of condition, with a carpet of grass several inches thick. It has also been re-leveled, and with two lines of drain pipe laid, on either side of the field, the gridiron will be perfectly drained, no matter how hard it may rain prior to any of the six big engagements.

The schedule is as follows:  
Saturday, Oct. 11—A. & M. vs. Seawane.

Tuesday, Oct. 14—Baylor vs. Central Teachers College, Oklahoma.

Friday, Oct. 17—North Dallas High vs. Bryan High (Dallas).

Saturday, Oct. 18—(All College Day) University of Texas vs. S. M. U., Dallas.

Thursday, Oct. 23—Clarendon College vs. Weatherford College.

Saturday, Oct. 25—S. M. U., Dallas, vs. A. & M. of Texas.

On Friday, Oct. 24, the stadium will be the scene of stirring competitive drills between R. O. T. C. units from various Texas High Schools.

A twice daily attraction at the State Fair of Texas, Dallas, Oct. 11-26, this year, will be twenty big hippodrome circus acts before the grand stand.

**IRREGULARITIES GIVE RISE TO  
DISTURBANCE.**

Concerning a lodge of Never-Sweats, that Highecockalorum J. L. Martin at Snyder recently, Mr. J. T. Fitzpatrick, head of the order in this state, remarked to the News-Times man this week that there must be some mistake about the matter, as all applications for instituting lodges must be submitted to him for approval, and he denies that this has been done. Uncle Tom Beene, grand secretary of the order, also denied having received application for the organization of a new local lodge at Snyder. Messrs. Jake Beene and I. R. Middlebrooks, members of the executive committee, could not be found and they escaped an interview. It is generally conceded, however, that Mr. Martin, having forfeited his right to membership in the order on account of his connection with the newspaper work at Snyder, in connection with which it is alleged that he is personally laboring, has thereby automatically surrendered his credentials, and he is therefore not eligible to take part in the installation of other lodges.

The News-Times man, not know-

ing the rules governing same feels that he is not competent to pass upon the merits of the case. It is clearly evident that the Never-Sweats here are much perturbed over the complications that the reported organization at Snyder have given rise.—Roysce City News-Times.

The Times-Signal editor being Chief of the Tribe of Highecockalorum, does not have to ask the permission of the head of any other order to establish a local order of Never-Sweats. Furthermore, we made it plain that the Snyder order was nothing more than the reorganization of the old order of Sons of Rest, which was hoary with age when Eli of old was president. Furthermore, the patent office at Washington will not grant a copyright on the ritualistic work of any secret order, which would prevent the honorable J. T. Fitzpatrick or any of his subordinates from protecting the name or the work of the order under the laws of our country. Therefore, we demand that the Grand Order of the State grant the Snyder local a charter authorizing it to meet and REST.

**PATENTS GRANTED TO TEXANS.**

Of 811 patents issued in the last week, Texas inventors obtained 15. Do you know any of these inventors?

That these inventions are worth while is attested by the number of the patents that already have been assigned for manufacture and sale. In other cases the inventors are planning to manufacture them themselves or still are negotiating for assignments or royalties.

The following information is compiled by Munn and Company, of New York and Washington, patent and trade mark attorneys.

Gideon Morris of Grand Saline is granted a patent on a dirigible headlight for automobiles. The invention provides a mechanism for controlling the front headlights, whereby they may be automatically turned to the right or left in accordance with the direction in which the steering wheels are turned, so that the rays of light may illuminate the path being followed by the wheels. The lights are operated by mechanism from the dash board of the car within easy reach of the operator. Mr. Morris has assigned one-half his patent to Willis H. Robertson.

William H. Lyne of Houston is granted a patent on a device for oil

and gas wells. This apparatus, in controlling and operating deep wells, is designed to prevent blowouts. Means is provided for effectively closing or sealing the well when high pressures are encountered. The weight of an inner string of pipe is relied upon to prevent outflow of the pressure fluids.

Wilmer Threadgill of Laredo is granted a patent on a machine for picking cotton. The invention facilitates removal or elimination of cotton fibre and seeds from the plants, particularly in co-operation with frames or fenders.

John R. Klug of Munday is granted a patent on a folding crate for shipping poultry, eggs, fruit and other material. This crate, which may be cheaply manufactured and is able to withstand rough usage, may be folded readily into compact form to be returned to the shipper or stored in a minimum space for future use.

Walter H. Devers, Jr., of Houston is granted a patent on a tool holder for Ford automobiles. It is so formed and combined with the standard Ford automobile body as to utilize unoccupied space in front of the front seat and underneath the forwardly projecting front edge of the front seat cushion.

Edward A. Brown of Fort Worth is granted a patent on a ventilator, especially fitted for use in the windows of a railway car. It may be secured in any position without

marring or damaging any portion of the window. It is simple in construction, highly efficient and may be manufactured cheaply.

George F. Grooms of Sabinal is granted a patent on a truck for transporting poles. The invention provides means for the ready loading of the poles on to or unloading them from the truck without undue strain on the truck during the loading or unloading. The vehicle has a truck and a rear truck, with means whereby the poles of any appropriate length may be loaded or unloaded, with the pole itself employed as a means for providing sufficient leverage to raise the pole to the vehicle or deposit it therefrom.

James S. Abercrombie of Houston is granted a patent on a fishing tool for the purpose of engaging with and

withdrawing pipe from well bores. This tool is equipped with pipe-engaging jaws of novel formation, which are pivotally mounted so that the tools may be readily let down into the bore without the dogs engaging against the pipe, but upon upward pull of the tool the dogs will engage with and withdraw the pipe from the bore.

Albert A. Riblett of Burkburnett is granted a patent on an automobile fender brace. This invention provides a bracing construction which effectively prevents vibration and sagging of the fenders. The bracing constructions may be detachably secured to the opposite side fenders of vehicles for reinforcing them. The construction is easy and simple to install on vehicles without the necessity of mutilating visible parts.

The Slaton Times, Ben F. Smith's new paper, reached our table this week. It is a clean, newsy 8-page weekly, and well patronized. We believe that the people of Slaton will readily see the value of such a paper to Slaton and community and the wisdom of giving it their very best support; and if they support it they can rest assured that Mr. and Mrs. Smith will give them a paper that is really worth while.

Good morning, Miss Elberta. You certainly are a "peach."

A man by the name of Rye was arrested at Plainview last week on a charge of drunkenness. Rye must have got hold of too much "corn."

The Texas Commercial News informs us that Amarillo is building an "Explosive Plant." We don't know what an "Explosive" is, but we do know that some towns "blow up" without an "explosive plant."

A Big Spring man has announced that he has purchased a "permanent wave" machine. My goodness! Why didn't he install some sort of automatic "bobber?"

A town can never hope to get into the city class until it has a good sewerage system, an adequate water supply and paved streets. It has the water supply, is building the sewerage, so why not start paving and be recognized as a city?

Don't get the idea that cities grow of their own accord. Cities are built. From the list of new buildings erected in Snyder published in this issue it seems as if Snyder was headed in the direction of a real little city.

We see where a New York man operated on, and a pin was found in his appendix. The report did not say why the man was operated on, but it is natural to presume that he had "a pindicitis."

It is said that the skeleton of a man forty-five feet tall was dug up in Europe a few days ago. An exchange asks: "What do you think of that?" Really, we think it a lie, although the Bible says, "There were giants in those days."

An Iowa woman bought a pedometer to see how far she walked while preparing her husband a meal. She found the distance to be five miles. But that's nothing. We know women who walk a greater distance than that parading the streets while their hubby is at home taking care of the children. We also know some men who sit on the street corners all day while their wives make the living. But it takes all sorts of folks to make a world.

Mrs. A. L. Shepherd of Post City visited friends in Snyder Tuesday.

**Personals**

Mrs. Shirley of Plainview returned home Tuesday after a visit with her parents, Mr. and Mrs. M. W. Risinger of Snyder.

An oil stove blew up at the home of Loy Edmondson Saturday. The fire boys made a good run, and luckily no damage resulted to the building.

Scott says that they had a good rain in his community and that cotton looks fine. He said that hail did some damage in his community last Saturday.

The high wind last Saturday afternoon tore M. C. Robinson's windmill to pieces. In fact, the wheel was completely wrecked.

Mr. and Mrs. N. H. Tyler and two sons of Denton County are here visiting G. M. Roe and family of Camp Springs.

Mr. and Mrs. J. L. Campbell of Fluvanna visited in Snyder Tuesday.

Rev. J. T. Bryant and Rev. Rodgers, who is conducting the meeting at the Presbyterian church, visited Rev. and Mrs. Tate at Fluvanna Tuesday. They reported Rev. Tate's condition greatly improved.

Mrs. John Smith and son and grandson of Knox City and Mrs. John Tanksley of Arlington visited Mr. and Mrs. W. E. Smith of this city this week.

Pat Johnston and Ollie and Luther Morrow returned Tuesday from a trip to the Plains.

Mr. and Mrs. W. F. Miller of Ropesville are visiting Mr. and Mrs. C. D. Woody of this city.

Mrs. John Henderson and children returned home Sunday after a month's visit with her parents, Mr. and Mrs. W. R. Minor. She was accompanied home by her sister, Miss Jessie Minor.

Rev. I. D. Hull has just closed a big meeting at Center, near Floydada. There were about twelve professions and several additions to the church. The meeting was held in a new church building which the Baptists of that community own and have it paid for.

**Ladies' Missionary Society.**  
The Ladies' Missionary Society of the M. E. Church met at the church at 4 o'clock Monday evening.

Mrs. Charlie Cox led the devotional exercise. Mrs. B. Y. Rea led in prayer.

The lesson for the afternoon was "Creative Forces in Japan," presented by Mrs. D. F. Whaley.

The Society will meet at the home of Mrs. T. J. Rhea for social and voice lesson Monday, Aug. 25, 1924.

**Ladies Aid Society.**  
The Ladies' Aid Society of the Central Baptist Church met at the church at 3 o'clock Monday afternoon.

Mrs. E. J. Ely led the Bible study for the afternoon. Song—"Jesus Included Me." Prayer, Mrs. A. J. Kemp.

The ladies tore off sheets for Mrs. A. J. Kemp's Sunday School class to make for the White Cross work.

It was decided upon to each bring the price of 2 chickens to the Aid on election day. They will meet at the church next Monday at 3 o'clock.

**The Culture Club.**  
The Ladies' Culture Club met at the home of Mrs. P. D. McKinnon with Mrs. Michael as joint hostess. Mrs. E. J. Ely was voted in as a member of the club. Games of 42 and Mah Jongg were the feature of the afternoon. The club gave Mrs. Burgholms a rising vote of thanks for the many things she has done for

the club and they regret very much to have her leave.

