AND SNYDER SIGNAL

VOLUME XXXVIII

SNYDER, TEXAS, THURSDAY, JANUARY 29, 1925

Number 34

## MRS. GRACE WILSON.

One of the saddest funerals that was ever held at Fluvanna was conducted by Rev. Christian of Snyder on last Monday evening at 2:30 p. m. Grace was the daughter of Mr. and Mrs. E. L. Sewalt. She joined the Christian Church at the age of 14 years and had lived a faithful Christian life since.

Mrs. Wilson had been married 24 years. She leaves her husband and eight children to mourn her loss, besides her father, mother, three brothers, two sisters and a number of other relatives and friends.

The news of Mrs. Wilson's death came as a shock to many of us who did not even know she had been carried to Lubbock, Texas, for an operation.

To the husband whose heart is as heavy as lead in this hour of misfortune, my prayer is that you may be wonderfully sustained by Him who hath said, "Let not your heart be troubled, neither let it be afraid." While your heart is heavy and you feel quite deserted, yet we can be much comforted in remembering that "He knoweth our frame," and is ever mindful of us. May the Father of Mercies give you the rich consolation of His grace and preserve and strengthen you for your family.

To the children we can only say that you have lost a dear, sweet, loving mother. I know too well that words cannot comfort you, that she was the very heart of kindness; but you may be assured of our deep sympathy with you in this time of great sorrow, and may you have comfort in the presence of Him who hath said, "I will not leave you destitute."

To the other loved ones we know not how to comfort you in this bitter affliction which has befallen you. We always entertained the very highest regards for her. We understand not the divine method of doing things but commend you to Him who hath said, "There shall be no more death, neither sorrow."—A Friend.

## OLD SNYDER CITIZEN DIES.

E. B. Hull, assistant cashier of the Texas Bank and Trust Company, has been at the bedside of his father for several days. Mr. Hull has been in ill health for some time it is reported. Several Sweetwater Legionnaires, including George McKnight, R. D. Cox, Gus Farrar, Roy Scudday, Jess Robertson, and other Sweetwater folks attended.—Sweetwater Reporter.

The W. M. S. met Monday afternoon, Jan. 26 at the church. Mrs. Stokes led the devotional exercises. The song "What a Friend We Have in Jesus" made the Scripture lesson, John XV, more beautiful, bringing out the thought that Jesus is a friend to all. Mrs. Hardy led the prayer. Mrs. Lemmons then presented some very interesting facts concerning the history of the Missionary Society, from Female Cent. Societies to a World Sisterhood.

The closing prayer that they may all be one was led by Mrs. Davidson.

## ROSCOE BOY KILLED.

W. H. Rogers and son, Harry, were called to Loraine Monday to attend the funeral of David Anderson, aged seventeen years, son of Mr. and Mrs. A. E. Anderson of the Roscoe community and a nephew of Mrs. W. H. Rogers of this city.

He met his death late Sunday afternoon, Jan. 18, due to the accidental discharge of a shotgun, while hunting. He was dead when found, and the marks showed that he stumbled and fell, and the load of shot entered his side. His parents resided four miles east of Roscoe but he has made his home in Loraine for several years and was loved and esteemed by a wide circle of friends. Funeral services were conducted at Loraine, and the remains laid to rest in the Loraine cemetery.—Big Spring Herald.

## LOVELY WEDDING ON WEDNESDAY EVENING.

On Wednesday afternoon at 2:30 o'clock the marriage of Mr. Sidney A. Johnson of Snyder, Texas, and Miss Clara Mae Beall of Ladonia was solemnized by the Rev. Carter at the home of the bride's parents, Mr. and Mrs. J. A. Beall. The double ring ceremony was used.

The bride wore a frock of orchid canton with blue trimming. Her head dress was a silver bandeau. She carried a bouquet of bride's roses and valley lilies.

N. S. Crenshaw returned last Friday from San Antonio where he has been taking a course in pharmacy.

## THE TIMES-SIGNAL SIGNALS

"Kid" McCoy pleaded insanity as a defense in his murder trial. The fact that he has been married eight times is proof enough.

