A classic example of misreading occurred when a clerin a note that was sent up to be read from the pulpit. The information was to the effect that "a husband going to sea, his wife desires the prayers of the congregation," but as it came from the lips of the clergyman, it read: "A husband going to see his wife, desires the prayers of the congrega-

The "straw vote" to be taken Monday, May 5th, in regard to the Citizens' Electric Service Co. is eliciting no end of comment. Advertising in this issue tells some of the fundamental facts of the case which is left entirely in the hands of local voters to decide the issue as they think best.

Miss Brentz Anderson will represent Snyder and Scurry county in the "My Home Town" contest at the West Texas Chamber of Commerce meeting at Abilene, the last three days of May. Prizes of college scholarships, \$200.00 and the Etherridge Cup will go to the winners, and the "Velvet Hammer' congratulates Miss Anderson for having won first honors for Senior Scurry County having won first honors for Senior meet last week, only to be ruled playlet at Sweetwater, but nevertheless the experience gained in the district meet will stand her in good stead for the larger and greater effort at Abilene. Here's wishing Track, Field and Literary her every success. We'll all be right with her to boost and cheer her on to the championship.

Snyder is still asking for the new and medern hotel. Snyder representatives at the WTCC at Abilene next month should go prepared to tell the world that we need a new hotel, as well as sticking a piece of dy. namite under Katy officials to bring that dead-end from Rotan on over to the capital of Scurry county.

SNYDER, TEXAS, THURSDAY, APRIL 24, 1930.

PANHANDLE EDITORS RAP PHONE CO. AT MEET Severy County Will Boost New Plains To Gulf Severy County Will Boost New Plains To Gulf

SCURRY COUNTY WILL SEND FOUR BOYS TO BIG MEET

FORTY-THIRD YEAR

Scurry county is getting right in the traces when they can send four high school boys to the state track and field meet at Austin. Snyder High gets three places and Fluvanna one

With the superb work of Mc-Clinton and Howell, both of whom won first places at Abilene, Saturday, and Huestis, who tied for second honors in the pole vault, Snyder High will have three real boys who will

make their mark at Austin. In Charley Bley, Fluvanna, that school can boast of having one of the fastest men ever to step on any cinder track.

Dates for the meet at Austin

out of the contest, owing to a preword with the One-Act Wins High Honors ing, and the convention adjourned with the 100 newspaper editors

South's Cotton Income

1923 Crop, 10,000,000 Bales, Brought....\$1,600,000,000 1926 Crop, 18,000,000 Bales Brought...\$982,000,000

Southern Farmers Planted 48,730,000 Acres Of Cotton in 1926 and Planted 37,123,000 Acres To Cotton in 1923

It is plain that a gain of 507,000 acres in cotton brought Southern farmers a loss of \$168,000,000 in actual cash, while they made the world a present of the labor, cost of seed and land rental on 11,000,000 acres of land in 1926 from which not a penny of profit was derived.

TEXAS ALONE LOST \$300,000,000 ON THE RECORD CROP OF 1926! TEXAS CANNOT AFFORD TO LOSE \$300,000,000 AGAIN THIS YEAR!

Yet Texas is the key to the cotton situation. It does not matter what the rest of the world may do, Texas can make the cotton farmer rich or poor this year. If Texas plants 18,000,000 acres in cotton this year, the price is likely to be around 10 cents per pound. If Texas plants 15,000,000 acres in cotton, the price is likely to be around 20 cents per pound.

It is up to Texas farmers whether they get 10c or 20c for Cotton, and it is largely up to the bankers and business men of Texas whether the State is rich or poor when the 1930 crop shall be ginned and sold.

THE NEW FORD COUPE

A beautiful closed car, distinguished by its substantial grace of line and contour. A particularly good car for physicians, business executives and salesmen because of its comfort and reliability. The Triplex shatter-proof glass windshield and the fully enclosed four-wheel brakes contribute to the unusual safety of the new Ford.

OUTSTANDING FEATURES OF THE NEW FORD

New streamline bodies . Choice of colors • Rustless Steel • Triplex shatter-proof glass windshield . Four Houdaille double-acting hydraulic shock absorbers . Fully enclosed, silent four-wheel brakes . Extensive use of fine steel forgings · Aluminum pistons · Chrome silicon alloy valves . Three-quarter floating rear axle . Torque-tube drive . More than twenty ball and roller bearings . Sturdy steelspoke wheels • 55 to 65 miles an hour • Quick acceleration • Ease of control . Reliability . Economy · Long life.

Beauty of line and mechanical excellence

BEAUTY has been built into the graceful flowing lines of the new Ford and there is an appealing charm in its fresh and varied harmony of color. Yet more distinctive even

than this beauty of line and color is its alert and sprightly performance.

