THE TIMES-SIGNAL SIGNALS

The airplane is 21 years old and in speed, high-flying and recklessness it comes up to about what we would expect of that age.

Most any Snyder auto driver will tell you that sometimes the biggest nut holds the steering wheel.

Uncle Sam says he will put 30,000,000 silver dollars into circulation. That's going to create a brisk market for suspenders.

An Ohio woman lost 20 pounds during her campaign for public office. So we suppose all the women in the country will soon be going in for politics.

So far as Snyder is concerned it's a race between the seed catalogue and spring hats as to which is the real forerunner of an early spring.

One thing about the radio, it never broadcasts family troubles. The party-line telephone still looks after that.

An eastern doctor says "a man is as strong as his stomach." It's a good thing some of them are not as strong as their breath.

If you want to see something funny watch the Snyder man who has dug up an old composition book he used at school and see how proud he is of himself.

The average woman believes that when her husband begins to preach

economy around the house he has been doing something he shouldn't have done.

Right now our idea of a get-rich-quick scheme would be to have 10,000 hens and each one of them laying an egg a day.

Most Snyder citizens realize that family trees are no different from the other kind. They all need pruning occasionally.

It may be that a girl's face is her fortune, but that doesn't mean that she is twice as rich if she's two-faced.

We certainly hope we'll have everlasting peace, so we can go ahead and spend the balance of our lives paying for the war.

The average Snyder boy's idea of a square deal is usually about ninety per cent the best of it.

If all kisses lasted like the first one most of the courts in this country would close up and stay closed.

Men are supposed to be superior to women, but you never saw a woman standing on a street corner cleaning her ears with a match.

Our idea of a waste of time is listening to a Snyder man tell of the old days when he could get a big meal at a hotel or a restaurant for a quarter.

NOTES OF HAPPENINGS AT THE HIGH SCHOOL

Furnished by the Faculty and Students of Snyder High School

Home Economics Events.

The girls of the home economics department have been very busy for the last two weeks in finishing the painting of the laboratory. The tables, chairs and lockers have been painted old ivory to match the woodwork. The ceiling has been painted in a lighter tone. This adds to the cheerful tone of the room and we can do much better work. Most of the credit belongs to Mr. Carey and Miss Greene. They are very enthusiastic about our laboratory, always willing to help us when help is needed. Their work towards the betterment of our department is greatly appreciated by all the girls.

The State Inspector of Home Economics, Miss Lillian Peek, from Austin, visited our department last week. She is highly pleased with the work that we are doing. She was especially pleased with the improvements of the laboratory. She has given us a great many suggestions which we are attempting to carry out. We want to make our laboratory the best in West Texas. She granted the half unit of affiliation in second-year foods and we are hoping to affiliate the second year clothing also.

We have organized a home economics club consisting of the three classes, each class with its own officers, with one president over the whole. Omaha Ballard was unanimously elected as the general president. The purpose of the club is to give literary culture to its members and to stimulate an interest in good music and art. We are hoping to leave to our department a bust of Miss Willard, the mother of Home Economics or some pieces of fine pottery.—Ledy Potet.

Snyder Girls Defeat Lamesa Girls In Test Game.

The girls basket ball team, accompanied by Miss Johnston, Mr. Cary and Mr. Roberts drove to Post Saturday, February 28 where they met Lamesa to play for sub-district championship. The Lions Club provided the cars. Leaving Snyder about nine o'clock they arrived in Post at ten-thirty. After warming up for the game, they went to the hotel for lunch, and rested for the afternoon game. At two o'clock both teams met on the court. At two-thirty the game started. The game was a hard fight from the start to finish, the scores tying at the end of the first and second quarters. At the end of the third quarter Snyder was in the lead one point, and at the end of the game Snyder was ahead three points. The score being 13 to 10 in Snyder's favor. The girls entered the game with a good spirit, and this they kept throughout the game.

Those who played in the game were: Guards, Hattie Glen, Faydale Glen; centers, Alene Doak, Vera Ppton, Raye Morgan; forwards, Katherine Cooper, Ora Lee Christian.

Subs—Maxine Cooper, Margaret, Carroll, Dorothy Strayhorn and Anice Price.

Snyder boosters who went along were: Cleve Blackard, Earl Sparks, T. L. Winston, Fritz R. Smith, Hal and Fred Yoder, Levon Cherry, George Glen, Ruby, Alene and Mrs. Curry, Mrs. Ed Glen and Lavena Wilson.

We thank Messrs. Taylor, Yoder, Strayhorn and Stinson for providing us cars to go in.

The girls leave for Lubbock next Friday, where they will play for district championship Saturday.

Under the successful coaching of Miss Johnston the girls are going to put up a hard fight to bring the silver loving cup back to old Snyder.—Ora Lee Christian.

Football Boys to Receive Sweaters.

That reliable old Snyder Hi football team has worked hard this season. Eleven boys worked for Snyder Hi and now Snyder Hi is working for them. We are going to pay them a tribute just to let them know that we appreciate them and that we can feel more satisfied that our team has been in some degree rewarded.

Mr. Roberts and Mr. Cary ordered the sweaters, with a large letter "S" on the front, guaranteeing the bill, which will amount at about \$165. Although these men have been here

only this year they have taken interest in the development of our school. They have won our respect and confidence; any suggestion from them goes over by a big majority.

We feel assured that Mr. Cary and Mr. Roberts will not have to pay for the sweaters, for the student body will take that advantage of this opportunity to help, thereby calling the team our very own.

We are expecting big things for the teams this year and we know they'll do their part.—Nona Carr.

