

No Bolshevism Needed
A Real Stigma
The World Loves Titles
Ogden L. Mills' Figures

In one column you read about a "mob" of 1,200 idle men, fighting police in Cleveland, twenty in the mob injured, officers hurt.

In another column you find comfort, perhaps, in news from Washington that our national banks have resources of over twenty-nine billions of dollars.

Seven thousand four hundred and eight institutions have on deposit more than twenty-two billions.

A country so rich ought not to have so many men willing to work and idle.

You are told that the mob of rioting unemployed in Cleveland had been influenced by "Bolshevik propaganda."

It is very easy to say "Bolshevism." But when a man is out of work, worried and perhaps hungry, he needs no help from Lenin to make him dangerously dissatisfied.

Men drift on a raft in midocean that had never heard of Lenin or Bolshevism had killed and eaten each other.

Five states of the South, highest in illiteracy, are conducting educational campaigns to reduce "the stigma."

Census takers list illiterates. Iowa has only 11 percentage of illiterates, lowest in the nation.

Nebraska came first until 1920, and is striving to regain the championship.

However, persuading or forcing hard-working people to study at night when they are tired out, and learn enough about their A B C's to remove the illiteracy stigma is not enough.

To be able to read and write when you lack leisure to do either, and have no access to books worth while is no help.

As well teach a man 5,000 miles from Egypt to read hieroglyphs on Egyptian monuments.

Hard- under-paid labor and lack of work are a "stigma" worse than illiteracy.

The world still loves titles. In a Los Angeles lawsuit about money collected for a newly invented religious "cult" you meet a mild-looking gentleman called "The Four Winds of the Whirlwinds." He wrote down with his typewriter 50,000 pages dictated by angels to the priestesses of the "Great Eleven Cult."

"Concord of stars led the priestesses to various locations, and there the angels did their dictating."

Men and women gave tens of thousands of dollars in return for nonsense of this kind, which proves that the human race is largely foolish.

Ogden L. Mills, assistant secretary of the United States Treasury, in a few words convinces you that this country has genuine prosperity if prosperity consists in getting more of life's good things than anybody else gets.

The United States has only 7 per cent of the world's population and yet, says Mr. Mills, "that 7 per cent consumes approximately 45 per cent of the world's coffee, 53 per cent of the tin, 56 per cent of the crude rubber, 21 per cent of the sugar, 72 per cent of the raw silk, 36 per cent of the coal, 42 per cent of the pig iron, 47 per cent of the copper and 69 per cent of the crude petroleum."

"Out of nearly 62,000,000 automobiles in the world on January 1, 1929, more than 42,000,000 were owned in the United States."

We certainly get our share. Perhaps the World Court will tell us we get too much.

Moderns smile, reading of the great Alexander traveling over desert wastes to consult a soothsayer and never suspecting that the lady had been told in advance what the conqueror wanted her to say. But desire to consult the future, through any kind of witch, from Endor to Los Angeles, is craving for the impossible, still exists among us.

Mrs. Stewart, who lives in Los Angeles, says she gave Mrs. Blackburn \$25,000 to help her carry on the work of "The Divine Order of the Royal Arms of the Great Eleven."

And Clifford Dabney gave \$45,000 to the same worthy cause. Mrs. Blackburn, you must know, has in her possession the "Sixth Seal." When that is broken everything will be revealed. Who would not pay \$45,000, or \$45,000,000, to know everything, assuming that he would know what it was all about when he heard it.

Mr. Dabney surely got his \$45,000 worth. It is testified that, thanks to Mrs. Blackburn, he saw wonderful visions, including one of Mrs. Mary Baker Eddy walking down Broadway. And he saw two disciples and some angels on the same street.

Jeans, the astronomer, says if the universe could be explained to us accurately it would be more incomprehensible to us than it is now, as though you explained differential calculus to a hoptoad.

Girls Teams to Play at Roby Tourney Today

Both Snyder and Ira Will Represent Scurry County At Roby Tourney

Both the Snyder Tigresses and Ira girls basketball teams will represent Scurry County at the Roby Girls Tournment that opens there tomorrow. While Ira girls won the county championship, the Tigresses are likewise returning favors shown Snyder last year when the Roby girls entered the Snyder tournament.

Supt. Forrester of Roby has a large entry list that includes the famed Breckenridge Buckaroos and the Cisco team, and there will be plenty of excitement in the Fisher County capital starting early tomorrow morning.

Many Snyder folks are planning on going over to Roby and, joining in their efforts to put across a real tournament over there. Roby boasts of one of the finest gymnasiums in all West Texas.

Girl Scouts to Be Organized in Snyder Soon

Miss Elva Lemons Organizing Worthy Movement For Snyder

The Times-Signal is happy to learn that a Girl Scout organization is in the process of making here in Snyder, and we are truly grateful for the opportunity of passing this good word on to our readers. With two fine Boy Scout troops, there is no earthly reason why Snyder should not have an organization for our young ladies to make good use of their time and effort.

Miss Elva Lemons, teacher in the Snyder schools, is responsible for the movement to get under real headway here. Local clubs who have been discussing this matter would be of immeasurable worth in co-operating with the tangible body that has been started. The Times-Signal is under obligations to Miss Lemons for the following letter, which was received Monday evening:

Editor Times-Signal: I am organizing a Girl Scout troop in the grammar school and wondered if you wouldn't like to give us a write-up this week. Of course this is new here, but it is something we need very badly and really need two or three troops. After I began it, I learned that some of the clubs had been discussing the prospect, and I thought you might be able to create some interest.

We must have the moral support and certainly would appreciate some financial support, but I guess we can't ask for that until people are convinced that we are going to make a go of it.

Last Friday I took eight girls whom I considered capable of becoming patrol leaders. We had a little picnic and discussed our prospects and the work of scouting; also started training on our tenderfoot tests. The girls are very enthusiastic about it, and I am sure we can make a success. I am applying this week for my commission as Girl Scout Captain, and Miss Inez Caskey, Mrs. Joe Caton and Miss Jo Halley have agreed to serve on our troop committee.

I surely will appreciate any thing you can do for us.

Very sincerely yours,
ELVA LEMONS.

Editor's Note: Let us all co-operate with these ladies in getting not less than two Girl Scout troops on their way; three if absolutely necessary. Let us not only talk about, but get hitched up to the wheel and help shoulder the burden.

Norman Picks Tourny's Best

Stanley Norman, sports writer of the Big Spring Herald, selected three teams in the tournament that appeared to him to have been the best on the floor during the two days there. His selections were:

- First Team
Feaster (Colo.)—Forward.
Martin (Snyder)—Forward.
Bohannon (Colo.)—Center.
Tate (Colo.)—Guard.
Hyde (Divide)—Guard.

- Second Team
Johnson (Colo.)—Forward.
Pardue (Big Spring)—Forward.
Greenfield (Snyder)—Center.
Trice (Snyder)—Guard.
Phillips (Big Spring)—Guard.

- Third Team
Greer (Divide)—Forward.
Huestis (Snyder)—Forward.
Edwards (Big Spring)—Center.
Simpson (Colo.)—Guard.
Etter (Roby)—Guard.

"Why don't you sit still when you're at the table?"
"I can't, I'm a fidgetarian."

Tigers Win, But Lose to Wolves in Tournament

Tigers Defeat Big Spring 20 to 18 in First Night's Contest

The Snyder Tigers were gently but neatly kicked out of the district tournament at Big Spring Saturday morning when the Colorado Wolves defeated them 49 to 31. But there is a story behind that score. Bare figures indicate it must have been a walk-away, but some of the most glaring and unsportsmanlike psychology ever noted on any basketball floor was used in making such a score possible.

Friday night the Tigers defeated the Big Spring Steers, 20 to 18, right on their own floor and in front of their own crowd. That made the Steers good and sore—they had figured to go through the tournament and be the winners of the western section of the district. Saturday morning following the defeat, impending clouds were seen on the horizon. With Divide and Odessa having been announced on the bulletin board to take the floor at 9:30, since they had not played a single game as yet, Supt. B. H. McLain, Sweetwater, representing the offices of D. W. Arnett, Abilene, said that Colorado and Snyder would go for the first game. With Snyder the last team on the floor

LATE BULLETIN

Members of District Eight, Interscholastic League basketball, met in a called session with Supt. K. D. Green, Abilene High School, late yesterday. Each member unanimously voted that Delbert Burdine was eligible to play basketball, just as Principal Corry and Coach Moore emphatically showed at Big Spring during the tournament.

But it was not discussed why Supt. McLain had any business taking Burdine off the floor previous to the Colorado game; neither was he asked "how come" he could put Snyder and Colorado together at 9:30 Saturday morning, when Odessa nor Divide had occupied the floor up to that time.

Snyder's protest against the entire tournament was thrown out.

Friday and the first on the floor Saturday morning, it was rare monumental "ruts" on the part of McLain to enforce such a ruling, but since he was the so-called "law" of the tournament, the Tigers had to abide by his decision.

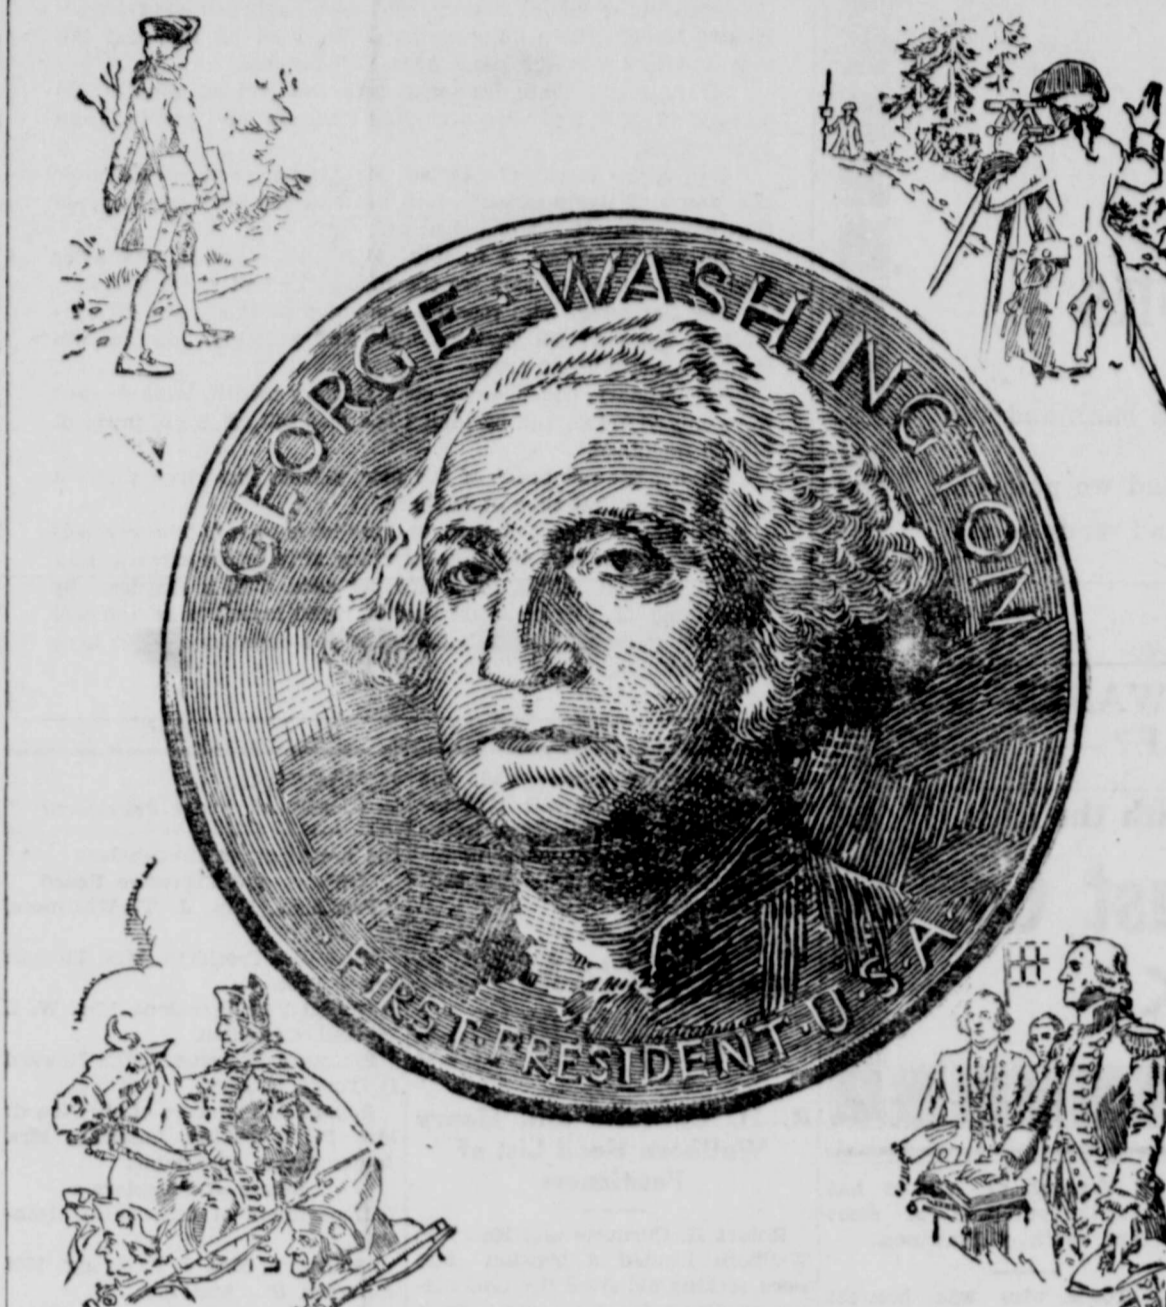

If that had been all, things would not look so bad, but while the Tigers were warming up, McLain pulled another one in calling Delbert Burdine, Snyder guard, from the floor, when he had no more business doing that than flying from Big Spring to Timbuktoo. But Burdine, Coach Red Moore and Principal W. N. Corry accompanied Burdine into Supt. Blankenship's office where McLain asked a number of questions concerning Burdine's guardianship. He had written proof that Burdine had attended Big Spring High School in 1928-29 but an uncle in Snyder was his guardian. All this time the Tigers were warming up without Burdine, awaiting his coming to complete their detail of the practice.

