OFFICIAL NEWSPAPER FOR THE CITY OF SNYDER AND SCURRY COUNTY AND SNYDER SIGNAL

WEST TEXAS' LARGEST WEEKLY NEWSPAPER
NUMBER 19
SNYDER, TEXAS, THURSDAY, OCTOBER 23, 1930.
FORTY-FOURTH YEAR

SEIFERT-DIBBLE BLACKBURN No.1 WELL NOW DRILLING

Mail Delivery For Snyder Starts January 1

Advice From Washington Means Improved Service to Local Patrons

Official confirmation that Snyder will have free mail delivery was received by Postmaster B. F. Womack last week from the U. S. Postoffice Department at Washington. According to Mr. Womack, one man will be used full time and another on part-time to facilitate prompt deliveries.

As to the new postmaster for Snyder, nothing definite has been received, although Mr. Womack's term of office expired several months ago. Ten applicants are seeking the local office as noted in past issues of the paper.

Patrons who will be served with mail in the new delivery system had best see that mail boxes are placed at residences at once.

Roscoe Plowboys Come To Tiger Stadium Friday

Roscoe Correspondent Believes Their Club Is In District Running

That Roscoe Plowboys are still in the running is shown in a dispatch from that town, Sunday, that appeared in the Sweetwater Reporter.

The story verbatim follows: ROSCOE Oct. 18.—Roscoe Plowboys will face one of their hardest tests of the season next Friday in their annual clash with the Snyder Tigers, but at the same time will have opportunity to make a long stride toward another district championship.

The fact that McCamey won over the Scurry county team, 12 to 9, Friday, however, and that the Tigers scored only four touchdowns against Roby, ten days ago, lead Plowboy fans to believe their team is still in the running.

Parent-Teachers Give Hallowe'en Carnival Soon

City Tabernacle to Be Scene Of Great Event, October 31st

At a booster meeting of the Parent-Teachers Association at the High School Auditorium, Tuesday night, when fifty-one were present, plans for having a Hallowe'en Carnival were outlined by Mrs. Roland Bell.

MOTOR CAR CRASH INJURES VISITORS EPWORTH LEAGUE

Two youths were injured, and four boys narrowly escaped serious injuries when the sedan in which they were riding crashed into the Texas & Pacific concrete loading platform at the end of Scurry street, Saturday night.

Local Legion Plans Barbecue Feast, Nov. 10th

To Complete Plans For Armistice Day Program at Meeting

The local American Legion Post are making great plans for a mammoth Barbecue feast here, November 10th, at which time, plans for observing Armistice Day will be fully completed.

Scurry Bond Election Defaulted By Notice

Heavy Opposition to The Issue Is Given As the Reason

The proposed \$900,000 bond election which originally had been called for last Saturday was defaulted and no election was held.

The announcement was made by County Judge Horace Holley, who said the commissioners court had allowed the election to default by failing to send out supplies to polling places. Judge Holley said the court agreed to follow this plan after opposition to the issue developed to such an extent it was apparent a majority of Scurry county voters did not favor the question.

Whether another similar election will be called at a future date was not announced.

Tiger's Tale Is Very Fine Publication

First Issue Brings General News of School Activities

With a staff that seems to be working in unison, and with much pep and hard work, the first issue of Tiger's Tale was delivered to the boosters of the school last week.

LEAGUE INSTITUTE TO BE HELD HERE

The Epworth Leagues of the Willing Workers Union will hold an Efficiency Institute at the Snyder Methodist Church, November 3-7.

ATTENDS DISTRICT MEET

Miss Jessie Lee Davis, Home Demonstration Agent, left Tuesday for San Angelo where a district meeting of Dist. Nos. 1, 2, 3, 4 and 5 will be held all this week.

ATTENDS DISTRICT MEET

Students will enter the prize contest of the Texas High School Press Association this year and entertain high hopes of copying some of the prizes—and here's hoping they do. Prizes, or honorable recognition is ever enjoyed by those who enter open competition.

FOOTBALL SCHEDULE

October 24—Snyder vs. Roscoe at Snyder.
October 31—Snyder vs. Floydada at Floydada (tentative).
November 11—Snyder vs. Colorado at Snyder.
November 27—Snyder vs. Sweetwater at Sweetwater.

Moody Wears Texas Made Clothes

New Chevrolet School Bus for Ira District

Monday morning saw the new Chevrolet school bus get into action for the Ira consolidated school district, which is said to be one of the largest school buses in West Texas.

McCAMEY 12 SNYDER 0

That was the score in big box letters of the wreck and carnage at McCamey, Friday, against a bunch of bruisers and ineligible group of high school players that the Tigers faced.

Harley Sadler Plays Here Three Days Next Week

Opens Monday Night Under Auspices of Snyder Fire Department

"Billie" who is advance man for West Texas' best known and most beloved show man, Harley Sadler, was in Snyder Tuesday and Wednesday distributing advertising regarding the engagement of Harley Sadler and his company which begins in Snyder Monday of next week, closing his three days engagement on Wednesday night, Oct. 29.

BELIEVE IT OR NOT, 15-LB. SWEET POTATO DISPLAYED HERE TUES.

Ripley has not discovered all of the wonders of nature, as was evidenced here Tuesday morning when G. A. Maddox of Como, Texas, called at the Times-Signal office with the largest sweet potato the writer has ever gazed upon. The potato weighed 15 pounds when dug and resembled a pumpkin more than it did a sweet potato. It was grown near Sulphur Springs, Texas.

SWEETWATER THANKSGIVING

Name	Weight	Position
Bledsoe	140	left end
Grimley	174	left tackle
Watson	140	left guard
Brooks	155	center

Snyder Teachers Meet In Program at S'water

NEW DETECTIVE IN MAX BROWNFIELD

It's now "House Detective Max Brownfield" at the Piggy-Wiggly store, since Max solved a difficult problem, Saturday, during the afternoon rush when two boys walked out with an armload of flour and some other groceries. He stopped them dead in their tracks, as they were putting their stolen property aboard their car and what happened after that, is just nobody's business.

As a sleuth and Sherlock Holmes of the best variety, The Times-Signal takes off its hat to Max Brownfield.

Lee T. Stinson On Waco Program Today

Former President WTPA Will Talk on The District Association

Snyder is being honored today in the program of the Central Texas Retail Druggists Association when Lee T. Stinson, former president of the West Texas Pharmaceutical Association, will give an address on "The District Association."

Tentative Program Legion At Mineral Wells

Seventeenth District, Nov. 1-2; Baker Hotel Headquarters

Following is a tentative program of the Seventeenth District Legion Convention to be held at Mineral Wells, Texas, on November 1-2, with headquarters at the Baker Hotel.

2:00 p. m.—Instruction School for service Officers and Compensation Claims at Crazy Hotel, continuing through afternoon and Sunday morning.

5:00 p. m.—Parade, all visiting Legionnaires, Auxiliary members, and bands participating.

7:00 p. m.—Stunts at Baker Hotel led by the "Tieville Band" of Ranger. (Efforts will be made to have stunt program broadcast over KTAT).

9:00 p. m.—Dance on roof of Baker Hotel, complimentary to registered Legionnaires and Ladies.

9:00 a. m. to 11 a. m.—Registration at Baker and Crazy.

10:45 a. m.—Address by Senator Tom Connally at Convention Hall.

12:05 Noon—Lunch at Convention Hall, complimentary to registered Legionnaires and their ladies.

Location Favors Great Prospects of Fine Well for Scurry

The drill is hitting the dirt in the new Dibble-Seifert No. 1 Blackburn well. Completion of the derrick and all rigging was consummated last week. Official location of the new well is the southeast corner of the Northwest one-quarter section of Blk. 155.

C. A. Seifert of Danbury Conn., who was here last week in connection with this well, and the Murphy No. 1, is very optimistic over hitting the next great West Texas oil pool right in Scurry county. Mr. Seifert has shown his personal interest in this county by already expending more than \$50,000 of Uncle Sam's money to prove his point.

He is one of the newest and greatest boosters for the best county in all West Texas and the Times-Signal with Mr. Seifert's many friends in hoping that his wishes will be fully confirmed. "Gus" as he is known by his many friends is a dyed-in-the-wool booster and whatever service this paper can render this gentleman or his organization are his with no strings attached at any point.

Dallas Chamber Plans Welcome Col. Easterwood

A squadron of fifteen passenger and army airplanes left Dallas yesterday noon to escort the Sunshine Special, bearing Col. William E. Easterwood, Jr., donor of the Coste-Bellonte one-stop Paris-to-Dallas flight prize, into the city. Among the group who welcomed Col. and Mrs. Easterwood was George "Jimmie" Smith, editor of The Times-Signal and who has acted as personal representative to Col. Easterwood in this flight.

Colonel Easterwood was met at the Union Terminal by the Police and Fireman's Band and a parade was formed, going up Main street to the Municipal Building, where the aviation exponent was greeted by Mayor J. Waddy Tate, City Commissioners and representatives of the various civic organizations of the city. After a brief program there, Col. Easterwood was taken to his suite at the Baker Hotel.

A dinner in honor of the flight prize is being given today in the Junior Ballroom of the Adolphus Hotel by the Salesmanship Club, the Chamber of Commerce, and the Junior Chamber of Commerce.

Mike Fowell, Aviation Secretary for the Dallas Chamber of Commerce has advised The Times-Signal that ceremonies for the unveiling of a bronze tablet at Love Field by the chamber of commerce, commemorating the flight of Coste and Bellonte are now being planned. The tablet is now being cast and will be ready for erection in a few days. The date of this presentation has not been set yet, according to Mr. Fowell.

The presentation of the \$25,000 check was made at New York, Thursday, and an Associated Press Dispatch stated: "Beneducoste and Maurice Bellonte, who sowed the seeds of daring on the ocean air, reaped a golden harvest today."

"At a luncheon in their honor they were given a check for \$25,000, the prize offered by William E. Easterwood, Jr., Dallas, for extending the flight from Paris to New York on to the Texas city."

"Yesterday they privately had received a check for \$45,000 that amount, the unexpended balance of the fund raised by the prize will fight committee, composed of Col. Charles A. Lindbergh and various other wealthy men interested in aviation."

"The presentation today was made by Colonel Easterwood. Coste responded in French, telling of the reception he and Bellonte had been given in many cities. From now on, he said, he and his comrade would consider they had two countries, France and America."

"After the luncheon the fliers went to a bank to deposit the prize check. Then they were driven to Brooklyn for a reception at Borough Hall by the president of the Borough of Kings. It was their last reception in America. After that they were at last free to rest and to prepare for their voyage home tomorrow on the liner France."

The New York ceremony was broadcast over an international hook-up of the National Broadcasting Company and was heard here in Snyder by many listeners who enjoyed the magnificent program that was sponsored by the Advertising Club of New York as a testimonial of honor to Col. Easterwood.

The C. C. Harless, Ivan Dodson, R. S. Sullivan and "Red" Moore automobiles conveyed the Tigers to McCamey, Friday. That's help for the boys and boosters of this description are appreciated in any community.

Progress and the Bank

The officers of this bank are interested in the progress of Snyder and this territory... they believe that the future holds a promise of better times and the continued growth of our town and county... This Bank is progressive.

SOMEONE SAVES THE MONEY YOU WASTE— WHY NOT SAVE IT YOURSELF? —

First State Bank & Trust Co. A GROWING BANK

FRIENDLY

W. O. Logan spent the week end at Knox City.

R. E. Gray went to Dallas Monday on business.

Mrs. W. W. Barron of Sweetwater was a business visitor here, Monday.

Mr. and Mrs. E. M. Deakins were short visitors at Lubbock, Saturday.

Mrs. Lillie Pryor of Kirkland is the guest of Mrs. A. L. Francis.

Told He Must Die Man Finds Life In Crazy Water

Deputy Sheriff Wants World To Know His Crazy Story

In the year of 1923 I was living at Altus, Okla. I was confined to my bed with a complication of diseases. It was diagnosed by different ones as Bright's disease, Paralysis, Neuritis, Rheumatism, and a dead liver.

When it was decided to take me to Mineral Wells the doctors did not believe I would live to get there, and the doctors in Mineral Wells when I arrived did not think there was any chance for me to recover.

I drank Crazy Water for four months and was, so far as I can tell, completely well. I gained 94 pounds in weight, and took a job as deputy sheriff which necessitated my being on my feet from eight to twelve hours every day, and oftentimes doing a lot of night work.

Crazy Water certainly pulled me out of the grave.

Geo. Hensley, 19-tfc Granite, Okla.

Miss Nan Roberts of Colorado was the week end guest of Miss Brooksie Wright.

Mrs. Wayne Boren and son John Jay returned home Sunday from a visit with her parents at Fort Worth.

Mrs. C. M. Cauble of Albany is the guest of her son, W. H. Cauble and family.

Mr. and Mrs. Becton Templeton of Houston, who have been visiting relatives here returned home Sunday.

Miss Mary Belle Trevey underwent an operation for appendicitis at the Emergency Hospital Tuesday, and is improving nicely.

Mr. and Mrs. F. U. Farmer are the proud parents of a six pound girl, born Tuesday morning at the Emergency Hospital.

Vivian Wall, who has been a patient at the Emergency Hospital, was able to return to her home Monday.

J. J. Taylor will return home today from the West Texas Hospital at Lubbock where he was taken ten days ago for treatment.

Johnnie B. Parker was able to be removed to her home Saturday after having been a patient at the Emergency Hospital for some time with a broken limb.

J. W. Templeton, Sr., was able to return home Saturday afternoon from the Lubbock Sanitarium. Mrs. Templeton and her sister, Mrs. Ryan Itasco, accompanied him.

Friends of Dr. and Mrs. W. M. McLaury will be interested to learn of their recent move from Jayton to Pampa. Mrs. McLaury and son Billy spent last week here with her mother, Mrs. Jack Smith and other relatives.

Editor and Mrs. W. H. Ritzenthaler of O'Donnell were Saturday night and Sunday guests of E. D. Curry and a house guest of Mrs. A. J. Towle. "Chubby" was looking as hale and hearty as ever, likes O'Donnell and is enjoying a fine run of patronage at that point.

