

The Balance of Power is the BANK BALANCE

A BANK account which grows a little right along is often the difference between lost opportunities and profitable ones, between failure and success, between worry and happiness. Success is a habit of thrift, of living and doing on a bit less than all of what you have or earn.

There is no limitation to success; there are only simple rules to follow. One of them is to save, to work closely with your bank.

This bank is glad to render every service in keeping with safety and service to its community.

STATE FARM REPORT READY FOR DELIVERY

The Fortieth Annual Report of the Texas Agricultural Experiment Station has just come from the press. This report states concisely the progress made during 1927 upon nearly one hundred and fifty projects, in each of which a large number of farmers and ranchmen are directly interested. Some three hundred topics are discussed in its 125 pages. More than one hundred A. & M. College research workers have contributed to the results reported in this small volume and it is a summary of their most important findings during the year. Valuable new information is reported on the feeding and breeding of livestock and the combat of diseases and pests of livestock, poultry and field crops. The behavior of numerous varieties and strains of the various crops grown in Texas are reported in each of the 16 regions where tests have been made with these crops. Practices for date of planting, rate of seeding and character of cultivation are indicated for each region.

After the supply for free distribution has been exhausted, a small supply will be retained to lend to those requesting a copy of this report. Address A. B. Conner, director, Texas Agricultural Experiment Station, College Station, Texas.

WILL ROGERS AND SYNTHETIC CHILDREN

I am mighty glad so many people in America are taking up the children work. I used to think there might be some chance of getting our government interested in it, but that was hoping too much. Being a ranchman and farmer and also a child owner, I have often wished that when one of my children got sick I could wire or call up some government expert and have him come and look after them like I can if one of my cows or pigs gets some disease.

If your fertilizer is not agreeing with your land, the government will send a specialist, but if the food is not agreeing with the baby, why we have to find out what's the matter ourselves, and lots of times parents mean well, but they don't know much.

So I am glad that you people are interested in children. Course they are a lot of trouble, but we just don't seem to be smart enough to find something that would be

less trouble that would replace them.

That's the only thing we are shy now is synthetic children. It's not a bad idea whoever thought of doing something for the children.

If it works and you improve them, I will send you mine.—Will Rogers, in American Child Health News.

Once a fire gets started in a rural home or barn there is usually very little hope of saving anything more than the contents. This is plainly apparent at this season of the year when almost every section has occasion to report a disastrous blaze in which some family loses heavily. Lightning plays no favorites, and it strikes as swiftly now as it ever did. Through the summer season it is exceedingly destructive.

Exchanges reaching our table tell of an unusual number of fires being caused just now from this source. We mention it not to frighten those living in the territory we serve around Snyder, but to bring them to a realization of the danger of being unprotected.

There is no sure way of preventing lightning from striking and firing a house. There is little chance of saving it, once the fire gains headway. But it is not impossible to have it insured so that it can be replaced if it should be destroyed and without loss to its owner. These days insurance offers the wise man just another chance to provide for his own.

Snyder enjoys having represented in its midst the best fire insurance agencies in West Texas. Stick to your home insurance man—he will stick by you.

"WAIT TILL FALL, DICK"

Walked into a store the other day and offered our wares for sale, space in the Albany News. The merchant looked us in the face and said "WAIT TILL FALL, DICK." Now that merchant is practicing the one crop system—Three months in the fall of the year—And for the remainder of the year, about nine months, that merchant will have a vacation—Doing nothing so to speak—Waiting for the Fall Trade. We said to him, boy, why wait for the fall trade? That word wait has broken more merchants, held back the tide of progress, putting the world in a state of stagnation—Yes, the men out there on the bread line waited, the farmer minus a crop waited, the dead waited for the tide to come in—waited for the boom that never came—Yes, wait till fall, Dick, and then I will give you an ad. Why shuckins, we said to that fellow out here in grand old Shackelford County, did you know that every day is a fall day—Selling bull yearlings, fat steers, fat calves and cows, hen eggs and butter, fat frying chickens—And doggone the crude oil flowing, the gas is spewing, the oil trucks are going day and night, the drillers and the tool dressers are working day and night, ten dollars per day—O yes, out here in Shackelford County every month is a fall month—Then why wait? Why sit down and wait for the fall cotton to come in—But my, my, the bank vaults are loaded down with money—Why Wait, Boy? Get in the game and take your share of the trade—Buy space in the Albany News, as it's one of the best advertising mediums in the State of Texas—nearly everybody in Shackelford County reads it, read everything in it, read the big fat ads, read the little ads, read the classified ads—O yes, it's Shackelford County's traveling show window, goes to every nook and corner of the county and Ma and Pa and Bud and Sis walk through this show window—Put your wares in it, boy, and reap a harvest—Wait Till Fall Dick—A bad policy—Get in the game and take your share of the trade—Wait Till Fall Dick—Richard H. McCarty in the Albany News. The Albany News says that

thought in Shackelford—the Times-Signal says it in old Scurry County.

