Twenty Years Ago In Snyder Brings Back Sweet Old Memories

Memory turns the pages of life back and makes us think of other days. Twenty years ago in Snyder, two decades to be frank, the town was being talked about through the Western Light which then was owned by Messrs. B. F. Smith and R. S. Jackson.

Snyder Water Well Making Good Showing

New Test Pump Producing 300 Gallons of Water Every Minute

The Times-Signal has been telling its readers about the big reduction in water rates in Snyder, which, with the abundant supply, will enable everybody to use water for lawns and gardens; and some, who were not in close touch with the city and our city dads, no doubt wondered how such a big reduction could be made and whence the water supply.

The new well is something over 200 feet deep, and strata of fine water were encountered within this depth. At a depth of thirty feet the drill encountered a solid rock on which now rests a heavy 27-inch casing which will case off all surface water and thereby prevent it from getting into the well proper. This will assure water that will be practically free from disease germs or any sort of bacteria that might otherwise get into the well from water that falls upon the surface.

REAL FISHING TRIP
The best luck of fishermen reported this season was that of a party who spent some time on the Pecos last week and the week before. Three fish they brought home weighed 60 pounds, and they had plenty of fish while in camp. The last of this fishing party to return arrived home last Friday. In the party were Messrs. J. A. Price, J. F. Banner, J. R. Strayhorn, O. C. Pittick, L. E. Newton, H. R. Phillips of Rotan, and friends from Ranger, Snyder, Glenrose and Stamford, of the Rotan Advance. Joe Stinson, of Stinson Bros. Drug store, was a member of the party. Joe told us about this, but we were happy to have confirmation. You know these fishermen!

Among the others who have a lot to learn, count in the Snyder girl who thinks a good-looking man always makes a good husband.

METHODIST CHURCH
Next Sunday is designated by church leaders to be "Father's Day." Accordingly, I shall preach on Genesis 15:19. I would like to have 100 men, fathers and sons to hear this sermon. The breaking down place in human society today is the home. This will, despite all efforts to prop up, finally break down the nation. The first weak spot, the first place of decay, in the downfall of every nation of the past can be traced to the de-

generacy in the home. Every nation is made up of the social, the educational and the political life of the people. These are pooled and make what we call a nation. The homes of the people are just so many little streams pouring into this pool. If the streams be pure, the pool is pure. If the streams are foul, the pool is foul.

POLAR NEWS
Everybody is working at Polar through the day, and some are attending church at night. Polar people are not rich people, but are happy. Why not? Money does not make happiness, but contentment does, and it is generally the outcome of hard work. "Work wins." That is why Polar stays on the map.

A brush arbor revival has begun in Polar which will last some few weeks. Bro. Chas. E. Parham from Kansas is doing the preaching.

Quite a number of people from other communities have been visiting friends and relatives during the past week.

We are sorry to report that Mrs. Ford, a pioneer of Polar, has been quite ill the past week. She is improving at present.

Chas. Lions and wife have recently moved into the Jack Elkins ranch house now in charge of Burton Moore. Mr. Lions will work the farm part of the E. W. Clark ranch east of Polar.

M. R. Lane has been doing some carpenter work for E. L. Peterson the past week or two. Mr. Lane is a furniture maker as well as a farmer.

Guy Peterson and family were guests of M. C. Newsum and family a part of last week.

The following people and others were in town shopping Saturday: B. A. Moore and wife, T. V. Cumble and son, E. L. Peterson and wife, Homer Fruit, W. A. Clanton, Henry Mitchell and family, Misses Irene Anderson and Mildred Elkins, A. C. Cargile, John Cargile and Mesdames E. G. Elkins, Chas. Cargile and J. A. Martin.

A young lady from Snyder, niece of Mrs. E. L. Peterson, has been her guest the past week. We fall to know her name.

Mr. and Mrs. Ernest Carlile were visitors of Ernest Elkins and family Sunday afternoon.