Refreshments of ice cream and cake were served to the following ladies: Mrs. Walter Gentry, Mrs. Elmer Gardner, Mrs. Cleve Patterson, Mrs. W. R. Terry, Mrs. A. W. Mobley, Mrs. K. B. Reeter, Mrs. D. F. Whaley, Mrs. R. A. Greaves, Mrs. T. J. Rhea, Mrs. Charlie Brondon, Mrs. Burgholms, Mrs. Micael, Mrs. Jim Echols and Mrs. P. D. McKinnon. The club will meet Thursday afternoon at 4 p. m. at the home of Mrs. J. R. Hood.

Mr. and Mrs. Lee Gentry of San Angelo are visiting Mr. Gentry's brother and family, Mr. Walter Gentry.

Mrs. J. A. Hood and family and

Miss Ileta Henry have just returned from a trip to Wingate where they have been visiting Mrs. Hood's parents.

Hermleigh's ball team continued its winning streak this week by defeating Loraine Monday 19-3 and Rotan on Tuesday 6-5.

Mr. and Mrs. Dalton Lewis of Brownfield spent the night with Mr. J. J. Henry and family Saturday night.

Messrs. Lester Gartman, Oscar Hooper, Charlie Christian, Dan Gardner and Elmer Henry have just returned from a trip to Christoval and over into Old Mexico. They came back by the Boy Scout camp on the Concho and had dinner with the scouts.

Several Hermleigh families went

to the scout camp Sunday and took dinner with the boys. They each report the boys are having plenty to eat and plenty of fun. Among those that went Sunday are: Mr. H. O. Barmour and family, Mrs. Elmer Gardner and family, Mr. Jim Chorn and family, Mr. Chorn brought his boy, Sam, back with him as he was not feeling well.

Misses Jewel and Ada Mae Polk of Rotan are visiting their aunt, Mrs. Elmer Gardner.

Mr. Garrett McKinnon has returned from training camp at Ft. Sam Houston.

Mrs. Burgholms and baby left Friday evening for their new home at Brownsville.

Mr. Carl Kemp is in Rule this week on business.

#### YOUNG PEOPLE'S CHRISTIAN ENDEAVOR.

At the First Christian Church Every Sunday at 6:45 P. M.

These young people have some fine programs and are doing a great work. This is the kind of training that will fit these young people for the work that is ahead of them. They gather here each Sunday afternoon where after a few songs and prayer they read and discuss certain chapters of the Bible. They give some real interesting discussions and we know that the older members would enjoy them and it would lend encouragement to these young people. We must not lose sight of the fact that the men and women of tomorrow are the boys and girls of today and too much cannot be done to give them the training that will make of them useful, Christian men and women. Come out next Sunday afternoon at 6:45 and be with them.—Church Reporter.

#### FIRST CHRISTIAN CHURCH NOTES.

We had an exceptionally fine attendance at Sunday School last Sunday, especially at this time of the year when so many are away on their vacations.

There were no preaching services last Sunday as the pastor, Brother Sparks, was at Moran, where he is holding a meeting for the Christian Church at that place. He is assisted in this meeting by his son, Earl, who has charge of the song services. Let's everybody be on hand next Sunday

and see if we cannot put the attendance mark well above 100. We can do it if we only try. Remember Sunday School starts promptly at 10 a. m. and we always have some fine music before the Bible study period commences. The music is furnished by the Martin family. Don't forget to be there.—Church Reporter.

#### LADIES' AID FIRST CHRISTIAN CHURCH.

The Ladies' Aid of the First Christian Church met in their regular meeting last Monday afternoon at 4 p. m. at the church.

Mrs. Hamlett read the 12th chapter of Romans after which Mrs. Stanfield led in prayer.

Roll call was responded to by verses of Scripture on love.

Minutes of previous meeting were read and approved.

On account of the absence of Mrs. Wasson the discussion of the afternoon's lesson was led by Mrs. Hamlett. The benediction was said by Mrs. Johnston.

#### REVIVAL AT BISON TO START FRIDAY NIGHT.

A series of meetings will commence at Bison next Friday night to be conducted by Rev. L. D. Sanders of this city. This is a fine community in the southwestern part of Scurry and we predict for the meeting much constructive work. The people of Snyder are especially invited to attend these meetings.

#### BIG MEETING CLOSSES AT IRA

Rev. C. A. Jones, pastor of the Baptist church at Ira, closed a meeting there Sunday night which resulted in 31 additions to the church. The church voted to go from one-fourth to one-half time and paid Brother Jones \$80.00 for the service he rendered during the meeting. When he left for his home at Herleigh he found to his surprise that his car had been loaded down with all manner of good things to eat.

The Times-Signal will say in endorsing the actions of the good people of Ira that that's the way to treat a faithful servant of God. To say the least, that sort of "biting" is a whole lot better than "backbiting."

#### LETTER FROM BRO. SPARKS.

The Church Reporter received a letter from Bro. Sparks the fore part of this week written from Moran. Bro. Sparks is in a meeting at that place and he reports that they are having record-breaking attendance and that much interest is being shown. The song services are being conducted by Earl Sparks. Bro. Sparks stated that they were going to do their best to get home about the middle of the coming week.

**HORSE BOT FLIES**

"We have a curious place for the home nest," said Mrs. Horse Bot Fly. "Sometimes you get at a horse so you do him great harm," said Billie Brownie. "Doesn't that seem to be unfair?"

"And in any case," he added, "you do all the harm you can without seeming to mind it at all."

"Then I should say you know about me," said Mrs. Horse Bot Fly.

"I have heard talk about you," said Billie Brownie. "But I wanted to hear from you, yourself, if the things I have heard about you are really true."

"I wanted to make sure, for I couldn't believe you would really be so mean," said Mrs. Horse Bot Fly—we will call her Mrs. Horse Fly for short—did not seem to mind what Billie Brownie had said. Instead she looked rather pleased.

"Probably what you have heard is true," she said.

"But I would like to hear from your own fly lips, as it were, just what it is that you do," said Billie Brownie.

"I was going to tell you in the first place," said Mrs. Horse Fly, "but then you seemed to know all about it, so I didn't think it was necessary."

"As you would like to know, anyway, I will tell you."

"I told you in the first place that we have a curious place for the home nest. Most creatures build nests or holes for their homes, or they spin webs, or they go in for house-making in one way or another."

"I'm not domestic that way. I don't care about housekeeping."

"To my fly mind it is a nuisance. A nuisance, Billie Brownie."

"Why should I bother about picking out a place for my home and then

"A Meaner Creature I've Seldom Met."

work hard carrying things to it to make it comfortable?

"I don't care about a home such as that. And neither do the children."

"Of course I pick out a home, but I don't build any nest and I don't fuss about it. I just let the housekeeping take care of itself."

"You see, I lay about four hundred or so eggs at a time. A large family, you will say. And I say so too."

"Keep house for all of them? I should say not. I couldn't be bothered."

"Well, I pick out a horse and I fasten these eggs to the horse's hairs."

"I fasten them upon the legs and the shoulders of the horse and then the eggs are hatched out by the horse."

"The horse really helps me. So you see I can be mean and yet have good results."

"The horse tries to lick these eggs off—the little yellow eggs which will later be brown, hairy, beetle-like appearing flies."

"In trying to lick off these eggs the horse gives the exercise and the dampness which they need to hatch out properly."

"Of course these eggs greatly annoy the horse. But that does not concern me."

"I usually lay all of my eggs upon one horse, too. Is this what you have heard of me?"

"Yes," said Billie Brownie, "and a meaner creature I've seldom met."

"I never did think much of flies anyway, but you are about as dreadful a one as could be met."

"I don't want to talk to you any more, though I do wish you would do differently."

"It is useless to try to improve me," said Mrs. Horse Bot Fly with a mean grin on her ugly little face.

Jane was very fond of meringue on pie and awakening one morning she saw the ground covered with the first snow and exclaimed:

"Oh, mamma, lots of pie."

**IRRIGATION MAKING WASTE LAND VALUABLE.**

The following article taken from a recent issue of the Fort Worth Record will show what irrigation is doing for Wichita County:

WICHITA FALLS, Texas, Aug. 19. —A foretaste of what irrigation means to a great section of country which has been buffeted with dry winds and occasional drouth has just been experienced near Wichita Falls as the mammoth \$4,000,000 irrigation project is beginning to come into play and actuality. Farmers who once thought that they were doing well when one-fourth of a bale of cotton was harvested off an acre are now wondering if the day of miracles has been revived.

For instance there is J. M. McFall, an automobile dealer here, who believes farming pays, especially when all he has to do when he wants a rain is to telephone for it. McFall has 250 acres in cotton 17 miles west of Wichita Falls. It is now susceptible to irrigable waters from the great Lake Wichita project. McFall estimates that his cotton will make one and one-half bales to the acre. In other words his 250 acres is expected to produce 375 bales of cotton this year. Before he had advantages of irrigation it probably would not have produced 60 bales. This land for years has been planted to wheat. That tract of land once was a doubtful proposition—it might produce and it mightn't. But today it is good for the maximum.

**Long Staple Cotton.**

Another harvester of the fruits of irrigation is Will Hodges, living at Iowa Park. Hodges has land now going under the ditch from the Wichita project. There are about fifty acres. A cotton seed expert is supervising planting and cultivation. An experiment in the long staple cotton is being made. Much interest attaches among the exponents of irrigation and among the farmers of this section as to the outcome under the benign influence of irrigation. At

present the prospects could not be better.

Another concrete instance of the benefits of irrigation to any West Texas section is found in the enterprise of W. T. Ferguson, a wealthy oil royalty owner and ranchman. He is putting in 300 acres and has some excellent cotton as a result of the watering lately put on.

H. M. Mungler of Mungler gin machinery fame, has 400 acres of cotton under irrigation which is being watched for excellent results.

Despite the fact that grasshoppers had to be combated, excellent results have been obtained in advancing cotton in the irrigated section this season. McFall totally eradicated the insects on his irrigated lands.

**15,000 Acres Under Ditch.**

By early spring 15,000 acres of the Wichita Falls valley in the vicinity of Wichita Falls will be under the ditch, according to Hubert N. Harrison, manager of the Wichita Falls Chamber of Commerce. At the present time 1,100 acres are being irrigated with the turning on of water just started.

"Irrigation is rapidly gaining in favor with the farmers," declared Harrison to the writer. "It is especially noticeable among the farmers who fought the big bond issue for the project many months ago, due to the dry weather now prevailing in this section. As the vast benefits accrue to those who use the water on their cotton causing it to produce almost unbelievable yields, farmers are clamoring for privileges to utilize irrigation."

