SNYDER SCHOOLS OPEN WITH CEREMONIES MONDAY A. M.

NEW SUPERINTENDENT INTRODUCED TO BIG CROWD

No school in all Texas—no school in the entire nation could have had a finer or more auspicious opening than that of the Snyder public schools at the City Tabernacle Monday morning.

With the large rostrum seating County Judge Horace Holley, in charge of ceremonies, with the new superintendent, C. Wedgeworth, the Board of Education composed of T. E. Jenkins, president; J. S. Bradbury, Secretary; C. E. Ross, Hugh Taylor, J. C. Dorward, Joe Stinson and Oscar Jones; Revs. W. F. Ferguson and H. J. Manley, Singer Lee A. Stulce, County Superintendent A. Bullock; with the teachers backing up this assemblage and composed of the high school personnel, which includes: Messrs. John R. Covey, Ivan P. Oliver, F. M. Crouch and W. S. Patrick; Misses Mary Strayhorn, Mattie Ross Cunningham, Maurine Cunningham, Effie McLeod, Mattie E. Clark, Eva Strayhorn, Abbie Mae Crozier and Elaine Rosser; the 1927-28 school year started off in a big way.

The grade school faculty was represented by E. E. Kerr, principal, and his assistants: Misses Joe Halley, Yashti Epps, Elva Lemons, Leora Huggins, Georgia Bolin, Stella Cole, Mabel Wilkerson, Annie L. Clements, Hattie Fern, Oma Bullard, Ernlie Henslie, Jessyle Stinson, and Mesdames L. D. Sanders, Hattie Gatlin and R. L. Howell.

The stage seating arrangement was pleasing to the eye and pleasing to the crowds who attended, and every available seat was filled with the most enthusiastic school boosters that could be gathered together.

Master of Ceremonies Judge Holley then called for the singing of "America" with Lee A. Stulce directing, who is leading the singing at the Baptist revival. At the invitation of the director the attendants stood at attention and rendered that glorious old song with vim and vigor.

Following this, Rev. H. J. Manley gave the invocation, and Judge Holley then launched into the opening talk. He spoke of the pleasure and honor that had been accorded him in being selected as superintendent in selecting him for this onerous task, that he was proud of his city, proud of the schools and citizenship, of its merchants, bankers, the resources of the county, and its products.

Continuing, Judge Holley paid a tribute to the Board of Education, the teachers, the new superintendent, and the parents, and on behalf of the board, thanked them and he was proud of the old as well as the new teachers.

The speaker welcomed the new superintendent in no uncertain terms, citing his records in several places and his desire to come with us in Snyder and its people.

The spirit of "Cooperation" was first sounded by Judge Holley, and that spirit continued through practically every speaker's talk. Parents should cooperate with the school system; first, that the children may be on time; and second, the most important thought, that of carefully watching diseases of children. Dr. I. J. Sparks, city health officer, later stressed the latter point.

Judge Holley then said that the Snyder public schools were the largest single business institution in the city, that over \$200,000 was invested in the school plant with a monthly payroll of \$5,000 to meet.

Closing his address, Judge Holley admonished the parents to make this a year of harmony, everyone working with a cooperative spirit to make it the best year yet in the history of the schools.

Health Officer Talks One of the most important talks of the entire program was that made by Dr. I. J. Sparks, health officer for Snyder. He spoke of the contagious diseases such as diphtheria, scarlet fever, mumps, measles, whooping cough, and chicken pox, stating that any one of these diseases affected the health of the school and its general operations, particularly whooping cough and mumps. So many are unnecessarily exposed to these when parents do not consult their physician at the first symptoms of the diseases!

The speaker stated that strict adherence to the laws of vaccination would eliminate a great deal of the ills of today. Concluding his remarks, Dr. Sparks emphasized the necessity of calling the physician immediately after a child is sent home from school with temperature or sore throat.

He stated that the physician was finally demanded the physician would then notify the health officer to issue a certificate that the child could then return to school. Concluding, Dr. Sparks pledged his support to the Board of Education and faculty, to parents and pupils.

