

Poultry Show Opens in Snyder Next Thursday

Supt. B. L. Baze Hopes to Have 1,000 Birds in Prize List

Next week is the annual Scurry County Poultry Show which is destined to be the greatest show ever held here, judging from remarks made by the many boosters for poultry in this section.

B. L. Baze, superintendent of the local show, and County Agent Logan were at Colorado last week where the former judged poultry exhibits and Mr. Logan the grains. Both reported that Mitchell County had a very successful show, and they hope to see Scurry County do even better than our next door neighbor.

Catalogs have already been issued explaining every part of the many money prizes to be offered and the rules governing the show.

The poultry specialist of the A. & M. College gives the following directions for preparing chickens for show. They will be of interest to farmers who are planning to enter birds in the Scurry County Poultry Show which opens here next Thursday at the city auditorium.

All white breeds should be washed. In washing, have three or four tubs of soft water; the first lukewarm, the second a little cooler, and the third cool, and in the last just about as much bluing as the housewife uses in bluing white clothes. Take the birds by the legs, holding the wings close to the body and slowly immerse so as to thoroughly soak the feathers. Then soap the bird until you get a good lather, using a good grade of soap. Do not use laundry soap.

Rub with the feathers, never against them, being careful not to break any of them. After the feathers are clean, rinse off with such soap as you can in the first tub; then place the bird in the second tub and rinse until you are sure all the soap is out. Transfer the bird to the tub with the bluing and rinse again. All the soap must be removed or the feathers will stick together.

Dry the bird with a bath towel and place in a clean dry coop or box in a warm room. The washing should be done at least 24 hours before the bird is brought to the show.

If you get too much bluing in the water you will have to wash the bird again.

The feet and legs of show birds should be soaked in warm water a few minutes and scrubbed with soap, water and brush until they are clean. Sweet oil and vaseline will make the legs look better if rubbed on after the legs are washed. Be sure not to get oil on the feathers.

WAGGLY-WIGGLY STORE NOW OWNED LOCALLY

Monday marked the change in a prominent local store, the Waggly Wiggly, when Charles Kelley and Maurice Brownfield purchased the stock and good will of H. W. Sanders of Slaton who established the store here more than a year ago.

Both of the new owners, Kelley and Brownfield, are well known here, and are fine young chaps who have had years of experience in serving the public and who maintain the high standard set by the Waggly Wiggly organization. W. R. Patton, who has been manager of the store, will be associated with the new management, and J. J. Taylor, "M" System store, where he has purchased a half interest.

The Times-Signal congratulates the interested parties and wishes for them all continued success and the best prosperity.

"Butch" McClinton closed up his grocery store last week but has not announced his plans as yet.

Wherein Texas Paper Lays Claim to Championship in Morale-Smasher Division

The following letter was written to Editor Elmo Scott Watson of the Publishers' Auxiliary, Chicago, recently, and the following paragraph is a box at the top of his front page in the current issue:

Dear Mr. Watson:

We note various claims made through the Newspaper Bible championships in one sphere or another, but the Scurry County Times-Signal at Snyder, Texas, asks for entrance into the Morale-Smasher division with the following three loads of hot buck-shot:

(1) A son born to Editor and Mrs. George F. Smith September 19, bearing the distinction of being "the newest heir to the Smith millions and latest of the million Smiths."

(2) On October 6, Assistant Editor Otis D. Carter married, spending a week in Dallas and Fort Worth.

(3) On November 1 W. H. Ritzenthaler, my partner, was married and all arrangements made to put him in jail, first by "cheese" of police at 8 falls down on the job, coming within six weeks of a wonder if any news-writer in America or the world could break up of office personnel than the above.

A very truly yours,
Scurry County Times-Signal,
Geo. F. Smith, Senior Editor.

Lions Banquet Friday Night Huge Success

Nearly One Hundred Enjoy Turkey Feast in Honor of Ladies

The Snyder Lions Club Banquet Friday night for the ladies was one of the greatest events ever attempted in this city.

The home economics department of the high school had made a house of beauty of their spacious school laboratory with Hal-low'en and Thanksgiving effects adding to the neat appearance of the decorations. Special favors had been placed at every table, twenty-six joining in the festivities.

Judge Fritz R. Smith as toastmaster gave one of his inimitable one-act performances on "Just How to be a Toastmaster." The judge left nothing to the imagination in the way that he handled the job. In introducing Judge J. M. Harris as "Mr.," Fritz R. pulled his first offensive bullet, for Red in discussing "The History and Principles of Lionism," stated among other things that he had never been called "Mister" before in his life. Amen. However, Judge Harris gave one of the best talks of his career in declaring that the rendering of unselfish service to Snyder was a fundamental part of Lionism, and to make Snyder safer and better for our boys and girls should be the united effort of every parent.

"Pat" Bullock gave the eight points in the Lions Code of Ethics, while Roy Strayhorn, said to be a member of the "Blindfolded Tail Twisters," told the crowd, "Who Is A Lion?" Hugh Boren, blushing, yet apparently unafraid, told the ladies that Warren Dodson gave as the Lions' creed: "Liberty, Intelligence, Our Nation's Safety."

Toastmaster Smith in introducing Miss Marion Engle, home economics teacher in the high school, and the members of her class, paying them a remarkable tribute for the fine menu served, said that "most of the boys here were born forty years too soon."

After that the war was taken off. Judge Smith had each lady present introduce her husband, telling the name she called him by. New-y-weds, old-timers and all were included—none were missed—and while we would like to publish the names and the statements, yet we are afraid that some husbands would want to pile bullets through the front window of the office here if we published the laughable remarks made by some of the good wives.

The High School Orchestra rendered fine music all during the evening, and with the program so ably arranged, the guests felt that the Lions had acquitted themselves nobly and well.

SCURRY COUNTY FOLKS ON COLLEGE STAFFS

A bulletin from the New Mexico Normal University, Las Vegas, says that E. J. City of Herefords is a member of the Student Council as well as vice president of the freshman class.

Miss Lois Johnson is assistant business manager of the official publication, the Canyon, as well as vice president of the senior class.

