BIRTHDAY PARTY

Mrs. F. J. Piquet entertained in her pretty new home in North Snyder in honor of her little daughter, Ellen Dalma's sixth birthday. Each guest was met and welcomed by Miss Dalma and served iced lemonade. Many lovely and useful gifts were brought by the little guests.

After an hour spent playing games on the lawn, the hostess assisted by her mother, Mrs. T. G. Green, served iced watermelon to the following:

Little Misses Larue Autry, Marjorie Reynolds, Empress Lucille Wolcott, Ella Eugenie Lambert, Wynona Keller, Juanita Burt, Blossom Lee, Joy and Eleanor Green, Maxine Hargroves, Mary Lou McCracken, Fanny Bell and Annell Whitaker, Fayne Spears, Le Nada and Dalma Piquet; Masters T. J. Green Jr., G. L. Whitaker, Bobby, Andy and Jimmie Reynolds and Mrs. T. J. Green, Mrs. Norman Autry, Mrs. Ethridge Whitaker, Mrs. J. J. Reynolds, Mrs. J. L. G. Green and Mrs. R. W. West.

MISS RUTH SMITH GIVES BRIDGE LUNCHEON

Among the many delightful parties given last week, none has surpassed that of last Thursday morning when Miss Ruth Smith entertained with a bridge luncheon. Roses in pretty vases charmingly arranged about the rooms where the guests were gathered.

The hostess brought delight to her guests in the serving of a lovely two-course luncheon. After the repast had been finished, the games of forty-two and bridge were enjoyed.

The personnel of this pleasant courtesy included Meses. C. C. Higgins, Henry Brice, Bob Gray, Lee Stinson, J. J. Bandula, G. A. Hicks, J. C. Dorward, W. E. Smith, H. L. Davis, Wraymond Sims, W. W. Hamilton, Henry Rosenberg, Clyde Shall, Ivan Dodson, George Oldham, Rudolph McMillen, Harold Enchula, G. A. Hagan, R. H. Curnutte Sr., J. M. Harris, Fritz R. Smith, P. M. Chambers, W. B. Lee, Austin Erwin, Dixie Smith, H. G. Towle, A. J. Towle, Hugh Boren, Ernest Taylor, Albert Newell, P. L. Loh, Tom Gates and Meses Cecil and Neoma Strayhorn.

Mmes. C. C. Higgins and Dixie Smith assisted the hostess in entertaining.

FORTY-TWO ENJOYED AT CUNNINGHAM HOME

Mrs. Dora Cunningham and two daughters, Meses Mattie Ross and Maurine, very charmingly entertained with a forty-two party Monday evening at their home.

The lovely reception suite was beautifully decorated with fall flowers. Nine tables with dainty appointments were arranged for the chosen game. A dainty two-course luncheon was served to the following guests:

Messes. and Meses. C. R. Buchanan, H. J. Brice, H. L. Davis, J. C. Ezell, W. H. Caudle, J. Monroe, Hugh Taylor, O. P. Thrane, W. Wedgworth, J. W. Clauchey, Harvey Jennings, John R. Covey, Bob Warren, George Northcutt and O. S. Williamson, and Mesdames Wade Winston, W. D. Beggs and J. W. Templeton.

BUSINESS AND PROFESSIONAL WOMEN MEET

The Business and Professional Women's Club met Tuesday evening at the Manhattan Hotel with Mrs. Henry Rosenberg, Mrs. W. W. Smith and Miss Ora Norred as hostesses.

A very enthusiastic business session was held at which time a yearbook was adopted, also the colors for the club, which are pink and green. The motto is "Better Business Women for a Better Business World." Many worthwhile reports were given by different committees of the club.

The following enjoyable program was given:

Reading, by Mrs. O. P. Thrane, followed by a piano solo by Mrs. Melvin Blackard and two readings by Miss Martha Gray.

One new member was added to the club, and one visitor was present, Miss John L. Webb, of Oklahoma. Thirty-four members and guests were present.

A Halloween Frolic will be the next entertainment.

NOTICE OF FILING FINAL ACCOUNT

THE STATE OF TEXAS, To the Sheriff or any Constable of Scurry County, Greeting: Walter Gentry, Executor of the Estate of Joseph Heimer, deceased, has filed in the County Court of Scurry County, Texas, his Final Account of the condition of said estate, together with his application to be discharged from said administration;

And you are hereby commanded that by publication of this writ for twenty days in a newspaper regularly published in said county, you give due notice to all persons interested in the final account for settlement of said estate, to file their objections thereto, if any they have, on or before the first day of the next regular term of said court, commencing and to be held at the courthouse in the City of Snyder in said Scurry County on the second Monday in November, A. D. 1928, the same being the 12th day of said month. During which said term of court said account and application will be considered by said court.

Given under my hand and the Seal of said Court, at office in said Courthouse, this 3rd day of October, A. D. 1928.

VICTORY CLASS MEETS

The Victory Bible Class of the Methodist Sunday School met at the home of Mrs. W. P. Smith yesterday afternoon. During the business session reports from the different committees showed that thirty-three sick people had been visited and that twelve garments had been given to the poor.

A social hour followed. Two contests were held, the flower and cake contests. Mrs. W. R. Bell was the winner in the flower contest and Mrs. W. P. Edwards of Dunn in the cake contest. Cherry pie with whipped cream and coffee were served to the fifteen members and Mrs. W. P. Edwards of Dunn, Mrs. M. W. Clark of Dallas and Mrs. Cecil Percival of Dallas.

MRS. FRITZ R. SMITH ENTERTAINS

An enjoyable affair of the past week was the forty-two party given by Mrs. Fritz R. Smith.

The floor decorations were effected by the use of queenvine in lustre vases centering each table and clusters of it in larger vases placed in vantage points about the spacious game rooms. Twelve tables were arranged in a setting of chaperon and coffee were served. At the conclusion of the games a salad course and ice cream and cake were served to forty-eight guests.

W. M. S. MEETS

A delightful new book, "Women and the Kingdom," by Miss Mabel K. Howell, a teacher in the Scarritt Training School, was started Monday afternoon as the basis of the fall study by the women of the Methodist Missionary Society. The history of the societies prior to 1878 was discussed by Mesdames Odom, Lemons, W. J. Ely, Boren, Snyder, L. T. Stinson, Strayhorn and Higgins. At the conclusion of their study the women were the guests of the Junior Missionary Society when the members of this society gave a spirited review of their intensive work of the summer.

The society committee of the Intermediate Department of the Methodist Sunday School, composed of Meses Jeanette Lollar and Dinaween Bridgeman, Messrs. Billy Lee and O. T. Cody, sponsored by Mrs. Tom Gates and Mrs. Wilson, entertained its members and friends in a farewell party to its graduates who were being promoted to the Senior Department. Many games were enjoyed, and appropriate refreshments were served to about thirty-five guests.

Anderson; From aspects of Manners, Speech and Companionship, Miss Mattie E. Clark. Reading, Miss Martha Gray.

PANHANDLE-RIO GRANDE BOOSTERS MEET AT SPUR

Judge Horace Holley called a meeting of the Panhandle-Rio Grande Highway Association directors at Spur Tuesday.

The routing committee recently went over the route and is now ready to report the complete routing. Several counties have already complied with the state highway commission's specifications.

The highway from Sterling City to Colorado has been put in first class shape, and Scurry County has graded to the Kent County line.

In the main, the road is in good condition to receive all year traffic from Oklahoma City to Texas parts and Old Mexico.

LOCAL CITIZENS HEAR DR. STRATON IN ABILENE

Monday evening a party of men composed of M. Stacey, E. B. Baugh, H. V. Williams, Lyman Wren, L. M. Dever, C. C. Carr, Rev. Wilkerson of Camp Springs, Roland Bell and A. P. Morris went to Abilene where Rev. John Roach Stratton, pastor of Calvary Baptist Church of New York City, was to discuss some of the important phases of our present political upheaval.

