THE BALANCE you carry in your checking account has a good deal to do with the amount of credit extended at your bank.

When one man wonders why he can't borrow as readily as his neighbor, granting all other factors equal, the reason is probably found in a steady, substantial average balance as against a small, fluctuating account.

It is good business from every standpoint to build up your bank balance. You build credit for the future, a bulwark against emergencies, ready capital for business opportunities.

W. C. T. U. SAYS PRESS MORE INFLUENTIAL THAN PULPIT

The press wields greater influence than the pulpit in the opinion of members of the Ennis W. C. T. U. In a general discussion at Ennis the organization decided that newspapers reach more people, reach them oftener and give both sides of the question, leaving the reader to form his own conclusions.

UNION DOTS

Whew! but this is warm weather and a fellow has to hoe or cut maize or just fan himself with his old hat, and it is all work, or seems that way to Union Dots.

Everything is progressing fine out Union way. Most of the farmers had to poison the leaf worm, but we have learned to do that pretty quick, thanks to the efforts of the state Department of Agriculture. It is no trouble to remember the time when we just let them eat our crops up without trying to hinder, but 'tis not so now. We jump on them with both feet and give them a dose of arsenic, and it is good-bye to the worm.

We hear some say that poisoning is injurious to the cotton, but this is the third year that we have used poison in our crop, and we have seen no injurious effects from the use of poison, but have been paid many times over for our time and expense, so we very heartily recommend poison.

The Sunday school were well attended Sunday.

Rev. C. R. Hardy preached at the 11 o'clock hour at the Methodist church Sunday. There were 19 additions to the church.

The Epworth League program came at the usual hour, and the pastor preached again at 8:30, this being the last service of the meeting which had been in progress for ten days. After a very earnest talk by Brother Hardy, a call was made for penitents, and 20 young men and women and boys and girls responded to the call and accepted Christ. I can't describe this to you, good reader, but I can say that it was an outpouring of the Holy Spirit such as you rarely ever witness. Backsliders were reclaimed and those who had grown cold were revived. In fact, we had a glorious meeting with 40 or 50 conversions and relocations.

Grady Biggs and family are home for a short stay before his school work begins upon the plains.

Mrs. Lola Biggs spent last week with home folks and attended the meeting. Arlie decided Friday that he must see Lola and John Hillburn, so he came in and enjoyed the meeting for a while. They returned to their home in Big Spring Sunday evening.

Mrs. Colon James was a guest in the home of Union Dots Saturday night and Sunday, returning to her home in Fluvanna Sunday night. We were glad to have her with us. Come again, Mrs. James.

We very nearly forgot to mention that there was a baptizing service at Jim Davis's home Sunday evening. Mr. Davis has a splendid concrete tank where anyone who prefers to be baptized by immersion may do so in nice, clean water. There were four candidates baptized.

Mrs. J. W. Bynum and Miss Tennie Jeffers are visiting in Amarillo this week.

Leslie Bynum is visiting and attending to business in Amherst this week.

Say, Editor, those roasting ears are gone, and you failed to get your part.

"Uncle Billy" Sims claims the small "egg" championship in Scurry County, from the big type Rhode Island Red strain. He brought two eggs to the Times-Signal office yesterday so small that we sent out an S. O. S. for a microscope. We won't argue with "Uncle Billy." He simply wins first prize, blue ribbon and all sweepstakes. Ask him about his miniature eggs.

SNYDER'S FIRE TRUCK GIVES DEMONSTRATION FOR HASKELL CITIZENS

Mr. Blaine, representative of the Southern Fire Equipment Co., of Dallas, was in the city Wednesday with one of the company's pumpers, en route to Snyder, where the machine is to be delivered by Chief Casstevens and C. J. Yoder of the Snyder Fire Department, says the Haskell Free Press.

The gentlemen spent Tuesday night in the city and Wednesday morning gave a demonstration of the truck on the square here. The machine is of the latest type, pumping 500 gallons of water per minute, and Chief Casstevens stated that with the new equipment Snyder would have a department as well equipped as any in the state, considering the size of his town.