Basket Ball Suits Cleaned.

Mr. Chambers, present owner of the City Pressing Parlor, and recent owner of a barber shop, cleaned and pressed the boys and girls basket ball suits free of charge the day before the girls' trip to Post. We feel that our success was partly due to our suits. We appreciate and thank Mr. Chambers for what he has done for us and wish him success in his new business.—Raye Morgan.

School Notes.

Both the English II A classes of Miss Wilson's had a declamation contest Tuesday afternoon, the morning class against the afternoon class. The Declaimers were Edna Upton and James Martin of the morning class and Evelyn Simmons and Robbie Jones of the afternoon class. Evelyn Simmons defeated Edna Upton and James Martin defeated Robbie Jones.

The Snyder high school baseball team started practicing on February 18 and according to the improvement made we should have the strongest team we have ever had.

The library has been closed this week for examinations but will be opened again next week.—Tip Messimer.

Misses Elaine and Marilou Rosser will present their pupils of expression and music in a recital Friday, March 6, at the school building, 8 o'clock. Miss Lucile Strayhorn and pupils are working on an operetta of two acts, which they hope to be able to present in two or three weeks.

LETTER OF APPRECIATION.

Dallas, Texas, Feb. 27.
Managing Editor Times,
Snyder, Texas.

Dear Sir.—We are grateful to you for the liberality with which you have used Baptist news in recent months and we are taking this occasion to thank you. Your kindness has been of great assistance to our Baptist cause and we feel that you have rendered a definite service through your efforts.

Again, accept our thanks.
Very truly yours,

CAREY H. SNYDER,
Publicity Director.

Since the Times-Signal runs more church matter one week with another than any other local paper in the country, the above letter is highly appreciated, as it shows that the services rendered by the Times-Signal are being appreciated by the great religious leaders of the country.

AN ENJOYABLE SERVICE.

A very enthusiastic meeting was held at the First Baptist church on last Wednesday evening. The social hour was at 7 o'clock at which time we were served with pie, ham sandwiches and coffee. After satisfying our hunger we went to the church auditorium and there led in prayer meeting by Bro. Davis.

The church went into conference and voted to have a meeting, starting Sunday, March 15. Also to publish a church bulletin.

Conference having adjourned the different committee meetings were called and discussed their various work. The closing part of the program was an excellent choir practice.

This was the first of a series of unified services.

Mrs. A. B. Davidson and Mrs. R. A. Williams, her guest from Wellington, Texas, and Miss Myrtle Martin spent Tuesday in Sweetwater.

W. H. Gray, agent for the American Oil & Refining Company, was at Sweetwater and San Angelo this week.

SNYDER MEN MAY WIN FREE TOUR OF YELLOWSTONE NATIONAL PARK.

Mr. W. E. Keith and Mr. Ernest Taylor, general agents for the United Fidelity Life Insurance Company, of Dallas, are competing with the other agents of the company for a prize tour offered by the company each year, which this time will be a two-weeks' tour of Yellowstone National Park, and the Northwest, beginning July 3.

Each year, the United Fidelity Life offers to their agents, prizes in the way of vacation tours, to those maintaining a steady production. This year's tour comprises a wonderfully arranged trip of the Northwest country, and Yellowstone National Park. The prize is based on a weekly production, with a minimum volume, and Messrs. Keith and Taylor have a very fine opportunity of making the trip this year.

This is quite an honor to Snyder, and the Keith and Taylor agency, which has been very highly complimented on several occasions by the company officials. During the year 1924, the Keith and Taylor agency wrote more life insurance for the United Fidelity than any other agency with the company, placing over five hundred thousand dollars of life insurance on the lives of over three hundred Scurry county citizens. This is indeed a very fine record, and Mr. Keith makes the statement that this year will see even more business with the United Fidelity.

The many policyholders and friends of the United Fidelity in Scurry and adjacent counties, and the local agency take great pride in watching the wonderful success of the Keith & Taylor agency, and the citizens of the county should feel proud of the progress made by this agency. It is hoped that they will participate in this trip next July, thus spreading the fame of Scurry county far and wide in the great northwest country.

JOE YORK WILL BE IN RODEO CONTEST.

Joe York shipped his roping horse to Fort Worth this week to be ready for the big rodeo contest at the fat stock show in that city. Snyder folks predict that Joe and his famous horse will make the fellow that beats them mighty hard to catch.

J. W. Patterson and son, J. W., Jr., were here from Hermleigh Wednesday.

JIM KETNER NOW WITH WESTERN NATIONAL.

Jim Ketner is now with the Western National Insurance Company. After the present term of school closes, Mr. Ketner and family will probably locate somewhere in Southwest Texas. Mr. Ketner is a clever fellow and a good salesman, and the Times-Signal predicts that he will make good in his new line of business.

WEST TEXAS CHAMBER OF COMMERCE.

7th Annual Convention.

The dates for the 7th annual convention at Mineral Wells have been set for May 4, 5, 6, 1925. The program for the great meeting will be ready by March 10 and given to the press and the affiliated cities and towns. It will be a program around which the utmost care shall have been given in perfecting. Some of the features will be unique, viz:

1. The pageant will be an outdoor affair and staged by the best company in the United States specializing in Pageants and Mineral Wells will furnish all of the costumes for the affair. No sponsor will have to purchase an elaborate dress or other paraphernalia but upon arrival in Mineral Wells the same will be furnished her without cost.

2. No bands will play during the morning, except upon arrival in Mineral Wells. There will be about 55 bands attending the convention and \$3,500 in prize money has already been provided.