Tammany Hall was his text and Al Smith the star figure, and he held that audience, estimated at from 7,000 to 10,000 people, spellbound for an hour and twenty minutes as he unfolded the record Al Smith had made.

Considering the hard subject the speaker had to deal with, we think he was very generous to Al. He never spoke an unkind word of Al Smith—the record was enough. This notorious Al is seeking the highest office that can be given man in this fair land of U. S. A., but judging from the way that great audience stood to their feet when called to stand if they preferred Hoover instead of Al, we don't believe they liked Smith's qualifications.

SENIOR A'S ORGANIZE

The Senior A Class of Snyder High School met Sept. 28 and completed the organization of their class. The officers elected were Preston Morgan, president; Violet Dean, vice president; Vera Upton, secretary-treasurer; Edda Von Roeder, reporter for Tigers Tale; Lucy Brown, reporter for city papers.

The class called another meeting Oct. 3 for the purpose of selecting class colors, flower and motto. The saying that "wise minds run along the same channel" proved true with this class for the votes were unanimous in each instance. The colors selected are purple and white; flower, white rosebud; motto, Climb though the rocks be rugged.

"West Texas Today," official magazine of the West Texas Chamber of Commerce, carried stories on Lubbock, Slaton, Floydada, Silverton, Quitaque, Turkey and other South Plains towns in the September issue.

The public school at Crane, which has fourteen teachers and an enrollment of 295 students, is to have a \$40,000 addition finished by the 15th of October.

HOLD SUNDAY SCHOOL RALLY AT COLORADO

There assembled at Colorado last Sunday afternoon workers from Sunday schools at Loraine, Bethel, Champion, China Grove, Dunn, Roscoe, Spade, Westbrook, Snyder and Colorado, and an excellent program was enjoyed.

The following officers were elected, all of whom accepted and were assigned their respective duties and territory or zones for their work: A. R. Rose, Colorado, general superintendent; W. W. Whipkey, secretary-treasurer; group superintendents: H. L. Wren, Snyder; A. R. McManey, Colorado; J. Q. Woodard, Roscoe; R. H. Bennett, Loraine.

Resolutions that will safeguard the life and work of the organizations were introduced by Field Secretary Geo. E. Alexander, and the body unanimously adopted them.

TAHOKA HIGH PLAYS IN SNYDER TOMORROW

Tahoka High, the team that comes to Snyder tomorrow to play the Snyder Tigers, defeated the strong second team of Lubbock High School last Friday 6 to 0.

The local team is on edge awaiting the fray and will go into the battle prepared to give Snyder High a clean slate.

On October 12 Snyder High plays Big Spring there, and a movement is on foot to get fifty cars to accompany the team to the Howard County capital. The Pop Squad should be right along, and at least 250 local boosters should be right on the job.

LUBBOCK BOOSTERS HERE LAST WEEK

More than one hundred Lubbock boosters advertising their Panhandle South Plains Fair that is on this week, were in Snyder last Thursday with their high school band. Snyder turned out a fine crowd that listened to Pat Bullock's address of welcome and responses by Dean Leidigh of Texas Tech and Rev. Mitchell, Boy Scout executive.

They went to Lamesa from here and made stops also at O'Donnell, Tahoka and Wilson.

Scurry County has an agricultural display at the Lubbock Fair.

W. R. Bell was a business visitor in Abilene Sunday.

**CLAUDE HOLLEY ACCEPTS POSITION AS C. C. SECRETARY**

Claude Holley left yesterday for Quitaque where he has accepted the position of secretary of the Chamber of Commerce and City Clerk.

Mr. Holley is a mighty fine young man, a true booster and tireless worker and will make the town of Quitaque a valuable and able citizen, along with Mrs. Holley, who accompanied him.

The best wishes of the Times-Signal join with their many friends in their new home that their residence in this hustling town may be long, remunerative and with splendid success.

Snyder seems to be an incubator for the development of talent for secretaries of chambers of commerce. H. L. Massey first went to Hamlin, W. S. Patrick went to Spur, and Claude Holley left this week for Quitaque. That's some record.

**THESE TEXAS FARMERS GROW STANDARD COTTON**

Oklahoma and Texas cotton growing counties whose cotton is now rated "points off" by the cotton trade, might well profit from the experience of farmers in Collin County, Texas. Farmers in this county are growing standard cotton.

Collin County didn't have a good reputation as a cotton plant a few years ago, says the September 15 Oklahoma Farmer-Stockman. It was produced in good many "points off" by cotton buyers. No one was proud of the cotton produced in the county. It's different now.

Collin County farmers are growing 70,000 acres of pedigreed cotton this year. This is nearly one-third of the total cotton acreage in the county. Thirteen farms in the county are recognized as standard gins and on certain days these gins handle nothing but cotton produced by growers who are members of the standardized cotton association of the county. This is not only for the purpose of keeping the seed of the pedigreed cotton pure, but it is also for the purpose of ginning the standardized cotton in an efficient manner. The growers have also selected and are growing one variety which they believe is adapted to their community.

As a result of this standardization, cotton in Collin County is now being bought "points on" and one of the largest buying firms of the South estimates that the price of cotton in the county has been improved more than \$7.50 a bale through this standardization.

The thing that these Texas farmers have done has been talked of by growers in many Oklahoma and Texas counties whose cotton is now rated "points off." A lot of these counties could better their markets quicker by standardizing on some good cotton variety adapted than by any other means, but it takes action and not talk.

Another Pioneer Speaks

One of the good, substantial boosters for the Times-Signal is W. H. Richardson of Dunn, who came to the office Friday and reported he had landed here in old Scurry back in 1889. He said, "I like the Times-Signal and want to always be a booster for it." We surely appreciate these good words from our booster friends and hope to always merit their good will and patronage.

**ALL SMILES**

Our Junior Editor was smiling yesterday morning from ear to ear, and when "Chubby" smiles, that boy sure puts it on. G. H. Sellmeyer of Carlsbad, who operates a sheep ranch there, came into the office with a classified ad, and Chubby, in writing the ad, said to Mr. Sellmeyer: "Brother, I can spell that name right off for where I came from in Missouri there are plenty of Dutch by that name." After a few explanations it was found that Mr. Sellmeyer originally lived just 18 miles from where Chubby was born—and then the smile came through. And we didn't blame Chubby, for old home ties are never forgotten, and Chubby was walking on all twelve cylinders the balance of the day.

**COTTON MOVING SLOW OVER WEST TEXAS**

Advice from the Department of Commerce on cotton ginned prior to Sept. 16 as compared to the 1927 ginnings shows that Scurry County this year has ginned 18 bales to the last named date as compared with 980 bales last year.

Dawson County, 1928, 3 bales; 1927, 297 bales

Kent, 1928, 18 bales; 1927, 242 bales

Mitchell, 1928, 62 bales; 1927, 1841 bales

Nolan, 1928, 1928, 43 bales; 1927, 2899 bales

## THE WEST TEXAS LOG ROLLING ASSOCIATION

The members of the following W. O. W. camps, and W. C. Groves met at Sweetwater on Monday evening, Oct. 1: Sweetwater, Fort Worth, Loraine, Roby, Loraine, Snyder, Stamford, Abilene, Merkel, Stephenville and Big Spring, and elected the following officers: L. M. Hubbard of Sweetwater, president; O. M. Smailley of Roby, first vice president; Mrs. Janie Garner of Snyder, second vice president; J. M. Simms of Sweetwater, secretary; Mrs. A. M. Ripps of Big Spring, assistant secretary; Mrs. T. S. Lankford of Abilene, treasurer; W. M. Bright of Sweetwater, J. F. Multz of Sweetwater and Mrs. Tessie Goldsticker, Stamford, as trustees.

It was decided at this meeting to hold the log rolling meetings on the first Thursday in June of each year for a two or three days session. The president will call a meeting with a committee on or about January 1 to select a place to hold the first meeting of the association.