A Baltimore judge refused to annul a marriage on the grounds that the bridegroom was stupid. If that was the law here a lot of Snyder women could never get a divorce.

No reports are coming from Maine of guides being shot by hunters. Maybe all of them have been killed off.

The country had a record corn crop the past year. That's good news for the bottle makers.

We saw an example of poor judgment the other day. We noticed a Snyder woman buying a pocketbook on credit.

One thing that was not affected by the war was the railroad sandwich, which had everything to gain and nothing to lose.

With mother in politics and the constitution forbidding child labor, it looks like dad is going to have to go to work.

Scientists say of all colors green is the most quieting on the nerves. Here in Snyder the "long green" is considered the best remedy.

To make the nation dry is a big undertaking. It requires the serv-

ices of a good many undertakers.

It's a good thing that this country tells the heathens about civilization, instead of trying to show them.

We heard a Snyder citizen say yesterday that knocking indicates one of two things—carbon in the engine or envy.

Cross-word puzzles have been of some value. They have taught a lot of people that Noah Webster didn't write the dictionary.

Invention has provided a way by which the blind may "see" moving pictures. And yet there are those who say the day of miracles is past.

The trouble with the average Snyder man who casts his bread on the water is that he expects it to come back in the form of cake.

So far as we've been able to learn our next vice-president didn't swear off swearing on New Year's.

What the Congressional Record needs to brighten it up is a good comic strip and a cross-word puzzle.

Our advice to the young men and maidens of Snyder is before considering that two can live as cheaply as one is to find out which one.

Motor cars will be finished in brighter colors this season, according to a trade magazine. It will be much nicer to be hit by a pretty one.

## OLD HERMLEIGH CITIZEN DIES.

E. C. Adams, one of Hermleigh's oldest and best known citizens, died in that city January 22. Deceased was born in Georgia, August 19, 1852 and was, therefore, past 72. He had been a resident of Hermleigh for a number of years and was justice of the peace of that precinct at the time of his death. He was buried at Hermleigh January 22.

## MRS. ODESSA FARGUSON.

Mrs. Odessa Farguson died at Hermleigh January 15, of cancer of the stomach. Deceased was born in Alabama June 12, 1884. She was buried at Hermleigh January 16.

To date there have been 2,200 motor car license issued in Scurry county. It is thought that the total number will exceed the number issued last year.

## MISCELLANEOUS SHOWER IN HONOR OF MRS. SAM WILLIAMS.

Mrs. Sam Williams (nee Miss Merle Johnston) was complimented with a miscellaneous shower given by relatives and friends Saturday afternoon from 3 to 4 o'clock, at the home of Elizabeth Smith, which proved to be one of the most enjoyable occasions of the season. The living room and dining room was beautifully decorated in pink and white with pot plants as a background. In the center of the dining room was erected a throne decorated from the chandelier were streamers of pink and white going to the four corners of the room, with the soft light made a beautiful effect. As the guests arrived they were met at the door by Miss Lois Johnston, who escorted them to the register. Delicious punch was served by Orene McMillen, Ruby Sparks and Helen Boren. Miss Mary Francis Hamlett rendered music at the Victrola. After the guests had arrived Mrs. W. R. Faizer and Miss Bess Johnston ushered in the bride, the occasion being a complete surprise. The French doors were thrown open and she was seated on the throne. Immediately Mrs. Johnnie Green gave a toast to the bride and Miss Gladyds Boren to the girls left behind. The little fairies (Coleman Smith, Eula Pearl Furguson and Mary Elizabeth Brown) came bringing in a large basket containing many beautiful and useful presents.

Those taking part in the shower were: Mrs. D. P. Lane, Mrs. A. D. Dodson, Mrs. H. B. Winston, Mrs.

A. Johnston, Mrs. H. M. Blackard, Mrs. W. B. Stanfield, Mrs. Gertie Stanfield Smith, Mrs. Porter King, Mrs. Earl Brown, Mrs. J. H. Hamlett, Mr. and Mrs. I. C. Gertrude Short, who enacts the role of "Sue Royce" in the romantic feature, "Barbara Frietche," featuring Florence Vidor in the title role, is another screen player whose growing success may be traced to experience on the legitimate stage. Born in Cincinnati in 1901, Miss Short had her first stage experience when she was only five years old with Nance O'Neil in "Golden Pleece."