3. The number of speakers will be much more limited than at past conventions, and they will be especially selected.

4. The banquet arrangements call for feeding 7,000 or all registered delegates.

5. The new \$100,000 Convention Hall is now under construction in Mineral Wells and will be completed in ample time for the convention.

6. Extraordinary plans are being made for camping parties and automobile parking.

7. The motto of the convention shall be: "Work in the mornings—play in the evenings."

This great annual convention has become the meeting ground for 40,000 West Texans, so let's everybody go and enjoy ourselves. Mineral Wells has excellent hotel facilities.

Respectfully,
PORTER A. WHALEY, Manager.

BAPTIST MINUTES OUT.

The job department of the Times-Signal turned out this week the minutes of the North Colorado Baptist Association held with the Pleasant Ridge church in September. The next meeting will be held at Moore's Creek church, September 10, 11, 12 and 13, 1925. The introductory sermon will be preached by Elder L. H. Bean, with Elder C. E. Leslie as moderator.

D. P. LANE FUNERAL HELD WEDNESDAY AFTERNOON.

Funeral service of D. P. Lane was held at the First Christian Church Wednesday afternoon at 3 o'clock. It was attended by a large crowd of sorrowing friends and relatives. Bro. Lane was well-known here as he had lived here for some twenty years. He was a regular attendant at all services of the First Christian Church of which he was a member. He was liked by all who knew him. Those of the immediate family that survives are his wife and two daughters: Mrs. D. P. Lane, Mrs. A. Johnston and Mrs. Hugh Boren, all of Snyder. Next week's paper will contain a more complete story of the life of the deceased.

A ROOSTER "ROOSTS;" HE "SETS," ALSO.

A good joke is being told on genial J. J. Moore of Ira. A few days ago Mr. Moore and his good wife entered into a contest as to which could gather up the more eggs about the premises. Mrs. Moore went one way and Mr. Moore went another way and the contest was on.

In a few minutes the two came together to make their report. "I have an even dozen," said Mrs. Moore. "Well," began Mr. Moore, "I haven't that many, but I found more eggs than you found, but finding an old hen in a box, and knowing that she was wanting to 'set,' I took a part of my eggs and 'set' her."

For a moment Mrs. Moore looked puzzled.

"Why, John, we have no hen that wants to set," she said.

"Just come with me, and I'll show you," contended John.

She followed him to a box in the barn.

"Here she is," he said, triumphantly.

"Why, John!" she exclaimed, "you've set my old lame rooster. I put him in that box to keep the other roosters from killing him!"

E. H. HAMLETT LOCATES IN COLORADO.

E. H. Hamlett, who for the past eight years has been in the employ of the McCord Grocery Company, has removed to Colorado where he has engaged in the wholesale candy and cigar business. Mr. Hamlett says he has only partly left Snyder as he will be back regularly, calling on the business with the very best to be found in his line.

COUNTY AGENT HERE.

John F. Carmichael, county agent for Scurry county, arrived here last Saturday from College Station. Mr. Carmichael lost no time but went right to work. Monday he supervised the terracing of some land for August Stahl of near Hermleigh. Tuesday he terraced for John L. Webb 6 miles southeast of Snyder. Wednesday he went to Spur to visit the experiment station, and to meet county agents from all over the state. He completed his terracing for Mr. Webb Thursday. Friday he will terrace for J. S. Golden of the Canyon community and Saturday he will terrace for E. W. Bassinger east of town.

So it will be seen that Mr. Carmichael has been putting in his time since coming on the job. And the Times-Signal is going to take the liberty to say that in the editor's opinion, there are but few duties connected with a county agent's office of greater importance than that of proper, or, rather, scientific terracing.

The thing that every farmer in the county should do is to co-operate with Mr. Carmichael, whose work is not to "show Grandma how to knit," nor to show anybody how to farm, but to assist the farmers in carrying out the things that will make them better and more prosperous farmers.

Mrs. Walter Gentry of Hermleigh was shopping in Snyder Saturday.

A stranger who had been staying for a few days with Mr. Grisset at Westbrook, asked Mr. Grisset the loan of his Ford. The favor was granted, but it was afterwards learned that the stranger had taken his belongings when he left. Mr. Grisset suspecting that he was about to have his car stolen, got a high-powered car and started out after the thief, who was not overtaken until he had reached Stanton. SHULL-GREEN.

(From the Jayton Chronicle.)

A wedding of wide interest to people in this section was solemnized Tuesday morning at nine o'clock at the home of Mr. and Mrs. David E. Burns, when Miss Jettie Lee Green and Mr. W. Clyde Shull were united in marriage by Rev. C. R. Campbell.

The wedding was a quiet home affair with only relatives and a few close friends present. The happy young couple left immediately after the ceremony for an extended wedding tour in the south-central part of the state.

The bride is a former Jayton girl, having been largely reared here and has a host of friends in this section. For the past year she has been residing at Snyder. She is the eldest daughter of Mr. and Mrs. L. D. Green, old timers of this section, and was for many years one of the most popular young ladies of our city.

The groom is a popular young business man of Snyder and is a highly respected citizen of our sister city. He is to be congratulated upon winning the heart and hand of so fair a prize, and the good wishes of the bride's many friends in this section shall follow them wherever they go.

They will make their home in Snyder where the groom is in business.

The Chronicle joins with their many friends in extended congratulations and best wishes for a long, happy and contented wedded life.

THE PRESIDENT KNOWS.