The Scurry County Times And Snyder Signal

THE OFFICIAL NEWSPAPER OF SCURRY COUNTY AND THE CITY OF SNYDER

J. L. MARTIN, Senior Editor GEO. F. SMITH, Junior Editor Editors and Publishers

Published Every Thursday at Snyder, Scurry County, Texas.

Entered at the postoffice at Snyder, Texas, as second class mail matter, according to the Act of Congress, March 3, 1897.

Let's Boost a County Hospital!

HOW CAN THEY?

The Times-Signal asked for specific information in Roscoe from a gentleman who knows what he is talking about concerning the ice prices there. This is what he wrote:

"The price in Roscoe is 55 cents per 100 pounds delivered or if you go after it, and I think it is the same in Sweetwater. Roscoe ice is sold in Sweetwater for 55 cents, as is Sweetwater ice sold here for 55 cents."

Now if any sensible gentleman will rise up and tell us "HOW" the same ice company that produces ice for Snyder at 80 cents a hundred can manufacture it in their Sweetwater plant and truck it to Roscoe for 55 cents, we'd like to hear from him. It is beyond our comprehension.

Snyder citizens and merchants are foolishly paying this public utility "two-bits" royalty for the privilege of using their ice.

Right is right and wrong is no one, but here is an unjust case of discrimination, and you and I, Mr. Snyder Citizen, are footing the bill, as you have been doing for years. The public utility has piled thousands of dollars on ice alone into their cash registers because they felt that, owing to no opposition, they could do it. There's a time in the history of every city that sooner or later they must rise from their swaddling clothes stage and act like grown people. It is Snyder's time to do that right now, and wield no uncertain paddle in swiping the company that has been exacting "two-bits" royalty from them for years. It is time that Snyder crawled out of its diapers, put on long pants and grown to a lusty state of full manhood. Now is the time.

Like the man who wrote us, in the article on our front page, "I am opposed to paying excess royalties to Wall Street," we all may agree, but that's exactly what we are doing. Will you speak to the mayor and council of Snyder?

WE'RE READY TO RAISE! TIGHT - WADS STAY OUT!

A "man at our elbow" tells us that about seven merchants are really the backbone of keeping the hide and tissue of the Scurry County Chamber of Commerce together.

The Junior Editor knows from personal observation that local members are not contributing one-fifth, perhaps one-tenth what they should be doing to keep the "underwear on our commercial organization."

The Times-Signal, for one, is ready to raise its ante and pay more money for belonging to the best organization that Scurry County has ever attempted. No tents can be spread over Snyder. It's outgrown that. We're ready to pay more money to the Scurry County Chamber of Commerce—and do it now!

THAT HOLIDAY SMILE

We overheard a Snyder man wishing yesterday that everybody could be as happy all during the year as they are along about Christmas time. Why can't they? There isn't any law in the world against it. It doesn't require any more effort to smile in the spring and the summer and the fall than it does at Christmas time. It is always easy to be cheerful and courteous and hospitable. Why should these virtues be worn like a coat that can be taken off right after one Christmas and donned again only at the next Christmas? If you've got all your Christmas problems solved, sit down by yourself and try to solve this one. Ask yourself why you can't be as happy and cheerful and courteous to everyone all through the year as you are along about the middle and last of December.

HONESTY IN ADVERTISING

We dare say that no Texas publisher, or resident, but what hasn't been confronted at one time or another with rosy Florida advertising. But one thing is certain, we all must take our hats off to Boca Grande, Florida, for the honesty of their presentation in a recent issue of the New Yorker, which said:

"Boca Grande, Florida.—From every standpoint of the amusement industry and the real estate promoter, Boca Grande is a dead town. It always has been dead and probably always will be. That is why, it appeals to many live people."

"It doesn't quarrel with any of the bigger and better movements. It simply lets them alone. It has no Chamber of Commerce, no dredges or sand-suckers, and nothing proposed for 1930. Boca Grande is simply a haven for those who prefer to roll their own in the way of amusement. Providence did a perfectly satisfactory job in making this a lovely place to swim and fish and golf, and we have been wintering here since long before the boom came and went, let it go at that."