Congratulations to these two Scurry County representatives! They are doing their bit in keeping the advertising world of Snyder and Herefords before the world at large.

POST DISPATCH PUTS OUT LARGER PAPER

The Post Dispatch, ably and well edited by Eddie Warren, came to our exchange desk last week with three pages, seven columns to the page. The new size and appearance is a remarkable improvement over the former size, and the paper now takes rank with the best. Among the local advertisements were two full page ads, one from Warren Bros. and another from the Lloyd Dry Goods Co.

In Editor Warren, Post has a fine editor who stands head and shoulders above the ordinary newspaper man and who is giving the citizenship there a 100 per cent newspaper that stands on its own feet without bluff or bluster.

BUFFALO TRAIL COUNCIL MEETS AT COLORADO

The Thanksgiving Rally of Scouts is to be the largest held this year. Troops from the entire council will meet at Colorado on Friday at 2:30.

Troop No. 9 of Colorado is planning to demonstrate archery. The entire troop is working on new bows and arrows. Several other troops are taking up this form of activity, and an archery event will be held after the regular rally is over.

Two new troops will attend this rally: Troop No. 26 of Maryneal, and Troop No. 21 of Jayton.

The east side of the square doesn't get nature with the Hokus-Kokus store a thing of the past, but you can't lose good-natured Homer Jenkins who is right on the job with a hamburger and general eating stand. A barber shop is to occupy a part of the store room.

What seemed to be a northerly hanging on the edge Saturday night proved nothing more exciting than a slight cold spell preceding a rain.

"THE KING OF KINGS" COMING TO SNYDER

Cecil B. De Mille's Masterpiece Is Highly Endorsed by Critics Everywhere

One of the greatest events of the picture season here will be the premier showing of Cecil B. De Mille's "King of Kings" at the Palace Theatre on Dec. 3 and 4. This picture has enjoyed a sensational success in New York, Chicago, Boston, Philadelphia, and Los Angeles, and has been widely discussed by press, clergy and laity than any other motion picture since "The Birth of a Nation."

The causes of the popularity of "The King of Kings" are not far to seek. Among them are the world's greatest story, the reverent dramatization of the life of Christ, superb acting of eighteen stars; 500 well-known players and 5,000 extra people; the restoring of a historical period in buildings, scenes, properties and costumes exceeding in elaborateness even "Ben-Hur"; and above all a vision of the world as it should be, a truly realizing the infinite tenderness, humanity and uplift of the New Testament story.

Local theatre goers are looking forward with great interest to H. B. Warner's embodiment of the title role. Among the other characters portrayed are St. Peter played by Ernest Torrence; the Magdalene, Jacqueline Logan; Mary Mother, Dorothy Cumming; the Roman Centurion, Montagu Love; Simon of Cyrene, William Boyd; Mary and Martha of Bethany, Josephine Norman and Julia Faye. Other fine characterizations are those of the two Schildkrants as Caiaphas and Judas, Victor Varconi as Pilate, Sam De Grasse as the Pharisee, and Theodore Kosloff as the servant of the High Priest.

COLORADO ELECTION DATES ARE CHANGED

Date for the annual banquet and election of officers for the Colorado Chamber of Commerce which was announced for Dec. 7, has been changed to Dec. 13, according to J. H. Greene, secretary, rank with the best. Among the southern branch of the United States League of Commerce, who is to be the main speaker, will be unable to be there until the latter date.

The Scurry County Chamber of Commerce expects soon to hold its annual meeting, according to President A. A. Bullock.

Johnson Wright of Missouri bequeathed 120 acres of land to the Almighty, who has designated "in the deed as the party of the second part."

UNCLE KIN ELKINS BURIED HERE FRIDAY

Pioneer Ranchman, 96 Years Old, Had Lived in This County Over Forty Years

Funeral services for Uncle Kin Elkins, pioneer West Texas ranchman, were held here Friday afternoon at the Methodist church with Rev. Harris and Rev. Lambert officiating, and burial made in the Snyder cemetery.

Mr. Elkins was born in Illinois Sept. 23, 1832, and was 96 years old at death. He had lived in Scurry County more than forty years and was widely known and beloved by all who knew him.

He leaves thirteen children, all of whom attended the funeral. They are: Mrs. J. J. Jackson, Colorado; G. M. Elkins, Poirar; W. N. Elkins, Hereford; R. H. Elkins, El Paso; Mrs. Thomas A. Editor Reid Of Colorado Raps Writer

Editor "Wed" Reid of the Colorado Record took his asbestos gloves out last week and with a cast-iron typewriter produced the following article which the Times-Signal doesn't blame him much for doing:

"The Snyder correspondent of the Abilene Morning News in its issue of Thursday morning, took a slap at the Colorado Wolves that following article which the Times-Signal doesn't blame him much for doing:

"As a matter of fact, Colorado has proven to be the better of the eligible teams in the west end of the district, the strongest team that has kept its skirts clean and played the game in accordance with the rules of the interscholastic league conference as regards eligibility of players.

"While we have no criticism for the school officials of Snyder, Sweetwater and Big Spring, the fact remains that Colorado has won every game played this season except the Sweetwater and Big Spring games. These teams were too strong for Colorado and therefore defeated her, but since they were playing men ineligible in high school football the defeats do not count.

"The school officials at Snyder, Big Spring and Sweetwater have evidenced a very fine spirit of sportsmanship and fairness in forfeiting all games upon advice that some of their players might be ineligible, and praise instead of criticism should be showered upon them for this splendid spirit, but we can not let the challenge of the Snyder correspondent go unanswered."

SNYDER MEN TO ATTEND INSURANCE BANQUET

W. E. The meeting this year will be completely in charge of the company's agents, and some unique features will be incorporated into the two days program. The annual banquet on Monday night will take the nature of a gridiron affair, satires and burlesques of the company officials, home office staff, and agency and field forces being among the entertainment numbers for the occasion.

Rain started falling early Monday morning and drizzled through the day.

CHRISTMAS SEALS ON SALE THIS WEEK

Proceeds of Sale to Help Finance Work of Texas Public Health Ass'n.

