

SNYDER TIGERS DOWN ROSCOE IN CONFERENCE BATTLE

ROSCOE: HOWDY!

Our hats, everything about us is off to the Snyder Tigers this week. The greatest moment in our life last week while in Dallas, was camping at the office of the Dallas News to hear the results of the game here. When it came through, we said "whoops" out loud, and the newspaper boys wondered what was the matter with us until we told them what we had written last week. Our hearts are thankful to that group of Tigers who upheld, out-fought and out-smarted our good friends from Roscoe. Not only do we thank the team on behalf of every true booster for Snyder, but likewise do we say "howdy" to Coach Red Moore. It was wonderful work. Let's all get together for Colorado, Armistice Day.

The Velvet Hammer returned to the old home town last Monday night, were behind in our work. J. W. is twisting words out of the linotype this week so everybody has their hands full so we want to steal a few things from Editor Frank Grimes, of the Abilene Reporter-News who in turn re-wrote his columns from various West Texas papers. Among other things, the following was said:

"This weather is still a mess, as Andy says," remarks the Brownfield Terry County Herald. "The farmers are worried because they can't work and the business men are worried because the farmers are."

The Western Enterprise at Anson quotes a former Ansonite now resident in San Antonio, to the effect that during a recent rise on one of the Concho rivers, the water actually flowed upstream for a time. A creek over near Breckenridge did the same thing not long ago, according to the Breckenridge American.

Mitchell county is entering the winter with one of the best "bottom" seasons ever known, reports the Colorado Record. Four inches of rainfall in October up to last week followed an inch downpour September 27.

The Lamesa Reporter, in a historical mood, declares that when Coronado, the Spanish explorer, returned from his search for the Seven Cities of Cibola, he camped at a spot ten miles southwest of where Lamesa now stands. That was a long time ago—nearly four hundred years.

The Pecos Enterprise lost its most distant subscriber the other day, when a reader who had spent the summer in Sweden returned to Pecos.

The Rotan Advance reports that 7,000 acres have been planted to wheat in the Rotan county during the last two or three weeks.

Fall pasturage, including turnip patches, has turned out about as expected—a complete success, in the opinion of the columnist of the Stamford Leader.

The ballot on November 4, will be an expensive thing. The Robert Lee Observes, as a matter of information for its readers, printed the official ballot for the general election—and it took a full page in the paper. There are four parties each with a column—democrat, republican, socialist, communist and a blank for good measure.

The Clyde Enterprise reports a brisk demand for back numbers of that newspaper. It seems that Clyde and Callahan county have produced some star-football players in times past and the rival football teams want the back numbers to check up on the players.

The city of Baird will have an election November 5 to determine whether or not to issue municipal bonds in the sum of \$106,024.98 for the purpose of refunding existing indebtedness of that amount. Mayor H. Schwartz assures the taxpayers through the Baird Star that the issue will not affect the tax rate.

Scurry Farmers Have Sown Big Wheat Acreage

The recent fall rains has caused farmers of Scurry County to sow the largest acreage to wheat of any year during the past fifty according to information given the Times-Signal this week. Authoritative information places the acreage for Scurry county at twelve thousand acres. Hundreds of farmers have sown only a few acres which will be used principally for pasturage during the winter months which will assist materially in cutting down feed bills, while others have sown fields running into the hundreds of acres.

Farmers from every section of Scurry county report they have an excellent stand already up and abundant moisture to give the wheat a splendid start which will afford good early pasturage.

The cotton acreage in this county will no doubt be cut considerably in 1931 provided the wheat receives sufficient moisture during the spring months to carry it to maturity.

Bargain Days. \$1.00 per year.

Special Drouth Aid Sought In Colorado Meet

Judge Horace Holley Named on Special Committee

Seeing state aid as the most practicable means for supplying drouth relief, West Texans in session at Colorado Tuesday moved to secure a united front in seeking a special session of the next legislature which would consider appropriations to purchase county warrants issued to meet emergency needs.

A resolution was adopted asking all drouth relief agencies—including Governor Moody's committee, the West Texas chamber of commerce drouth aid group, county committees and drouth relief organizations of county judges—to hold a mass meeting at which an effort will be made to unify all agencies, so that a representative committee may resubmit an appeal to Governor Moody to call the special session.

The county judge's drouth committee was organized, Judge C. C. Thompson of Mitchell county, named chairman, called a meeting of all county judges in this area, to be held at Sweetwater October 31. Judges, in turn, will be asked to perfect stronger organizations within their own counties. Other members of the new organization include Judge Horace Holley, Scurry county; Judge R. R. Patterson, Fisher county; and Judge O. W. Lee, Knox county.

Judge Holley was named secretary of the committee, which will take the initiative in banding all drouth relief operations into one working unit. Plans for placing a forceful appeal for the special legislative session will be mapped at the Sweetwater session, to be held in the district court room there beginning at 10 a. m., Friday.

COLORADO COMING

The Wolves defeated Roby, Friday, 12 to 0; they played a tie game with the Roscoe Plowboys.

On paper, the Snyder Tigers should defeat them for the Tigers licked Roby 25 to 6, and Roscoe, 20 to 7.

J. I. Burroughs Of Dermott Wins Prize Of \$3795

Wins First Prize In Household Guest Magazine Contest

J. I. Burroughs of Dermott, widely known citizen of that community had again won a cash prize of \$3,795.00 by securing first position in a circulation contest of the Household Guest Magazine.

