## Former Editor Pays Tribute To Old Home

Waxahachie, Texas, October 16, 1927. To the Times-Signal: I felt very much like I had gotten back home when I stopped off in Snyder last week en route from the Panhandle. There are no more bigger hearts people anywhere than the Snyder folks. I was gratified to note the many marks of improvement in the town and county and to learn of the big cotton and feed crops being harvested there.

When I had passed Dermott I began to see new farm homes and was told that new homes have been built in other parts of the county. I have long felt that with a home established on every quarter or half section, Scurry would easily lead the state in worthwhile population, and Snyder would be a trade and industrial center of the west western territory.

## An Unsolicited Letter of Appreciation

The following letter, mailed at Arah, west of Snyder, was received Monday:

Warren Brothers Drug Company,  
Snyder, Texas.

Perhaps my patronage does not mean so much, but I do buy my drugs from you now. I have not done so always.

Shall I tell you why I do buy my drugs from you? Why not? Bouquets to the living, I think. Your entire force of employees meet the public with courtesy always. The same might be said of other stores, but some so well established do sometimes become careless, feeling sure of your patronage.

One thing we find at your store which we do not find at a great many places, and which makes it a pleasure for any woman to shop with you, that is a woman who is not a snob. Mrs. Warren, of course.

Continued success is my sincere wish for you.

Very truly,  
A CUSTOMER.

### WE SURELY THANK YOU

On behalf of the owners of the Warren Brothers Drug Store, we want to personally thank the person or persons who were responsible for the above letter. It is especially pleasing to us since the letter conveys a message of thanks to each worker. That has been one of the most important factors in the success of the Warren Brothers Drug Store, for it is becoming more evident every day that the principles established are gaining friends.

However, we want to again thank the person or persons who wrote the letter mailed from Arah, and to assure them that we are striving every day, every week, every year to merit the good will and trade of the good folks of Scurry County.

DERMOTT NEWS The people of Dermott enjoyed a good sermon by Brother Harris Sunday. This was his last time to be here until after annual conference. We are hoping that he will be sent to us again.

Misses Evelyn and Georgia Elkins and Rena Durden spent Saturday night and Sunday visiting Miss Gladys Adkins in Snyder.

Marq Elkins and family of Crownpoint, N. M., visited Roy Elkins and family Tuesday of last week.

Mr. Jacobs of this place has been very ill for the last few days, but at this writing is resting better.

The old stork flew over Dermott Sunday night and left a little baby boy at the Frisby home.

Mr. and Mrs. Carl Odum of Justiceburg visited Mr. and Mrs. W. K. Reagan Saturday night and Sunday.

Mr. and Mrs. Howard of Slaton spent last week-end visiting in Dermott.

Mr. and Mrs. Tommy McDonald, J. Wright Moorar and Buck Rhea of the Moorar ranch and A. C. Wil-

met of Snyder attended singing at Dermott Sunday night.

Mr. Rudd, a singing teacher of Slaton, attended our singing Sunday night. We enjoyed his singing very much.

Mr. and Mrs. C. H. West took dinner with Mr. and Mrs. Elvie Greenfield Sunday.

Mrs. G. G. Smith and Haywood Gordon were honored with a birthday dinner Sunday at the home of Mrs. G. G. Smith.

Mr. and Mrs. Floyd Smith of Westbrook visited home folks at Dermott Sunday.

Mr. and Mrs. L. N. Periman attended the Dallas Fair last week. Get Mrs. Periman to tell you the little story of the lady who came in between her and Mr. Periman while there. We are of the opinion that Mr. Periman had a very nice time, but can't say so much for Mrs. Periman. Judging by what Mr. Periman tells, she enjoyed the races more than anything.

Johnny and Miss N. E. Browning of this place, also John Browning of Justiceburg, made a business trip to Abilene Saturday of last week.

The L. P.s received seven or eight cars of cattle from Nolan County which they placed on the old Elkins place in Kent County.

"ROUGH HOUSE ROSIE" COMING TO THE PALACE Clara Bow reaches the Palace Theatre Wednesday in her first starring vehicle for Paramount since "It", the highly successful Elinor Glyn production. Her new picture, "Rough House Rosie," is the tale of an east side girl who "treats her men rough." For instance, when sweetie, a professional prize fighter, tries caveman tactics, she gives him a "right to the head" and—he falls unconscious.

Not that the reader should think she's always that way. Far from it. You see, Rosie really loves Joe; that is, she loves him until Arthur Russell starts showering attentions on her. Now what would an ordinary mortal do when a wealthy young man says that he loves you? And then, when Joe starts getting out of bounds, Rosie

has only one resource—she becomes a "cavewoman." That's one of the comedy highlights contained in Miss Bow's latest comedy. Those who read Nunnally Johnson's Saturday Evening Post story will realize the potentialities existing in this tale of a prize fighter, who aspired to the world's championship but was knocked out by his best girl. Reed Howes is Joe, Arthur Housman, his manager; Doris Hill, Clara's chum and Douglas Gilmore, the second man. Frank Strayer directed "Rough House Rosie."