"You might like Boca Grande a lot. Many clever people do. It is an adventure in naturalness. Let us send you a book about it. It is

a very nice book and not too much exaggerated."

In our humble opinion, that is the best piece of real estate copy every town so far as that matters. Its basic truthfulness is worthy of emulation.

WHERE IS BRECKENRIDGE?

At the Seminole meeting of the Dal-Paso Cavern Highway boosters, Breckenridge clamored loudly for the next meeting. That was July 25th. Not once have we heard any noise about the next meeting, either from Breckenridge or the secretary, Wm. A. Wilson, of Lamesa.

It has been the intention to exploit this highway—keep pegging away and get some place, but such Rip Van Winkle tactics will never get this route any place. Breckenridge, wake up from your slumbers and give us some "pep" for the next meeting.

SCURRY ADVANCING

Scurry County's oil production appears in the public prints this week as gaining 10 barrels over the previous week, a total of 50 barrels now being, shown as a-

gainst 40 barrels the previous week.

One of these days, we hope, along with other folks, that the old barrel heads start blowing off and that Scurry comes into its own. Whether or not that will come true, diversification here is placing the county on a higher plane than it has ever reached heretofore.

The Scurry County Fair, week after next, will prove that.

COUNTY AGENT NOTES

C. C. Willis, County Agent

Winning Battle on Worms In every community in Scurry County the leaf worm is giving ground and being completely controlled. The most effective control measure has been spraying with calcium arsenate at the rate of 4 pounds per barrel of water with the addition of soap. Some men have found it necessary to cover their cotton twice in order to completely get all the worms. This was made necessary because the cotton was not completely covered the first spraying. News comes from every community that

worms are being completely controlled.

Turning Under the Feed Crops Mr. Burl in the Canyon community, Mr. Moore, west of Snyder, and several others in various parts of the county have started turning under their maize following the heading. This is unquestionably a paying practice, a practice that increases the yielding ability of the soil and makes it easier to work. Soil with humus will hold more water.

The North Texas Agricultural College is offering scholarships to boys who would like to work their way through school. Applications may be secured at the county agent's office.

E. A. Miller, agronomist from the Texas A. & M. College, will give a field demonstration Thursday morning at Hermleigh on selecting pure type seeds. Mr. Miller will be at Ira the afternoon of the same day.

Plans Under Way for Fair Many communities are getting organized for representation at the county fair on Sept. 15, 16, and 17. Hermleigh is planning a community fair on Sept. 10, which should be attractive to all the people of this trade territory. The best from the Hermleigh fair will

be carried to the Scurry County Fair at Snyder. Union held a meeting last night and plans were made to make this community a winner in the community booths. Ira, Dermott, Camp Springs, Fluvanna have all begun to make preparations to make competition keen, and all indications point to the best county fair in the history of

the organization. Why not?

This year's fair program includes many unusual features. A large parade will open the fair on Thursday morning. A musical studio will be worked up whereby the talent of each of the communities over the county will give programs all during the fair. The old fiddlers' contest will be another

one of the features. The public school is planning a school carnival that will add fun and amusement to the occasion, and efforts are being made to get both a football and baseball game to make something every day and every minute to make the occasion a big one.

So boost the County Fair!

Able G. Barrientes, the Mexican mayor and governor of Snyder, is receiving many letters from Mexicans all over the state of Texas wanting to come to Snyder to pick cotton.

WATCH THE 13TH

Don't let this "13" scare you. It means much to you and all the people of Scurry County. Tuesday, September 13, will be the meeting night for all the members of the Scurry County Chamber of Commerce.

The secretary will follow up all members with a letter. This notice will appear in next week's paper. Now, Scurry County folks, let's all get in the habit of remembering the second Tuesday in each month as the regular meeting night of the chamber of commerce to be held at the court house.

The Livestock Situation

LOS ANGELES, August 24.—Soil producing food stuff and other commodities required for the sustenance and comfort of humanity is the final basis from which everything must be reckoned.