During the course of a year, Mr. Burroughs turned in a total of 28,040,000 votes to win the first honors. This is not the first time that the Dermott gentleman has won honors in such a contest, as he was first honor winner last year.

Congratulations are in order.

A LETTER FROM J. M. CLAUNCH

Dear Gang:

I enjoy the Times-Signal, and especially have I enjoyed your accounts of the Tigers splendid season to date.

Now to politics: I believe the amendments to be voted on next month are a step in the right direction. I further believe that an open, frank discussion in your columns will add materially in putting these over. Once a voter gets interested enough to study them carefully he will surely see their merits. Certainly West Texas has nothing to lose in a whole-hearted support of them at the polls.

Very sincerely yours,
J. M. CLAUNCH,
2409 Whittis,
Austin.

M-SYSTEM UNKNOWN BUT WELCOME VISITORS

When the folks that open up at the 'M' System store in the mornings come to work, Monday, they found a nice tabby-cat had brought her litter of four kittens in and deposited them in an empty box. While they were unknown practically, a Times-Signal visitor, Tuesday found the ma-cat had plenty of milk and food at her disposal and that sort of life is real when dumb animals are taken in and welcomed. The store will get its thanks with the rodents the newcomers will bring in for their lunches, later.

BANKS WILL CLOSE

Banks will be closed next Tuesday November 4, owing to the day being General Election Day.

Rain—plenty of it.

TURNER SCHOOL OPENS

On October 26th, the Turner School opened its doors to about forty students. The teachers for the coming session are Mell Thompson, principal, Victor Drinkard, Intermediate and Miss Tiny Potetz primary teacher, while W. E. Clark, George Brumley and Tom Crawford are trustees.

The people of this community are strong believers in educating their children. As usually, they had the true spirit about them, because they were right on hands the 1st day of school to clean the grounds and get them ready for the coming term of school. This is one community that believes in having clean, tidy school buildings and grounds for their children as well as good surroundings in their homes. This can not be said of every community.

Although the busy cotton picking and feed cutting season were here the following men let their work go and were present and gladly loaned a helping hand: Will Taylor, George Brumley, C. W. Holt, C. E. Eastman, Clarence Williamson, L. M. Irion, W. E. Clarkson, A. Spivy, Raymond Bates, Elbert Williamson, Henry Birdwell, F. D. Walker, and Jolly Irion.

The community is looking forward to one of the most progressive terms of work in the history of the school.

Halloween Will Bring P. T. A. Boosters Here

City Auditorium Will Be Scene of Gala Event For Patrons

Boosters and members of the Parent-Teachers Association are making great progress for their Halloween Festival that will be held Friday night at the City Auditorium. Invitations have been issued to all four corners of the county that visitors should come in costume and add to the enjoyments of the evening. A costume parade around the square starts at 7:30.

The eating booths will be open at 6:30, and the following members will be in charge of their special department:

Hot Tamale and Chili—Mrs. Fritz R. Smith, Mrs. Charlie Glen, Mrs. John Spears, and Mattie Ross Cunningham.

Hamburgers—Mrs. W. C. Hamilton, Mrs. R. L. Gray, and Miss Joe Halley.

Cake, pie, coffee, milk—Mesdames Dorward, Cauble and Claunch.

Halloween Novelties—Mesdames Wallace, Harless, Keller, and the Misses Underwood and Alma Nell Morris.

Fortune Telling—Miss Maurine Cunningham.

Apple Bobbin—The Misses Vernelle Stinson and Opal Wedgeworth.

Fishing—Mrs. J. Nelson Dunn, Mrs. B. West, Mrs. Jack Harris and W. F. Cox.

Penny Arcade—Mrs. H. G. Towle and Mrs. J. C. Stinson.

Side Show—Tight Rope Walking in charge of Mr. and Mrs. Otis Moore and Miss Lucile Brown.

Everything will be "but a nickel" so don't miss a single bit of food nor amusement. Program to be rendered following the Costume Parade around the Public Square will be entirely free. Besides orchestra music, there will be a special dance number by the Misses Marilu Roscoe and Lucile Brown and singing numbers.

Mrs. A. C. Preuit, and Mrs. W. W. Hamilton will arrange for the judging of costumes in which prizes are to be awarded.

Mrs. W. R. Bell has been special chairman of the event which promises to be one of the most finely attended and enjoyable occasions ever offered home folks. The publicity of this story was made possible through Mrs. John Keller.

COUNTY AGENTS HOME FROM MEET

W. O. Logan, county agent and Miss Jessie Lee Davis, county home demonstration agent have returned from San Angelo where a five-district convention of West Texas agents was in progress last week. Approximately 250 men and women were in attendance.

The program consisted principally of outlining plans for next year, Mr. Logan declared. Two meetings were held jointly with students attending a turkey classing school.

BORDEN COUNTY JUDGE IN SNYDER YESTERDAY

Judge D. Dorward of Gall, head of the judicial activity for Borden county was in Snyder, yesterday, getting some dental work done. The judge reports they have had plenty of rains but not much water. They have a splendid season in the ground but need more stock water. Judge Dorward has many friends in this section who are always pleased to meet and greet this well known section booster.