Subsequently she was with Thomas Jefferson in vaudeville and Mary Mannering in stock. She began her silver sheet work with Edison productions and has appeared in Vitagraph, Universal, Paramount, Robertson-Cole and Metro productions for a number of years. "Barbara Frietche," admittedly one of the greatest romances of all time, will be shown at the Cozy Theatre next Monday.

## SMITH BROTHERS GET PAVING CONTRACT.

Sanders performed the ceremony which united in marriage Mr. Willie Bearden and Miss Alma Mae Sitton, a well known and popular young couple of the Turner community west of town. The bride, a young lady of exceptional attractiveness and charm, is the daughter of Mr. and Mrs. R. L. Sitton. The groom, son of Mr. and Mrs. C. C. Bearden, is a young man of highest character and enviable reputation.

The happy couple will leave shortly for Wortham, where they plan to make their home. They are followed by the sincerest wishes of their many friends for a future of happiness and success.

## RENEWS FOR SEVEN COPIES.

T. J. Broxson called at the Times-Signal office Thursday morning and renewed for 7 copies of the Times-Signal. Our modesty prevents us from saying what Mr. Broxson said about his local paper, but judging from his actions, he must be liking it pretty well. Just suppose we had a hundred men who thought that much of his home paper?

## HIGGINBOTHAMS ENLARGING WAREHOUSE.

The Higginbotham Company of this city is enlarging its warehouse on West Bridge Street. The addition extends the full length of the original warehouse and will be used principally to house the large stock of farm implements carried by this well known and popular firm.

## REEL STAR IN REAL DANGER WHEN DIRECTOR GETS REALISM.

Superb horsemanship alone made possible one of the most beautiful scenes in Thomas Meighan's latest picture, "The Alaskan."

Under the direction of Herbert Brenon, who produced this James Oliver Curwood story for Paramount, Meighan posed on a narrow point of cliff. Horse and man were silhouetted against the sky. Below the crumbling ledge on which they stood was a sheer declivity of more than one thousand feet. In the background was the finest range of snow-clad peaks to be found in the entire Alaskan peninsula.

Following the "shot," Meighan turned slowly, mounted his horse and rode off the ledge. The dangerous moment off his feet into the saddle. The horse, already nervous from gazing into the void, reared, sending a shower of stones over the edge. Urged by hand and voice, the animal dropped and then sprang away from the brink of the cliff.

While this scene, so beautiful in its effect, but so dangerous in reality, was being filmed, Estelle Taylor, John Sainpolis, Charles Ogle, Frank Campeau and Anna May Wong, who head the supporting cast watched Meighan from an adjoining ledge on the cliff where the cameras were perched.

"The Alaskan" will be the feature film at the Cozy Theatre for 1 day, beginning next Thursday.

Hon. W. Burton, mayor of Fort Worth, and president of the Burton-Lingo Lumber Company, was here last Thursday in the interest of the Burton-Lingo lumber yard at this place. Mr. Burton said that he was well pleased with the outlook for a good business in Snyder during 1925.

## S. T. DAUGHERTY KILLS ELZA SMITH.

"I've shot a man and I think I've killed him," said S. T. Daugherty to a Scurry county peace officer Monday morning. The man Mr. Daugherty had reference to was Elza P. Smith, son of Mr. and Mrs. Will Smith who live over the line in Borden county.

Family troubles are said to have brought on the fight that culminated in the killing. Mr. Daugherty was moving from a farm he had been renting in the community where Mr. Smith lived to Snyder, and it seems that he had gone back to the farm for some of his tools or household goods, and while there he saw Mr. Smith in the field heading maize. It is not known what words passed between the two men but a fight ensued, and Smith was killed as above stated. Mr. Smith was taken to his home and a physician summoned. It was ascertained that at least four of the five shots had taken effect, besides there were a number of bad knife wounds on his body. He lived till about 2 o'clock Tuesday morning. His remains were buried in the Snyder cemetery at 11 o'clock Wednesday, Rev. Davidson of the Methodist church conducting the services.

