FLUVANNA NEWS.

More Rain.
Another fine rain fell over the Fluvanna territory early last Sunday morning. The precipitation measured full 3-4 of an inch at the Village Preacher's home. It is generally conceded, however, that the fall was considerably heavier north of town. Last year that section suffered most from the drought; this year they are getting the heaviest rains. The weather man seems to be evening matters up. V. P. believes that this fall will be a fine time for the sowing of wheat. Our people are still talking about the great rain that fell here on August 22—measuring 3 3-4 inches here in town, but many think that more water fell in other parts of the community. Perhaps this is true; but has the reader ever thought about what even 3 3-4 inches of evenly distributed water means. Well, here is something to think about: it means 424 1-2 short tons of water to every acre of land thus covered; and yet all this tonnage comes down to us out of the air. No wonder David said: "The heavens declare the glory of God and the firmament sheweth His handiwork!"

Church Affairs.
The Baptist meeting, mentioned last week, is still running; though it has been somewhat interrupted by weather conditions. We understand that this meeting will close Wednesday night. This scribe does not know just what the visible results may have been to date. We believe, however, that much good has been done in the way of toning up the moral and religious life of the community. We know that Brother McChristian, of Dallas, has been doing some splendid preaching.

The Fluvanna (Board) Baptist and Methodist churches will hold their regular services next Sunday.

Rev. Gobbles, a visiting minister, will preach for the Christian congregation next Saturday night and Sunday.

Business Affairs.
The managers of our two gins are putting their plants in order for season's run. We hope they have good business, though some are uneasy about worms.
Our school board has had a new coal bin erected and 25 tons of coal are being put in. It looks as if the kids should be able to keep warm.
W. B. Bane is having one of his old wooden store buildings taken down. We are wondering if he means to replace it with a commodious brick structure. We hope he does for such a structure is much needed.
J. C. Dorward shipped two cars of beef cattle from our pens, to the Fort Worth markets last Saturday.

Visits and Trips.

D. A. Jones and wife returned Friday from an extended trip to various points in New Mexico, the object of which was to improve Mrs. Jones' state of health. D. A. stated to the writer that his wife had him drive about 400 miles Friday in order that they might get back to vote in Saturday's primary election. That is real patriotic; who has a better record?

S. H. Ramsour and wife, formerly of this county, but now of Tyler, Texas, were recent visitors here among relatives and friends. The old folks were accompanied by their son, Arch, who has been County Clerk of Smith County for several years.

Mrs. F. P. (Grandmother) Patterson recently had a ten days' visit with friends in Snyder—mainly with the Ben Collier and Jim Hargroves families.

Mrs. Jake Ross and son of Roscoe, are visiting Mrs. Ross's parents, John Boren and family, here this week.

W. E. Dane of Fort Worth visited his sister, Mrs. Boynton, here last Sunday.
Bascom Landrum and young son recently returned from a visit

with relatives in Dallas.

Mrs. H. H. Haynes is visiting her sister, Mrs. Copeland, who is sick at Plains, Texas. She will also visit Mrs. Douglas, and his family at Portales, New Mex., before returning home.

Mrs. Josie of Big Spring recently paid a visit to the home of her sister, Mrs. Jephthah Landrum of this place.

Misses Nealy and Edna Squyres were moving Tuesday to Clairmont, preparatory to the beginning of their work as teachers in the school at that place. These are fine women and the Clairmont school is to be congratulated on securing their services.

Izora Patterson, daughter of Vibe Patterson, goes this week to Olney where she will visit with her aunt and have her tonsils removed while there.

G. R. Austin recently returned from Lubbock where he had an operation. It seems that Mr. Austin has a troublesome case on his hands, but we are hoping that he gets along well with it.

Prof. D. A. Snellings, M. A., of the State University of Austin, accompanied by his mother and L. V. Goodrich, of Stonewall County, took dinner with the Village Preacher and visited with other old friends here Tuesday. These people formerly resided in this community.