Texas Made Clothes Show At Dallas State Fair Dinner

Governor Dan Moody, guest of honor, and John W. Carpenter, toastmaster, are shown arriving at the Dallas State Fair Dinner in their Texas-made clothes. Though the suits were of white cotton Gov. Moody declared that "Texas-made clothes are never out of season." Both Mr. Carpenter and Governor Moody wore suits, shirts, socks, neckties, underwear, and handkerchiefs made by the Pool Manufacturing Co., of Sherman, Texas. Hats were furnished by Willard and Davis Hat Cos. of Dallas and shoes by H. J. Austin & Sons of Fort Worth. The more than one thousand people gathered at the tables set under a huge circus tent at the State Fair Grounds were unstinting in their praise of the dinner and were equally enthusiastic in the applause with which they greeted Gov. Moody, Senator Connally and other speakers.

FOOTBALL FRIDAY

The Snyder Tigers will play the O'Donnell High team here tomorrow afternoon. "Chubby" Ritzenthaler, former Snyder resident will accompany the team here. The "gang" is getting all set, according to Earl Fish to give the team and "Chubby" a real welcome.

TEXAS & PACIFIC NEW RAIL RATE EFFECTIVE NOV. 1

Reduction of railroad passenger fares from 3.6 cents per mile to two cents per mile over the T & P. line from Ft. Worth to Big Spring was authorized by the state railroad commission, Tuesday.

BLACKBURN NO. 1 DRILLING AHEAD

Depth of the Selfert-Dibble No. 1 Blackburn was 375 feet, yesterday.

A CREED FOR THE DISCOURAGED

I believed that God created me to make the world more happy by serving others, by being useful to my country and an honor to God. If I fall in these things, it is I who have failed; not God.

I believe that the trials which beset me today are but the fry tests to strengthen me for the higher and nobler contests of tomorrow.

I believe that God is the architect of my fate, the master mechanic of my destiny.

I believe that soul is too grand to be dribbled out by the petty undertakings that cannot last and that cannot build for eternity. Such will only bring me to defeat and my soul to its end in nothingness.

I believe that my soul was intended to be slave to the circumstance of an evil surrounding, but master of its own environment, selecting the good and rejecting the evil.

I will anchor my soul in faith, tie my hope to the Morning Star, grapple with evil when it opposes, match my strength with the strength of error, and use the ashes of my crumbling fortune for brick and mortar in a house that shall stand forever. God as my helper, I shall not fall; for I am immortal.

Thomas M. Broadford, Pastor,
First Christian Church.

Livestock Men Will Welcome New Agreement

County Agent Logan Receives New Advice From Farm Board

Livestock interests of the section will be genuinely interested in a letter received by County Agent Logan, yesterday, from the Fort Worth offices of the Federal Farm Board.

The letter stated:

Mr. W. O. Logan,
Snyder, Texas.

Dear Mr. Logan: The Board of Directors of the Livestock Association at their last meeting held at Dallas on October 15th, changed the Marketing Agreement from the long cumbersome form which they sent you early in the organization period, to the simple enclosed form of application for membership. The \$10 membership fee was also eliminated, and it is the intention of the Board of Directors and the Manager, John C. Burns, to build a livestock marketing association by rendering the best of service in marketing, order buying and financing.

The Finance Credit Corporation is now completely organized and is in a position to finance cattle which are in the process of being marketed at a low rate of interest, and any of your men who are in need of financial assistance I am sure will be given every consideration.

Yours very truly,
GEO. W. BARNES,
Field Representative, Live Stock Federal Farm Board.

B. & P. WOMENS CLUB SPONSORS ADVERTISING MEET

The Business and Professional Women's Club will sponsor an Advertising Convention to be held on November 29th at the Cozy Theatre. Entire proceeds will be for the benefit of local charity. The complete program will be printed later and plans are being carried out that will insure one of the finest entertainments ever given here.

MURDER TRIAL OPENS AT COLORADO

Trial of King Reed, former Midland police chief charged with the murder of J. C. Holcombe was scheduled to open yesterday before Judge Fritz R. Smith in 32nd district court at Colorado.

SOME TURNIPS

Speaking of turnips, our good friend E. R. Greer brought four turnips to the office, yesterday that weighed 13 pounds. They were mighty good, too, and we thank this friend for remembering the Times-Signal. Mr. Greer has an acre of turnips in good shape and hopes to reap a fine harvest.

DEMONSTRATE HERE

Colonel W. J. Miller, special demonstrator for the McCormick Company, makers of Bee Brand spices and extracts will arrive here tomorrow to aid the Piggly-Wiggly store in a special demonstration. Col. McCormick has a wide reputation in his ability as a salesman and expert demonstrator.

Want ads sell. Place them in the paper that goes direct into the homes of the city and county.

It is written that the meek shall inherit the earth, and that's the only way they'll ever get it.

Program Willing Workers Epworth League Institute

More Than 75 Young People Intend to Take Study Course at Church

First Methodist Church, Snyder, November 3-7, 1930.

All text books will be for sale at the Church. It is not required that everyone have a book, but it is required that everyone read the books for the course they take. If this cannot be done by the close of the Institute, the credit certificates will be issued upon promise that the book will be read within two weeks.

Let's have a great Institute! Whatdoyousay?

Stinson Stores To Stage Huge One Cent Sale

Nov. 6, 7 and 8th Dates Of Mammoth Price-Saving Drug Sale

Announcement is made in this issue of the annual One Cent Sale of the Rexall Drug Stores in Snyder, Stinson Drug Co., Nos. 1 and 2. Savings that are truly remarkable are listed in the large ad that appears in the paper and patrons should make their lists out early and take advantage of the offer, the last three days of next week.