Both Daugherty and Smith are from excellent families and the sad tragedy is deeply deplored by their many friends in Scurry and Borden counties.

Major Cullom and Captain Bridges were here this week buying army horses.

POVERTY.

Poverty isn't what it used to be. There was a time when everything we call culture seemed to belong to the rich—they alone found joy in living, and the poor were like so many cattle. There were books in those days, but the poor could not afford them. Now printed wisdom may be had for a few pennies. Yesterday only the rich could afford pictures on their walls; today every home in America is hung with beautiful ones, and in our cities big art galleries are maintained by the poor. The singers and music makers of yesterday sang and played only for the rich. Today almost every home can boast a phonograph, a piano, a radio set, or all three of them.

There was a time, and older citizens of Snyder can remember it, when the poor almost leaped into the ditch to escape being run down by the fine horses owned and driven by the rich. Now decrepit flivvers pass the millionaire's twin-six auto on a hill and think nothing about it. Nor is it impossible nowadays for a poor man to leave an estate for his loved ones. When death finds him without either lands or houses or cash in bank, his survivors only have to sign a receipt to get a fortune from an insurance company. Insurance is one thing a poor man can buy at the same price a rich man has to pay. If old age finds him spent and broken, a disability clause in the same insurance policy provides for him.

Poverty isn't enjoyable, but civilization has taken away the sting of it. The poor of today are richer than the rich were fifty years ago.

YOUR INCOME TAX.

No. 1.

Your income tax for the year 1924 is less, in proportion to your income than was the tax for 1923. A rate reduction, however, is not the only benefit afforded by the revenue act of 1924. Increase in the exemption for married persons, a 25 per cent reduction on "earned income," and other changes in revenue legislation are of immediate interest to every taxpayer.

The revenue act of 1924 requires that returns be filed by every single person whose net income for 1924

was \$1,000 or more, or whose gross income was \$5,000 or more, and by every married couple whose aggregate net income was \$2,500 or more, or whose aggregate gross income was \$5,000 or more. Last year returns were required of married couple whose aggregate net income was \$2,000 or more. Husband and wife, living together, may include the income of each in a single joint return, or each may file a separate return showing the income of each. Net income is gross income less certain specified reductions for business expenses, losses, bad debts, contributions, etc.

The period for filing returns is from January 1 to March 15, 1925. The return, accompanied by at least one-fourth of the amount of tax due, must be filed with the collector of internal revenue for the district in which the taxpayer has his legal residence or has his principal place of business.

BUSINESS AND PEACE.

Many political orators, and many strong supporters of the idea of peace have made the assertion that war is always fostered by "big business." We have even heard this assertion from some Snyder citizens who appear to be sincere in their belief. But a little study ought to show the foolishness of such a contention.

No business was ever greatly or permanently prospered by war. Business men understand this, and know that the relations between nations is today so intricate that war is always sure to hurt business. War destroys, or at least hampers all commerce, and while some particular business may seem to prosper as a result of war, most concerns suffer a depression. It is stated that the American people hold \$150,000,000 worth of stock in the Japanese government. This represents the amount of a bond issue floated in this coun-

try, the proceeds of which are invested in Japan. There is hardly a country on earth where this is not true. The U. S. has such heavy business interests everywhere that we cannot afford to go to war, except as a last resort. We certainly cannot afford to pick a fight, and knowing that no business man in America would be foolish enough to want his country to go around with a chip on her shoulder, we feel sure statements to the contrary are wrong.

If war comes with Japan, though it does not seem likely, then it cannot be blamed on the business men of our country. There are some hot-heads in America and there are a lot of them in Japan. But against them the full force of business is arrayed.

A NEWSPAPER PEST.

