Laundry Washing Costs You less
HAVE you ever figured what it actually costs to launder your clothes in your home? One woman recently found she actually saved 21c with her two fretful days of tiresome toil. Cost experts, however, say the modern laundry saves a woman from \$1 to \$2.10 on the average bundle . . . but really what difference does it make, whether 21c or \$1 gained or lost? Can you really afford to slave in the wet of home- washing for even 21c a day? Millions of other home-managers have found that laundry-washed clothes are cleaner, sweeter, longer-wear- ing. To them washday is over before it has begun. They have gained a whole day each week . . . a seventh of a lifetime free for living and enjoyment. And they have saved money too. Why not join them now.

Women Delight in its marvelous handling ease
Offering smartness and distinction never before at- tained in any low-priced six and reflecting exceptional good taste in appointments and upholstery, the Pontiac Six is a car which invariably wins feminine admiration. And that admiration turns to sheer delight when they leave the back seat and drive the car themselves.
They know the Pontiac Six is a dependable car. And they quickly discover an ease of handling that makes every mile a pleasure. The powerful four-wheel brakes answer the lightest touch. The big motor is smooth, quiet and responsive, and the clutch and transmission are exceptionally easy acting.
Every day you see more and more women at the wheels of Pontiac Sixes--because Pontiac provides, at a price within reach of almost every purse, everything that women demand in a motor car of their own.

FORMER DERMOTT GIRL PAID COMPLIMENTS

Miss Ina May Burroughs, formerly a resident of the Dermott community and daughter of J. I. Burroughs, has been in school at Madisonville. The Senior Review published there had the following complimentary words to say of her:

"In the sophomore class, we admire Ina May Burroughs, who is quiet, modest and unassuming. She is very neat in her dress, and is very pleasant and agreeable. As a result of Ina May's diligent labor, she had the honor of going to the Latin tournament for the past two years. Here, with her classmates and teachers, she made a record that no one should be ashamed of. She is studious and obedient; her good nature and well-controlled temper have won for her a host of friends who will always admire her as a character worthy of every deserving word she has received."

Miss Burroughs is attending summer school at Belton and will have the unusual distinction of graduating from high school at 16 years of age.

AVERAGE AMERICAN 96 CENTS POORER THAN LAST YEAR

Washington, July 9.—Americans are 96 cents poorer per capita this year than they were last year, but they are \$5.50 richer than they were in 1914. Treasury records made public show that the per capita wealth of the United States, based on an estimated population of 18,364,000 on June 30, the end of the 1928 fiscal year, was \$40.52, compared with \$41.48 for 1927 and \$34.92 for 1914.

All United States money in issue at the end of the fiscal year was given as \$2,117,768,786, compared with \$2,667,286,075 for 1927, and \$3,796,456,764 for 1924.

Of this amount \$4,796,408,667 was in circulation at the end of the 1928 fiscal year, with the remainder held in the Treasury and by Federal Reserve Banks, compared with \$4,851,325,356 in 1927 and \$3,458,059,755 in 1914.

NEW COUNTY PROPOSED

(Cross Plains Review) Some agitation is being brought to bear in this locality, seeking to have created a new county at the next session of the legislature, having the town of Cross Plains as near the center of the new county as is possible.

This could easily be done by taking a part of Callahan and adjoining counties, as was proposed by the citizenship of southwest Eastland county some years ago. The southwestern part of Eastland county is approximately 40 miles from the county seat; the southeast corner of Callahan is

TOWN PROGRESS TALKS

Advertising is the bridge of success. It is the short cut, the easiest way and the only sure way. Men have achieved business success without it, just as they have without the use of eyes, legs or hearing, but many others have failed simply for want of it. Advertising has always been the boon companion of success. They are little pals together. Where you see one, there is the other. They are the Siamese Twins of business. Success without advertising is like ham without eggs, pork without beans and Romeo without Juliet. And the only form of advertising that gets on shirt sleeve ter. with the ultimate consumer is advertising in the home paper.

approximately 30 miles from the county seat; the northwest corner of Brown county is approximately 35 miles from the county seat and the northeast corner of Coleman is approximately 25 miles from the county seat.

While the southwest part of Eastland and northeast part of Coleman have hard surface roads over which the citizenship can go to their county seats, northwest Brown and southeast Callahan have very poor roads under the best of weather conditions, but such that it is almost impossible for the citizenship to get to their respective county seats during rainy weather.