County Supt. Talks Judge Holley then introduced County Superintendent A. A. Bullock as "the best county superintendent in all Texas." "Pat" Bullock did not admit it, but told a story that filled the void of the introduction. Mr. Bullock then launched into a booster thought for more cooperation in the rural school system. Mr. Bullock said, "It surely is a pleasure to rural pupils of Scurry County to enter your fine high school without preliminary examinations. When they are capable they will have a town morally and physically

Snyder Needs Real Boosters At Meetings

The regular monthly meeting of the Scurry County Chamber of Commerce, was held in the district court room, Tuesday evening with fifty present. Of 16 directors there were four present.

President Bullock gave a fine preliminary talk followed by Monte Owens, Secretary, Board of City Development of Sweetwater; Paul T. Vickers, Secretary Midland Chamber of Commerce, and C. D. Watson, Secretary for the Big Springs Chamber of Commerce. These gentlemen gave interesting addresses, with Paul T. Vickers sure "pouring it on" and justly so. It would have been interesting if every member of the Board of Directors, and every member of Snyder and Scurry County could have been present.

The "truth is what hurts" and that was why Mr. Vickers talk touched the very bottom of the scenery. The other twelve directors should have been present.

Mr. F. I. Townsend of the Ira community gave some fine advice on the relationship of the rural man, and the Chamber of Commerce. His points were well taken and received.

Sec'y E. P. Moore the best Secretary of any Chamber of Commerce in all West Texas, completed the evening's program. Mr. Moore in no uncertain terms told of his experiences, and of "passing the buck" should be eliminated in Snyder. Abandoning political, religious and business differences, and all shooting for the same goal, the betterment of Snyder.

There is no excuse for any man not attending these regular meetings of the Chamber of Commerce. Those who attended, came away with new ideas suggested by Rev. Ferguson, mainly in the athletic side of the school's endeavor. The speaker brought a smile when he told of his experience last year when some opponent tweaked the nose of "Pee-Wee." Concluding, Rev. Manley thought that "to root for Snyder and the schools and everything in general."

Superintendent Speaks Following Rev. Manley's talk, Judge Holley introduced the new superintendent, Mr. C. Wedgeworth to the crowd, and upon rising to speak, he was tendered an ovation, and the spirit of Snyder asserted itself in that applause.

Mr. Wedgeworth then spoke of his happiness of being in Snyder, and in a wholesome and instructive way indicated the things that he believed would make for a real school system in Snyder. He pointed to the many things that could be Snyder's were the cooperative system he followed in every phase of work. He pledged his active and personal self not only to the Board of Education, teachers, parents and pupils, but to the city of Snyder as one of its citizens who could be called upon at any time.

Superintendent Wedgeworth also welcomed the rural pupils of the county to the open arms of the Snyder high school. Fair and impartial treatment will be accorded every student and full credit given to the new student. The speaker also stated that "real citizenship came through practical application, and that we want to prepare our boys and girls for real citizenship in giving them a practical education." Acting for the loyalty, backing and support of everyone, Supt. Wedgeworth won his way to the hearts of his auditors.

At this point, owing to the late start of the program, the speaker asked for a continuation of the talk at the school auditorium where the year's work would be outlined.

In concluding, Supt. Wedgeworth said: "The dollars you are spending and the return in education we hope you will realize 100 per cent returns. I am happy to serve you, to be with you and be one of you."

At the end of his talk, Supt. Wedgeworth was given the applause of his city. He is our new superintendent, the head of our schools, and let us all, as good Snyder citizens, pledge our wholehearted and unqualified support to him, and cooperate at every turn with the Board of Education and the entire faculty. Here's to the Snyder public schools. May this year be the finest and best they have ever enjoyed!

Snyder Enrollment Monday, first day of school, showed an enrollment of 265 pupils in the high school compared with 220 last year.

The total enrollment for the start of the 1927 session is 850 pupils.

'Big Boy' Yoder Receives Honors At District Meet

It's now Hon. Carl J. Yoder since at meeting of the Big Boy Bottling Company, of Charlotte, N. C., held at Wichita Falls last week, Mr. Yoder received the compliments of the company as being the largest and heaviest salesman as well as a major factor of the Big Boy line of the United States.