Band Director Millard Shaw and Director of Public School Music Homer F. Springfield attended the Baylor-S. M. U. football game at Waco, Saturday, and likewise attended the home coming of old Baylor.

Mrs. T. J. Weathersbee and daughters, Mrs. Lon R. Adams, Mrs. Fred Barylle, Mrs. O. D. Weathersbee and Miss Aline Weathersbee of Rotan, and Mrs. Boyd of Anson were week end guests of Mr. and Mrs. E. E. Weathersbee.

A good old friend of Scurry county was here for the week end in the person of J. W. Cassevens of Levelland. We hope one of these days to see J. W. and his fine family back in old Scurry.

To help hold him down in the water a diver wears a belt weighing 100 pounds.

Thousands of new words are included in the Merriam Webster, such as aerograph, broadtail, credit union, Bahaim, patogenesis, etc.

New names and places are listed such as Cather, Sandberg, Stalin, Latvia, etc. Constantly improved and kept up to date.

SNYDER KITTENS LICK COLORADO WOLFE-LETS

The Snyder Kittens, known as the Grammar School team under the efficient tutelage of Coach "Red" Hill again walloped the Colorado Wolfe-Lets, 14 to 6, Thursday afternoon here, following a 12-0 victory on the Colorado gridiron.

The starting line-up for the local team included: Fred Wolcott, RE; Buster Hutton, RT; Rosser Chapman, RG; Studie Smith, Center; John Clark Johnston, LG; O. A. Temple, LT; Clint Fesmire, LE; Sonley Huestis, QB; Phillip McClinton, RH and Captain; Glenwood Trigg, FB and Wm. Boren, LH.

Counting a touchdown in the first quarter with Cap. McClinton taking it over, and adding the extra point; Sonley Huestis made the second touchdown in the third quarter, McClinton adding the point.

This young backfield of McClinton, Boren, Trigg and Huestis are later going to make history for the Tiger team; Clint Fesmire at end stood out for stopping every Colorado play attempted around his end while the tackles and guards on the Kitten team were stopping everything that Colorado could send through the line.

The game here Thursday was the first that The Times-Signal has ever witnessed a grammar school game in which the players had really been taught what to do. Coach "Red" Hill is absolutely and personally responsible and the paper joins in congratulations to both him, and the fine, scrappy team he has produced. If these boys hit their school studies like they hit the opposing team, everyone of them should have been exempt from their examinations.

for students. They returned here Sunday afternoon.

Editor George "Jimmie" Smith left Tuesday for Dallas to attend the public reception to be given Colonel William E. Easterwood, Jr. when he arrives back home. Mrs. Smith plans on leaving today for the same point. Both will return here the latter part of the week.

District Manager Tom A. White of the Southwestern Bell Telephone Company was a business visitor here the first of the week. Tom always carries the same genial smile and hearty handshake and it's a pleasure to greet him and have him come to see us. He's a dyed-in-the-wood booster and that's what West Texas needs more than anything else we know of, right now.

COOL WEATHER PLEASES DUCK HUNTERS HERE

Advent of cool weather last week was accepted with pleasure by duck hunters of this section. The season opened Thursday.

Effect of the cool spell will be to bring birds flocking down from the north and improve hunting to a great extent it is thought.

Farmers have been warned by Raymond Ford, in charge of the Texas Cotton Co-operative Association for Scurry county, not to pick their cotton while wet.

The new antimony smelter at Laredo—only one of its kind in the United States—is expected to be in operation by Nov. 1. It will employ 25 workers and expects to supply about 25 per cent of the metal used in the United States.

Five artificial lakes on the Trinity river and its tributaries will impound 1,820,000 acre-feet of water and their completion makes wholly feasible the Trinity River canalization project, according to engineers. Capacity of the Assuan Dam in Egypt, one of the largest in the world, is less than half the combined total of the five—850,000 acre-feet.

We Eat With Our Eyes

THE above heading is a fact, not just a trite saying. When food attractive in color is eaten and increases the flow of the appetite gastric juice and increases its quantity, in preparation to receive and digest the food we are about to eat. Hence the expression: "It makes my mouth water." No less an authority than W. R. M. Wharton of the Food & Drug Administration of the United States Department of Agriculture made this statement recently in a radio talk.

"Nature," he said, "has tinted our natural foods with all the colors of the rainbow, and we have formed the habit, through the ages, of associating various flavors with the colors of products. Take, for example, blackberries as we see them on the

bush. If they are black, we know without tasting them that they are ripe and luscious. If they are red, we know that they are unripe and sour. These things we know by experience, and this experience is infallible. You probably have never seen peas colored blue, nor macaroni colored red."

Color in Canned Foods

That is the reason why more and more canned foods are now put up in those sanitary enamel lined cans which preserve the hues of highly colored fruits and vegetables much better than the ordinary containers. The shining interiors of these cans not only present a tempting appearance themselves, but provide contents that conform to the housewife's ideas of what colors the foods should be.

atory measure possesses real strength and imposes just penalty upon the reckless or negligent operator who is without financial ability to assume his just obligation.

"The New Hampshire financial responsibility laws * * * have been entirely wholesome * * * to encourage owners and operators to purchase voluntary insurance as a medium of sound protection."

Mr. Sullivan then pointed out that insured cars have increased from 23 to 70 per cent of those registered since the enactment of the New Hampshire law. Continuing, he said: "The solution of the automobile accident problem is entitled to the voluntary cooperation of every American citizen * * * . Recently the National Bureau of Casualty and Surety Underwriters put in operation a plan of education. * * * by concurring with the motor commissioners in the several states. Such a campaign should have material effect in reducing automobile accidents."

REXALL 1c SALE, NOV. 6, 7, 8. STINSON DRUG CO.

COTTON GINNINGS

West Texas counties comparing the present year to last year, for ginnings prior to Oct. 1st show:		
Dawson	1929	1930
Fisher	5,596	3,673
Garza	4,263	4,413
Howard	1,535	1,358
Jones	4,610	2,932
Kent	6,464	8,420
Mitchell	1,103	1,161
Nolan	5,972	6,437
Scurry	3,046	3,712
	5,628	3,744

ENROLLMENT A. & M. COLLEGE

Enrollment at the A & M College of Texas on October 16 for the regular session of the current academic year totaled 2437, announcement from the office of the registrar shows. This compares with 2627 on the same date for 1929 and 2693 for 1928.

The freshman class this year numbers 856 as compared with 959 on the same date in 1929 and 1078 in 1928. The senior class this year numbers 376 as compared with 393 in 1929 and 353 in 1928 on the same date.

Division of the enrollment for this year follows: Graduate students 53, seniors 376, juniors 495, sophomores 639, freshmen 856, special 14, non-collegiate two-year course in agriculture 4.

The 1930 edition of "The Longhorn," yearbook of the A & M College of Texas students, received All-American honor rating with "superior" designation, among books of its class in the tenth All-American yearbook critical service conducted by the National Scholastic Press Association. Mike T. Halibouty, Beaumont, was editor and W. A. Porter, Terrell, business manager. Halibouty, recently advised of the rating accorded, has been notified that certificate of award will be forwarded. The 1930 edition of "The Longhorn" was in the class of yearbooks issued at universities of 2,500 enrollment or more. It scored 910 out of a possible 1000 points.

PATRIOTISM

Patriotism in a Republican form of government is fealty to the Union.

It has existed so long that the memory of man runneth not to the contrary. If it is applied effectively it will remove the disturbing elements in the nation's political peace.

It stands upon the frontier of civilization, not upon the treacherous quicksands of disloyalty, which leads to a discordant and belligerent nation.

Patriots have crawled upon the wet, cold and frozen ground (at the hour of mid-night) and gave their life blood amidst the groans of the wounded and dying, rather than see the leaves upon the tree of liberty (which is nourished by the blood of patriots) wither, turn brown and fall.

They have fought the world's battles on land and sea, and air, and have won glorious victories. They have written every chapter of progress in the world's history, which shines with resplendent brightness and glory, shedding an equal and serene radiance around, throughout coming time.

They broke the chains of the thirteen English colonies, and they crushed every ambitious bone in the British armies, causing them to put their influence behind them. They demand that not one thread, which was woven into the Constitution (by their blood) shall ever be ruthlessly torn up by the perfidious hands of demagogues, traitors and anarchists.

Patriotism kindles, fans and spreads the flames of fealty, which arouses flashes of sublimity. In time of war it is stronger than a lion and swifter than an eagle, but when the hostilities cease it is an angel of peace and a messenger of love.

It will arise from the ashes of despair and hurl political destruction upon the heads of political adversaries, causing them to grovel in the very dust of despair, at that moment every generous and patriotic heart in America will palpitate with joyful hope.

No longer will the emotions of man be as restless as the waves and tides of the ocean.

ED C. Raiston,
Snyder, Texas.

H.-D. AGENTS TO MEET AT ANGELO

COLLEGE STATION, Oct. 22.—District meetings of county and home demonstration agents from the five districts covering the western half of Texas have been called for San Angelo, Oct. 23-25, during the last three days of the turkey grading school to open there Oct. 20, Director O. B. Martin of the Extension Service, A & M College of Texas and the U. S. Department of Agriculture, has announced. About 175 agents are expected to attend.

In directing the agents to attend the latter part of the school, which is to train men and women to apply U. S. grades on turkeys under Federal-State inspection, Director Martin has pointed out that "definite moves in the direction of orderly marketing are being taken by the Extension Service, carry along to successful conclusion the demonstrations in more economic production.

"Grades and standards are abso-

lutely essential in scientific marketing work," he went on to say, "for high prices are based on quality and you must have a measure for quality or lose out. We want our county and home demonstration agents to be familiar with the turkey grades so that they may assist their people in determining what turkeys to market, how to feed to meet the Federal grades, and to be generally able to assist in this big standardization movement."

Turkey grades have been used in the United States only three years and the school at San Angelo will be the second ever held in the nation. Demonstrations will show how to feed to meet the grades, how to apply the U. S. grades. Those who qualify will be given Federal-State licenses. Instruction will be handled by representatives from the bureau of agricultural economics, U. S. Department of Agriculture, with T. W. Heitz, associate marketing specialist, heading the corps of five instructors from Washington, D. C. Subject to requests, the Texas State Department of Agriculture has announced it will cooperate with the Federal department in giving Texas dealers and cooperative associations Federal State inspection this Fall and Winter. Indications are a considerable part of the turkey crop in Texas will be sold in grades this season.

WTCC DIRECTORS APPROVE UNIVERSITY TAX PROPOSAL

Directors of the West Texas chamber of commerce meeting at Sweetwater last week approved the proposed constitutional amendment to permit taxation of University of Texas land for county purposes. United State Senators Morris Sheppard and Tom Connally, and Amon G. Carter, Fort Worth publisher, were commended for their efforts in behalf of drouth relief for certain sections of West Texas.

Decision was reached to request the State board of education to withdraw from the public schools geographies said to contain inaccurate descriptions of West Texas. Recently the directors considered a proposal to institute damage proceedings against publishers of such geographies and were supported by 40 out of 65 affiliated chambers of commerce approached on the subject. It was agreed, nevertheless, not to bring such suits.

A committee was named to take the request to the board of education, and intimation was made that unless the board withdrew the geographies an injunction to compel it to do so might be sought.

4-H CLUB BOYS HOME

Jim Sterling, Ivan Hardy and S. D. Hays, Jr., 4-H Club boys of Seury county who attended the State Fair at Dallas returned home Friday, accompanied by County Agent Logan. The boys have informed Mr. Logan they will have a descriptive story of their trip in an early issue and the Times-Signal looks forward to printing what these young hustlers have to say of their trip.

INSPECTOR HERE

W. R. Adams, representing the Plant Disease Control of the U. S. Department of Agriculture was a short visitor here, Saturday. He reports no pink boll worms in Scurry county—which is something else to be happy about.

LORAIN BAPTISTS HAVE UNIQUE PLAN TO RAISE FINANCE

And now the hen and the cow are to become regular contributors of Loraine Baptist Church. Announcement was made at the church recently that all produce accumulated from poultry flocks and dairy cows on Sunday and owned by a member of that congregation is to be pooled and sold for benefit of church activities.

A Loraine produce dealer will receive all such produce, pay the top market price and at stated intervals turn the money thus received over to the church treasurer.

It is presumed that Biddle and Bessie will now do their best on Sunday, shunting off in production some week day, in the event they are in the habit of having some good days and some bad ones.—Colorado Record.

MEANING OF YOUR DREAMS

Stealing—Loss of personal goods and health.
Stockings—Pleasures with dissolute companions.
Storm—Warning to be brave and steadfast.
Strange place—To be in a beautiful place, a coming fortune, an unpleasant one, fickleness and illness.
Swimming—Success in love affairs.
Suicide—Unnecessary worry.
Sun—Shining, good fortune; rising, good tidings and a true love; setting, ill tidings; behind a cloud, impending trouble.
Table—Joy followed by a happy union.
Tar—Warning against pitfalls.
Tears—Consolation.
Telegram—Unpleasant news.
Tent—A change for the better.
Theater—Pleasure and new friends.
Thimble—Dependence, poverty.
Thirst—Ambition and honor.
Thunder—Good luck in business and love. Good news from a distance.
Tiger—Persecution by enemies.
Toad—Bad luck in business.
Tomb—Bad luck in business.
Train—Long journey.
Trees—To cut them down, loss; to climb them, honor.
Trumpet—You will gain your wish.
Trunk—Pleasant trip.
Tunnel—Bad for those in love.
Turkey—Gain in business.
Turtle—Employment; business improvement.
Twins—Contentment in the home.
Uncle—Sad news very soon.
Uniforms—Hopes gratified; influential friends.
Vagrant—Poverty.
Valentine—Weak but ardent lover.
Vase—Happy home life.
Vault—Bereavement; misfortune.
Vegetables—Disappointing engagements.

PUBLISHER PUTS HIS HOME TOWN ON MAP

Every two years Harry Hammond, publisher of the Byron Times, Byron, Calif., issues the finest Development Edition of a newspaper that is seen in the United States. Any editor who is fortunate enough to secure a copy of this edition will take his hat off in deference to Editor Hammond's ability to put out a publication which sells at \$1 a copy plus postage, and which is circulated by the thousands in all parts of the United States.