A number of Snyder people including H. L. Davis and family, Mr. Campbell and family, and Mr.

and Mrs. Carol Moore were guests of Mr. and Mrs. B. A. Moore Sunday afternoon. All seemed to enjoy the trip, especially the children who had plenty of room to play and ride horseback.
Polar people can smile again. A rain of two and a half inches or probably more fell Monday morning.

Mr. Earl Sparks; Misses Mary Wilson, Lucille Brown, Parthena Westbrook and Eula Stinson.

Dreadful Aches, PAINS Disappeared

"My health had been poor for ten years, before I took Cardui," says Mrs. Anna Cronin, of Rockport, Ind. "I was lifeless and 'no account.' I dragged around day after day, every move an effort, and never feeling the joy of being well."

"At times, I had a dreadful ache across my back, and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to; so I would get up, do what was absolutely necessary, and then lie down again."

"One day, someone suggested Cardui to me. I took it for several months, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared."

"That was two years ago. My improvement has been permanent. The good health, which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends."

SNYDER—JUST RIGHT
 The Dal-Paso Cavern Highway includes in its route our town, Snyder, where men are REAL men. And people who travel and in their cars ride. Will find Snyder's latch string is hanging outside. We are indeed lucky to be on this road. Where people are traveling load after load; And most all who pass invariably say That Snyder's the prettiest town on the way. So why not be happy and make Snyder grow? Just take a look over our square and you'll know That Snyder's the best town, by far, here-about. And that it's right on a most wonderful route.

IT LOOKS EASY
 An ambitious Snyder boy dropped in a few days ago to announce that he wants to break into the newspaper game, and to ask if we would please tell him how to make a success of it. Believing a lot of people would be interested in the answer, we are going to print it, just to show that we are not stingy with advice: You can run a newspaper easily and happily if you can listen with a smile to tiresome things you've heard before; if you can refuse to do what three or four people want you to do without making them mad; if you can write in a way to make people laugh when they feel like swearing; if you can keep silent when you feel like you'll bust if you don't talk; if you can refuse a woman's request for a lot of free space for her pet aid society without making the whole congregation sore; if you can explain a typographical error without using up more than two or three hours' time; if you can explain why Mrs. Somebody's poem on "Spring Flowers" did not get into the paper; if you can take a four-line item and spread it to a whole column when your best advertiser threatens to quit if you don't; if you have a nose for news and an itch for writing and have trained yourself not to get drowsy when called to work about 18 out of every 24 hours; if you can make your subscribers understand that paper and ink dealers insist on being paid for their products; if you can go to church on Sunday and see a man drop a dollar bill in the contribution box when he is nine years behind on his subscription and yet not begrudge that dollar to the Lord—if