Life at Stake.
With all our modern life-pre-

serving and live-saving means and devices, it seems now that ones life is in greater danger, when he goes on the public roads, than ever before. And the pity and shame of it is that this condition is not at all necessary. It is pure recklessness and meanness. Ever little bit we hear of some disastrous car wreck, even here in Scurry County which is not yet a very populous portion of country. It is readily conceded that some accidents are wholly unavoidable, but we are here considering the preventable sort. These are due to three main causes, namely: the road-hog, the sober wreckless driver and the drunken driver. In fact all of these are road-hogs of a very dangerous sort. No highway or street is wide enough to eliminate the dangers they produce. The hazardous time has come when even the most sober,

careful, pains-taking driver must go, if he goes at all, on our public thoroughfares at the peril of property, limb and life. Valuable cars are being smashed, many people are being more or less seriously injured and, alas, some killed out-right. This condition is shameful and the guilty parties are criminals of the worst sort. "Thou shalt not kill."

The Inevitable.
Well, it seems that Ma and Pa have been "beaten with many stripes." How true the words: "He that knoweth to do good and doeth it not, shall be beaten with many stripes."—Jas. H. Tate

WHATLEY ITEMS.
This part of the county has again received a fine rain. The farmers would like to see a few days of sunshine now, as they

are busy gathering in their maize. Cotton is opening right fast. Earl and Vera Parker from White Bluff are staying with their uncle, John Parker, helping him head maize.
John Cargile and Clarence Whatley were down to see Henry Metcalf Sunday.
Arch and Floyd Logan from Pleasant Hill were up to see Ocie and Obie Buffalo a few days back.

Mrs. Cunningham is on the puny list this week.

Henry Metcalf is suffering with a bad hand, but is some better now.

John Parker said he never lost a vote in the election Saturday. Hurrah for Dan Moody.—Farmer.

Mr. and Mrs. T. H. Knighton and little son, Tom, of Canyon visited here Sunday with the Buchanan families.

Does Your Insurance Really Insure Your Family?

You probably have been paying insurance premiums for years—perhaps at a real sacrifice, perhaps it is your principal way of saving money. You pay these premiums to provide protection for your wife and children in case of accident to you. BUT IS YOUR INSURANCE REAL PROTECTION? Have you made provision to guard the investment of this money so that it won't be quickly dissipated, so that the blue-sky artists will not get the protection you intended for your loved ones? At no extra cost you can guarantee the protection of your family by leaving your insurance in trust with us. In a trust agreement you can dictate the precise method in which you wish the money used. Thus your exact situation will be met and your insurance will go only for the purpose for which it was intended. You can make a trust agreement to cover any of your property and for a specific purpose. Our knowledge and experience in these matters are at your disposal for the asking.

Wider roads.

If a railroad would multiply the number of its trains and then try to run them all over a single track week after week would occur. Yet in the past ten years the number of motor vehicles in this state has been multiplied many times and yet they must be driven over roads no wider than they were before there was a single auto in the country. We are blessed with some pretty good roads around Snyder, but none of them are any wider than they should be. Safe and sane driving is always needed, but even with this accidents would be

Listen, are you helping to make Snyder a bigger and better town? Or are you playing the part of a parasite? Why not fall in line and help build that hotel? If it helps Snyder, it will help you and your business.

The fellow who depends on the other fellow to keep his town growing and bringing business to town, is simply reaping where he has not sown. Why not loosen up just a little and do your part?

Get ready for school. Don't wait until the last day, but show some real interest in your child's education, by having it ready for an even start when the school opens.

Did you ever stop to consider what a modern hotel would mean to Snyder? If you haven't figured it, and can't, why not let some one who is deeply interested in the town figure it for you.

Loosen up a little and thereby turn Snyder loose and let it grow. Snyder really is trying to grow, but there are some folks who means that are really holding it back.

Sangers used 12 full pages in the Dallas News Sunday to tell the people about their reorganization sale. Sangers' is one of the oldest and largest concerns in Dallas and boast of the fact that the Dallas News has never published an issue that did not contain a Sanger advertisement. This again proves that a large business house does not advertise because it is a large concern, but that it is a large concern because it advertises.

Worms are damaging cotton in some communities in Scurry County. Most of the farmers in those communities are using poison in liberal quantities and with good results, notwithstanding the fact that the recent showers have had a tendency to wash off the poison. But after all, Scurry County has good prospects for one of the largest cotton crops in the county's entire history.

Although cotton has not begun to come in yet, Saturdays look like old times in Snyder. Our streets are crowded from early until late. And that is what the Times-Signal likes to see. Snyder is your town, and it will be no better than the people make it.