New Feature For Panhandle-Plains Poultry Show

Outstanding Feature of the First Annual Texas Panhandle-Plains Poultry Show, to be held at Slaton on December 10, 11 and 12, will be that separate lists of premiums will be offered on breed types and production birds. It is announced by Taylor White, of Tahoka, president of the poultry association, and L. A. Wilson, Slaton, manager of the show.

"This arrangement will appeal both to the poultry fancier and to the grower who pays more attention to production than to fine fowls," President White said.

One premium list will apply strictly to breed types, in which awards will be made according to standard rules of the American Poultry Association, while a second premium list will apply to the other group. Entries in the production classes will consist of flocks, eight females and one male constituting a flock.

Detailed plans for the show are being completed rapidly, Mr. White announced. He said much interest in the exhibition is being shown by poultrymen and farmers of the Panhandle-Plains section, which includes the same 54 counties that are included in the annual dairy show at Plainview. The regional poultry organization was formed last August. Slaton is the permanent home of the show.

Distribution of the show catalog and premium lists will begin within a few days, it was announced by L. A. Wilson, show manager. Many inquiries for catalogs are being received. Competitive exhibits will not be accepted from outside the 54 counties.

Bargain Days, \$1.00 per year.

Secure 17 First Downs To Plowboys Four and Win 20 To 7

Snyder Tigers winning their third conference tilt with the Roscoe Plowboys, Friday, 20 to 7, secured seventeen first downs to their opponent's four.

Tigers, eleven of them, were in there with blood in their eyes to retrieve the loss of last year—and well did they do their job. Outstanding stars, according to the spoken word of many who witnessed the affair, was the entire team and that is some indication of just "why" the Tigers are so good this year.

The starring line-up for the Tigers included: Greenfield, LE; Clements, LT; Browning, LG; Dan Trice, C; J. T. Trice, RG; Drinkard, RT; Jones, RE; Howell, RH; Clark, LF; Johnson, FB; and McClinton, QB. Substitutions were D. Smith for Dan Trice; Ferguson for Clark, Isaacs for Clements.

For Roscoe appeared: Purvis, LE; Carter, LT; Colman, LG; Nix, C; Herrington, RG; Duncan, RT; E. Duncan, RE; M. Jones, RH; W. Jones, LH; Hicks, FB; and Medlock, QB. Substitutions were Frank for W. Jones, Clinker for Colman.

First quarter opened with Tigers kicking to Hicks who returns 15 yards; Pass, Hicks to Duncan, incomplete; Hicks, Jones, Hicks secure first down and after several plays, Hicks punts outside at 25 yard line. McClinton punts on first play and Tigers recover on 35 yard line and Howell, McClinton, Johnson secure first down; Clark repeats for another, so does McClinton; a pass McClinton to Howell was good for 8 yards and Johnson annexed another first down. After several more nice gains by the Tiger backfield, Howell went 14 yards to Roscoe's 15 yard marker and here's what happened: Johnson made 5, then 3 more and then 5 and then thru the Plowboys left side for the first touchdown in nine minutes of play, with McClinton booting the extra point.

Roscoe countered shortly after when Mike Hicks went around right end for 85 yards and a touchdown, Hicks kicking the extra point.

Score: Snyder 7; Roscoe 7.

But Roscoe stopped scoring at this point in the second quarter, with no further scoring for the Tigers here, both sides battling every inch of the way in their determination to win.

"The third period was a passing battle that the Tigers were more successful in gaining yardage but no further scoring happened. The advance made by the Tigers in this period placed them in position for an early touchdown in the fourth quarter by Johnson. McClinton failed at goal.

Score: Snyder 13, Roscoe 7.

Buck Howell gained more ground in the third period than any other member of the back field, and following a 27 yard gain, was injured and went to the bench. A pass by the Plowboys, beautifully screened, was taken by Greenfield to a touchdown with McClinton scoring the extra point for a final score of 20 to 7, and another conference win was in the bag.

Outstanding players for the game on the Snyder team were Captain Trice, Clements, Johnson, Howell, and Clark. Bedford McClinton had a wonderful record with his forward passes. Roscoe's shining stars were Mike Hicks, Medlock and Jones.

The complete analysis of the game could be summed up in the first downs made: Tigers having seventeen to four for the Roscoe Plowboys. That indicates the power, pep and honest to goodness team spirit that is in the Tigers and Coach Red Moore is one of the important cogs in that organization.

The next conference game is with the Colorado Wolves which the Tigers must win to represent the western end of District 9, Class B. The Wolves come to Tiger Stadium, Armistice Day and all Scurry county will be here to witness this magnificent battle.

Annual County Teachers Meet Here Saturday

Fine Program Has Been Arranged For Last Two Days This Week

Arrangements are all set for the reception and entertainment of the Scurry County Teachers Institute for the last two days of this week, first program opening tomorrow morning.

Among the headliners who have been reported on the program from County Supt. Bullock's offices are included such well known educators as President J. W. Hunt of McMurry College; and Dean T. H. Shuey of the University of Texas. Many other interesting subjects are included in the program which is open to the teachers and school folks of the entire section. Organization of Interscholastic League work will be held Saturday afternoon. All meetings are at the High School Auditorium.

Are You Looking Ahead?

Are you intent on succeeding in life? Do you have a definite goal toward which you are working? Ten years from now will you be able to say, with a clear conscience, that you have done your best to save and have something?

Or will you still be among those that spend all they earn as they get it, with no thought of the future and saving for an estate and an opportunity?

