GAS CELEBRATION SHOULD BRING THOUSANDS TO SNY DER

TEXANS

A novel feature of the Demo-cratic convention building at Houston is the walkway through the back of the hall, elevated so

that it affords a view of the hall, and through which those without convention seats are allowed to parade leisurely to obtain a view of a great convention in action.

This considerate arrangement is much appreciated by the thousands who went to the convention as visitors, but in the hope of being privileged to look in on the delegates while at their work.

Fighting Orient Sale
This is a selfish old world—a greedy old world. Officials of the paper railroad from San Antonio to San Angelo are planning to oppose the purchase of the Orient by the Santa Fe on the ground that such purchase would decrease the revenue of the proposed road should it be built.

The claim is that the Orient, as an independent road, would be a feeder of the proposed new line, but that if acquired by the Santa Fe the business would go to that

NATIONAL GUARD TO LEAVE JULY 7TH FOR CAMP

Company "G" 142nd Infantry will leave for its annual encampment at Palacios, Texas, Saturday, July 7. It is this period of the year's training that the Guard looks forward to, and it is always desirous that every member the company who can possibly do so, make camp. It is therefore urged that all business men who have a member of the National Guard employed start now making arrangements to let this member off from July 7 to July 22, that he may do his duty to his company and to his country, says Capt. J. E. Sentell. The hearty co-operation of Snyder and Scur- Houston Host County is asked in this matter.

Captain Sentell states that due to the fact that several men of the company who are farmers may have difficulty in attending camp because of their crops, he will likely have room for eight or ten new men to make this trip. Any young man who is eligible well to take advantage of this op-portunity to make this two weeks trip to the coast with absolutely no expense to himself and on full

pay by the government. If you are eighteen years old and able bodied and want to take this fine trip, see Capt. Sentell or any member of Snyder Guard before July 7.

Two representatives from the firming committees. the Senior Editor, witnessed the demonstration. The attachment is on exhibition at Higginbotham Bros. & Co., and one was left at the Clarkson farm for further

FOURTH OF JULY COULD BRING REAL BASEBALL FEAST

As next Wednesday is the Fourth of July, Snyder and Scurry County could enjoy a big basket picnic at Wolf Park with a feast of real baseball in having the six teams parade their stuff that day instead of using up the regular schedule of three days for the week.

The Times-Signal is offering this as a suggestion inasmuch as last year Snyder entertained 15,-000 people on the Fourth with a mammoth barbecue and good time. But we should work out some sort of a program to make things interesting for our home-folks. It is not too late to order out a fire works display. If this suggestion is appealing, then let's get behind the idea and boost it.

MANLEY ACCEPTS

the call of the First Presbyterian Church at Canadian, Texas, and will go there in July to take dent.

It is with regret that we see Rev. and Mrs. Manley leaving Snyder, but they have the sincere good wishes of a large host of friends who wish them well in their new location. What is our loss is but the gain of the North Plains city, and they will find in Rev. Manley a gentleman who is a booster, a good citizen and a hard worker for the town in which ha is located.

Adjournment, sine die.

SNAPPY PROGRAM OF MUSIC, SPEECHES WILL FEATURE

75-Foot Gas Torch

to Participate in Big Program

> Snyder is looking forward to holding one of the greatest gatherings of the year when natural gas is to be officially turned on tomorrow night (Friday, June 29) in a ceremony in which many people will participate.

One of the most spectacular parts of the program will be the turning on of a gas torch that will reach a height of 75 feet. The program will open with an address of welcome by President Pat Bullock of the Scurry County Chamber of Commerce, with response by City Attorney J. E. Sentell on behalf of the city of Snyder. Prominent among the speakers for the Community Natural Gas Company will be J. P. Byrd district manager and Local Byrd, district manager, and Local Manager C. W. Abrams.

The Lions Club Male Quartet will be on hand with plenty of snappy numbers, and other musical novelties will be given.

The Democratic National convention will last only four days if the official souvenir program is carried out on schedule.

The tentative program, approved by Clem Shaver, chairman of the National Democratic Executive Committee, and which op-ened Tuesday, follows: 12-Noon-Convention called

to order by Mr. Shaver.
Address by Mr. Shaver.