Community prosperity is governed by recognition of the importance of building up and maintaining fertility of the soil. We have examples of this in the so-called "desert-farms" in sections of the east where everything was taken and nothing returned to the soil for generations.

It is self evident that year in and year out the raising and feeding of even a small number of meat food animals gives to the producer, regardless of what his main line of production is, a much needed diversification.

The value of fertilizer derived from livestock is a few animals on a farm, when considered in dollars, overshadows the profits to be made from the handling of the animals themselves.

rying a few head of livestock on his place isn't so seriously affected as the producer who relies entirely upon one crop for his revenue.

Livestock markets report increasing gains in receipts arriving from small producers, many times coming in the form of community shipments where several producers pool their holdings in order to make up a carload.

Let Snyder Get Rid of Chronic Obstructionists

As far back as history goes, there have been persons who have stood in the way of progress, some for reasons mercenary, others because of a real lack of vision or natural narrow tendencies.

It is a matter of record that the builders of the ancient cities and public monuments, some of which still exist, were met by hundreds of obstacles placed in their way by visionless men, who did not have the future interests of their communities and the world at heart.

Knockers and obstructionists,

"reds" and others of like character are not wanted in Snyder.

The town needs men with vision, with the future of the city before them and who are above the petty counseling of the minor few. Men who are active and will push the chamber of commerce to the true position that this body should attain to in the community is what we need.

MUST WEAR GREY

City motor cops must wear grey uniforms and a diamond badge prescribed by the state to make arrest for violation of the speed limit law, the attorney general's department ruled last Saturday.

Snyder will now have to purchase a new uniform for Marshal Woodfin if he is to make speed arrests.

LEARNING GAME OF GOLF

When asked how he made out on his first trial at the Snyder golf links, Homer Jenkins replied that he made it in fifty.

"Fifty," ejaculated his friend, "that is really remarkable. Earl Fish, O. O. Harris, and A. D. Erwin and others would envy that score. You'll surely be an enthusiast from now on."

"Yes," said Homer, condescendingly. "I'm going back tomorrow and try the second hole."

WHY WE LOSE RESPECT FOR UNCLE SAM'S LAW

W. W. Davis, state game warden at El Paso, says: "Very few people know that it is against the law to pen up mocking birds, orioles, sparrows and other birds not canaries or parrots. In this respect the game laws are violated more in the city than in the country."

Can you beat it? Here we stand liable to prosecution if we place a sparrow in a cage. We certainly send some wonderful "birds" to Austin to make our laws. No wonder people are losing respect for all laws; when every few days we are "wised up" to some fool law which may make us a law violator.

Hermligh News Notes

Miss Ina Mae Caswell is the authorized correspondent for Hermligh, and as such is authorized to receive renewal and new subscriptions. Co-operate with her in building a fine weekly news column for this thriving town.

Tuesday morning E. L. Moore died at the age of 71. He had lived in Hermligh. It will be in time, and was admired by all who knew him. Funeral services were conducted Thursday afternoon at the tabernacle here by Rev. Black of Snyder, and interment was at the Old Pyron cemetery.

Hermligh Receives First Bale Wednesday of last week John Shipman brought in Hermligh's first bale of 1927 cotton. The bale was ginned at the Williams and Terry gin, and the owner received a premium of \$45 from the local merchants.

Mrs. F. W. Sherwood of Galesburg, Ill., Lewine Bryant of Milan County, Mr. and Mrs. Aleck Cross of Post City and Mr. and Mrs. Tom Moore of Snyder were here Thursday to attend the funeral of their father, E. L. Moore.

Mrs. Oscar Coston of Pearl arrived here Thursday afternoon. Mr. and Mrs. Coston will make their home near Hermligh in the future.

Ada Marie Weaver has been visiting in Bronte. Milford Davis went to Scout Camp at Blackwell Saturday afternoon in company with his brother, Bill, and his friend, both of whom hail from Rotan.

Victor Longbotham and Stewart Womack of Snyder were business visitors in Sweetwater Thursday. W. M. Henry is visiting in the home of his brother, J. J. Henry, en route home from Colorado State.