It is quite a contrast in certain sectors about Wichita Falls where irrigation is now being practiced and where farmers still farm on the "dry" scale. On the former there is a verdancy similar to that in early

spring after seasonal rains, with the winds which play across the crops tempered to a coolness like that across alfalfa fields. On the latter there is a sere appearance under the overly generous sun and cotton is wilting in midday and recuperating in the eventide.

That picture is enough to change the views of those who have fought irrigation. Many proponents of irrigation declare that Wichita Falls is Texas' greatest municipal benefactor. By taking the initiative it has set an example that will in the future be followed closely by every aspiring West Texas county to overcome the deficiencies of precipitation. In time it will be said of the thousands of irrigation projects in West Texas that will make it a second Euphrates region that Wichita Falls pointed the way for country redemption.

**Well-Known Business Man Freed of Twenty Years' Suffering**

A. W. TAYLOR

That the sensational new medicine Karnak has relieved him of twenty years of suffering and restored his health after all other means had failed is the astonishing statement of Mr. A. W. Taylor, well-known business man residing at 816 East Tenth Street, Oklahoma City.

"I think it is my duty to let the public know what Karnak has done for me," said Mr. Taylor in making public his experience. "For twenty years I had not seen a well day, and I frequently had to leave my business and go home to bed. Nothing I ate seemed to digest properly. I was continually bothered with terrific headaches, sluggish liver and constipation, and severe pains extending from my right side to my back kept me in constant torment. I had about made up my mind to undergo an operation to see if it would help me, but a friend got me started to taking Karnak and I would not take anything on earth for what the medicine has done for me. My digestion is splendid, the other troubles are also gone, and I feel better than I have in years and years. I consider Karnak worth its weight in gold."

Karnak is sold in Snyder at the Grayum Drug Co.

**Blinding Headaches**

"For about twenty years," says Mr. P. A. Walker, a well-known citizen of Newburg, Ky., "one of our family remedies has been Black-Draught, the old reliable. . . I r it for colds, biliousness, sour stomach and indigestion. I was subject to headaches when my liver would get out of order. I would have blinding headaches and couldn't stoop about my work, just couldn't go. I used

**Theford's**

**BLACK-DRAUGHT**

and it relieved me.

"About eight years ago my wife got down with liver and stomach trouble. . . We tried all week to help her, . . . but she didn't get any better. One day I said to the doctor, 'I believe I will try Black-Draught, it helps my liver.' He said that I might try it and to follow directions. She was nauseated and couldn't eat or rest. She began taking Black-Draught and in two days she was greatly improved and in a week she was up."

"Try Black-Draught. It costs only one cent a dose. Sold everywhere. E-99"

### MORE WORDS OF PRAISE.

Snyder, Texas, Aug. 18, 1924.  
Dear Mr. Martin:

I want to say that the one thing that impressed me above all others since you took charge of the Times-Signal is the fact that you are trying to make your paper worthy of the name NEWSPAPER, and not merely an aggregation of ads and dead boiler plate matter. I feel sure that the excellent paper you are getting out will bring you the increased patronage you deserve. Wishing you the best of success, I am,

Yours truly,  
D. P. YODER.

The last two issues of the Scurry County Times-Signal indicate that the policy of the new management is to give its readers the news. A paper filled with ads and no news, to my way of thinking, is not functioning as it should. Keep the Times-Signal coming, it suits me.  
A. C. ALEXANDER.

Sweetwater, Texas, Aug. 16.  
My Dear Mr. Editor.

As one of the old timers of Snyder and West Texas, allow me to say the Times, according to first and second issues shows conclusively you are giving Scurry and surrounding country the best paper Snyder has ever had and not in any way speaking lightly of some of our past edi-

tors. It's a pleasure here in Sweetwater, Texas, to receive the Times. I can now look to find something interesting and worth while. Long live the Times. Your friend and well wisher.

**ELECTRICITY FOR THE FARMER.**

The average productive labor hour on the farm is worth about 40 cents.

To make every one of these 40 cent hours productive of its share of profit, it is necessary to reduce non-productive labor to the minimum, and in farming as in manufacturing it has been found that the best way to do this is to use labor-saving machinery. The small electric light and power plants now in use on so many farms accomplish a lot of this labor saving. Grindstones, fanning mills and many other light power appliances in the barn which used to require the time of two men are now turned by electricity. In the house the pumping, churning, separating, sweeping, washing and ironing are all done by electricity, relieving the farmer's wife of a great part of the burdens which have made her life a hard one. And of course electric light itself makes the farm home a bright and cheerful place to live.

Where electricity serves the farm family we find the best of living conditions, and we find, too, that every member of the family makes each hour of labor pay a profit.

### Only an Idea Is Needed to Put Town on the Map

In Oberammergau, long ago, they found something else to do besides going to the post office four times a day or sitting around the stove in the grocery store, or dallying in the village poolroom.

Any small town can become famous and busy, only let it find an idea, declares F. H. Collier in "Echoes of the Streets," in the St. Louis Globe-Democrat.

The world may be too much with us, as Wordsworth said—in the cities, but it is a vague, far-off matter of languid interest in the village. Very well, then, let the village go about interesting itself in something. Every one of them would do well to get a hobby.

We think of one town in Kansas, which has a huge chorus that offers a musical festival every year that has now become famous. Another in a different state is devoted to a narrow but fascinating line of horticulture. There is East Aurora, N. Y., which Elbert Hubbard gave something to talk about.

If a small community can do nothing else it can organize a botany class and carry on until it attracts attention as a scientific center in its chosen field. Science, literature, art and music; horticulture, the liberal arts, mechanics, the drama and metaphysics are all open to villagers to devote their intellectual powers to a special feature.

They can't all be Oberammergaus, but they know not what they can be until they try. And "trying" itself breaks the deadening husk of the small-town existence.

### To Direct Growth of Gotham

The Russell Sage Foundation now proposes a magnificent plan for the future growth of New York. It looks forward to a time when as many as thirty million people will be living within a radius of fifty miles of Madison square. Radical changes on Manhattan island and in the older part of Brooklyn are unlikely, but it is the ambition of the foundation to direct the anticipated growth of the metropolis in the most convenient manner and provide transit facilities, street and park systems and commercial and industrial districts for the newer parts of the city, according to the best judgment of some of the most eminent engineers and architects. Its plan will not only make the newest New York beautiful and convenient, but will help to reduce the congestion on Manhattan island, especially on the East side. The territory that it will study is virtually covered by the proposed Port of New York authority, from Newburgh on the north to Monmouth county in New Jersey on the south, and from Morristown on the west to Bridgeport and central Long Island on the east.

It is hard to conceive of a great metropolitan population of thirty million or more, and it may be that events will falsify the prediction of the Sage foundation in that respect; but New York grows steadily. The region described already contains some nine million people. It will be an additional source of pride to the future citizen if he can think of New York as the most beautiful and commodious of great cities as well as the largest.

The report of the Sage planning commission will be awaited with interest. It can hardly be ready for several years. And when it does appear it will remain to be seen whether the authorities of New York and of all the other municipalities concerned will be willing to adopt its suggestion.

### Pays Teachers Highest Wage

High school teachers in Newark, N. J., receive the highest salaries paid for regular public school instruction in the United States, for they begin at \$2,100 and reach \$4,400 by annual increase, according to City School Leaflet No. 15. Just issued by the Department of the Interior through the bureau of education, Casper, Wyo., a city of only about 12,000 people, pays to beginning elementary teachers \$1,600 a year, which is \$100 more than New York and Chicago pay for like service.

In general the great cities offer the best salaries, but their highest entrance salary, \$1,500, is matched in some of the smaller places in the West, including San Jose, Richmond and Piedmont, Cal. Many other cities do nearly as well, and the sum which is paid most often to beginners is \$1,000. At the lower end of the list is Savannah, Ga., which is reported in the leaflet as paying only \$490, with annual increases of \$36 to a maximum of \$1,143. Colored elementary teachers in Rome, Ga., receive even less, for they begin at \$382, and their maximum is \$450.

### Look Ahead in Planting

A big consideration in your spring tree-planting plans is beauty, says the American Tree association of Washington, D. C. This involves form, vigor, and suitability to location and environment. Factors of beauty also include the coloring of the leaves and the nature and appearance of flowers or fruit. The gorgeousness of the maples in autumn coloring makes these trees general favorites for street planting.

## BROUGHT HOME FROM MEXICO ON STRETCHER

But Mrs. Herman Is Now In Good Health, Thanks To Tanlac.

A few years ago Mrs. M. E. Herman, 215 Hitchings St., San Antonio, Texas, "returned to the states from Monterey, Mexico," she says, "in such a low state of health that she had to be carried to her home on a stretcher."

As time went on and she still lingered in the throes of "nerve exhaustion, stomach disorders and bodily weakness," she determined, "on the advice of her druggist," to try Tanlac, which she declares "brought back my health and strength after I had almost despaired of ever getting well."

The results of Tanlac in the case of Mrs. Herman, while indeed remarkable, are by no means unusual

for Tanlac, as many hundreds of people, everywhere have testified to having taken the famous medicine with no less wonderful results.

"I returned from Mexico," said Mrs. Herman, "so thin and weak that I feared my life was going to be cut short. I could neither eat nor sleep in a natural way and it seemed at times that heart palpitation and nerve exhaustion would take me away."

"The makers of Tanlac will always have my heartfelt thanks, for it is to Tanlac that I attribute my recovery and present good health. Tanlac is like a blessing from heaven to me, that is the way I think about it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

### APPLICATION FOR MEMBERSHIP.

To the Honorable Order of Never-Sweats:

We, the undersigned take great pleasure in recommending Mr. J. C. Dawson for membership in your august body. He is a man who will abide by the by-laws and constitution of the order. He holds an order from his family physician insisting that he must never work hard enough to cause perspiration, which excuses him from making garden in summer and from bringing in wood or coal in winter, lest he might violate the doctor's orders. Being thus safeguarded, we therefore, heartily recommend him for membership in the time-honored order of Never-Sweats.

E. M. Lowery and family, Earl Williams and family and John Johnson and family returned the latter part of last week from a fishing and hunting trip down on the Concho. One member of the party caught a—a bad cold.

J. W. Eades, one of our prosperous farmers living in the Ennis community, was in Snyder Monday on business. Mr. Eades says that the big sand storm Saturday afternoon burnt some of his cotton considerably. He said that his community got only a light sprinkling of rain.

Listen, folks! Don't you want to be able to say: "We have the newest paper in West Texas." Of course you do. And that is the editor's aim and ambition, but he can't do that unless you assist him with your patronage and in getting the news each week.

Mr. and Mrs. D. P. Strayhorn went to Sweetwater Saturday to meet Miss Eva, who has been attending the summer school at Simmons College. Misses Mary and Eva will attend the C. I. A. at Denton the coming year.