In an address before the Society of Newspaper Editors in Washington recently President Coolidge said that American newspapers are the best in the world, and that a fine example of fairness is to be found in the editorial rooms of the weekly and daily papers of this country. "I believe," he said, "that their editorial opinions are less colored by partisanship or selfish interest than are the editorials carried by the newspapers of other nations. Moreover, I believe that our American papers are more independent, more reliable and less partisan today than at any other time in their history."

He could also have said that advertising in American papers brings better results than the ads placed in newspapers of any other nation, and he would have told the truth. But possibly he supposed everyone in this country knows that already.

WE THOUGHT SO.

This country has run along for about a year now without a serious labor clash. But dark clouds are arising on the horizon, and from appearances the sugar barons are getting ready to harpoon the consumers once again. That is indicated by reports that sugar mill strikes are starting in Cuba. Coal miners in

several sections are said to be growing restless, but this isn't worrying us much since the country already has an over-supply of fuel. But it does strike us as peculiar that the people of the United States have to stand for a gouge from the sugar monopoly just as regularly as one year succeeds another. All we can do if it does come—and it is pretty safe to bet that it will come—is to grin and bear it. But that won't keep most of us from wishing that the government would step in this time and prove to the sugar barons that it is bigger than they are.

"JANICE MEREDITH" TELLS HISTORY OF DAYS OF '76.

Paul Revere's Ride, Washington Crossing the Delaware, Surrender at Yorktown and Many Incidents of the Revolution.

Spectacular scenes of famous episodes of the American Revolution are accurately reproduced in "Janice Meredith," Marion Davies' pretentious and beautiful Cosmopolitan production, which starts a 2-day run on Thursday at the Cozy Theatre.

The skirmish at Lexington—"the shot that was heard around the world"—the breathless moment of suspense, waiting to see whether the British would fire the first shot in the American Revolution; the dauntless Minute Men bravely fighting against frightful odds—this is one of the thrilling scenes of the production.

Crossing the Delaware.

Washington crossing the Delaware, a living reproduction of the famous painting of Trumbull, is also a gripping chapter of the photoplay. A channel 400 feet wide had to be cut through the Saranac River in the Adirondacks to permit the crossing of specially constructed flat boats and rafts, transporting the soldiers and loaded with cannon, oxen and supply wagons.

Paul Revere's immortal ride—when his horse's hoofs resounded through the night, when startled heads appeared at windows in answer to his call, and when he took desperate jumps over fences and hedges, is full of thrills and artistic effects.

The Battle of Trenton—Washington's timely attack, and the victory is vivid and gripping, a magnificent bit out of history.

The Boston Tea Party, a magnificent night scene; and Patrick Henry's impassioned speech; and numerous other incidents of the days of the Revolution are included in this stupendous production, which, under the direction of E. Mason Hopper is a stirring page from history.

D. Brooks was arrested at Midland last Thursday and is now in the Colorado jail for giving several "frost-ed" checks.

Mrs. W. P. Thurmond, a former resident of Sweetwater, died the past week at Decatur.

What to Do For A Persistent Cough

Everybody knows how foolish and dangerous it is to let a cough hang on and on. The proper thing to do is to stop it—quick—and for this purpose there is nothing better than that great old home remedy that our parents and grandparents used so successfully—Dr. Bell's Pine Tar Honey. It often relieves a severe cough overnight. Doctors say there is really nothing like pine tar to quickly loosen and remove the phlegm and congestion which are the direct cause of the coughing, while the honey not only gives a pleasant taste but helps soothe soreness and irritation.

But be sure you get the genuine Dr. Bell's Pine Tar Honey and not some substitute. Dr. Bell's is the original, and has been known for many years as the best. It is scientifically compounded of just the right proportions of pine tar, honey and other quick-acting ingredients, which the best doctors have found to aid in bringing quick relief. Contains no opiates or other harmful drugs, so can be given even to young children—fine for spasmodic croup. If you want the best home remedy in the drug store, get Dr. Bell's. 30c at all good druggists.

PICKED UP ABOUT TOWN.

"Pete" Thrane says that since women commenced patronizing barber shops you don't hear the same kind of stories that you used to hear there.

They say the sun is 5,000,000 years old. That proves that there is something in the old saying about early to bed and early to rise.

In the opinion of A. J. Towle men respect you for the things you stand for and despise you for the things you fall for.

The congressman who is aching to get a nice fat appropriation for his own district doesn't like to hear that word "economy" used so often.

"Traffic laws keep motorists from running into a lot of things," comments W. M. Morrow, "but no traffic law can keep them from running into debt."

Every motor car driver has saved a lot of lives by not driving the way his wife told him to.

"A woman doesn't say much when she catches her husband dabbing a lot of talcum powder on his face," asserts Joe Caton, "but she sure does a lot of thinking."

What this country needs is fewer farmers in Washington and more of them on the farms.

Rev. Davidson says some folks don't believe in having a treasure in heaven because they're afraid they won't have a chance to spend it there.

From what we have seen of it it's a cinch that war doesn't pay, but it makes everybody else pay.

"Now that Dempsey has married an actress," comments Jim Lockhart, "I suppose he'll do all his fighting in private instead of in public."

We've met men with such mean dispositions we've wondered why they didn't get jobs cracking hickory nuts with their teeth.

"I don't know what kind of surroundings others like," says Tom Boren, "but for my part I'd like to live in the sparerib and backbone belt the balance of my life."

Girls are getting so smart they can even tell when the front door bell or the telephone bell has an engagement ring.

"I see," says J. W. Templeton "where a woman in Maine said she had reached the age of 106 because she attended to her own business, and I wonder why some folks around here don't try to live that long."