A. D. Higginbotham was a business visitor in Fort Worth Friday. Mr. and Mrs. John Patterson, grandson, Taft Patterson, daughter, Mrs. Goble, and her daughter, Alma Bralley and Madge Goble, returned Saturday from an extended automobile trip in the East.

H. Coston of Commerce and the Messrs. Colman of Josephine, Nevada, have been visiting relatives and friends here.

Mr. and Mrs. Ray Patterson were rudely awakened Wednesday morning at 5 o'clock by someone who had broken into their home. Nothing was missing, but some fried chicken, so the miscreant must have been some hungry "knight of the road."

Mrs. W. F. Burns, son, Dennis, and daughters, Zola, Edna, and Nora, took Grandpa Burns to Maryneel Saturday to be with his sister, Mrs. Lou Alexander.

Walter Gentry accompanied his daughter, Mary Lee, to her home in Kerrville last Tuesday. Mrs. Eunice C. Lee of Loraine was a guest in the home of her sister, Mrs. B. F. Caswell, last week-end.

Don't forget Hermligh's Gold Saturday Sept. 3rd. Olivia Calley gave a farewell party for her many friends Saturday night. She is leaving this week for the Lubbock Sanitarium where she has been enrolled as a student nurse.

The Central Baptist revival closed Sunday night. Rev. Morgan of Colorado gave a series of inspiring sermons last week, and his son aroused much interest in the young people through his ability as a song leader and by his organization of a B. Y. P. U. The church was strengthened by the addition of three new members.

An Appreciation I must discontinue my work as Hermligh correspondent, for I leave for school within a short time, so I take this method of thanking all those who have been so helpful to me. Especially do I appreciate the many kindnesses shown me by Mrs. Longbotham, Mrs. Windle, Mrs. Henry and daughter, Beta, and Elmer Londer. Their weekly cooperation has made negotiating a pleasure instead of a task.

THE part played by the kidneys and their importance to bodily health should be clearly understood. Sluggish kidneys do not thoroughly cleanse the blood of poisonous wastes. Such impurities are apt to make one dull, tired and achy with often a nagging backache, drowsy headaches and dizziness. A common warning of imperfect kidney action is scanty or burning excretions. BAPTISTS WIN EASILY OVER THE FIRE BOYS With the combination of the new fire truck siren and Baptist bats, the Fire Department was decisively defeated Thursday, 18 to 4 in the worst runaway game of the entire Twilight League season.

The Fire Department started out in the first inning to get plenty of runs, two being registered, but after that inning their offense crumbled, and the defense had apparently been buried away in the hose supply of the new fire truck that was on the grounds.

Pat Bullock pitched a fine game for the Baptist boys, yielding but six hits and striking out seven batters, while the winners were landing on Autry, MacGideon and Casstevens for a total of 15 hits. Errors by the fire boys also contributed to the disaster.

The official box score shows: BAPTISTS ABR HPO A E A. McGlaun, 3b 4 1 0 0 2 0 Stacey, ss 4 0 2 0 2 1 Sims, 1b 3 2 1 6 0 1 Hill, c 5 3 3 9 0 1 Bullock, p 5 5 3 0 1 0 Fish, lf 4 2 3 0 0 0 Curry, cf 2 2 1 2 0 0 Stoker, rf 3 1 1 0 0 0 Thorp, 2b 3 2 1 4 0 0

The Baptist Sunday School team is the official winner of the Twilight Baseball League series.

MEN'S BIBLE CLASS WINS FINAL GAME WITH RUN-AWAY Thunder heads and showers appeared to the north Tuesday afternoon, that is to folks who were down town, but it later developed that the Men's Bible Class was winning its one and only game in the Twilight League. They took their spite on the Christian boys, 13 to 3, but like the doctor who performed the operation, "the operation was successful, but the patient died." It took the Men's Bible Class, which on paper looked the best in the league, an entire season to win one measly ball game, but our hats are off to them. So far as we are concerned they can have the leaded nickel to wear around the top of their bath tubs. We're "fer 'em" right or wrong. How's that?