Over 530 miles of Tuberculosis Christmas Seals have been distributed by the Texas Public Health Association for the annual sale which starts this week. The seals show an ancient galleon with a red double barred cross on the main sail and the words, Christmas Greetings 1928.

The proceeds from the sale of these seals finance the work of the Texas Public Health Association and its twenty-three local affiliated associations.

Over 100 volunteer chairmen have been secured to sell seals in their localities and in counties where no organizations exist. The public is offered an opportunity to secure seals by mail.

Last year the state association reached over 100,000 persons in its state-wide educational campaign. A great deal of attention is being paid to health work in schools, consisting of health educational work and the examining of pupils by registered public health nurses. Tuberculosis clinics have been held in several counties. Special effort has been made to reach all races.

In 1929 it is expected that a continuation of the present program will be carried on, increasing the clinical work wherever possible. Dr. Z. T. Scott, executive secretary, stated that the deaths from tuberculosis had been reduced over 50 per cent since the first campaign against tuberculosis in 1917.

The new finance plan will be operated by the Universal Credit Company, an affiliated specialized organization controlled by the Ford Motor Company and operating solely for the purpose of financing Ford products on a "time" basis. The branch office serving this territory is located at Dallas.

This is of special interest to prospective purchasers of Ford products on a "time" basis. Under this authorized finance plan, Ford customers will have a finance service available which is sound and in keeping with Ford policies and standards. The plan is nationwide in scope and for the exclusive use of Ford dealers.

NO FISH LUCK WITH THIS DEER STORY

Our good friend, Hon. A. M. Curry, came dashing into the Times-Signal office last Thursday all excited, his neck-tie loose, his cap on one side and in throwing a newspaper clipping at Chubby, our junior editor said: "Gosh, look what I missed! Here I was supposed to be with this party in the hills of Mason County where you can see from the article they killed seven bucks, five having six points and two of them eight points."

Brother Curry also remarked that the limit of two deer, three turkeys and one bear wasn't enough to suit him.

But the Times-Signal was sorry that Brother Curry missed that trip, for we are yearning for a taste of venison steak, plenty of it, and we firmly believe A. M. would be afraid to come back to Snyder without laying a goodly portion at our front door. This is warning to all Scurry County deer hunters that venison steak is a most welcome subject, either in the goods itself, or in old time at all, morning, noon, or night.

CHARLES F. PARHAM HERE NEXT SUNDAY

Rev. Charles F. Parham, noted lecturer and evangelist who has recently returned from a several months' trip through the Holy Land, will be here Sunday and will deliver lectures and show his own photo slides at the Palace Theatre at 10:30 a. m. and 7:30 p. m. Rev. Parham will also preach at 2:30 Sunday afternoon at the court house, and the public is cordially invited to attend all three meetings, with no admission charge.

Rev. Parham has been in all parts of the United States and is acclaimed as one of the most profound students of Biblical prophesy and Jewish history. He has lectured before crowds as large as 4,000 people in the larger cities of the East, and the New York newspapers have praised him highly.

It is understood that hundreds of people from this immediate section as well as from adjoining counties will be here for Rev. Parham's three lectures Sunday. A basket dinner will be enjoyed.

NEW FINANCE PLAN FOR FORD BUYERS

Roy Strayhorn of the Joe Strayhorn Motor Company, Snyder Ford dealers, returned last week from Dallas where he received details of the new Ford finance plan.

The new finance plan will be operated by the Universal Credit Company, an affiliated specialized organization controlled by the Ford Motor Company and operating solely for the purpose of financing Ford products on a "time" basis. The branch office serving this territory is located at Dallas.

This is of special interest to prospective purchasers of Ford products on a "time" basis. Under this authorized finance plan, Ford customers will have a finance service available which is sound and in keeping with Ford policies and standards. The plan is nationwide in scope and for the exclusive use of Ford dealers.

It is another step of the Ford organization in reducing costs by controlling operations from the mine to the consumer. The cost of this service will be lower than any heretofore available to Ford customers on a national basis, and automatically reduces the price of Ford cars purchased on a "time" payment basis. It is a further expression of the established Ford policy of giving outstanding values and complete service to the consumer at the lowest possible cost.

THE FOOTBALL GAME

Snyder followed the age-old custom that in dedicating a new athletic field the home town should lose, but it was a hectic battle from start to finish, with fumbles, poor officiating on the part of the referee, and errors of the mind rather than the heart. The Stamford Bulldogs won the game 7 to 6 and appeared in the last quarter a stronger offensive team than the Tigers.

The Tigers lost no time in pushing over a touchdown in the early part of the first quarter. Huestis shot a 40 yard pass to Bryan Moore, and a second pass was intercepted, but Stamford fumbled on the first play with Jenkins for the Tigers recovering. Huestis went over for a touchdown on the second play, and a try for point by passing failed. The score was Snyder 6, Stamford 0.

B. Moore at right end played one of the best games of his career, and according to sentiment of the team will easily receive the election of captain for the 1929 squad.

The second quarter found Stamford making their touchdown and adding point making the score as it remained during the balance of the game.

Tiger Stadium Dedicated With Great Ceremony

2,000 People Hear Judge J. P. Stinson Pay Tribute to Citizens

Amid a colorful setting Friday afternoon the most beautiful and modern athletic field in West Texas was dedicated in a ceremony attended by one of the largest crowds ever to come out to a football field in Snyder.

As the spectators reached the field which is entirely enclosed with an eight-foot fence, the entrance gates were fairly ablaze with Old Glory and the Texas State Flag. Inside patrons noted the iron goal posts encased in colors of the opposing teams with their flags a-flying in the breeze at the top of each post.

The bleachers were completed in time for the game, with a special section reserved for the mothers and fathers of the players and a large section for Stamford rooters who accompanied their favorites here.

Supt. C. Wedgeworth was master of ceremonies, and following a number of selections by the High School Orchestra, who were seated on a special platform in front of the grandstand, the speaker paid wonderful tribute to the day that had brought this dedication ceremony to Snyder. Reaching oratorical heights, Supt. Wedgeworth declared that the name of the new field, The Tiger Stadium, a most fitting and worthy title, and as the words were spoken Old Glory and the Texas Flag were unfurled. In a short and well-timed introductory message to the printer's edition of the day, Judge James P. Stinson of Abilene, Supt. Wedgeworth said that "Snyder has secured the most outstanding and renowned speaker in West Texas for the dedication of The Tiger Stadium."