Mr. Yoder was also given the western half of Texas as his exclusive field and will in turn place franchises for the manufacture of this popular line of drinks all over the part of Texas.

Mr. Yoder is in Pampa this week placing a franchise there, together with a complete bottling works.

The Times-Signal's hat is off to "Big Boy" Yoder, the man, and to the Big Boy Bottling Works. If Carl sells like he hits for the Fire Department, then he'll soon be able to take over the franchise for the complete western half of the United States. Here's a go-getter that lives in Snyder, knows how to work, how to play, and who is a regular fellow.

The petition bore 77 signatures.

The council's hands are tied in the matter, and even though they have been frowning on this sort of amusement, a state law precludes any legal action on the council's part.

Dr. I. J. Sparks, city health officer, met with the council to advise on the matter of proper certificates to be given children following any contagious disease, and before they can return to school.

Mayor Towle appointed a committee consisting of Gray McGlaun, Pat Johnson and Ed Thompson to meet with the Board of Education.

COUNTY RURAL SCHOOLS TO GET UNDER WAY NEXT MONTH

Snyder Agent Injured When Motor Crashes

W. E. Keith was seriously hurt Monday night in an automobile accident two miles east of Snyder. It is said the accident was caused by the headlights of Mr. Keith's car being very dim, and he ran into a wagon loaded with wood.

Mr. Keith was knocked unconscious and was unable to give an account of the accident. Dr. J. M. Bannister stated that he feared he was hurt internally. At this time it is impossible to determine the extent of the injuries.

Mr. Keith is in the insurance business in Snyder, being a partner of Ernest Taylor, president of the First State Bank & Trust Co. The wagon was owned by T. I. Miller, and was driven by Billie Henderson at the time of the accident. It is considered a miracle that Mr. Keith was not killed, as both car and wagon are nearly total wrecks.

SWETWATER MAY SECURE GOAT AND SHEEP INDUSTRY

Goat and sheep raising on a large scale may begin in the Sweetwater country. A deal has just been consummated in which a Mertzon livestock man has leased six sections near Sweetwater on which he will run sheep and goats. The stockman announced that a number of sheepmen of Southwest Texas are anxious to move into the Sweetwater country, as it is very well suited for their business.

C. of C. Needs New Members

Until the membership committee of the Scurry County Chamber of Commerce, who are working this week, turns in their week's work, we cannot say that there are any slackers in Snyder. Better see the secretary or one of the membership committee, who are John Spears, chairman, J. M. Harris, T. L. Lollar and R. H. Odum, and let's put over the strongest organization of its kind in West Texas, considering our population.

The membership of the Scurry County Chamber of Commerce will soon appear in the columns of this paper, and you will want to point with pride to your name and the large membership.

FARMERS WATCH YOUR MAIZE HEAD STEMS, SAYS C. OF C.

"Play the game fair, Mr. Farmer," says the Scurry County Chamber of Commerce. Attention has been called to the fact that some farmers living near Snyder are bringing in loads of maize heads with stems on same that averaged 13 1/2 inches. Therefore, buyers of maize are now closely inspecting every load of maize and will refuse to buy maize that has been cut with excessively long stems on same.

Farmers Getting Real Service

That's what the farmers of Scurry County are receiving through the Scurry County Chamber of Commerce—constructive service. Roy S. Hendricks is driving Secretary Moore's car early and late directing crews of Mexican farmers in Scurry County to pick cotton and head maize. The chamber of commerce is paying Mr. Hendricks' salary and the gas and oil bill, while Secretary Moore is furnishing the car.

The chamber of commerce wired the U. S. Department of Labor in Fort Worth Monday for cotton picking crews. Every assistance will be given the Scurry County farmers this year by the local organization and the U. S. Department of Labor.

HERMLEIGH LADY WINS CASH PRIZE

The First State Bank of Hermleigh has announced that the winner of the contest of the Hermleigh Community Fair last Saturday is Miss Daphne Henkel of Hermleigh. The contest jar contained \$92.13. Miss Henkel guessed \$92.50. The Judges of the contest were W. R. Terry, E. C. Patterson and W. C. Fargason.