Mrs. Bettie Coleman left for her home at Lubbock Saturday after visiting Mr. and Mrs. Taylor of Dunn.

Hugh Scarborough spent Saturday in Abilene.

W. E. Pritchett and family and Mrs. Pritchett's parents, Mr. and Mrs. J. T. Hart, of Milford, are spending this week on a tour through New Mexico.

C. C. Erwin of Eastland County visited C. M. Erwin Sunday.

John Abercrombie of the Davis ranch, eighteen miles northwest of Snyder was here Saturday. He says that while it is still dry in his community, cotton is still holding up with the promise of a fairly good yield.

Charles Starkey of the Snyder National Bank has returned from a vacation trip.

Dave Daniels and son, Harvey, and Joe Middleton returned Saturday from a vacation trip into New Mexico.

Eb Clarkson of the Turner community returned the latter part of last week from a business trip to Paris, Texas.

It is hard to tell whether the joke is on Master David Strayhorn or on Brother Bryant, the genial pastor of the Presbyterian Church of Snyder. Master David said to his father one day the past week: "I see Brother Bryant is walking with a cane. I wonder whether he is really crippled or trying to be a 'jelly bean.'"

## Your "Selective-Ringing" Telephone Rings Only for You!

Every "selective-ringing" telephone in Dallas has a "one-party-line" bell ringing service. This means that your bell rings only when your number is wanted.

The subscriber who shares your line has no means of knowing when you are being called, and you are not disturbed by the ringing of HIS bell. Another important feature is that your number appears in the directory with nothing to indicate that it is a "selective-ringing" telephone.

In fact, unless you use your telephone much more frequently than the average householder, the only substantial difference you will note between the two forms of service will be in the size of your monthly bill. By changing over your residence telephone to a "selective-ringing" telephone you save 25 per cent a month.

Mr. and Mrs. C. T. Brower and son, Weidon, returned Wednesday from a visit at Seagraves.

Mr. and Mrs. H. W. Winston and daughter left Thursday for Lubbock to visit relatives.

H. G. Towle and family returned this week from a trip of seven weeks in Alaska. The Times-Signal hopes that it may be able to give its readers a full account of their trip in next issue.

Bro. J. T. Bryant, the Presbyterian pastor, has recently made his home at the home of Mr. and Mrs. Clayton McMann, who occupy the house located on the highway east of the square, owned by Mr. Green. Anyone wishing to see Bro. Bryant will be able to find him at this address.

**BIG MELON FEAST**

The Times-Signal man has hardly been able to navigate for several days on account of a severe attack of "melonitis," resulting from a big melon feast at the home of Judge and Mrs. C. F. Sentell Saturday evening. The judge had put on ice a sufficient supply of the product that "made Parker county famous," and the feast having been somewhat delayed on account of the sand storm, there were present something like twenty keen appetites ready to do full justice to the occasion.

The following were present: Mr. and Mrs. W. R. Bell and children, Mr. and Mrs. W. B. Stanfield and Emory, Dr. and Mrs. Avery and daughter, Grace, Mr. and Mrs. A. C. Alexander and children, Mr. and Mrs. J. E. Sentell, T. H. Duff, Charlie Starkey, and Misses Vera Jones and Virginia Stone.

**Notes**

The sand storm had no effect on Roland Bell's appetite for melon.

Honestly, it would take a cyclone to stop him. He kept on eating as he watched the storm tear a windmill into smithereens.

It will never be known how much melon Doc Avery could eat if he knew no one was watching him.

A. C. Alexander had to take the Times-Signal man home—unable to crawl, much less walk.

W. B. Stanfield managed to take time to say between bites: "They sure are FINE!"

A. C. Alexander got through eating before the rest of us, but Charlie Starkey says he watched Mr. Alexander and will make affidavit to it that Mr. Alexander carried the melon to his mouth with both hands.

Mr. Alexander declares that he was watching Charlie and will make affidavit to it that Charlie was not watching him, but had his eyes on somebody else.

Mrs. T. M. White of Fluvanna came home Wednesday from a visit at Coleman.

## ITEMS OF INTEREST THAT WERE CROWDED OUT OF LAST WEEK'S ISSUE ON ACCOUNT OF SPACE

### LETTER FROM OLD FRIEND OF JUDGE J. Z. NOBLE.

The following is from one of the Judge's old boyhood friends. They have only met once or twice in the past forty years:

Joshua, Texas, Aug. 19.

Hon. J. Z. Noble, Snyder, Texas.

Dear Zack—The object of this letter is to renew an old acquaintance. I had lost track of you and for the last several years I did not know where you were. A few days ago I read your letter in the Dallas Morning News and I was glad to note that you and I agreed as use-to-be our custom many years ago. This gives me great pleasure and recalls many pleasant memories of days that we spent happily together, and also it affords me great pleasure to know that we are still fighting side by side for good government honestly administered by capable, faithful Democrats. If Mrs. Ferguson should be elected (but she will not be) our border counties on the west and south (Mexico and Gulf coast) would be turned loose and bootleggers would spread from those points all over Texas as Ferguson would not use the Rangers or any other force to control the illicit liquor traffic in Texas. He would act without authority of law just as Jim Smith of New York has acted. His past administration was in the interest of Jim Ferguson and not in the interest of the people of Texas and no good law-abiding citizen should vote for him or his wife unless she would get a divorce from him. This enough politics.

I do not remember the last time that I saw you but I think that you were living in Itasca or it may be that you and I attended a home-coming of the Masonic lodge at the same time. After Sue died I traveled ten years for the Federal department of agriculture in four or five States. After the death of Dr. S. A. Knapp, who was in charge of the work I got crossed up with the man that was in charge and I resigned and returned to Osceola and married J. B. Pelt's widow, who was a niece of Leonard Hearns. My only child, a daughter by my first wife, died with T. B. just as her mother did, and my present wife has no children. I still own the old Witty farm between Woodbury and Osceola and I own my home here. I am well-fixed here. I have water, electric lights and natural gas in my home and am in one block of the interurban station that runs two cars every hour. I have a large lot, a good garden, some fruit trees and grapes and keep a cow and chickens and almost live at home and board at the same old home, and for a pastime I write a little insurance and also to make a few dollars for spending money. If you pass this way call on me.

With kindest regards for you and family, I am,

Your old friend,  
J. J. (Witty Jim) MOORE.

Out of 412 votes polled at this box I received 386 votes for Justice of Peace. Write to me. J. J. M.

### DR. SWANN BADLY INJURED BY FALL FRIDAY.

Dr. A. R. Swann was seriously injured last Friday afternoon when he fell from a small tower at his home in Rotan. He was cleaning out an elevated tank, and found he was getting weak and started down. He had climbed down part of the way when he gave out and fell. Some large rocks were around the tower and he struck some of these, breaking his arm.

He was given immediate attention by Dr. Allen of this place and Dr. Allen of Roby, and Saturday morning was taken to the Sweetwater sanitarium for X-ray and treatment.

Thorough examination there disclosed that the bone in his arm was broken. He was treated at the sanitarium until Wednesday of this week when he was brought home. He is reported to be resting pretty well at this time.

Dr. Swann has been in poor health for some time and he misjudged his strength when attempting to clean out the tank.—Rotan Advance.

### PERSONALS

D. C. Howell and family returned Wednesday from a trip to their old home town, Estancia, New Mexico. Mr. Howell says that Roswell and vicinity have fine crops on account of recent rains, but that beyond Roswell everything has burned up on account of dry weather.

O. S. Green of the Co-Operative store is on the sick list this week.

Mrs. Rosa Cowan of Merkel is visiting S. E. Wooten of Fluvanna this week.  
W. C. Like of Ira left Thursday for Bluffdale to be with his children a few days. Mr. Like had the misfortune to lose his wife about ten days ago.

Mrs. T. J. Gassaway and two sons, J. C. and Thomas, visited at Lamasa this week.

R. G. Shelton of Lubbock passed through Snyder last week, en route to Lampasas on business.

P. P. Gassaway of Hamlin visited his brother, T. J. Gassaway and family this week.

Avery Whitehead has accepted a position with the Puett Drug Co.

J. Leslie Berry is here from Amarillo for a few days' visit with relatives and friends.

Dr. A. C. Leslie returned Tuesday from Dallas where he spent a few days visiting the great Baptist Sanitarium. The doctor said that he felt like he had lived a thousand years in a period of only three hours. He said that he saw a child die of hydrophobia after having taken the treatment for that awful malady, and which proves that all treatments sometime fail. The child that died had been bitten by a cat, which made it still worse to Dr. Leslie who has always warned the people against the dangers of being bitten by them.

F. A. Hamer was in town Wednesday, and while here stopped in at the Times office and handed us the following clipping taken from the Austin Statesman concerning his son, Capt. Frank Hamer, State Ranger: Ranger F. L. Hamer of Del Rio is in Austin visiting his brother, Capt. Frank A. Hamer, for the weekend. Ranger Hamer recently achieved national fame by his sensational capture of Jess Newton, Illinois train robber. Hundreds of state and national officers were looking for Newton at the time Hamer recognized him as he was crossing the border into Mexico. Hamer will receive the reward of \$5,000 offered for the capture of Newton by the postoffice authorities.—From the Austin Statesman.

### FORMER FISHER COUNTY SHERIFF DIES.

Baxter Lambert of Roby, sheriff of Fisher County for 4 terms, died in Dallas Thursday night and will be buried at Roby Saturday. Mr. Lambert was one of the best known sheriffs in West Texas and has many friends in Sweetwater. He passed through Sweetwater early this week en route to a Dallas sanitarium.

Mr. Lambert has been in bad health for some time, it is stated, and was in a Marlin sanitarium at the time of the July primary election when he was a candidate for reelection. He was about 46 years of age at the time of his death.

Mr. Lambert leaves a wife and family, and two brothers and two sisters.—Sweetwater Reporter.

### UNION REVIVAL MEETING AT IRA NEXT WEEK.

The Presbyterian and Methodist Churches of Ira will hold a Union revival meeting at Ira next week, commencing Sunday. Bro. Brown of Dunn and Bro. J. T. Bryant of Snyder will conduct the services.

### DEATH OF INFANT.

The infant born to Mr. and Mrs. M. G. Ellis Saturday night died Sunday afternoon and was buried Monday at 10:30 o'clock in the city cemetery.

### DOUBLE WEDDING.

Bro. J. T. Bryant on Tuesday afternoon married two couples. The ceremony was performed in the County Clerk's office in the courthouse.

### WON'T YOU DO THIS?

When you have read this issue of the Times-Signal—everything in it—won't you please speak a good word for it? Or, if you have a neighbor who is not a subscriber to it, won't you please hand him your paper and kindly tell him that you like it and that he ought to subscribe? Just such kind acts will help to make the Times-Signal the paper your editor hopes to make of it, which is a real county paper going each week into practically every home in Scurry County.