As days go by you will find that it becomes more and more your favorite car to driveso responsive, so easy to handle, so safe and comfortable that it puts a new joy in motoring.

The city dweller - the farmer - the industrial worker - the owner of the spacious two-car garage in the suburbs - to all of these it brings a new masure of reliable, economical service.

Craftsmanship has been put into mass production. Today, more than ever, the new Ford is "a value far above the price."

FORD MOTOR COMPANY

TESTEI ONOCO Gasoline is actually tested dozens of times in the process of refiningbut it is called Triple Tested Gasoline because of all of these tests converged into three main tests--for starting--acceleration--power! These are the things that motorists want---and are entitled to get---from the gasoline they use. A gasoline may be ever so powerful-but if is not volatile enough to start the motor quickly and give rapid acceleration in traffic---it will not satisfy today's demands. An easy starting, swift acceleration, are mere snares if they are not backed up with power for every need--economical power!

CONOCO Gasoline meets all three of these important practical tests---that's the reason so many people insist

Jim Bodine of Colorado.

Three Big Problems "Farmers must meet three big problems-that of economic production, that of controlling the supply and that of controlling the market by keeping the supply within the demand, by producing bet. ter staple cotton, and by getting into an organized marketing plan," Moser said in his talk.

Farmers produce one-half the nation's wealth," he said, "and at the same time have the lowest standard of living. They are destroying themselves economically by competition. Their only relief is a cooperative marketing system."

J. L. Carrell of the Union community stated Tuesday morning Texas Our Texas while at the Times Signal office, "that 500 Scurry county men should have attended this meeting at Sweetwater, especially more of the business men.'

DON'T HAVE A CLEAN UP CAMPAIGN THIS YEAR!

Having a clean-up campaign in the spring of each year is like waiting until Saturday night to take a bath.

to throw off our lethargy. Old Mother Nature wakes up in the spring, and as we are her children we do the same; but Nature measures her days and weeks and years by an altogether different yardstick.

What is a year to Dame Nature is a minute-even less- to us. If she cleans up but once in our year, that should mean to us never to let up. Therefore do not have a clean-up week this year-start now and never quit having it.

If you wish to do something to help make Snyder look good, take a walk around your business district and count all the blazen, brazen, screecring, homely wall signs you see on the sides of buildings. Stand back andtake a good look at them, and see if you can find anything about them that gives you a feeling of pleasure, enjoyment, satisfaction or anything else that would make you feel like you would want to live in Snyder. Take another look at them, and picture how much better the Lady Zella Lee of the House of Ad- A crowd of about 500 witnessed the entire business district would appear if they were eliminated.

Then look at all the signs that are hung in front of various stores. Some little, some big, some hung high, some low; many of them unpainted and forlorn others all battered and torn, creating a regular crazy Lady Charlene of the House of conglomeration that is enough to drive a sane person coo coo if he stands and looks at the picture long enough.

Anything you do to help clean up the business district of Snyder Princess Juanita and Prince Oryou are doing for yourself. If you own residence property, a poor look- ville from Canyon; Princess Ruth ing, unkempt business district directly depreciates the value of your property; but you do not have to be a property owner to feel the effect. If you live in the town, you make your living directly or indirectly there, and anything that tends to detract or drive business of any kind Independence; Princess Helen and away from the town, or keeps new business from being attracted, costs

VOTERS OF SNYDER!

The Whole Question To Be Voted On Monday, May 5th Is Whether or Not the Snyder City Council will Grant The CITIZENS ELECTRIC Service Co. The Right To Invest

\$150,000 to \$175,000

in a new modern light and power plant to be built in Snyder and which the citizens may buy themselves any time within ten years.

Here are Facts from both sides presented for the approval of the entire Citizenship of Snyder

is the franchise that the City of Snyder now has with the Texas Electric Service Co., or West Texas Electric Co., as noted in the franchise.

ON THIS SIDE

BE ORDAINED BY THE CITY COUNCIL OF THE CITY OF SNY-

SECTION 1. That there is hereby granted to WEST TEXAS ELEC-TRIC COMPANY, its successors and assigns herein called the grantee, the right, privilege and franchise until January 1st, 1976, to construct, maintain and operate in the present and future streets, alleys and public places of the city of Snyder, Texas, and its successors electric light and power lines with all necessary and desirable appurtances including underground conduit, poles, towers, wires transmission lines and telegraph lines

City Council.