you can do these things you ought to get by in the newspaper game.
JAYTON NEWSPAPER WAKES UP
 Last week's Jayton Chronicle came out with the following article, headed, "Some Signs Needed":
 "We are told that down the T. T. Highway a way there are some signs that turn the auto traffic off the T. T. Trail by making some extravagant claims for another roadway to the west, which is not only misleading to the traveler but is diverting much of the traveling trade to towns between these towns and the plains country. If this is the case, and no doubt it is, we ask why not some signs of our own. Spur, Jayton, Aspermont and other towns up this way could well afford to utilize and remedy the wrong at very little expense to any of them. So we ask, why not some signs of our own, directing the traffic as it should come?"
 The Times-Signal's advice to this editor is to haul his road map out and compare the two highways to Lubbock and Amarillo. See'y E. P. Moore of the Scurry County Chamber of Commerce was instrumental in getting this sign up, WHICH TELLS THE TRUTH. It is a shorter route by the Dal-Paso Cavern Highway to Lubbock and Amarillo.
 We believe in "calling a spade a spade," and the Dal-Paso Cavern Highway boosters will spend all the money necessary to honestly tell the tourists which is the better way to come. It is decidedly NOT by way of Jayton, Spur or Aspermont—but is by way of Snyder, when any one is considering getting to the Plains country from the east.
HOME MERCHANT REAL FRIEND
 When we are all the home merchant stands vigil, extends credit to the family, and when we die he helps to carry our coffin to the grave. Our widows and orphans are employed by him when husbands and fathers are no more. Think it over the next time you are tempted to sneak off and send your money to multimillionaire mail order houses.—Kaufman.
 It is never a wise thing to do, being unneighborly for the purpose of saving a few cents on a purchase, or even a few dollars in the course of a year. Community good will resolves itself into personal good will, and good will are perhaps the best thing about a community of a size which enables all the people to know one another. Back of this, to be sure, is the individual's right to exercise his own judgment in placing his trade orders. To deny the citizen of a small town the liberty of trading in a larger one would be to reduce the small as well as the great cross-roads proportions. It is human liberty, in the last event, that builds homes, builds towns, builds cities. The extreme individualist who wants no neighbors, who wants no company, who wants no intercourse with his kind, is fit for the isolation of the wilderness, but not fit for community life. Business, retail, wholesale and manufacturing, is today more fluid in its nature than ever was before. Its currents flow where there is least obstruction. Portions of the major current may be diverted by those who make channels running into their own establishments. But it passes un mindful of those who set themselves above it and wait for it to turn aside and rise to them. Business must be invited. It is a man and no guest goes where he doubts his welcome.—State Press in the Dallas News.

Weather and Crops
 Hermleigh received a good, old-fashioned slow rain Monday, and now (Tuesday morning) there are prospects of more. Let it come! We surely do need it! Monday's rain was not a "season", though it was enough to bring up the cotton planted last week. It was an unusual sight to see so many cotton planters running so late in June, but the farmers decided that if they had any cotton at all it had to be planted. So they put the seed in the ground, trusting Providence for rain, for even if their fields were moist enough to

bring up the young plants, they couldn't live long without rain. Most of the few that had early cotton had to plant over as a result of its being killed by the sand Sunday before last. The shower that day did not amount to much here, but it did help to keep things alive a while longer, and encourage farmers to plant, hoping it would rain.
HERE'S ONE FOR YOU MATHEMATICIANS
 Here is another one in high mathematics. They say figures don't lie, but do they? A man wanted a ticket to a place in West Texas and only had a two dollar bill. It required three dollars to get the ticket. He took the two dollar bill to a pawn shop and pawned it for \$1.50. On his way

back to the depot he met a friend to whom he sold the pawn ticket for \$1.50. That gave him three dollars for the ticket. Now, who is out the dollar?
WHEAT CROP IS GOOD
 The Roscoe Times says that wheat in that territory is turning out better than was expected before harvesting was started. Those who have cut and threshed say their wheat has turned out from 8 to 12 bushels per acre. It is being sold for an average price of a little better than \$1.30 per bushel. Mr. Seago has possibly the largest crop of any individual in the county with something over 400 acres. His wheat is averaging about 12 bushels, and is being harvested with a combine.

That is the reason for the high resale value of the current series of the General Motors cars. It is also the reason why USED General Motors cars offer real opportunities.

General Motors dealers are dependable merchants and will give you, if you wish to buy out of income, the advantage of the low rates of the GMAC Plan of time payment.

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Weather and Crops

The news about which we are all most interested just now is not news at all for we all know it—that is the abundant and timely rain. My! We are all fearfully dependent creatures. What would we have done had the rain not come? In spite of our extreme unworthiness, the wise and merciful Father provides all these essential things. Surely we ought to be better folks. Anyway, on last Sunday night and Monday the rain machinery went into action, with the result that Fluvanna received 1 1/4 inches of water. This means about 198 tons of water to each acre of land thus covered. After all, such a rain is a piece of "big business." Furthermore, it seems that most all of West Texas was covered. This makes the blessing all the more abundant. Just a week previously Fluvanna received a rain measuring 3/4 inch. Thus, we had to date (Tuesday) 2 1/2 inches of rain this month. This puts the farming and stock business of this section on the "safety" for some time. Generally speaking, the crop condition about Fluvanna is quite good, though a bit late. Most of our farmers believe in cultivation, hence they had their lands in fine condition and crops up, clean and ready for "the latter rain."