### NOTICE TO TEACHERS.

To the teachers of Scurry County.—All teachers please bring in your contracts, and certificates at once. Each must be approved and recorded before teachers begin their school term. Very respectfully,  
NEALY SQUYRES,  
County Superintendent.

### CARD OF THANKS.

We wish to thank all those who helped us in any way during the illness of our dear wife and mother.

### Personals

Mrs. J. O. Dodson of the firm of Cooper & Dodson returned the latter part of last week from St. Louis, where she had been buying goods. She was accompanied home by her niece, Reba Lewis, who will make her home with Mrs. Dodson.

John Sims and family of the Sharon community and Misses Grace and Fay Holcomb of this city returned Thursday from a trip to the Rio Grande Valley.

Prof. and Mrs. I. C. Bagwell are now pleasantly domiciled with Mr. and Mrs. Whately east of the school building. Prof. and Mrs. Bagley are now ready for the opening of our school and are highly optimistic in the belief that it will be equal to last year's term, which it is said was one of the very best in the history of Snyder's schools.

T. L. Rouse of the Vernon Times was here this week visiting his parents, Rev. W. T. and Mrs. Rouse. Mr. Rouse is giving the people of Vernon and Wilbarger County an excellent paper and is getting good support.

J. W. Love of Wood County is visiting L. J. Dismukes and family, south of town.

Mrs. Page Cleavinger spent the latter part of last week in Oklahoma visiting Mr. Cleavinger, who is operating a threshing rig near Tyrone.

Dave Daniels and family and Mrs. T. M. Newton are enjoying a big automobile trip south. They will visit Corpus Christi, Galveston and Point Isabel, then go up the Rio Grande to El Paso, and back to Snyder.

P. M. Newton and Leslie Daniels went to Fort Worth last week. They say that from Sweetwater on to Fort Worth everything was as dry as tinder and that fields were white with cotton.

T. M. Newton and Leslie Daniels made a business trip to Plainview Wednesday.

### LIONS CLUB IS BIG ASSET IN COMMUNITY PROGRESS

"The Lions and other luncheon clubs of Abilene have fostered with small exception every worthwhile program instituted in the city of Abilene," was the declaration of Dr. J. W. Hunt, president of McMurry College, in delivering an address before the Lions club here Friday afternoon. The speaker appealed for the business and professional men of Colorado, who are members of the club, to devote their thought and energies toward bringing about of a more universal religious condition in this community along with their programs for civic and commercial growth.

"The one thing that Colorado needs most of all is the ideals of a pure religious life among its citizenship," Hunt stated. He gave an invitation for the Lions to attend the revival being conducted at Union Tabernacle.

Others to address the club were Rev. J. F. Lawlis, pastor of the local Methodist church, and Sallie McCreeless, of San Angelo, evangelistic singer assisting in the revival.

Dr. Hunt and Mr. McCreeless are to attend the club again Friday of this week. In addition to addresses by the visitors, it has been announced that McCreeless will sing one or more vocal numbers. President E. H. Winn is hoping for a good attendance.—Colorado Record.

In some manner the name of T. C. Watkins was omitted from the list of those contributing to the first bale contributions. Mr. Watkins contributed a dollar and his name should have been on the list, but for some unintentional cause it was omitted.

### BROTHER OF MRS. J. A. MORGAN DIES IN ARKANSAS.

Mose Defries, aged 33, died at his room at the Victory hotel this afternoon at 2 o'clock, following an illness of thirty minutes from acute indigestion. The young man was driving his car when he became ill, stopping his machine near the corner of Hazel and First Streets, where he called for help, complaining of being in intense pain. He was removed to the hotel and expired a short time following the arrival of a physician.

Mr. Defries was well known locally. While in the army a few years ago he was forced to undergo a series of operations, both lower limbs being removed. When he was discharged from the army hospital, Mr. Defries returned to Newport to make his home. He held the friendship and high esteem of all our people, and the news of his death will be regretted generally.

The deceased is survived by two brothers, Sam and Dave Defries of Post Oak; a married sister in Texas, and a grandmother who resides near Evening Shade.

Funeral arrangements had not been announced this afternoon.—Newport (Ark.) News.

Mr. Defries was a brother to Mrs. J. A. Morgan of this city. He will be remembered as the young man who went from place to place on his "go devil," as he called it. Mr. Defries lost both limbs from blood-poisoning from infections contracted during the war.

### ROSCOE MAN BADLY INJURED.

Rev. S. J. Upton of Roscoe, passed through on Friday's train en route home from Denver, Colo., where he had been called a couple of weeks ago because of a serious accident to his son, "Red" Upton, former well known Plainview boy. Young Upton is now on the road to recovery, but will doubtless remain in the hospital two months longer.

Young Upton is manager of a touring outfit, which furnished cars and tournaments at Estes park to tour the mountains. He was with a party of Chicago people as guide and when near Fort Collins the chauffeur lost control of his car, when going at a high rate of speed. The car was turned over, one young lady killed instantly. Three other young ladies seriously injured, and Upton thrown violently against the hard ground, striking on his face. His head was smashed, both upper jaws and one lower jaw broken, his nose torn loose from the face, and otherwise seriously injured. He was carried to Fort Collins and lay 10 hours in his blood, the doctors declaring that nothing could be done to save him.

His jaws and face have been wired together and will doubtless mend, so say the surgeons. Messages from Chicago say the young ladies are recovering from their injuries.—Plainview News.

### CHRISTIAN ENDEAVOR OF THE FIRST CHRISTIAN CHURCH.

Last Sunday afternoon the members of the Christian Endeavor met at the church at 6:45 and went directly to the Presbyterian church, where Rev. Rogers and wife conducted services for the young people of the various churches. Next Sunday the Endeavor will meet at the church at the regular hour.

### FIRST CHRISTIAN CHURCH NOTES.

The Sunday School had a good attendance last Sunday morning. There were no preaching services last Sunday on account of the absence of the pastor, Dr. Sparks, who is in a revival meeting at Moran. He expects to be with us about the middle of the week.

Work on the addition to the church building is going forward rapidly and it will only be a short time until it is completed. When completed it will give the church and Sunday School some much needed room. Now we are going to expect a record-breaking attendance at services next Sunday, as most every one should be back from vacations.

### OPERATION FOR APPENDICITIS.

Charlie Cleavinger of this city was taken to Lubbock Sunday for the purpose of undergoing an operation for appendicitis. He was suffering intensely. At the time of writing this article the Times-Signal had received no report as to his condition.

**STATEMENT OF TUITION RATES AND INCIDENTAL FEES GOVERNING THE SNYDER PUBLIC SCHOOLS FOR THE YEAR 1924-5.**

There will be a four and one-half months term of free school for transfers to the Snyder School District. This may be taken at any time during the session, but is to be continuous from the day of entrance.

Tuition rates will be as follows: For all unders or students in the grades, four dollars per month; for over or students in the high school, six dollars per month.

Laboratory fees will be charged on the subjects named as follows:

General science, for the full year, \$2.00.

Physical geography, one term, or one-half year, \$1.00.

Agriculture, for the full year, \$3.

Physics, for the full year, \$4.00.

Physiology, for one term, or one-half year, \$2.00.

Clothing, for one term, or one-half year, \$3.00.

Design, for one term, or one-half year, \$2.00.

Cooking, for one term, or one-half year, \$3.00.

Home nursing, for one term, or one-half year, \$2.00.

Library fees will be charged as follows:

For the tenth and eleventh grades, for the full year, fifty cents.

For the eighth and ninth grades, for the full year, 30 cents.

For the fifth, sixth and seventh grades, for the full year, twenty cents.

For the first, second, third and fourth grades, for the full year, ten cents.

Laboratory fees are payable for the half year in advance, or as soon as classified. These fees will be used for the up-keep of the science departments.

The library fees will be used for the purpose of purchasing books for the library. The fees received from the grade schools will be used for placing libraries in the individual rooms.

All subjects taught in the high school are now affiliated with the exception of the fourth year English and political economy, the latter having one-half unit of affiliation. This makes a total of twenty-four

units of affiliation which we now have. Eight of these subjects were affiliated during our last year of school.

The fixing of the fees above named is the result of careful calculation. The science departments cannot be operated without heavy expense for supplies, and inasmuch as the school as a whole is not directly benefited by a tax on those who derive the benefit from these studies. Furthermore, this is the established custom in the high schools of the state, and the fees are reasonable as compared to the charges made in these other schools.

The rates of tuition charged is less than the actual cost per pupil of maintaining our schools. By making the calculation of expenses of operating the high school, leaving out the expense of water, insurance, up-keep and the interest on the bonds, we find that the cost per pupil per month in the high school is more than six dollars; likewise in the grade schools it is more than four dollars.

The board has also been very liberal with the transferees to our school. Each transferee brings with him less than sixteen dollars per capita. For this consideration we are giving him a term of four and a half months of free school, and when this term is out we charge a tuition rate much less than the actual cost of operating the school.

The school board is very grateful to liberal patrons for generous donations to be applied to the payment of the equipment for the home economics department. We have secured the services of Miss Greene for another year's work in this department. We are operating the home economics department under the provisions of the Smith-Hughes law, and thereby an appropriation of state and federal aid to pay one-half the salary of this teacher. So much was the work of this department appreciated last year that one hundred and fifty dollars was given outright to be applied on the payment of the equipment of this department. Seven hundred fifty dollars was donated to the salary of this teacher, making a total amount of nine hundred dollars of state and federal funds donated to the Snyder schools because of the installation of this good feature in our schools. And we have the satisfaction of knowing

from a communication received from our supervisor, that our home economics department is one of the best equipped in the state. The saving on teachers' salary will in three years pay for the equipment of this department. Then for the years to come this economy will be actual gain to our school fund.

We are still carrying a heavy debt on this equipment, and it is the ambition of the board to finance it independent of our available school fund. Should any organization or individual feel a generous impulse to assist in the liquidation of this debt, it will be greatly appreciated.

In conclusion we invite you to visit our schools frequently during the year. Give us your co-operation and we pledge the best efforts of the faculty and the board of trustees for a successful year's work. The term opens September eighth with a week

of institute work. The real school work begins September fifteenth. THE SNYDER SCHOOL BOARD, By Mrs. C. R. Buchanan, Sec.

IMPROVED UNIFORM INTERNATIONAL Sunday School Lesson

Lesson for August 31

JESUS TALKS WITH A SAMARITAN WOMAN

LESSON TEXT—John 4:42. GOLDEN TEXT—"God is a Spirit and they that worship Him must worship Him in spirit and in truth."—John 4:24.