Judge Stinson being so well known, being a Scurry County product himself, the crowd nearly took the stands off its foundations, which, by the way, were set in concrete.

Judge Stinson gave a short and most inspiring address in which he found it difficult to command the words to express the realized achievement of the new stadium. "You have outstripped as a high school," said Mr. Stinson, "every school in West Texas west of the 101st meridian. Snyder has set a co-operative example in the establishment of this wonderful stadium that is open for all West Texas to shoot at. You have had leaders in Austin, Erwin, Charley Harless, Joe Stinson, and Watt Scott to start this great movement, and you have a citizenship that is ready to jump up at every stage in the road. Every citizen should be proud of this masterpiece. It should be the forerunner of a model gymnasium. Athletics are here to stay, the purpose of athletics being that of physical development, which goes hand in hand with the work of the schools. We are finding that the boys and girls of today are different than they were when I was a boy. Children today have too much time on their hands. Increased improvements in all lines of work make it so that they have entirely too much time to waste, and the way to place this time to good service is by building them a gymnasium where their youthful energy can be built into better bodies, which in turn will give them better minds in which to assimilate their studies."

In closing, Judge Stinson said: "Snyder has taken the lead to improve its boys and girls. Education is the biggest problem of the state today and the public schools its most important part. Later, Snyder will be a stronger force, and your duty is to your boys and girls now, and each of you can point with pride and commend this marvelous stadium which is wanted to athletics, properly directed, and the great success of Snyder." At the close of Judge Stinson's address he was given an ovation seldom heard in this section outside of the recent political scramble.

Following the principal address Principal John R. Covey paid the respects of the schools to the fathers and mothers who were honor guests of the athletic association.

GETTING INTO A RUT

Owing to the growing tendency toward specialization in every department of human activity, it is becoming more difficult for the average man to keep in touch with what is going on outside his own immediate interests. He becomes so engrossed with his special line of work that he runs a great risk of getting into a rut.

What the exactions of modern business and professional life lead necessarily to a high degree of specialization, they should not be permitted to unduly restrict one's mental horizon. Everyone should take sufficient time to keep abreast of important developments in the world about him. By doing so he will encounter ideas which will be of practical benefit in his own sphere of effort.

TIME TO ORDER TREES, VINES AND SHRUBS

Generous rain throughout the Southwest has placed the soil in good condition for tree planting. Now is the time to place your order with a reliable nurseryman for such fruit trees and vines as you may need and for shrubbery to set around your home. The earlier the order the better the opportunity for the nurseryman to give you good service.

If every farm home in the Southwest had its own small orchard and its grapevine or two; if every farm home were beautified by having shade trees, pecans preferred, and decorative shrubbery, we would have a more contented and happy people. The expense and labor involved is slight as compared with returns, material and spiritual. The opportunity exists and does not have to be made. Let some farmer become a community leader by making a start in this good work—Farm and Ranch.

Do you know the songs, "Grandfather's Clock" and "Marching Through Georgia"? Henry Clay Work, who wrote them, was born Oct. 1, 1832, in Middletown, Conn. That was the day, too, in 1914, of the terrific battle east of Arras in which the beautiful cathedral and Hotel de Ville were repeatedly hit. The battle raged for a week.

A NORTH CAROLINA WEDDING

Chaotic conditions existing in some part of the South at the close of the Civil War thrust into office men poorly fitted for their duties. A North Carolina mountaineer sheriff who had never attended a formal wedding found himself called upon to marry a young couple. This is the way he did it:

"You, John Marvin, do you solemnly swear that to the best of your knowledge and belief you take this yer woman ter have and ter hold for yerself, yer heirs, exeyterers, administrators an' assigns, for your an' their use an' behoof forever?"

"I do," answered the groom. "You, Alice Ewer, take this

man for yer husband, to have and ter hold forever, an' you do further swear that you are lawfully seized in facsimile, are free from all incumbences an' have good right to sell, bargain, an' convey to the said grantee yerself, yer heirs, administrators and assigns?"

"I do," responded the bride, doubtfully.

Addressing the groom, the sheriff said: "That'll be about a dollar an' fifty cents."

"Are we married?" asked the latter, eager to be away.

"Not by a durned sight, but the fee comes in here."

The fee was forthcoming when the sheriff concluded the ceremony.

"Know all men by these presents, that I, Sheriff X, bein' in good health and of sound and dispoisin' mind, in consideration of a

dollar and fifty cents to me in hand paid, the receipt herewith acknowledged, do an' by these presents have declared you man and wife durin' good behavior, an' until otherwise ordered by the court."

The cornerstone of the original United States capitol building was laid by President Washington Sept. 18, 1793.

What Pink Bollworm Looks Like

Farmers sometimes find insects in cotton bolls and wonder whether they are pink bollworms. The worm stage of the insect shown in this illustration is the only form that is likely to be found by a casual examination. The worm when full grown varies from about seven sixteenths of an inch to slightly more than one-half inch in length, and has a distinct pinkish color. The pink bollworms shown above are about one-half natural size.

THE MAN ON THE WINDOWSILL

High up in a New York office building eighteen draftsmen, all graduate civil engineers, toiled at their drawing boards, stopping occasionally to watch a man who washed windows, strapped to the sill. One of the draftsmen, more curious than the others, went to the window and talked to the window washer. Then he addressed the crowd:

"Fellows, this wop on the windowsill is getting more money than any one of us—for washing windows. What do you know about that?"

"He's entitled to it," answered the oldest draftsman. "He swallowed his pride and took a chance. We're not willing to do either."

For duties every day

And heart from loneliness,

Keep away

And sore distress.