Plans are also being made to hold a field day meet of the Uniform Rank on the same date that the association meets each year. There are 15 or 20 companies of the Uniform Rank in West Texas.

The Woodman Circle drill staff from Stamford was present at this meeting and put on the drill work. This drill staff has the state honors and will try for the national honors next year.—Sweetwater Reporter.

**WHAT'S DOING IN WEST TEXAS**

A farmer at Woodson sold 41 cows and one bull to an out-of-town buyer for \$3,906. The cattle were mixed breeds and were bought for stock cattle.

On what is locally known as dollar day in De Leon the cream shipment was particularly heavy. Twenty-seven cans of cream averaging 70 pounds to the can, paying 38 cents a pound, brought farmers \$380.

The school boys of Winters have organized one of the first "Future Farmers of Texas" chapters in Texas. This organization for boys who are preparing themselves to be tillers of the soil has organizations in nine states.

Over fifty kinds of vegetables are grown on a farm by Mr. and Mrs. J. F. Wilkerson southeast of Perryton on Wolf Creek. Swiss Chard, oyster plant, cold rabi, wora keek, berries and melons are included in the group.

The Commissioners Court of Floyd County in session at Floydada recently let the contract for the paving of the four blocks around the square. The street is already paved on the outside half in front of the building. The cost will come out of the 25-cent maintenance and improvement tax.

A modern triple combination 500-gallon pumping fire engine was recently purchased by the city of Prote at a cost of \$6750. Several members of the new volunteer fire department have already learned how to work the mechanism of the pump.

The SanSaba Chamber of Commerce is conducting a campaign for better seed for the farmers. On account of the failure of some of the crops seed must be imported, and the C. of C. thinks this is the time to improve the quality.

John M. Gist fancy Hereford breeder of Odessa, recently sold 40 head of 3-month-old bulls to Marfa breeders for \$250 a head. The forty were of a herd of 100, the balance of which will be groomed for late fall shows.

Contracts for twenty blocks of additional pavement has been let by the San Angelo City Commission. An electric bond of \$1,000 was accepted.

The first user of the new natural gas in Goreau was the Goreau Gin Company. In a few minutes after the gas was turned into the mains, the gin, which had previously installed burners, was running with the gas as its fuel.

Two booster trips advertising the Donley County Fair were taken by enthusiastic citizens to Lelia Lake, Hedley, Giles, Jerico and Martin, all neighboring towns.

At the sheep and goat raisers barbecue additional prizes were posted to winners in the junior lamb division of the boys and girls club department. Second prize will be a high grade ewe, and third prize a 100-pound sack of Buck-Chow.

One hundred and two head of Jersey cattle were exhibited at the Scurry County Fair last week.

**HIGH 7TH ORGANIZES**

On Tuesday morning the class of the high seventh grade met for organization. The following officers were elected: Bobby Collier, president; Gwendolyn Gray, vice president; Oren Sturdivant, secretary; Jessie Mae Hanson, treasurer; Orval Crowder, reporter; Dawson Bridgeman, sergeant-at-arms. The class will meet on alternate Wednesdays of each month. The flower, pin and class colors will be chosen at the next meeting which will be held Wednesday, Oct. 10.

**IT'S UP TO SNYDER**

Several West Texas cities have "anted up" thousands of dollars to purchase a site and equipment for a municipal airport. Several have promoted and passed bond elections for the paving of their highways. City auditoriums have been constructed in some. Paving, additional water and sewer construction and other projects have been included in the activities of several.

With the passing of time these investments will make for their respective cities worthwhile returns many times over.

Snyder, well up the hill toward the building of a city, must not stop.

One hesitation will result in a back-set that will be difficult to overcome. Progressive cities in each direction are "on their toes" watching every opportunity to advance.

Snyder must stay in the march. And with all this development and advancement that is so evident in West Texas, it is clearly up to Snyder to say whether or not this city will keep her place in the field of progressive cities. It is clearly up to Snyder to decide whether or not this city will pave her highways, build her airport, her auditorium and do other things to stay in line with the other cities in civic and municipal improvement, or whether she will "rest on her oars," drifting rapidly back out of the stream of advancement into a dormant stage.

**Good Advice**

"Please, Mr. Editor," wrote a correspondent of a country paper, "can you tell me how to prevent bleeding at the nose?"

"To prevent bleeding at the nose," replied the country editor, "keep it out of other people's business."

**Try a Want-Ad for Results!**

"I am charged," said the judge, "with beating up this government inspector. What have you to say?"

"Nothing," replied the grocer. "I am guilty. I lost my head. All morning I had held my temper while government agents inspected my scales, tasted my butter, smelled my meat, graded my kerosene. In addition, your honor, I had just answered three federal questionnaires. Then this bird came along and wanted to take moving pictures of my cheese, and I patted him in the eye."

**"THEY"**

"THEY" ought to do something about the grade crossing where the whole family was wiped out yesterday.

"THEY" ought to stop those bootleggers from selling denatured alcohol to our young folks to make them blind and crazy.

"THEY" ought to prevent corruption in high places which destroys the public confidence in a popular form of government.

"THEY" ought to do something about educating the foreign-born radicals in our country.

"THEY" ought not to leave politics in the hands of gangsters and criminals who elect only those they can control.

"THEY" ought to clean up the streets and alleys of this town.

"THEY" ought to see about paving the streets and building sidewalks.

"THEY" ought to plant trees and beautify the town.

"THEY" ought to look after the moral conditions existing in this town.

"THEY" ought to get more factories and industries located here.

"THEY" ought to be doing something toward improving living conditions in this town.

"THEY" ought to provide better fire protection and obtain reduction in insurance rates.

"THEY" ought to get the people to paint up their property, plant more shrubbery and beautify their places.

"THEY" ought to be doing something towards obtaining a better and larger water supply for future demands.

Do you know why "THEY" are not doing all these worthwhile things?

"THEY" are waiting for you to do something; waiting for YOU to use a little of YOUR time and energy; waiting for YOU to loosen the strings of YOUR pocket-book a little and aid in the civic enterprises of the community.

YOU are one of the representative men in YOUR community. What have YOU done?

**MY HEALTH RECIPE**

(By Jack Maxwell)

The following is going to be just as personal as a mole on a guy's neck—the same being used for a collar button. However, kindly read it and weep:

In my home town I am called and thought of (now and then) as a happy man—and that's that, and WHY? Simply because I have learned to control, to a very appreciative extent, my bad habits. My life and yours is made up of HABITS, good and bad, no kidding.

For many years I have been working on the elimination of my bad habits. I am on the job 365 days a year—and you'd be surprised at the number of bad habits I cut out during this time. I also bring into my life all of the good habits I can, as I find them conducive to health and happiness.

On the bar of my typewriter I keep pasted always the habit I wish to eliminate. When it has died from NEGLIGENCE, and this will cause the death of any habit good or bad, I write down the name of another bad habit, and go right on with the work of killing the mental ball weevil. Friends, please try this plan for at least one year—and then write me your verdict.

**TOWNS OPEN WAR ON PETTY GRAFTS**

An organized fight against petty graft is being carried on by chambers of commerce in the more prosperous sections of West Texas, says a dispatch from Clarendon. Because of the fact that these counties are prosperous they have become a magnet for grafters with every scheme for getting money, even going so far, it is alleged, as to prejudice one class of people against another for their profit.

Besides Clarendon, Shamrock, McLean, Pampa, Hereford, Tulia, Memphis, Turkey, Panhandle and other Panhandle towns are lined up in the fight.

**THE LATEST AUTHENTIC REPORTS**

the well is now producing 500 barrels a day, and it is confidently believed that production can be increased to at least 800 barrels.

It is understood that practically all the storage tanks are now full and it will probably be necessary to shut the well down until some arrangements can be made for disposition of the oil.