Many things come up to try an editor's soul and to make him wish that in his youth he had learned to carry a hod or drive a dray. But of all the things he has to contend with nothing serves to shake his faith in humanity more than the habit some people have of subscribing for the paper, letting it come on until they get behind, and then refusing to take it from the postoffice or settle the bill. The average editor dislikes to lose a subscriber, of course, but he doesn't expect anyone to take the paper unless he wants it badly enough to pay for it. What he does dislike is such a mean method of

side-stepping a bill. He has to figure very closely, and he counts on so much each year from his subscriptions. Then each time a subscriber refuses to pay for the paper after he has ordered it, and received it, it only means that the editor is out revenue he had figured on and that he has to set about making up the deficiency from some other source. We haven't many of these bill-dodgers around Snyder but we would like to go through 1925 without encountering a single one.

Mr. Arthur Faulkner and daughter, Georgia, visited Mr. G. L. Rogers Sunday.

Tires the old, lowers their vitality. The best standard family cough medicine for old and young  
**CHAMBERLAIN'S COUGH REMEDY**  
Good for every member of the family

Onion Only Eatable Lily

The chief value to man of the lily family, to which the onion belongs, is a purely ornamental one, says Dr. A. B. Stout, director of laboratories of the New York botanical garden, in the Detroit News. Doctor Stout is an expert on lilies.

A general survey of the true lilies and their near relatives reveals that the lily family contains relatively few plants of importance as food and fiber crops, says Doctor Stout. Of these the onions are perhaps most important. The young shoots of asparagus are among the delicacies of the spring season. Bulbs of certain of the true lilies are eaten by man, especially in China. The seeds of a *Ruscus* are used as a substitute for coffee. One member of the lily family, New Zealand flax, yields fiber. Several members yield medicinal products; of these sarsaparilla (from *Smilax*) may be mentioned. The list of important economic plants in this family is, however, not a noteworthy one.

Stop Night Coughing This Simple Way

People who have persistent, annoying coughing spells at night, and who through loss of valuable sleep are weakening their systems and laying themselves open to dangerous infections, can stop their distressing trouble promptly by a very simple treatment. Hundreds who have hardly been able to rest at all for coughing, have gotten their full night's sleep the very first time they tried it.

The treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful at night before retiring and hold it in your throat for 15 or 20 seconds before swallowing it, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. The result is that you usually sleep as soundly as a babe the very first night, and the entire cough condition goes in a very short time.

The prescription is highly recommended for coughs, chest colds, hoarseness and bronchitis, and is wonderful for children's coughs and spasmodic croup—no harmful drugs. Economical, too, as the dose is only one teaspoonful. It is on sale at all good druggists. Ask for

## Pull-together Spirit

Looking into the future with unbounded faith and optimism, no matter what its size, is built upon such a foundation, there is its steady progress. Just keep on pulling together. Naturally, we, but if you work it out rightly these can be brought into line

place and be in the running at the finish. You citizens and you by Patriotism cannot afford to stand by and expect your business please, a town where the majority of the population are present, instead of giving those merchants the support they deserve in other trading centers. Can't you see what the ultimate

individual or either a community, to keep earnings, or income, that a dollar must be earned, otherwise failure will result. For money from outside sources to replace it. A community's prosperity. Modern conditions make it impractical, if not impossible, to some extent, but does it not behoove us to be cautious in a way impoverishes our community just that much.

**PICKED UP ABOUT TOWN.**

Judge Harris says it is instinct that causes a woman to search her husband's pockets, and precaution that causes him to hide his money when he takes off his pants.

Ever notice that you don't hear merchants who advertise regularly complaining about poor business conditions.

Mayor Smith wants to know why it wouldn't be a good idea to paint all town gossips red, white and blue so they would cheer themselves to death.

Have a good time while you're young so that when you get old you'll be sorry you did instead of sorry you didn't.

"I read the other day," says Joe Strayhorn, "where a doctor says every normal man should have a hobby. Most fellows have—the hobby of rearing a family."

The world moves pretty fast. By the time you learn something that they claim is modern they turn around and tell you that it's old-fashioned.

"I see where a woman in Los Angeles kicked a glass out of a show-window," says A. J. Towle. "She must have seen a hat just like hers for less money."

Chicago is going to have a broadcasting tower 400 feet high. But everything is high in that town.