A CORRECTION In last week's paper our Woodard correspondent reported that Miss Susie Snider and A. J. Williams "were run over by a Snyder Tailoring Company truck" the previous Saturday. The report was erroneous in that the truck was not the Snyder Tailoring Co. truck, but was that of another tailoring concern here. The Times-Signal is glad to correct the error made by our Woodard representative.

PIONEER SETTLER RENEWS TWO YEARS Mr. T. N. Nunn, one of the good old substantial friends and well wishers of the Times-Signal, was a Saturday afternoon visitor and

renewed his paper ahead two years, and said he was glad to help and was enjoying the paper.

Mr. Nunn arrived in Scurry County in 1877—fifty years ago—when this was a buffalo stamping ground. He originally owned the 640 acres on which Snyder is now located in part, and purchased the land from the state at \$2.00 an acre.

Mr. Nunn presented the land on which the Scurry County court house now stands, as well as the lots where the Methodist and Baptist churches are now located. Mr. Nunn's health has been none too good, but he seems as spry as can be, and it is the Times-Signal's hope that all these fine pioneers may live in health and prosperity to see their haven of rest grow to the station to which the county must and will attain in its onward march in West Texas.

CATTLE SALE Tom Davis, who deals with livestock, has sold for J. Wright Moorar of Scurry County one hundred mixed calves to a livestock buyer up north, at \$35 per head. He also sold to the same buyer 25 yearling steers at \$42.50 per head. Deliveries will be made about November 1.—Post Dispatch.

TEXANS have been a bit slow in improving the native pecans and have allowed the states east of us to get ahead in that work. We are beginning to see, by comparison again, where we have been the losers, and now more pecans are

being planted than ever before, and more native trees are being budded to improve the nuts. People are learning that pecans make pretty shade trees and can be grown easily, and many homes in both town and country now have young pecan trees growing. Even chambers of commerce are being interested, and out at Snyder in Scurry County, where most of us

think trees will not grow, the chamber of commerce is sponsoring a pecan planting campaign. There are very few sections in West Texas where pecan trees will not do well when given the right attention for the first few years. There are few homes where room can not be had for a few trees. This is the planting season.—Will H. Mays in "Texas and Texans."

Precision Measurements IT'S A personal matter, with every man that his clothes fit. This we know and keep in mind constantly. Each individual's measure is taken with extreme care and with the greatest skill of which we are capable.

This, combined with J. L. Taylor's fine tailoring, makes the quality of your suit—the workmanship—the fit—all of which you will remember long after the price is forgotten.

Was In Misery All Over

"I was in a dreadfully run-down condition," says Mrs. Chas. L. Lacroix, of Montgomery, La. "I suffered a great deal of pain. I was in misery all over. I could not sit up and I could not lie down. I couldn't sleep and at times I would have dreadful vomiting spells. The aches and pains seemed to cover my whole body.

"One night my husband brought me home six bottles of Cardui and I began to take it. I could tell that I was improving from the first bottle, but I kept on taking the medicine, for I knew that I needed a tonic that would build me up and strengthen me where I was weak and run-down. That is exactly what Cardui did for me. After I had finished the six bottles I felt fine.

"I feel truly thankful for what Cardui has done for me, for I could not have gone on living in the desperate condition I was in."

**EDITORIAL POLICY**

What should be the editorial policy of a newspaper? Should an editor avoid discussing subjects on which people are divided and hold strong opinions? Should an editor avoid taking a stand on a subject when the sentiment of the people is against him? Should he avoid all controversial questions? Or should an editor frankly and fearlessly express his opinions on all subjects of general interest?

If any editor is not going to express his honest convictions on matters regardless of whether he is taking the popular or the unpopular side, we can see no reason why he should have any editorials. An editor who tries to find out what is popular and then fall in on that side without regard to what he thinks is a hypocrite and dishonest. He is using his editorial page to increase the revenue of his business, make his paper popular. He is selling out. Also he is a coward if he just keeps still on a controversial question.

Surely a newspaper owes more to a community than just giving the news, telling what has happened. That service we believe can be best performed by the editor giving his opinion on all matters of general public interest, local, state and national. To do this intelligently an editor must study public questions, keep posted to the best of his ability on all matters, keep his mind free from prejudice, endeavor to decide every question on its merits. Then he must present his views clearly and concisely. Having done this he has performed his duty.