But the fine Italian hand of some one or other had done its work, and the psychology they had used was mighty good, which in turn left the Tigers in no fighting trim to do their best, with the result that the Colorado Wolves licked them cleanly and squarely to the score as indicated above. With the bulletin board showing Divide and Odessa to clash at 9:30 and the Times-Signal editor standing behind McLain and Coach Bill Stevens of the Steers when they put the schedule up, we know whereof we speak, and we are not crying "wolf! wolf!", for if ever a Snyder Tiger team had the stuff in them that makes champions, the 1929-30 group have it. There isn't a yellow streak nary a place. We believe in fair, square, clean play, but the Big Spring tournament was one of extreme incompetency on the part of the men who were supposed to rule, and they ruled like some dumb child of unmentionable age.

Supt. Blankenship of Big Spring then filed a protest, and at the same time washed his hands of the entire affair by declaring Big Spring would play no further games this year. Snyder, to protect itself, likewise filed a protest with D. W. Arnett, athletic director of the League, specifically showing that Burdine was as eligible to contend in the tournament as any one man on the floor.

The Times-Signal has no "crow" to pick with our Mitchell County brethren who walked right through the tournament on all eight cylinders, but it specifically abhors the action of Director Arnett in placing McLain of Sweetwater in charge when he does not know basketball, nor did he show any sense of fair play in the tournament. McLain might be the finest school man on earth, but when it comes to handling the reins of a district tournament in basketball, we would much

Washington the Philosopher

George Washington, in a letter to his nephew, Bushrod Washington, in 1782 said, according to a story taken from Elbert Hubbard's Memoirs:

Be courteous to all, but intimate with few; and let those few be well tried before you give them your confidence. True friendship is a plant of slow growth, and must undergo and withstand the shocks of adversity before it is entitled to the appellation. Let your heart feel for the affections and distresses of everyone, and let your hand give in proportion to your purse, remembering always the estimation of the widow's mite, that it is not every one that asketh that deserveth charity; all, however, are worthy of the inquiry, or the deserving any suffer.

Do not conceive that fine clothes make fine men, any more than fine feathers make fine birds. A plain, genteel dress is more admired, obtains more credit, than lace and embroidery, in the eyes of the judicious and sensible.

METHODIST SUNDAY SCHOOL TO OFFER TRAINING COURSES

The Sunday School Council of the First Methodist Church at its last regular meeting decided to have a teacher training school here May 4-9. The standard courses will be offered, under the direction of Rev. J. W. Watson, the conference Sunday school secretary.

The following subjects will be offered: Religion and Administration; Rev. J. W. Watson; The Principles of Teaching, Rev. R. T. Breedlove; The Church and Its Work, Rev. M. B. Norwood; Worship (Adolescence), Mrs. J. W. Hawkins; The Small Sunday School, J. W. Price.

In commenting on the plans, the Rev. Cal C. Wright said: "We expect to invite the churches at Dunn, Ira, Union, Mt. Zion, Dermot, Hermleigh and Fluvanna to take advantage of our standard training school, and we are expecting 150 people to take the courses offered."

The board of managers for the school is composed of Rev. Cal C. Wright, Warren Dodson, Mrs. W. W. Hamilton, O. P. Thrane, D. P. Yoder and Rev. Jesse D. Farmer, pastor at Dunn and Ira.

LOCAL MAN INJURED YESTERDAY MORNING

Odell Ryan was severely injured Tuesday while unloading some cross-ties at the R. S. & P. tracks. One of the ties rolled from a car, hitting him on the side of the head and inflicting a two-inch gash. He was convalescing rapidly at the Emergency Hospital yesterday.

prefer seeing him playing a tinhorn in a Rotary Club luncheon or reading the Bible under some nearby shade tree.

This story is written by the editor of the Times-Signal, so that Messrs. McLain and Blankenship may know who is responsible, and we propose to keep on fighting for Snyder when we know that we are right, until they can roll snow balls across the high arches of hell.

Important Disclosure
Tuesday morning Snyder High School officials were advised by the Nolan County Interscholastic League Director, R. O. Martin of Blackwell, that Divide had not been certified by him to represent Nolan County at the Big Spring tournament, and as Divide appeared in the finals against Colorado in which the championship was decided, we cannot wonder what may happen now. . . and do you know, the most laughable part of it all is that McLain hails from Nolan County, and if he has no more interest in basketball than to be ignorant of who would represent his own zone of living, then what could anyone expect?

Seventh District President Makes Appointments

Mrs. J. T. Whitmore Heads Seventh District Texas Federation

SNYDER, TEXAS, Feb. 20.—It is neither a small honor nor a small task to function as president of the Seventh District of Texas Federation of Women's Clubs. Mrs. J. T. Whitmore has been quite busy these opening months of her administration selecting capable women and those peculiarly fitted for the lines of work which have been assigned them, exercising care to introduce new material wherever practicable and to give representation to every part of the district.

Seventh District, with its forty-nine counties, outnumbers them all. It takes in the Panhandle section of the state and extends southward to the tier of counties of which Scurry is one, as its southern boundary.

The district meeting will be held in Pampa on April 23, 24, and 25. Mrs. Whitmore will leave for that place on February 25 to plan, with the ladies of Pampa, for this meeting. While on this trip she will visit Amarillo and other neighboring towns, where she has speaking dates.

Mrs. Whitmore is stressing the importance of law observance and the organizing of junior clubs. It is also her aim to organize many new clubs and bring them into the federation during her two-year term of office. Eight counties in the district do not now have representation in the federation.

The list of the officers of Seventh District, together with the appointive places which have been filled by See OFFICERS—Page Two

"Did you ever think of getting married?"
"No, I didn't. It was my wife's idea all the time."

"Do you have any trouble with your stomach?"
"Yes, Doctor."
"What nature?"
"Keeping it full."

SOMEONE HAS SAID THAT THESE ARE SOME OF THE SIGNS BY WHICH SOPHS ARE RECOGNIZED

- 1. Wild noises in the corridor.
- 2. Disorder in the study hall.
- 3. Silly conversation.
- 4. Perpetual yawning.
- 5. Loud-voiced girls.
- 6. Rough-necked boys.
- 7. Sour grape expressions.
- 8. Content amusing to upper classmen.

PARENT TEACHERS HOME TALENT PLAY DRAWS GOOD HOUSE

The "Zander-Gump Wedding" at the auditorium Tuesday night attracted a house that netted around \$80 for the Parent Teachers Association for the benefit of the new cafeteria. Those who missed the show overlooked seeing the favorite funny-paper cartoon characters of the day.

One particular thought in connection with the show was this, that when a certain group of Snyder ladies make up their minds to put a proposition across, they do it. Men of the town should get a little of the spirit that pervades this well known group and be doing something for Snyder, instead of passing the buck on to someone else.

With W. N. Corry at the "mike" during the Tuesday night show, each participant in the show was introduced. Particularly dressy in their make-ups were Marguerite Person, Melvin Blackford, Rev. E. C. Lambert, Mrs. Ralph Hicks, W. O. Logan, A. C. Alexander, A. C. Preutti, Munger Lewis, Jake Smyth, Abe Rogers, Harvey Shuler, Louise Darby, Herschel Rucker, Harold Brown, Jesse Jones, Gene Taylor, and Dorothy Winston.

Mrs. Hugh Taylor and Homer F. Springfield directed the show.

The band concert by the high school band was well received, and the band is doing great work under J. W. Crowley's direction.

Preliminary to the show when participants were a bit late in getting on the job, it was up to Supt. Wedgeworth to give one of those "sustained" announcements of which he is a past master. He got away with it right well with no cabbage or groups of celery being heaved his way. But he had a job to do, and leave to him to do it well.

DISTRICT SUNDAY SCHOOL ASSOCIATION IS FORMED HERE

Representatives from the various Sunday schools of the northern district of the Mitchell-Scurry Baptist Association met at the First Baptist Church here Sunday afternoon for the purpose of organizing the district Sunday school association. After a short program, Lyman Wren, temporary chairman, appointed a nominating committee.

The committee retired and later brought in recommendations as follows, the report being unanimously accepted and the officers elected: H. L. Wren, Snyder, president; J. E. Huffman, Snyder, vice president; H. L. Davis, Snyder, secretary; and J. O. Leach, Hermleigh, chorister.

Fluvanna and Union invited the organization for the next meeting, and Fluvanna won by a margin of two votes.

The next meeting will be held on the third Sunday afternoon of each month.

Entries Coming In For Track & Field Meet Here

Twelve Schools Already Are Entered in Invitation Affair

Twelve schools have already enrolled in the Snyder Track & Field meet that will be held here March 8th. School entered now include: Roscoe, Tahoka, Spur, Lamesa, Big Spring, Blackwell, Coahoma, Colorado, Dunn, Fluvanna, Hermleigh and Ira.

Thirty-two schools have been invited, and the affair looks to be the greatest high school athletic carnival ever attempted in West Texas. The Snyder meet is the first to be held in West Texas, and Snyder High School officials are going to have a real welcome for the visitors. Entries for the meet close March 1.

Snyder Man Candidate For State Treasurer

Charley R. Lockhart, Popular Snyder Man, Here On Visit

Charley R. Lockhart of Austin, candidate for the office of state treasurer during the 1930 primary elections, was the over Sunday guest of his brother, Jim, and a host of old time friends who have known him ever since he landed in Scurry County back in 1898. If the total voting strength of Scurry County reaches 3,204 votes, Charley Lockhart will get 3,204 of them.

Sunday morning while attending services at the First Baptist Church Pastor Ferguson demanded that Mr. Lockhart come to the pulpit where he made a few brief remarks. So filled with emotion was the speaker, when he thought of the many old pioneers that had answered the call, that it was indeed a hardship for Charley to even tell what was in his heart.

Mr. Lockhart never fails to attract attention wherever he goes, being only 45 inches tall and weighing 120 pounds. He is 54 years of age, is married and the father of two children, one of whom is a football player on the Presbyterian College team at Kerrville and is 5 feet, 5½ inches tall, weighing 180 pounds.

Mr. Lockhart is a native-born Texan, having been born in Dallas County. He is a Baptist, an Odd Fellow and Knight of Pythias. He held the office of county treasurer for Scurry County for sixteen years before going to Austin where he now holds a position in the state treasurer's office, which post he has had for ten years, serving under six state treasurers, viz: C. V. Terrell, John W. Baker, S. L. Staples, G. N. Holton and W. Gregory Hatcher, the present incumbent.

In connection with his duties Mr. Lockhart is manager of the depository department which is composed of the state treasurer, attorney general and banking commissioner.

Mr. Lockhart while in the city spent most of his time with his brother, Jim, and the hosts of friends who have known him ever since he was elected county treasurer of Scurry County two years after his arrival in the county.

Charley Lockhart is a gentleman who is thoroughly capable and efficient to handle the duties of the office to which he aspires. He should receive one of the heaviest majorities ever given a state office, and West Texas as a section will rise as one body and cast its vote verbal or written for Charley Lockhart for state treasurer. The Times-Signal, for one, can marshal 35 votes, and every one of them goes for this fine gentleman who is never too busy to tell the bystander that Snyder is his old home town.

NEW STUDIO NOW LOCATED IN SNYDER

Mr. and Mrs. L. A. Shugart of Dallas have opened a new studio on the east side of the square and are making some introductory bargains in high class photo work.

Both of these folks come highly recommended, many Snyder people knowing of their work, and they will enjoy a fine patronage. Before reading elsewhere, look up their ad in this issue.

Sweetwater is to get a new post office building, according to recommendations made by the Fourth Assistant Postmaster General.

FARMERS, ATTENTION!

A sample of the general farm schedule for the 1930 census has been received at the Times-Signal office, and farmers interested in knowing in advance what questions they must answer are invited to come to the office and inspect this schedule.

All inventory items called for are for April 1, 1930, and all production items for the calendar year of 1929.

Scurry County Has Youngest Hi School Head

E. O. Wedgeworth of Fluvanna Re-Elected to Head Schools

Inquiries made through state educational sources brings to light that Scurry County boasts of the youngest high school superintendent in West Texas in the person of E. O. Wedgeworth, 24, head of the Fluvanna schools. Born in East Texas, at Timpon, following his college career he came to Snyder in 1927, where he became associated with the faculty of Snyder High of which his brother, C. Wedgeworth, is the head. After serving one year under his brother, E. O. Wedgeworth was offered the superintendent's office in the Fluvanna school where he has been connected for the past two years and was elected for another year at a meeting of the board of education last week. He has accepted the position.