SECTION 2. Poles and towers shall be so erected as not to unreasonably interfere with traffic over streets and alleys the location of all poles and towers or cond it shall be fixed under the provision of the street and alley committee, but not so as to unreasonably interfere with the proper operations of

SECTION 3. The service furnished hereunder to said city and inhabitants shall be first class in all respects considering all circumstances and shall be subject to such

We want to specifically call your attention to the fact that no

SECTION 4. That the works, poles, wires, be and are hereby granted the cables and all necessary apparatus right, power and authority for a and appurtenances of the Grantee period of 25 years, from and after herein its successors and assigns the date upon which this franchise shall be placed and erected in conis granted to acquire, own, con_ formity with the ten existing orstruct, and operate within the City dinances and regulations of the and power system for the purpose and in such manner as not to in-of generating electricity and for terfere with the use of streets, distribution and sale of the same to avenues, alleys, parks, squares and

streets, avenues, parks, squares and other public areas in the City of Snyder, Texas, is hereby expressly reserved to the said City of Snyder,

SECTION 5.

As a part consideration herein as well as a part of the consideration for the granting of this franchise the Citizen's Electric Service Company agrees to the following con-

1. The Citizen's Electric Service Company, its successors and assigns, shall at all times maintain good, efficient and adequate machinery, lines and equipment and to fur nish the said City of Snyder, and the inhabitants thereof, at all times with an adequate supply of electric current for lighting, heating and power and for such other purposes as electricity may be commonly and properly used 2. It is agreed that upon the

complaint of any consumer, the Chief Inspector, to be hereinafter appointed by the City Council of the City of Snyder, shall make a voltage test and should such test disclose the voltage to be as much as ten percent (10%) below that specified by the manufacturer of the lamp, motor, or electrical appliance in use by such consumer then in that event, an immediate report shall be made by such inspector to the Grantee who shall take immediate steps to correct such defects and upon making such inspection and finding the City Inspector shall furnish both the consumer and the grantee a meter reading showing the time such reading was made. When the Grantee has notified the Inspector that such condition has been corrected he shall immediately make another reading at the expense of Grantee showing the time when such reading was made, a copy of which shall be furnished both the consumer and the Grantee, and the consumer shall not be liable for any current used between such read_

3. The Grantee agrees to make extensions of its electric service to within the present corporate limits of the said City, but in the event of the extension of the corporate limits of the said City, the Grantee will make extensions of its electric service on the following

Extensions of electric service will be made for one or more consumers when not required to set more than two (2) poles for each consumer, but if greater extensions are demanded the Grantee may require a deposit equal to the nece cost of such excess and the de-positor shall be entitled to a credit for one half of his monthly bill, as well as one half of the monthly bill of all other persons served by such extentions until the entire deposit has been returned.

4. That the Grantee shall furnish and supply the City of Snyder with electric current for the pur. pose of pumping City water and lighting its city hall, streets, ave-nues, parks, and playgrounds at the regular municipal rates as hereinafter specified in Exhibit "A" attached hereto and made a part

one calendar month. then, and in the event, the said City shall be entitled to a cash discount amount owing by said City to Grantee for such energy used and consumed during that month, compiled on the basis of regular municipal rates as herein provided, to the value of the amount set forth opposite said amount consumed and shown under column two as follows, to wit: Column 2 Column 1 21,000 KW \$100.00 31.000

41.000 200.00 51,000 250.00 5. No electric line shall be run into or through the City of Snyder carrying or capable of more than 4600 volts without a special permit has been first obtained from the City Council of the City of Snyder, and such City Council shall determine the route to be followed by such line and make such other requirements as may seem proper to safeguard lives, property, and rights of the inhabitants of such town. SECTION 6.

Any infraction by the Grantee of any of the foregoing conditions shall, at the option of the Grantor, Franchise and all of the rights, powers, privileges and authority hereby granted shall revert to the

SECTION That this Franchise as well as the rights and privileges hereunder may be assigned by the Grantee herein, and by all of the succeeding grantees at their option, or the rights of such grantee or successers hereunder may be transferred under foreclosure proceedings or Judicial Procedure, or may be transferred from one holder to a third party by the operation of a forfeiture clause of an agreement between such persons, in which case or cases the assignee shall succeed to all of the rights, duties and liabilities of the Grantee here-

At any time after six (6) months from the date of the granting of this Franchise by the City of Sny-der to the Citizens' Electric Service Company the city may, at its option, upon giving six months notice, in writing to the grantee, purchase from the Grantee, the comolete property consisting of plans works, poles, wires, cables and all other necessary apparatus and appurtenances, books of record and all property of the company at an appraised physical value, which value shall be based on replacement with new equipment, apparatus, etc., but which value or price shall not exceed the values or prices as set out in Exhibit "B" hereto attached and forming a part of this Franchise, this value to be established by a Board of three competent persons, one to be selected by the City of Snyder, and one to selected by the Citizens' Electric Service Company, these two to select the third member of the

Franchise

Readers Look At This

that the utility is doing everything they can to keep out competition. When they use the argument that my game is to force them to purchase my holdings in Snyder they are making a false statement as I do not expect to use the public and loyal citizenship of Snyder in this manner, and to do such would put me in a position throughout the country whereby it would show that I was just a promoter and grafter, and I consider my reputation for the future a great deal more than a few thousand dollars that they would pay to get me out of their way. There is a greater future to this than the sale of the plant.