Sickness and Death

On last Wednesday morning, June 8, a son was born to Mr. and Mrs. L. G. Braswell, residing just north of Fluvanna on the Cribb farm. The child did not survive and was buried Thursday morning, the Village Preacher being in charge of the service. The mother, having been in bad health for some time, did not do well. Her condition grew more serious until

the end came early Friday morning. The doctors, relatives and friends did all they could for the suffering patient, but the hand of death could not be stayed. The deceased had been a member of the Baptist church for some time, hence the funeral service was held in the Baptist church Friday afternoon by Rev. Sanders of Snyder, assisted by V. P., a large company of relatives and neighbors being in attendance. The pall bearers represented four or five different churches. The deceased was 36 years old. She left her husband, seven daughters, two of whom are married, and many other relatives to mourn their untimely loss. The married daughters, Mrs. Clark Nicks of this county and Mrs. Archie Huddleston of Petrolia, and three brothers, J. E. Mallon of Dermott, A. R. and H. T. Mallon of Dora, and a sister, Mrs. Floyd Phillips of Sweetwater, were all with the patient before the end came.

Many kind neighbors, with both hand and purse, rendered timely assistance. As soon as the land is dry enough the farmers will help Mr. Braswell clean his crop. These kindnesses are highly appreciated by the stricken family and relatives, some from other communities declaring that they never saw it better.

Mrs. Ruby (Mert) Jones underwent two operations in the Alexander Sanitarium at Abilene Monday. We understand that the operations are not considered very serious—one being the removal of tonsils. On Tuesday the patient was said to be doing fine.

Church Services

Rev. Alexander, Baptist associational missionary, of Snyder filled the vacant pulpit of the Fluvanna Baptist church last Saturday night and Sunday.

Regular services were held at the Presbyterian church last Sunday.

Miscellaneous Notes

Will Beaver recently purchased and put into operation on his farm a combine harvesting and threshing machine. Although this is one of the smallest machines of its sort, Mr. Beaver says it will cover 20 to 25 acres per day, delivering the grain ready for market. He also says that, while the yield is short, the quality of the grain is good. The combine is drawn by a Fordson tractor and is doing very satisfactory work.

J. T. Beaver, member of our boys' club, is in Lubbock this week participating in the judging contest being conducted there.

Miss Horace Sims is in Canyon where she will spend the summer in the continuation of her studies.

A lively game of baseball was played on the new Fluvanna diamond last Saturday afternoon between the local and Dermott teams. We understand that the results were 12 to 8 in favor of Fluvanna. The V. P. appreciated the Saturday game. That is so much better than to take the Lord's Day for it. Business firms and men should strive to allow their young employees the opportunity of attending these games on week days so that they will not feel constrained to fix their dates on Sundays. Such a course will be far better.

Visits and Trips

In addition to the Braswell rela-

tives already mentioned, the following persons, connected with the family, were here last week: Mrs. J. E. Mallon and children of Dermott; Chark Nicks, of east of Snyder; Howard Hollowell of Dora; and Archie Huddleston of Petrolia.

Doubtless the self-made man thinks he could make a better job of it if he had another chance.

ANTICIPATION

"Anticipation" is a blood brother to "appetite," and appetite is nature's aid to digestion and health. Willie has just peeked into the ice box. His mind is a big picture of GOOD eats. He knows when Mother has delicious things in the refrigerator they will just "hit the spot" when dinner is served. Active, romping boys and girls need plenty of fresh, invigorating food. Give the youngsters all they want. They need it. But always be sure their food is clean, wholesome, and freshly purchased. Keep it with ice, clear, sparkling, pure.