1. The Occasion (vv. 4-6).

The growing popularity of Jesus aroused the envious opposition of the Pharisees, which obliged Him to leave Judea and go into Galilee.

II. The Testimony of Christ to the Samaritans (vv. 7-41).

1. Discloses His Identity to the Woman of Samaria (vv. 7-20). This is a fine example of personal evangelism.

(1) A Favor Asked (vv. 7-9). He tactfully made a request which appealed to the woman's sympathy.

(2) Jesus' Tender Dealing With the Woman (vv. 10-15). He first appealed to her curiosity by declaring, "If thou knowest the gift of God" (v. 10).

(3) The Woman Convinced of Her Sins (vv. 15-19). Jesus succeeded in arousing her interest but she did not really understand Him.

(4) The Problem of Worship Submitted to Christ (vv. 20-24). This she did as soon as she perceived Him to be a prophet.

(5) Discloses His Identity to the Citizens of Sychar (vv. 40, 41). When they heard the testimony of the woman, they invited Jesus to come among them.

III. The Testimony of the Samaritans (vv. 27-42). 1. The Woman of Samaria Witnesses for Christ (vv. 27-39). As soon as she was converted she became an enthusiastic missionary.

2. The Samaritans Witness for Christ (v. 42). They declared, "We know that this is indeed the Christ, the Savior of the World."

ELECTION NOTICE. CITY OF SNYDER, COUNTY OF SCURRY, STATE OF TEXAS.

Whereas, the Aldermen of the City of Snyder, County of Scurry, State of Texas, deems it advisable for the said City to adopt the provisions of 1911, governing street improvements.

Therefore, it is hereby ordered by the Aldermen of said City that an election be held on the 9th day Sept., 1924, at which election the following proposition shall be submitted:

Shall the City of Snyder, County of Scurry, State of Texas, adopt the provisions of Chapter 11, Title 22, of the Revised Statutes of Texas of 1911, governing street improvements.

Said election shall be held at the City Hall, in the City of Snyder, County of Scurry, State of Texas, and the following named persons are hereby appointed managers of said election:

Earnest Taylor, presiding judge; Mrs. O. P. Thrane, assistant judge; T. A. Boren, assistant judge; Mrs. W. R. Bell, clerk; Mrs. W. B. Dane, clerk.

Said election shall be held and the manner of holding said election shall be governed by the laws of the State of Texas regulating general elections and by the provisions of Article 1016 of the Revised Statutes of 1911, and only qualified voters, who are property taxpayers of said city, shall be allowed to vote and all voters desiring to support the proposition shall have printed on their ballot the words:

"For adoption of the provisions of Chapter 11, Title 22, of the Revised Statutes of 1911, governing street improvements."

And those opposed shall have printed on their ballots the words: "Against the adoption of the provision of Chapter 11, Title 22, of the Revised Statutes of 1911, governing street improvements."

A copy of this order signed by the Mayor of the said City shall serve as proper notice of said election and the Mayor is directed to cause notice of said election, one at the place designated for holding said election, and two other notices in two public places in said City, at least thirty days prior to the date of said election.

The Mayor is further authorized and directed to have said notice of election published in some newspaper of general circulation published in said City, which notice shall be published once each week for five weeks, the date of first publication being not less than thirty (30) full days prior to the date of the election.

PERSONALS

E. J. Smith and family left Saturday afternoon for Paint Rock for a week's visit with friends and relatives.

Rev. S. D. Lunsford of Harleton left for his home Saturday. He has just closed two successful meetings in Scurry County, one at Lloyd Mountain, and one at Ennis Creek.

Miles Wallis of Limestone County visited G. R. Taylor and family at Dunn the past week.

Ben Hudgens of Dallas visited M. W. West of Snyder the past week. He left for his home Friday.

Joe Allen of Ennis, Texas, is visiting relatives in the Ennis Creek community.

J. R. Williamson of the Pleasant Hill community was in town Monday. Mr. Williamson complimented the Times-Signal and paid the editor a high compliment by saying: "I certainly like your paper. Just keep on giving us the news."

TO MY FRIENDS.

I wish to thank those who supported me in both elections. But for those who did not see fit to support me to hold no ill will. I assure those who supported me that your support was fully appreciated.

Very truly, FRANK BROWNFIELD.

ATTENTION ROYAL ARCH

Next Saturday night, August 30, will be the stated convocation of Snyder Chapter No. 286 Royal Arch Masons. Let's have a good attendance as some matter of importance will come up at this meeting.

TO MY FRIENDS.

I wish to thank one and all who supported me in both elections. I assure you that I shall do my best to serve the public in the duties of the office and that the trust reposed in me will never be betrayed.

WHEN AUTUMN COMES.

When the days begin to shorten and indications come again of the long evenings that are ahead, it is a good time to think about the lighting system and to decide whether the present lighting system is good enough for the coming winter.

But he should not wait until winter to plan for it. Electric lights mean electric wiring, the same as for a house in the city. An electric plant will require a concrete base for a support and this should be made while the work can be done easily.

Many thousand farmers and their families are declaring that it makes autumn more enjoyable to be able to look forward to winter evenings with plenty of bright electric light in the home instead of the coal oil lamps.

KENT COUNTY ROAD BONDS CARRY.

CLAIRMONT, Aug. 2.—The road bond election held here carried by an overwhelming majority, and guarantees a million dollar road program for the central portion of the county along the Fort Worth-Roswell highway.

The paved road leaving Fort Worth passes through Tarrant, Parker, Palo Pinto, Stephens, Shackelford, Jones, Fisher, Kent and Garza Counties. This is the first highway in running east and west through Fort Worth that has practically completed financing and it is expected that as a result a large travel will use the road as the principal highway between East Texas, Dallas, Fort Worth, North Texas, and Post, Lubbock and the South Plains, and Plainview, Amarillo, the North Plains and East New Mexico.

REV. JAMESON AND FAMILY RETURN.

As one member remarked to the Times-Signal man, Sunday, "It sure looks good to see Brother Jameson back in the pulpit."

Brother Jameson and family returned Saturday, the family from a vacation trip. Rev. Jameson from Donley County where he held a very successful meeting. He reports a big meeting with a number of conversions.

Mrs. Ramage of Slaton returned home Saturday after a visit with the Martin family of the Ennis Creek community.

GEORGE LINDSEY GETS SECOND BALE.

George Lindsey of the Ira community brought to town Friday the second bale of the season and thereby landed the second prize, \$50.00, awarded by Snyder's progressive business and professional men. The bale weighed 441 pounds and was ginned at the Cleve Newman gin at Ira. Ira is located in the heart of Scurry County's big oil field as well as in one of the best cotton sections in the county.

WHOLE FAMILY ENDORSE TANLAC AS BEST TONIC

"Tanlac has been our constant friend for years, and my wife and myself and eight children are all enjoying wonderful health, largely due to this medicine," is the remarkable statement of Harry H. Pistole, 310 Archer St., Waco, Texas.

"In my own case Tanlac has done what seemed to be impossible. When I began taking it my stomach was in such a bad fix that I had been flat of my back in bed and under treatment for 18 months and felt that my time was about up.

"After my case had been given up as hopeless and I thought I was beyond redemption a relative put me on to Tanlac, and the result is, I gained 20 pounds, and enjoy as good health as anybody could wish.

"My wife was all broken down in

health. But now she weighs 155 pounds, and is strong and well and I am giving Tanlac credit for it. We give Tanlac to the children to tone them up and make them grow, and nobody ever had a healthier set of children than we have.

"Tanlac is certainly the greatest medicine on earth for anyone whose life is wrecked by bad health. We sure do have a great deal to praise Tanlac for at my house."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills, for constipation. Made and recommended by the manufacturers of Tanlac.

Your "Selective-Ringing" Telephone Rings Only for You!

Every "selective-ringing" telephone in Dallas has a "one-party-line" bell ringing service. This means that your bell rings only when your number is wanted.

The subscriber who shares your line has no means of knowing when you are being called, and you are not disturbed by the ringing of HIS bell. Another important feature is that your number appears in the directory with nothing to indicate that it is a "selective-ringing" telephone.

In fact, unless you use your telephone much more frequently than the average householder, the only substantial difference you will note between the two forms of service will be in the size of your monthly bill. By changing over your residence telephone to a "selective-ringing" telephone you save 25 per cent a month.

What about a clean-up campaign for Snyder? We could have the weeds cut, to say the least.

We see where a moving bog is out to submerge the city of Cork. It occurs to this Irishman that "Cork" ought to be able to stay on top.

The weather man had a hard time finding us located, but he found us at last. The trouble really was, he had his headquarters so far away, he was all rained out before he got here.

An exchange says that it will be several days before the complete results of the election are known. Well, I should ejaculate! They are still voting for Ferguson in Duval and Comal Counties.

The Anson Motor Company, Ford dealers, used eight full pages in the Anson Enterprise last week on account of the formal opening and housewarming of the company's new building. The building is 80x140 feet.

Good evening, Planet Mars. We'll speak to you since you have been neighborly enough to come up only thirty-six million four hundred thousand miles from the earth today. And say, Mars, how bad did Ma beat Felix in your country?

They say Ma Ferguson is a stay-at-home sort of woman. That may be some improvement over Pat Neff, who didn't stay at home long enough to keep that text book commission from wasting \$3,000,000 of our public school money.

Amarillo merchants have inaugurated a "Misspelled Word Contest." It goes without saying that if Amarillo has an editor with an Oliver as a writer, the rest of the contestants find as well take out. There are two Olivars in the Times-Signal office.

Health officers of Oklahoma are raising a howl because they claim that Texas mosquitoes have crossed the line into the Indian state. My goodness! Howling won't do any good. Swat 'em; that way we do Oklahoma bootleggers when they cross over into Texas.

When our waterworks system has been completed and our sewer system extended and the square and streets shall have been paved, then Snyder will no longer be in the country town class, but in the class with real cities. And that's where it is headed. Then watch us grow.

At Bremerhaven, Germany, recently canary birds were forced to listen to the music of nightingales reproduced from records played on a phonograph. That was fine, but to compare a canary to listen to some records of so-called modern human singers ought to warrant the arrest of the birds' captors on the ground of cruelty to animals.

Kansas editor says that sudan in his part of the country is so fast and grows so fast that cattle find their way out of the fields. Some editor then asks: "What do you think of that?" Well, candidly we think it's a lie. But we have seen corn grow so rank in the Colorado and Brazos bottoms that light-bugs kept their lights burning away, and have seen pumpkin vines whose bottoms grow so fast that they actually dragged the little plants to death. We also heard a potato grower say that he stuck a shovel into a hill of potatoes and just half a bushel ran out before he could stop up the hole. Come to Texas.