A resume of the game would be impossible except to say that Joyce and Tant Johnson pitched for the Christian boys and gave 19 hits with 13 runs. Shorty Sims

"poured it on" the brethren by letting out 3 runs and 8 hits. We might add that the bashful "Bill" Hutchison, who has been trying to play third base for the Men's Class, got 4 hits out of 4 times up. Let the big league managers take notice.

According to Percy Jones, official score keeper, who had his job taken away from him Tuesday to play ball, and his outstanding performance was a "hit in the wrist," the batting average of all the players in the league hitting 250 and above follows:

Baptists: Thorp, 250; Green (2 games), 750; Bullock, 371; Fish, 264; Hill, 528; R. Sims, 333; A. McGlaun, 357; Roberts, 250; C. Boren, 500; and Stacey, 364.

Fire Department: Von Roeder, 298; Hicks, 437; Autry, 375; Yoder, 295; Graham, 466; McGideon, 500; Rogers, 273.

Christians: P. Hutchison, 267; Tant Johnson, 413; H. Boren, 333; Cooper, 354; Ketter, 500; Fritz Smith, 500.

Men's Bible Class: Bill Hutchison, 427; Shorty Sims, 466; Gates, 250; Odom, 256; Roy Fesmire, 250.

Thus ends a noble season, outside of the fact that the Men's Bible Class, the losers, have challenged the Baptist team for a ball game next Tuesday afternoon. The Baptists have accepted. Just what the game is for has not been clearly stated, but with a win under their belts it must be that the Men's Bible Class has got frisky in its old age and has designs on Pat Bullock's team. This game might be the one to which the league pays for a dinner for the league. The Times-Signal has had no confirmation on this suggested thought.

NEWSPAPER ADVERTISING BEST, DECLARES EXPERT H. T. Ewald of Detroit, president of the Campbell-Ewald Co., national advertisers, was in Denver recently conferring with the Chevrolet dealers who were in a regional sales conference.

Magazines are losing their motor car advertising to the more effective medium of the newspaper," Ewald said.

Ewald has been in the automobile advertising field for 17 years, and his firm has handled the major portion of General Motors paid publicity since the founding of the organization.

IF YOUR BIRTHDAY IS IN SEPTEMBER Birthstone—Sapphire

It is indicated that you will reap great honors in life by reason of your originality and genius. You have a calm mind and your will power is strong, but you are easily led by people you like. You are slow to anger, but remain angry for some time when once you are aroused. You have great powers of persuasion and would make a good salesman.

You should choose your friends from among people born in August, September and October, but you should marry one born during May, September or December. You may marry more than once, but the second marriage may prove unfortunate. Sad and grave family secrets are shown, and the deaths of several of your children.

You will have a hard struggle in life, with few friends to help you along. Early in life little or no prosperity is indicated. No inheritance is shown, but you may invent some article that will bring you wealth and fame. Your family influence will injure you more than it will benefit you. You may follow a dangerous profession or trade that may result disastrously for you.

If you are a man born under this sign, you are aggressive and capable, but you are held back by a lack of confidence in yourself, which you must try to overcome.

If you are a woman born under this sign, you have a liking for calm and peaceful country life. You are a good neighbor, kindhearted, thoughtful, and you despise petty gossip.

MISSOURI GAZETTE 119 YEARS OLD IS INTERESTING A copy of the Missouri Gazette dated July 26, 1808, is in the possession of Mrs. E. B. Renuau, Rt. 5, Snyder. The publication is the exact copy of the original paper and was issued as a supplement to the St. Louis Republic of July 12, 1908, one hundred years after the original appeared.

The size, the number of pages, the number of columns, and the type faces are accurately reproduced in the supplement, and all give a good idea as to the nature of the newspaper business of over a hundred years ago. The page size is 12 1/2 x 7 1/2 inches, and the paper was complete with only four pages. The paper is a porous, amber-colored book paper, and the type dress is Caslon Old Style with italics and small caps used liberally in accordance with the strict craftsmen of ye olde time printer.