With rooms that need
My care to keep them bright,
To keep them safe
From dust, and moth and

MISS DIMPLE GROSS GIVEN PRE-NUPTIAL SHOWER

Misses Cecile Strayhorn, Gertrude and Hattie Herm honored Miss Dimple Gross of Sweetwater with a miscellaneous shower at the home of Mr. and Mrs. Joe Strayhorn Monday evening.

The home was beautifully decorated in autumn flowers and carnations, carrying out the color scheme of pink and white. After several rounds of bridge and forty-two, a dainty ice course of cupid on hearts was served. The table centers were large roses with lighted candles in the center, and all lights were turned out which added to the romantic spirit of the evening.

A radio program was given in honor of Miss Gross. Harvey Shuler was the announcer, and many interesting telegrams from different parts of the state were received. The last number was given by Misses Frances Stinson and Mary Margaret Towle.

The guest list included Mesdames Joe Caton, Nell Covey, R. H. Curran, Ernest Taylor, Sam Hamlett, Forest Sears, Wayne Boren, Ivan Dodson, A. J. Towle, H. G. Towle, Billy Wilsford, Dick Randals, J. G. SHOULD FARMERS FEED COTTON SEED OR MEAL?

The farmer who produces cotton wants to get the most from his cotton seed. Should he feed the seed or should he exchange the seed for meal? The livestock feeder also wants to know the answer to the same question.

This question is so important, according to the November 1 Oklahoma Farmer-Stockman, that the experiment stations have carried on many feeding trials to determine the correct answer.

From the results of experiments carried on at the Texas Agricultural Experiment station the conclusion was reached that 205 pounds of cotton seed fed with with cottonseed hulls and kafir grain is not equal to 100 pounds of cottonseed meal for fattening steers.

From results at the Texas station in 1912 and 1913 the conclusion was reached that cottonseed meal at \$27 a ton is more profitable for fattening cattle than cotton seed at \$17 a ton. On this basis it is more profitable to today to feed cottonseed meal at \$46 a ton than cotton seed at \$29 a ton.

The Mississippi Experiment station conducted tests in the feeding of cottonseed meal and cotton seed to dairy cattle. It was found that 171 pounds of cotton

Two minutes faster — and Texas saves 59 years!

IN 1926, the average time required to handle a long distance call in Texas was 5 minutes. In 1927 it was only about 3 minutes.

Two minutes on each of the 15,500,000 long distance calls placed in Texas in 1927 totals 59 years—59 years saved for telephone users in Texas!

This improvement in speed of service is due chiefly to the Bell Laboratories and the Bell System headquarters in New York, where 5,000 people are engaged wholly in solving telephone problems. It is largely through their efforts that we are able to carry out our policy of providing you with a continually improving service, always at a reasonable cost.

A THANKSGIVING PRAYER OF
THE CHURCH OF CHRIST

By W. M. Speck
Holy Father, may we this day,
not only as an individual, a family,
a church, or a nation, but may
the whole wide world bow down
before Thee and worship Thee—
Yes, and let the sun and the
moon, the stars and all the Heavens
of Heavens bow to Thee—
Thou God of Gods and Lord of
Lords.

To Thee, Holy Father, belongeth
thanksgiving, because Thou hast,
from Thine unwasting fullness,
blessed us all the days of our
lives, Thine didst prepare for us
every pleasure of this life, Thou
didst send Jesus, Thine only Son,
who made possible the joys of a
life with Thee over yonder.

Therefore, we thank Thee for
Thyself, for Jesus our Savior, for
the Holy Spirit, for Thy Word and
for Thy love. We thank Thee for
our wholesome food, the balmy
breeze, the refreshing rain, the
helpful sunshine, the beautiful
flowers, our many dear friends.
Yea! above all we thank Thee for
the promise of remission of sins
through Jesus Christ our Lord,
and for the sweet home of the
soul which Thou hast prepared
for us and will give to us in that
great day.

In Jesus' name we pray.
AMEN.

MRS. THOS. H. LEE'S
DIARY

Mr. Smith: Please note that
the years 1904-05 we left Snyder
and lived in Sweetwater and that
I was away teaching, but 1906
began with my being a resident of
Snyder, but was teaching 6 miles
west of Roby at Sardis school
house. Will relate a few happenings
of people there whom Snyder
people later knew.

Jan. 2, 1906. Allen Grimes
and Edgar Kelly have opened a
grocery store in Snyder.

Jan. 2, 06. Mr. Free, the singing
school teacher, married yesterday
a young lady from East
Texas.

Mr. and Mrs. Kendall (who now
live in Snyder) sent their two
young daughters to school. Their

Jan. 3. Mr. and Mrs. Bucklin
are living over Towle's jewelry
store. Mr. Buckling is a music
and voice teacher. Mrs. Bucklin
has a real up-to-date dressmaking
shop.

We young folks have had some
wonderful times at Mr. and Mrs.
Bucklin's home. Our glee club
consists of sixteen ladies of Snyder.

Jan. 4. Visited Gibson Baird's
grave today. He will be remembered
as having been a frequent
visitor to Snyder.

Jan. 8. Born to Mr. and Mrs.
Edkay Kelly a girl.

Jan. 8. Joe Reddell has moved
to Hico, Texas.

Grandpa Wellborn has just
moved to Abilene. (Grandpa
Wellborn is Henry Wellborn's father.)

April 22. School closed at
Sardis. Come from Sardis to
Snyder in hack drawn by two
horses.

Had not been in town but a
few hours till Miss Belle (Tippy)
Person and Johnnie Shepherd
called on me.

April 23. Mr. and Mrs. Pete
Ingle and daughter, Ida, live in
the old Looney Hotel. They are
from Granbury. (G. B. Clark's
pretty home is now on the lot
where the Looney Hotel stood.)

April 24. A great time at Miss
Fairye Wood's home. The Misses
Carnutte, Claudia and Gussie, the
Misses Higgins, Ruby and Roxy
were new girls in town, and the
party was given in their honor.

April 27. Mrs. Mary Taylor
gave a hen party at her home in
East Snyder. (May and Joe married
while I was off at school. I
do not know the exact date, but
from the looks of Joe, I'd surmise
it has been "quite a spell.")

April 28. Mr. and Mrs. J.
Wright Moor, and Dr. and Mrs.
Meadors were visitors in Snyder
today.