The first storage provided consisted of 3,000 barrels—six tanks of a capacity of 500 barrels each. Next 10,000 barrels of storage was installed, being two tanks, each of a capacity of 5,000 barrels.

With 13,000 barrels of oil already in storage it should not be difficult to convince the most skeptical that the Midwest is a real oil well. Neither should it be difficult to secure pipe line connections with this well.

**TRINITY PRESIDENT SPEAKS IN SNYDER**

Snyder was signally honored Sunday when Dr. John H. Burns, president of Trinity University, gave two splendid and inspired addresses at the Presbyterian Church before large and enthusiastic congregations. Monday morning Dr. Burns also spoke at chapel assembly in the high school auditorium.

Following the Sunday services at the Presbyterian Church a real dinner was served. In addition to many local folks being present, representatives from Post and Fluvanna were on the scene and enjoyed the sociability of the hour and the hospitality of the local church.

One of these days it is hoped the Presbyterian people can hold their services in a new church, and every true-blooded county booster should be behind them in the move.

The Times-Signal also enjoyed a pleasant visit with Dr. Burns at the office as he brought a word of greeting from Hugh Williamson, business manager for Trinity University, who used to try to teach the Senior Editor back up North many years ago.

**O. E. S.**

Snyder Chapter No. 450 will hold regular meeting Thursday night, Oct. 11th. Do not forget the date.

**MORE GOOD ROADS**

Voters of Brown County, by a majority of more than three to one, approved a good roads bond issue of \$1,650,000 in an election held Monday. The city of Brownwood voted something like 18 to 1 for the issue, and staged a wild celebration when the returns came in.

Out of this issue, Brown County will get more than eighty miles of concrete roads—Highway No. 10 across the county from Comanche to McCulloch, No. 7 across the county from Coleman to Mills, and No. 129 from the Eastland County line to Brownwood. In addition, many lateral roads will be built.

The improvement of No. 7 is of particular interest in this immediate section of Texas. That road is already surfaced in Taylor and most of Coleman Counties. It runs to Brownwood and on into East Texas by the Waco gateway.

No. 7 starts its long career at Farwell, comes down off the plains through Lubbock and Snyder, and halts temporarily at Sweetwater. There is a gap in Nolan and Taylor Counties, then it starts in again near Tuscola, where it branches off from No. 30.—Abilene Morning News.

**BAPTISTS TO HOLD WORKERS CONFERENCE**

The Mitchell-Scurry Baptist Association will hold its regular monthly Workers Conference and board meeting at Fluvanna Tuesday, Oct. 9. All member churches are expected to send messengers. The program for the day follows:

Moderator, Rev. A. D. Leach. 10:00 a. m. Devotional and song service, led by Rev. T. L. Nipp.

10:15, Inspirational address by Rev. W. C. Ashford, Colorado. 10:50 Address, "Flashes From the Field," Deacon H. L. Wren, Snyder.

11:20, A Message, Rev. W. F. Ferguson, Snyder. 12:00 Recess and dinner.

1:30 p. m. W. M. U. Session and Executive Board meeting. 2:30 Reports, resolutions and announcements, with time and place for next meeting.

3:00 Bible Address, Rev. Geo. W. Parks, Roscoe. 4:00 Benediction and Adjournment.

The fire department was called to the Emergency Hospital last night owing to an oil stove catching fire. Damages were slight.

**World Series Starts Today**

The world series of 1928 will open at Yankee Stadium today with the St. Louis Cardinals opposing the New York Yankees.

"I GUESS I'll have to ask you Kitchen Clubbers to come back and make my kitchen ugly," laughed Mrs. Adams, whose kitchen had been the subject for discussion several weeks before. "You've made it so attractive that not only my daughter but half a dozen other girls want to loiter entertaining there."

Mrs. Adams was one of the thousands of mothers who find themselves having to compete with the movies, drug stores and the streets for their children's interest. She had met the situation fairly and frankly, realizing that she couldn't force her children to enjoy staying at home, even if she made them stay there. If home was to compete with outside interests, it must be more attractive. That was that!

When Mrs. Adams was a girl and Mr. Adams was coming to see her, an evening sitting on the sofa with him was thrill enough. But her girl scorned that kind of evening. She had to be doing something. And Mrs. Adams admitted to herself with a faint, reminiscent blush, that probably her daughter's idea of entertainment was the more wholesome of the two.

Mrs. Adams got her solution to the problem one rainy evening when she poked her head in the living-room door and announced that she would make raisin-nut fudge if she could find someone to seed raisins and shell nuts. Boredom vanished. Aprons went on. One couple made a great to-do over the raisins. The other couple shelled the nuts in not more than twice the time Mrs. Adams would have used. The candy was good, and the party ended at a late hour in the kitchen.

At the next meeting of the Club Mrs. Adams asked for a kitchen color scheme that would look sophisticated and wouldn't show dirt too much! Nancy's notebook shows what she got.

LEAVES FROM NANCY'S KITCHEN CLUB NOTEBOOK

Mrs. Adams asked us for a "swanky" color scheme and, believe me, she got it! We decided on a floor of midnight blue and white tiled linoleum; washable oil cloth walls, dark blue on a cream background, up to shoulder height; above that, deep cream washable paint walls. Table, cabinet, cupboard, refrigerator, white, stenciled in dark blue. Oil range, white porcelain enamel. Window seat covered with dark blue, white and orange cretonne. Cushions covered in solid orange. White curtains stenciled in orange. Midnight blue and orange braided rugs on the floor. Mrs. Adams got four rubberized cloth aprons in blue, white and orange for her daughter's friends to use.

**Midnight Dishes—Deviled Sardines**  
Cover any amount of sardines do sired with canned tomato soup. Cool for five or ten minutes. Serve on toast.

**Midnight Dishes—Sandwich Loaf**  
Take a loaf of day-old bread. Slice off all crusts, making as square a loaf as possible. Slice lengthwise of loaf full length of loaf, from bottom to top, leaving the bread in layers. Spread on bottom layer a filling of stuffed olives chopped and mixed with mayonnaise. Put on second layer. Spread with cream cheese-and-nut mixture. Put on other layers, alternating the fillings. When loaf is complete, "ice" with cream cheese and garnish with slices of olive. To serve slice as you would ordinary loaf of bread. This makes a delicious and most decorative dish for luncheon and midnight parties.

Mrs. George F. Smith and the new son, Wesley Wade, are expected to arrive home Sunday from the Lubbock Sanitarium, accompanied by Aunt and Nurse, Miss Edith Comstock. Gosh! Things will sure move then around the Senior Editor's home, and it will be a happy day.

**DICK AND ABE SAY:**  
BE CONSISTENT  
A tablecloth unwashed for a week or two  
Would mean a divorce between  
wifey and you;  
Wear your white collar as long  
as a week,  
And your friends on you then  
vengeance would seek.  
Yet many a man for no reason  
whatever  
Acts like he'd wear an un-  
cleaned suit forever.

### Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

#### Church Services

On last Sunday there were two services at the Methodist Church here. This scribe is not in position to comment on the nature and value of the services since it was not within his province to attend them. But, even if he had been in attendance, he would not be able to measure the worth of a divine service. Who can tell

what may grow out of two or more good religious services reverently held in the Lord's house on the Lord's Day?

In the afternoon of the same day several members of the Methodist Church got together with the pastor and motored to Polar where a quarterly conference was held. Several members of the Pres-

byterian Church, after holding an early session of their Sunday School, hied away to Snyder for a Fifth Sunday Workers Conference at the Presbyterian Church of that place. As it is not within the province of this writer to write up that meeting, he is not going into details about it. Suffice it to say that the occasion was a very profitable as well as a most delightful one. Services were held at the Presbyterian Church of Fluvanna Sunday night.

It is understood that on next Sunday regular services will be held at both the Fluvanna Baptist and Methodist Churches.