COUNTY JUDGE BOOSTING COLORADO-IRA ROAD

Judge Holley has been dividing his time this week between his duties as judge and the matter of looking after improving the road between Ira and the river. The steep grade that has always made heavy transportation a bad problem, has been cut down and the entire road greatly improved.

Judge Holley has always been a strong advocate of better roads and is always ready and willing to lend his services in improving transportation problems that have always in a way heretofore hampered the development of West Texas.

CO. SUPT. A. A. BULLOCK GIVES OUT LIST OF TEACHERS

The outlook for the coming year among the rural schools is very bright indeed, said county Superintendent A. A. Bullock yesterday. "We have a corps of teachers as good as the best to be found in any county in the state. All these teachers are high type men and women who are in the teaching profession because they want to serve the boys and girls as well as to promote the cause of education in Scurry County. They are all well qualified from the standpoint of educational attainment and in addition are experienced in rural school work."

There are several teachers in the county holding degrees from the best colleges in the state and by far the greater part of them have had at least two years of college training.

According to Mr. Bullock, the score card will be used this year, and there is much interest manifested among the trustees and patrons in regard to who shall win the cup offered by the county superintendent for the highest score or the greatest amount of improvement during the current year. "We are going to use the standard record sheets again and also print the Rural School News during the coming school months."

Mr. Bullock said: "In addition to the things we tried to put over last year, we are going to start what is known as a county-wide grammar school graduation exercise. A set of uniform questions will be made up by a committee of teachers from the various schools and the Snyder schools and submitted to this office. These questions will be carefully gone over and a suitable set will be selected to send out to the schools. Every seventh grade boy and girl will take the same examination at the same time, and all those who pass will be assembled in Snyder for a county-wide graduation exercise. This will give those coming from the rural schools an equal chance with the children of the city schools to be promoted to the high school without entrance examination. The process of grading will be worked out later with the city superintendent and others."

"We think this a long step toward standardizing the work in the grades of the rural schools," said Mr. Bullock, who is one of the most enthusiastic school men in the state of Texas.

A list of the rural schools with their respective teachers follows: Faver, No. 1, Bun Hall. Camp Springs, No. 4, J. E. Smith, Mrs. J. E. Smith, Minnie Rockrock.

Hermleigh Independent, B. M. Gramling, Miss Ruby Forrester, Mrs. Delia Forrester, E. F. Hill, Mrs. M. Duncan, three others. Cottonwood, No. 5, Holly Watson, Bessie Burnett.

Thank You, Come Again

Just business courtesy, you say. Yes, you are right when they are said mechanically.

A person can buy a "handkerchief," a "sack of beans," "cough drops" and "borrow money" at many different places in this town. But, in these days of keen competition, a man is going to transact his business where he is treated fairly, with the most courtesy and where he is made to feel that his patronage is appreciated.

In this bank you are greeted cordially, treated fairly, we thank you meaningfully, and you are urged to come in again. Thus, we hope you feel that your presence and your business is appreciated here, no matter how small nor how large.

Make This Bank Your Headquarters During the Fair—As Well As All Banking Days.

ALTRURIANS MEET WITH MRS. HARRIS

Mrs. J. M. Harris had lovely autumn flowers for floral charm when she entertained at her home Friday afternoon as the first hostess of the Altrurian Club for the fall and winter meetings.

Mrs. H. G. Towle, as the efficient president for the ensuing year, read an inspiring message to her co-workers in which she brought to mind the nineteen years of prosperity and progress the club had been permitted to enjoy during which time there had not been a death among the active members. Following the presentation of officers, the reports from the various committees as to their aims and lines of work for the year were given, all of which bespoke promise and enthusiasm for the future. The aim of the club was further expressed in the reading of the poem "Keynote," by Mrs. R. D. English, followed by an impressive talk on "Poets and Poems of the Hour," by Mrs. J. M. Harris. The club regrets to lose Mrs. Earl Brown as a member and welcomes Mrs. R. L. Gray as a new member.