I have noted with more than passing interest what has been published in your good paper for the past several weeks relative to the construction of a bridge across Deep Creek west of the post of

industry three registered bull cir-cles with 13 bulls have been I was the first man in Texas to formed among the farmers. In actually work for a trans-state addition to grain sorghums there are 2,400 acres of wheat, 600 on the project. We raised some acresof oats and 600 acres of barmoney, but like everything else we have tried to do for years, the project was laughed at, called a 000beef cattle and 6,000 dairy way, State Highway No. 1, that carries 10 cars, yes, a score of cross-state cars, to one passing over Highways 7 and 83. Well, then we got busy when we found we had lost the biggest thing that ever hit town and located High-way 83. They came in at the southeast corner of the square and went out at the northeast corner; it gave an equal division of traffic for all of the business on

> the square. Then our feet slipped; the objectors got busy and sent a delegation to Austin and had the highway changed so that only one part of the business section got the benefit of through highway travel. It practically killed the south and east sides of the square for several years. This is a long time ago and those who benefitted have perhaps long since forgot-ten. Now I say in fairness to those other tax payers and citizens who have a right to be heard, the Deep Creek bridge is the most important municipal project in Snyder. It has been for years. We have a bridge at Wolf Park and one south of the city disposal plant, where a dozen vehicles pass over these bridges, in a week; hundreds would pass over the Deep Creek bridge west of the post office every day. E. J. ANDERSON.

See Us for Reduction in Prices.

and now SNYDER GAS

With the recent completion of the Lone Star Gas Pipe Line to your city and the completion of the Community Natural Gas Company's local distributing lines, you now have at your service a dependable supply of natural gas.

We are sure this will be heartily welcomed by every one in this community. Those of you who have used gas before in other places, will welcome it as an old friend. Those of you who have not used gas before, have a real treat in store for you.

GAS IS AN OUTSTANDING CONVENIENCE

Gas ranks with running water, electricity and the telephone as one of the four basic home conveniences. Our modern civilization would not be what it is but for the many conveniences growing out of the use of these four underlying public utilities. And there is not one of these that saves the householder more work and worry than gas. Gas is clean, convenient, flexible, economical—the ideal fuel. No house these days can be really modern without gas gas for cooking, for heating and for heating water. A plentiful supply of gas such as is now available will also stimulate local industrial growth, gas being the most sought after industrial fuel.

DEPENDABLE GAS SERVICE

While the Community Natural Gas Company is new in Snyder, it is backed up by a record of 18 years of dependable gas service on the part of its affiliated pipe line company, the Lone Star Gas Company, which is one of the largest distributors of natural gas in the United States. This is your assurance of a continuous gas supply, on which you can start in right now making full use of the many advantages of gas.

STOVES AND WATER HEATERS

As an added feature to the service of the Community Natural Gas Company will be sold gas stoves and water heaters. Garland Gas Stoves and Pittsburg and other recognized makes of water heaters will be carried in stock and sold through the Snyder office.

PERSONAL ECONOMY

The first principle in the matter of personal economy is a consistent, persistent banking connection.

The man who maintains such a connection has the assurance of knowing that he has at all times a bank reference and a credit standing, without which it would be difficult to attain any great measure of success.

Personal economy calls for thrift, wise borrowing, and a definite plan of building a strong reserve in the bank for future needs.

A permanent banking connection is the means to an end. It is the stepping stone toward real success and independence. It is the substantial result of a determination to make a name and a way through honesty and industry, and right methods of work and saving.

This institution especially invites the accounts of the people of this section.

OPTOMETRY

It's Value to the Public By H. G. TOWLE, O. D.

Snyder, Texas The Optometrist does not always recommend glasses?

No, occasionally the abnormal condition of the eyes is the result of causes that are beyond the

ope of optometry. What does the Optometrist adse in such cases? That the patient consult a phy-

These cases are rarely met with? Yes, there are hundreds ses of errors of vision which the Optometrist can correct to one beond his scope.

Optometry has with medicine? Nothing whatever. The Optom etrist uses no drugs. He employs determine what conditions con-front him, and by the use of lens-es he secures results that are in practically every case satisfactory.