**Business Affairs**  
H. S. Whitaker recently received one car of sheep for his ranch. Hood Brothers received 1,000 head of sheep over the Santa Fe Saturday, unloading same at Justiceburg and driving across to their ranch west of Fluvanna.

Drew Wilson recently sold out his market business on the north side of Main Street to Aurl Gieg-horn, who, it is understood, will add a stock of groceries. The farmers of this section have been quite busy lately taking care of the feed crop. Cotton picking will be light this season.

Several different people who have recently made trips northward from this place, some reaching as far as eastern Oklahoma, report that, generally, crop conditions are very bad in those regions.

Arthur Brown is completing a nice 4-room residence about four miles east of town. More homes is one of our needs.

**School Affairs**  
The Fluvanna High School girls basketball team started the season off right Monday by defeating the town independent team by the decisive score of 11 to 3. The girls are making fine progress and are all set for a big season this year under the able coaching of Miss Hazel Spikes, formerly of McMurry College.

The boys' team also is fast whipping into shape and will be playing match games soon. Mr. Wedgeworth and Mr. McCarter have charge of the boys. Both these men are from Stephen F. Austin State Teachers College.

The Fluvanna school was glad to have County Superintendent A. A. Bullock as a visitor Monday. We are always glad to have Mr. Bullock with us and invite him back.

Fluvanna is experiencing one of the liveliest school years that it has ever had. Everything seems to be going with perfect harmony.

The senior class met in response to a call by the president last Thursday for the purpose of selecting class flowers, colors,

motto, etc. Our seniors are ever ready to do their part in the way of school activities. Wednesday they will have charge of the entire chapel program, and a good program is surely expected of this fine bunch of seniors.

The juniors proved themselves equal to the occasion last Friday night. Feeling that the seniors were getting too dignified and studious, the juniors asked the seniors to be their guests on a venicene roast and hay ride. The seniors lost no time in accepting this invitation, and everyone reported a big time, and the hay ride is still being discussed by those present.

The eighth grade organized on Sept. 27, with Miss Edith Hall as president; John Truss, secretary and treasurer; Miss Estelle Faver, reporter; and Inez Harris, Oliver Odom, Lorena Coleman, and Leon Harris, social committee. This class will meet twice a month. —School Reporter.

**Visits and Trips**  
J. A. Johnson of Palestine, Texas, is here visiting his daughter, Mrs. F. J. Moore, and her family.

Mr. Fuller of Louisiana is here visiting his daughter, Mrs. H. C. Flournoy.

Harley Hulseby and family several days ago moved to Crosbyton, near which place he will work in a gin. Bos Stavelly carried the household goods across the country in his truck.

J. W. Clawson and Dr. A. W. Browning made a trip to Fort Worth this week on business and for a visit.

Mrs. Colon James and Miss Vera Stavelly spent the week-end visiting in Roscoe. They proceeded to Sweetwater Saturday night where they viewed the Nolan County Fair. We have not learned whether or not Miss Vera made this later trip in company with Mrs. James.

Miss Vernay Boynton, who has had one year in Simmons University, departed the first of the week for Fort Worth where she will stay in the home of an uncle and attend T. C. U.

J. A. Martin and family visited in Polar last Sunday.

Mr. Crowder and family of Verbena spent the week-end here visiting in the home of W. O. Christopher.

C. D. Cribbs is said to be down in the back this week.

The little son of Waldon and Mrs. Wills narrowly escaped fatal consequences on Wednesday of last week as a result of removing the plug from the gas tank while playing in the car. The child had been overcome by the fumes when found.

**Population**  
This matter should have received attention in the last issue of this paper but time and space forbade it. Nevertheless, so important a matter as an addition to the Senior Editor's family and the increase of the Smiths should not be overlooked. Our genial editor was so overjoyed because of this event that he hurriedly got out a very attractive announcement and sent it to his friends. Being in a state of periodical excitement (for this seems to be the sixth experience—get it right, Carter) he got his type a bit jumbled, but that is perfectly excusable. It appears that this overjoyed editor and father is already choosing the vocation of Wesley Wade, and is planning to put in additional linotype and duplex machinery. Of course he may be excused for getting the order of things reversed, but we venture to suggest that safety pins, rubber goods, gogart, carriage, toys, high chair, crib and soothing syrup should be matters of an earlier consideration. If V. P. is mistaken about this, he is subject to correction. Any way, congratulations with best wishes are in order.

**ED'S NOTE:** Bro. Tate, we thank you and hope you and the Mrs. will run up and see the new-comer. He's a pippin.

**HOLDING MEETINGS TO MAKE POULTRY PAY**  
Solving problems to make poultry pay is the object of a series of poultry programs being conducted by C. C. Redman, teacher of vocational agriculture, and C. C. Willis, with the new county agent, W. H. Logan, cooperating. The programs are informal with question asking and answering, which gives each person an opportunity to state his problems. It also affords an opportunity for each person to state his problems. It also affords an opportunity for each person to give the group the benefit of his experiences and technical knowledge.

The problem of culling was considered at the first meeting. A number of hens were brought in by E. V. Bullard and T. F. Head. A round table discussion and a thorough demonstration followed. An egg laying contest was organized, and each person present joined.

The problem of housing was the theme of discussion for the second program. Essential points to consider in properly housing birds; plans for houses; equipment, and cost were discussed by the entire group.

The third meeting was held last Thursday night, which proved there was not a lack of interest by those who were present. The problem considered at this meeting was feeding and feeding. This problem was discussed in a logical manner. The principal points stressed were: Why it is necessary to feed a laying hen a balanced ration; food nutrients in a balanced ration; how to balance a ration; when and how much to feed; and the cheapest ration to get the best results.

The group present at the last meeting decided to meet Thursday night, Oct. 12, at 8 o'clock at the high school for one hour's discussion on the problem of diseases and parasites. This is a local problem and will be considered as such, the principal points to be stressed being symptoms, treatment and prevention. Every person who is interested in poultry has a cordial invitation to attend these meetings.

**NOLAN COUNTY DISTRICT COURT OPENS MONDAY**  
District Court at Sweetwater opened Monday for a seven weeks session with Judge Fritz R. Smith presiding. Special emphasis was placed by the judge to try and complete the term within five weeks time on account of the pressing need of cleaning up a large number of cases, both civil and criminal, at Big Spring, which have grown to alarming proportions.

**Sixteen of the Golden Voices**

The music of "The Desert Song" is said to be the most fascinating and "catchy" of all that the favorite composer Sigmund Romberg has written. Here is a double octette with two male voices arrayed against 14 sopranos and altos—a novel arrangement but said, in this case, to be most effective. There are 100 singers in this immense company, which comes to Fair Park Auditorium, Dallas, for the State Fair season, October 6 to 21.

**TIMES-SIGNAL FORUM**

Editor, Times-Signal:

Please allow me space in your paper to make a brief reply to Brother Jas. H. Tate's communication in your last issue.

Brother Tate seems to think that I charged him personally with converting his pulpit into a political rostrum, etc. This was not the case at all. I said: "The thing objected to is, converting their pulpits into political rostrums and their membership into political clubs."

Brother Tate misquoted me again when he writes as though I had said that Julius Caesar was the head of the Roman Government at the time Christ said: "Render unto Caesar," etc., when as a matter of fact I did not refer to Julius Caesar at all, but used the word "Caesar" in the sense of supreme ruler, as we formerly used the word "Kaiser" or Czar to designate the head of the German or Russian government.

He misquotes me again in reference to Moses, Elijah, Daniel and Nathan. I said his references to these matters were not germane to the question at issue because the matters spoken of were not political matters.

Brother Tate takes issue with me in regard to my interpretation of the constitutional provisions relative to the separation of church and state that reads as follows: "Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof." Now the meaning of this is clear, that all citizens have equal rights regardless of their religious beliefs or church affiliations, therefore I repeat that where a person is opposed for public office because of his religious belief, it is in violation of the spirit of the constitution. How could the "free exercise" of religion exist if men are barred from public office on account of their religion?