**AT THE NOVEMBER BANQUET.**

"Ma, how's that crowd?"  
"Pretty tough, son."  
"Well, pass it, I'll try it, anyhow."

**CAMPAIGN THUNDER.**

It is estimated the hand shaking from one election would milk every cow in the United States twice.—Amarillo News.

Yes, and if every lie told were put on one sheet of paper it would cover three-fourths of the state of Texas.

**AGAIN IN HARNESS.**

J. L. Martin, a former editor of the Citizen, whom many of our readers will remember, has bought the Scurry County Times, located at

Snyder, Texas, and is again doing editorial work. Needless to say to those who know "Jim" that he will be a booster for the Plains Country as his section of the state is known. Snyder, we believe, is a growing city in a prosperous section of the state and Jim's opportunity there will be unlimited.—El Campo Citizen.

**MAYBE NOT.**

Editor Ben Smith of the Slaton Radiogram, will surely throw a fit when he reads that a Massachusetts great-grandmother, 82 years of age, has bobbed her hair.—Plainview News.

Maybe not, Bro. Adams. Ben has had a change of heart. Just before he left for Slaton he discarded his old wig, at the same time declaring, "never again." Of course he looked more like Paw Perkins in "Polly and Her Pals" that the Plains famous editorial writer, but in a few months he would look just an unnatural to Slatonites with a wig as he looked to Snyderites without one. It all depends on what one gets used to.

The Scurry County Times of Snyder has been sold by Ben F. Smith to J. L. Martin of Roysie City, Texas, who has already assumed charge of that excellent publication. Mr. Martin formerly owned the Foard County News, the Roysie City News-Times, and the Mexia Daily News, and is a man of wide experience in the journalistic field. Of course, it goes beyond saying here, that he will make a success of the Scurry County Times. Snyder is a good town, with live, progressive merchants and other business enterprises, and The Record believes that J. L. Martin and Snyder will hit it off fine together. We have been informed that Ben Smith will engage in the newspaper business elsewhere.—Colorado Record.

**NOT THE ONLY ONE.**

The Tribune-Chief is somewhat up against it this week. Two people quit us last Saturday, and a new man from Dallas writes that he won't be able to start work this week as promised but will come later. Hence numerous shortcomings in this issue should be overlooked. Two men can not do the work of four or five.—Quanah Tribune-Chief.

Harry Koch and his Tribune-Chief are not the only ones that can boast of such luck. The Times-Signal pressman quit to enter college, and his successor, a youngster out of Fort Worth, worked three days and resigned right in the middle of the week. We have not so much as heard from his successor. But the Tribune-Chief man and the Times-Signal man have had many similar experiences during their course of thirty-odd years in the fascinating game of running a country paper.

**FREAK ELECTION WAGER.**

After the election returns have been tallied and the winner in the race between "Ma" and Felix declared, Sweetwater may witness the parade of a sober and dignified citizen through the streets, without the customary covering for the feet. For a "barefoot bet" was made between a woman supporting the Ku Klux Klan and a man who voted for Mrs. Ferguson Saturday.

According to the terms of the bet, the loser was to walk on Locust Street to the T-P tracks, go a block south, and then walk to the Hotel Wright.

It was understood that the "big middle of the main drag" was to be reserved for the parade.

It was reported late Saturday by the Anti that his woman opponent had backed out. He said that he offered to pay her fine if local custodians of the peace objected to her barefooted pilgrimage. The report was not confirmed by the woman, however, and Sweetwater may yet be treated to the unusual promenade by one of the betters.—Sweetwater Reporter.

Rufus Johnson of Coleman is visiting his sister, Mrs. J. G. Lockhart of this city.

**INSTITUTE OPENS SEPT. 8TH.**

The opening of the Institute will be on September 8th, instead of September 1st, as previously announced, the school board having seen fit to change the date of opening. Regular school work will begin September 15th instead of September 8th, as previously announced. Patrons should take note of these changes in order to prevent confusion or anything that might militate against the best interest of both pupil and school.

**THE IRA NEWS.**

The Methodist and Presbyterian meeting began here Sunday. Rev. Brown from Dunn and Rev. Bryant from Snyder are holding the meeting.

There was a large crowd at the Baptist Sunday School Sunday, there being eighty-four present. Our Sunday School is still growing of which we are very proud. We had seven new members Sunday.

Miss Mary Hailey came home from Ivan Saturday where she has been visiting her sister for the past three weeks.

Miss Lola Gilbreath who is going to school in Abilene was here last week visiting her two sisters, Mrs. Sam and Gip Goldsmith. She returned to Abilene Sunday night.

Little Miss Claudine Miller from Big Spring is visiting her grandparents, Mr. and Mrs. P. A. Miller.

Mr. and Mrs. Owen Miller are at Glen Rose this week. Both of them are taking treatment down there. Mr. and Mrs. Miller both say they are improving of which we are all very glad.

Everyone is busy now getting ready to go to picking cotton. There has already been some cotton ginned.

Mr. and Mrs. Albert Williams and Mr. and Mrs. Carl Williams came in from Tahoka last Saturday.

G. W. Angel came in from Rising Star last Wednesday.

Mr. G. B. Wright from California is visiting his son, George Wright, and his daughter, Mrs. E. E. Carlile. Mr. and Mrs. Homer Lewis moved to Snyder this week.

**CHINA GROVE.**

We are still looking for rain here. Crops are badly in need of rain.

The election seems to be the talk of the day.

Some of the China folks attended the Ferguson talk at Rotan last Thursday.

Mr. Floyd Market and wife have returned home from a visit on the Plains.

Mr. and Mrs. Matt Allen are on an extended trip on the Plains and Mexico.

Walt Dean and a truck load of folks were returning home from Snyder Saturday night. The driver became blinded by a battery light and drove into a ditch. No one was hurt; car slightly damaged.

Miss Mary Wilson is at home from Abilene.

Mr. and Mrs. J. M. Griffin of Union spent last Monday at Mr. Deans.

Miss Arvedia Slaton spent Sunday evening with Misses Shoemaker.

Howard Hooper and a Miss Richard of this community were married at Roscoe last Thursday.

Miss Annie Price is visiting her uncle, Mr. Andy Price at Hermleigh. —Happy.

**CANYON NEWS.**

Miss Jewel McGaha, visited her niece, Miss Dixie Marx Sunday and they attended Church at Bison.

Mr. and Mrs. Henderson and little daughter Carolyn Maxine spent last week end with Mrs. Henderson's parents, Mr. and Mrs. Bob Millhollen.

Frank Floyd visited his friend Herbert Carnes Saturday night.

Miss Timmie Golden spent last Sunday with her friend, Miss Faye Taylor.

Miss Francis Elizabeth Hays of Union visited her uncle, Mr. Hunter Hays and family Sunday.

Mr. and Mrs. J. S. Golden and daughter, Juanita are visiting relatives at Canyon City and Amarillo.

Mr. and Mrs. C. C. Marr spent last Sunday after noon with Mr. and Mrs. A. J. Carnes.

Mr. Ward Golden visited at the home of Mr. and Mrs. Hunter Hays Sunday.

Mr. and Mrs. J. B. Taylor and daughters, Clara and Evelyn, and Vernon Carnes visited at the home of Mr. Burroughs Saturday evening. They had lots of ice cream and a very pleasant evening.

Mr. and Mrs. Eugene Kruse spent Saturday night and Sunday with Mrs. Kruse's parents, Mr. and Mrs. A. J. Carnes. —"Just Me."

**DERMOTT NEWS**

Miss Rhoda Martin returned home Sunday from Denton where she has been attending school. We are glad to have her back in our community again.

Theron Scrivner of Garden, California is visiting relatives at this place.

Mr. and Mrs. Jim Beach and family of Hamilton county and Miss Thero Beach of Colorado visited relatives in Dermott last week.

Mr. and Mrs. Herman Rankin and little daughter, Mozelle of Holiday, visited relatives at this place last week.

Miss Alta Scrivner of Burkburnett is spending this week with her grandmother, Mrs. Warren Scrivner.

A party last Saturday night at the home of Mr. and Mrs. Lem Hogen's was enjoyed by all present.

Mr. R. T. Carroll has purchased himself a brand new Ford Coupe. Bro. Jameson of Snyder will preach at this place the fourth Sunday in each month. We will be glad to have him with us.

A good shower of rain fell in this

part of the county Monday night. Mr. and Mrs. Lee Scrivner and daughter of Tatum, New Mexico, were here the past week visiting relatives and friends. They returned to their home, Monday.

An eighteen day singing school will start at Dermott, September 2. Oscar Rhea of Lamesa was visiting relatives the first of the week.

Milton West left the last of the past week for Hill county to spend a vacation with relatives and old time friends.

Mrs. Galaway from Merkel visited with her brother, George Odoms the past week.

Mrs. Will Wagon and daughter and two sons are visiting with her mother at Baird.

We are all glad to hear that Rev. Tate is improving and hope that he will be able to preach to us again in the near future.

Mr. J. Wright Moorar is building a large tank on his place near here. He is intending to have plenty of stock water.

M. K. Regon made a business trip to Sweetwater Saturday.

Ernest Jasep and several others made a trip to the Plains country the first of the week and on their return they report having seen good crops.

Crops are looking very well in this part of the county.

Grandpa McBride of China Grove spent the past week with his son, O. McBride and family.

**—LITTLE SUNSHINE.**

**POLAR NOTES**

The farmers are gathering their feed, which is on an average with other parts of the country.

Mr. George Sellers and wife, Will Clanton and wife, Neil Nusom, Ben Peterson and Charley Anderson have just returned from a trip in South Texas. They tell a good squirrel yarn, having killed 41 in one day.

The Methodist meeting closed Sunday evening with some additions and good interest. The visitors from Snyder were J. M. Hendryx and wife, Mrs. Cruickshanks and Miss Neally Squyres. There were also a number from Dermott.

Dr. Sparks of Snyder will conduct a series of meetings here, commencing the fifth Sunday. Everybody cordially invited.

Mr. W. T. Vick, mother, wife and little daughter visited at the home of Uncle Billie Carlisle Sunday evening and were treated to some fine Kent county grapes, home-grown and as good as any California grapes.

Polar has a fine singing class. Mr. Burton Moore and Ernest Peterson are leaders with Mrs. Burton Moore at the piano. The class numbers about twenty.

Mrs. Ida M. Vick leaves Thursday for Brownwood to visit her son, Emmett Vick and family.

We are glad to see the little son of Alvin Elkins, who has been real sick, up again.

Mrs. Irene Grantham and daughter, Francis Elkins, returned to their home at Justiceburg, Sunday, after a two weeks' visit here.

Mr. Will Lowry and family of Lorraine are visiting Mrs. Lowry's mother, Mrs. Tom Davis and other relatives in this neighborhood.