The practice of Optometry is regulated by law?
Yes, the value of this profesion is now legally recognized everywhere, with practical advan-tages to the public and the Op-

Why are eyes strained by ab-normal vision?

The perfect eye (which is practically never found) focuses light perfectly, the imperfect eye im-

This imperfect focusing of light causes strain?

Yes, the imperfect eye tries to is light perfectly, in which AT-TEMPT the muscles of the eyes are put to a severe and never-ending strain. It is really the tired muscles

that produce the effect of strain? Yes, eye strain is muscle strain.

Relief from eye strain is eye

Yes, relief from means comfortable vision. And the Optometrist secures this result with glasses? Yes, by supplying the which the eyes lack glasses overome the defects of vision. Then, broadly speaking,

Optometrist sells comfortable Yes, with the elimination of the bodily ills that usually follow eye

What is one difference between Optometry and, say, dentistry? A persons knows when he needs dental service. Not so with an optometrical

No, many who need an eye servce are not aware of the fact.

Then the public would be benefitted by having eye conditions explained as they are known to Yes, the more familiar the pub-

lic are with their need of optometry, the more the profession will benefit the public. (To be continued)

DUNILOP'S \$195,000,000

WHAT OF IT? ... Dunlop's resources may be \$195,000,000. Does that put any money in my pocket?"

Yes . . . In this way . . . Dunlop's investment is so great, it must be safeguarded. The only sure protection is to give you greater value than you can buy in any other tires.

Then, too . . . the nine mammoth plants . . . the far-flung rubber plantations . . . the great spinning mills . . . such resources enable Dunlop to build extra value into your

The 40 years of experience helps too. But the biggest meaning to you of Dunlop's \$195,000,000 is this: Dunlop could never have grown so great, if Dunlop tires had not only won, but held a vast army of users.

26 million Dunlop tires are now running. That bare fact is eloquent proof that you will profit by putting Dunlops on your car.

DAL-PASO SERVICE Telephone 338 Snyder,

Attention Voters!!

Just at this time I am extremely busy getting all my reports made, attending to transfers and other duties of the office of County Superintendent, but I am trying to see all the voters in the interest of my candidacy for re-election. I want the good people of Scurry County to take this as a personal solicitation of your vote for the office of County Superintendent of Public Instruction. I shall see all of you that I can, but there will be many whom I will miss because of my inability to get out and canvass the county.

I have no promises to make other than that I shall continue the same policy as in the past—that of working in the schools and for the schools in the interest of the boys and girls of the county. The law plainly states that the County Superintendent shall spend at least 4 days a week in the schools when they are in session, if at all possible to do so, and that he shall deliver lectures and confer with school officials in any matter pertaining to the welfare of the schools. This I have tried to do and shall continue to do, not only because the law requires it, but also because that is the only way the schools can be properly supervised. I could save money by staying in the office—it costs money to runa car, and the salary is the same—but as I see it, it is my duty to do this work, and I shall continue to do so in the future if elected.

Very Respectfully Submitted,

A. A. [Pat] BULLOCK

MRS. C. E. FERGUSON GRACIOUS TEA HOSTESS

THE MILEAGE IS FINE

If you really want to get low-cost tire mileage, let us fix you up now with a set of new Goodyears.

Quality considered, Goodyears are the lowest-cost equipment you can buy, and you will have the satisfaction of knowing that no one gets a better tire or a better price than you do.

No "special deals," no "extra discounts," no "long trade" line of taffy here—just "The World's Greatest Tire" at as low a price as quality can be sold.

You'll save a lot-we'll make a little-and we'll both be happy. Come on in-the mileage is fine.

All-American Design Is Advanced Design ... For Example -

General Motors Research laboratories. Oakland engineering staff. General Motors Proving Ground. All working toward one end. Little wonder that All-American design is advanced design.

For example . . . it embodies the G-M-R cylinder head. It offers a whispering brute of an engine . . . 81 lb. crankshaft . . . AC fuel pump. Features combined in no other six of similar price.

When you buy an All-American Six you buy the product of three great engineering agencies devoted to progressive design. And you profit time and time again. In satisfaction . . . in consistent high value in justifiable owner pride.