Roland Bell says if a woman doesn't want to know the truth she ought not ask her husband how he likes her newest hat.

PENSION OR POORHOUSE.

Indiana is considering a plan to abolish her poorhouses and replace them with two state institutions to care for helpless and homeless old people. The ordinary pauper would receive a small pension, enough to make him a welcome guest in the home of some friend or relative. It is said this plan would mean a great saving in taxes, and would do away with that feeling of living on charity. Old age pensions have always appealed to us, and even here in Snyder we often see men who

have spent all the years of their lives in useful service to others, and in helping to build up the community dependent on others for a living. They have done enough to entitle them to care in their declining years. Even a horse deserves that, and usually gets it. There is no humiliation in a pension, and the knowledge that it would be provided would remove the shadow of fear that hovers darkly over many an old soul who now sees only the dreaded poor-house ahead.

A LONG WAY OFF.

Next to the hullybaloo about getting a man out of a Kentucky cave, nothing has created greater national interest lately than the attempt of a California religious sect to bring about the end of the world. Now they're busy explaining why it didn't come to an end early in February when they said it would.

We've got to have something to focus our attention on in America else we would become morbid and possibly revert to revolutionary and morbid thoughts. So such predictions as these do no harm, and keep a lot of people from brooding over other worries. Even here in Snyder where every fellow is kept on the jump trying to get his own business affairs attended to and to keep the wolf from the door, there is always time to read a few lines about unusual topics that the nation is interested in, and to use them for brightening up conversation when the old subject of crops and the weather grows stale.

But we didn't find anyone worrying whether or not the world would come to an end early in February. If any of our citizens were doing any extra amount of praying it didn't show on the knees of their trousers. In fact, merchants say they are still sending away for mail order goods, so they at least expect the world to last until the goods get here. From all indications, the prediction got side-tracked somewhere, so it is pretty safe to go ahead and make your spring gardening and clean-up plans instead of taking such dire reports seriously.

GOLDEN WEDDING ANNIVERSARY.

Mr. and Mrs. T. J. Thompson of this city celebrated their golden wedding anniversary at their home Wednesday. These two most excellent old people were married at Burns Station, February 25, 1875. They came to Snyder 27 years ago and have been living here continuously since that time.

Mr. and Mrs. Thompson had the pleasure of having all of their children with them on the occasion of their anniversary, as follows: Mr. and Mrs. Jesse Thompson of San Antonio; Mr. and Mrs. R. M. Thompson of Vega; Mr. and Mrs. W. P. Arnold of Abilene; Mr. and Mrs. Rankin Thompson of San Antonio. Also the following grandchildren: Raymond Thompson, Weldon Thompson, Gordon Thompson, R. M. Thompson, Jr., Eula Lee Thompson, Alton Thompson, Billie Jean Thompson, Fannie Beth Arnold and Billie Arnold, Jr.

Mr. and Mrs. Thompson were the recipients of a number of presents, among which was fifty dollars in gold. It was indeed one of the happiest days in the lives of these fine old people, for nothing as a rule brings more pleasure to people of their age than to have all of their children and grandchildren come together in one body under the old parental roof. And the great feast spread at the noon hour on that memorable day played its part in making the occasion one long to be remembered.

WHERE WILL IT END.

Snyder citizens may think this country has gone crazy over crossword puzzles, but it's because they haven't heard from abroad. We see in a news dispatch that it has hit Great Britain even harder than it has the U. S. A., and that even Queen Mary is a rabid crossword fan. Well, it's all right with us if our British brethren want to join with us in the greatest pastime that has swept over the nation in its history. And if the League of Nations wants to offer prizes to the champion crossword puzzle experts of the world, we're for it. It's a harmless pastime, and as long as it keeps one hunting through the dictionary it ought to be worth something from an educational standpoint. Who can tell, either, but that if all the nations in the world get so deeply absorbed in the puzzles as this country and Great Britain they will forget all of their bitterness toward each other and lose all desire for war.

BARNUM WAS RIGHT.

Mrs. L. G. Waggoner, editor of the Miami Chief, had the following editorial in last week's issue of her excellent paper:

"We fail to see why sane business men will permit someone who knows about as much about advertising as a rabbit does about drinking whiskey to come into town and 'sting' them on some kind of novelty advertising—and at the same time refuse, or fail to use the columns of the home newspaper. The rates for the novelty advertising are always higher than newspaper advertising—else how could the solicitor get his pay? The circulation is not as large, and oftentimes the advertiser has to distribute the 'novelty' after he gets it. Whereas, the newspaper is sent into the home by the publishers and stays there until it has been read by every member of the family. If you can see the customer and give him the 'novelty' that contains your ad—why not extend to him an invitation to call on you? Think it over."

We don't know just why men claiming to be business men will do those things, Mrs. Waggoner, unless it is that the "American people love to be humbugged," as Barnum once declared.

A progressive farmer subscriber said to the Times-Signal editor last Saturday: "Whenever a merchant tells you that the farmer does not read advertisements, you can believe it if you want to, but I know better. I don't believe any advertisements are read as closely as those in the local paper. I want to congratulate you on your most excellent paper and congratulate Snyder merchants on their liberal support of it. They need not worry about us country folks not reading their ads, because we sure are reading them every week, and in most instances are profiting by it."

We see where a Mexican was declared insane. We imagine that telling whether a Mexican was insane by his talk would be about as difficult a task as telling whether limburger cheese was rotten by its smell.

"You are getting out the best county paper I ever saw," said a good friend of the Times-Signal in the Times-Signal office Monday. We told our good friend that he was in a measure responsible for the present quality of his home paper because he was one of its strong supporters.