SOMEONE SAVES THE MONEY YOU WASTE— WHY NOT SAVE IT YOURSELF? —

First State Bank & Trust Co.

A GROWING BANK

FRIENDLY

Banlie Smith has been on the sick list this week.

Mrs. R. W. West is suffering from an injured foot.

Mrs. A. O. Scarborough is spending a few days at Ft. Worth.

Miss Loyce Clark spent the week-end with friends at Goree.

Mr. and Mrs. Scott Stanfield made a trip to Wink this week.

Mrs. J. C. Dorward and Mrs. Bill Miller, spent Sunday in Big Spring.

Miss Alene Curry spent the week-end with Miss Pauline Haynes at Ft. Worth.

A. L. Francis of the Bryant-Link store was on the sick list yesterday.

Mr. and Mrs. George F. Smith returned home from Dallas, Monday evening.

Mr. and Mrs. E. R. Heath and baby were Sweetwater visitors Sunday.

Postmaster B. F. Womack who has been ill for some time is reported home improved.

Born to Mr. and Mrs. Frank Horton of Dunn, a fine eight pound boy, Tuesday.

Mrs. Otis Moore, Misses Mildred Harless and Lucile Brown were in Abilene, Monday.

Mrs. Mary B. Shell left Tuesday for a visit with the T. C. Heard family at Midland.

Miss Faye Rogers has returned to her home, following an illness at the Emergency Hospital.

R. P. Tull spent the week-end in Dallas, and visited relatives at Stephenville; enroute home.

Dr. J. D. Smith and N. T. Smith of Haskell, were Sunday guests of Mr. and Mrs. J. W. Roberts.

Mr. and Mrs. R. S. Sullivan and children spent the week-end with Mrs. Chas. Ebersole at Stanton.

Henry Brice and Ivan Dodson attended the S. M. U. Indiana football game at Dallas Saturday.

Miss Lora Wade spent last week-end visiting her mother and father. She has been going to school at Tech.

Mrs. Fred A. Grayum spent the week-end with her daughter, Mrs. R. L. McKnight and family at Lubbock.

E. E. Wallace left Saturday for Snyder, Oklahoma, where his mother, Mrs. J. J. Wallace is seriously ill.

Mrs. Khlar Raney returned to Ranger, Sunday, accompanied by Miss Vesta Green and D. C. Peterson.

Washington politicians concede dry law will be issue in 1932.

Owen Morton was able to return to his home, Monday, following an operation at the Emergency Hospital.

Mr. and Mrs. Homer Beal and son of Gail were in town Saturday. Mr. Beal and son were enroute to Mineral Wells.

Mr. and Mrs. Tate Lockhart and son have returned home from a week-end visit with Mrs. Lockhart's mother at DeLeon.

Miss Lavana Richeson of Dermott recently injured in an auto crash will be operated on at the Emergency Hospital this morning.

R. C. Curry of Sweetwater, and Mrs. Vernon Littlepage of Hermleth spent last Wednesday in the Mrs. A. M. Curry home.

The Misses Jessyle and Vernelle Stimson spent Sunday in Dallas with their sister, Miss Eula Stimson who is teaching there.

Mr. and Mrs. W. R. Pickas of Lubbock stopped off yesterday with his sister, Mrs. W. R. Bell, enroute home from the Dallas Fair.

Joe J. Taylor returned home last week from West Texas Hospital at Lubbock, but returned there Monday, for further treatment.

R. S. Tillotson of Abilene, appraiser for the Federal Land Bank is spending several days here this week making inspection for loans.

Miss Thelma Leslie who has been going to school at Tech spent last week-end with her parents, Dr. and Mrs. A. C. Leslie. She is classified as a sophomore this year.

Charles Cooper, Robert Gray, Herman Trig, and Miss Eula Pearl Ferguson, were week-end guests of Miss Dean Whatley, at her ranch home near Lamesa.

Hugh Boren spent the week-end with his family at Fort Worth, returning home Tuesday. He was accompanied to Fort Worth by Master William Boren.

Misses Vera and Lia Bee Periman and who are in school at Tech spent the week-end visiting their mother and father. Both report they are enjoying their work fine.

Misses Aletha West, and Bonnie Gary of Dunn were in Snyder Friday, enroute to Ft. Worth where they attended the Lubbock Tech T. C. U. football game on Saturday.

Grady G. Roberts of Chillicothe was the over Sunday guest of his brother, J. W. Roberts and family. Grady is editor and owner of the Chillicothe Valley News and is widely known among the newspaper fraternity of the state.

Auto death toll indicates 1930 total will reach 36,000.

Treasury net loss on Sept. 11 put at \$135,270,269.

Further improvement reported in general business conditions.

Bargain Days, \$1.00 per year.

How to play Bridge AUCTION or CONTRACT by Wynne Ferguson

Author of "PRACTICAL AUCTION BRIDGE"

ARTICLE No. 1

Beginning with this article, all examples will include Contract, as well as Auction bidding, so that our readers can compare the two and thus get a good idea of Contract bidding as compared to Auction. To enable our readers to follow Contract bidding, the following summary of the main differences between Contract and Auction is given:

Contract, as the name implies, allows the player to score towards game only the number of tricks he has bid. For example, if a player bids two spades and makes four, he can only score two, the number bid, and the remaining two tricks are scored in his honor column at 50 per trick. This rule makes it necessary for players to bid for game on every hand, whether their opponents overbid or not, provided, of course, their cards warrant a try for game. As a result, there are no "dead" hands at Contract where one player, for example, bids one heart and all pass, as occurs very frequently at Auction. When one side holds all the cards there is bound to be plenty of action whether opponent bid or not. The lucky side must bid for game if they want it and once they feel sure of game, they have the still greater incentive of trying for "slams." At Contract a little slam, if bid and made, scores 500 points and a big slam, if bid and made, scores 1000 points, so they are well worth while. As a result of these large premiums, the effort to bid and make slams offers one of the exciting features of Contract.