It is a living testimonial of the invaluable public service that can be rendered a community by a live editor operating a weekly newspaper in a country town.

In looking through this business-building and confidence-inspiring edition, one is astounded at the thoroughness with which the agricultural and industrial resources of Central California are presented to the world. The people of Contra Costa county and the whole Delta country back of San Francisco bay should proudly recognize in an appropriate manner an editor who has, for 24 years, issued a biennial record of growth and development which commands the respect and admiration of all readers and draws capital and new settlers to that district.

This is not an advertisement for Harry Hammond. It is a just tribute from one editor who can thoroughly appreciate and is glad to recognize an outstanding piece of work done by a brother editor. He has set a new mark in newspaper enterprise for every editor in the United States, barring none, to shoot at.

LITTLE RED WAGON ELECTION BET PAID; SANGER PAIR IN EL PASO

Pulling a little red wagon, such as he played with when a child, Lloyd (Mule) Hayes of Sanger, Denton county, drew up at El Paso last Wednesday and paid a Texas election bet, riding Hubert C. Stinson better than 700 miles across the state to that point.

During the gubernatorial campaign last August Hayes told Stinson that if Mrs. Miriam A. Ferguson did not beat Ross S. Sterling of Houston for the democratic nomination he would ride him to El Paso in the little red wagon. Sterling won. The two visited Juarez to top off the wager.

The Stinson gentleman is related to Joe and Lee Stinson of this city.

TEXAS BREEDERS ARE SUCCESSFUL

COLLEGE STATION, Oct. 22.—Texas poultry breeders figure prominently in the list of high pens and high birds of the thirteenth Texas National Egg-Laying Contest, final report for the year that began Nov. 1, 1929, and ended Sept. 23, 1930, shows. The contest is conducted by the poultry husbandry department of the A & M College of Texas, D.

How to play Bridge AUCTION or CONTRACT

by Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Contract or Contract Bridge

Summary of Official Laws Adopted September 15, 1927

Copyright, 1928, by The U. S. Playing Card Co., Cincinnati, O., U. S. A. Published by permission of The Whist Club, New York

Now that a standard code of laws for Contract Bridge has been approved and adopted by The Whist Club of New York, The Knickerbocker Whist Club, The Racquet and Tennis Club of New York, The Cavendish Club of New York, and the American Whist League, it is certain that these laws will be adhered to by informed players.

In short, the new laws are the same as those governing Auction Bridge, except in the scoring, for which these are the authorized rules (summarized):

TRICK VALUES

The suits are valued as follows: No Trump 35; Spades 30; Hearts 30; Diamonds 20; Clubs 20. This is called the Vanderbilt count, after its originator, Harold S. Vanderbilt. In the bidding, however, the suits rank the same as in Auction; that is, Diamonds take precedence over Clubs, and Spades over Hearts.

HONORS

Honors are scored only when held four or five in one hand. In a suit bid 4 honors in one hand count 100 points in the honor-score; 5 in one hand count 150. In No Trump, 4 Aces in one hand count 150.

GAMES

Game is 100 trick points. This each suit requires the same number of tricks for game as in Auction Bridge. The only difference is that the Diamond suit is denoted to an equality with the Club suit as a game score from an adversary score. For example, the scoring of three Diamonds, 21 points, at Auction Bridge, puts a player in position to go game on the next deal by making only one trick at Spades or No Trump, whereas two additional tricks are required for game after scoring three Clubs (18 points). In Contract, two additional tricks in any suit or No Trump are also required to go game in Diamonds after scoring three tricks in that suit (60 points).

Only tricks bid and made are scored below the line on game. If a Declarer bid one Spade and make four, his score toward game would be only 30, 3 tricks over contract, however, he awarded a premium (bonus) in the honor count. Tricks under contract are penalized.

RUBBERS

Rubber, as in Auction Bridge, consists of two games won by the same side. The winners of the first game of a rubber (either side) score no premium, as in Auction Bridge. The winners of the second game of a rubber (two-game rubber only) score a premium of 700 points. The winners of the last game of a three-game rubber score a premium of 500 points. Thus for the first time a difference is recognized and rewarded between a pair winning a rubber in two games and a pair winning a rubber in three games.

VULNERABLE

After a side wins one game it becomes "vulnerable", and from then on is subject to much greater penalties for infractions of these penalties. These penalties, however, are offset by greater premiums for winning. When both sides have won a game both become "vulnerable", and from then on the rubber game is an exciting battle.

SLAMS

No premium is scored for any Slam made when it has not been bid. When bid and made, if Declarer is Not Vulnerable, a Little Slam scores 500 points in the honor-score. If Declarer is Vulnerable, Little Slam bid and made scores 750 points. Grand Slam, bid and made, Declarer Not Vulnerable, scores 1000 points. Grand Slam, bid and made, Declarer Vulnerable, scores 1500 points.

HALF-PRICE SALE

The Half-Price Sale for Men and Boys last week end at the Bryant-Lank store was very successful, the store reporting a fine run of business with clerks kept on the jump all the time.

Empire Problems Discussed By The Dallas News

Vision and Foresight Demanded in Work of Those Who 'Boss'

The Dallas News Discussed a problem in a recent issue that is of personal interest to every taxpayer in the state and those who want to see Texas get ahead.

Editorially, they said: Texas in area and natural resources often has been called, and rightly so, an empire. It is the coming empire State, and within a generation will be admitted a leading Commonwealth in the Union.

But this coming leadership demands that those who control the destiny of the State should have vision and foresight sufficient to plan in a large way a program as a guide for action in later years. Topsy "just growed," but scientific growth is based on intelligent surveys of situations and wise judgments.

Texas has enormous natural wealth but the wealth from the production of it enriches outsiders; little remains within the state. It has much capital in its financial centers, but comparatively little of it is invested in Texan industries. The purchasing power of its almost six millions of population is huge in amount, but the goods purchased mostly come from outside the State.

Through ignorance the fertile lands of Texas are declining in fertility because of erosion and a one-crop system; its magnificent forests have been shamefully wasted and practically no attempts made to reforest cut-down areas suited only to timber. Texas is an empire of natural wealth, but its economic leaders accumulate wealth for themselves with small forethought for the future generations of Texans.

The best wealth of Texas consists of the energy and brain capacity of its people. Among these is much dormant talent that should have opportunity for expression in action. But more than half the population are so poor that their standards of living are necessarily low. In consequence, their children are worked prematurely, and, obtaining merely the rudiments of education, they become stunted in body and mind—the greater waste of a wasteful State.

What Texas needs is a definite program set for the younger generation to accomplish in the next twenty-five years. The resources of Texas should enrich Texas and Texans. Its farming population should own its lands, not be tenants in a condition quite like serfdom. Its empty forest lands should be reforested and exempted from taxation for the period of growth. Small industries should be established in every village and town of the State to supply work and to put on sale Texan-made goods. "Made in Texas" should be a guaranty of excellence in material and manufacture. Above all, the younger generation should be free to acquire a generous education, combined with a training for vocations on the farm and in the future industries of Texas.

Texas needs local Chambers of Commerce, civic improvement societies and city planning. It needs a new Constitution, a reorganized government, wise legislators who can think in terms of an Empire.

State. It should place obligations on its professions to give to its people health, good laws, spiritual insight. It should aim to develop that broad intelligence that appreciates the value of the artistic in connection with vigorous applications of the many varieties of science to the problems of the State.

Talk Texas, think Texas, help make Texas famous for its comfortable homes and its wide-awake intelligent citizens.

HOGG WILLS MORE THAN HALF MILLION TO SCHOOLS

More than half a million dollars is bequeathed to Texas schools by the late Will C. Hogg in his last will, on file for probate.

The document provides that \$100,000 be given the student loan fund of the University of Texas, \$50,000 to the student loan fund of the Texas A. & M. College, \$50,000 to the Texas State College for Women, \$25,000 for each of ten State Teachers' colleges and \$25,000 to the student loan fund of Rice Institute.

Bequests to friends and relatives vary from \$10,000 to \$36,000. The capitalist's valuable art collection was given to his sister, Miss Inna Hogg, with the request that she pass it on to the University of Texas or the Houston Art Institute.

Six special scholarship funds in the University of Texas total \$20,000 each.

Punk Game

Snyder Laundry Snyder, Texas

Gentlemen:

"Skilled Hands Sort Your Laundry Bundle" is the caption of the advertisement of your association appearing on page 97 of the attached October issue of Better Homes and Gardens.

One finds skilled hands, today, in commercial laundries. The fact that laundry service and methods have been improved so materially within the last few years is evidence of our contribution to the success of this advertising program. Our contribution is an advertising medium—a magazine—by which your message may be presented to both the man and wife of a family at the time they are considering their common problem, the home.

Not only is your message presented, but also is there every assurance that it will be read—read in connection with editorial material on home improvement and the general welfare of the family. Our 1,375,000 families are well above the average in income, home ownership, valuation of home—in fact, all the yardsticks used in determining good prospects.

Sincerely yours,

BETTER HOMES AND GARDENS

TAXES TAKE SIXTEEN PER CENT OF EVERY DOLLAR

(A Worthwhile Editorial Selected by the National Editorial Association)
 Speaking of taxes—and who is not?—the tax collector now demands from each of us one day's labor out of each week. All of us, men, women and children, earn yearly around 80 billion dollars. Our tax bill is nearly 13 billion—one-sixth of our total earning capacity. Look at taxes in another way: One person out of 11 who are gainfully employed is a public employee. Not so long ago we required only one person out of each 22 to perform the services which we demanded of government. A few more of our demands, and it will be one out of ten; then one out of nine, and so on. When will we stop saying, "The Government ought to do this, and that, and the other thing?"

Most people think the corporations and the rich pay the taxes. This fallacy, more than any other single thing, is responsible for our increasing tax burden. I once observed how skillfully one million dollars was extracted from a state legislature by the argument that most of the money would be paid by the railroads, anyway. The state, the argument ran, would be getting a dollar's worth of university buildings for 50 cents.

But the naked truth is that every man and woman who ate a meal in that state, who bought a suit of clothes, or who lived in a house, helped to pay the dollars which the legislators thought they were taking out of the hide of the railroads. The railroads simply collected it

from the people who shipped freight or bought goods which some one else had shipped.
 Another fallacy is that everything from the government is free. Free seeds, it used to be; now free publications, free advice, free help, free this and that. Such a ghastly joke! There is no such thing as government, any more than there is free rent, free clothing or free groceries. Government costs real money. Every self-supporting citizen shares his income with the million-odd men and women now on government pay rolls.
 A gentleman, visiting Washington, hired an old dandy to drive him around to see the sights. The dandy grew enthusiastic. He waved his arm at the Botanical Gardens, the museums, the parks and monuments, and said to my friend, "Jest

LIONS INTERNATIONAL BUSINESS CONFIDENCE WEEK

THINGS CAN'T BE SO VERY BAD
 —When September of 1930 shows a more definite and general improvement in employment than any September for the last three years. No bank about it, no guessing either for the statement is based on the report of The American Federation of Labor.

—When the savings accounts in banks all over the country show an increase month to month.

—When a dollar will buy more of most anything than at any time of years.

—When you and I can buy a staple such as sugar for five cents a pound and big business can get "call money" for one per cent.

—When about all that is needed to make things hum is a little backbone and some good old-fashioned COURAGE.

—When to all appearances we have too much of everything, rather than too little.

—When the picture shows are packed, ball parks filled to overflowing, race tracks jammed, fairs waiting at every tee, and soda pop and ice cream factories pouring overtime.

—When around every construction job you'll find GOOD automobiles waiting to transport workmen owners to MODERN HOMES.

—When every business is not getting near all the business there is to get out of the business they already have.

—When communities knowingly pass up opportunities to increase collective business all because it requires a little initiative, sumption, and some work.

—When people cannot see that the only way to get anywhere is to get together, work together, and STICK together.

Anyway you want to look at it, we're lucky to be where we are, what we are, and where we are—if you don't believe that, think of having to live in China the rest of your life.

Yes sir, this is a great land when all that is wrong with it is the fact that the people have the "willies" and "hobgoblins of little minds" have scared them into a belief that tomorrow will be the end of everything. The sure way to make things "tougher" is to keep on thinking that they are tough—the sure way to bring about good times is to buy NOW what you need and haven't been buying—be a wise buyer—do your Christmas shopping NOW.

Published by The Times-Signal in co-operation with the Snyder Lions Club, under the copyright of Dick Stone Association. The Snyder Lions Club have not been holding regular meetings but hope to start again soon. (Copyright, 1930, Dyeckston, Inc. Reproduction prohibited in whole or in part.)

think. It's all free. It don't cost nobody nothin'. The Gov'ment pays for it.

Taxes are hidden in everything we buy. The landlord passes on part of his taxes in the bill for our rent; the baker wraps them up with the bread he sells us. The insurance company includes them in its premiums. Bills from the butcher and milkman include a tax as surely as if the postman brought a notice from the tax office.

Business is interested in reducing taxes, not alone selfishly, because business, after all, simply collects taxes from the consumers of things. Business sees money wasted which might be used by individuals to get those things which would give greater happiness and contentment—house furnishings, or a trip to Europe, a new carpet sweeper, or a

and like Abou Ben Adhem, and in all lands, may their tribe increase.
 —C. F. Preston, Chester County, Pennsylvania, in Capper's Farmer.

COTTON COOP ASSOCIATION RECEIVE DRAFTS

Every state Cotton Cooperative Association is far ahead of last year in receipts from members. The success of the program is not confined to any particular area. The movement has become nationalized and no longer do we think in terms of local areas but rather as a commodity movement embracing all modern movement embracing every acre, consolidated in one organization known as the American Cotton Cooperative Association.

The American Cotton Cooperative Association is extending its activities throughout the world—into every important cotton spinning center in the world—so that the American cotton farmers can deal directly with the consumers to pay for and consume it. If we raise less cotton in America and more is grown by competitor nations, the price will remain low. American producers grow about 60 per cent of the world's cotton. Nearly half of our crop must seek markets in foreign countries in competition with cotton grown by foreign nations, most of which are of short character.