**HELP FOR OLD FOLKS.**

**Old Age Should Be Happy—Not a Time of Sickness and Suffering.**

Too many people begin to suffer at middle age with constant backache, urinary ills and rheumatic pains and aches. Weak kidneys are usually the cause and, if neglected, there is danger of hardened arteries, dropsy, gravel or Bright's disease. Help your weakened kidneys with a stimulant diuretic before kidney disease gets a firm hold! Use Doan's Pills. Thousands of old folks recommend Doan's.

Here is Snyder proof: Mrs. M. Gosnell says: "My kidneys acted too freely at times and other times not freely enough. I had sharp, cutting pains in the small of my back and I also suffered from rheumatic pains all through my body. There were days when my body was so filled with pain that I could not do my housework. After using Doan's Pills, I was rid of the backache and kidney trouble."

**FARMERS BUYING PIGS.**

Tom Huffman sold 140 pigs in three days to farmers of Scurry county. The Times-Signal is glad to see our farmers putting a few pigs in pens, as they will help greatly toward solving the question, "Can a West Texas Farmer Live at Home?" That never should have become a question. If a farmer can't make a living for himself and family, how in the world is he going to be able to feed the rest of the world? The very fact that our farmers are consumers rather than producers is one

of the things that's the matter with the country today. Let the farmer get right and the rest of the world will soon get right, because the rest of the world is, always has and always will depend on the farmer. Therefore, turn the farmer loose and let him prosper, but he'll never prosper as he should, so long as he is trying to live out of paper sacks like the rest of us are doing.

Misses Zaidie Runkles, Georgia Bolin and Cecile Strayhorn spent Sunday in Post City.

Mrs. Ethel Irvin and daughter, Miss Evelyn, and Miss Inez Sutherland visited in Big Spring last Thursday.

**Not Fair to the Railroads**

**Santa Fe Says Gooding Bill, in Congress, would impair railroads Pacific Coast traffic—adversely affecting merchants, farmers, manufacturers and others in Western States**

The Gooding bill, now before Congress, would greatly divert traffic to the Atlantic Seaboard from the Middle West. It would thus retard the development of the Middle West and its railroads by preventing competition for Pacific Coast business with the Atlantic Seaboard and the steamship lines.

Unregulated canal competition has already taken from the Middle West much business, which can be regained by this territory only if the railroads are allowed to make rates to compete with the canal.

The Central States and their railroads have enjoyed a share in this Pacific Coast business from the beginning of the operation of transcontinental lines, and this tonnage was a large factor justifying their being built. Under the present law the Interstate Commerce Commission is authorized to permit the railroads to equalize canal rates, and application for this is pending. Until 1918 the railroads had this permission. Then, due to the war, canal competition ceased and the Commission withdrew the permission: Now the ships are back in greater numbers than ever and have taken practically all competitive traffic, while the railroads have lacked the permission to equalize rates.

The Gooding bill, which has passed the Senate and is being considered by the House, would withdraw from the Interstate Commerce Commission authority to grant any such permission. It will not help intermountain states, because steamship rates between the Atlantic and Pacific Coasts will continue lower than those of the railroads; and it will not add to the Coast competition of intermountain distributors for the railroads to handle a part of the business.

This westbound business on which the railroads desire to compete comprises highly manufactured articles moving in great volume, made both in the Atlantic States and in the Central and Middle Western States and sold on the Pacific Coast. It now moves

largely via the canal. The Atlantic Seaboard pays only the low canal rates. The Middle West producer must pay either the additional rail charge to the Atlantic Coast or the charge for direct shipment by rail. If the railroads are allowed to compete, not only will the Middle West producer be enabled to compete on more even terms (which of itself will promote the development of the Central States), but also the railroads will be able to fill out their trains better, to develop their facilities, employ more men and purchase more supplies—all to the advantage of this great Western territory.

The Western railroads feel that the Gooding bill would deprive them of needed business without doing anybody any good, except owners of steamship lines operating through the canal; also that it would take away traffic in which they have participated under the Interstate Commerce Commission's authority since its creation in 1887. It seems most unfair to change the law at this time, in view of all these conditions.