The paper is number 3 of the

first volume, so it is presumed that the make-up and layout of the paper is the average of not better than the average weekly paper of that time, being a new paper, with new type and being steered perhaps by enthusiastic venturers into the newspaper game. The first column of the front page is headed by what is known as the mast head, giving the terms of subscription and the advertising rates. It was printed in St. Louis, Louisiana.

The first news story was headed by a dateline only, and consisted of a letter from an officer of a cruise being made by a squadron of United States ships. Other columns of the paper contained the datelines from Paris, Boston, Norfolk, and others. These stories were pervaded with the impending war with Great Britain. Stories of the landing of British ships in the landing of American ships in foreign waters were carried. One article states that "We flop the puffs to fate, that the ship Ocean, capt. Firgon, arrived at the Laretto this day, in 45 days from Rotterdam. Capt. G. brings dispatches from Gen. Armstrong, who says was in Paris, and that none of the American property had been confiscated before he sailed."

The antiquated character similar to the modern "G" promiscuous in the text of the paper, and renders it somewhat difficult of reading.

Very few ads grace the pages of the old paper, and the few appearing are very modest in size and layout. The rate for ads "not exceeding a square of space, one dollar, and fifty cents for every continuance."

SWEETWATER ENGINEER REPORTS ON SNYDER'S WATER WELL SUPPLY The Sweetwater Reporter said Friday evening:

"Charles O. Erwin returned to Sweetwater today from Snyder, where he made a special trip yesterday to inspect that city's new water well, and stated that it is giving an abundance of water. "I had heard such varying re-

ports concerning the success of the Snyder well," Mr. Erwin said, "that I went there yesterday to investigate personally. I found that the well is now pumping only 3 hours a day, as that much pumping gives Snyder all the water needed. The well is producing 35,000 gallons an hour each of the three hours pumped, and the engineer stated it would hold up if pumped continually."

"On a 72-hour test the well was completed, the well produced 400 gallons a minute at the start and was producing 500 gallons a minute when the test was finished."

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Church Affairs

The Fluvanna Baptist Church, after holding for one week, closed its revival meeting Sunday night. There was one addition to the church. Rev. Ferguson of Snyder did most of the preaching. Good sized congregations were in attendance. At the night services people, too many to try to name, in the congregation from Snyder. It always encourages a pastor when members of his home congregation follow him to other points in order to hear him preach the Word.

The First Baptist Church of Fluvanna, Rev. Charles Leslie pastor, began its revival at the arbor on Friday night of last week. Rev. R. L. McCusiston of Lubbock is doing most of the preaching. Rev. Hubert Joseph, formerly of this community but now of Abilene, is assisting in the meeting and doing some good preaching.

On last Sunday an ample dinner was spread at the arbor, excellent in quality and ample in quantity for all who remained. At three o'clock an inspiring song service under the direction of Hon. Joe Merritt of the Pleasant Hill community began and lasted two hours, a large crowd being in attendance. Chorus songs, quartets and instrumental solos, interspersed with short talks and prayers, made up the program. W. W. Wood, formerly of Abilene but now of Snyder, was present and gave some excellent numbers on the piano. Mr. Wood is planning to open a music store and studio in Snyder.

Business Affairs

In view of the fact that our farms are promising an abundant harvest of most all kinds common to our section, a considerable quantity of maize is being put on the market, the farmers realizing a fair price for same.

Ethen Ball has opened a cafe and is now putting in a filling station at the Boies corner on Main Street.

Our two gins are being put in order for the season's work. C. D. Cribbs has bought the Cook place near the home of the

Village Preacher, and will promptly erect a new and comfortable residence where the old building now stands. Later the old residence will be converted into a barn.

Some of our farmers are finding leaf worms on their cotton. Accordingly, they are giving them a tonic treatment for the good of their health—more especially the good of the cotton.

Visits and Trips

E. J. Wilcox (half brother to J. W. Squires), daughter, Miss Lela, and son, George, of Bishop, Texas, paid the Squires family a visit last week.