OBREGON PAYS PRICE FOR OPPOSING CATHOLICISM

The third president in Mexico to pay the price of trying to deliver his people from Catholic rule was President-elect Obregon, who met his death at the hands of an assassin recently. Madero and Carranza, both men of the masses and friends to the common people, who have made an effort to lift them from penance and Catholicism, have paid the price at the hands of assassins. Calles being the only president who dared to oppose the Catholic church that has been allowed to live.

Still today the Democratic party in the United States have said by their action that they are willing to deliver the American nation, who have boasted of freedom for 152 years, over to Catholic rule by nominating one Al Smith, born in the slums of New York, and who acknowledges that he is for Catholicism and rum 100 per cent.

Anarchy, assassins and ignorance abound in all lands where the Catholics rule, and they will abound in the United States if the people of this country are ignorant enough to put a man in the White House that believes that all power comes from Rome, and that the Pope is the Lord's agent over all human beings. Does the United States want to find itself in the same pew with Mexico—revolution torn, ignorant, paying patronage to the priests and pope, refused free speech, free press and free schools? Ignorance is the stronghold of Catholicism. Once in power, they not only practice ignorance, but hold their prey in complete slavery as far as the scripture is concerned. Can intelligent America stand for Catholic rule in the United States? The Statue of Liberty would bow her head in disgrace. —Lockney Beacon.

THANKS, JOE

State Press Joe Taylor said in his column recently: "The Snyder Signal reports a visit from Col. Dick McCarty of the Albany News. 'The senior editor was sorry to have missed him as the former was at Big Spring trying to yell his head off at the golf tournament.' Do not feel too deeply grieved over your absence, Mr. Smith. Colonel McCarty was aware that you were not at home, as he left you making ready for the tournament only two hours previous. Had he been possessed of an anxiety to hold speech with you he would have had plenty of chances to do so. His call at your office was a professional formality, or perhaps the consummation of a wish to meet the junior editor. Since recovering from a severe attack of summer bronchitis, with the aid of an emergency prescription, Colonel McCarty's vocal pipes have been carefully conserved by their owner, so much so that he has delivered only one or two orations in his natural speaking voice. That voice is one of the most orotund in the West, especially when it gets its Irish up."

WATER-GAS JUBILEE TO BE HELD IN ROTAN SOON

Rotan will stage a big celebration Aug. 8, when the Water-Gas Jubilee will be held. The celebration will mark the coming to Rotan of natural gas and pure water in unlimited quantities from Camp Springs in Scurry County.

Candidates for state and national offices who are in the runoff will be asked to speak on that day, and there will be baseball, polo and other games for the amusement of visitors. At night a huge gas flare will be one of the attractions.

PLANS ON FOOT HERE TO ORGANIZE AMERICAN LEGION

Plans are being worked out now looking to the re-organization of the American Legion in Scurry County, according to Jim Raney, local booster, who is rounding up preliminary details. Mr. Raney has been in correspondence with the American Legion headquarters for some time and has all the necessary material for the re-establishment of the Snyder post. He has also been doing quite a bit of personal work among the ex-service men and reports that around two hundred men have promised to place their membership in the new organization.

While no date has been set for the initial meeting, already the program is taking form. Several prominent Legionnaires from other cities will be here to aid in the organization, and prominent men of this section have signified that they would be glad to appear on the organization program.

WOLF PARK UNDER NEW MANAGEMENT

J. Cline Moore of Lubbock, former owner of the Joy Land pavilion there, has contracted with the Wolf Park owners to take over the dance hall and will open next Tuesday evening with a dance. The famous Grady Gilder orchestra of Dallas will furnish the music.

According to Mr. Moore, Wolf Park is to be made a very popular point for those who enjoy dancing and will at all times maintain the best of order, and says that no rowdiness will be permitted. Dancing is to be held every Tuesday and Friday nights. See their ad on another page of this issue.

SCOUT CARNIVAL DATE CHANGED TO AUGUST 14

The Water Carnival that was to be held by the Buffalo Trail Council on Tuesday, July 31, at Sweetwater, has been postponed to August 14.

The heavy recent and continual rains has been given as the cause. The Santa Fe Lake has been running over the spillway for several days, and the water is muddy. The muddy water is the main reason for the postponement.

The rain will greatly benefit the lake after the water has settled for a few days. The water will be much fresher, and the lake will be three feet deeper. All but five troops had reported they would be present. A total of 130 scouts and officials had reported they would take part. The lake will be much better, the roads much better, and on August 14, 150 Scouts are expected.

REAL ANIMAL MONSTROSITY

Charley Wellborn brought an animal monstrosity to town yesterday morning that was an unusual freak. He had a lamb that had two perfect noses, two good eyes with one smaller eye located in the center of the forehead, two good ears with one located at the top of the head above the eye, eight legs, four of which were properly in place with a leg located directly above each of the good legs. It was necessary to take the lamb away from the mother. Mr. Wellborn intends having the freak mounted.

Not WET... But DRY

A wet gas is an atomized mixture of gasoline vapor with liquid drops of water. These drops, evaporating at every manifold bend, result in uneven distribution and flooded cylinders.