Delightful refreshments were served to Mesdames Roland Bell, Earl Brown, Joe Caton, H. P. Brown, R. H. Curmudge, Ivan Dodson, R. D. English, W. W. Hamilton, C. C. Higgins, A. C. Preuit, Fritz R. DOWN FROM SNYDER

Mrs. Jim Reynolds is down from Snyder visiting her mother and other kinsfolk in the old home town. Mrs. Reynolds says that she drove all the way down here in an automobile, notwithstanding all the kiddies came along with her. And it's strange about a mother; it does not matter how many babies are in the home, none of them are in the way. If not mistaken, Mrs. Reynolds says she is the mother of five, and think of it, she drove an auto, made a safe landing with the whole family. Bet Jim could not do that; he would either be in the ditch or get tangled up with another diver. Of

course, Mrs. Reynolds is glad to be back in the old homestead.—Editor McCarty in the Albany News.

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive news and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Harvest Time

Harvest time is on and our people are exceedingly busy reaping in the legitimate fruits of their honest toil. Feed stuffs are abundant and of as fine in quality as could reasonably be desired. An enormous crop of maize, kafir, feterita and higeria is being harvested. Many cars of maize is being thrashed and shipped. Cotton picking is just getting started. A few more days and our gins will be on full time, if weather continues favorable. The large yield of cotton together with the good price for same, as now seems inevitable, should put our farmers on "easy street," if they should only be careful to conserve their own best interest by saving every thing possible and avoiding "plunges." Let us all be careful to live within our means and make some provision for the time when crops will again be short. It is wise to remember that such a time is sure to come.

Yes, our County Fair will be on during the last of this week, and here is hoping that it will prove a grand success. Fluvanna people are at work preparing to contribute their full share to this end. Evidently thousands of people will go and see for themselves; but for those unable to attend, the Times-Signal will carry a full and comprehensive report next week.

Other Enterprises

Some three or four new wind mills have been put up lately. D. A. Jones is enlarging and otherwise improving a rent house near his own home. The Hack Berry school house is being repaired preparatory to the opening of school at that place in due time.

The fine barn, on the Whitley place recently purchased from C. D. Cribbs, just south of Fluvanna, is nearing completion. We believe it is the best barn in this section of the country. It is 40 x 100 feet with walls 14 ft. high and 34 feet from the ground to the come of the roof.

The structure is of the best corrugated iron over heavy timber form work, and rests on a

For Good Health There Must Be Proper Kidney Action.

DO you find yourself running down—always tired, nervous and depressed? Are you stiff and achy, subject to nagging backache, drowsy headaches and dizzy spells? Are kidney excretions scanty and burning in passage? Know then that these are often signs of improper kidney action. Stagnant kidneys allow acid poisons to remain in the blood and upset the whole system. If your kidneys are acting sluggishly, assist them with Doan's Pills. More than 50,000 users have publicly recommended Doan's. Ask your neighbor!

PREVENT COTTON SEED FROM BEING MIXED AT GINS

Every year the farmers of Texas are losing millions of dollars by allowing their planting seed to become mixed at gins with seed of poor quality, advises E. A. Miller, agronomist, Extension Service, A. & M. College of Texas. It is more important than most farmers realize to keep cotton-seed pure at the gins.

The extent of seed mixing at cotton gins has increased gradually with the development of the present system of public gins which have replaced the old plantation system of private gins. A modern gin equipment gives each farmer a good many bushels of seed held over in the gin rolls of the preceding bale. In fact, experiments made by using colored seed gins the gin rolls have shown that a farmer may get over 25 per cent of seed from the bale that was sown in the preceding year.

The simplest and most profitable way would be for every farmer to intend to save planting seed late enough so that the ginner will have time to clean out the gin roll. The seed should then be allowed to run on the floor and sacked or put directly into the wagon box, on account of the danger of becoming mixed if allowed to go through the seed conveyor. Another method is to take several bales to the gin at one time, especially if it is necessary to have the cotton ginned during the rush of the season, and then not use the seed for planting purposes from the first two bales. These methods will eliminate most of the

mixing. Whichever method is used, remember that it always pays to plant pure seed from high producing strains and to keep the seed pure.