When the Gooding bill was before the Senate Committee on Interstate Commerce, the Interstate Commerce Commission, with but one of its eleven members dissenting, sent the Committee an urgent letter opposing the bill. It summed up the matter most clearly with a concluding statement, showing that the interests of the Central West are involved quite as seriously as ours, as follows:

"The effect of such a provision upon commerce, industry and agriculture, would be revolutionary, and in many cases disastrous to carriers, shippers and communities."

**FISH STORIES.**

The fish rushing up the Siberian rivers to the Altai Mountains each spring swim in such close-packed ranks that it is impossible to row amid them; the boat thrusts them aside upon the flat river banks where the natives kill them with sticks—Rotan Advance.

That reminds us of a true fish story up in Missouri a number of years ago. A young man while in swimming lost a fine diamond ring off his finger. Three years later while fishing in the same stream, he caught a large catfish. He took the fish home and while preparing it for the skillet, he found in the fish's stomach a fish about two inches long.

A number of Texas papers have been publishing, some with comment, an article which first appeared in the Sweetwater Reporter relative to a child that was born in a wagon yard in that city recently. But what difference does that make, even if the child's parents are poor, if they are honest and upright? Nearly 2,000 years ago the Savior of the world was born in a manger. And although he lived to be only thirty-three years old, and when he died, he was buried in a borrowed tomb, the three years he spent preaching, teaching and healing set in motion a wave of Christian influence that has spread to the uttermost parts of the earth and will continue to soothe and soften hard hearts and to transform the lives of men until time shall have united with eternity.

We see where it cost \$100,000 to pull off a wedding between two members of wealthy families recently. But that is pretty well in keeping with what it usually costs people of that class to get a divorce or keep down a scandal.

Just as we expected! The Paddy-Mayfield case stunk itself to death, but not till after it has cost the taxpayers of the country \$100,000.

"Every Store In Cookville Robbed." Headline in Fort Worth Star-Telegram. My goodness! Those robbers must not only "Take the cake" as robbers, but they must have taken the whole bakery in Cookville.

"Ma" has been asked to stop the sand from blowing, says a report from Mexia. You simp, that's not sand! That's only some of the dust that "Ma" raised in her race for Governor that's not yet settled.

No matter what a fellow might start some other fellow would commercialize it. The cross-puzzle craze is selling thousands of dictionaries and lead pencils.

To the People of Scurry County. We, your physicians, in special meeting of January 8, 1925, have unanimously passed and adopted the following resolutions:

That we shall expect confinement cases and all obstetrical work to be on a cash basis after February 1st, 1925, or that previous satisfactory arrangement be made with the physician engaged.

That we, the Scurry County Medical Society, do condemn the practice of street workers leaving dangerous ditches on cross streets after grading without laying suitable approach; we also condemn workers leaving dangerous holes, mounds, etc., after covering sewer and water pipes.

And that a copy of these resolutions be printed in the Snyder Times-Signal as soon as practicable after the date of this meeting.

It is a strange hold that Capt. Upton gets on people—"The Big Brother to 100,000 Kids," as he is called all through the West, is to lecture here on the evening of February 5, and there are 99 chances out of 100 that his talk here on "The Four Square Builder" will startle local people and stir them up to a realization of some vital problems—for this is what always happens when "Dinnie" Upton speaks.

He is a recognized authority on recreation for the youngsters. From

the days when "Dennie" was one of the gang in the back yards of Grand Rapids, Michigan, he has been intensely interested in the welfare of the boy. Following his collegiate work, he became director of athletics at Grand Rapids, remaining there a little less than five years. It was here that his remarkable hold and influence over young people became noticed by outsiders and outside organizations.