Atexco, the new and better Texaco, vaporizes completely. It forms a dry gas—a perfect mixture of gasoline vapor and air, which provides an even flow of fuel and power to every cylinder.

You buy the LIQUID but you use the VAPOR

Faster.. Faster.. We Drive

Changed Motoring Conditions Demand a New Gasoline

60 . . . 70 . . . perhaps more miles per hour—mastery of the highest hills in high gear—quick-action power—all of this you and thousands of others demand when you buy a car. You may never use this excess power, yet you want it.

Faster and faster—each year a little faster—you drive over increasing miles of improved roads. Faster and faster moves the traffic of cities.

The new and better Texaco is an answer to these changed and changing conditions. In the tank, the new and better Texaco is a pure, non-doctored liquid; at the spark, a vapor that is so free of moisture that it can be truly described as dry. It is this dryness—this ability to form a dry gas—which, in your engine, results in increased power and responsiveness throughout its entire driving range.

Anywhere—wherever you see the Red Star and Green T, drive in for the new and better Texaco—the gasoline that forms a dry gas.

CUNNINGHAM BEATS SMITH FOR SENATE

Oliver Cunningham, young Abilene attorney, has been nominated for the State Senate from the Twenty-Fourth District over Jesse E. Smith of Breckenridge, incumbent, incomplete returns from all of the twelve counties indicate. These returns, gathered by the Breckenridge American and Abilene Reporter, give Cunningham 14,510 and Smith 12,812.

If we were going to pick a winner this fall we would choose West Texas. And if we were going to pick the best spot in West Texas, we would bet our pile on Snyder. It's just a question of our being able to provide accommodations for the inrush of the new people who have also picked Snyder.

Maternity Home at Sweetwater Needs Support

W. W. Dumm of Sweetwater has been in Snyder the past few days in the interest of the Sweetwater Maternity Home. He spoke at the Sunday morning service of the First Baptist Men's Bible Class. Much interest has been created for a worth-while backing of this project that not only extends relief to the unfortunate girls of Nolan County, but covers the entire West Texas district, county lines having nothing to do in the conduct of the home. According to Mr. Dumm, who is assisting in securing funds for the home, the work of the Sweetwater Maternity Home for unfortunate girls was originally started by Capt. and Mother Beaver of the Rescue Workers. Following the death of Mother Beaver, Capt. Beaver's health failed so much that he was forced to give up the work entirely. The home is now being maintained by prominent business men of West Texas and is supported solely by donations from those who wish to help. Judge Fritz R. Smith of Snyder, Judge Mauzey of Sweetwater and Judge Thomas of Colorado have acted as advisors in many matters of the work of the home. Since the home was founded one year ago, 28 cases have been cared for. There are eight at present in care of the institution. The home maintains a follow-up plan in connection with its work and aids in every manner the inmate after release. The cost per case averages about \$65 per month. Each case remains in the institution four months. The only paid officer is Mrs. Harry Holbrook, the matron, who receives the small salary of \$30 a month and board. Other expenses such as clothing, shoes, hats and railroad fare for inmates to positions upon release add much expense to the work. The Snyder will be hastest to the West Providence Primitive Baptist Association when they open a three-day session at Wolf Park Friday. According to G. H. Barnhart of this city, the association expects between two and three thousand visitors from outside of Scurry County. Delegates will be here from Howard, Fisher, Nolan, Taylor, Eastland and Jones Counties to join with local delegates in the meetings. Other counties that have not been heard from will further swell the attendance that is expected here. The encampment will be held at Wolf Park, and the auditorium will be used for preaching services at the park. Most of the visitors will bring their own camping equipment. All members who come without living equipment will be entertained by the local Primitive Baptist Church. Among the well known preachers of that denomination who are expected here are R. B. Hester, E. D. Oraine, John Richardson and Brother Barritt. The local committee on arrangements is composed of R. B. Hester, C. C. Floyd and H. G. Hargraves. According to reports given the Chamber of Commerce, the convention will be much larger than the one held at Tahoka last year when the crowd was estimated at 3,000. Snyder and Scurry County should broadcast a wholesome welcome to these visitors and make their stay here one to be remembered, and a welcome that will bring them back to this section. RATES FIXED FOR MOTORCADE TRIP

Financial details of the West Texas Chamber of Commerce August vacation motorcade to the mountains and scenic sections of Texas and New Mexico that leaves Snyder August 6, were announced Saturday by Col. R. L. Penick, who will play the role of commissary steward for the party. Twenty dollars per person has been set as the cost of meals and overhead of the trip. The meals will be served from a modern motorized "chuck wagon" from off a real West Texas ranch. Two expert cooks have been secured to prepare the meals; tables and camp chairs will be provided at meal time, and electric lights from a portable electric plant will be provided to light the camp at night. For those who do not make the entire trip a \$10 minimum charge is to be made for meals and other expenses. This will cover four days of the trip. Those who cover more than four days of the itinerary but do not care to make the entire journey, will pay two dollars per day for each day over the four day period covered by the minimum charge.