Aside from receiving the hearty endorsement of the board, Supt. E. O. Wedgeworth has been given great encouragement from pupils as well as parents.

Some of the outstanding accomplishments that have been consummated during his incumbency are shown in the following:

A new \$50,000 high school building now in course of construction. Completed grouping of five school districts into one.

Remodeling of old building as grammar school when the high school moves into new quarters.

Four new school buses bought and paid for to transport students from adjoining districts.

Four new teachers added since 1927. Student body grown from 125 to over 300 students and increasing weekly.

High school band organized in which Wedgeworth takes a most important part.

High school library organized and put on systematic basis.

New courses added to high school work.

Gained first class high school classification last year.

Applying for ten more units of affiliation this year.

Received the limit for state aid this year.

Publishes school paper this year for first time.

Independent water system has been installed.

Coached debating team that went to district meet.

Coached a declaimer who went to the state meet and won fourth place.

Seven out of ten that graduated are in college during 1929-30.

A very complete and efficient set of permanent records has been installed both in grammar and high school.

New office furniture, including filing cabinet, permanent record case, book cases, desk, and in fact a complete set of office furniture.

New maps for the entire school, and complete laboratory equipment.

Elementary work including fifth, sixth and seventh grades, has been divided into departmental work and placed under a competent principal.

In addition to his school work, Supt. Wedgeworth has found plenty of time to join in the social and civic life of Fluvanna, as well as cooperating with the Scurry County Chamber of Commerce and Snyder Lions Club. Scurry County not only has heard that Supt. Wedgeworth is the youngest school head in West Texas, but the entire state, so far as that matters, and his work stands on such a high level of efficiency that city and county alike join in praising his forward activity. He is unmarried.

SCURRY COUNTY C. OF C. ANNOUNCES MANY COMMITTEES

The Scurry County Chamber of Commerce announces the following committees for 1930 work:

Finance: O. P. Thrane, A. A. Bullock, Clarence Wenninger, J. C. Stinson, Joe Caton and Ernest Taylor.

Membership: Warren Dodson, J. M. Harris, W. C. Hamilton, H. L. Davis, W. W. Smith and R. H. Odum.

Entertainment: C. Wedgeworth, H. F. Rogers, Earl Fish, Mrs. L. T. Stinson and Mrs. H. G. Towle.

Publicity: Willard Jones, E. J. Anderson and George F. Smith.

Good Roads: Horace Leath, A. G. Preutti and Horace Holley.

Agricultural: J. P. Jamison, Harrie Winston, W. O. Logan, Joe Roemisch, Henry Richter, C. A. Trussell, O. H. Holladay, W. A. Taylor, W. M. Boussett, Cornelius Davis, and Miss Jessie Lee Davis.

New Business: H. G. Towle, Clarence Wenninger and Clyde Shull.

Great preparations are being made for the annual banquet next Thursday night at the First Presbyterian Church basement. The committees are arranging a program of interest and great merit, and a large crowd has been assured.

"Handsome men are notoriously poor lovers."

Giles Garner Has Proved That Poultry Will Pay Returns

Giles Garner with his poultry project west of Snyder, has caused real constructive educational effort on the part of Scurry County farmers, some of whom were on the fence as regards adding poultry on a larger scale to their farming efforts. Herewith is actual history that has happened at Garner's Poultry Ranch where anyone who is the least bit skeptical can visit and ascertain the same figure themselves.

Mr. Garner's white Leghorns were five and six months old on Sept. 27, 1929, and were averaging a case of eggs per day from 2,000 pullets.

During the month of October, Mr. Garner received \$830 over and above all living expense, feed bill and the necessary expense that goes with a farm of 500 acres.

During November, a total of \$1,830 was banked, and after paying a feed bill of \$360 for the month, he had \$1,470 left.

For December, total receipts amounted to \$1,560, and by subtracting the feed bill that averages \$360 monthly, that month showed exactly \$1,200 profit.

For January, which was a cold, blustery month, total receipts were only \$1,074.50, and by taking the feed bill off, a net profit of \$714.50 remained.

Taking the net profit of the four months just given shows a net profit for that time of \$4,214.50.

Mr. Garner from February to June is on a hatchery schedule that will net him \$8,460, subtracting all possible expense, and with a contract calling for \$18.00 per case, f. o. b. Snyder. By the coming fall, he plans on having 10,000 laying hens and will construct eight more large buildings with a capacity of 1,000 hens to the building.

Supt. C. Wedgworth was the week-end guest of his wife at Temple, who had been slightly indisposed the past week. Cheerful reports have been had from the bedside this week.

Seek Aid to Rid Scurry of Wolves

R. H. Curnutte and Henry Wellborn Head List of Petitioners

Robert H. Curnutte and Henry P. Wellborn headed a petition last week seeking aid from the Commissioners Court for a concerted drive against coyotes and other marauding animals. A copy of the petition is herewith printed:

"We, the undersigned taxpayers of Scurry County, petition the honorable Commissioners Court to assist us in poisoning the coyotes that are making depredations on our livestock and on poultry over the county.

"We agree that if the court furnishes the baits and poison we will put same out on our premises under the direction of the U. S. Biological Survey; that we will give publicity to same; and that we will put out baits as nearly all at the same time as possible so owners of valuable cats or dogs may confine same for six weeks and not have them poisoned. The baits to be of fat pork, so it will be unnecessary to pick them up, but what are not eaten by coyotes, skunks and ravens will be devoured by worms, ants and deterioration in a short time."

Much interest is being displayed in getting signatures to the petition which will be later presented to the Commissioners Court.

SCURRY ENTRIES IN FAT STOCK SHOW

Yesterday morning's Star-Telegram gave the following Scurry County entries in the forthcoming Fat Stock Show:

Winston Bros., six Herefords. Scurry County Club Boys, one Hereford. Scurry County Club Boys, 27 lambs, boys and girls division. W. F. West, one lamb, boys and girls division.

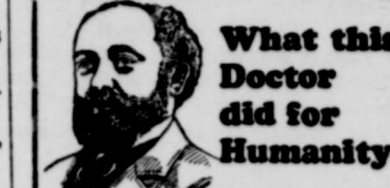

GIRLS' CAGE GAMES AT ROBY TODAY

Drawings at the Girls' Basketball Tournament at Roby, opening today, places the Snyder Tigerettes to go on the floor with Busby at 2 o'clock. Ira High plays Rotan at 9:30 tonight. Fluvanna vs. Newman, 10 a. m. Friday. As these teams win or lose they will appear some time or Friday.

WILL ATTEND NATIONAL MEET IN ATLANTIC CITY

County Supt. A. A. Bullock left yesterday to meet the special train at Dallas that is taking state teachers to the National Educational Association meeting at Atlantic City. Pat has promised to write the Times-Signal a letter of his trip.

The alumnae of the University of Texas will have a Texas Day Banquet on Monday evening, March 3. All exes invited to attend. Call either telephone 126 or 229J.

What this Doctor did for Humanity

As a young man the late Dr. R. V. Pierce, practiced medicine in Pennsylvania and was known far and near for his great success in alleviating disease. Finally he moved to Buffalo, N. Y., and put up in ready-to-use form, his GOLDEN MEDICAL DISCOVERY, the well-known tonic for the blood. This strength builder is made from a formula which Dr. Pierce found most effective when in private practice. It aids digestion, acts as a tonic and enriches the blood—clears away pimples and annoying eruptions and tends to keep the complexion fresh and clear. All druggists. Tablets or liquid.

Locals

Mrs. Com Ezell spent Monday in Sweetwater.

Roy Strayhorn was in Dallas the first of the week.

W. O. Logan was a business visitor in Lubbock last week-end.

Ira Ainsworth spent the week-end in Wichita Falls.

P. W. Cloud and Errol Taylor spent Sunday in Lubbock.

E. M. Deakins spent the first of the week in Seymour on business.

Sam Jenkins of Lamesa was a week-end visitor in Snyder.

Mrs. R. J. Randals and little son spent Monday and Tuesday in Hamlin.

Mrs. Howell Harpole of Hereford is visiting relatives in Snyder this week.

Mr. and Mrs. D. B. Baum of Croes Plains have been visiting Mrs. Baum's sister, Mrs. R. H. Odum.

Mr. and Mrs. T. H. Chilton spent the week-end visiting Mr. Chilton's brother in Abilene.

Mrs. Guy Stoker of Eastland spent the week-end with her parents, Mr. and Mrs. H. J. Brice.

Mrs. George Webb and baby of Baird spent the week-end with her parents, Mr. and Mrs. A. L. Stoker.

Mr. and Mrs. Melvin Newton and son visited Mr. and Mrs. T. H. Duff in Plainview last Sunday.

Miss Pauline Jones left Tuesday for Corpus Christi where she will visit her brother.

Mr. and Mrs. Clyde Shull and Miss Vesta Green were Sweetwater visitors Sunday.

D. N. Hull and family of Rotan visited his mother, Mrs. D. J. Hull, Sunday.

Mr. and Mrs. Willard Jones and little son spent the week-end in Decatur.

Mr. and Mrs. D. P. Yoder visited Mr. and Mrs. Hal Yoder in Lubbock Friday.

Misses Edith Grantham and Ann Duncan visited in Sweetwater last Saturday night and Sunday.

Dr. Buchanan, wife and daughter of Albany were Sunday guests of John E. Lee.

Mr. and Mrs. C. S. Perkins of Sweetwater spent Sunday with W. D. Stanfield and family.

Miss Eunice Smith and Chloe Harris visited Miss Harris's mother in Amherst Sunday.

Glen Sample returned home Monday from a week's business trip to his two ice plants at Lovington, and Jal, New Mexico.

Mrs. E. H. Dorsett has returned to Snyder after a short visit with her husband at Big Spring, where he is associated with the Crawford Hotel.

J. R. Hancock of Winters has completed the purchase of some ranch land south of Fluvanna.

A. J. Towle, who was brought home from the Lubbock Sanitarium last Thursday, is getting along very nicely at his home.

Rev. and Mrs. B. W. Dodson of Baird visited Mr. and Mrs. Warren Dodson last Saturday.

Miss Mineola Graham of Eastland visited her brother, Joe Graham, and family last Sunday.

Mr. and Mrs. Horace Elland of Stanton were Sunday guests of Mrs. Elland's mother, Mrs. J. B. Taylor.

Mr. and Mrs. W. W. Hull visited Mrs. Hull's parents, Mr. and Mrs. H. P. McGinty, in Sweetwater Sunday.

Editor and Mrs. J. W. Roberts and daughter, Marilyn, of O'Donnell were Sunday guests of Mr. and Mrs. George F. Smith.

Mr. and Mrs. W. F. Bertram and daughter, Miss Euhpa, visited their daughter, Mrs. G. B. Vaught, in Hobbs, N. M., last Sunday.

J. Q. Barnes visited in Robert Lee Sunday. Mrs. Barnes, who has been visiting her parents, Dr. and Mrs. Turney there, returned home with him.

Miss Elizabeth Smith left Monday for a week's visit in Big Spring with her nephew, Tracy Smith, and wife.

Mr. and Mrs. D. C. Howell left Saturday for Pecos where they are visiting their daughter, Miss Ruth Smith.

Mrs. D. Hull of Lamesa and Mrs. McElen of Floydada visited their father, Rev. I. D. Hull, the first of the week.

Misses Gertrude Saylor, Erma Taylor, Leroy Stone and Charles Owen of Sweetwater spent the week-end with Mr. and Mrs. J. J. Taylor.

Mrs. W. T. Raybon and two daughters, Evelyn and Roberta, attended the Passion Play in Amarillo Friday night.

J. C. Smyth and Carl England spent the week-end in Canadian and Amarillo, and attended the Passion Play Friday night.

H. L. Atkins, editor of Progressive Farmer, was a Snyder visitor Friday and was taking various rural pictures and securing subject matter for a real story of Scurry County activity.