Quality Important Factor
 Quality plays an important part in the price to be obtained for any commodity. American cotton farmers have the facilities—the soil, trained farmers, gins, warehouses, compresses, railroads, truck lines, docks, steamship lines and in fact everything necessary to meet the competition of other cotton producing countries in the world markets. To be effective however—the producers of the commodity must be organized to see their problems of production, processing and marketing as a group.

Production
 The first problem of production is to regulate the quality and the supply so as to get from the consumer a satisfactory price. It is apparent that we cannot grow inferior cotton in this country and hope to compete with foreign producers. The alternative is to produce more, better cotton, cheaper. To influence the growers to improve their quality, the first fundamental purpose of the cooperative is to base every individual producer on the basis of the quality he produces—giving him the full premium on quality. This alone will encourage the improvement of quality and "good seed" campaigns in the future have a better hope of success.

Processing and Transportation
 In this the cooperative strives to handle the processing as to preserve the quality and direct the flow so as to minimize the handling and transportation charges that accumulate against cotton in its travels from the farm to the mill.

Marketing
 Involves standardization of quality, developing sales outlets, creating new markets and new uses, handling surplus production through disposal of inferior qualities as by-

products, and guaranteeing to the consumers a dependable supply of quality products at a price fair to all.

NAVY DAY

October 27th is Navy Day, the one day in the year which has been set apart to better acquaint the American people with their Navy, its wonderful history, its peacetime missions, and its ships and men. It is particularly fitting that the birthday of President Theodore Roosevelt has been designated for annual commemoration as Navy Day, for it was during his administration that the Navy received that impetus which resulted in the United States taking its proper position in the front rank of nations. In order to fittingly celebrate the occasion, the entire United States

date for Navy Day for another reason—for on that date in 1775, the first resolution to authorize American warships was introduced in Continental Congress. Since that time the United States fleet has had many changes; it has decreased at times and expanded at times; public opinion and disarmament conferences have resulted in fleet reduction; wars have resulted in large building programs—but withal, we now have a Navy of which we may well be proud, and we shall retain the firm conviction that regardless of the task set before it, in peace or in war, the Navy will merit the simple praise, well expressed in two words, "Well done!"

THANKSGIVING COMES

TINKLING toes, rosy cheeks and a voracious appetite are all natural concomitants of the Thanksgiving season. There also always remains from the early youth of all properly constituted persons a thrilling sense of expectancy as to just what there will be for Thanksgiving dinner. In spite of the drought and temporary hard times, there is still plenty to eat, thank Heaven, in this country. One can count on roast turkey; and pumpkin pie is sure to make its appearance on the menu, but of what will the rest of the meal consist? It is to answer this question that we have planned the following menu for a modern Thanksgiving dinner, taking advantage of the reasonable prices of canned foods to make a tasty accompaniment with some fresh foods to the traditional turkey.

Anchovy Canapés
Celery Hearts **Tiny Sweet Pickles**
Chicken Consommé
Mushrooms and Olives on Puff Paste Rounds
Roast Turkey
Canned Cranberry Sauce
Giblet Gravy
Mashed Turnips **Mashed Potatoes**
Tiny White Boiled Onions
Pickle Peach Salad
Fairy Plum Pudding
Coffee
Home Made Nut Caramels
A Fancy Canapé

Of course the housewife will want to know just how to connect all these delectable dishes, so here are the recipes, calculated to serve eight people:

Anchovy Canapés: Slice one cucumber thin, and then cut a boiled potato into thin rounds of the same diameter. Marinate

thoroughly in French dressing, and drain. Place a round of cucumber on top of a round of potato, and cover with tartar sauce. Put four thin strips of piminto lattice-wise across the top. Wrap a fillet of anchovy from a can of these around stuffed olive and set in the center. A canned artichoke bottom could be substituted for the potato if you want to make this canapé still more dressy.

An Appetizing Entrée
Mushrooms and Olives on Puff Paste Rounds: Drain the contents of two 4-ounce cans of mushrooms, and cook gently for three minutes in two tablespoons butter. Cut twenty-four stuffed olives in halves, add and cook two minutes longer. Smooth two tablespoons flour with the liquor from the mushrooms to which enough rich milk or cream has been added to make one and one-third cups. (Evaporated milk can be used for this purpose.) Add to the mushrooms and olives, and cook till creamy, stirring all the time. Season to taste with salt, add a few drops of lemon juice, and serve on rounds of puff paste.

A Delectable Salad
Pickle Peach Salad: Drain one No. 2 can of peach halves. Cream together one package of cream cheese and one package of Roquefort cheese, add two tablespoons India relish and two tablespoons chopped celery, and fill cavities of peaches with this mixture. Beat three-fourths cup cream, and add a few drops of lemon juice and a few grains of salt. Put a little of this cream mixture in eight individual ice cream molds, then put in a peach with the stuffed side

up. Fill the rest of the mold with the cream mixture so that the peach is entirely covered. Cover with waxed paper and the tight tin cover. Pack in ice and salt until frozen. Turn out into lettuce nests.

Special Sweets
Fairy Plum Pudding: Soak one and one-half tablespoons gelatin in three-fourths cup cold water. Melt two squares of sweet chocolate in a double boiler, add one-sixth cup sugar, and stir to a paste. Add another sixth cup of sugar and the gelatin, and stir until dissolved. Add one and one-half cups scalded evaporated milk and three tablespoons of syrup from stuffed oranges (you can get these in glass jars at your grocer's), and let the mixture stand until it begins to set. Then fold in three stiffly-beaten egg whites, one cup of chopped stuffed orange (about one and a half oranges) and three-eighths cup of chopped vacuum packed walnuts. Turn into small molds wet with cold water and set aside to chill. Turn out and garnish with whipped cream and red and green cherries.

Pumpkin Pie: Mix two cups canned pumpkin, one and one-eighth cups sugar, one teaspoon salt, one and one-half teaspoons ginger, and one teaspoon cinnamon. Stir in the well-beaten yolks of three eggs and two cups milk. Beat the whites of three eggs stiffly and fold in. Turn into a pie-plate lined with pastry. Bake for fifteen minutes at 425°, then for thirty minutes or until set at 325°. Have enough heat at first to set crust. Done when knife comes out clean, as for a custard pie. Makes one large pie.

THEY PAY YOU

Advertisements pay you to read them. They pay you in time. From the advertisements in this newspaper you can learn where to get what you want, instead of searching around. You can know the merits of each article offered for sale.

They pay you in money. Advertisements help you to get full value for your dollars. Goods which are consistently advertised are of consistently high quality for their prices.

They pay you in satisfaction. Manufacturers and merchants will not undertake an advertising campaign until they are sure their product is right. It would be ruinous to begin to advertise an unworthy product, for that would simply call attention to deficiencies.

They pay you in information. Advertisements tell of new products, of new designs, new materials, better workmanship. Well informed people always read advertisements in The Times-Signal to keep posted.

READING THE ADVERTISEMENTS IS AN INVESTMENT THAT PAYS BIG RETURNS

The SCURRY-COUNTY TIMES-SIGNAL

FLUVANNA NEWS

Mr. Raymond Seale of the First State Bank is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with him by sending your news and subscriptions to him.

Church Services:

Sunday school was well attended Sunday. Next Sunday is regular preaching day at the Fluvanna Baptist church. Bro. T. L. Nipp conducting.

Visits and Trips:

Mrs. B. E. Robinson of Monahan is visiting with her parents here this week. Miss Cora Sealy of Slaton spent the week end visiting friends here. Jess Dutz of Waxahachie spent Sunday and Monday with his wife here, and left Tuesday for Waxahachie.

Misses Pauline Haynes and Willie Mae Fry, who attend Snyder High School, spent the week end with home folks here.

Mr. Jettie Hornback is visiting with home folks.

Rev. T. L. Nipp filled his regular appointment at Union Sunday.

Miss Nadine Haynes will leave next week for Knot, where she will begin her school. Writer and wife spent Saturday night and Sunday at the former's parents at China Grove.

Miscellaneous:

M. H. Huling received a message from Leveillard that Edward Barnes who has been sick for some time with fever, was not expected to live. Mr. Huling left Tuesday morning for Leveillard. We hope he may change for the better and that Mr. Huling will find him better when he arrives.

The school is progressing nicely. The school is putting on a play at the High School Auditorium Friday night. It is entitled "The Bashful Mr. Babbs." Everyone is invited.

The Band is progressing nicely, and all members seem to be working as well as the director.

home of Sherman Blakely and family.

Mr. and Mrs. John Watts and Mr. and Mrs. Wray Huckabee and daughter Maxine of the White Bluff community spent Sunday with Mrs. W. H. Huckabee. Mr. and Mrs. Joe Ekkie, Rev. and Mrs. T. L. Nipp and Mrs. E. U. Bullard were also callers at the Huckabee home in the afternoon.

Joe Seth Kiker and S. D. Hays, Jr. were week end visitors at the Dallas Fair.

Rev. and Mrs. Nipp, and Brother Ramsey of Ira were guests for Sunday dinner in the home of Mrs. E. U. Bullard.

IMPORTANT EVENTS

Women's H. D. Club

A 4-H Pantry demonstration will be the high point of interest to be discussed and demonstrated Monday week at the next club meeting, which will be held at the home of Mrs. Horace Patterson, Nov. 27.

Probable Singing School

Clairde P. Scott of the Strickland Farm near Pleasant Hill met last Tuesday evening with a considerable crowd of young people in an attempt to organize a singing school. A committee of four was chosen to solicit members enough to make it worthwhile. If the committee is successful the plans are to conduct a school lasting ten nights, starting Tuesday evening; the expense fee will be ten cents a night per person.

Prayer Meeting

The regular Wednesday night prayer meeting was well attended last Wednesday night, being conducted by Sherman Blakely. It will be led next Wednesday night by Leo Kiker, and on the following Wednesday night by Faye Bullard. All are invited to attend these weekly meetings.

Woolver Sisters Entertain

The Misses Wille, Geraldine, and Ardelle Woolver were delightful hostesses at a "42" party, entertaining the younger set of this community at their home Tuesday evening of this week. All declared a most delightful time.

Church Notes

Brother Ramsey of Ira filled the pulpit in place of Rev. T. L. Nipp at the Baptist Church last Sunday morning. This was the second sermon ever preached by Bro. Ramsey, who having lately discovered that he is called by God to be a minister.

The little folks of Mrs. W. N. Davis class are each of them having their mothers embroider a bird on a six-inch block that will go to make up a quilt to be presented to the Orphan's Home as a special gift.

San Angelo Barber Talks

Says Argotane Is Only Thing That Relieved Him After Suffering for Years

Argotane did me more good than all the other medicines I took put together," said M. M. Vest, well known proprietor of the North Angelo Barber Shop, 503 N. Chas. boum Street, San Angelo, Texas, in telling of his restoration to health.

"I suffered with indigestion and stomach trouble for years, in fact, practically all my life," continued Mr. Vest, "and although I had a good appetite I couldn't seem to digest a thing I ate. Everything just seemed to sour on my stomach and I would have indigestion spells and feel worn out nearly all the time. My stomach was just all torn up and any kind of acid food would make it worse. I had gas on my stomach so bad sometimes I could hardly get my breath. The gas would trouble me just a short while after eating, and I would feel all bloated up. This trouble seemed worse at night after supper and even when I was ready to retire I would feel at times like I was going to choke and couldn't get my breath. I tried many other medicines for this trouble but they gave me no relief and I thought I was going to have to give up trying to get well again. I read in the papers a lot of statements from people who had troubles very much like mine and they told how they had been relieved by using Argotane so I decided to try it.

"Well, I took the medicine regularly and faithfully and I must say that I am more than pleased with the results. It certainly did me more good than all the other medicines put together. The gas does not form on my stomach hardly at all now and my breathing is now as free and easy as it ever was and I'm not bothered with that bloated feeling any more. Argotane certainly did me a world of good and I believe it will help me. I certainly do recommend Argotane and I am glad to come out with this public statement about it.

Indigestion, from which Mr. Vest suffered, is not only one of the most distressing, but one of the most prevalent of all diseases. It is also one of the most difficult to treat, and has baffled the medical profession for years, the most skillful specialists being unable to cope with it successfully.

Genuine Argotane may be bought in Snyder at the Stinson Drug Co., adv.

GRADS. TEACHERS

All of Class Is Located OF '30 SCATTERED

The graduates who are extending their summer vacation into the school year and are remaining at home are: Lucille Brown, Mildred Harless, Audrey Jenkins, Gladys Lewis, Othell Morris, Earl Parker, Ted Pitner, Mavis Webb, Opal Weller and Anthem Wade. W. N. Corry, our principal of last year, is traveling for the Cotton Association. Edith Sears is continuing a business course in Snyder High School. Kenneth Alexander is taking some advanced courses in our commercial department, and also serving as secretary to our superintendent. Miss Mattie E. Clark is continuing her school teaching in Lubbock High School. J. T. Jenkins is busily engaged in running a T-P filling station. O. C. Brooks has charge of a filling station in Abilene. The following graduates are attending Texas Tech at Lubbock: Maxey Chenault, J. W. Greene, Ila B. Perinann and Lee Francis York. J. P. Jamison is now superintendent at Garden City, and is enjoying his work here. Meva Dook is enrolled in a business college in Fort Worth. Dorothy Egerton is attending Sul Ross at Alpine. Buddy Martin and G. L. Huettis are enrolled at Simmons University at Abilene. Travis LaRue is attending Randolph College at Cisco. Mary Ellen Martin is at home in Slaton. Evelyn Partt is also at home in Stephenville. Lillian Walton is attending McMurry College, Abilene.—Tiger's Tale.

FAMOUS EASTERWOOD CHECK SHOWN AT MILES STUDIO

A photostatic copy of the Easterwood \$25,000 check given Coste and Bellonte, French flyers, at New York last Thursday can be seen at the Miles Studio. The original check was three feet in width and cost \$300 to produce. Many Snyder folks heard the program that came in over the NBC chain.

