AMERICA HAS MOST OF WORLD'S TELEPHONES

There are nearly twice as many elephones in the United States as in all the rest of the world put together.

This striking statement, illustrative f American initiative and genius, is brought out in the figures, just compiled, showing the world's telephones. Out of a total of 24,576,121 telephones in use in the world on January per cent in the United States.

Europe had 6,390,765 telephones, or 26 per cent of the total, and the remaining 2,815,902 telephones, comprising 11 per cent of the whole, were scattered throughout Asia, Africa, Ocenia and the western hemisphere outside of this country.

The Revival Meetings

We congratulate the pastors of the several churches of this city upon their idea of holding simultaneous and co-operative revival meetings. We know the value of Christianity in the individual life and in the life of the community as a whole. The membership of our churches represent the highest types of citizenship and consecration.

As a financial institution and as individuals, we are anxious for the success of these meetings.

Years of

to Highway Transportation

25 years of anticipating the requirements of motoristsmaking manufacturing processes more certain-producing a higher standard of quality-25 years of unswerving adherence to the Firestone pledge, "Most Miles per/Dollar"-summarizes Firestone's record of service to car owners.

Firestone factories have grown from a small building approximately 75 x 150 feet to mammoth plants baving floor area of over 60 acresfrom a capital of \$50,000 to over \$50,000,000—from an annual sales volume of \$100,000 to over \$100,000,000—all in the short period of 25 years.

This Firestone record could only have been made through furnishing the public with outstanding values and is, consequently, your assurance of quality and lowest prices.

If you would like to know more of this wonderful record, ask your Firestone dealer to send von an illustrated folder.

With today's high cost of crude rubber and other raw materials, Firestone's opportunity to serve the public was never better, due to its great volume and special advantages in buying, manufacturing and distribution.

BUYITIN SNYDER

Don't get peeved because your mail order shoes don't fit, because your mail order pants are faded, because your mail order inner tube blows out, because your mail order flour makes bad biscuits, because your mail order screw driver brads on the end-blame yourself. Your home town merchant would have sold you better stuff at a little higher price (but no higher, quality considered) and he would have guaranteed it.

Moore's Studio was established in Snyder the latter part of 1921 by E. P. Moore. At that time our business was small but it has grown steadily until today we enjoy one of the finest businesses in West Texas. This steady growth is attributed to the high grade of work and the prompt service together with the "right price" and advertising. We have used every means to prevent many DOLLARS from leaving Snyder and Scurry County for developing, printing and films. We have tried to demonstrate to the people that we can do as good and in most cases better work than you can get from out-of-town firms and yet not occasioned the delay of waiting a week to get their work back. Our Studio is strictly up-to-date and we are equipped to do any kind of Commercial Work, either interior or outside views, High Grade Portraits and Enlargements of all kinds and sizes. We

specialize on Kodak Finishing and give a "speedy" service on this class of work. We also carry a large line of Kodak Films, Kodak Albums, Art Corners, Fancy Swinging Wall Frames, Fancy Portrait Frames and Console Venetian and Framed Mirrors. We also carry a large assortment of Picture Moulding and are in position to make you a frame for any size or kind of picture at a price that you can afford to pay. Just stop and pause for a moment -do the out-of-town photographers help your town or county in any manner? Do they contribute to any worthy cause? Did you ever receive any assistance from them in any way? As you help the home merchants just that much you help your home town and county. We are putting forth every effort to give you Quality Work and Speedy Service, and we solicit your business on this.

her mother, Mrs. Martha Green, and were used as p her intimate friends, Mesdames M. D. Akers, and Martha Guinn.

The home was beautifully decor- Mesdames H. C ated with summer flowers and a delicious dinner was served.

rating many reminiscences of the early life in Texas.

Mrs. Green settled in this part of Akers in the spring of 1878; Mrs. Guinn in the winter of 1879; Mrs. Gardner was thirteen years of age Millan and Miss Hattie Ladwig. when she came with her parents, Mr. and Mrs. J. T. Green in the year of

FORTY-TWO PARTY.

(Too Late for Last Week.) One of the pretty social affairs of the week was given Wednesday afternoon when Mmes. W. W. Hamilton and L. T. Stinson entertained at the home of Mrs. Hamilton with a party from four to six o'clock.

Vases of beautiful cut flowers adorned the rooms where nine ta-bles were arranged for the games of progressive "42."

At the conclusion of the interesting games, lovely luncheon cloths

World's Greatest Automobile Value

Can Get -a fully-equipped, quality tour-

for \$525 -a racy, streamline roadster for \$525 -a fine coupe with balloon tires and disc wheels

for 615 -a Fisher Body Coach seating five people comfortably

for *695 -a handsome sedan, beautifully upholstered and with full equipment and appointments for \$775

All prices f. o. b. Flint, Mich.

What you get for your money—that is what really counts—that is the definition of value.

In a Chevrolet you get the greatest amount of quality at low cost that it is possible to obtain in any car built.

Chevrolet offers you the most for your automobile dollar. It possesses 83 distinct quality features. It possesses construction typical of the highest priced cars—a powerful, economical motor-dry plate disc clutch—selective three speed transmission—sturdy rear axle with pressed steel, banjo type housing—semi-elliptic springs of chrome-vanadium steel—beautiful streamline bodies, with closed models by Fisher, finished in handsome colors of Duco whose luster and color last indefinitely. Compare these features with those of any car that you may wish to buy.

Chevrolet gives you power, durability, dependability, comfort, economy and fine appearance. And because this car provides such an extent of quality at low cost. Chevrolet has become the world's largest builder of quality cars with sliding gear transmission. See these remarkable values today.