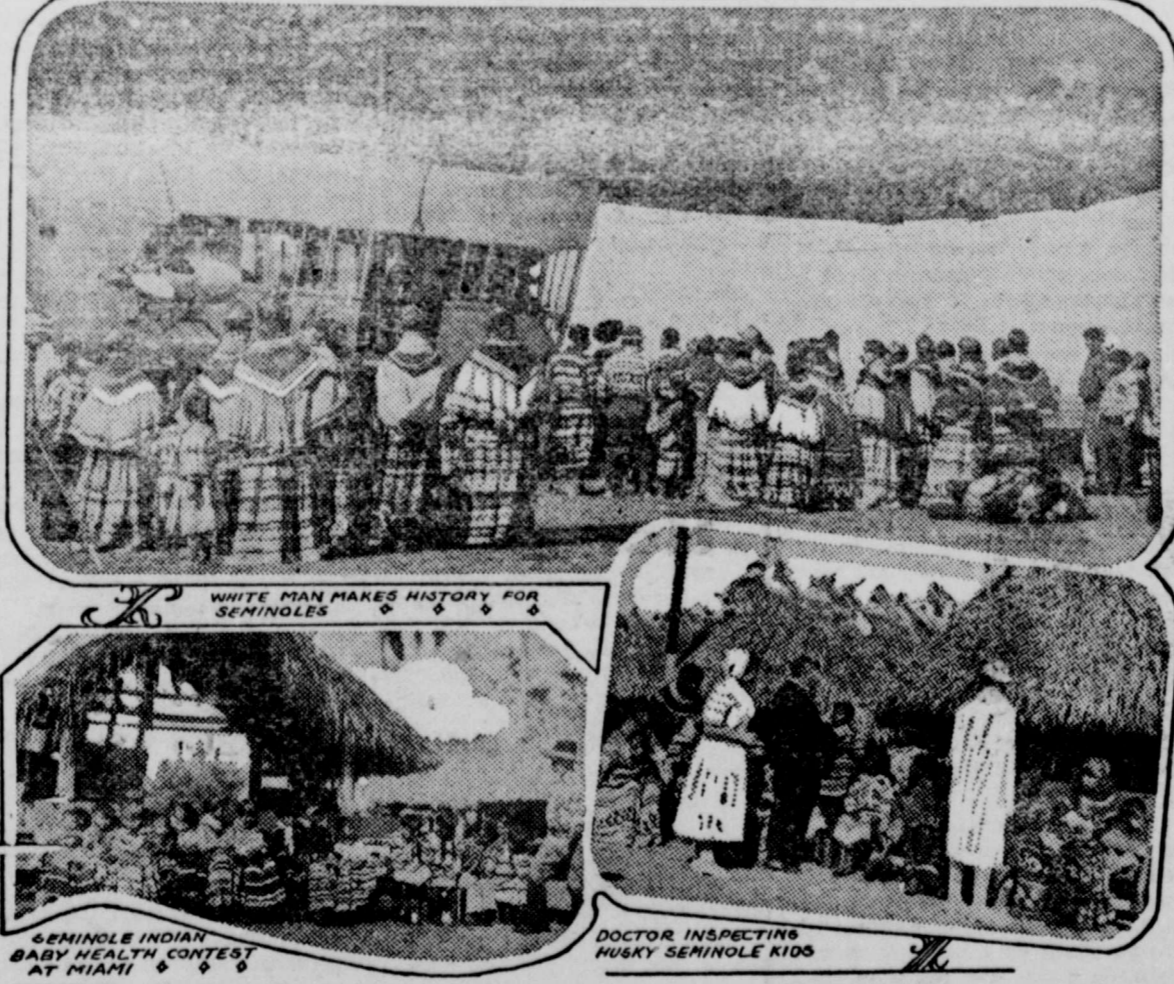

Mr. and Mrs. George Ellis and family of Gould, Okla., are visiting his mother, Mrs. Ellis, and sister, Mrs. Louise Darby.

Mr. and Mrs. James Ralph Hicks made a business trip to Wink last week-end and also visited Mr. and Mrs. Hub Taylor in Odessa.

Mrs. Sam Hamlett is visiting her mother in Proctor and recuperating from a minor operation performed last week.

W. G. Swenson Jr. of Abilene and Philip Shumway, assistant traffic manager of the Safeway Air Lines, were visitors at the Times-Signal last Friday.

Florida Seminoles Free to Roam, by Government Decision

MIAMI, Fla.—Happily for the Seminoles of Florida the government has decided they are not obliged to live pent-up lives on the reservations. The decision is no doubt due to the peaceful character of those picturesque aborigines and to the fact that although civilization has severely encroached upon their happy hunting grounds there are still vast areas abundant in game and fish into which they can disappear from the white man's world.

The Indian villages near Miami and in several other parts of Southern Florida are a source of livelihood to the Indians. The villages are universally maintained as tourist attractions, and therein are sold specimens of Indian work and alligator hides and skin curica. The capture of the gators constitutes an important source of Seminoles livelihood, and is pursued in the summer.

While there are always Seminoles women and children in the villages where food is abundant, the braves come and go. An arm of the Miami River reaches the largest village in the outskirts of Miami. The brave who wishes to start for the wilds of the Everglades, jumps into his dugout and paddles away.

Through the villages the Seminoles are coming into closer contact with the whites. Many of the younger men are leaving the tribe don the white man's costume; some of them are expert vaqueros on the cattle ranches of interior Florida. They are good cattlemen but do not take readily to routine work. The elder Indians, however, discourage wearing the white man's dress. The children recognize in the visitor a source of income and very keenly to stretch out their little brown palms and say "ten cents".

Tony Tommy, ablest spokesman of the Seminoles, believes that their real future is as American citizens. He believes there is no place in the United States for Seminoles Indians as such but there is a place for American citizens of Seminoles descent, with their wonderful physiques, self control, and bright minds. Inability to speak English, and consequent failure to acquire an American viewpoint, and lack of the status of citizenship are, he contends, chains which bind his people to the slavery of an aboriginal life. He wants the children to have schools, the young men and women to have the opportunity for advanced education. He wishes them to have religious training, agricultural training, commercial and technical education, to be enfranchised and to be free to go and come "like other people." In other words, he asks, "Why not give us the same opportunities that other Americans enjoy? I do not want my people to be dependents or wards. They are truthful, brave, intelligent, sturdy, and have a regard for the moral virtues."

Human Progress

is produced, not by great pieces of good fortune that seldom happen but through little advantages that occur every day.

Daily registering these advantages through your Bank Account makes them more secure.

STRANGE THINGS OBSERVED

Rev. Jas. H. Tate

Mr. Editor, you will remember that in my last letter I indicated my purpose to write this time along the line indicated by the caption of this article, so here it is, and with this it may be that I had better leave off writing for a while lest I consume too much space.

Here is a brief catalogue of things, conditions, circumstances, etc., which admittedly struck V. P. (he being a long-time Scurry County man) as rather strange. Possibly they may be of some interest to our readers.

In the only city outside the U. S. visited by V. P. and wife on their way to the real West, we saw within an hour quite a number of beggars—real beggars—persons who would come near and hold out the hand and ask for money. This reminded me quite forcibly of what I have often heard and read of conditions in the Orient. In striking contrast to this is the fact that here in the U. S. we did not see, on our journey and up to date, one single such beggar. Surely there must be a difference!

"Streams in the Desert" is another thing that proves a surprise, when one is journeying through a dreary looking valley and all of a sudden he crosses, or comes along side a stream of water racing through the land. They are irrigation ditches.

As we journeyed across southern Arizona, bumping our way through the foothills (we called them mountains) and over the constantly gravel or rocky road, we observed that the color of the "mountains" and the ever present rocks, strewn thickly through the valleys, was of a reddish dark brown color. Somehow these mountains had seen fit to change the style of color effect from the usual grey appearance to the baker's brown. This seemed quite singular until finally when we reached Ajo, about half way between Tucson and Yuma, we found that a great mining company was actually scooping up wealth from the surface of the ground at that little town, and thus doing its part towards meeting the demands for copper. This explains why the rocks were brown instead of gray. The color indicates the presence of copper.

Here is something that may be of interest to high school students. It would be most too embarrassing to mention were it not for the fact that the writer has plenty of company. You know misery loves company. Some 40 or 50 miles before reaching Yuma, Arizona, we had to climb a mountain range. The road was paved and fine, though as crooked as a snake's track. As our Ford coupe labored (in high) on its way up the grade, V. P. saw it as a descending rather than an ascending plane. Henry Ford would not agree with this view of the situation. I thought that something had suddenly gone wrong with the engine and got out to investigate. Now, imagine my surprise when (once on the ground) I saw that we were on a heavy grade. From my viewpoint under the wheel, it looked as if we were going down hill, while in fact

we were climbing a 7 per cent grade. It was purely a case of visual illusion—going up in fact but down in appearance. A man at the filling station at the crest of the drive stated that this is the case with many. I am glad that he said that.

In California motorists must stand an examination and secure a license before they are permitted to drive their cars on the highways. V. P. managed to pass and get his license. In this connection he learned that the penalty for reckless driving is \$250 fine or 90 days in jail, or both. Ouch! That makes a fellow feel shaky. But note this: "Maximum penalty for driving while drunk is three years in prison or \$5,000 fine. I am not so shaky about this last mentioned law, and, needless to say, I have not seen a drunken driver yet.

Any time that I drive over to Redlands I might, with no ill convenience, drive right up by orange trees and pluck all the oranges desired, but, somehow, one's appetite for oranges, gotten in this way, falls when he reads this sign: \$100 reward for information leading to the conviction of orange thieves."

Another thing that strikes this scribe, he being yet fresh from West Texas, is the fact that the wind does not blow much. We have been here a month, during which time the wind has scarcely blown enough to fly a kite successfully, yet it does blow considerably more in certain districts—through mountain passes, for instance. I have not seen a windmill in this locality.

JAS. H. TATE.
Editor's Note—Times-Signal readers enjoy your newsy letters, Bro. Tate, and you are welcome to use our columns any time that the writing fever hits you and you feel that the old home folks would enjoy reading what you have in mind. Come right on ahead, any time!

FRIGIDAIRE NOW FEATURES HYDRATOR

An outstanding electrical refrigeration achievement of the year, a device which provides the means for reviving wilted vegetables, restoring them to their original crispness and wholesomeness, has been placed on display at the local home of Frigidaire, it was announced by King & Brown, dealers of the corporation.

"The new device," Mr. Brown states, "is known as a hydrator. It is simple in appearance, but in operation it is amazing. Not only does it restore that original, fresh-from-the-garden appearance, but it provides a means for housewives to store fresh vegetables and keep them in prime condition for many days. Sandwiches also may be kept fresh and appetizing for long periods of time in this moist air compartment."

Nusbaum Writes
Capt. Cyrus Nusbaum, who has been convalescing in the home of his daughter at Tulsa following the amputation of a foot, writes the Times-Signal that he soon hopes to be again on the road in his community welfare work and hopes to see old Snyder friends soon. We hope so, too.

Tell our advertisers you saw their ads in this paper. It'll pay us both.

Inexpensive Tours by Rail and Motor Through Europe Will Enable Students to Visit Old World in 1930

Americans, particularly the younger generation, are beginning more and more to appreciate the importance of foreign travel as a means of broadening the mind, increasing one's usefulness and acquiring culture. Consequently the coming spring and early summer will see many young men and women in all walks of life, but more especially students and others desirous of "seeing this world before the next", packing their suitcases, bidding a fond adieu to their friends and embarking on great ocean liners bound for England and the Continent. In order to enable young folk to travel without encroaching too deeply upon their limited incomes, the Travel Guild of Chicago, in conjunction with the Canadian Pacific Steamships, has arranged "house party tours" by motor and "collegiate tours" by rail through Great Britain and Continental Europe, leaving several times a month from the quaint French-Canadian cities of Montreal and Quebec aboard fine big Empress liners, comfortable Duchess ships and well known cabin vessels, all units in the Canadian Pacific fleet, commencing May 14. The trip down the beautiful and historic St. Lawrence River is a voyage never to be forgotten, and this journey involves only four days open sea to Europe. Motor coaches and railway trains will take the tourists from place to place, visiting Stratford-on-Avon, Shakespeare's birthplace; London and other attractions in England; Paris, with its Cathedral of Notre Dame, Eiffel Tower, Madeleine, Louvre and other landmarks; Holland, with its picturesque windmills and dykes; Belgium, Switzerland and the Alps; Northern and Southern Italy; Germany in time for the celebrated Passion Play at Oberammergau, and other countries and attractions too numerous to mention. Thus the person making one of these trips will return home much the wiser for having seen something of those ancient civilizations whence came the founders of the United States of America.

Thompson, D. G. Snyder, G. W. Martin and A. J. Davis.
Samples of both the dwarf and tall varieties of Hershey seed can be seen at N. M. Harpole's grocery store, according to F. I. Townsend, booster for this new grain and forage crop.

In addition to the many other bits of information that F. I. Townsend has favored Times-Signal readers with, we have another letter from him this week which takes up an entirely different phase of the Hershey crop but confirms the many other fine points of this remarkable grain crop. The Times-Signal was privileged Tuesday morning to see both varieties of Hershey seed, and to those folks who condemn a matter without first investigating we desire to state that Hershey is specifically a grain seed, and there is no similarity between it and Millet seed. Samples may be seen at Harpole's grocery.

Many Farmers Book Orders For Hershey

New Feed and Forage Crop Attracting Widespread Attention

The Times-Signal in the past two issues has contained the story and complete data on Hershey, the new feed and forage crop that was first announced here by F. I. Townsend. During the past week orders have commenced to pour in at the Harpole grocery to the extent that forty-four Scurry County folks now have their names on the book for definite amounts of Hershey. The interest from nearby sections has likewise increased to the extent that Col. Myrick of Lubbock sent an order last week for 2,800 pounds, while cash and orders are now coming from Anson, Hackell, Stamford and a number of other places.

The forty-four Scurry County folks who already have ordered include: J. W. Hess, J. O. Leach, Neal Musgrove, Chas. Eastman, R. R. Williams, R. O. Dobbins, W. B. Johnson, A. H. Trice, J. W. Roe, Bruce Ramsour, A. W. McCormick, J. G. Lockhart, Joe Samona, A. A. Lockhart and H. W. Drum.

F. I. Townsend, Z. P. Gillum, F. M. Miller, C. M. Cary, N. E. Farr, L. F. Sterling, F. W. Powell, J. W. Gladson, Walter Wasson, Jap Bynum, S. W. Light, W. R. Bowlin, J. L. Carrell, J. E. Bowlin, and H. E. Greenfield.