In the regular game of Auction you may take a chance now and then with a weak bid. It costs very little, but in Contract you'll find it very expensive. For instance, in Contract you bid one no trump with just an ordinary thin no trumper. What will happen? If second hand passes, your partner may have good hearts for a good no trumper. Your partner will of course bid you up; he may be justified in bidding three no trumps. The penalties are very heavy, so bid more soundly at Contract than you ever do at Auction.

The new Contract count is very different from Auction and changes the point values of tricks and games, as follows:

- Clubs..... 20 points
- Diamonds..... 20 points
- Hearts..... 30 points
- Spades..... 30 points
- No Trump..... 35 points
- Game..... 100 points

From the foregoing table it will be evident that the number of tricks required to score game are exactly the same under the Contract count as in regular Auction. In other words the relative position of the minor and major suits and no trump is the same, ever, and that is in the demotion of the diamond suit as a possible game scorer from an advanced score. For example, at Auction if you score three diamonds (21 points), you are in a position to score game by making one odd either

in spades or in no trump; but not so at Contract. Three diamonds (60 points) plus one spade (30 points) or one no trump (35 points) no longer score game. The result of this is to demote the diamond suit to a parity with the club suit as a game scorer from an advanced score. It should be noted, however, that the diamond suit still takes precedence in the bidding (three diamonds is a higher bid than three clubs) so it still is the more valuable suit.

As a compensation for the demotion of the diamond suit as a possible game scorer from an advanced score, note the promotion of the heart and spade suits. It is now possible at Contract to go game in two deals if you score two no trumps (70 points) on one deal and one heart or one spade (30 points) on another. This is not true at Auction as two no trumps (20 points) plus one heart (30 points) or one spade (30 points) do not score game.

The next important change made by the new code is the bonus given for the winning game of rubber. The winners of the first game of a rubber (either side) score no bonus as in Auction. The winners of the second game of a rubber (two game rubber only) score a bonus of 700 points. The winners of the second game of a rubber (three game rubber) score a bonus of only 500 points. Thus for the first time a difference is recognized between a pair winning a rubber in two games out of three and the present code has recognized the contention by according the former a greater bonus for rubber.

Another difference that should be noted between Auction and Contract is the "Vulnerable" feature of Contract. After a side wins one game, it becomes "Vulnerable". Until a side wins a game, it is "Not Vulnerable". The effect of being "Vulnerable" is seen in the increased value of bonuses and penalties that accrue or are charged to the vulnerable pair. For example, if a side is playing an undoubled contract and is "Not Vulnerable", each under-trick is penalized 50 points per trick. On the other hand, if a side is "Vulnerable", the first under-trick is penalized 100 points and each succeeding under-trick 200 points. The only way, however, to understand these penalties and bonuses when "Vulnerable" and "Not Vulnerable" is to study the Contract Code until it is thoroughly understood.

If you want to become a good Contract player, study valuation and the fundamentals of regular Auction until you know them thoroughly. You will need them more to excel in Contract than in regular Auction. And remember, Contract is not a different game from Auction. It is only an added feature to add zest and excitement to the regular game.

PRACTICAL TO RAISE FEED, DAIRYMAN FINDS

BRYAN—Told that he couldn't produce his own dairy feed in Brazos county, Frank Merka, dairy herd demonstrator has lately harvested 60 tons of hegar, corn and other feed stuffs, and has reduced his feed bill on 26 cows from \$240 cash outlay per month to \$70. In addition to this home-grown feed he finds four pounds of cottonseed meal per cow per day makes up a balanced ration as outlined by his county agent, C. L. Benson. Improved machinery in the form of a tractor, row binder, disc harrows and feed mill account for the efficient feed production. Mr. Merka declares.

FINDS CHEESE GOOD SELLER

COLORADO—Cottage cheese has been found a profitable source of pin-money by Mrs. J. R. Johnson who sold \$55 worth of it in about six months. She gets 25c per pound for it at the stores and has several customers who buy directly from her in her home in Mitchell county.

HONOR ROLL

The requirements for the honor roll in the Snyder Grade School are a grade of B in every subject and A in Deportment. The following is a list of pupils who have met these requirements the first six weeks of school

First Grade:

Charlie Dunn, Wayland Johnson, Marjorie Fay Spradley, Fern Raney, Loyd Duck, Harold Haney, Glynis Snyder, Wanda Sims, Irene Tatum, Bettie Ann Wright, Thadene Askins, Virginia Green, Anita Kite, Frances Letcher, Frances Neely, Lola Jo Rogers, Larry Morton, William Hamilton, John Henry Day, Billie Joe Lowder, Deverne Gardner, Wilma Clark, Mattie Pearl McGlothlin, Forrest Curdner, Avenell White, Pearl Howard, Gladys Candill.