That Rescoe folks are interested in the game here tomorrow was shown last Sunday when a large group drove over here to look Tiger Stadium over. The Times-Signal feels that they will be happy to leave the stadium very early after the game is over. We might be wrong, but we just have an "itching" to feel that way about it.

First Hobo—I feel just like a naughty flapper today. Second Hobo—How come, Willie? First Hobo—A brakeman made me walk home from a ride last night.

Black-Draught

For Constipation, Indigestion, Biliousness

WOMEN who are run-down, nervous, or suffer every month, should take Cardul. Used for over 50 years.

HOBO NIGHT AT FIRST CHRISTIAN CHURCH

One next Sunday evening the First Church of Christ will feature its second special program of a series begun last Sunday. The first of these specials was designed to bring to our hearts the many interests coming to us in our modern civilization through the sacrifices of the old people under the hand of the Supreme Ruler of the Universe. It was well attended despite the inclement weather, though it was thought that many more would have attended under more favorable conditions. After the presentation of flowers to the aged by young ladies selected for this purpose, the grand premium—a bright new one dollar bill—was presented to Brother Baze, the oldest of those honored. He was seventy-seven years old. Brother Baze has been an active member of the local church for many years. It was learned after the service that Sister Baze has been a member for fifty-one years. The second program of the series will be HOBO NIGHT, so designated because all who attend are to appear in their work-day apparel. No one is to come 'dressed up.' Women will wear their every day house dresses and the men their work-day clothes, whatever they might be, that is, their clothes worn when working at home, in the garden, on the lawn, etc. Even the minister will appear in his coveralls and will preach a hobo sermon. The premium offered at this service will be a good book. It is to be offered to the one who guesses most closely to the text to be used for the message. Get your Bible and read. Revolve all the Bible texts you have in mind and see which one you think would be best suited to a real hobo sermon. Bring your

KNOW TEXAS

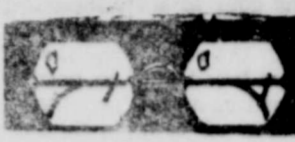

Texas has 496,007 farms (U. S. 1930 census), increase of 59,974 since 1920. Texas produced 34,285,000 pounds of dairy products in 1929, exclusive of 5,683,000 gallons of ice cream. Smith county with 6,907 has more industrial farms than any other county in Texas. Eight other counties have more than 6,000 farms. Texas is expected to produce 4,275,000 bales of cotton this season, almost one-third of the American total. Mississippi, second cotton state, is estimated at 1,660,000 bales. BARGAIN DAYS \$1.00 per year for The Times-Signal still in force. Get your date reading ahead as we dislike cutting off old friends. Better get it in now, before we see your head in the basket. You need your home county paper, likewise we can use your dollar, a fair exchange to all concerned. Therefore, I would be without authority to approve any claim filed by you for the refund of the tax on gasoline used in your school buses. School buses are used in the Elm-dale consolidated district and the Ovalo rural school district—Abilene Reporter. REXALL IS SALE, NOV. 6, 7, 8. STINSON DRUG CO.

OUR OUTSTANDING TELEPHONE SYSTEM

The increase in number of telephones in use in this country has far outstripped the growth in population during the past decade. The new census figures give our population as 122,698,000—16.1 per cent more than in 1920. There are now more than 20,000,000 telephones in use, as compared with 12,000,000 in 1920—representing an increase of 69.2 per cent in ten years, or almost four times the rate of increase in population. As industrial and social standards rise, the telephone becomes increasingly necessary. Modern "high-speed" civilization is largely dependent upon quick, reliable communication, whether with someone in the next room or someone on another continent. The Times-Signal will be closed tomorrow afternoon, along with all other Snyder places of business from 3 to 5, to attend the Roscoe-Snyder football game. Help the Tigers "pour it on 'em." Dad blast them, they swamped our district hopes last year.

THE TEXAS GASOLINE TAX

Gasoline for school buses cannot be purchased free of tax, according to a letter received here by M. A. Williams, county superintendent, from George H. Sheppard, state comptroller. A portion of the letter follows: "The Texas gasoline tax law does not provide for any one to purchase gasoline free of tax with exception of U. S. government employees. Neither does it provide for the refund of the tax on gasoline used in motor vehicles over any of the roads, highways, streets and alleys of this state. Therefore, I would be without authority to approve any claim filed by you for the refund of the tax on gasoline used in your school buses. School buses are used in the Elm-dale consolidated district and the Ovalo rural school district—Abilene Reporter. REXALL IS SALE, NOV. 6, 7, 8. STINSON DRUG CO.

Feeding The Lumberjack

IN the movies, he-men from wide open spaces where men are lumberjacks subsist mainly on a fare of beef and beans served on red-checked tablecloths. In reality, loggers who dump their hobo-hated books into the camp mess-room at supper-time are just as apt to feast on such delicacies as seashore clams, Italian prunes and pineapple from sunny Hula-Hula land. These with plentiful helpings of foods that stick to the ribs, of course, such as pork and hominy and pumpkin pie. Bigger and better food is the demand of the logger who reduces giant redwood, or pine, to stumps on which to stand and look about for more forests to conquer. So knowing the weakness of big strong men for ample body fuel, the camp hayer supplies his men with a variety of canned foods to supplement the fresh foods available in the immediate vicinity. His purchase list reveals unbelievably big orders of canned peaches, apples, apricots, pears, pineapple, figs, blackberries, raspberry, prunes, jams, tomatoes, corn,

Farmer-Philosopher Advises "Stiff Upper Lip" and Don't Be Floored With the Tune: "Ten-Cent Cotton Blues"

Yes, sir, there ain't no doubt right now about agriculture and the farm business being on crutches and havin' awful ruff sailin' with a kombination of the "10 Cent Cotton Blues" and drouth and high priced feed and other supplies at the same time. A word of the farmers is passin' around the hat and holdin' out our hands for some kind of help or charity and doin' a lot of weepin' an' wailin' over our present kondition while the crepe hangers and joy killers is workin' overtime and makin' the best of the chance to take as much joy out of life as possible.

While all this is goin' on it cauzes me to wonder why we dont use weapons and remedies we already have within our reach and at our disposal before we call for any more or at least while we are waitin' for something better and more useful. While I mite prefer ham and eggs and hot biscuits I aint goin' to set around and bellow and starve becauz I cant get em. If there aint nothin' at hand but corn bread and sorghum syrup then I will be a regular and thankful eater of corn bread and sorghum syrup til somethi better shows up.

I am afraid too many of us farmers is like the case of where a young feller and his girl was out walkin' in the good old bygone days and as they sat on a log by the roadside he said to her, "Mary, if you wasen what you are what would you rather be?" and Mary lookin' down and thinkin' the matter over noticed the beautiful, half-opened rosebud she had pinned on her dress, and then she replied, "If I wasen what I am I believe I would rather be a rose just burstin' into bloom so that everyone who come nigh way would love and admire and caress me." Then she turned the question back to her sweetheart and asked, "Now, John, if you were not what you are, what would you prefer to be?" Then John looked down in tryin' to figger out what he would rather be on a second choice and just then he noticed a "thousand leg" (I dont know the experient name of the thing) crawlin' along slowly movin' on all its great gang of legs and then a bright thought struck him and he answered, "I think I would rather be a 1000 leg if I wasen what I am." Then Mary asked in astonishment "What on earth would make you want to be one of those ugly terrible looking creatures?"

"Because," replied John, "I could then admire and caress and embrace that beautiful rose with each of my thousand arms." "Well, John," answered Mary, "I think you are just about the biggest fool I have ever met! Why on earth would you want a thousand arms when you wont use the two you already have?"

And there is a mitty good moral in this story for all us farmers, bankers, merchants or what not—just at this time, why holler for more help when a lot of us flatly refuses and fails to make any effort to use what we already have at our finger tips. I am 100 per cent in favor of all the help and favors I can get but I aint goin' to starve waitin' for it. I am goin' rite ahead and use the 2 arms I have before I make a very loud squawk for a thousand more.

It is true that farmin' has got to where it is somewhat like the little verse that goes as follows: "They sat alone in the moonlight, She smoothed his troubled brow, She said 'My life's been a fast one, But I'm on my last lap now.'"

Regardless tho if it does seem like some of us is on the last lap in the farmin' gain we can only make matters worse by whinin' and talkin' the "dents." There is too many fellers in both town and country who is like old Will Bungle and Polk A. Long and Owen Moore and Bell E. Akers. They are suited just like a possum and waitin' for Uncle Sam and the state or community or banker or somebody or sumthin' to come their way and help get em out of the rut they have cut for themselves for the past 30 yrs. They are at least 90 per cent responsible for the pickle they are in but says the government ort to buy up the cotton crop at a good price or lend em money to hold it for 18 or 20c and at the same time they say the government should make the prices of food and feed come down. None of these birds aint raised nothin' but cotton and hell in the last 15 yrs. (and not much cotton) and have got so far in the hole that the only way they will ever get out will be for a oil gusher to come in on their farms or for some club to buy them for a golf course. What these kind of fellers need is a hole lot more credit at the bank or a lot less of it at the stores. But they wont ever get in that kind of kondition for it will take work to do it and work is the most hated enemy of all to these fellers.

When President Hoover, the inventor of wheatless, meatless and monyless days, suggested 'good old work' as the best remedy for gettin' back to normal times he sure did lose his good standing with Bungle and Hap Hazard and K. Lamity and the J. W. W. (J. Wont Work) crowd for work is the very thing they are most opposed to. That wasnt the advice or remedy a lot of folks wanted to hear. They have knowed about it aint never gained much popularity.

We must all remember too while we are talkin' of farm relief and sick agriculture that we have sick bankers and merchants and manufacturers and railroads and barbers

and lawyers and so-forth, and that all of us is in the same boat and must sink or swim and live or die together. These other fellers and bizness is all bunched up like us farmers and is preyin' much like the 2 Irishmen that was ridin' mule back and when they got to a rail road crossin' the mules was scared and they had a lot of trouble gettin' em across. Finally one Irishman managed to get over and after waitin' quite awhile called to his partner and said, "Pat, why don't you come over here?" Then Pat replied, "Come over there hell! It is all I can do to stay where I am." So it is right now with all of us whether in town or country—it is about all we can do to stay where we are.

But grumblin' and waitin' for "farm relief" aint goin' to get us nowhere or nuthin'. I can take 15 cts. worth of turnip seed and plant em on the rite sort of soil and get more honest-to-goodness, lastin' and satisfactory 'farm relief' from now til the first of March than it will ever be possible for the federal and state governments to give by law to the farmer as an individual. One good milk cow and 2 dozen layin' hens can give more relief and do more to dispel gloom and depression on the average farm than the combined legislative efforts of our Senators and Congressmen from now til dooms day. One days work by the county agent in terracin' land or pruinin' and spraying the orchard or cullin' the poultry flock or a days effort in cannin' or showin' how to sew and cook properly will do more to restore prosperity and agricultural independence and work some "miracles" for we farmers than all the readymade "hand-me-down" legislative cure-alls that will ever come out of Washington or Austin.

Now, none of the above means that I am against any state or government agency or legislation intended to assist the farm peupul because I think a lot of help can come from these sources when us farmers will organize and co-operate together and go about 65 or 60 per cent of the way in doin' the 'relievin'.

But none of these aint goin' to help us but mite little and then only for a short time unless we make use of the things already provided us such as our agents and farm specialists and chambers of commerce and farm papers and bulletins and our A&M College and such like that helps us ever day whether we have rain or drouth or high or low cotton prices. The best help is self help and to get that we must use both our brains and mussels.

Of course there is some fellers in ever community who is like M. T. Head and Polk A. Long and I. B. Shubborn and old Bungle and some others in my neighborhood. They are too smart, in their own mind, to take advice from or follow the leadership of anybody else and they aint smart enuff or industrious enuff to do anythin' for themselves or their neighborhood. The wolf aint just made a visit to the door of this sort of chap—she has got under the house and had pups and the man of this tipe in town or country aint ever goin' to drive the wolf away because he aint willin' to put out the self help.

These fellers is like the old man up in the Ozark mountains said about the corn crop. He said the country was too ruff and the distance too far to carry the corn to market so they just made the crop up in whiskey and then fought it out. There is too many peupul who wants to talk or fite this depression and low prices and hard times out instead of workin' it out.

I am strong as horse radish for gettin' all the extra 'gravy' possible that the government or anybody else may pass out our way but I aint goin' to be big enuff fool to lie around and wait for it. But am goin' to use what is already in reach while I am prayin' and watchin' for somethin' better.—Les Akers in "East Texas."

October Weather Wisdom

If the horns of the new moon are tipped so that the shape of the moon will not hold water, dry weather will follow.
When the new moon holds water, look out for wet weather.
The low, sponge-shaped cloud generally is absorbed by the air and is not an indicator of rain.
If the early morning is cloudy but the clouds soon break up, a fine day will follow.

Along the Mexican border soldiers were searching vehicles which passed close to crossings into Mexico. One evening a car full of young people was stopped and the usual procedure of examining the bottom of the car was in progress, when one young lady asked: "What are you looking for?"

"Arms," replied the sergeant.
"Why," remarked the flapper, "it's all legs down there."

Dry's challenge wets to give post-repeal program.

Frank Phillips, president of the Phillips Petroleum Company, one of Oklahoma's outstanding citizens, who has been a leader in the development and progress of Oklahoma for many years, was recently adopted by the Osage Indians and named "Hulah-Ki-He-Kah," which in their language means "Eagle Chief."

The ceremonial through which he was adopted by the Osage Indians, the first white man ever so honored, was made during the fourth annual reunion and entertainment by Mr. Phillips of characters who have played an important part in the early history of Oklahoma and now known as the "Cow Thieves and Outlaws Association." The event took place on the Frank Phillips 4,000 acre ranch near Bartlesville, Oklahoma.

Indian tradition requires the gift of a pony, a saddle and feather to any newly made chief. In this ceremonial the saddle presented to Mr. Phillips had been in the family of Osage Chief Lookout for over 100 years. It is hand made from bone and the skins of wild animals and considered priceless, having been sought for years by curio collectors and museums. The gift carried a pledge from Mr. Phillips that the saddle will always remain in his family and handed down to his succeeding generations.