EDMOND LOWE AGAIN A "TOUGH GUY" IN FOX FILM

From "What Price Glory," an epic war film to "Is Zat So?" a hilarious drama, is the transition made by Edmond Lowe, the tough marine of the battle film and the equally tough prize fighter's manager of the comedy. But here the resemblance ends for instead of the natty uniform of Sergeant

Quirt, Lowe in the latter picture wears the flashy clothes, trick haircut, and wise manners of a habitué of the prize ring.

George O'Brien is the pugilist whom he manages and he has his troubles doing it but those who have seen "Is Zat So?", which is to have a day showing at the Palace Theatre commencing Wednesday, say that while Lowe has his troubles the audience has its laughs.

Kathryn Perry, Cyril Chadwick, Doris Lloyd, Douglas Fairbanks, Jr., and Philippe DeLacy have important roles in this picture.

W. D. Beggs, one of our ranch and cattle men, returned last Thursday from Kansas City where he shipped four loads of cattle feeders. Mr. Beggs was lucky in striking a good market. He was over a considerable part of the great corn belt on his trip, and says that it looks as if nearly everything had turned to corn.

Mr. and Mrs. R. W. Morgan of Wichita Falls visited Mr. Morgan's brother, Gale Smith, and family the past week. Mr. Morgan speaks highly of Snyder and Scurry County, and confessed that he would not object to being a resident of this great town and county.

Mr. and Mrs. Berry of Wichita Falls have become residents of Snyder. They are liking our city and its people and expect to become permanent residents here.

Folks who drive down town at night will feel better if they lock their car before leaving it. An ounce of prevention is worth a pound of cure.

Is Your Crop Mortgaged?

IF SO, it is a criminal offense for you to sell any part of it covered by the mortgage without applying the full proceeds to the payment of your mortgage debt, and the debt becomes due and payable immediately upon the sale of mortgaged property, regardless of the due date of your paper. You owe to yourself and those who have helped you make this crop the duty of paying, as quickly as possible, every man who has trusted you, but you should be careful to see that no part of your crop covered by any certain mortgage is used for any other purpose until that debt is paid in full.

The bankers and merchants of Scurry County are taking this method of notifying you that a failure to meet squarely and fairly your moral and legal obligation with respect to mortgages and other indebtedness will be promptly reported to the Scurry County Retail Merchants Association, and your credit standing for next year will depend solely upon the record you make for yourself this fall.

STATE HEALTH NURSE HERE FOR THE FAIR "One out of every nineteen white babies in Texas dies before it is one year old, one out of every eleven negroes and one out of every five Mexicans," according to Miss Celia Moore, state itinerant nurse, who will have charge of the Public Health Booth at the Scurry County Fair this week. This demonstrates that the more intelligent care given to the child, the better the opportunity it has for life, she said.

Scurry County is forging to the front in the matter of public health. Mothers, bring your babies two years old and under to be examined by the attending physician and Miss Moore.

Literature will be given to the mothers on the care and feeding of infants. Miss Moore further declared that she has the most important booth at the fair, and she does not want a single visitor to fail to visit it, whether they bring a baby or not. She will be glad to confer with any mother who has a diet problem with a pre-school child.

Mr. and Mrs. Jim Woody were Colorado visitors Sunday.

Suppose Mrs. Jones and Mrs. Adams Belong to the Same Club

Mr. Jones buys his wife a \$1,000 car. Mr. Adams buys his a \$500 car and a \$500 diamond. They go to their club. Both wives receive congratulations on their cars. Then the girls spy Mrs. Adams' fine diamond. Who makes the bigger impression? Whose husband is regarded as the better "sport"?

After 12 months the "thrill" of both cars is largely gone, and after 4 years both cars are obsolete. Mr. Jones' car upkeep was \$400. Mr. Adams' car upkeep was \$200. Mr. Jones is out \$1,400. Mr. Adams is out \$700. Mrs. Adams has a \$500 diamond. No depreciation in value and no upkeep cost. Who got the most for their money?