There is scarcely a day in the year that Snyder business men are not called on to contribute to some charitable cause. Someone has had some sort of misfortune, and he or his family are in needy circumstances. And, as a rule, our business men and others respond liberally. And it is right that they should respond, but—but what about going to other towns to do your trading? Are you asking for and getting help from Snyder business men and at the same time are you sending your money to the large mail order concerns? Patronize the men who build your schools, churches, roads and other public institutions and necessities and who are always willing to lend a helping hand when you are in needy circumstances.

If the Times-Signal man lived on a farm there are two things he would have if nothing else—radio and electric lights and frigidaires. These are two things that afford

more pleasure and comfort than almost anything else and can be had at a nominal cost. In fact, many city conveniences can be taken to the country if the country folk really want them. But it is a mighty hard matter to bring country conveniences to town.

Last week, the Times-Signal urged its readers to read the ads and to trade at home. That one editorial caused considerable comment on the part of a number of the Times-Signal's good friends. Several farmers remarked to the editor that they were reading the ads regularly and that they could not understand why some merchants could not see the value of advertising.

Say, Mr. Business Man, have you outlined a campaign for the fall and winter trade. Other towns and the city's big mail order houses are right on the job. Why let some one else reap the harvest that rightfully belongs to Snyder? But, don't blame our farmer friends for not going where they have not been invited to go. Better send them an invitation. The Times-Signal will carry the invitation for you cheaper and better than any other means on earth.

The Times-Signal is wondering what our good people are doing about our fair to be held this fall or early winter. Putting on a fair is very much like putting over anything else—it must have a head. Why not call a meeting of the chamber of commerce or a mass meeting of all interested in a fair, and take some definite action. Our farmer friends are looking forward to having a fair here and will be glad to do their part in putting it over.

TIMES SIGNAL SIGNALS.

Saving for a rainy day is fine; but buy your coal now so you can give winter a warm welcome.

It's always a pretty good idea for Snyder motorists to remember that their brakes won't stop the car behind them.

Uncle Sam's figures show that each American should have \$42.01 but some of us miss this amount by several hundred dollars.

If you think Dempsey isn't going to win his money when he fights Gene Tunney just try hitting yourself in the nose a few times.

Telling the truth is the best policy in the long run, but the trouble with some Snyder men is they don't run long enough.

Don't worry too much today. Things may be worse tomorrow and then you can worry twice as hard.

You can't get all your rights. For example, you've got a right to have a million dollars.

Some Snyder people spend so much time wondering where other people get all their money that they never have time to make any of their own.

Henry Ford is now building airplanes. When it comes to transportation the sky is the limit with him.

An alarm clock is a good deal more reliable than a rooster but it doesn't make getting up any easier.

Maybe if Snyder men took as good care of their complexion as

women do nature would give them better looking faces to work on. There are many gasoline savings devices on the market but a good pair of comfortable shoes is the best one.

Only a few more weeks left in which to get all washed up for the long cold spell.

What has become of the Snyder man who was saying along about 1920 that "money is the cheapest thing we've got."

The time is fast rolling around when about the only thing that will scare a horse is to see another horse in town.

Starting something you can't finish isn't half as bad as starting something you won't finish.

Any Snyder married man can tell you that having a heated discussion with your wife won't keep the house warm.

Some men live to a ripe old age and others go out hunting and pull the gun through a fence.

Well, the run-off election has come and gone and, of course, some were disappointed as to the results and of course that was inevitable. As there were two issues before the voters of the county we had two sets of election officers at Bethel, A. M. McPherson, J. E. Davis, Edgar Shuler and Mr. Myres for the stock law election, and F. I. Townsend, H. H. Jeffries, Holly Shuler and

scribe for the run-off primary. Everything went over quietly except the stock law election officers were a little peeved because we of the great free for all got the most votes or voters.

We are all waiting to see what Jim will do next for of course a little two-to-one thrashing won't faze him very much.

REVIVAL MEETING AT BAPTIST CHURCH.

(Continued from page one)

of God. He is one of the most efficient pianists that it has ever been my privilege to hear. He will thrill your soul just to hear him play the piano. He is equally as great as a gospel song leader, but perhaps Mr. Reynolds' greatest ability is shown in the way he plays his Marimba. When you hear him play this instrument once, you will thank God that he passed this way. He is a soul that is on fire for the lost to win them to Christ and help in this meeting

to help the community. Mrs. Reynolds is a most wonderful musician, as well as a soloist of unusual ability. You will be delighted to hear her sing from time to time.