Second Grade:

John Holley, Nora Lee James, Margory Brown, June Clements, Lyman Yoder, Glenna Martin, Louise Bowers, Ernest Taylor, Jr., Patty Joyce Hicks, Horence Leath, Olna Broadfoot, Patricia Dodson, Wanda Lee Spradley.

Third Grade:

Lyle Alexander, Wilma Terry, Daren Beneneck, Faye Best, Frances Head, Louise LeMond, Dennis Jones, Mary Helen Bolin, Edna Hester, Virginia Neal.

Fourth Grade:

Marilyn Roberts (highest average for girls), Elward Allen, Louise Hardin, Dorothy Jones, Dorothy Pinkerton, Jay Rogers (highest average for boys), Billy King, Olan Brown, Josephine Kelley, Ernestine Henderson.

Fifth Grade:

Victor Baze, Opal Adams, Mary Frances Tatum, Leona Tatum, Geneva Allen, Doris Davis, Rosemary Camp, Helen Hodges, Virginia Edgerton.

Sixth Grade:

J. R. Watkins, Marie Oliver, Virginia Yoder, Elsie Holley, Juanita Sentell, Florentz Winston.

Seventh Grade:

William Miller, Estine Dorward, La Frances Hamilton, Maureen Wolf, Mary Margaret Towle, Billy Smith, Frances Northcutt, Netha Lynn Rogers, Maxine Huckabee, Edna Mae Dunnam, Irene Spears, Ruth Hodges, Frances Stimson.

ALPHA STUDY CLUB ENTERTAINS WEDNESDAY

On Wednesday afternoon, Oct. 29, the Alpha Study Club gave a lovely tea honoring the members of the different clubs of Snyder and ladies who were new residents of Snyder. The tea was given in the beautiful home of Mrs. Wade Winston in the West part of the city. The spacious suite of rooms were decorated throughout by vases of cut flowers which added charm and beauty to the occasion. The guests were met at the entrance by Meses. C. P. Sentell, G. B. Clark, Jr., and J. P. Nelson who in turn ushered them into the living room where they were greeted by the receiving line which consisted of the following: Mesdames Wright, Stokes, Dibble, Roberts, Francis, Jones, Moore, Temple, Heath, McGaboy, Weatherly, Misses Powell, Miller, Wedgworth and Underwood, assisted by a few club members namely: Meses. J. E. Sentell, A. R. Norred, Wayne Boren, J. G. Hicks, Wraymond Sims, Wayne Williams and Clyde Boren.

Mrs. Homer Snyder was in charge of the program which was rendered by the following: Mrs. Melvin Blackard—Piano Selection. Mrs. Alfred McGlaun—Reading. Miss Maurine Stimson—Vocal Solo. Mrs. P. C. McGahay—Violin Solo. Miss Lucile Brown—Reading. Mrs. Ixon Joyce—Reading.

At the close of the program the guests were invited into the dining room to be served. The table was covered with a gorgeous lace cloth

in the center of which was a huge vase of dahlias. Mesdames J. T. Whitmore, president and H. G. Towle, secretary, presided over the table and were assisted in serving by Mesdames Forrest Sears, Bill Miller, Ivan Dodson, Misses Strayhorn, Gertrude and Hattie Herm. After enjoying a delicious plate consisting of chicken salad, crackers, coconut macaroons and coffee, the guests were asked to go to an adjoining room to register. Mesdames Wade Winston and C. L. Noble were in charge. There were about 150 guests who attended this lovely tea and it was thoroughly enjoyed by those present.

Sauerkraut juice is just The thing for it, I'm told. But I've decided that I'd rather have the cold

"One-night stands"

Remember the medicine shows that used to come to town? With minstrel music and flaring gaslight, the eloquent "Doctor" sold a good many bottles of his marvelous elixir. No chance to discover that it was only molasses and water! He was gone next day to another town, playing "one-night stands."

Modern advertising and selling methods are very very different. Merchants and manufacturers are in business day after day, year after year, at the same address. They need your continued custom. They must tell the story of their merchandise truthfully to keep your confidence. They must offer honest values to insure your satisfaction. And they do—in the advertising pages.

Read the advertisements. There's no surer, easier way to economical buying. They show you what you want at the lowest price and tell you where it may be had. You can go direct to get it or order it delivered. You save time, save money. Read the advertisements—and read them regularly.

GUIDE YOUR BUYING BY YOUR READING
ADVERTISED PRODUCTS ARE WORTHY ONES

Your Credit

The value of your credit is not measured solely by your ability to pay, but by your EFFORTS to meet your obligations as they fall due. Next year, we believe, will be a better year in a financial way than has 1930, and the greatest asset you can have in building up your business or your farm is a good credit standing. Those who make a credit rating, or sustain their good rating already made, during the harvest months, will be those who will find it a great deal easier during the coming months to use their credit for the benefit of themselves financially.

It is just as true today as it has ever been, that a man's word is better than his bond, if he is the kind of man who values his credit and his honor above monetary possessions. Meet all the obligations this fall that you possibly can for a better credit during the year.

TEXAS FARM NOTES

By W. H. Darrow, Extension Service Editor

Hot Beds to Provide Winter Plenty

College Station—More than 200 hot beds have been built in the gardens of home demonstration club women in Northwest Texas, according to Miss Myrtle Murray, district agent in the Extension Service, who is helping to popularize the slogan, "Three feet square of hot bed per person for every family." Another slogan originating with a Floyd county woman expresses a determination for "Three green vegetables on the Christmas dinner table out of the home hot bed."