TEXAS TECH WILL PLAY T. C. U. OCT. 25

LUBBOCK, Oct. 21—From the wind-swept regions of West Texas a group of fighting Matadors will invade Fort Worth on Saturday, October 25, to battle the Horned Frogs. With the poorest rated material ever to represent Texas Tech, Head Coach Pete Cawthon has a real problem confronting him in meeting the champions of the Southwest Conference.

Among those who journey to T. C. U. will be only nine lettermen out of last year's team which won one game. The team, however, has possibilities and may be depended upon to fight until the final whistle blows. Cawthon and his assistants have managed to develop a team that has defeated tough aggregations from New Mexico A. & M. and McMurry College, but lost the first game of the season to the Husky Wayland eleven.

The starting line-up with T. C. U. has not been decided upon definitely, but it will probably include Teal and Howard at ends, Simmons and McWilliams at tackles, Darr and Ross at Guards, Captain Durham at center, with Woolridge, Dooze, Franz and Brothers in the backfield. Both ends are youngsters of the freshman and intramural teams. McWilliams and Simmons were squad men last year who lettered, as were also Darr and Ross. Captain Jack Durham is playing his second year at center. Woolridge and Brothers are both lettermen while Franz and Dooze are recruits from last fall's freshman squad.

BRIDGE LESSONS THRU TIMES-SIGNAL

Through arrangements completed with Wynne Ferguson, widely known bridge teacher, lecturer and writer The Times-Signal is able to offer a series of articles on bridge. These articles will be released weekly under the heading of "Easy lessons in Auction Bridge." This feature will appear exclusively in this territory in The Times-Signal and will be published as regularly as possible. More bridge is being played than ever before and in order to master the greatest of all games it is necessary to learn the bidding and play properly, and it is essential that a recognized authority be followed. If you are a beginner the lessons will prove a great help and if you are already familiar with the bridge the problems and solutions will afford much wholesome entertainment and recreation.

Don't miss an issue of The Times-Signal. The first lesson appears in this issue.

Irate Master (to negro servant)—Rastus, I thought I told you to get a domestic turkey. This one has shot in it.

Rastus—I done got domestic turkey, sir.

Master—Well, how did the shot get in it?

Rastus—I speeks they was meant fer me, sir.

Bricklayer (new on the job)—Guess I can't work here. There's no place to park my car.
Boss—No, you won't do. We only hire bricklayers who have their own chauffeurs.

Modern granddaughter—But Grandmother, in your day the girls used to set their caps for men!
Grandmother—Well, dearie, maybe so, but certainly not their kneecaps.

Bargain Days. \$1.00 per year.

Velvet Hammer

(Continued from Page 1)

as written in and safeguarded by constitution and law. It is, of course, true—and this is fundamental—that the basest and most dangerous citizen is entitled to this protection. Indeed, it was devised for those most in need of it. So the character of the men in this case, who are held under an old vagrancy law as "public enemies," has nothing to do with the case.

But there are two points that Mr. Darrow overlooks. The first is that the authorities are acting under the law, though there may have been a strained interpretation. Everyone knows that their real offense is not vagrancy though under the statute they may be technically vagrants. It is charged, too, that bonds demanded are too high—\$10,000. Darrow says that the legal bond in such cases is \$100.

The other point is that the authorities are dealing with what virtually amounts to civil war. Chicago has been living under two governments—one of gangland and one elected by the people. That is, they are two except as they have been made one as the result of a partnership or conspiracy between them. The gunmen are not merely criminals—they are traitors and rebels. While the situation may not be such as to justify the application of Cicero's principle—"inter arma, silent leges"—it certainly approves that condition. There was a proposal a short time ago to place the great city under martial law. Instead of that the community is fighting under the law for its good name and safety.

This, as has been suggested, is no ordinary case, but a very extraordinary one. It is true that the authorities are dealing with "public enemies," enemies in a sense that a mere criminal is not. If the community, in order to protect itself, has strained the law—which has not been clearly shown—the "public enemies" have trampled on it, asserted their own will against it, and have recognized no law except those same wills. Mr. Darrow says that he agreed to represent his client because he has "always been close to unions," and that his "services were solicited for that reason." Yet no men have done more to discredit unions than those who have "muscled" their way into them, as Darrow's client is said to have done. We do not believe that the unions will see in Mr. Darrow, in his present employment, a defender of them or their cause.

WEST TEXAS IS TAKING ON ADDED OPTIMISM UTILITY HEAD STATES

West Texas is taking on added optimism and conditions throughout the territory in which the Texas Electric Service Company operates are being advanced back toward normalcy, is the opinion of Lon J. Geer of Sweetwater, district manager of that corporation, who spent a business visit here Wednesday.

Mr. Geer was optimistic in his expressions as to evidences of better business conditions at Colorado. He stated that the merchant, banking and other men of business affairs were viewing the outlook with pleasing anticipation. The sense of depression that was so prevalent had been dissipated since the recent rains over this section, he declared.

The visitor made inquiry as to possibility of the Colorado Wolves coming out with a district championship pennant this season and manifested his usual interest in other matters at Colorado. Mr. Geer and the corporation he represents are most friendly toward this community, as might be said of any community with which they are identified.—Colorado Record.

DATE WEST TEXAS C. C. MEET SET FOR MAY 14, 15, 16

Board of directors of the West Texas Chamber of Commerce in session Saturday at Sweetwater formally approved the dates of May 14, 15 and 16 for the West Texas chamber convention at Lubbock as recommended by directors of the Lubbock chamber.

Lubbock won the 1930 convention last spring in Abilene upon pledging itself to obtain 90 new members in the regional chamber. The mark was passed in a recent campaign for additional memberships.

A nother came in as we were going to press last Thursday, and reminded one that flannel underwear would be a most welcome addition.

"The Fastest Growing Schools In The Southwest"

The Byrne Commercial Colleges located: Dallas, Houston, San Antonio, Fort Worth and Oklahoma City are each in large employment centers.

Byrne Colleges have two slogans: "A position for every graduate"—"We graduate and place you on the payroll at half the cost of others." No term opening, start any day, individual advancement. Each student pursues each subject at his best speed, enabling him to avoid lost time and get on the payroll in the shortest possible time consistent with thoroughness.

Byrne Colleges specialize in turning out court reporters, high salaried secretaries, accountants and executives. Our Complete Secretarial Courses contain eight valuable business studies not taught in other commercial schools in the Southwest. Write the Byrne College nearest you for free catalogue. Investigate our standard courses and our money back guarantee.

Western Union Asked to Lay Money on Line

Privately Owned Company Owes State Plenty of Money

The great State of Texas has finally waked up to the fact that the Western Union Telegraph Company has failed to pay their franchise tax, and has been getting out of it ever since 1907.

The Lubbock Avalanche-Journal in commenting on the matter tells the truth in this fashion:

"Ross Tilley, assistant attorney general, has been commissioned to collect a tidy little sum of money the Western Union Telegraph Company is alleged to owe the State of Texas. More than half a million dollars is involved and it covers payment of back taxes, penalties and interest which the state contends is owed it by the telegraph concern.

"According to the figures of the State of Texas, the Western Union has paid no franchise tax since the year 1907. The Associated Press announces that other telephone and telegraph companies have paid their franchise tax so the fur will likely fly in an effort to make Western Union toe the mark with all the rest of the firms of like nature.

"The Morning Avalanche has made no investigation of the records in the case involved. Its information comes solely through the statements made through Associated Press and credited to the secretary of state and Assistant Attorney General Ross Tilley. However, we suspect that the State will have a sweet struggle in making the collection—knowing the nothing-giving-out-and-all-coming-in policy of the Western Union.

"Regardless of whether the Western Union owes the state, you, as a Texas tax payer may expect the telegraph company to marshal every legal force at its command to side step the matter. Western Union is never philanthropic; no stretch of the imagination could so characterize it.

"The telegraph service company does business in many cities in Texas and throughout the world. No appreciable part of its money goes to help build the communities in which it operates. Western Union leases its quarters, pays its salaries and overhead expenses and, in the vernacular of the West Texan, 'that's the crop.' It accepts and delivers telegrams, money orders and so forth, hires its messengers for messenger service—and that's all. You never find it in the forefront of civic endeavor. You never find it squiring progress locally. It is one of the last of the big corporations frankly admitting that it is interested in nothing, aside from its own business.

"It is firms like the Western Union that The Morning Avalanche delights in seeing 'stuck' for everything the law allows. If the telegraph company owes one dime to the State of Texas, we hope that dime is collected, along with interest, attorney's fees and court costs. Western Union gives no quarter. In our opinion, it should receive none from the public nor from the public's business organization, the State of Texas.

"Local managers, district superintendents and employes are not to be blamed for the policies of the company, which are set by the handful of men who control the concern. The Morning Avalanche

You're Overlooking Something

If you don't Investigate

W. W. DAVIS

SWEETWATER LOCAL MUTUAL ASSOCIATION

Sweetwater, Texas 14-tfc

has heard many Western Union managers and lesser officials bemoan the policies which have made the company a mere bystander at the parade of progress. But sooner or later the czars of Western Union are going to learn that if they want the public to 'play ball' with Western Union, Western Union will have to 'play ball' with the public. The only way to deal with concerns with policies like Western Union's is to deal through the pocketbook. That's the only kind of sentiment the concern will recognize."

The Times-Signal heartily commends the stand of Editor Charley Guy and hopes the newspapers will take this matter up and back the activity of Ross Tilley.

"BARGAIN" ELECTRICITY

A commodity is cheap or expensive in direct ratio to its usefulness. Cost is a relative matter. Judged by this standard, electricity is one of the cheapest things the American public buys. We get it every day in the year at "bargain" prices.

During 1929, the average annual revenue received by the power industry from its 19,528,000 domestic customers was only \$31.00. In other words, for about \$2.58 a month the home owner can buy enough electricity to light his house, run his iron, toaster and refrigerator, and do a number of other tasks. The same amount of illuminating and motivating power, if furnished by any other comparable agency, would cost a great deal more.

In addition, he never has to worry about electric service. It is always there, controlled by the turn of a switch. It is the most efficient, elastic and adaptable power medium ever harnessed by man.

Clothes, food, furniture—practically everything we buy—now cost more than before the war. Yet electricity is sold below the 1914 rate standard.

Facts such as these make it seem all the more amazing that the electric industry has been singled out for political attack. The average person pays less for his power than he pays for his tobacco or candy—and a great deal less than he pays for any other necessity. Perhaps this is why "professional denouncers" seem to be unable to get concerted support in their campaign for socialization of one of our greatest, most progressive and most essential industries.

4-H CLUB WINNERS LEAVE FOR STATE FAIR

Miss Ovella Gannaway of the Gannaway Community, winner of first prize for 2nd year work, and Miss Philomena Wimmer of the German club left Sunday afternoon for the Dallas State Fair. Both young ladies had the best individual club exhibits for the county. They planned on remaining over night in Sweetwater, and will join a large group of club winners, Monday morning and go into Dallas with the group. Mrs. C. Z. Pine, New Hope, Lubbock county, was chaperone for the party that includes girls from Dawson, Lamb, Lynn, Garza and Scurry counties.

Mother Leaves Children And Faces Death

Says Farewell Hard, But Recovery Easy Due to Crazy Water

In May, 1929, I was critically ill with Rheumatism; in fact, I was an invalid and had to be helped around. My husband decided to bring me to Mineral Wells, as it looked as if there were no hope for me if I remained at home. But I had no confidence in Mineral Wells; in fact, I did not believe that anything or any place would relieve my suffering. You can imagine how I felt when I told my children "Good-Bye," when I did not expect to see them again.

I arrived in Mineral Wells on May 10th, last year, and in one week of the Crazy Water Treatment, I was able to walk and thirty days from the time I arrived I was well again, only a little weak. I heartily recommend to everyone suffering with diseases caused by faulty elimination that they spend a few days rest at the Crazy Water Hotel in Mineral Wells, Texas, the home of Crazy Water.

Mrs. F. M. Hilliard, Tulla, Texas.

A colored woman consulted the village lawyer.

"Ah wants to divorce mah husband," she said.

"What's the trouble?" asked the lawyer.

"That nigger's done gone and got religion, and we aint seen chicken on de table fo' two months."

Outstanding features of the new Chevrolet 6-cylinder truck

NEW DUAL WHEELS

6-CYLINDER 50-HORSEPOWER MOTOR

NEW RUGGED REAR AXLE

NEW FULLY ENCLOSED BRAKES

To every man who buys trucks, there are certain features in the new 1½-ton Chevrolet that recommend it especially for modern hauling.

The rear axle is larger, heavier and more durable. The rear brakes are larger, and all four brakes are completely enclosed. Chevrolet's 50-horsepower valve-in-head six-cylinder engine combines modern performance with un-

excelled economy. Dual wheels, along with six truck-type cord tires, are optional equipment at slight extra cost. In addition, the new heavy-duty truck clutch, the 4-speed transmission and the heavier, stronger frame are factors of outstanding importance to the modern truck user.

Come in today and arrange for a demonstration of the new Chevrolet truck!

Society Events

CRUSADERS CLASS MEETS

Members of the Crusaders Sunday School Class of the Methodist Church and several guests were delightedly entertained by Mrs. J. M. Claunch, Miss Loyce Clark and Miss Elva Lemons on Friday evening, Oct. 17, at the home of Mr. and Mrs. C. W. Harless.

The club voted to furnish one Bible for the Emergency Hospital. At the close of the business session, several games of forty-two were enjoyed.

Refreshments were served to the Misses Blanche Mitchell, Vernelle Stinson, Neoma Strayhorn, Jo Halley, Jessyle Stinson, Hattie Herm, Gertrude Herm, Gladys Mitchell, Mildred Harless and Messrs. R. H. Odom (teacher of the class), Warren Dodson, Lee Newsom, Sallie T. Pate, Louise Darby and Messrs. R. H. Odom, Warren Dodson, W. O. Logan, King Sides, Red Hill, J. P. Strayhorn, E. O. Wedgeworth, Nathan Rosenberg, R. P. Tull and Mr. King.