Mr. and Mrs. Nickles, who live
in North Snyder, have their
daughter as their guest this week.
(By the way, how many of you
old timers who are reading this
diary remember Mr. Nickles' daily
laughter? Sounds of his laughter
have ceased, but my husband can
laugh almost as loud. I hope
Tom has as many friends as Mr.
Nickles.)

April 29. Mr. and Mrs. LeRoy
Johnson, their small daughter,
Gertrude, and son, W. T., are
visiting in Sweetwater this week.
Mr. Johnson has a hardware here.

May 2. Went to choir practice

Curry was leader of the choir.

May 3. Mr. and Mrs. McCullie
from Lincoln, Neb., are visiting in
G. W. Brown's home.

Saturday, May 6. Snyder has
a skating rink down by the creek
on Bridge street. Ida Ingle and I
were frequent visitors, and there
is where I met the gay and giddy
McClinton sisters, Miss May and
Miss Naomi. Miss Naomi is a happy
wife and mother living in Wichita
Falls, and Miss May—well, you
know where she is.

May 4. Miss Effie Frances Fickas
and I had dinner at the new
home of Mr. and Mrs. William
Fickas. (Mr. Mill married Miss
Josie Garner in the summer of
1905.)

May 10. q Mama and I visited
at Mr. and Mrs. Standfield's to-
day. Played my first tennis game
this afternoon.

Mrs. Eula Thomas, Mrs. Earnest
Grimes are visiting Mr. and

Praising the town ladies for
having the cemetery cleaned up,
an exchange declares that "the
grave-yard looks most inviting."

Some of our friends are such
good fellows that we can almost
forgive them for having such
fool notions about religion and
politics.

The new Ford has a very simple and effective lubrication system

The lubrication system for
the engine of the new Ford
is so simple in principle as
water running down-hill.

A gear pump in the bot-
tom of the oil pan raises the
oil to the valve chamber
reservoir. From here it
flows on to the main crank-
shaft bearings and the front
camshaft bearing. Overflow
oil drops into the oil pan
tray and runs into troughs
through which the connect-
ing rods pass.

As the ends of these rods
strike the oil they scoop up
a supply for the connecting
rod bearing. At the same
time they set up a fine spray
that lubricates the pistons
and other moving parts.

From the tray the oil runs
into the bottom of the pan,
and is again drawn up
through a fine mesh screen
and pumped to the valve
chamber.

This system is so effective
that the five-quart contents
of the oil pan pass through
the pump twice in every
mile when you are traveling
at only 30 miles an hour.
Yet there is only one
movable part—the
oil pump.

SPEAKING OF PRESIDENTS— DID YOU KNOW—

That George Washington was the only president who was elected unanimously?
 That Presidents Washington, Jefferson, Madison, Jackson, Fillmore, Benjamin Harrison, Wilson and Harding married widows?
 That the only two signers of the Declaration of Independence who became presidents of the United States—John Adams and Thomas Jefferson—died on the same day, July 4, 1826, fifty years later?
 That when John Quincy Adams became president all of his predecessors, except George Washington, were living?
 That Andrew Jackson's wife taught him to read after they were married?
 That George Washington was the richest president of the U. S., although Theodore Roosevelt's income was larger?
 That Theodore Roosevelt was awarded the Noble Peace prize of \$40,000 for his influence in bringing to an end the Russo-Japanese

war in 1905, and that in 1920 the prize was awarded to Woodrow Wilson for his labors in behalf of world peace?
 That U. S. Grant had always been a Democrat until he was nominated and elected president by the Republicans in 1868?
 That Franklin Pierce's secretary of war was Jefferson Davis, afterwards president of the Southern Confederacy?
 That Presidents Washington, Madison, Jackson, Polk, Buchanan and Harding were childless?
 That James K. Polk was the first presidential nominee to be notified of his nomination by telegraph?
 That George Washington refused to become a candidate for a third term?
 That Presidents John Adams, Garfield, Arthur, Cleveland, McKinley and Wilson in their early years were teachers?
 That Thomas Jefferson in 1873 while a member of congress, as organized under the Articles of Confederation, originated the decimal system of currency for this nation?

president of the United States is 21 guns?
 That Abraham Lincoln was six feet and four inches tall—two inches taller than Washington?
 That James Madison was the author of the first ten amendments to the Constitution of the United States?
 That when the Civil War broke out, Presidents Van Buren, Tyler, Fillmore, Pierce and Buchanan were still living?
 That John Adams lived 25 years after completing his term of office as president?
 That James Buchanan's fiancée died shortly after the date set for their marriage, and that he remained true to her memory through his life?

APPROACHING

Advertisements are beginning to appear with decorations of holiday and mistletoe and smiling faces of Santa Claus. To the observant these ad frescoes tell their own story, give their own warning, hint at the important business from which none is barred and in which sooner or later everybody will be engaged.
 In other words, Christmas shopping. The holiday is little more than a month ahead, fewer shopping days by fifty by a good deal. In no time these days will pass. The natural procrastinator will wait until Christmas Eve when store aisles will be jammed by other procrastinators, stocks picked out, clerks weary, customers in a flutter, clocks ticking the time's rapid pace, all because the reminders of today have been neglected.
 Every year more sensible persons do their Christmas shopping early. They reap all the advantages in variety of selection and leisure of choice and when Christmas eve comes they can proceed about their last-minute holiday tasks orderly, while the others fume and sputter.
 Americans are a great people never to do today what can be done tomorrow. The postmaster has urged early posting of Christmas mail, but the last days will probably be bigger than ever. The train leaves at 5:15 but the cars do not fill until 5:14. We get there even if we are a last-minute nation, but it is at a tremendous cost of physical energy and mental upset. The Christmas shopping season is merely one phase of a national temperament.

The Argonne drive in which nine American divisions participated in the World War, began Sept. 26, 1918.

Those who are fond of the "Sextette from Lucia" will be interested to know that the composer, Gaetano Donizetti, one of Italy's most rapid and prolific music writers, was born Sept. 25, 1798—a little over 130 years ago.