Brother Tate refers to the persecution of other sects by the Catholics, presumably as a reason why Catholics should be opposed politically. They are not the only offenders in respect to persecu-

tion. The Catholics have been persecuted and adherents of that church executed by burning and by other inhuman and barbarous methods. Cranmer, who perished at Oxford, had been zealous in sending to the flames those who differed from him. Latimer, who was burned at the stake, had abetted the kindling of fires under the heads of the opposite side. Even John Calvin caused the execution of the learned Doctor Servetus at Geneva because of his religious views. During the reigns of Cromwell and Elizabeth in England the Catholics were persecuted in every conceivable manner. In our own country they have been persecuted in various ways. They were not allowed to vote in the colony of Rhode Island. They were not allowed to settle or own land in Georgia. On the other hand, when Maryland was settled by Lord Baltimore (who was a Catholic) full religious liberty was granted to all Christians in Maryland. No other colony in this country then enjoyed such liberty, and it was almost unknown in Europe. Maryland became a refuge not only for the oppressed Catholics of England, but also for many of the oppressed Protestants of the other colonies of America. Later on a general assembly was elected to which no Catholic was allowed to be elected, nor was any Catholic allowed to cast a vote for any member of the assembly. The Legislature repealed the act granting religious freedom to all Christians, and in its place they enacted a law prohibiting Catholic worship throughout Maryland.

In Virginia and New England laws were passed compelling all persons to attend church. Failure to do so subjected the offender to be publicly whipped. Thus we see that Protestants not only prevented the practice of the Catholic religion, but compelled the Catholics to attend services at the Protestants. I admit that the Catholics have engaged in terrible persecutions against other sects,

and I am not attempting to excuse them by citing instances of similar conduct by Protestants. These persecutions by burning and torture of various kinds, as well as wars, were almost invariably caused by attempt of either the Protestants or Catholics to make the church the dominating political power. It was because of this fact that our forefathers incorporated in our Constitution the clause providing for the separation of church and state.

Brother Tate's statement that the Catholic Church "brands every couple not married by a Catholic priest as living in concubinage, and their children as being born out of wedlock," is absolutely incorrect. Neither does Governor Smith entertain any such view of the matter as imputed to him by Brother Tate. On the contrary, the Canon Law of the Catholic Church states that the marriages of Protestants are recognized as valid.

When Governor Smith was first elected Governor of New York,

the annual appropriation for public school purposes was \$11,000,000. The appropriation for public school purposes in New York for 1928 is \$86,000,000. This is all the answer required as to Governor Smith's views relative to public schools.

Let us briefly examine the conditions existing in some of the leading countries of Europe.

In England Protestantism is the state religion. State clergy paid out of public funds. Protestantism taught in public schools. Catholics number 1,500,000.

In Spain the people are almost all Catholics. Catholicism is the state religion. Religious freedom prevails. Has compulsory primary public schools.

In France the people are almost all Catholics. Has compulsory public schools. Separation of church and state prevails. France is a republic, and notwithstanding the fact that the people are almost all Catholics, the present president of France is a Protestant.

In Italy the people are mostly Catholics. Maintains free public schools.

So we see that Brother Tate's statements regarding the attitude of Catholics of the present time toward public schools are not correct.

Brother Tate charges Governor Smith with the nullification of prohibition in New York. At the time Governor Smith signed the bill which the New York Legislature had passed repealing the state prohibition enforcement act, he used the following language: "That on every peace officer would continue to rest the sacred responsibility of sustaining the Volstead Act with as much force and as much vigor as they would enforce any state law or local ordinance." Instead of nullifying the 18th amendment and the Volstead Act, he urged the peace officers of the state to enforce it.

Brother Tate says Governor Smith is being supported by the "riff raff, off-scouring bootleggers and other criminals." Does Senator Sheppard, the author of the 18th amendment, belong in class? And that old prohibition horse, Gen. M. M. C. And Governor Moody, Jose Daniels, Carter Glass, Newton Baker, A. S. Burleson, T. Gregory; are they "riff raff" "criminals"? They are all supporting Governor Smith.

F. I. TOWNSEND.

**STATE MAY BUILD ITS OWN ARMORIES SO**

A bill will be introduced in next legislature to allow the state to build its own armories, according to word sent out from Anrillo.

The state is now paying a great deal of money in rentals and erection of these armories would result in a considerable saving. The state does not now own many National Guard armories.

**BIG SCOUT MEETINGS TO BE HELD HERE AND 2 OTHER CITIES**  
 Following the return last week of F. D. Craft, scout executive of the Buffalo Trails Area, from Ithaca, N. Y., where he attended an eight weeks national training school, local troop rallies will be called throughout the area to present to the scouts new ideas and plans for the coming year.  
 "Before I left," Mr. Craft said, "I made arrangements for a series of inter-city rallies which will begin in October. I find the work has been carried on in good shape and everything will be in readiness for these inter-city meetings which will be held in Snyder, Spring and Colorado.  
 "Scouting now is organ fifty-seven countries of the and great progress is being made. The organization is going to one of the great factors of the future for promoting international friendly relations."—Colorado Record.  
 Says "No Snow This Winter"  
 B. T. Johnson made a prediction last fall as to the winter weather, and his prediction came true.  
 Now he predicts again that there will be little snow this winter. As a rule, there is little moisture through the winter when there is little snow, says Mr. Johnson, with an experience of more than thirty years on the Plains. It also follows that with little moisture there is little prolonged severely cold weather.

 I came here on Deep Creek where Snyder was later located, in 1881. Scurry County was organized in 1884, so you see that I never came to Snyder—Snyder came to me. That is why I always reserved the right to do as I pleased, and if people didn't like it, why, they could just move on farther.

**THE NEW SOUTH—TEXAS**  
 Airplanes, telephones, telegraph, radio, smooth highways and railroads have made Texas more compact for purposes of government and business than was the smallest of states a century ago, thus practically disposing of the fear that the area of the Lone Star State would prove too great for practical government purposes.  
 Its integrity, as an entity, safe, Texas—powerful, rich in land and resources, and daily gaining in wealth and influence by reason of its people—may look forward to a self-supporting population of ten, even fifteen millions, an annual income by these people of as much as fifteen billions, and a place of the very first magnitude among the states of the union.  
 Someday the surplus drainage of other regions will be brought under control and diverted to West Texas, there to irrigate lands now too dry for the best agricultural results.  
 Someday industry will rank with agriculture and raw material production in that state.  
 In half a generation Texas has created an artificial port at Houston and developed a water borne movement of some 12 million tons.  
 In fifty years it has built an inland city at Fort Worth and increased its population some 5000 per cent.  
 In a short span of time it has created at Dallas one of the best conditioned cities in America.  
 San Antonio has become an excellent place in which to live and to develop business.  
 And so the record goes. Everywhere progress. Everywhere promise.  
 For Texas, or for the good of any part of the state, all Texas works in harmony.  
 The drift of cotton production is westward to the new, virgin flat lands, where mechanical cultivators and pickers will solve the problem of farm labor and materially reduce the cost of production.  
 Only one, or at most two generations removed from the pioneer stage, Texas enjoys the vigor and enthusiasm of youth, plus a character of effective patriotism and local pride rarely, if at all, matched in other states.  
 We owe to the man who essays to sell Texas short.

**ADOLPHUS HOTEL MANAGER IS DEAD**  
 R. L. Ellifritz, manager of the Adolphus Hotel at Dallas, died at Denver Friday shortly after his arrival to attend the American Hotel Association convention.  
 Ellifritz complained that his heart bothered him, but later told his friends he was feeling better. A few hours afterward he was taken ill and died. He was well known also in Snyder where at one time he seriously considered building a new hotel.