W. P. Bowlin, Garland Wolf, G. M. Garner, T. O. Kiser, Henry Richter, Mrs. Marie Townsend, S. R. Pickas, Ike Boren, Joe Rosgenstein, J. Wesley Harris, Albert

72.8. Final weight, lot 1, 248; lot 2, 240.9; lot 3, 265.8; lot 4, 263.4.

It will be seen that the pigs in lot 3 that were fed the ground Hershey while weighing less than either of the other lots at the start of the test, made the greatest gains and were the heaviest lot at the close of the test.

The daily gain was as follows: Lot 1, 1.59; lot 2, 1.53; lot 3, 1.78; lot 4, 1.75.
Total gain: Lot 1, 173.3; lot 2, 167.1; lot 3, 194.1; lot 4, 190.6.
Feed cost per cwt. gain at feed lot: Lot 1, \$6.66; lot 2, \$6.53; lot 3, \$4.85; lot 4, \$5.73.
The experience of farmers and stockmen in feeding Hershey to livestock has shown results similar to the results obtained in the test referred to above. There is absolutely no question about Hershey being an excellent feed for all kinds of livestock including poultry.

Due to the wide publicity given the matter by Mr. Smith, editor of the Times-Signal, orders are pouring in for Hershey seed from all over West Texas. From Lubbock alone Mr. Thrane has orders for 2,800 pounds.

The farmers from the drought-stricken counties of Jones and Hackell were quick to see the great benefit that Hershey will be to them and are hurrying their orders in so as to be sure to get seed.

It was not our original intention to send any seed out of Scurry County, but as the Scurry County farmers have now had nearly two weeks time in which to place their orders with N. M. Harpole, and while numbers of progressive farmers have looked their orders for seed, the orders booked so far do not total as much as we had expected, while on the other hand the demand for seed from other counties is far greater than we anticipated. It looks now as though the demand from farmers living outside of Scurry County will total nearly if not fully a car load of seed. If those farmers of Scurry County who have not already booked their orders are going to want Hershey seed, they should go at once or write or telephone to Mr. Harpole and have their order booked for the quantity of seed they desire. Mr. Harpole is handling the seed without a penny of profit. No money is required to be paid until the seed arrives.

F. I. TOWNSEND.

New Ways with Tomatoes

EVERYBODY knows how good tomatoes are stewed all by themselves, but there are many other ways of cooking and serving them. Have you ever thought, for instance, of making a new dish by scalloping tomatoes with pecans or by stewing them with mushrooms or lima beans? The results will repay your efforts. Here are the recipes calculated to make six servings each:

Scalloped Tomatoes and Pecans: Mix the contents of a No. 2 can of tomatoes with three-fourths teaspoon salt, one tablespoon sugar and a few grains of pepper. Then put alternate layers of tomatoes, finely chopped pecans (you will need half a cup of them) and one-third cup of grated cheese into a buttered baking dish. Cover top with buttered crumbs (three-fourths of a cup) and bake in a hot—400°—oven for 25 minutes.

Styles of Stewed Tomatoes
Stewed Tomatoes and Mushrooms: Drain a 4-ounce can of mushrooms. Drain a 2-ounce can of mushrooms. Add the contents of a No. 2 can of tomatoes, salt, paprika, one bay leaf and one slice of onion, and stew gently for ten minutes. Remove the bay leaf and onion and serve with a diamond of toast on top of each serving.

Stewed Tomatoes with Lima Beans: Empty the contents of a No. 2 can of tomatoes and a No. 2 can of lima beans into a sauce pan. Season with salt and pepper to taste and stew gently for ten minutes. Break eight saltines into the mixture and serve at once.

protected by congressional authority. The Boy Scout has a great fight on his hands. It is a fight not of blow against blow and death and courage but a fight to put the good, the genuine, the economically needed at the forefront in the life of all.

The journey of Scouting has three stages. He starts on the road by asserting "Upon my honor" to meet life's great program with a physically-strong, mentally-awake and morally-straight, physically equipped life for world service.

Next the common everyday boy enters "The Tenderfoot" realm. Next the second class, then a first class, and then he may be an Eagle Scout. Various activities are the requirements of his progress, each one of which is in activity increasing his intrinsic worth to the social whole. He must know knots, first aid, swimming, fire building, meal cooking, camp preparing, etc. to a long list too numerous to mention here.

But just two great requirements make him a real scout. He must live to do a "good turn daily" and keep the Scout Oath and Law. The Scout in his oath declares, "On my honor I will do my best."

1. To do my duty to God and my Country and to obey the Scout Law.
2. To help other people at all times.
3. To keep myself physically strong, mentally awake and morally straight. His law binds him to be trustworthy, loyal, helpful, friendly and courteous.

Where outside of the realm of the Immaculate Christ, my friend, can you find a noble, more manly,

and challenging program for boy life than this? America shines with a new luster as she recognizes by special congressional act this splendid boy organization.
It tests temper, proves the honor and brings out the real intrinsic value of every boy. It binds a boy to the worship of God but does not prescribe nor discriminate against any church.
Study, prove and determine to help on this great movement for the good, usefulness and genuinely truism of every boy in our community. Add our boys to the real boys of America. Praise God, Snyder has two real Boy Scout troops.

Boy Scouts Enjoy Meeting Here Sunday

Large Crowd Participates in Twentieth Anniversary Observance

The two Boy Scout troops of Snyder were entertained in a special meeting at the First Methodist Church Sunday morning when Rev. Cal C. Wright delivered a special sermon. The pastor, who has been a scout booster for many years, had arranged a program in which various members of the local troops assisted. Porter King likewise gave a short history of the work, and Scoutmaster Munger Y. Lewis rendered a beautiful solo number, "Spirit of God."

Thoughts coming out of the meeting showed that Boy Scout work was celebrating its 20th anniversary. It might be well to briefly ask ourselves: What is this movement?

Briefly, it is the one regular governmental recognized boys' movement. Its uniform and insignia are

Longer Staple, Less Acreage Now Advocated
 Lubbock Experiment Station Cites Results Obtained With Long Staple

Basing the prediction on the present cotton outlook in Scurry County, experienced heads at the game state that acreage here will be 10 to 15 per cent less than last year, and this may be exceeded at later reports.
 Long staple cotton seems to be the prevailing talk at the present time, and according to Don L. Jones, superintendent of the state experiment farm at Lubbock, various factors have entered into bring about increased interest in the growing of longer staple cotton.
 "A prolonged drought in 1929 throughout the entire state, coupled with the fact that there has been a pronounced trend for several years toward growing extremely short staple cottons of uneven length, and consequently smaller returns on their cotton crop," states Mr. Jones, "has finally brought to the attention of the individual cotton planter the inequity of a 'hog-round' market and the necessity for growing a cotton of better spinning qualities."
 "During the latter part of October, 1923," continues Mr. Jones, "a severe freeze caught the bulk of the cotton in a state of immaturity, because of the early summer drought and the heavy, continuous rains of late summer and fall.
 "As the cottons having short staple make a better sample than do long staple varieties, the man growing the extremely short staple cottons of medium earliness in maturity was able to salvage his crop and receive higher returns than those cotton planters who had the late maturing varieties. As a consequence, the Plains area is pretty much on a one-variety cotton basis.
 "Where before there was enough quality cotton grown to maintain a reasonable basis and allow the men growing cotton of poor quality to obtain the same price on account of the 'hog-round' system of buying, we have now reached the point where such a large proportion of the cotton is of inferior quality that prices received were considerably lower than basis.
 Tests Conducted
 In its effort to arrive at a scientific solution of the above-named cotton problems which are facing the grower, the experiment station has conducted a number of timely demonstrations. Results of such effort reveal the fact that there are several varieties of cotton that can be grown in this area—cotton that matures early and possesses a staple length seven-eighths of an inch or better, besides yielding more pounds per acre than the half-and-half variety commonly grown.
 Early Cotton Figures
 Early cotton is recognized as best. It is also recognized as bringing the best price. Over a four-year period during the seasons of 1925, 1926, 1927 and 1928, the following shows the percentage of certain cotton varieties opened after 134 days, and 147 days from time of planting.
 Burnett cotton, the experiment station's records show, had 25.2 per cent of the crop open at 134 days, and 65.7 per cent open at 147 days.
 Mebane No. 804, with 15 per cent open at 134 days had 56.4 open at 147 days after planting.
 Acala shows 14.4 per cent open at 134 days and 49.8 per cent open at 147 days.
 Half-and-Half shows 14 per cent at 134 days and 49.8 per cent open at 147 days.
 Sunshine cotton records 16.4 per cent after 134 days, with 33.2 per cent after 147 days.
 Per Acre Yields Recorded
 Production records of a number of varieties reveal the following averages over the same four-year period:
 Westex which is a variety out of Burnett and shows practically the same maturity average, yielded 177 pounds of lint per acre. Acala, with an average of 166 pounds, is next. Mebane No. 406, yields 162 pounds. Half-and-Half, 161.31 pounds; New Boykin, 159 pounds; Burnett, 156 pounds; Kasch 152 pounds; Mebane 804, 138 pounds; Sunshine, 129

WHAT IS THIS "COOPERATION?"
 Every so often, and some times oftener, we are told at public gatherings or through the press that what our towns need is "cooperation."
 Just what is this "cooperation?" Any good dictionary will tell you that it is "joint action, or operating together for a common object." These authorities also say that cooperation is "profit sharing."
 Now that is all well and good, but it doesn't quite make clear this kind of "co-operation." What is "joint action?" "Operating together" for what "common object?"
 You say, "I can't act jointly with other fellows in Snyder. I am not in their crowd, therefore I have nothing in common with them."
 And again you say, "Profit sharing?"—yes, they get the profit, and what do I get? Shearing, instead of sharing." And I know what you mean when you say it.
 I think that "coordinate" is a better word for that which is meant when some people and some organizations say "cooperation." Again referring to authority, coordination is "to place in harmonious reciprocal relations," and of course, to reciprocate means to give and receive shares and benefits mutually. In other words, to give as you receive, and to receive as you give.
 If you look at Snyder as a bank, perhaps it will help clear up the question. You can not take money out of a bank (and get away with it) without first you put some money in; and at the same time you cannot get more out than you put in unless that which you have put in has earned it.
 Now a lot of us would be out of luck if we could not get anything out of the place where we live until we had put in—couldn't use the streets, send our children to school, have fire or police protection, couldn't go to the parks, or even to church until we had put in for it.
 You say, "But that isn't the case," but it is—our communities are just like that, except that for all those who didn't, don't or won't put in, there are those who put in for them. That has to be. You can't take unless there is something to take from. There is something to take from in Snyder, for you have been taking right along, so somebody must have put it there.
 To put in as much as one CAN against that which one naturally takes out is "cooperation" to my way of thinking, and I take the stand that the average man and woman wants to do just that. Everybody, young and old alike, detest a poor sport, a moocher, a grabby individual. Few people want to be like that, and I can't believe YOU do.
 If everybody, communally speaking, lived up to this kind of co-operation, what a heaven most cities, towns and villages would be. On the other hand, if we received only as we gave, what a terrible, haggard hamlet most of our communities would be.

(Copyright, 1929, Dyckston, Inc. Reproduction prohibited in whole or in part.)

ounds; New Mebane, 100 pounds. Staple lengths recorded over an eight-year period show the following:
 Mebane 804, New Mebane and Kasch, each 31 thirty-seconds of an inch. Acala averaged one and one-thirty-seconds of an inch. Burnett shows fifteen-sixteenths, as does New Boykin, while Sunshine averages one inch plus. For a six-year period Mebane 400 shows fifteen-sixteenths average.
 Drouth Shortens Length
 Half-and-Half over a five-year period, averages three-fourths of an inch, while Westex, over the six-year period, averages seven-eighths of an inch staple length.
 B. & P. W. CLUB MEETS

The Business and Professional Women's Club held a very interesting meeting at the Chamber of Commerce hall on last Monday evening. A large per cent of the members were in attendance.
 The business meeting which preceded the program revealed, through reports of standing committees, that all departments were actively at work to promote the aims of the club.
 The alert health committee reported flowers sent to the sick, and names were given of those members who were in need of a bit of sympathy. Two names were added to the membership list, those of Mrs. Bertna May Brooks and Miss Lillie B. Herbert.
 The publicity committee, evidencing a desire to extend its service, was authorized to issue a bulletin at the club's expense.
 It was decided that the unsold articles which had been contributed to the Christmas bazaar would be placed in a grab bag and be sold at fifty cents as instructed to make arrangements for the event.
 Membership for the club in the Chamber of Commerce for the remainder of the active year was asked for upon a schedule of \$2.50 a month dues. This indicates that the club is asking the Chamber of Commerce to be allowed to co-operate in community service.
 Daisy Smith and Katherine Thrane gave interesting reports of the reception which the Sweetwater women tendered the clubs of the district on Sunday afternoon.
 The program was in charge of three members of the health committee, namely, Louise Darby, Alma Frank and Clare Claunch. The theme being "Health," roll call was answered by responses to "One thing I do to keep well."
 Mrs. A. C. Preult was a visitor. She played the accompaniment to a vocal selection sung by Ophelia Blackard.
 The visit of Dr. Curett was a novel surprise. Evidently, the hostesses knew, from the roll call, that the safeguards to health being practiced were insufficient, and they brought this handsome young doctor, at their own expense, to prescribe and minister to those who were suffering in any way from the ills and discomforts of life. Dr. Curett proved to be decidedly a ladies' man and his understanding of the category of human ills, together with his ready remedies, were very remarkable. He performed temporary cessations from the pangs of such painful maladies as: Lean pocketbook, troublesome neighbors, mismanagement of the grocery bill, hard-headed husbands, sour temper and many other chronic diseases. Another unique thing about Dr. Curett was the striking resemblance

he bore to our voluble member, Maurine Cunningham.
 Mattie Ross Cunningham read a very able paper on the subject of "Good Health as a Business Asset." The hour of meeting was changed from seven o'clock to seven thirty, the regular time being on the first and third Tuesday evenings in each month.
 "Do they have tubs or showers at your rooming house?"
 "I don't know. I've been there only two months."