Sept. 30, 1811, was born a baby girl with the long name of Augusta Marie Louise Katharine, who became Empress of Germany, wife of Emperor William.

Those who have read and enjoyed the interesting books of Henry Fairfield Osborn, president of the American Museum of Natural History, will, perhaps, care to know that Sept. 29, 1881, was his wedding day, when he married Lucretia, daughter of General Alexander A. Perry, U. S. Army.

Rather than take out life insurance policies to protect his employees, F. R. Brown of Ennis-killen, Ireland, elected to go to prison.

Marshall Field, the world's most successful retail merchant, said there were twelve things to keep in mind while working on the road to success:

- One, the value of time.
- Two, the success of perseverance.
- Three, the pleasure of working.
- Four, the dignity of simplicity.
- Five, the worth of character.
- Six, the power of kindness.
- Seven, the influence of example.
- Eight, the obligation of duty.
- Nine, the wisdom of economy.
- Ten, the virtue of patience.
- Eleven, the improvement of talent.
- Twelve, the joy of originating."

Plainview's newest industry is the making of Uncle Tom Pure Ribbon Cane Syrup. F. O. Boliver has started manufacturing it and has put it on sale at local grocery stores.

Two hundred and fifty thousand pounds of wool were sold at Rock Springs at a price calculated to be 35 cents. Edwards County will market approximately 1,700,000 pounds of mohair this year.

The contract has been signed and the work will probably be started within thirty days on the installation of a water works system for Junction. The authorities of Junction have been working on the project for some time.

The Bankhead Poultry Association is opening its new and larger headquarters in Eastland, and is receiving more memberships every day. Membership in the organization enables poultrymen to get better prices for their produce.

The main street of Rotan has been much improved by the grading and improving of Snyder avenue through to the west end of the thoroughfare. A railroad switch in the center of the street will be removed as soon as the street is opened for traffic.

The fire insurance key rate is to be lowered again in Baird as a result of removal of telephone, telegraph and light poles from the business section. Since the present mayor, Mr. Schwartz, has been reduced from 60 cents per hundred to 43 cents.

With the arrival of a car of steel to be used on the International Steel Bridge across the Rio Grande at Del Rio it is estimated that the bridge can be completed in four months and be available for traffic in early spring.

O'Donnell's next progressive acquisition will be a modern sewer system. Those responsible for the improvement realize that it will mean new homes, increased population and added industries.

The Club and Vocational Livestock Exhibit is an institution in De Leon, and is held on the streets of that city. The streets are roped off, pens and stalls constructed for livestock, and feed crops exhibited in designated places. Competition is keen for prizes offered.

Lampasas County will be free of tick inspection with the exception of one herd on December 1. This herd is under special quarantine till May. By diligent co-operation of all cattle men eradication has been practically completed.

In the Sandwich Islands the people go in to mourning by knocking out their front teeth and painting the lower part of their faces black.

COLORADO CITIZENS VOTE MUNICIPAL BAND TAX

Carrying by a margin of three votes, the band tax proposition was put at Colorado last week, 140 for and 137 against. The vote was for the purpose of authorizing the city council to appropriate funds from the general revenue to maintain a band director and a municipal band, a small tax to be levied.

Snyder needs a like vote that will give the city a Board of City Development, placing an efficient man in charge and assisting Snyder to grow ahead.

Texas has moved into second place in production of natural gas, registering a 45 per cent increase last year.

Fluvanna News Notes

Mr. Jas. H. Tate (V. P.) is the authorized correspondent for Fluvanna, and as such is authorized to receive news and news subscriptions. Cooperate with him in building a fine weekly news column for this thriving town.

Enforce the Law

The recent general election has proved a revelation—an eye opener—in several respects. But the one to which V. P. wishes to call attention to is that of prohibition. During the last few years vast sums of money and much effort were expended with the hope of breaking down prohibition by making it look ridiculous, and thus discouraging those who favored, and encouraging those opposed to this reform movement. Arguments were constantly made and efforts persistently put forth to prove that prohibition could not be enforced, and that conditions were worse than ever before. Furthermore, it was stoutly contended that the majority of the people of these United States did not want prohibition anyway. Of course these claims were all untrue as recent developments have proven.

While it is granted that several elements entered into the recent presidential election, it is an admitted fact that prohibition was an outstanding issue (made so by Mr. Smith—not the people)—so much so that the "Solid South" was politically broken up for the first time since the Civil War—even Texas giving Mr. Hoover a respectable majority, he carrying 14 counties to Mr. Smith's 113, and this more than anything else for the sake of prohibition. In view of these facts, and the further fact that Mr. Hoover's victory was so thoroughly decisive, everybody now knows that the people of the United States really want and mean to have prohibition. The question is settled: Prohibition is here to stay, and the laws relating thereto must and will be enforced. There may

have been some grounds for doubt before the election; but certainly there have been none since that notable day. The people have spoken in no uncertain tone, hence, enforcement officers of all ranks not only know their duties but what the people mean to demand of them as well. In view of these facts V. P. predicts that prohibition laws will, hereafter be enforced throughout the nation far more thoroughly and sternly than ever before.

Our own beloved Scurry County, by a majority of more than three to one, has said she wants prohibition continued, and this decisive vote comes from every voting precinct in the county save four of the least ones, and in two of these the vote was nearly a tie. If this means anything, it means that the people expect prohibition to "stand up," and that our officers from constable up will be expected to enforce the law. It ought to mean (and we believe it does mean) that our people are definitely committed to this proposition and that they will henceforth make better witnesses and jurors when called upon for such service that they have formerly done. Let every citizen remember that there are yet many very important duties for us to perform. We have declared prohibition to be our fixed state and national policy. Now let us see to it that all laws pertaining thereto are properly enforced. Thus we shall bring to completion a most worthy task and set a noble example before an on-looking world.

School News

On last Friday afternoon the Fluvanna High School had as their guest the two basketball teams from Dunn High School. The teams were accompanied by two of the Dunn teachers, Mr. Elliot and Miss Brown. The girls game was played first, and the Dunn girls were outclassed and beaten to the tune of 38 to 16. Supt. E. O. Wedgeworth refereed the game.