Mr. Curtis and family of Lamesa (relative), J. A. Scrivner and wife of Dermott, J. W. Harris and wife of Snyder, have all been recent visitors to the bedside of J. W. Squires, who is but little better than he was a week ago. Mrs. Mamie (Squires) Davis of Rock Dale, Texas, came to see her father Monday.

John Clever and C. M. Hickson and family, all of Ft. Baird, N. M., are here visiting with Mrs. H. Latham.

Miscellaneous

G. R. Ball, an old time resident of Fluvanna, has moved to Snyder.

Mrs. J. C. Zigler, who was quite ill last week, is said to be improving.

Strange Things

Bob White and family have recently returned from an extended trip through South, East Central and Central Texas. Their main objective was a point in the southeastern part of Bexar County.

Suffice it to say that these good people came back thinking more of the Fluvanna community than ever. The strange thing is that folks should expect to find a better place. J. A. Jones and wife, recently returned from New Mexico; Fowler Matthis and family, and others who have made trips to other parts lately, have all come back thinking more of Fluvanna and Scurry County than formerly. This is quite natural, but sometimes we just have to go and see before we can feel fully satisfied about it.

Anyway, the “fitter trees and honey ponds” are not just across the Colorado, Brazos, or the Red rivers, but beyond the Jordan. Neither can we reach them in cars, but we can reach them in and through Christ in due time.

THE WAY IT HAPPENED

A little girl was teaching her dolls a Sunday school lesson. “Children,” she said, “you know God made Adam and he was lonely, so God put him to sleep and took out his brains and made a fine lady.”

When--- You Pick Your Cotton Pick Your Gin, Too

You can't get money for your cotton crop until you pick it—and if you want to get the most money for the cotton you've picked, pick your gin, too.

If you're a good gin picker, you'll pick a Continental, because it means more money for your cotton crop. The Continental means a bigger turnout and a better sample. You make more money because you have more pounds of lint and get more for each pound of lint that you have to sell.

The Continental is the most modern and scientific gin ever built—and it has been designed and built to clean the seed, preserve the staple and deliver a good sample. It does!

much talent and ability were shown.

The devotional was conducted by Mrs. W. B. Lemons, and the reading was taken from Luke 10: 25-37. This was a practical lesson on "Our Neighbors," and comments, beautifully presented, impressed upon those present the thought that our neighbor is the one who needs us. Mrs. Lawlis led in prayer after the comments. The audience was charmed and delighted by the following numbers on program: Piano selection, Dreux Polonaise (Chopin), Miss Eula Pearl Ferguson.

A short synopsis and two characteristic scenes from Shakespeare's "Much Ado About Nothing," Miss Erma Taylor.

THE SPIRIT OF ERWIN For days the city of Dallas and the people of all Texas have been waiting. Through the long hours of hope and fear have wrestled on the doorstep of our hearts. In remembrance of the stark courage of these seekers after the lost, exaltation has come to life us up. In the growing certainty that they must themselves have paid the full price for their gallant risk, depression weighs blacker and heavier as the leaden moments pass.

Erwin has been a hero in his day—none more truly so than he—and lived to be accepted again as commonplace by the common-American for whom he rode on gossamer wings the lethal blasts of war. But to him have come laurels which none may rob him of—and none forget. The giving of life for the lives of others is a splendor that can not canker. It is a greatness that can not corrode. And in that greatness Eichwaldt

stands with ERWIN tall statured, a man every inch.

During the days of preparation for the long fight, the talk was much of the Dallas Spirit. Experts labored over it and praised it as a wonderful airplane. And so it was. Its mission, we were led to think, was the glorification of human endeavor, with reflected glory for the city we honor and love. We spoke then with pride of the Dallas Spirit. More humble now, we speak of the spirit of Erwin. For, as it turns out, on a mission far higher than any we dreamed of, the Dallas Spirit roared out of the Golden Gate into the gates of gold—Dallas News.

The Merry Madcap Stock Company comes to Snyder next Monday for a week's engagement. Band, orchestra, "everything"—with a mighty good show, according to the exchanges that come to our desk.

The year 1927 is proving to be another hard one for these people