GEORGE WASHINGTON—PATRIOT

Let's Have a Gymnasium

For several years Snyder's crying need for a gymnasium has been all too apparent, but not until this year has the question really been pushed to the forefront. What a big boost to Snyder would a thing like this have been last year when the basketball tournament was held here! Every year about this time (basketball season) something is said, but so far nothing has been done. The maxim, "Easier said than done," certainly seems true in this case.
 Basketball does not receive the support it should for reasons that inevitably lead back to the question of "no gym." Football had plenty of support. Naturally, for do we not have one of the finest stadiums in this part of the state? Why can't we say the same for a gym? Many parents refuse to allow children to attend the games because this same hall is used sometimes for dances; also, there is not satisfactory heating arrangement; also, there are no dressing rooms, showers nor any sort of athletic equipment for convenience of players and visitors. The inaccessibility is another objection. The boys and girls are found, even in the coldest weather, to "suit out" at the school, get to the park the best way possible, practice, and return to the school for showers and clothes.
 Another thing, the state law requires, beginning with next year, that physical education be taught in all the high schools of the state—and oh, boy! what fun to stand out on the north side of the building and take exercise on a cold December or January morning! Of course, some say, "That's all right, taking exercise in the cold air is good for boys and girls." But you surely won't hear anyone saying things like that who has to do it!
 Gymnasiums are built by one of two methods: personal subscription and athletic funds or by bond issues. A good gymnasium can be built for only (now don't misunderstand me) between \$15,000 and \$20,000. The school bond carried by Snyder is rather light, being only about \$75,000, and \$18,000 or \$20,000 more could be taken care of easily, according to the opinion of those who are supposed to know.
 I, for one, think it a shame that a town with as much enterprise as Snyder "seems" to have, and as much on the look-out for the welfare of their children, should have overlooked so vital a factor as a gymnasium.
 A thing like this would not only benefit the present student body, but those in the years to come must be thought of. Look to the future, People of Snyder, and Boys and Girls, if you have a tongue, let it "wag."
 —By one of the Juniors.

he bore to our voluble member, Maurine Cunningham.
 Mattie Ross Cunningham read a very able paper on the subject of "Good Health as a Business Asset." The hour of meeting was changed from seven o'clock to seven thirty, the regular time being on the first and third Tuesday evenings in each month.
 "Do they have tubs or showers at your rooming house?"

UNSELFISH SERVICES FOR CITY OF MIAMI, FLORIDA, RECOGNIZED IN NEWSPAPER AWARD

MIAMI, Fla.—Concrete recognition and praise of Miami's amazing sense of civic consciousness extending from the lowest fishing guide to citizens in the highest places—a trait which has enabled the spunky southern capital of sunshine to stage the most courageous municipal comeback in history—have come to a large contingent of business and social leaders in a series of distinguished awards.
 Loyalty and meritorious service to the city on the part of its citizens who refused to allow the depression of hurricanes and the deadly ravages of the fruit fly to hurt the spirit of progress and thwart the growth of the magic, tropical playground, have captured the imagination of the nation. Characteristic of the spirit is the Miami Herald 1929 Awards for distinguished service, by which the outside world is given a graphic picture of the difficulties which have beset the business and social leaders in a series of battles for supremacy for its southern-tung throne room.
 Everybody works together in Miami.
 Presentations of gold and silver cups and plaques to six of Miami's outstanding boosters and the facts behind their selection tell the story of persistent endeavor unprecedented. Leading the list is Edward Baugh Douglas who captured the Civic Achievement Award. Throughout the year he gave all of his time and spent liberally of his fortune in placing Miami at the forefront and fighting the adversities which beset the striking advance at every turn.
 Credited with averting a catastrophe and preventing litigation between two great corporations which would ruin the plans of years, Mr. Douglas was also recognized as the moving spirit behind the success of every charitable organization in Metropolitan Miami. His efforts were judged by an impartial jury.
 Former Mayor E. G. Sewell, W. H. Combs, Mrs. A. G. McGregor, R. V. Waters and Mrs. Mamie Terrell are also recognized for their unselfish contributions to the welfare of their city. Outstanding relief work, the care of the city's children, municipal improvements, social redemption programs and other systematic donations of time, money and ideas are

 R. V. WATERS
 MRS. MAMIE TERRELL
 MAYOR C. H. REEDER

constituted in the long list of eulogies heaped upon the winning group.
 Under the new administration of Mayor C. H. Reeder Miami is booming to a degree which has restored its confidence and redeemed its place in the sun—literally and figuratively. The present season is the greatest in Miami's history with close to 800,000 visitors from all parts of the country. The influx not only equals the numbers received in Miami's balmyest year, but actually is a marked increase—a fact which the Miami Herald wisely will tell you is the result of "civic co-operation."

DERMOTT NEWS
 A party was given at the Jean Sanders home Friday night and was enjoyed by a large crowd of young people.
 Mrs. Newton Frisbie attended the bedside of her father at Amarillo Wednesday. He is suffering from a severe attack of paralysis.
 The box supper was enjoyed by a good attendance. The receipts, \$14.00, were used for purchasing a basketball.
 John Browning and Johnnie Browning received two cars of baled hay over the Santa Fe Thursday. One carload was delivered to the place known as the Joe Smith place west of Fluvanna.
 A. N. Edmondson bought two heads of steers from Claud Wilson Tuesday.
 Mr. and Mrs. Tommie McDonald and little daughter, Julia Mae, were the guests of Mr. Trueblood in Snyder Sunday.
 Brother Kelly preached Sunday afternoon. We were glad to have him with us. We hope there will be a large attendance the next time he is with us.
 We are very sorry to hear of the death of Mrs. Maud Maples. She was a good Christian woman and was loved by all who knew her. We desire to express our heart-felt sympathy to the bereaved family, relatives and many friends.

FLUVANNA NEWS

Mr. Raymond Seale of the First State Bank is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him by sending your news and subscriptions to him.

Special Church Services

Rev. George W. Fender of Arlington, Synodical Secretary for Texas and Louisiana Synods, and G. D. Robison, field missionary for Abilene and Lubbock Presbyteries, will hold special services at the First Presbyterian Church Tuesday at 11 o'clock.

Sunday school services at the Fluvanna Baptist Church Sunday were well attended, and we believe that interest is growing. Beginning Monday after the first Sunday in March, a Sunday school training course will be given. It was decided that later a B. Y. P. U. training course might also be given.

Also a fine report was given from the services at the Methodist Church.

Next Sunday will be regular preaching day at the Fluvanna Baptist Church and First Baptist Church.

Sunday School Association of this district met at Snyder Sunday, and delegates from Fluvanna Baptist Church were E. V. Boynton, E. O. Wedgeworth, Misses Chloe Collins and Alma Lemon. The next meeting will be held the third Sunday in March and will be at the Fluvanna Baptist Church.

Sickness

Wade Flournoy is reported still improving, and we hope such improvement will continue and that he will be up again soon.

Rosa Nell Stavely, who has been sick for some few days, is much better and is able to attend school again.

Mrs. A. P. Smith is reported on the sick list.

Visits and Trips

Mr. and Mrs. Jas. W. Crowley were visitors in the Bos Stavely home Sunday night.

Wyatt Sturdivant of Slaton was visiting with his parents here Saturday night and Sunday.

Mr. and Mrs. E. V. Boynton and E. O. Wedgeworth went to preaching services at Union Sunday night. They reported a large attendance and a splendid sermon.

O. S. Willis, deputy sheriff, attended the sheriff's convention held Thursday and Friday at San Angelo, and reports a very fine time while there.

Miscellaneous

Mrs. W. A. Reeder received a message this week from her daughter, Mrs. Claud Davis of Big Spring, that she was very sick.

Among the number of relatives and friends that attended the funeral services here Saturday were H. A. M. White and family of Elda, N. M.; Mrs. Lizette Lewis, Coleman; Mrs. Laura Lewis, Tahoka; Mr. and Mrs. E. C. George, Tahoka, and quite a number of people from the surrounding towns were present to show their last respect to this dear old sister, Mrs. M. K. Maples.

Compliments to our school board on the re-election of E. O. Wedgeworth as superintendent of the Fluvanna High School! We are glad to welcome him back for another school term. We feel that during his stay here much improvement has been accomplished in our school, and he with the other members of the faculty have set a higher standard in the departments of our school. Mr. Wedgeworth is also a good worker in whatever line you may put him in. He is always ready to serve. In the organization and carrying on of any thing that is for the upbuilding of the community, he is present and willing to help. After the completion of our new school building and with Mr. Wedgeworth as superintendent for another term, we are confident that Fluvanna will rank among the best schools in the country.

Mrs. Nelle Matlock was elected as tax assessor for the Fluvanna Inde-

pendent School District recently. This should be remembered by those who have not already rendered their property.

Mrs. Maples Dies

Death has again visited us and claimed for his own Mrs. Maud Maples, wife of M. K. Maples. Maud, as she was familiarly known, died in the Lubbock Sanitarium. While the doctors and nurses did all they could to restore her to health and to ease her pain, the sad hour came Friday, Feb. 14, when we had to say farewell, and her spirit returned to God who gave it.

Maud was a sweet Christian lady, a loving wife and mother, and with her beautiful traits of character and loving disposition had won a host of friends. To know her was to love her. Though she has left this world of sorrow, "Weep not, dear one, for me, for I'm in heaven waiting for thee." Maud was reared in this community and taught school here, but after leaving, they moved to Levelland where they have been teaching together. She leaves an aged mother, two brothers, one sister, a kind and loving husband, and five small children to mourn her loss. The funeral services were held at the Fluvanna Baptist Church, Rev. E. W. Leslie conducting. After a few words of consolation to the bereaved, the precious song, "Asleep in Jesus" was sung. Then the body was conveyed to the cemetery where it was laid to rest in a mound of flowers to await the resurrection morn. The writer joins all in sympathy.

"A precious one from us has gone; A voice we loved is still; A place is vacant in our home Which never can be filled." RAYMOND SEALE.

Fluvanna School News

Work on the new school building is going along nicely, and if the pretty weather continues we may have the commencement exercises in the new auditorium yet. Who knows!

The third and fourth grades, with Miss Spyskes in charge, had charge of the chapel exercises this week, and everyone agrees that they put on a very good program. The second grade will have charge of the exercises next week. We invite the patrons to be with us in chapel every Wednesday morning at the regular chapel hour, 9:30.

The Frogs Basketball Team won a hard-fought game from the Sweetwater Roosters last Friday night at Wolf Park, while the Frogs lost to the fast Hermleigh sextet. The girls team will not enter the Roby meet this week, last Friday's game being their last.

The girls basketball team will stage a vaudeville show one week from Friday night. The place of the show has not been set yet, but announcements will be out later.

MOVE NEAR AMARILLO

W. B. Rhoades and family, who have been residing on Route Two, have moved to a farm near Amarillo that Mr. Rhoades has purchased. The best wishes of the family's many friends go with them to their new home.

The proceeds will go to help pay for the girls' basketball suits, which they still owe for. The name of the show will be "The Follies of '30" which will include one-act plays, band and orchestra music, and songs.

The boys basketball team will play the Sweetwater Roosters at Sweetwater Friday night.

The debate try-out for girls debate was held last week at the high school. Miss Pauline Haynes and Laverne Farquhar will represent the school at the county meet. The senior boys started to work on track and field events this week, and things are looking good for a fine team in both divisions. They will enter the Snyder invitation meet next month.

The following items were delayed from last week:

The girls basketball team from here entered in the county tournament at Snyder last week-end and were successful in going to the finals to be defeated by Ira girls for the lass B championship. The Ira girls won the county championship from Snyder Monday night by defeating Snyder 38 to 23.

The boys team did not enter in the county meet but entered the invitational meet at Lamesa instead. The boys won fourth place at the Lamesa meet, being defeated by Lamesa 23 to 21.

The Interscholastic League try-out in debate was held at the school building Wednesday, but the writer has not learned the results of the contest.

Charley Bley is suffering from a severely sprained elbow. The injury was received at the Lamesa tournament last week. We hope to see him on his feet again in plenty of time to take part in the track and field events at the county meet.

Pauline Trussell, a member of the sophomore class, is back home from the Lubbock Sanitarium, where she underwent an operation.

CONGRESS GETS 5,000,000-NAME PETITION TO NAME "STAR SPANGLED BANNER" AS NATIONAL ANTHEM

A petition containing more than 5,000,000 names, urging that "The Star Spangled Banner" be accepted officially as the national anthem, was presented to the House Judiciary Committee at the Capitol recently by representatives of 40 patriotic and veterans' organizations. In the photograph, left to right: Rep. L. C. Dyer of Missouri; Elsie Jorss Reilly; Rep. J. Charles Lenthicum of Maryland; Capt. Walter I. Joyce, patriotic inspector of the Veterans of Foreign Wars and author of the petition.