Did you know, gentle reader, that the Times-Signal's subscription list is growing by leaps and bounds? Well, it is; and not a day passes that some satisfied reader pays the editor a nice compliment on the excellent paper he is getting out. People all over the county are not only subscribing for the Times-Signal, but are reading it closely every week.

Snyder and Scurry county ought to send at least 250 to the meeting of the West Texas Chamber of Commerce at Mineral Wells in May. O. P. Thrane, present vice-president is slated for president. No better man for the presidency could be found in all West Texas. Let's put him in.

Say, fellows, get out of your head the idea that towns just grow, because you are wrong. Towns are built, and no town ever rose above the aspirations and ambitions of its business men.

THOSE INTERESTED IN CEMETERY ASKED TO ATTEND MEETING.

The Times-Signal has been requested to urge that everyone interested in the care and up-keep of our cemetery be on hand at a general meeting to be held next Saturday afternoon at 3 o'clock at the undertaking parlors of R. M. Stokes & Son. Every person that has an interest in our cemetery should attend this meeting and lend a hand in making arrangements for the care of this place this summer. It will soon be time that shrubbery and flowers should be watered and other work done that will add to the beauty of the cemetery. The people of Snyder should take a pride in making this spot one of the prettiest in the entire county.

The Plainview News declares that scientists assert that some day we'll be able to live on air. But that won't help us one bit, because some big trust would soon have a monopoly on all the air in the universe.

With a farm agent and a home demonstrator, just watch Snyder and Scurry county continue to go forward.

TWO SIDES TO IT.

When wheat passed the two-dollar mark a few weeks ago newspapers reaching Snyder from the outside world told of numerous instances in which men had "cleaned up" fortunes. But none of them carried a word about her men who had lost their life savings in trying to beat the game. We will always hear of the winner, but the loser, with nothing left but his pride, prefers to keep the ill-fortune to himself. And, with only the picture of the winners before them, other men will plunge in, risk all that they have and all they can borrow—and usually lose. Some of these days gambling in the necessities of life will be stopped. Men will not be permitted to fix the price of the bread that goes into the mouths of the people, and neither will they be allowed to gamble on whether or not that price will go up or down. The country is going to be wholly civilized some of these days, but not until the wheat pit and the stock exchange have been abandoned.

A SERIOUS PROBLEM.

More and more it becomes apparent that something will have to be done in this country, and within a very short time, to solve a transportation problem that touches every citizen, either directly or indirectly. We refer to the gasoline traffic. There was a time in Snyder when gasoline played little or no part in our lives. Today every resident is more or less dependent upon it, not only those who own and drive automobiles, but those who are forced to buy merchandise that in many instances is transported in motor

trucks. When we consider that there are millions of autos in this country and that every one of them is dependent upon one single corporation for motive power, it can readily be seen that the proposition is a serious one. Think of one corporation being in position to dictate the cost of fuel that goes into every car, able to raise or lower its price at will, able to put that price beyond the reach of consumers if it chooses to do so. Railroads can go to competing companies for their fuel, or buy and operate their own mines. But automobiles—now a far greater means of transportation than the railroads—must depend upon one corporation, and is at the mercy of one gigantic monopoly.

We have recently talked this matter over with several of our citizens, and we find them firm in their belief that the time is about here when the government will have to step in and take a hand. As a rule these men are not in favor of government own-

New Way to Quickly Stop Dangerous Cough

It is almost criminally careless not to properly attend a persistent cough, which by seriously weakening the system lays you open to far more dangerous infections. For by a very simple treatment you can stop the coughing spells almost instantly and often relieve the stubbornest cough in 24 hours.

This simple treatment is based on a remarkable prescription known as Dr. King's New Discovery for Coughs. You simply take a teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it, without following with water. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the direct cause of the coughing. The prompt relief of the heaviest cough seems almost magical.

The prescription is highly recommended for coughs, chest colds, hoarseness and bronchitis, and is wonderful for children's coughs and spasmodic croup—no opiates or other harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for

TO OUR FRIENDS.

We wish to thank our many kind neighbors and friends for their many kind words of sympathy, and who so patiently and attentively cared for our little darling baby and son, Jack Elton Evans. Was born Feb. 21 and died March 1.

Like the sweet roses at heavens door,
Even the angels above
Were born just baby buds down here.

To bloom anew, in the land of love.
So dear to us, this little one seemed,
Who came to cheer us that day,
That he, in our gladness could never have dreamed.

He so soon, should be called away,
But God is the vine from whence little buds spring.

He watches with tenderest care
Until they bloom in fullness of joy
Around the Greater White Throne
up there.

May God bless you all is our prayer.

DEATH OF DAIL FRETWELL.

Died on the seventeenth day of February, 1925, Dail Fretwell, oldest twin son of Mr. and Mrs. Vester Fretwell, aged twenty-one years, three months and eight days. That death loves a shining mark was fully verified, as the spirit of our much-loved Dail Fretwell took its flight instantly about 2:30 o'clock Tuesday, the seventeenth, leaving broken-hearted parents, brothers and sister to mourn his loss.

The little family had come to West Texas in October of last year. They moved from Caddo Mills, Hunt county, Texas, where Dail was born and reared. Before moving out West two of the other brothers answered the summons of death, one being dail's twin brother and the other a younger brother.

Dail was a splendid type of young manhood, handsome and endowed with all the qualities to make him a general favorite. His life was short but beautiful in every way that constitutes an upright and honorable career.

There is a vacant chair in the home, and a silence that broods over all, is eloquent in the memory of his sweet life.