The root and toot of the air cirloope, intermingled with the oices of the barkers and the music of several bands, playing tunes as only circus bands play, will fill the air in the vicinity of the Wolf Park show grounds Saturday, Oct. 13, afternoon and night. It will be vireus day and Hagenbeck-Wallace will be here for afternoon and night exhibitions.  
 Representatives of Hagenbeck-Wallace assert that never in history has such a meritorious performance been offered under a big top. From the gorgeous opening spectacle, "The Geisha," to the closing display, which is called "Glittering Glory," action predominates in the various rings, stages and on the hippodrome track.  
 Among the features are such famous acts as the Orrin Davenport Family of Riders, the Edward Ward Flyers, the Slayman

**When Winter Comes**

**You use more Electricity!**

**DAYLIGHT HOURS** are longer from April to September. These are the outdoor months. Picnicking, driving, swimming—all kinds of outdoor sports claim your time during these longer days.  
 This chart shows the average number of hours in which electric lights are used in the average home for each month in the year.  
 From September to March daylight hours are shorter and therefore electric light hours are longer. Less outdoor playtime and more indoor amusement. Electricity makes the indoor hours joyous. It furnishes light and heat, cooks the meals, operates the radio, the victrola, and performs dozens of jobs that would otherwise be a hardship.  
 Electricity is the boon companion of shorter days and longer nights. You use more of it in the winter and it gives you countless pleasures, conveniences and comforts.  
 This chart shows why your light bill is higher for the winter months than it is for the summer months. It is higher simply because there are more hours of darkness in winter than there are in summer.

## ENJOY BIRD FRY AT EZELL RANCH

The hospitable ranch home of Mr. and Mrs. Com Ezell in the Ennis Creek community was the scene of an enjoyable dove hunt and bird fry Saturday afternoon and night. While Jack Harris with his new gun, said by him to be the very best in the world, Com Ezell, J. M. Claunch, W. F. Cox, E. M. McCarter and E. O. Wedgeworth were enjoying the hunt, the ladies were at the house preparing the accessories for the sumptuous feast that followed.

About sundown the picking squad got busy and had the fifty birds prepared for the frying pan in a short while, even though Supt. Wedgeworth insisted on saving the grain in the crop of the birds. By this time the ladies had everything spread on the bank of the pond, and the moon opportunely came up to add splendor to the beautiful evening. After the delicious supper was finished, the merry group gathered around the fire and enjoyed mandolin and guitar music furnished by Red Harris and Otis Carter, assisted by Red Wedgeworth.

At a late hour, after much real merriment, the party reluctantly took their departure, expressing to the gracious hosts their sentiments of pleasure on being present on this occasion.

Included in the party were Supt. and Mrs. C. Wedgeworth, Mr. and Mrs. J. M. Harris, Mr. and Mrs. J. M. Claunch, Mr. and Mrs. W. F. Cox, E. H. McCarter, E. O. Wedgeworth, Otis Carter and Miss Ima Lee Thomas.

## TWENTIETH CENTURY MEETS WITH MRS. DUNN

The Twentieth Century Club met Tuesday, Oct. 2, with Mrs. J. Nelson Dunn. The program was on "Education," being led by Mrs. R. W. Webb, after which a lovely refreshment plate was served to the following guests: Mrs. Lambert, Mrs. Joe Taylor, Mrs. A. C. Leslie, Miss Luella Brice and Mrs. Melvin Blackard; and the following members: Mesdames H. M. Blackard, I. W. Boren, H. J. Brice, P. C. Chenault, J. C. Dorward, J. Nelson Dunn, W. J. Ely, C. E. Fish, W. T. Raybon, H. E. Rosser, W. M. Scott, J. E. Sentell, Wraymond Sims, W. W. Smith, Joe Strayhorn, Allen Warren, B. W. Webb and O. S. Williamson.

## MRS. W. W. LECHNER ENTERTAINS

Mrs. W. W. Lechner very delightfully entertained the members of the Sine Cura Club Tuesday afternoon.

During the business session the following new officers were elected: Mrs. J. M. Harris, president; Miss Cecil Strayhorn, vice president; Mrs. W. B. Lee, secretary, and Mrs. A. D. Erwin, treasurer.

The club made a \$10 gift to the local Red Cross storm relief fund. In the interesting bridge games of the afternoon, Mrs. R. H. Curnette Sr. was the winner of high score, while Mrs. W. R. Johnson received second high.

Delicious refreshments were served to Mrs. E. J. Anderson, Mrs. Wayne Boren, Mrs. R. H. Curnette Sr., Mrs. Ivan Dodson, Mrs. A. D. Erwin, Mrs. G. A. Hagan, Mrs. J. M. Harris, Mrs. W. R. Johnson, Mrs. W. B. Lee, Mrs.

## MRS. ENGLISH HOSTESS TO ALTRURIANS

The Altrurian Club held its semi-monthly meeting in the home of Mrs. R. D. English Sept. 28, at 1 o'clock. The house was very tastefully decorated with cut flowers.

As the club members and guests arrived they were seated in the living room where they were served with a dainty plate. The next place of interest was the dining room where Mrs. E. J. Anderson served the refreshment plate and Mrs. J. M. Harris poured coffee.

A business session followed. Mrs. A. J. Cody, Mrs. W. E. Doak, and Joe Monroe were appreciated guests.

## MRS. BRUTON ENTERTAINS SUNDAY SCHOOL CLASS

Tuesday evening, Sept. 25, Mrs. Ollie Bruton entertained her Sunday School class with a farewell party, as the class will be pro-

moted the first Sunday in October.

Games and contests were enjoyed for an hour and then a report of the year's work was given. Mabel Reichardt was honored pupil for the year, having missed only one Sunday. The teacher presented her with a pretty bonnet. Maxine Shuler came second, and she was presented with a perfume atomizer. Louetta Byrd was third and received a bottle of bath salts.

Willie Pearl Glen presented Mrs. Bruton with a pretty picture from the class as a token of their love and appreciation for what she had done for them.

A dainty plate was served to Roberta Raybon, Louetta Byrd, Maxine Shuler, Willie Pearl Glen, Mabel Reichardt, Dorothy Howell, Dorothy Irwin, Mabel Turner, Roba Huey, Elizabeth Wilsford, Frances Humphrey, Frances Fay Huestis, Eloise Cook, Melba Doak, with Dorothy Lee Williams and Daisana Popejoy as guests.

## BRIDGE ARTICLES TO APPEAR IN PAPER

Through arrangements completed with Wynne Ferguson, widely known bridge teacher, lecturer and writer, the Times-Signal is able to offer a series of thirty-

six articles on bridge. These articles will be released weekly under the heading of "Easy Lessons in Auction Bridge." This feature will appear exclusively in this territory in the Times-Signal. More bridge is being played than ever before, and in order to master the greatest of all games it is necessary to learn the bidding and play properly, and it is essential that a recognized authority be followed. If you are a beginner, the lessons will prove a great help, and if you are already familiar with bridge, the problems and solutions will afford much wholesome entertainment and recreation.

Don't miss an issue of the Times-Signal. The first lesson will be released October 18.

## THURSDAY NIGHT BRIDGE CLUB ENTERTAINED

Mrs. J. G. Hicks was the charming hostess to the Thursday Night Bridge Club members and guests last Thursday evening.

The reception suite was beautifully decorated in autumn flowers.

In the bridge games Mrs. Ivan Dodson and W. T. Raybon were winners of high score awards for members, while Mrs. W. D. Beggs and Norris Wilson received the

guest prizes for high score. A dainty salad course was served to club members and the following guests: Mr. and Mrs. L. O. Smith, Mrs. W. D. Beggs, Mr. and Mrs. Norris Wilson, Mrs. Lee Newsom, Mrs. Harold Enfield and Miss Vesta Green.