FORMER NEW YORK GOVERNOR INTERESTED IN SCURRY CO. LEASE

Former Governor Wm. Sulzer of New York state is among the owners of the Stanton Oil Company, which holds leases in the northern part of Scurry County. "Sourdough Bill" as Gov. Sulzer is known to many friends, at odd moments is considered somewhat of a poet, and writing in the Culture Forum, a New York publication, he pens the following bit of verse that is named

Dr. Leigh, Voted Norfolk's Most Helpful Citizen, Urges Consolidation to Make City South's Second Largest

NORFOLK, Va.—Consolidation of Norfolk, Portsmouth, and South Norfolk was recommended by Dr. Southgate Leigh, noted surgeon, former president of the Norfolk-Portsmouth Chamber of Commerce when he was presented with the Cosmopolitan Club's Distinguished Service Medal for 1929 as the citizen who did most for Norfolk during the year. The presentation was made at a banquet given in honor of Dr. Leigh at the Norfolk Country Club.

Skyscrapers of Downtown waterfront at Norfolk, Va., where 25 years ago only piles of oyster shells were to be seen. Inset Dr. Southgate Leigh.

Dr. Leigh is one of the country's most eminent surgeons, a founder of the American College of Surgeons, president of the Medical Society of Virginia and of the Tri-State Medical Ass'n of Virginia and the Carolinas. In acknowledging the bestowal of the medal Dr. Leigh paid tribute to the progressive men and women whose efforts for the community merited recognition. He praised the efforts of J. S. Beth Taylor, Mayor and president of the council, and Louis Windholz who had put his shoulder to the wheel in establishing the Cavalier Hotel, Virginia Beach, erected by the people at great expense, as one of the most attractive and beautiful tourist hotels in the world.

Norfolk's popular sons returned home after completing his studies under the masters abroad and set forth upon a brilliant career in his chosen profession. In the midst of a remarkably fast developing practice, which rewarded his great skill, he caught a vision. He gave him faith. He has stood fast in the faith and followed his vision. But he knew that "faith without works is dead" and a dreamer is of no avail unless he shall become a doer.

TO THE CHURCHES OF SCURRY COUNTY

Greetings from First Church of Christ and its minister at Snyder, through God the Father and our Lord and Savior Jesus Christ, our Prince: In behalf of our mutual undertaking and common prayer that the world may be made one in Christ Jesus.

Let it be known that we, as a communion of believers, seeking the full and complete truth as revealed in and through Jesus of Nazareth, during the past three years, have been celebrating in the spirit of worship the nineteenth centennial of his personal ministry, and shall so continue to June eighth, next, at which time, as a brotherhood of the world, we shall celebrate His sending of the Holy Spirit as our guide in things spiritual according to promise.

From now until that time our common prayer shall be that we may be led to the full and complete light which Christ brought into the world, if perhaps we be not already in possession of same, and that at the instance of God in His own good time the walls of partition between all contending groups of professing believers be broken down through the knowledge and reception of the truth, knowing that said walls are false and bulged of error, knowing too that only the truth shall make us free.

error, knowing too that only the truth shall make us free. In this behalf we petition and pray all churches and individuals of whatever faith—all true seekers after Christ—to join hands with us to this end, each in his own way, studying the word for all truth, as revealed in and through Christ Jesus, paying particular attention to the Acts of The Holy Spirit (Apostles) and the special letters and praying that the Scriptures may be unraveled and made plain to all such that they may be received in full and complete submission to whatever truth may be found therein and that they may be so taught by all as Jesus Himself would teach them. And may this period of celebration come to a close—not an end—with every true member of the body of Christ at the Lord's Table on this Pentecost as on that Pentecost nineteen hundred years ago, June 8, and may all continue steadfastly as recorded in Acts 2:42.

THOS. M. BROADFOOT, Minister. FRITZ R. SMITH, Chairman. A. J. CODY, Secretary.

FRIENDS ANNOUNCE POPULAR MAN FOR CO. COMMISSIONER

When a man's friends announce him for office, likewise paying the announcement fee, it is a rare happening. But such is the case of W. A. Johnson, commissioner of Precinct No. 4, who has been serving the past five years in that capacity. A group of Mr. Johnson's boosters came to the Times-Signal office Saturday and asked to place his name on the official list of the paper.

MOOR NO. 1 WELL DRILLING AT 3950 FT.

E. L. Smith et al's No. 1 Moor, Scurry County wildcat test, which has been more or less prominent in eyes of the oil industry for the past three weeks, was drilling ahead at 3950 feet Tuesday noon.

No. 1 Moor is located 1,320 feet from the south and west lines of section 379, block 97, H. & T. C. Ry. Co. survey. The well first attracted attention when 500,000 cubic feet of gas was encountered at 1,510 feet and then again jumped back into the spotlight of attention with a showing of oil at 2,215 feet.

See Friday Game

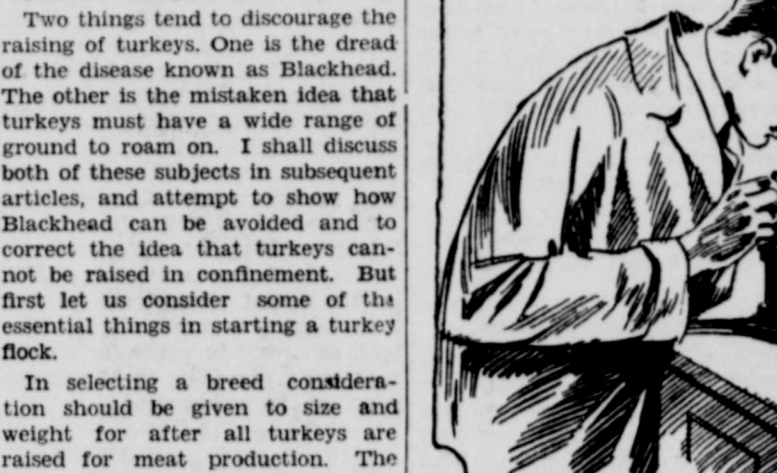

The Times-Signal editor noted the following men at the Snyder-Big Spring game there Friday night: A. A. Bullock, Roy Strayhorn, Charley Harless, Ivan Dodson, Watt Scott, Marion Newton, and Ralph Hicks. They witnessed a game in which Snyder took a real fall-out of their Howard County brethren.

How to Raise Poultry By Dr. L. D. LeGear, V. S., St. Louis, Mo. Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Extensive authority on poultry and stock raising. Nationally known poultry breeder. Noted author and lecturer.

How to Start a Turkey Flock

The Way to Begin is to Begin. But a Few Cautions Will Help Overcome Fears of the Over-cautious. Editor's Note—This is another story in a series of stories on poultry raising written by the well known national poultry authority, Dr. L. D. LeGear, V. S., of St. Louis. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

Science Plays Its Part

Every phase of the canning industry is discussed during these four days, and there are many addresses by eminent scientists who have been drawn into this great industry to contribute their quota of knowledge as to the best possible ways of processing canned foods. Among the speakers at this convention last year were representatives of the Institute of Economics of Washington, D. C., many from the various scientific divisions of the United States Department of Agriculture, of Purdue University Agricultural Station, of Iowa State College of Agriculture, of the University of Maryland, of Michigan State College and many scientists in the employ of the extensive Research Laboratories which the National Canners' Association maintains in Washington, D. C., and in San Francisco, Calif.

Breeder-Feeder Association Is Doing Fine Work

Harrie Winston of Snyder on Board of Directors of New Body

The Texas Breeder-Feeder Association is less than 6 months old. First organized at Midland Sept. 7, 1929, and organization perfected at Dallas, Sept. 18 by the choice of a full corps of directors, it has made its influence felt in several ways.

The cattle sold went into feedlots from which many of them will come to the Fort Worth Stock Show in March. A new impetus has been given to cattle feeding over a large part of the state, ranging from the Gulf Coast to the Plains, in which a number of farmers are demonstrating that cattle feeding is a valuable adjunct to cotton growing.

Many letters received from all parts of the state endorse the plan of feeding Texas feeds to Texas cattle, thus bringing back to the crop farm the element of variety, full utilization of time, and profitable use of a part of the land in feed grains and forage crops.

Executive Committee

W. L. Pier, Fort Worth; A. L. Ward, Dallas; J. M. Jones, College Station; and Otto Herold, Dallas. The officers of the association automatically become members of the executive committee.

Board of Directors

J. I. McGregor, S. P. Lines, Houston; John M. Gist, Odessa; J. A. Moore, Grand Prairie; W. W. Bogel, Marfa; John P. Lee, San Angelo; A. B. Conner, College Station; Van Zandt Jarvis, Fort Worth; R. J. Kinzer, secretary, American Hereford Association, Kansas City; Albert Mitchell, Albert, N. M.; Henry C. Barlow, McKinney; R. J. Cook, Beeville; D. H. Perry, Robstown; J. W. Mann, Waco; Arthur Miles, Moshem; Charles C. Malone, Plainview; J. M. Crews, Childress; T. A. Kinard, Coahoma; Victor H. Schöffelmayr, Dallas; J. W. Middleton, Greenville; Harrie Winston, Snyder; and Jack Shelton, Luling.

Purposes of Association

The objects of this Association may be briefly expressed as follows: To encourage a sound type of crop and livestock farming such as has proved profitable to non-cotton states.

To point the way to the only feasible plan of cotton acreage reduction by showing how to get an equal or greater income from the acres released from cotton, and to finally bring all cotton acres to a higher production. To combine the utilization of waste land which may be made into pastures and the waste product of land set in Johnson grass and other grasses now largely lost, with the grain products of a portion of the farm, and with a portion of the cottonseed products that are now shipped to other states and countries, in the production of high class meat products, with which the Southwestern market is now being supplied from the Corn Belt states.

assist in securing more extensive investigation in the use of Texas feeding stuffs, the results of which, as they are adopted by Texas farmer-feeders, will add to the annual income and the permanent productive value of their farms.

In these objectives many people and institutions have joined. Farmers, ranchmen, county agents, vocational teachers, bankers, cotton seed crushers, associations, the railroads, the leading agricultural journals, and the research and extension divisions of the A. and M. College, are among the membership already enrolled and lending their aid to the movement. There is no fee for membership in the Texas Breeder-Feeder Association. Every one interested in promoting its objectives is invited to join and lend his influence to the building of a more prosperous ranch and farm life in Texas.

BILL THE BARBER SAYS The only way to really please a woman is to lie nobly about her charm and beauty.

Frigidaire's Newest Achievement in Food Preservation the HYDRATOR

This new and exclusive Frigidaire feature—the HYDRATOR—enables you to have moist cold and dry cold temperatures in the same cabinet. The Companionate

Newness of the Modern

THE COMPANIONATE

By Duncanhunter Architect New York

That the modern mode in architecture is new in this country is not to be disputed...

Today we find modern design on every turn, and the unique freshness it offers is most decidedly welcome...

adays we eat and drink where and when we like, so modern furniture is designed to meet this need...

The Companionate is a modern house, modest in size. It lists: Basement: Recreation room, laundry, storage, boiler room and coal storage.

HOUSE H-113

with coat space, combined living and dining room, two bedrooms, kitchen and bath.

Exposure: The plans as shown are for a lot facing south or west.

Lot size: House frontage, 25 ft.; side clearance, left, 10 ft., right 5 ft.; lot frontage, minimum 40 feet.

Construction: Frame, with stucco finish, front of brick; roof, slate; foundation, concrete; windows, steel casements; doors, wood to special details.

Interiors: Floors, wood for linoleum finish; walls, plaster; kitchen, palster; bathroom, composition tile; Steam heat, gas and electric wiring. Cubature, 13,600 cu. ft.

Complete working plans and specifications of this house are available for a nominal sum. Address the Times-Signal and refer to House H-113.

SOCIETY

ELABORATE VALENTINE TEA GIVEN

IN MEMORY OF MRS. MATTIE WATTS

We loved her! We loved her face, which reflected an utmost faith in God. We loved that spirit that kept her buoyant even after her paralysis affliction.

Mrs. Mattie L. Watts, age 75 years, 8 months and 20 days, was born April 10th, 1853, and died December 31st, 1929. She was born at Bainsboro, Tennessee; converted to the Christian religion at the age of twelve years, and joined the Methodist Church, of which she was a loyal member and a faithful worker until affliction of paralysis rendered her a cripple in 1924.

TOURNEY SCORES

Final scores of the western district eight basketball tournament at Big Spring last week-end were as follows: Colorado 32, Divide 20, final championship game.

Vary Your Vegetables

NOTICE TO DEBTORS AND CREDITORS

THE STATE OF TEXAS, COUNTY OF SCURRY.

To those indebted to, or holding claims against, the Estate of G. J. Morgan, Deceased.

The undersigned having been duly appointed administrator of the Estate of G. J. Morgan, deceased, late of Scurry County, Texas, by Horace Holley, Judge of the County Court of said County, on the 18th day of January, 1930, during a regular term thereof, hereby notifies all persons indebted to said estate to come forward and make settlement, and those having claims against said estate to present them to him at his residence in Snyder, Scurry County, Texas, where he receives his mail.