To us this thing of an editor being afraid he is going to lose business because his views do not coincide with those of the majority of his readers is foolish and silly. We think that they like honesty and frankness; that they think more of a man who has the courage of his convictions than they do of one who is always trying to please; that because they do not agree with a man is no reason why they will get angry with him and quit patronizing him. None of us like the milk and water fellow who always agrees with those he is with, who says "yes" to everything you say no matter what it is. The editor who rides the rail and the center of the road isn't worth the powder to blow him up, is what the Junior Editor of this paper believes.

If a newspaper follows all of the time the lines of least resistance, is always trying to keep from making anyone mad, it will never do much for its community, and it certainly will do a poor job of moulding public opinion. And in the end it will have fewer friends, fewer subscribers and few supporters than the one whose editor says what he thinks, even if a lot of people do not like it. The only way an editor can retain his self respect is to say what he believes and take the consequences and if he is not willing to do this, it will be better for him and the community for him to get out of the business.

The Times-Signal is one newspaper that believes in calling "a spade a spade," rest assured of that.

The number of new industries, investors and homeseekers that are attracted to a city will be in direct proportion to the attractiveness of the invitation that is extended to them.

**GIVE YOUR FAMILY PHYSICIAN A CHANCE**

When you are down with disease, don't wait too long before calling the doctor. He is handicapped by the long start of the malady.

This is true also of your health. Don't call the doctor after you have gone to sleep. See your doctor while you are well and you are apt to be well longer.

There are some diseases that will outrun the best doctor if you give them a start. Cancer is one and tuberculosis is another. Don't neglect your health; it is the best thing you have.

Don't abuse your physical constitution. Take no pride in being able to stand long hours, and other useless taxes of the system. Be regular, if you can; if you can't, be as regular as you can. It is the one way to live long and enjoy good health.

**"How best can I trade in my present car for a new car?"**

WHEN you are ready to trade in your present car for a new car, you naturally want full value for your present car. But most of all you want full new car value.

It will therefore pay you to consider varying trade-in allowance offers in the light of these basic facts:

- 1 Your present car has only one fundamental basis of value: i.e., what the dealer who accepts it in trade can get for it in the used car market.
- 2 Your present car has seemingly different values because competitive dealers are bidding to sell you a new car.
- 3 The largest allowance offered is not necessarily the best deal for you. Sometimes it is; sometimes it is not.
- 4 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.
- 5 First judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your present car.
- 6 Remember that you are making a purchase—not a sale. You are buying a new car and simply using your present car as a credit against the new car's purchase price.

### The First National Bank

HERE are a few things that might be well to think about and act upon:

Sowing a few acres of wheat for winter pasture for those dairy cows.

Sowing a few more acres of alfalfa for the hogs, cows and chickens.

Purchasing some more good dairy cows.

Purchasing a few good brood sows.

The reason we are making these suggestions is because we are interested in your welfare, and, too, this is an ideal time to sow wheat and alfalfa on account of the splendid season—and an ideal time to stock up on dairy cows and brood sows while money is plentiful.

A few dollars and one or two days time sowing a winter pasture might be worth \$100 or more to you before next spring.

**Cotton and Cotton Picking**  
Just now our cotton fields are really beautiful sights and, withal, a source of real inspiration to every thoughtful and appreciative citizen. Perhaps many are, and all should be, profoundly grateful for the good crop we are now harvesting, the fine weather for work and the good price being realized.

While these and many other good things—health, for instance, have come to most of us in liberal measure; this is not a time for waste or extravagance of any kind. These opulent conditions simply afford our people the opportunity of evening up, making needed improvements, providing equipment, laying aside "a nest egg" and taking a new start. Let us hope that some such thought will be dominant in every man's plans.

It may be that there are plenty of holidays already, but V. P. is strongly of the opinion that there should be one more—the celebration of the invention of the cotton gin by Eli Whitney. My, what a blessing it has been to humanity!

Before closing this paragraph, let us have a word about picking cotton. There is no use raising cotton if it can not be picked. Picking is, of itself, a great industry, and as honorable as any other line of endeavor, and all honest labor is honorable. All pickers should realize a fair and reasonable wage for their work, and every cotton raiser should be glad to grant this. But, on the other hand, pickers should be satisfied with fair and reasonable earnings. It should be remembered that, on a basis of one fourth bale per acre (the approximate average yield, it costs the farmer about 20 cents per pound of lint in money and labor to produce and

market his cotton. Remember also that in four years out of the last ten, the average price per pound was less than 20 cents—part of that time much less. These facts make it clear that during about one-third of the time, the farmer markets his cotton crop without realizing any profit at all. He gets something for the labor bestowed, but no net profit; hence it is necessary that he should have an occasional good year—good crop with good price—or he could never make any financial and material progress. In view of these facts, the picker, who has nothing invested but his sack, should not demand exorbitant prices for his work. Two to five dollars a day is good money, and rapid pickers under good conditions realize more. Furthermore, this industry is even more lucrative in view of the fact that all able-bodied members of a family can earn a good wage. Let's play the game fair. This is another good place to practice the Golden Rule.