MISS AVARY ENTERTAINS WITH FORTY-TWO PARTY

Miss Grace Avary entertained a few of her friends and guests Tuesday night with a Forty-two party. Place cards were passed, after which the games were started. Much interest was shown in the game.

After several games were played, refreshments were served to Misses Rayolene Smith, Kenneth Alexander, Ruth Gill of Lamesa; Messrs. Herman Doak, Arthur Duff, Jack Isaacs and LeRoy Fesmire.

METHODIST W. M. S. MEETS

The Methodist W. M. S. met Monday at 3 p. m. with seventeen members present.

A short business session was held, after which the fourth lesson of the Mission Study, "Trailing the Conquistadores" was had, under the leadership of Mrs. Lemons.

This is a most interesting study, Cuba being the special subject of this lesson. Much interest is shown and a general discussion was entered into, as Messrs. Strayhorn, Odom and Dorward presented the lesson under advance assignment method.

The next meeting will be a Social and a Missionary program will be rendered.—Supt. Publicity.

B. & P. W. CLUB MEETS

Mmes. Dora Morris and Ida Merrill were hostesses at a meeting of the Business and Professional Women's Club on Tuesday evening.

A report of committees was made during the business session. Nov. 25th was set as the date for the club advertising convention.

"My most embarrassing moment" was the subject of roll call. Mrs. R. E. Gray welcomed the new club members. The purpose of our organization was Miss Effie McLeod's subject. Mrs. Margie Webb spoke on the privileges of club membership. Good programs and their relation to membership was discussed by Mrs. Georgia Martin. Miss Ora Norred gave a piano selection and a reading was given by Miss Netha Lynn Rogers. The parliamentary drill was led by Miss Jo Halley.

Members present were: Mmes. Alma Buchanan, Nancy Caton, Louise Darby, Ethel Eiland, Carrie Gray, Inez Hamlett, Edith Hill, Clara Jones, Georgia Martin, Ida Merrill, Dora Morris, May Rogers, Daisy Smith and Margie Webb.

SUNBEAM BAND

The Sunbeam Band of the First Baptist Church met for organization at the church, Monday, Oct. 20. There were twenty-two children present, and the following officers were elected: president, Lyle Alexander; secretary, Louise Bowers; Treasurer, Morris Lee Johnson.

Mrs. Chas. Noble and Mrs. Clyde Boren are leaders for the Sunbeams. Mrs. Boren led the devotional and a Bible story was told the children by Mrs. Noble. After this the children played a travel game. The children were dismissed with a song and prayer and were then assisted in making some attractive invitations to be sent out to prospective members.

Refreshments were served by the W. M. S. to the following members of the Sunbeam Band:

Charlie Dunn, Junior Cleavinger, Billie Alexander, Lyle Alexander, Douglass, West, Morris Lee Johnson, Kenneth Wilson, Billie Newton, Vernon Ray Kitts, Charlie Wade Boren, Annette Crane, Carolyn Dunn, Nell Verna LeMond, Horance Leath, Ola Margaret Leath, Louise Bowers, Ruth Shipp, Virginia Bell Hampton, Elaine Davis, Geraldine Chapman, Clara Belle Kitts and Marynell Noble.

The Sunbeams will meet again November 3rd and a cordial invitation is extended to any child in the town from 3 to 9 years of age to come and meet with the children. The hour is three-thirty to four-thirty and the place is the basement of the First Baptist Church.

MRS. HARLESS HOSTESS TO EL FELIS CLUB

Members and guests of the El Felis Club were entertained at the home of Mrs. C. W. Harless on Friday afternoon, Oct. 17.

After a brief business session, the usual play of forty-two was enjoyed.

Refreshments were served to Mmes. R. H. Odom, H. J. Brice, W. H. Cauble, Earl Fish, Sidney Johnson, J. C. Dorward, Geo. Northcutt, E. E. Wallace, H. G. Towle, Lee Stinson, Wade Winston, Gertie Smith, A. J. Cody, T. L. Lollar, A. E. Wiese, W. M. Scott, and R. S. Snow, members; and Mmes. J. G. Hicks, Roy Strayhorn, W. W. Smith and S. J. Huestis.

Mothers of Self Culture Club

Mrs. J. P. Avary entertained members of the Mothers Self Culture Club on Tuesday afternoon.

"Good Citizenship" was their subject for study and the following program was given, with Mrs. L. H. Spikes as leader.

Roll Call—Is Good Citizenship Based on Principle or the Party? Women's Responsibility With the Ballot—Mrs. Ethel Wylie. Patriotism and Law Enforcement—Mrs. A. A. Bullock.

General Discussion on International and Interracial Justice. Public Office a Public Trust—Mrs. Will Williams.

Refreshments were served to Mmes. A. C. Alexander, Frank M.

BIRTHDAY DINNER

Mrs. Sidney Johnson complimented her husband with a birthday dinner, on Friday evening, October 17 at their ranch home, and royally entertained a group of friends on this happy occasion.

A lovely turkey dinner with all the trimmings was enjoyed by the guests at 7:30 P. M., after which several games of forty-two were played. At the conclusion of the games, cake and punch were served, each guest having been invited to cut a portion of the large birthday cake according to his or her appetite.

Those present were: Messrs and Mmes. W. H. Cauble, H. J. Brice, Joe Caton, J. C. Dorward, W. M. Scott, Joe Monroe, Hugh Taylor and Wade Winston.

P. T. A. MEETING

The Parent-Teachers Association held their regular meeting on Thursday evening, October 16, with a total of 51 members present.

Mrs. Wade Winston presided, and interesting reports were read by committee chairmen, and plans laid for the Halloween Carnival which will be held at the City Tabernacle on Friday evening, October 31.

The following fine program, arranged by Mrs. J. M. Harris, program chairman, was given:

"The Importance of Good Literature in the Home"—Mrs. E. J. Anderson.

"Spiritual Training in the Home"—Rev. Thos. M. Broadfoot.

"Music in the Home"—Mrs. A. C. Preuit.

"Home Training and Environment Reflected in the Child's Work in School, and Observations of the Teacher."—Miss Effie McLeod.

Refreshments were served in the School Cafeteria at the close of the program.

The next meeting will be held on November 20, at 7:15 p. m.

ART GUILD

Members of the Art Guild met at the home of Miss Jessyle Stinson on Monday evening, Oct. 20, and the following program was given:

Subject: Flemish Art.

Roll Call: My Color and Its Complement.

Van Eyck, Meline—Miss Loyce Clark.

Rubens and Van Dyck—Miss Blanche Mitchell.

Color Technique—Miss Vernelle Stinson.

Refreshments were served to Misses Opal Wedgeworth, Effie McLeod, Mattie Ross and Maurine Cunningham, Aileen Powell, Claribelle Clark, Blanche and Gladys Mitchell, Elva Lemons, Loyce Clark, Vernelle and Jessyle Stinson and Alma Nelle Morris; Mmes. Joe Caton and C. R. Buchanan. A song by Miss Maurine Stinson was greatly enjoyed by all present.

ALPHA STUDY CLUB

Mrs. Ivan Dodson entertained the Alpha Study Club Tuesday afternoon, at the home of her mother, Mrs. R. H. Curritte.

"Eight-Seeing in London" was the subject of their lesson, and the following program was given with Mrs. Wayne Boren as leader:

Roll Call—Interesting Places in New York.

England's Most Famous Shrine, Westminster Abbey—Mrs. Forest Sears.

England's Houses of Parliament—Mrs. Melvin Blackard.

Literary London—Mrs. Alfred McGlaun.

Some Churches—Mrs. Joe Graham.

Some General Impressions—Mrs. C. B. Clark, Jr.

Royal Residences—Mrs. Wade Winston.

Leader: Questionnaire—Mrs. Wayne Boren.

Delicious refreshments were served and those present were Mmes. Clyde Boren, Forest Sears, Charles Noble, Wayne Boren, Albert Norred, Wade Winston, C. P. Sentell, J. E. Sentell, G. B. Clark, Jr., Ixon Joyce, Wayne Williams, Bill Miller, Homer Snyder, Alfred McGlaun, Joe Graham, Melvin Blackard, J. P. Nelson and the Misses Neoma Strayhorn, Hattie and Gertrude Herm.

FOR THE FARMER

It is announced that the salvaging of old macadam and gravel roads and the building of farm-to-market roads as a farm relief measure, a stimulant to unemployment, a means of increasing the amount of freight handled by the railroads and a traffic relief aid on congested highways, will be featured subjects at the Ninth Annual Asphalt Paving Conference to be held in Memphis, Tennessee, from December 1 to 5. These problems will be discussed by authorities from American Farm Bureau Association, American Automobile Association, American Association of Railway Executives and others.

One of the "real" agriculture problems is lack of adequate, year-around road facilities. The average farmer is cut off from the outside world during months of each year by impassable roads which become a series of mud-holes with the first rains.

It has been demonstrated that long-wearing, weatherproof surfaced roads can be constructed and maintained in rural districts at a low cost by various asphaltic and road oil processes.

If the coming road conference accelerates secondary road construction, it will have done more for the farmer than theoretical "farm relief" experts.

SCURRY COUNTY MAN SEEKS BANKRUPTCY

According to an announcement carried in Tuesday morning's Abilene Reporter, a petition seeking judgment in bankruptcy was entered in the United States district court at Abilene on Monday of this week for Samuel S. Astin.

Finance schedule accompanying the plea, filed with Deputy Clerk Ida M. James by the law firm of Seabrough, Ely and King, listed assets at \$4,675 and liabilities at \$4,640.59. Exemption is claimed on property valued at \$675.

COUNTY AGENTS ARE ATTENDING REGIONAL MEET AT SAN ANGELO

W. O. Logan, Scurry County Agent, and Miss Jessie Lee Davis, Home Demonstration Agent, are to be in San Angelo the last four days of this week to attend a regional meeting of county agents. Approximately 200 agents representing five of the nine state districts are to be in attendance at the annual conference, at which reports will be made and plans for the ensuing year will be outlined.

The meeting is to be held in connection with a turkey grading school.

Miss Mildred Horton, state home demonstration agent, will be in attendance from A & M College extension department to direct the sessions.

WOMEN PROPOSE TO BUILD CLUB HOUSE

If it be true, as generally believed by the genus homo, that whatever a woman makes up her mind to do a thing she will do it despite all obstacles, then there is no doubt but that the one hundred thousand dollar club house which is proposed to be erected in Austin as permanent headquarters for the Texas Federation of Women's Clubs, will be realized. Mrs. R. F. Lindsay of Mount Pleasant, upon her accession to the state presidency a year ago, announced as one of her objectives the building of this home. Mrs. Lindsay is an experienced business woman and when she sets a goal she drives unhesitatingly to it. In the face of the financial depression which has obtained, there is an admirable courage in her unshaken purpose. Tightness of money, however, is no barrier to a well matured sentiment. For thirty years, or since the organization of the Texas Federation of the Texas women to own a home which would be a pride to our state and a fitting monument to the ideals and principles of the organization. With the beginning of the year Mrs. Lindsay named as her committee chairman, Mrs. James Weider of Victoria. The presidents of the seven districts together with Mrs. Sam J. Smith of Austin were added as members, and together they thought and planned. At a meeting in the city of Houston September 15th, plans and specifications submitted by Henry Coke Knight of Dallas, were adopted and simultaneously a working plan of financing the project was announced.

The building will be a commodious structure of red brick with white trimmings in the Colonial type of architecture. The floor plan is H-shaped. Massive white columns support the pediment at the entrance, which leads to a vestibule whose floor laid in mosaic outlines the Lone Star and the Federation insignia. The reception hall is in the center with spacious lounge and library rooms on either side; these connecting by arcades with the art gallery on one side and the tea-room, back of which is the kitchen. On the other; each wing bearing perfect symmetry with the one opposite. In the center of the figure H is the office, which has independent connection with the street on two sides. A starway leading to an ample basement containing vaults there the records and valuable possessions of the federation may be kept, with space provided for each of the seven districts. The Federation News will be housed in this new home. There will be a reading and writing room dedicated to the veterans of the world war. In a recess of this room, provided with a sky-light, will be found three bronze tablets upon which will be engraved the message to posterity of how it was done, under the plan of financing hereinafter described. Back of the office will be found a large auditorium facing the street opposite the front of the building. This auditorium will house stage facilities so as to make it practicable for lease to little theatre organizations. Or, it may be used as a concert, lecture room, ball room or large reception hall. The wings on this side of the building are cut into smaller rooms which may be utilized as beauty salon, flower and gift shop or other practical purposes appealing to women's fancy. On the second floor of the main building a number of suites of rooms will be maintained for the comfort and convenience of members of the federation who come at any time as guests to the city.

Under the plan of financing the proposition, the privilege is extended one thousand people to give one hundred dollars each. Their names would be engraved upon the large bronze tablet as founders. However, opportunity is at the same time given the clubs or individuals who will give in excess of one hundred dollars, to become patrons, and the names of such clubs or individuals will be engraved upon the patron's tablet. The In Memoriam

ASTHMA REMEDY HELPS MAX ELSER

Recently Max Elser of Cisco wrote The Times-Signal concerning a remedy for bronchial asthma. We wrote him that Stinson Bros. Drug Store had a prescription that had cured N. M. Harpole.

Mr. Elser proceeded to order a bottle and under date of Oct. 18 says:

"Dock Smith, Times-Signal:

"It affords me great pleasure to report that the medicine that cured Mr. Harpole of bronchial asthma also cured me and in short order; in 3 or 4 days after I started taking, my cough and wheezing stopped.

"In the 6 or 7 years during which time I had the complaint, I used about a dozen doctors' prescriptions and as many patent medicines with no results. I certainly am indebted to you."

(Signed) MAX ELSER.

Glamorous Islands of Spanish Main to Play Host To Thousands of Travelers During Coming Winter

Old Man River not only keeps rolling along but Old Man Winter rolls around on schedule time each year with his snow and slush and chill blasts from one of the poles over which Byrd flew. Byrd did not tarry long as Old Man Winter's guest, nor do those fortunate ones who leave New York in January or February for the joyous Isles of the Spanish Main—the West Indies, with their warm sunshine and cool breezes, turquoise waters edged by golden sands, exotic cities, pirate haunts, swaying palms, blue mountains and green fields, cane fields, coral reefs, submarine gardens and the dimpling seas of the historic and picturesque Caribbean.