This the 3rd day of Feb. A. D. 1930.

J. A. MORGAN,
 Administrator of the Estate of G. J. Morgan, Deceased. 34-4tc

CITATION BY PUBLICATION

THE STATE OF TEXAS.

To the Sheriff or any Constable of Scurry County, Greeting:

You are hereby commanded to summon John D. Lundy and J. Henry Lundy, and the unknown heirs and assigns of John D. Lundy and J. Henry Lundy by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Scurry County, to be held at the Court House thereof, in Snyder, Texas, on the third Monday in March, A. D. 1930, the same being the 17th day of March, A. D. 1930, then and there to answer a petition filed in said Court on the 28th day of January, A. D. 1930, in a suit, numbered on the docket of said Court as No. 2578, wherein J. C. Rucker is Plaintiff, and John D. Lundy and J. Henry Lundy and the unknown heirs and assigns of John D. Lundy and J. Henry Lundy are Defendants, and said petition alleging:

That on the 27th day of January, 1930, the Plaintiff was and still is the owner in fee simple of lot 2, in block 14, of the Lundy Park Addition to the town of Snyder in Scurry County, Texas, as the same appears on the official plat of said Addition of record in Book 1, Page 298, Deed Records of Scurry County, Texas; that on said day he was in possession of said premises, that afterward on the 28th day of January, 1930, the defendants unlawfully entered upon and dispossessed plaintiff of such premises and withhold from him the possession thereof.

Plaintiff further alleges that he and those under whom he holds said property have been in possession thereof for more than 25 years next continuously prior to the date of the filing of this suit, holding, claiming and enjoying the same under deeds duly executed and of record in Scurry County, Texas, paying taxes thereon from year to year as they accrue, that in addition to the paper title herein plead, the plaintiff and those under whom he holds are seized of a good title to said premises under and by virtue of the 2, 5, 10 and 25 year Statute of Limitations of this State.

Confectioner's Art Now Depicts Model Hotels and Ships

The amazing progress achieved by the confectioner and his aides since our grandmothers first whipped up icing for their little home-made cakes can be judged by the two pictures shown above. Sugar is no longer used merely to sweeten; it has become a medium in which even architects and shipbuilders can construct scale models of their handiwork. Above, for instance, is the photograph of a model, done entirely in sugar, of the new Royal York Hotel in Toronto, Canada, the largest hotel and tallest building in the British Empire.

This fine piece of work, which stands 42 inches in height, has been approved by the hotel's architects as being an exact model of the Royal York and was recently displayed at the Confectioners Exhibition in London, England. The man responsible for this sugar sculpture is Harry Astley, chief confectioner of the Canadian liner Empress of Scotland, a model of which vessel is also shown above. Mr. Astley is a veritable wizard when it comes to sugar creations, and several days before the Empress of Scotland sails from New York on her annual Mediterranean Cruise, he constructs a replica of his vessel even to her red and green port and starboard lights and her masthead lights, and this model liner, illuminated by tiny electric bulbs inside, makes a pretty and realistic picture when displayed with select viands, cakes, salads and other masterpieces of the culinary art in the Empress' main dining saloon on sailing day. At dinner, during the course of the voyage, the saloon lights are extinguished for a moment so that the passengers can see just what the illuminated Empress of Scotland looks like to those aboard another vessel passing her at night.

Plaintiff further alleges that the defendants and each and all of them are asserting some sort of claim to said premises unknown to this plaintiff.

WHEREFORE, this plaintiff prays that the defendants be cited to appear and answer herein, and that upon a hearing hereof, he have judgment for the title and possession of the above described land and that he be quieted in his title and possession thereof, and for other and further relief to which he may be entitled.

Herein fail not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Snyder, Texas, this the 28th day of January, A. D. 1930.

(Seal) LOUISE E. DARBY, Clerk,
 District Court, Scurry County. 35-4tc

NOTICE TO MACHINERY DEALERS AND MANUFACTURERS

Notice is hereby given that the Commissioners' Court of Scurry County will receive bids at any time up to ten o'clock a. m. Saturday, Feb. 15th, 1930, on one twenty Austin Western Dual Drive Maintainer.

All bids must be in sealed envelopes and addressed to Mabel Y. German, County Clerk, Snyder, Texas, and must be accompanied by certified check in the amount of 5 per cent of the price bid.

Done by order of the Commissioners' Court this the 23rd day of January, 1930.

HORACE HOLLEY,
 Presiding Officer.

PROCLAMATION OF CITY ELECTION TO BE HELD IN THE CITY OF SNYDER, TEXAS, ON TUESDAY, APRIL 1ST, 1930.

An election was ordered to be held in the City of Snyder, Texas, on the first Tuesday in April, 1930, same being the 1st day of April, 1930, for the purpose of electing a Mayor, City Marshal and Tax Collector, City Recorder, City Attorney, City Secretary and Treasurer and three Aldermen as follows:

The election in Ward No. 1 (North Ward) will be held at the Snyder Tailoring Company. W. T. Baze has been appointed as presiding officer of the election in the North Ward, the qualified voters in the said Ward will vote for one alderman to succeed Ed J. Thompson, retiring alderman.

The election in Ward No. 2 (West Ward) will be held in the Justice of the Peace Court Room in the Court House, and J. C. Maxwell has been appointed presiding officer of the election in the West Ward, and the qualified voters will vote for one alderman to succeed L. T. Stinson, retiring alderman.

The election in Ward No. 3 (East Ward) will be held at Wenninger & Elza place of business on the east side of the square. A. P. Morris has been appointed presiding judge of the election in the East Ward, and the qualified voters will vote for one alderman to succeed J. S. Bradbury.

Each presiding officer shall appoint a retiring alderman.

point one judge and two clerks to assist in holding the election presided over by him, and shall conduct the election as prescribed by the statute governing city elections.

All male persons and female persons who shall have resided within the corporate limits of the City of Snyder, Texas, six months next preceding said election and are qualified voters in said election and are

qualified voters under the laws in this state, are eligible to vote in said election and shall have the privilege of voting for Mayor, City Marshal and Tax Collector, City Recorder, City Attorney, City Secretary-Treasurer and Aldermen as above set out in their respective wards.

H. G. TOWLE,
 Mayor, City of Snyder, Texas.
 A. C. PREUITT,
 City Secretary. 36-1tc

CONSECRATION DAY AT LOCAL CHURCH

Next Sunday is to be a red letter day at the First Church of Christ. It is to be Special Consecration Day. Both morning and evening services will be devoted to this work. The song service will be specially adapted and sermons specially prepared to this end. Sunday School and Christian Endeavor will also play their part by stressing preparation and duty well done. All teachers and leaders are requested to put forth special effort to secure record attendance and devoted service. Prepare to present your lessons in some new and interesting way that will anchor its fundamental truth that it may bring its special spiritual benefit. Nelson's crimplie statement, "England expects every soldier to do his duty," expresses Christ's attitude toward every soldier of the cross. Shall I disappoint Him in my portion? Let your pew be not found empty.

THOS. M. BROADFOOT,
 Minister.

HOLLYWOOD SETS STYLES

Paris, noted for its bizarre styles, is conservative alongside Hollywood.

It certainly is the surprise of my life to be living in Hollywood, but as the whole world is reported to be trying to get here to live, I will try to be satisfied, the I very much prefer Long Beach. My nephew, Gary Allen, being a movie actor, and my niece in the bond department of the Bank of Italy, with a sister in the realty business in Los Angeles, and all having to commute twice daily, necessitated the move. It is lovely.

 Gentlemen:

Comic Valentine Abrocities Out; Lovers Now Say It With Sweets

CHICAGO—St. Valentine customs have changed. We're back again practically where we were when young gentlemen with sidewalk skirts, colored cravats, and bootstraps turned finely-shaded hands to home-made verse (dust-heart, yearn-spurn) on paper lace, also home-made. "We've gone sentimental," says Ferdinand A. Bunte, who, as a manufacturer of the principal modern medium of Valentine exchange, keeps track of these things.

"More than 16,000,000 pounds of candy will be required by Americans of all ages to do homage to the patron saint of lovers on February 14," the candy manufacturer estimated.

"The discoverer, not so many years ago, that the true sentiment of Valentine's Day could best be expressed by sweets, outlasted the death-knell of the comic valentine atrocity and revived a taste for the sentimental.

"The same discovery also made obsolescence of the day more general. One needn't be in love to appreciate a big red box with true-lovers' knots, arrows and turtle-doves outside and chocolates, or amusing lozenge-hearts with mottoes, inside.

"As a matter of fact, the present fashion of making Valentine gifts conforms more closely to the original custom than does the mere sending of messages. Chaucer and other chroniclers of early English manners refer to the exchange of gifts on February 14. Many antiquarians believe Valentine's Day originated in the Roman festival of the Lupercalia, which occurred in February and which was celebrated with an exchange of gifts.

here, and we are so splendidly located—just out of Los Angeles, and have such a lovely bungalow in half block of Hollywood Blvd., and wonderful homes and apartments all around us, and right now I can look out of our living room window and see some of the lovely hills, but this change in address has caused me to miss getting last week's paper, and I certainly missed it. What I started to do was send you my new address, but I've almost made it a letter.

My new address is 1629 North Kenmore, Hollywood, Calif.

With best wishes to the Times-Signal.

Sincerely yours,
 MRS. MARY B. STERRETT.

P. S. I've read the Signal for many years, and there is no paper I miss more, as I like to know what is going on there, and also find much of interest regarding my dear old Snyder friends. Have been unable to make my usual visits there on account of mother's illness.

Do you ever stop to think

EDSON WAITE
 Snyder, Okla.

THAT as industry continues to grow and take on the wider scope to which it is destined, so will the true spirit of mutual understanding go along with it until the whole community works as one to make the entire community more prosperous.

THAT cooperation is the factor

that brings this desired result.

That all should have faith in the present and in the future of the home community.

THAT this faith, kept alive, is the spirit of progress.

THAT the lack of home loyalty has done much to keep many cities back; it is bad for the city.

THAT buying at home should be preached in every community. It shows loyalty.

THAT no person, single-handed, can make a city a progressive city. It takes the undivided support of every citizen.

WHERE THE CITIZENS SHOW COURAGE TO BE UP AND DOING, AND THEN DO IT, THEY GET WONDERFUL RESULTS.

Where is that groundhog?

Ft. Smith Man, 79, Ill 5 Years; Konjola Scores

Rheumatism And Stomach Trouble Quickly Respond To Action Of New Medicine

MR. JAMES F. SIMPSON

"Although seventy-nine years of age I found quick relief in Konjola," said Mr. James F. Simpson, 1000 North Sixth Street, Ft. Smith, Ark.

"For five years I suffered with rheumatism of the worst sort. The pains settled in my back, at times driving me nearly mad. Three years ago my stomach began trouble me and I grew steadily weaker from this ailment. Intense distress followed the simplest meals, and food never tempted me.

"In desperation I learned to Konjola, for I knew many whom it had helped. Almost from the beginning of the treatment with this medicine, my health improved. The ill effects of rheumatism grew less and finally all pain from this ailment had ceased. My stomach yielded no less promptly, and I soon began eating hearty meals without distress of any sort. My appetite improved, and my general health is better than it has been in years."

Konjola is sold in Snyder at Stinson Drug Co., and by all the best druggists in all towns throughout this entire section.—Ady.

Rabbit's Foot Drives Him Luck: He's Far Favorite of Fashion

from Australia, New Zealand, Japan, China, Belgium, and France, the chief rabbit-producing countries, though America produces large quantities annually.

"The rabbit industry in America is as yet relatively undeveloped, considering its potential importance. The use of American rabbit skins dates only from recent years, although domestic rabbits are as fine as those of Europe and Asia.

"The greatest commercial use of rabbit-skins is for women's felt hats. All wild rabbit skins are used for felt, and large quantities of tame rabbit-skins as well. In addition, the skins of the tame rabbits are used for fur garments, a variety of trimmings on cloth coats, glove linings, and robes.

"The supply of wild rabbits in the country is varied, including two kinds of jack rabbits, the cottontail, snowshoe, and marsh rabbits. Tame rabbits produced in substance here are the white, fawn, chinchilla, grey, and mixed rabbits. The latter include many variations. Breeders are constantly experimenting in the production of new species of rabbits which will fill fashion demands."

Rabbit shipments from the raw fur house to the manufacturer are made in car-load lots, shipments of several hundred thousand skins at one time being an average single consignment.

These shipments are gathered together, graded, and grouped according to size, color, quality, and condition of fur, from thousands of small shipments from all parts of the United States.

Rabbit-skins, both wild and tame are obtained from trappers, breeders and from butchers who purchase the tame rabbits and sell both meat and skin.

The leopard may not be able to change his spots!

But that's where the lowly rabbit has it all over the "Big Cat." For the rabbit is the most versatile of fur-bearing animals, according to Stanley T. Keshen, vice-president of A. B. Shubert, Inc. His coat is changed to suit the needs of fashion—and the rabbit skin is used extensively in the popular imitations of seal, beaver, ermine, leopard, fox, chinchilla, squirrel, or any one of a dozen furs.

"The uses for rabbit skins are more constant and varied than for any other fur in this country," Mr. Keshen said.

"So important are they to manufacturers that more than one hundred million rabbit skins are imported.