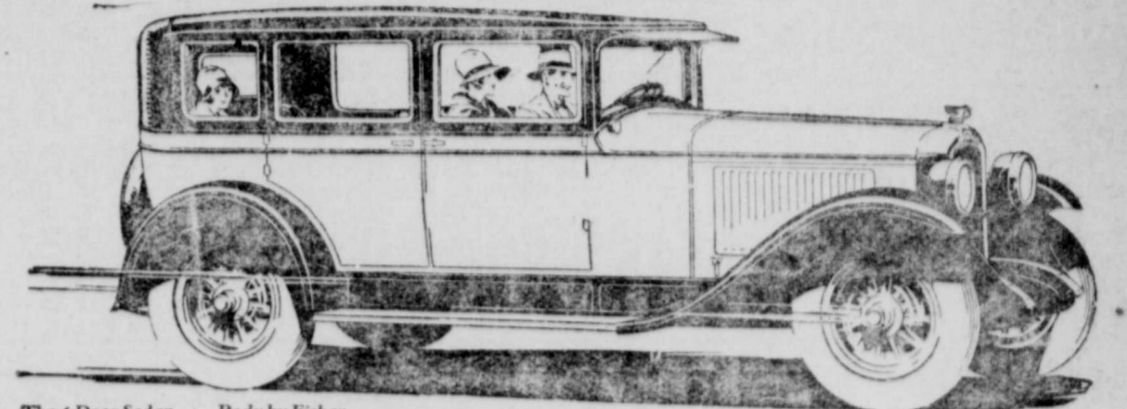

Mr. and Mrs. R. C. Grantham were Lubbock visitors Sunday.

## FRIENDLY HELPERS CLASS ENTERTAINED

Mmes. Joe Stinson, Lee Stinson and Homer Snider were hostesses to the Friendly Helpers Sunday School Class last Thursday afternoon at 3:30 o'clock at the lovely new home of Mrs. Lee Stinson in West Snyder.

A short business session was

held at which time new officers were elected. An enjoyable social hour followed. A plate luncheon was served to the following: Mmes. G. Whitaker, A. C. Preuit, W. W. Hamilton, Dick Randalls, Bob Gray, Homer Snider, Tom Gates, O. R. Collier, W. W. Smith, Ivan Dodson, Norris Wilson, Albert Norred, Ralph Odum, Wesley Ely and E. C. Neely.

WINDMILL HELPS BAKE HIGH SCORE CREAM

Keeping his barn, his equipment and his milk clean and immediate cooling of his cream won for John Moser of Clayton County, Iowa, the honor of producing the highest scoring cream in the state during 1927. Moser won the gold medal in a contest conducted by 33 creameries with a product scoring 95.6 for the year. According to the research department of the National Association of Farm Equipment Manufacturers, the production of this quality product which commands a premium among high class butter makers required no more expense than for ordinary cream. Mr. Moser depends on his windmill, a cooling tank and a cistern to keep his cream at a temperature of about 52 degrees. The windmill is allowed to run long enough morning, noon and night to keep the water in the cooling tank at the desired temperature, and in that way cooling costs very little. An overflow pipe carries surplus water from the tank down into a cistern which in turn supplies livestock watering tanks. In case there is too much water it can be eliminated through a waste pipe, and if there is too little wind to run the mill, Mr. Moser cools his cream by hanging it in the cistern. In addition to immediate cooling, Mr. Moser considers a clean barn, clean milking and sanitary equipment essential in the production of a high scoring cream.

SCHOOLS ARE GOOD

Snyder schools under the able leadership of Supt. C. Wedgeworth are in excellent shape to function, with a faculty selected for its ability and qualifications. The school plant in all phases is in fine shape.

With schools, it is often as with other things which are public affairs. There is a tendency on the part of the people generally to employ men, turn the schools over to them, and say, "Now go ahead." Then they forget about the schools until some little thing goes wrong, at which time, without knowing what it is all about, they begin to criticize.

The answer is: Know your schools. Not only from your own child's viewpoint, but know them as a whole. Know what modern ideas on education are, and what modern school men and women are driving at. It may be entirely different from what it was when you attended schools. Perhaps standards and methods have changed considerably. Know the faculty of the schools, the superintendent and principals, and keep as closely in touch with school affairs as you can. Be proud of them, help them and you will get a much greater return from your schools than otherwise.

After all, the value of your schools is not their physical plants. The return you get for your school money is not the number of students who pass through the number of the grades. The value and the return are both measured in the concrete results in character and attitude of your children. The amount of knowledge gained is not nearly so important as the attitude of the child toward that knowledge, and the inspiration gained for further pursuit of knowledge.

Thus, the results obtained from schools requires proper background and co-operation in the homes, and becomes as much a responsibility for parents and citizens generally as for the few who are entrusted with classroom instruction.

If an individual child does not respond properly to school instruction, it possibly may be the fault of the school. Much greater

encouragement and co-operation from parents. Anyone who thinks the proper training and education of a child is a small routine task needs only to ask some mother about its complexities and difficulties. How much greater is the problem when the children are handled in masses, coming from all kinds of homes, all kinds of environments! The success of our schools is not the task alone of our employed school directors, but it is the task and responsibility of our citizenry as a whole.

KNOW TEXAS

Texas ranks first among the states in number of ice manufacturing plants and number of persons engaged in the industry. The annual production is valued at \$25,000,000.

It is estimated that 5,000,000 persons outside of Texas are engaged in industries directly dependent on or connected with Texas cotton.

The ratio of increase in electrical production in Texas is greater than the average for the United States. Interconnection has made electricity available to hundreds of Texas towns which otherwise would not have had this convenience.

For eight years Texas has been the leading state in total value of crops produced. It is estimated that the production could be more than doubled by increased land in cultivation.

SCRAPBOOK HINTS FOR THE HOME Care of Umbrellas A wet umbrella should be closed and stood with the handle

down. This prevents rusting of the point where the ribs join, and also prevents stretching of the cloth.

To Test Eggs Place an egg in a pan of water. If fresh it will lie on its side. If a few days old it will tilt upwards. If stale, it will stand on end. If very old, it will float.

A Convenient High Chair If four rubber-tipped door stops are screwed into the legs of an ordinary chair, it makes an ideal high chair for kitchen work, or for a small child.

Peeling Onions Pour hot water over onions, allow them to remain for a few minutes, then drain and pour cold water over them. Then the skins can be removed easily.

Sewing Room Hint Cut the strips containing buttons and buttonholes from discarded garments and use them under a fly in new garments. It saves time and labor.

When Too Much Salt If food is too salty, place a wet cloth over the top of the vessel which is cooking. The steam will draw the salt into the cloth.

A Substitute Bodkin A smooth safety pin for thin or lacy material makes an excellent bodkin. The pin holds the material securely.

Face Wrinkles Try binding the forehead with a linen bandage soaked in equal parts of alcohol and the white of an egg, allowing the bandage to remain over night.

An Improved Dustpan Bend the hollow tin handle of the dustpan to a right angle with the pan and insert a discarded broom handle. It avoids much stooping.

Threading the Needle After threading the needle, tie a knot in the end of the thread that was last broken from the spool and the thread will not kink.

Method of Testing Coffee A way to test the quality of coffee is to put a spoonful in a glass of cold water and add a few drops of lemon juice. If the coffee is pure it will remain on top of the water, but if not, the water will become brown in color.

To Enrich Plants To enrich the earth around plants, water them with a solution consisting of 150 grains of glue to two gallons of water.

An Improved Oven Cut a piece of asbestos paper to fit the bottom of the oven. It retains the heat, saves fuel and prevents articles from burning.

To Sharpen Scissors When the scissors are dull, run the blades across the neck of a small bottle, in the same position as though cutting off the neck of the bottle.

To Brighten Leather If the leather seats and backs of chairs become dull, beat the white of an egg and rub thoroughly. Then polish with a clean, soft cloth.

COLORADO HIGH CAPTAIN BADLY BURNED IN FIRE

Mike Porter, captain and quarterback of the Wolves, Colorado High School football team, will be out of the game for some time because of burns received this week when the film in a picture show where he works caught fire and he tried to extinguish it. His forearms were badly burned.