Stimson Brothers

To the Voters of **Scurry County:**

Because of my official duties it will be impossible for me to see all the voters of the county personally. I am therefore taking this means of soliciting your vote and influence in the coming primary. I will see all of you personally that I possibly can, but I want those to know that I do miss that it will not be because of a lack of interest on my part, but because of the fact that my duties will not permit an extensive campaign.

Having been your sheriff for the past two years, I feel that you have had an opportunity to know what I have done and tried to do. If re-elected for the second term, I will promise to continue along the same line that I have pursued in the past, and will only say that I shall do my best to serve you efficiently.

All of you who read this will please take this as a personal solicitation for your support in July.

Assuring you that I deeply appreciate the vote tendered me last election and that your support this time will be no less appreciated, I am,

Frank Brownfield

Buick Sets New Sales Record

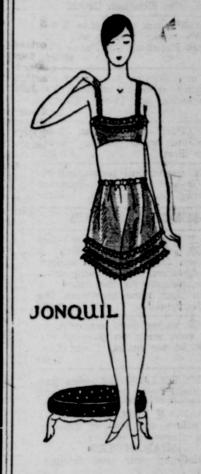

Flint, Mich., June 30.—Buick sales or May exceeded those for April by lmost 5,000 cars, C. W. Churchill, almost 5,000 cars, C. W. Churchill, general sales manager of the Buick Motor Company, announced this week. The figure is taken from retail delivery reports, which reflect considerable improvement in business conditions practically everywhere in the country.

Mr. Churchill also made public a set of tables showing the dollar value of various makes of automobiles sold in the 12 months ending March 31, 1928. These tables indicate that the public paid \$365,000,000 for Buick cars during that period, as compared with \$250,000,000 for the cars of the second highest producer in the fine car field, and \$221,000,000 for those of the third.

J. M. HARRIS, Co. Chairman, By Thelma Blackard, Agent.

To the people of Snyder:

There is not room enough in thoughts to express our feeling to the bouse and to those who brought flowers to the bouse and to the grave, and especially to Mr. Odom and Mr. Casstevens for the care and arrangements at their home. We to those who worked day and inght to help us keep our darling ever need our service in the same baby; also to Dr. Whitmore, who To the people of Snyder:

was ready and willing to answer all calls; for the beautiful sermon

hand for service. In closing, with thanks again to all, we are Yours with our love to all, B. C. BENNETT AND WIFE.

Communion Sunday morning Reception of members.

Epworth League 7:30 p. m. Independence sermon at evening service and music by quartet.
What will hinder you from coming? Lots of things if you will tion sure, allow it. If I were you I would

STINSON DRUG CO. NO. 1

I would leave off work and visiting and play until a better time, say, Monday.

I would leave all things else to

take their course and give my soul And make my calling and elec-tion sure, while I had for my help Providence.

Free **VIOLIN STUDIO** Now located in home of Mrs. H. V. Williams two blocks east of high school. Two private lessons a week. TO THE first woman guessing correctly or closest to the exact temperature of the oven on display at our store during the week starting Monday,

July 2nd to July 7th

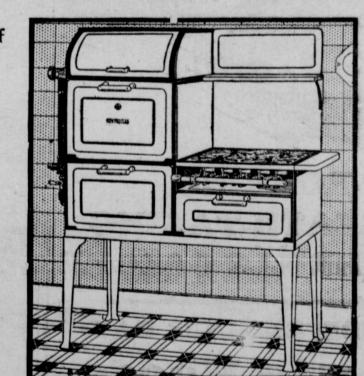

we will give free and without any charge the

NEW PROCESS GAS RANGE

as pictured on the right of this ad, the stove with the Lorain Oven Heat Regulator. Come in and register Monday or any day next week.

The June bride, in fact any bride, is always fearful of failure in her first baking efforts. Hubby must be pleased with her biscuits or her roast or cake, so she simply must not fail.

And she won't, either, if she sees to it that her kitchen has a NEW PROC-ESS GAS RANGE with the Lorain self-regulating oven. The Lorain

Red Wheel insures perfection in every bit of cooking or baking entrusted to it, because it automatically measures and maintains the correct oven heat.