The Fluvanna boys were outclassed as bad as the Dunn girls were, and our boys got the worst end of an 8 to 14 score. Mr. Elliot of Dunn refereed this game, while Mr. Wedgeworth served as umpire. We expect to return the visit to our Dunn friends in the near future.

Last Wednesday Mr. Wedgeworth entertained the student body with several musical numbers, which were enjoyed by all. The program included a trombone solo, "Tomorrow," with Miss Angie Haynes at the piano; two vocal solos, "Get Out and Get Under the Moon" and "Old Pals Are the Best Pals After All," with Miss Haynes at the Baldwin Grand. Everyone enjoyed the program very much, and we hope that he will entertain us again some time in the near future.

This being the close of the twelfth week of school, the student body will begin Tuesday on the dreaded exams. This closes the second six week period of our school year.

The student body will be giving thanks because they will be given a holiday Thursday, but they will be at their regular school work on Friday.

Misses Winnie Houston, teacher of the seventh grade, called to the bedside of her sister, Mrs. Fred Greer, last Thursday afternoon at Abilene. Mrs. Greer is a former teacher in the Fluvanna schools, and the entire student body hopes for her speedy recovery. Miss Angie Haynes substituted for Miss Houston while she was away.

Many improvements are in evidence this year. One of the greatest is the superintendent's office. It is a very nice, comfortable office, however, it was not for luxury that it was

equipped. It was for the convenience of the student body as a whole as well as the faculty.

A new light oak roller top desk and a chair to match are two of the nice additions to the office. A new steel locker for the purpose of storing papers and other valuables has been purchased and installed. A new light oak exam file cabinet has been provided to enable the teachers to keep exact tab on all students. One of the greatest additions afforded is the filing cabinet of light oak, which enables the teachers to keep permanent records of everything necessary. These records are of a superior type in regard to the information furnished. It is the most complete record set to be found in a school of this size and even larger schools. One of the greatest achieve-

ments in regard to the school is the new library system that has been installed the past week. This system includes the cataloguing, numbering and labeling of all books in the library. It is precisely the same system that is used in college libraries. This fact alone speaks well for the faculty.

The school seems to be running on a business basis, which is the only practical way.

Not only has the school seen improvement materially, but it has shown a decided improvement in the class work as well. The students seem to be enthusiastic about their work. Pupils and teachers seem to have the essential cooperation.

Let us all pull together for a better and bigger school. This can be done only by the cooperation and zeal of all concerned.

School Reporter.

the saving of money but the wise spending of it also.

THAT thrifty people save systematically in order that they may have peace and contentment in old age.

THAT many thrifty people are saving to buy or build their home first.

THAT they are doing what is perfectly natural and right to do; they are investigating the cost of building a home or buying one already constructed.

THAT they want to know about the costs and the methods of making payments.

THAT they know the banks, the building and loan companies, the contractors and material men are only too glad to help with their assistance and advice.

THAT buying or building a home is a serious undertaking and needs much thought before a definite decision can be made as to just what they want.

THAT now is the time to make up your mind to own your own home.

Mesdames L. T. Stinson, W. W. Hamilton and J. W. Leftwich were hostesses to the members of the Altrurian Club on the occasion of the annual observance of the love feast, at the lovely new home of Mrs. L. T. Stinson.

The meeting was called to order after the banquet with the club singing a ballad composed for this occasion by a charter member of the Altrurian Club, Mrs. J. T. Johnson, of Colorado, the words being adapted to the meter of "Columbia, the Gem of the Ocean."

Mrs. R. D. English gave a concise history of the national federation and submitted the pictures of the presidents, seven in number, since the organization in 1889. A federation quiz was conducted, bringing out information that all should know concerning the federation.

An outstanding social function of last week was an announcement party last Friday afternoon from three until four o'clock with Mrs. Wade Winston and Mrs. L. O. Smith hostesses at the formal opening of Mrs. Winston's new home which has just been completed in Colonial Heights.

The house was beautifully decorated with fall foliage, cut flowers and the color scheme of pink and white.

The guests were served tea by Mrs. Jack Harris, and Misses Cecile Strayhorn and Gertrude Herm passed sandwiches. The guests were then invited into the living room by Mesdames W. D. Mesdames Ernest Taylor, A. J. Towle, H. G. Towle, Tom Gates, J. E. Sentell and C. J. Ezell were in the dining room and served the guests angel nut squares and molded ice in the form of wedding bells.

Mrs. Warren Dodson was in an adjoining bedroom and introduced the guests to Miss Dimple Gross, the honoree, who was presiding at the register table, which was decorated with bride's roses. After each guest had registered, Miss Hattie Herm showed them through the remainder of the house, and as they were leaving, Mrs. Joe Caton handed each a card drawn from a huge pink paper rose, and on it was this inscription, "Announcing the engagement and approaching marriage of Roy Stokes of Stamford and Miss Dimple Gross of Sweetwater, which is to take place sometime in November."

Seventy guests called and extended congratulations to Miss Gross.

Music was furnished by Miss Marilu Rosser and Mrs. Melvin Blackard.

DICK AND ABE SAY:

AVOID SLOUCHINESS Observe two men going down the street. The one dressed slouchy, the other neat. Note the greetings of their friends they meet. The slouchy one gets a cool "How-dy-you-do." The other gets the same, but the words ring true. You can't afford to have your friends ashamed of you.

THE Maytag was the original gyrafoam washer, which makes water do the washing. But the Maytag does more than that—it keeps the water hot to expand the meshes of the clothes, loosen the dirt and aid the cleaning action of the soap and it keeps the soap thoroughly mixed with the water where it will do the most good.

These are some of the reasons why the Maytag washes faster—an entire washing in an hour or so; washes cleaner—collars, cuffs and grimy overalls without hand-rubbing; washes delicate garments hand carefully.

Wringing the clothes is easy with the marvelous New Maytag Soft-Roller Water Remover—another exclusive Maytag advantage. It is practically automatic in every operation.

There is no cost, no obligation. Test a Maytag, compare it in every way you can think of. If it doesn't sell itself, don't keep it.