Your prayers and presence are earnestly solicited in this great campaign.

The pastor, W. F. Ferguson, will do the preaching. The services will be held on Sunday at 11 o'clock, a. m. and 7:30 p. m. During the week the services will be held each day at ten o'clock and at 7:30 p. m. The first week in the day service will be given to the discussion of prayer. You

know of the contest. This is regrettable. Every farmer should read his local paper because not only contests but many articles interesting to them appear in the paper and they are able to keep up with what their neighbor is doing in the improvement of his methods of farming and stock-raising. The farmers could use the paper much more than they do in discussing their problems, because the editor has given his heartiest co-operation in printing any data obtainable concerning the experiences of the farmers in their farming methods which tend to further the progress in the county, and this contest shows he appreciates the fact that more feed is essential to the welfare of the county.

In the year 1925 there were 2,500,000 less acres planted in feed than in 1920, and in 1925 there were \$185,000,000 sent out of Texas to other states for food and feed which could have and should have been raised in the state.

Thirty thousand dollars were sent out of Texas last year for dairy products and in the last five years the number of milk cows in the state decreased 250,000.

Eighty-five thousand dollars left this state last year for pork and pork products—one quarter of a million left Scurry County for this purpose at the same time a quarter of a million left this county for feed, and we feel sure that a like amount will have left this year for feed by the time the year closes.

Under such conditions are you surprised that in Texas in the last five years the number of farm owners has decreased 19,000 and the number of renters has increased 50,000?

What can you and are you doing to remedy this situation? Do you not think that you could supply your own dairy, poultry and pork products as well as enough feed to run you, thus leaving your cotton as a clean surplus? Not

until this is done can a farmer call himself a real business man. JNO. F. CARMICHAEL, County Agent.

FEDERATED MISSIONARY MEETING.

The Presbyterian Women's Missionary Society entertained the other missionary societies of the town at the Presbyterian church Monday, 4 p. m., with Mrs. P. C. Chenuau presiding.

A good program was given, opening with the hymn, "Holy, Holy, Holy Lord God Almighty," in the singing of which all joined heartily and worshipfully, with Miss Ruth Buchanan pianist. The Scripture, Cor. 13, was well read by Mrs. R. E. Gray, with helpful comments.

Opening prayer by Mrs. B. W. Dodson.

The vocal duet, also the choral numbers and piano duet were much enjoyed. The reading of Longfellow's "Vision Beautiful," by Miss Rhoda Martin was an appreciated number, charmingly given.

An interesting paper on "Christian Education" was given by Mrs. Bert Baugh.

Closing prayer by Mrs. C. C. Higgins.

The social hour was pleasantly spent in a get-acquainted time, there being many new people among us. A refreshing plate of fruit punch, mints and white cake was served. We were glad to welcome the following visitors: Mrs. Duckworth of Post, Mrs. Youngblood of Sengraves, Mrs. Patterson of McKinney, and Mrs. Watkins of Del Rio.

Rev. and Mrs. J. W. Gregg of Seminole, Texas, returning Tuesday from the Presbyterian Encampment at Kerrville, Texas, are visiting here with friends. Misses Ruby and Jessie Mae Clark of Dallas were visitors in our city this week. They have

many old-time friends here who are always glad to see them.

CARD OF THANKS.

We wish to thank those who were so nice and good to us during the sickness and death of our little darling, also for the beautiful floral offering. May the Lord's richest blessings rest upon you. Mr. and Mrs. Harvey White, and Little Daughter, La Verne.

DERMOTT.

We had a 1-inch rain Sunday morning.

We had a nice little crowd at Sunday School and a large crowd at singing Sunday.

Justiceburg, Bethel and Dermott played ball on the Dermott diamond Sunday afternoon, Justiceburg being the winner in both games.

People of this community are awfully busy gathering their feed. Mrs. Julia Sullivan returned to her home at Camp Springs after a two weeks visit with her brother, Geo. Odom.

Lee Scrivner and family returned to their home at Caprock, New Mex., after a few days' visit with their kindfolk of this community.

A party at the home of H. E. Greenfield Thursday night was enjoyed by all.