It is considered that the new county would have more than sufficient substantial products and physical assets to maintain same, and considering that the Burkett, Cross Plains, Blake, Pioneer, Hillburn and Cross Cut oil pools are all situated in the proposed area, naturally, with the continued development of these pools, in a period of a very few years the new proposal would be one of the wealthiest in the state from a tax valuation standpoint.

LEPROSY CURE FOUND EFFECTIVE BUT WILL BE GIVEN FULL TEST

Leprosy is on the way to complete eradication, according to Dorothy Paul Wade, wife of Dr. H. Windsor Wade American physician who exiled himself on the Isle of Cullion, Philippine leper colony.

Mrs. Wade recently was in Cleveland to start a campaign for the city's share of the \$2,000,000 Leonard Wood Memorial for the Eradication of Leprosy. Chaulmoogra oil is practically the only known cure for leprosy a disease that has baffled man for scores of years and which affects 3,000,000 persons in all parts of the world. The oil is pressed from the Chaulmoogra tree, a plant that is native to India.

In the last five years, according to Mrs. Wade, 1,300 of the Philippine colony have been treated with the oil—and sent to their homes as cured.

EXPERIMENT WORK PROVING SATISFACTORY

The test plot in deep plowing on the form of J. E. Woodard at Seminole was planted to corn, kaffir, peas, beans and cotton just as the average Gaines County farm is planted. The primary purpose or object of this plot was to test the holding qualities of sand where clay was brought up and mixed with it. This plot has had a severe test this spring when soon after it was planted to the above crops it received a heavy rain that left the soil in ideal condition for blowing but without being stirred this plot has held and the crops on it have not been injured by the past three weeks of high winds whereas the corn by it has been covered up and whipped out. Thus far the results both from the standpoint of holding and growing have been satisfactory. Whether or not it will continue to grow these crops and not blow is a matter that will be of a great deal of interest to people of this county.—Seminole Sentinel.

PREDATORY FISH ARE ELECTROCUTED

The State Game, Fish and Oyster Department is making experiments to get rid predatory fish in the waters of Texas. Electricity, ranging in voltage from 340 to 440 was used to shock the fish. One try out was made in Devil's River and one in San Felipe Creek at Del Rio. The process stuns all fish in a certain radius and they come to the surface of the water, where the suckers are gathered into a boat and the rest put back into the water, where they soon regain self-control.

If this method proves successful, game fish of Texas streams will be solved. It would be hard to estimate the number of tons of fish eggs that are destroyed by suckers, of which the buffalo is the worst offender in the Guadalupe River each year. And then comes the gar who lives on the young of the game fish. There are river holes near Seguin, where one can see hundreds of gar, ranging in length from a foot to five feet, at any time. These rascals are always hungry, and while perhaps not as destructive as the buffalo sucker, are a menace to game fish and the despair of the fisherman.

The Electricity plan is a German idea and is said to have been used successfully in that country.

FAMOUS OLYMPIC CLUB TO PLAY AT ABILENE

West Texas will get a chance to see the greatest array of football stars on the Pacific coast next December 14, when Coach Jimmy Howell brings his Olympic Club aggregation from San Francisco to meet the Simmons University Cowboys on that date.

Coach Frank Bridges of the Abilene school has sent Howell a contract and says acceptance is a mere formality, as the Olympic mentor has already assured him he would be glad to sign for a game.

Some stars already familiar to Texas football fans will be in the visiting roster, which will include "Tubby" Brewster and "Rags" Mathews, both of T. C. U. fame. Some of the others on the club which was coached by Bridges last year and met only one defeat, are: Morton Kaer, all-American back, "Cowboy" Katsch from Iowa, Lloyd Yoder of Carnegie Tech, McCrey, captain and center of the 1927 Stamford team, 'Soup' Carothers, center on the West's team for 1927, and Hicks of St. Mary's fame.

The Cowboy roster is uncertain at present. Ten letter men, together with some likely transfers from Junior colleges and a host of freshmen will be worked into the Cowboy machine. First year men are still eligible at Simmons.

A crowd of over 10,000 is expected for this first inter-sectional football clash in West Texas. The new steel stadium, now under construction, will make the regular seating capacity of Parramore Field 10,000 and additional seats can be provided.