Generally speaking most everyone looks at the Utility Corp. as a monster monopoly and do not have the courage to interfere with their operations, and leave them the privilege to rule and govern the town or city they operate in. They now have a slogan in which they say, "Texans, Let's Talk Texas." This is good when talking about

Texas as a group, which they have and serve with numerous transmission lines, but when it comes to Snyder, Texas, I wish to say that we should adopt the slogan "Citizens, Let's Talk Snyder." What do we care about Dallas and various other points in Texas? This is our town and they depend on us for their business activities. When we are in need we get very little consideration from them.

I came to Snyder to give the people a better grade of ice and have done it at a fair, reasonable price. My competitors must admit that they did not expect anyone to come in here and do this. have cut the price and now selling at just one-half the price they are at other plants they have in this

they can to cause me to get discouraged and move out. This is my third season here and I believe that the good citizens of Snyder can begin to realize that I am doing as I have promised them. I now can see that with the co-operation of the citizenship that a light and power plant will pay well here which will allow me to have some income during the winter season when the ice business is not paying. This town is entitled to other activities to make it a progressive town like various other towns in the state.

The equipment to install the plant will be new and first class in every respect and I cannot understand why any citizen in Snyder would stand back and hesitate on a question of this nature when it is not going to cost them one cent to get the price of electric current at lower rate the same as ice has

I expect to employ local labor and will add an industry to the city that every citizen will be proud to say that he helped build Snyder and put a plant here that is a credit to the town. I was told that it would be impossible for me to do this, and I hope to prove that this was

It is hard to listen to this, and it gives you the impression that they have things under their control and that they can rule and govern the town in their own way. The Utility companys may yet learn that the good will of the people in any territory is far more valuable than a monopoly forced upon them in the community in

The people are practically unanimous in their opinion, that no Utility Corporation or firm can be

community progress to satisfy their own selfish wants.

When we stop to consider that

life is short and we are here only for a short time, then why should I be deprived of my rights to assist and help the community in which I live. It is a fact that I am alone and trying to prove to the public that I am fair and loyal to the citizens of Snyder, when the Utility Corporation, my competitor, has millions at their command, take advantage of the independent or individual in order that they may reap at a great profit the benefits of which the common people of our county are compelled to pay. I hold nothing against the local employes in our city as they have no control over the situation, but receive their instructions from superior offices who never see the local conditions, but remain in cities within mansions, and luxuries, receiving salaries which are outrageous.

They claim cost of current is sufficiently low, but if this is a fact why then do they pay such large prices for plants and place bonds upon them for more than they pay for them and then pay 7 per cent on stock they issue?

to awaken to some of the facts that have come to light within the past few months, time, and space will permit me to go into detail at this time regarding the many things that are true regarding the Utilities men that are doing business in our county. I have the facts and it may be necessary to come out and show these in order to prove my state-ments, therefore I ask for every citizen to be fair in his views and give me what I am entitled to in our city. So, "Citizens, Let's Talk Snyder." (Signed) Glenn Sample.

All rates are to be computed as herein provided on the basis of the electric energy used and consumed each month.

CITIZENS NOTE THE FOLLOWING

Here is the opportunity for Snyder to buy the plant and save money for your home town. Keeping the light and power plant out of politics, as you have done with the Water and Sewer Dept.

prices, as below:

EXHIBIT "B" The City may exercise its option to purchase Grantee's full rights and properties at the expiration of the time and at the values and

When the system is ready for operation, but not prior to six (6) months from the date of the granting of this franchise, purchase price shall not be more than appraised value, plus fifteen (15) percent of such value.

At the expiration of one (1) year after such plant is put into operation, purchase price shall not be more than appraised value plus twenty-five (25) per cent of such At the expiration of two (2)

years after such plant is put into operation purchase price shall not be more than appraised value plus 16 2-3% of value, per annum. At the expiration of three years after such plant is put into

exceed the appraised value plus 14% of value per annum. At the expiration of four years after such plant is put into operation purchase price shall not be more than appraised value plus

12% of value per annum.

city's option shall cease.

operation, purchase price shall not

At the expiration of five years after such plant is put into operation, purchase price shall not exceed the appraised value plus 10% of value per annum. And 10% per annum for each succeeding year thereafter up to the end of ten (10) years when