When war came, "Dinnie" directed physical training for 30,000 men. The life was too tame for him, however, so he entered the aviation service and was commissioned in the

branch. Later he was sent into the Northwest to do some special lecturing and it was here that he first came into prominence as a remarkably gifted public speaker. He has a message for the youngsters and an even more urgent message for the fathers and mothers. He is doing a mighty big work and wherever he appears there follows a meritorious campaign of "direct action" for the boy and girl. 34-1t-c

**TRY HANGING A FEW.**

Despite the many crimes Snyder people read about every day, we believe our citizens agree with us that the world is getting better. With the increase in population the degenerate class has also multiplied, and newspapers must tell of the doings of this class. Millions of kindly and generous acts never find their way into print, so it is not fair to blame the whole world for the crimes a few commit. But the laxity of courts and the ability of smooth criminal lawyers to get around our laws encourages the criminal, rather than overawing him. So long as the failure to dot an "i" or to cross a "t" lets a criminal escape, they are going to sneer at law. More speedy and more harsh administration of the penalties provided by law for the punishment of criminals will rid us of many of our dangerous citizens. We've got to make them stand in fear of the law, we've got to make them dread facing a court of justice. And if it can't be accomplished in any other way, then it is time to start in and hang a few of them.

**SCARING THE PAPERS.**

With the evident intention of stopping the newspapers of this country from advocating higher pay for postal clerks and rural carriers, Post-

master-General New has attempted to "throw a scare" into them by raising second-class rates. The press of the country is unanimous in advocating better pay for postal employees, because their plea is just and proper. There is no question but it can be granted without increasing the postal rates. If leaks were stopped and foolish expenditures in the postoffice department eliminated like private business concerns eliminate theirs, then the increased pay could be provided and higher rates would not have to be considered. We haven't the least idea how much knowledge Mr. New has of the newspaper game. But it seems to be very limited if he is sincere in his belief that he can bluff the newspapers of this country. Bigger men than Mr. New have tried it—and failed.

**Ralph De Palmer Wins Against Time 1,000 MILES IN 786 MINUTES**

Here is a record breaking demonstration of stamina and dogged endurance—A demonstration which the Automotive Industry, with all its heroic achievement on road and track has never witnessed before—A demonstration far greater than breathless speed—a demonstration that, most of all, proves superior engineering, materials and workmanship of the highest order—a demonstration of heartbreaking endurance far surpassing any demands that a car will ever be called upon by an owner to do.

On Sept. 17th, a Chrysler strictly stock car hypnotized the world by covering 1000 miles in 1007 minutes, but that wasn't a starting point to its latest achievement. Read the telegram below and then try to grasp the meaning of his performance.

Los Angeles, Cal.  
Jan. 19, 1925.

Woodson Stimson.  
Maxwell Chrysler Distributors  
Snyder, Texas.

Culver City Speedway, January Fifth, Ralph DePalma, driving absolutely stock Chrysler touring except with gear ratio three seventy five to one, made one thousand miles in seven hundred eighty-six minute six and one-fifth seconds total elapsed time, averaging seventy-six and thirty-two hundredths miles per hour with absolutely no mechanical adjustment, tire changes or even addition water. Timed by American Automobile Association. Stock certification by Harry Miller, racing manufacturer. This non trophy event beating previous record of eight hundred forty-eight minutes thirty-one and four-fifths seconds with average of seventy and seventy one hundredths miles per hour made by competing car with similar gear ratio. Chrysler still holds Los Angeles Times Trophy for fastest one thousand miles made by absolutely stock touring with standard gear ratio. GREER ROBBINS CO.

When you stop to think that men spend thousands of dollars and years of time perfecting powerful racing machines to compete in the great 500-mile Indianapolis Speedway race where only one out of every six entries finish the grueling test, you can then only begin to realize what it means that this Chrysler touring car should make 1000 miles (twice that distance) without the slightest mechanical adjustment or even the addition of any water. Such wonderful results as this are bound to prove to you the slogan, "Results never before achieved," and to verify the statements of dealers and owners that here is really a revelation in automobile construction. You will also realize that The Chrysler represents a complete overturning of previous precedents which have taken the public by storm.

At this writing more than 32,000 Chrysler cars are verifying the soundness of Chrysler design—showing unparalleled speed which means power, unequalled acceleration, phenomenal climbing ability, and superb riding quality. The more than \$60,000,000 already invested by the public in Chrysler cars is only the beginning of Chrysler success. The tide of popular approval will continue to rise indefinitely, because nothing can stop the onward sweep of any achievement which contributes to the enjoyment and economic progress of the race. We give below the names of just a few of the many nationally and internationally known men who, according to their own words, own and drive Chrysler cars strictly for their merits.