A vast concourse followed his remains to the resting place where he was laid to rest to await the Great Resurrection day. Thus ending his beautiful brief life, but the memory of dear Dail will live on.

Farewell, Dear Dail, your beautiful life is ended here. Thou hast answered the call, may the family be an unbroken one in heaven.

"For though from out our bourne of time and peace,

The flood may bear me far,
I hope to see my pilot face to face
When I have crossed the bar."

20,000 To a Thimble

A Standard-size watch contains over 200 pieces, about one-third of which are screws. Some of the screws in small watches are so minute it would take 20,000 of them to fill a thimble. These are of gold. Laid on a piece of paper, they look like gold dust.

Then there are screws made of steel which are so fine they look like coarse grains of pepper! Yet every one of these particles of gold or steel is perfect, with the spiral thread of a groove cut into it, and with a slot in the head.

The naked eye can scarcely discern that they are screws. Yet in the better factories every one of them is separately inspected for defects through a magnifying glass before being used.

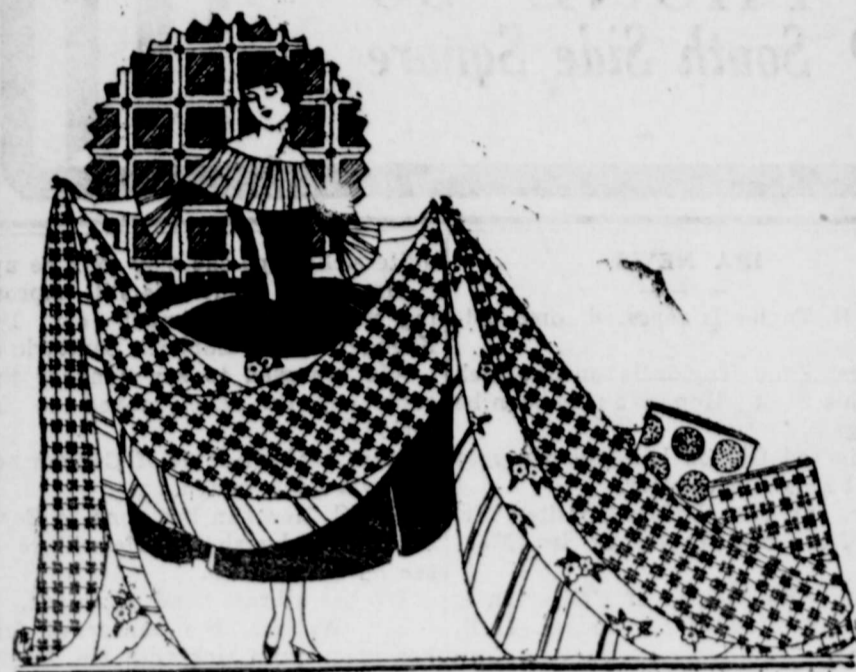

Where there is so much room for variation in quality, it pays to buy a watch that was honestly made. The safest way is to buy from a reliable jeweler.

COUNTY F. & L. U. ORGANIZED.

Pursuant to a call made by R. O. von Roeder, F. & L. U. organizer, a large number of farmers and a few business and professional men of Snyder met at the courthouse at 1:00 o'clock Saturday afternoon for the purpose of organizing a county union. Scurry county with its six local unions was already entitled to a county union.

The house was called to order by Mr. Von Roeder, and after a few introductory remarks, Prof. and Mrs. Knight, Mrs. von Roeder and Mr. J. A. Kinard of Big Spring sang a number of songs which were heartily applauded.

Judge Holley, in his usual pleasing manner, gave an address of welcome, stating that he had belonged to every farmers' union that had ever been organized in Scurry county, and that his ineligibility was the only thing that prevented him from belonging to the one that was about to be organized.

J. L. Martin, although not on the program, was called on for a speech, to which he responded, dealing principally with the great importance of co-operation among the farmers themselves, and laying clearly before the farmers the fact that the only way the farmer can be helped is by helping himself. His speech for the greater part was in keeping with the argument Mr. Martin set forth in a series of booklets he wrote last year in the interest of the cotton farmers of the South.

Mr. T. W. Moss, of Terry county, vice-president of the State F. & L. U., among other things, said: "I'm a cotton dealer myself, and know the methods employed by street buyers. I am also a cotton grower and know all about the farmers' methods of selling. So, if I make any misstatements I want you cotton buyers to correct me."

After Mr. Moss had finished his talk, Mr. J. A. Kinard, former National organizer, but now a real dirt farmer of Howard county, in a few brief statements, stressed what had already been said, and emphasized the importance of farmers standing together.

The work of organizing a county union was begun in earnest. Eight new members were added, making a total of 108 members in the county. The following officers were then elected:

President P. A. Miller, Ira; vice-president, Lee Grant, Sharon community; C. N. von Roeder, Knapp, secretary-treasurer.

County Executive committeemen: J. E. Murphy, Ira; T. J. Gilmora, Bethel community; Marian Lewis, County Line community; Ross Bishop, Knapp; G. H. Knight, Turner community; doorkeeper, Albert Miller, Ira; Chaplain, George Lewis, County Line community.

It was voted to hold meetings on last Saturday in each month. A motion was also made and carried that an organizer be put in the field to complete the work of organizing the county.

"NORTH OF 36"

What "The Covered Wagon" did for the romantic pioneer days of '49, "North of 36" does on the same sweeping scale for the rollicking, turbulent after-the-war period of the '70's. It is the time when the great republic, having weathered the storm of war, is setting sail for further adventures.