One of the largest vessels scheduled to cruise to the West Indies during the forthcoming season is the 20,000-ton Canadian Pacific liner Duchess of Bedford, which will sail on two 20-day trips from New York, one commencing January 9 and the other leaving on February 11, 1931. Travelers on these expeditions will visit Bermuda, beautiful Isle lying in the warm Gulf Stream, Havana, the Paris of the New World, Porto Rico, one of Uncle Sam's possessions, Trinidad, La Guayra and Caracas on north shore of South America; and the world famous Panama Canal—these and many other places with their strange peoples, stranger

ODD BITS

The smaller cities and towns of Texas have been the first to evidence symptoms of definite recovery from effects of the depression. In fact, every indication suggests that these smaller communities will lead the pageant of progress and prosperity in the coming decade. Industry looks to the town and the village, and industry is locating in the towns and villages. Farmers, not so "short" as the alarmists would have us believe, are beginning to put money in circulation—money which, as yet, hasn't found its way to the larger centers of production and distribution. . . . The primary process in prosperity is underway.

The Plainsman, of the Lubbock Morning Avalanche, pulls the week's best when he says: "A Lubbock mattress factory discharged an employee this afternoon. He was found lying down on the job."—Editors of Month.

COUNTY AND H. D. AGENTS TO MEET

Miss Jessie Lee Davis, Home Demonstration Agent, left late Tuesday afternoon for Sweetwater for a special district meeting of the lady demonstrators. She will then go to San Angelo with the others for a meeting of five districts of Home Agents and County Agents.

County Agent W. O. Logan went to Lubbock Tuesday afternoon late for a special meeting of the men Agents in this district, and from there the bunch will go to San Angelo and join the meeting of five districts of County and Home Demonstration Agents.

It is **More Economical** to Make **Full Use of Electric Service**

Electricity is no longer a luxury and electric appliances are no longer considered something to display, but never to use. The modern housewife has found that the electric way of doing things is the cheaper way. For a few cents she saves her time, her strength and her health. She knows that there is no excuse for a woman doing hard work that a small electric motor can do for a fraction of a cent an hour.

The Texas Electric Service Company gladly will prove to any customer why it is more economical to make full use of electric service. A nickel or two is pitifully small when it prevents eyestrain and headaches caused by reading in a poor light. A few pennies to operate an electric fan during warm evenings, to clean the rugs in the morning, to wash the clothes once a week are insignificant compared with the comfort they give and the amount of labor they save.

So it is with all electric appliances. Household electric appliances have been designed for specific needs and have demonstrated their value over a period of years. Their very usefulness has caused them to increase in popularity. The idea that such appliances are luxuries has long been thrown into discard.

Electric merchandise sold through the Texas Electric Service Company must give customers the greatest degree of service and dependability at the lowest possible cost. Only merchandise of high standards which has met exhaustive tests of our own engineers is placed in salesrooms of the company.

DID YOU EVER STOP TO THINK
 By Edson E. Waite
 Shawnee, Okla.

Charles Spencer, manager of the Independence (Kansas) Daily Reporter, says:

That the first big casualty in the automobile manufacturing business followed this concern's advent in the radio advertising field on a big scale two years ago, although it was supported by internationally known artists and was the first big program of the kind purchased as an advertising argument. This campaign was a complete flop, and soon thereafter this make of car was taken over completely by another manufacturer.

Despite this experience, other automobile manufacturers followed persistently into the radio advertising field, cutting their newspaper schedules as a means of offsetting this expense, and timed with the adventure the slump in the sale of new cars was plainly evident.

Timed with the present slump in business, which is a failure to create the normal buying desire for there is quite as much money today as there was two years ago, is the advent of the radio as an advertising medium.

From time immemorial the purchasing desire has been created by the printed word and illustration—a message through the eye—yet it is taking no small period of time for the business world, big and little ones alike, always bent on advertising innovation, to learn another lesson through costly experience.

The upturn of general business will be governed by the impetus which business hurries back to the fold of advertising certainties, a message through the eye by the printed word and illustration and by means of the press, which is the educational menu morning, noon and night with our mass of buying humanity.

Bargain Days. \$1.00 per year.

Dr. P. W. Horn Accepts Task Bringing Texas Geographies Up To Date

Task of attempting to bring Texas geography up to date, in the face of rapid progress and change in production of the state, has been accepted by Dr. Paul W. Horn, president of Texas Technological College of Lubbock.

Widely known Texas educator, former president of Southwestern college at Georgetown, Dr. Horn has pledged his services in cooperation with publishers of two geographies to eliminate obsolete data, old pictures and erroneous references to the state. The errors are mostly of omission, and of relying on data now out of date.

Task Boiled Down
 The task of correction has been boiled down to only two of the five geography books used in Texas schools. One assignment is to modernize maps, pictures and figures of McMurry and Parkins' elementary geography published by the McMillan company. The other is to make similar revisions in the main text of the advanced geography by Dodge and Lackey, Rand McNally & Company, and to entirely re-work the 52-page supplement to the book.

West Texas Chamber of Commerce was one of three regional chambers in the state whose efforts to have the books modernized won unanimous support of the state board of education. Subsequently, the text book revision commission asked the book committee for action to provide correction and addition. A million-dollar libel suit against geography publishers was threatened by the West Texas chamber in its fight against erroneous and obsolete data pertaining to West Texas in school geographies.

Maps Out of Date
 Supplement to the advanced text by Dodge and Lackey shows evidence of patchwork in an effort to bring 1922 figures up to 1923. Its cotton maps are out of date, though its oil and gas maps are true for

petite. Furthermore, the digestive organs will not be able to change that grain into milk unless it has the roughage to help in the process.

It is a well known fact that in herds where the same grain ration is fed, the cows which give the most milk are the ones which eat the most forage.

A good rule to follow is to give the cows all the roughage they will eat, and add to it an amount of grain that is necessary to meet the nutritive requirements.

(Copyright, 1930, by Dr. L. D. LeGear, V. S.)

DISCRIMINATION AGAINST THE FARMER
 Extracts from Speech of Hon. Marvin Jones of Texas
 In the House of Representatives July 2, 1930

Legislation which grants undue privileges to one group of citizens or which places an undue burden on another strikes at the very foundation of our institutions.

The gravest danger to our country is not the soap-box orator, bad as he sometimes is. Let us not mistake the form for the substance.

The most insidious danger is the selfish complacer, the man who through combination, monopoly, merger, and the stifling of competition seek and secure an unfair advantage in the law and in the economics of our country.

The man who would sell his country's birthright for a mess of pottage is a far more dangerous enemy than the theorist.

The real damages therefore—
 First, Special privilege legislation.
 Second, Monopolies, mergers, trusts and unfair trade practices.
 Special privilege is the merit on which monopolies, mergers and trusts feed. The farmer has been the victim of these burdens.

For many years the manufacturing interests of America have been laboring under the banner of protection. Behind the tariff wall, they have prospered through the medium of increased prices. During all these years the farmer and ranchman have had very little protection.

On certain commodities, which they produce in surplus quantities, no direct schedule can be given equality in any tariff system.

Industry has a bounty now. They have reduced railway rates when manufactured articles are exported.

For instance, when iron and steel are shipped from Pittsburgh to New York for domestic use the railway rate is 34 1/2 cents per hundred. When intended for shipment abroad the rate between the same points is 29 cents per hundred.

On fertilizer shipped from St. Louis to Galveston the domestic rate is 36 cents per hundred, when intended for export the rate is reduced to 23 cents per hundred. On farm implements shipped from Chicago to New Orleans for domestic use the railway rate is 73 cents per hundred; when intended for export the rate to New Orleans is reduced to 47 cents per hundred.

What are these but bounties for debentures? Why is it sound for industry and un-sound for agriculture?

If it is right to encourage the corrugation of iron and steel, automobiles and farm implements by reducing railway rates on exportation, why would it not also be wise to make these reductions apply to wheat and to cotton?

Behind tariff discrimination, be-

HELPING TO BUILD TEXAS

Liberty is finding a ready market for haled moss and is developing a new industry in that section where most of the trees are festooned with moss. The Arlington Hotel, Marlin, is to be enlarged and improved by expenditures of \$75,000. Santa Fe is to let contract for another large building for its Clubhouse shops, part of a building program involving several million dollars. Haskell Telephone Co. has been bought by the Associated Telephone Utilities Co. of Chicago, an Insull company. Exchanges in twenty-six towns in that section were involved in the sale.

Using what probably was an ancient channel of the Rio Grande now known as Arroyo Colorado for a navigable channel from Harlingen to the Gulf is a project on which hearings have been conducted by Federal engineers. The stream varies from five to thirty feet in depth and extends from within a mile of Harlingen to Laguna Madre. The navigation district with \$5,000,000 in bonds voted will offer this to the government for dredging and straightening the stream and dredging Laguna Madre to Port Isabel if the government will maintain the channel; or it will lend the \$5,000,000 if the government will extend the intracoastal canal from Corpus Christi to Harlingen and Port Isabel.

Beaumont is interested and gratified at reports of a \$2,000,000 expansion of one of the big refineries there. A hat company that will employ 300 workers and produce from a million and a half to three million harvest hats annually has been chartered at Laredo.

Advent of oil interest has brought about change of ownership and plans for a 50-room addition to the Whitson Hotel at Henderson San Antonio is to have a new hotel, Swiss Plaza Apartment, costing \$1,000,000, according to plans that have been asked for.

Brownwood reports plans for coloring No. 19 from there to the Colorado river, and the same highway from Brownwood to the Comanche county line, a distance altogether of about 34 miles.

A \$1,000,000 project is in prospect for Fort Worth with plans ready for bids. San Benito will celebrate the opening of its new airport on Armistice Day. Galveston is acquiring a site for a new airport, and most of the Texas towns that haven't such an important convenience are planning to supply their deficiency.

First Baptist Church, Denton, will be remodeled at a cost of \$25,000. San Benito Presbyterians are raising \$40,000 for a new church. First M. E. Church, South Weatherford, will erect a two-story concrete and tile Sunday school annex. Dallas Christian Scientists have started work on a handsome new building.

World's coconut crop amounts to 8,000,000,000 coconuts yearly.

A GAY GHOST PARTY

HUSH! Is that a witch on a broomstick, or only a queer shadow bobbing for apples, across the moon? Is that a black cat or a shadow out there in the yard? Was that sound an owl hooting in a tree or merely an automobile horn?

Pleasant thrills have titillated the spines of myriads of people ever since the dawn of Christianity on "holy eve," known throughout the English speaking world as "Hallowe'en," which is the evening before "All Hallow's" or "All Saints' day, November first.

This is a time for ghostly tales by the firelight, and merry fun as bobbing for apples, and ascertaining your matrimonial future by means of many time-honored tests. But provision must be made also for the "eats" if you are going to give a Hallowe'en party, so here is a suggested menu with appropriately spooky names for the various dishes. It should be served in an appropriate setting of Jack O' Lantern pumpkin heads, black cats and witches wearing tall conical hats.

Here's the Menu
 Spook Cocktail
 Witches' Thin Broth
 Cauldron Tomatoes
 Roast Squab
 Shoe String Potatoes
 Black Cat Nuggets
 Hot Biscuit
 Frozen Erie Salad
 Broomstick Pudding

Coffee
 After you've finished admiring the special Hallowe'en names of these dishes, you will undoubtedly want to know how to make them. So here are the recipes, calculated to serve eight people each.

Spook Cocktail: Drain one No. 2 can of sliced peaches, and cut very fine. Mash three bananas and add one cup of white grape juice, stirring until smooth. Add the peaches, six tablespoons lemon juice, four tablespoons yellow syrup and two tablespoons white grapes. Meanwhile soak one teaspoon gelatin in four teaspoons cold water, then dissolve in the boiling hot syrup from the can of peaches. Add to first mixture, cool, and pour into refrigerator trays or into an ice cream mold. Freeze to a mush, stirring several times. Be sure not to freeze solid, and serve in glass cocktail cups.

Witches' Thin Broth: is simply the consommé you can get in cans, but the Cauldron Tomatoes require careful preparation.

The Main Dish
 Cauldron Tomatoes: Cut a slice from eight ripe tomatoes, and scoop out the centers. Sprinkle inside with salt. Boil one-half cup rice, and drain. Make a white sauce of four tablespoons butter, four tablespoons flour and two cups milk, add one-third cup grated cheese, and stir till melted. Season to taste with salt and pepper. Break the contents of one 3 1/2-ounce can of sardines into small pieces, and add; then combine the sauce with the rice. Fill the tomatoes with this mixture, cover with buttered crumbs, and bake in a hot oven for about fifteen minutes.

Have You Answered Questionnaire?

We are now tabulating the returns to the questionnaire sent out recently, and if you are not in it would help us out in making a complete survey. From these questions and tabulations the County Committee, appointed by Governor Moody, will expect to base their knowledge of your needs for food and feed for another crop. If for any reason you have overlooked filling out yours, it will be well for you to see the County Agent or Secretary of the Chamber of Commerce, get a blank and fill same out. This will be to your own interest if you are in a position to expect to call for loans, etc., for another crop. While nothing definite has been arranged, the County Committee has been active and meeting and we believe your cooperation will help us get things shaped to ask definite assistance.

The first trans-Atlantic cable was laid in 1866.

CLUB BOYS RETURN FROM STATE FAIR
 The two winning Club Boys returned from the State Fair at Dallas last Friday. The boys, Jim Stirling of Canyon, won his trip by growing 3600 pounds heads of milo on an acre, that had been terraced and was handled so as to hold water on the land. Ivan Hardy of Crowder won by growing something over half a bale of cotton to the acre on six acres. He hasn't finished gathering but will have a good return. These boys were guests of the Fair Association along with 250 other prize winning boys from one hundred counties.

As a general thing, after a warlike nation achieves its destiny it wants to achieve some other nation's—Beeville Bee-Picayune.