TURN IN YOUR TOES AND LIVE LONGER

Dr. W. Lee Austin, of Oklahoma City, Okla attending the Southwestern Convention of Chiropractors, says person who walk pigeon toed may live to be centenarians. This is the way he explains it: One step in six is saved in walking slightly pigeon toed because one rises higher on his feet and consequently takes longer strides. Pointing the toes outward causes the body to be thrown out of alignment, thus infecting the hip bone and the spine.

"Spinal trouble means work and disruption of the nerves lead to indigestion."

FORD STARTS FAD OF DINING AT COLONIAL INNS

Henry Ford seems to have started something when he bought the famous Wayside Inn. A score or more such ancient taverns in New England and New York state, some of which were falling into decay not long ago, are now doing a flourishing business with the tourists, and it has become fashionable in New York society to motor out to one of the pre-revolutionary hostilities for dinner.

Several of the old taverns have passed their 200th anniversary, notes a writer in Harper's Bazar. Among the oldest is Split Rock Tavern near Wilton, Conn., built 1707, and the Tide Mill Tavern at Southport, Conn., built in 1722.

HAVE YOU FRIENDS OR ACQUAINTANCES?

No one has ever had too many friends; but one must not get into the easy habit of labeling every acquaintance a friend. The latter is a sacred word, not to be uttered lightly. Calling another at once by his first name does not automatically create an intimacy of spirit.—Chas. Hanson Towne in Harper's Bazar.

MAN CAUGHT BECAUSE HE WORE STOLEN FALSE TEETH

Kingston, Jamaica.—Mrs. Leonie McCurdy caused the arrest of Sydney Lawrence, 28, Negro, recognizing him as the man who robbed her home of her late husband's gold ornamented false teeth. Lawrence was sentenced to four months in prison.

Mrs. McCurdy, walking saw the flash of a familiar set of teeth as Lawrence stood in the street talking. She identified the teeth as having belonged to her husband and hailed police.

GOVERNOR REPRIEVES SMITH

The news that Bill Smith had been granted a reprieve was received with frowns by Fisher county citizens. It is taken as an indication that Bill Smith will escape paying a just penalty for a dastardly crime. Many strong Moody supporters criticize the Governor severely for his leniency in this case. Perhaps, anyone else would have taken the same action Mr. Moody did, in the same circumstances, and the criticism may be unfair to him. At any rate this case is just one more of the thousands of perverted justice that have been and will be continued under our technically-bound law operation and court procedure.—Rotan Advance.

THEY'RE COMING "DOC"

Dr. H. E. Rosser who is taking some special work at the Mayo Clinic, Rochester, Minn., writes the Times-Signal Monday morning to "send his paper there until further notice. Can't get the real news in any other way than through my county paper." We thank you, Doctor.

More than 31,000 persons were killed and 875,000 injured in the world in 1926 by automobiles. Of fatalities, 80 per cent were in the United States.

REPUBLICAN CONVENTION TO BE HELD SATURDAY, AUGUST 4 IN SNYDER

The Republican County Convention of Scurry County, will be held at the County Court Room in Snyder, Texas, at 3:00 p. m. on Saturday, August 4. This convention will be composed of delegates and alternates from each voting precinct of this county. These will be named in precinct conventions to be held Saturday, July 28 in each precinct at 3:00 p. m.

THE PRECINCT CONVENTIONS WILL BE HELD

The County convention of August 4 will send one delegate and the same number of alternates to the Republican State Convention to be held in Fort Worth, August 14 at which time a full state ticket will be nominated, a platform adopted, and a Republican State Chairman and 31 members of the Republican State Executive Committee will be elected.

E. J. ANDERSON, County Chairman.

SCURRY COUNTY CONVENTION TO BE HELD SATURDAY, AUGUST 4 IN SNYDER

The County convention of August 4 will send one delegate and the same number of alternates to the Republican State Convention to be held in Fort Worth, August 14 at which time a full state ticket will be nominated, a platform adopted, and a Republican State Chairman and 31 members of the Republican State Executive Committee will be elected.

E. J. ANDERSON, County Chairman.

ROTAN WATER SUPPLY BEING HELD UP WAITING PIPE SHIPMENT

According to the Rotan Advance the city lacks 1000 feet of having the Camp Springs water in their city, is the latest information the Advance has on the water extension. All that is needed to be done to bring this good water into town now is to lay this 1000 feet of pipe and crank up the engine that will pump the water into the reservoir at Camp Springs.

There is a shortage of pipe ordered separately. We understand it is now or will be in the yards this week, and it will probably only take a day or so to lay