Joe Pruitt and wife of Wilson, Okla., visited H. E. Greenfield Friday night.—Reporter.

Mr. and Mrs. Ed Shull who have been visiting here with Ed's brother, Clyde, and wife, returned to their home in Tyler last week.

Martin Norred and George Avary returned the past week from a trip to the Lower Rio grande Valley. They had a great time and say that they like the country down that way. Said they saw Cecil Morris, who had gotten to San Benito just a few hours before they arrived.

will do well to hear each of these messages. Each service will be especially planned to help those who come.

The meeting will be staged for the glory of God, and the salvation of the lost and the betterment of the community, and that the Christians may get on higher planes of Christian living and ready enjoy the blessings of God by living up to their Christian duty.

When we are conscious that the sands of time are hurriedly slipping from beneath our feet, we should be keenly interested as to our going. We read in God's word that "The times and seasons

we may know," but when man shall quit the walks of life no man can know. Every day a crepe hangs on the door of some home.

Is your home going to be that home? If so, how will you receive the experience? Attend this meeting not so much in order to get ready to die, but in order that you may get ready to live, and then there will be no question about how you will die.

Throughout this meeting there will be preached plain, simple gospel messages of God's redeeming love, not forgetting God's wrath to those who willfully continue their way in sin. We earnestly

invite you to come and attend these services and assure you that even though you are an unbeliever you will be glad that you came.

Let all of the Christians join in a united effort in prayer and work to make this a great revival, is the earnest request of the pastor.

Come and you shall be helped. Come and you will want to be a help to others. Let's make this life a life of cheerfulness, and gladness, and carry a message of hope and love and joy to that heart that knows not God. Come one, come all. You are assured of a hearty welcome.—Communicated.

COUNTY AGENT ENDORSES FEED CONTEST.

Are you a contestant in the feed contest put on by J. L. Martin, editor of the Scurry County Times?

The county agent has seen so much good feed the past few days over the county that he wishes every farmer in the county had entered this contest.

It is the experience everywhere that the farmer who raises enough feed to run him the following year is the one who prospers, and he finds in this county that the far-

mer who has consistently raised his own feed is the one who is able to make the payments on his farm, have a comfortable living and a small surplus in the bank.

These men always keep enough livestock such as hogs, cattle, etc., to consume extra feed and this brings in ready cash when needed, and when there is an extra amount they can market it at a better advantage in a pig or calf skin than any other way.

There is much interest manifested among the farmers in their feed crops this year, but in discussing it, many of them did not

Species Not Popular on Railroad Trains

Fond fathers who carry pictures of their offspring sitting in their bathtubs.

People who borrow your magazine to hold over Toto's basket every time the conductor comes along.

Charming young men who insist on talking to you.

Nice old ladies who asked you, three minutes after the train has started and then every 20 minutes thereafter, whether you are positive this is the right train, who you are positive, whether you haven't ever made a mistake in a similar situation, and what you think Joe will think if they should arrive as expected.

Children who get all smeared up with chocolate and then identify you as dad-dad.

Three-hundred-pound male bipeds with handkerchiefs in their collar bands who go for water between every station, always arriving at your chair just as the train lurches round the sharpest bend in the vicinity.

Young married couples who rest their heads on each other's shoulders when the nearest shoulder you dare rest your head on is 280 miles away.—Boston Herald.

Navigational Authority

One of the extremely old organizations in England is the Corporation of Trinity House, the history of every station, always arriving at your chair just as the train lurches round the sharpest bend in the vicinity.

It runs the lighthouses, buoys the channels, lays down the navigation marks and licenses most of the pilots. There are approximately 1,000 persons in its employ and all of them are engaged in some way or another in lessening the risks incidental to seafaring. Every American traveler who visits Europe is dependent upon Trinity House for reaching harbor safely on the other side.—Christian Science Monitor.

ITS HOT!

A proven aid to Beauty

The reporters asked Lady Diana Manneres, the beautiful Madonna of the "Meracle," for the secret of her complexion.

"ICE—lots of it, applied night and day, whenever I have the chance," said Lady Diana. "Nothing equals it for skin Health."

Use a piece of ice wrapped in soft linen, dipped in witch hazel and rub it well over the face. Ice is considered absolutely essential in treatments given by the modern Beauty Salon—

And its home use as a beauty aid is spreading rapidly as women realize its tonic effects.