Irvin Willat, producer of "Wanderer of the Wasteland," has caught the glamor and fascination of his remarkable period of our history perfectly in "North of 36"—no less perfectly than did Emerson Hough, who wrote both the novels "North of 36" and "The Covered Wagon." On the same wideflung plan on which "The Covered Wagon" was produced, Willat has pictured the story of "Taise Lockhart" (Lois Wilson), girl rancher, who has inherited the greatest herd of cattle in Texas. How "Taise" to avert poverty, drives her gigantic herd North, aided by her ranch foreman "Jim Nabours" (Ernest Torrence) and a certain handsome mysterious stranger "Dan McMasters" (Jack Holt), is harassed at every turn by the villainous "Rudebaugh" (Noah Beery) and his cohorts, by Indians, stampedes, raging rivers, and all sorts of perils, and finally fights through to victory, is unfolded in a picture that will thrill Americans to the very marrow!

This picture is of particular interest to Texas people, inasmuch as it was made entirely within the State of Texas and deals with an important phase of Texas and national history, as well as being a story of wonderful human and love interest.

"North of 36" comes to Cozy Theatre for a 2-day run, Monday, March 9th.

To all persons interested in the estate of L. G. Ryan, deceased:

"PASSING THE BUCK."

The other day several well-known Snyder citizens were discussing a matter of local interest, and agreed that something should be done about it. But they also agreed it was unpleasant and unprofitable for any individual action to be taken, so they were inclined to think that it was an opportune time for the home-town newspaper to jump in with both feet and force the desired action.

There isn't anything strange about such proceedings as this. Hardly a week passes but the mails bring at least one letter to the editor from someone asking him to "jump on" somebody, and nearly always the writer wants his own name kept secret. If the newspaper were to do all that is asked of it by these people it would be a growling, snarling thing—and it would accomplish nothing.

The newspapers are always ready to oppose wrongs, and always ready to fight for the right, to demand practical reforms, to support every movement that is for the betterment of the community and to aid in every worthy cause. They are not afraid of making enemies when they know they are serving the public. But the truth is that most of the demands that the paper "jump in with both feet and demand action" are generally based upon selfish motives and are usually urged by the people who themselves are unwilling to do exactly what they request the newspaper to do. And about nine times out of ten they stand in the background and refuse co-operation when the newspaper does try to get something worth while accomplished.

BUILT THAT WAY.

The "busy little bee" has grounds for a libel suit against Frank B. Browne, a London scientist, who delights in what he calls "showing up" the little insect that has always been regarded in common with the ant as a fine example of industry. Browne is determined to destroy our ancient illusions, for in a magazine article he says "bees are both dull and

17 POST TEACHERS ENROLL IN STATE ASSOCIATION.

F. P. Moss, superintendent of the Post high school, today reported the enlistment of 17 of his faculty group in the Texas State Teachers' Association. Superintendent Moss and L. Z. Manire of the Post faculty are life members of the association. A campaign of enlistment is now being made in every school district of the state and unusual success is being met with in West and Northwest Texas.

Besides Superintendent Moss and Mr. Manire, the Post faculty includes C. L. Brannan, Mae Weakley, Lillian Hooper, Leta King, Leona Strayhorn, Lucille Bates, Beulah Thompson, Buena Shirley, Jo Haynes, Lillian Donnell, Loyce Clark, Mildred Boren, Joan Bullock, Bonnie McMahon, Eufaula Wise, Myreta Matthews, and Louise Cox.

stupid, and as for their industry they are keeping busy only because they are built that way." We could pick a jury in Snyder that would probably return a verdict for damages in favor of the bee, but what would be the use? Some people see only the seamy side of life, even in a bee hive, and Mr. Browne is possibly just another of those fellows who are never content unless they are trying to destroy all of the tender illusions and beliefs that we have handed down to us for generations. We're still for the bee, and we're still of the opinion that he sets mankind a mighty good example.

NEW CALOMEL BREAKS A COLD OVERNIGHT

When the purest kind of English Calomel was combined with pepsin by a smart young chemist, the world was given an ideal mild medicated laxative for breaking colds.

One night is long enough for this new, mild and non-sickening pepsin-treated calomel, called "Pepsinated Calomel" to break the most stubborn cold. Before breakfast time it vanishes and leaves you feeling fresh and fine.

"Pepsinated Calomel" does not sicken, gripe, salivate or upset you, but it does clean you out thoroughly, tone up the appetite, purify the blood, stop dull headaches, relieve stomach and bowel disorders and make you feel like a new person. Never take the old drastic calomel—insist on "Pepsinated Calomel" for it is better. Prepared by the Pepsinated Calomel Co., Atlanta, Ga. Sold by STINSON DRUG CO.

PRESBYTERIAN MISSIONARY NOTES.

The Presbyterian Missionary Society met Monday, February 26, 1925, in the home of Mrs. P. C. Chenault. The meeting was opened with a Scripture reading by Mrs. McCoach. Then Mrs. Chenault delightfully entertained the society by giving a book review of the study book, "Of One Blood."

This was the third book in our study course. The fourth and last will be given at the next meeting by Mrs. Shell.

At the close of the program each one present was handed a folded paper and pencil. These papers contained 13 sentences each containing the name of some member in the society. There was lots of fun and guessing as each one tried to find "What's in a Name."

At the close of the contest the hostess, assisted by Madames Baugh and Eliza, served delicious refreshments consisting of two kinds of sandwiches, cakes and tea to fifteen members and five members. This was voted as one of our most delightful meetings of the year.—Reporter.