**School Opens**  
The Fluvanna school opened auspiciously last Monday morning. All the six members of the faculty were in their places and a fairly good per cent of the student body was in attendance—this good showing in spite of the fact that there is a great demand for cotton pickers just now. The main opening exercises of the school were held in the Methodist church beginning at 7:30 of the evening before. This meeting was attended by a large and appreciative audience, and was presided over by Prof. H. L. Massey, superintendent. The service consisted of music and invocation, welcome address by Rev. C. R. Hardy, response by Prof. Willbanks, talk on cooperation between church and

On Friday of last week R. L. Gray shipped a car of fat cattle to Fort Worth.

On last Sunday L. E. Long shipped a car of beef cattle to the same market.

We regret to note the fact that Emmett Craft is suffering from a rather serious attack of heart disorder. It will be remembered that the young man's father, J. W., has been confined to his room practically all the time—much of the time to his bed—for several months, on account of a broken hip. We are glad to report that he is slowly but steadily improving.

Floyd Weems and Miss Ethel May Chapman were united in the happy bond of matrimony last Saturday. They will make their home in Childress County. All good wishes to the happy couple! Next Saturday, Oct. 22, in the early afternoon is the fixed date for another rodeo, other games, races, etc. on the Fluvanna field. We have the promise of an unusually interesting program. Make note of this fact.

Guy Turner renews his subscription for this splendid paper this week. J. W. Weems becomes a new subscriber, and the two Evans boys are sending the paper to their father, T. J. Evans, of Cumby, Texas, in order that he may keep up with the progress of affairs in these parts. It is a good thing to do.

ODOM UNDERTAKING PARLORS SOON TO MOVE TO NEW HOME

Ground was broken this week in the vacant lots west of the bus station for a new seventy-foot front brick building that will later house the Ralph H. Odom undertaking parlors.

G. B. Clark is the builder, which warrants a first class building in every respect. The Times-Signal especially commends these gentlemen for adding this new brick building to the city of Snyder. Snyder is growing, folks.

Only Buick has an engine Vibrationless beyond belief

BUICK'S remarkable freedom from vibration is due primarily to three vitally important factors. First—the inherent smoothness of the Buick Valve-in-Head six-cylinder engine. Second—rubber engine mountings, front and rear. And third—the scientific and almost perfect balance of the entire Buick crankshaft assembly.

Only Buick enjoys these advantages. And only Buick provides the silken performance—the unvarying smoothness at all speeds—the longer life and greater serviceability of an engine vibrationless beyond belief.

SPARKS—SHORT

The following matter was taken from the Prairie, printed at Canyon:

On Oct. 7, at 9 a. m. Miss Josephine Short of Pampa and Mr. Earl J. Sparks of Snyder were united in marriage at Canyon, Rev. I. J. Sparks, father of the groom, officiating.

The bride was becomingly attired in a beautiful combination of blue georgette and satin dress with pink trimmings and accessories.

The bride is the daughter of Mr. and Mrs. J. C. Short of Pampa, who are pioneers of the Panhandle. The groom is the son of Dr. and Mrs. I. J. Sparks of Snyder.

Both Mr. and Mrs. Sparks were well known students in the West Texas State Teachers College during 1926-27. Although many of the co-eds were unaware of the havoc that Dan Cupid was playing in the hearts of the couple, he successfully completed his task and left them wondering as to the identity of the charmer of one of their gallant knight errands.

Mrs. Sparks did special work in the home economics department. Mr. Sparks is well known for his splendid work in the musical organizations and the public speaking department. He was president of the Antler Literary Society and of the Sophomore Class during the past year, and was also a member of the Jolly Bachelor Quartet.

After the ceremony the happy couple left for a short honeymoon, after which they will make their home at Snyder. Mr. Sparks will teach near Snyder the remainder of the year.

MOTHERS' SELF CULTURE CLUB MEETS

Mrs. G. H. Leath was hostess to the Mothers Self Culture Club Tuesday last week, with Mrs. Jack Harris leader. A very interesting paper, "Do We Fail in Teaching Love, Gratitude and Respect to Our Children? If So, Why?" was read by Mrs. Chenault. A general discussion of the paper and of Mrs. Birney on "Good Manners," followed. The all-important question was "What is

There in Our Democracy Which Makes it Necessary to Lay Stress on Such Matters?" Several other good and interesting numbers were given by the different club members. The hostess served delicious refreshments to the members and two guests, Mesdames W. F. Ferguson and J. M. Newton.