Mr. Lee Scrivner, wife and daughter of Tatum, New Mexico, are here visiting and looking after business interests.

Mr. W. H. Shuler, wife and two sons were up from Bethel community visiting with friends and attending the meeting.

**BRIDE HONORED WITH SHOWER.**

Misses Janie Martin of Snyder and Willie Fern Curry of Crosbyton, honored Miss Lillian Fisk, bride-to-be, with a miscellaneous shower at the home of Mr. and Mrs. Earl Fish in West Snyder, Monday afternoon, Aug. 25, at 4 o'clock.

The home was beautifully and artistically decorated with a color scheme of pink and white; while lovely cut flowers, with their dainty beauty, added to the "bride-like" appearance of the home. The bride's

throne was a beautiful bower of pink and white, from which the lovely bride reigned as queen.

As the guests entered they were requested to register and write their favorite recipe in the bride's book. Then Miss Ruby Forrester of Canyon served them with a delicious beverage of fruit punch. After all the guests were seated the dainty little bride entered, wearing a beautiful white canton dress over pink; her only ornaments were a strand of beautiful pearls, and a diamond ring, gifts of the groom.

Then Mrs. Walla Fish revealed the secrets of bride's past, which was greatly enjoyed by all; after which Miss Janie Martin explained how the present event had come to pass. Then the veil of mystery was lifted by Miss Elaine Rosser, and the guests were permitted to look into the future of the bride. Miss Willie Fern Curry gave a very beautiful toast to the bride, which was followed by a very consoling toast by Mrs. R. D. English to the girls left behind.

While everyone waited with a breathless expectancy, Misses Martin and Curry entered carrying a beautiful cedar chest, which seemed to be very heavy and put it at the feet of the bride. The cedar chest, which was a most wonderful gift, held many lovely and beautiful gifts which were shown to all the friends. Following this many congratulations and best wishes were given to the bride.

Miss Janie Martin wore a dainty dress of peach veil, trimmed in cream lace, her only ornament was a beau-

tiful strand of pearls. Miss Ruby Forrester wore a russet orange organ dress trimmed in black velvet ribbon. Miss Willie Fern Curry's dress was a beautiful orchid veil, abundantly trimmed in cream lace and gay velvet ribbons.

**DICK PETERSON TO WRESTLE IN SNYDER AGAIN.**

Dick Peterson, who wrestled Eddie Sorey here a few weeks ago, winning two falls out of three will wrestle Jake Whitefield at the Snyder Club of Physical Culture Friday night, at 8:30.

The match before was carried out from start to finish with the best of behavior and attention and numbers of those present expressed a de-

sire to see Mr. Peterson wrestle again so we have picked another good man to wrestle him. Mr. Whitefield of Laredo and hope that it will be a drawing card and that the house shall be filled.

Mr. Peterson has wrestled some good men, Calapasha, Pendleton, Olsen, Sorey and others. He got his first training under Pat Brown, also trained under Farmer Burns and Goch.

Mr. Peterson expects to move to Snyder to make his home so come see the match and meet him.

Mr. and Mrs. Horace Cotton of Snyder visited Mrs. Maggie West at Akeley this week. Mrs. West is seriously ill at the home of Henry Frambrough.

# DAIRY

## HEALTH IS MENACED BY DIRT IN MILK

The cook is as clean as the kitchen towel, and the dairyman is as clean as the dirtiest thing his milk touches, is the opinion of Ben F. Eldredge, dairy specialist of the extension service of the Utah Agricultural college. Unless everything, from the barn, cow and milker to the brush used on the pails, is perfectly clean, the milk is likely to become contaminated with harmful bacteria of filth. One sour rag used in washing a bucket will make an entire milking dangerous. There is no higher art than the production of wholesome human food, Mr. Eldredge believes, and he declares that, if dealers who supply even a few families with milk fully realized the responsibility they bear toward the health of their patrons, they would redouble even their greatest care.

The best way to produce clean milk is to keep dirt out of it, Mr. Eldredge says. No amount of straining or clarifying can ever purify milk once infected with dirt or germs. This fact is particularly in evidence in the milk obtained from the single cow who supplies a few neighborhood families. The milk cannot be pasteurized, and too often a tell-tale residue is a common thing in the bottom of the bottle or bucket.

For preventing milk from ever becoming dirty, sunlight and steam are the best possible cleansers. Germs and harmful bacteria can live only a little time, and cannot multiply in the dry sunshine. Vessels properly scalded with steam can never infect milk. A clean dairy barn, dry bedding, a clean, healthy cow, a clean, healthy milker and sterilized utensils are what every producer of milk owes to his family and the community.

## Iowa College Outlines Dairying Fundamentals

Following an analysis of the work of cow testing associations in Iowa, dairy experts at Iowa state college emphasize the following points as deserving of consideration as a guide to increased profits from the dairy cow:

1. The production of feeds best suited to dairying, especially alfalfa hay.
2. The elimination of the scrub or grade sire.
3. The use of pure bred dairy sires from good producing ancestry.
4. The weeding out of unprofitable cows through cow testing associations.
5. Rational feeding.
6. Giving the cows the attention that their importance demands.
7. Regularity of milking and feeding.
8. Providing a succulent feed throughout the year.
9. Breeding cows to freshen in the fall of the year except when one is retelling milk.
10. Supplementing poor pastures in late summer with either summerilage or soiling crops.

## Phosphorus Is Required in Ration of Dairy Cow

When the forage fed to cattle, sheep and horses consists of crops grown on acid soils or is of the non-legume type, the lime-carrying materials should be fed at the rate of three to four pounds to 100 pounds of grain. Even when legumes like alfalfa, clover and soybeans are fed the addition of lime-containing minerals will do no harm and may do a great deal of good.

The feeding of wheat bran and middlings provides phosphorus which is very necessary in the ration of a dairy cow. While it is true that sodium phosphate added to the ration of a dairy cow while she was dry increased the milk flow in the following period, further experiments are deemed advisable to prove that phosphate feeding can be generally practiced under diverse feeding systems with profit.

## Dairy Notes

For the dairy herd soy bean hay is the best annual hay crop that can be grown and it makes a very acceptable substitute for clover or alfalfa when these hays are not at hand.

Oat and pea hay well cured makes very desirable food for dairy cows or for sheep. It is also satisfactory as horse feed, though rather soft for horses that are required to do hard work.

Cows receiving all the alfalfa they care to consume are getting enough protein to permit them to do good work. On good quality alfalfa hay, cows have produced more than 300 pounds of fat in a year.

Every cow owner is indebted to those enterprising men who have worked hard to broaden the market for dairy products.

Corn silage and alfalfa hay are the best roughages for dairy cattle, while corn fodder and timothy hay have proved the poorest.

For the dairyman who has little or no permanent pasture, Sudan grass may well be used as a pasture crop immediately following the oat pasture.

## "AH, GWAN!"

When W. C. Wenninger and R. A. Blackard left Snyder several days ago on a fishing trip over in Coleman, McCullough, Concho, Brown, San Saba and every other county "till we catch 'em," returned looking about like the Robertson bunch looked when the election returns began to come in. At first they put up all kinds of excuses and alibis but now whenever one of their good friends ask, "Did you have any luck?" the boys reply, "Ah, gwan!" They won't confess to it that they got lots of bites, because to get "bites" and not catch 'em, would be a reflection on their reputation as expert fishermen, but the truth is, they got "bites" all right, plenty of 'em—mosquito bites, besides, they really did catch 'em, bad colds, which they have not yet got entirely rid of.

Of course our readers can read between lines and find out that the Times-Signal man is sore, disappointed, or something. The truth is, they promised us a channel cat long as our arm, and—oh, well—what's the use?

## WEST TEXAS FIRST WOMAN SHERIFF

A mother of the good old-fashioned kind faces an unusual situation in Roby. After 33 years of married life, in which her chief concern has been the rearing of her eight children, she has been appointed sheriff of Fisher County, and will fulfill the duties of the office until the unexpired term of her husband ends.

The mother is Mrs. Baxter Lambert. Her husband, whose eighth year as sheriff of Fisher county suddenly terminated recently with his death, was buried at noon Saturday, and the same afternoon Mrs. Lambert was appointed sheriff by the Fisher county commissioners.

"Everybody thought it best that I take the appointment," said Mrs. Lambert, "and I did. I have never had any experience in business matters, and was never around the office much when Mr. Lambert was sheriff, but I know that I can do the work or have it done."

The first woman sheriff in West Texas, frail and practically an invalid for 15 years, smiled as she made the declaration that she would "do it or have it done." A similar smile and determination made Baxter Lambert a popular sheriff and kept him in office for four terms, until he was defeated at the July primary.—Sweetwater Reporter.

## WHO DREW MOOAR'S DRAW?

In commenting on the article that appeared in the Times-Signal week before last, entitled, "Who Dug Deep Creek" the Rotan Advance contained the following: "We wonder if Deep Creek has any connection with Moor's Draw. We have heard of Moor's Draw for years but never learned just what he did draw. He might have drawn a bead on an Indian about that time but none has so far produced the bead to prove it. Some think it probable that Deep Creek was dug to get the mud to build the Double Mountains."

## ELECTRICITY BRINGS NEW CO FORTS TO FARM HOUSES.

"Good lighting not only safe guards the eyes, but promotes cleanliness and sanitation, and makes the home bright and cheerful, thereby adding to the comfort and satisfaction of living," says E. W. Lehman, head of the farm mechanics department of the college of Agriculture University of Illinois.

Speaking of the conditions on the farm, Mr. Lehman says that "there has been an especially marked increase in the use of machinery and mechanical power during the last twenty-five years," and yet just as it is true that no other industry uses as much power as farming, so also it is true that no industry is as wasteful of machines and power as the farmer.

"While the use of power on machinery has played a big part in improving the farm home, they have made water under pressure possible the greatest labor saver in the farm home and a boon to every farm woman.

"With electric power, adequate home lighting is becoming possible. The time required to churn, separate the cream, wash the clothes, pump the water and clean the house, can be cut in half and practically no hard labor is involved where electric power is used."

R. C. Grantham, the Avery sales man, left Friday night for Houston on business. He will probably be gone several days, as he went there to relieve a salesman who is seriously ill.

## Got the Result

Mr. Charles Moore, 2415 Eakin St., Dallas, well-known Texas citizen, says Karnak, the sensational new medicine, has freed him of two years of acute suffering from stomach trouble. "Indigestion and bloating had me so I couldn't draw a deep breath," says Mr. Moore, "and I was simply afraid to eat. I had to be always taking strong purgatives, too, and was so weak I could hardly get around. "Karnak has fixed me up strong and well and for the first time in two years I eat anything I want. Karnak is a great medicine."