Besides providing fresh vegetables in freezing weather, hot beds have been found to hasten the early spring garden enough to permit profitable sales of early vegetables. Another feature has been cited by Mrs. R. A. Ritchie, Hubbard county home demonstration club woman in Stephens county. She will never be at the mercy of a drought again, she declares, because she can water a small summer garden in her hot bed and protect it from heat also.

Many of these hot beds have been made from native stone in Young county. Miss Murray states, and a number in other counties from concrete. Some use ordinary glass windows although the practice is growing of using a non-breakable or easily mended glass on account of hail storms. These hot beds are built three feet wide with three feet of length for each person in the family. Every county in Miss Murray's district has at least one hot bed, with Dickens county reporting 100, Young county 40 and Haskell county 33.

Brownsville—A roadside market has been built by Mrs. J. P. Peek, Cameron county home demonstration club woman, for selling the crystallized citrus peel in which she specializes. Several popular citrus fruit products have been standardized by the farm women of the county in their home demonstration clubs, and have been placed in special markets for sale. The roadside booth used by Mrs. Peek is rather new here.

Boy Makes 138 Bushels of Corn on Acre.

La Grange—What is believed to be the highest yield of corn among Texas 4-H club members has been reported by Lyle Pape, 17-year-old boy of Fayette county, who gathered 138 bushels of yellow dent corn from one measured acre. The crop was grown on creek bottom land that had been in alfalfa for five

years previous; was broken early and deep; fertilized with a 4-12-4 commercial mixture; and cultivated four times. The boy was coached in making this phenomenal yield by W. H. DuPuy, county agent, who has made a record among Texas county agents in developing boys who produce more than 100 bushels of corn per acre. While agent in Madison county Mr. DuPuy had 10 boys who beat the 100-bushel mark in corn yield in the years 1928 and 1929, and one of them, Paul Robinson, set the Texas club record with a yield of 154 bushels per acre in 1928.

Paducah—Declaring that he and his family would be off somewhere picking cotton if it were not for his dairy cows, J. S. Sanderson, Cottle county farmer, has reported to the county agent, H. M. Cantrell, that six cows bought three years ago have more than made the family a living throughout the drought. Five of the cows are registered Jerseys.

Boys Shows Father Cotton Seed Trick.

Gatesville—How a boy's experience in cotton growing demonstrated to his father that there is something to "this good seed racket" after all is told by C. Snell, county agent of Corvell county, in a story about L. D. Wittie, 4-H club member. Securing enough good cotton seed to plant two acres, L. D. grew a crop that made a 425-pound bale on the first picking and an estimated additional yield of 700 pounds seed cotton on the second. The first bale was sold on the streets for the usual local price, but the story doesn't end there. Next day the local buyer sought out the dad to find where the seed came from in L. D.'s bale, for four district buyers had found this one bale of one-inch staple length and of unusual quality for the county. Be-

The only macaroni factory in the world with its own mill for grinding flour. Your guarantee of quality and purity.

MACARONI

SPAGHETTI

COWS APPRECIATE GOOD RATIONS

BASTROP—Cows fed a balanced ration are averaging a monthly return of \$5.05 for dairy herd demonstrators in Bastrop county, whereas those not fed such a ration have brought their owners only \$1.58 per month. From the records of five herds Winfield S. Millington, county agent, has shown that it took about 40 percent of the total dairy products' return in late summer to pay the grain and pasture bill. Three-fourths of the dairy products' returns from these herds was sold for cash and the remainder used in the homes or fed to poultry and livestock.

Bargain Days \$1.00 per year.

A woman motorist whose car had swerved across the street and crashed through a plate glass window was being questioned by the police sergeant after the accident.

"Surely on such a wide street as this, you could have done something to prevent this accident?" "I did the delinquent assured him quite earnestly, "I screamed as loud as I could."

Counsel: The cross examination didn't seem to worry you. Have you had any experience in that line? Client: Married three times.

"I Raise Them - You Eat Them"

"Just think how immense this town would suddenly become if all the people who eat Brookfield Butter, Brookfield Eggs and Premium Milked Chickens were to crowd in every day for their supplies.

"But that's not how it works. Nobody has to go outside his town for Swift & Company goods. I'm one of the 200,000 producers who deliver supplies to the Swift & Company produce plants and receive cash for my products. There are more than 80 of these plants. 400 branch houses and 600 car routes carry the Swift products to every community in the country and prevent local gluts or shortages. That's the marvelous organization of nation-wide distribution. It's like the arteries that carry the life stream all through your body. It's a mighty fine thing to have contact with an organization which can bring on an average margin of less than 2 cents on every dollar of sales.

"Of course I've more than ordinary interest in Swift & Company. I'm one of the 45,000 shareholders, besides being a producer, and in addition to having a ready cash market for all I can raise.

"I receive a return on my investment. Thousands of Swift & Company employees are shareholders. Many of the 58,000 employees who receive just wages live right in this town. They spend their money with our merchants, build their homes here, pay taxes like you and me. I can tell you, there's something more to being in the Swift family besides delivering butter and eggs."

Boy Is Glad That He Found This Argotane

San Angelo Man Says His Troubles Disappeared After Taking Four Bottles of Argotane.

"I fell off in weight and could digest hardly a thing I ate before I started taking Argotane but now I eat sit down and eat three square meals a day and enjoy them and am gaining in strength every day I live," is the statement of G. H. Boyd, residing at 112 E. Avenue J, San Angelo.

"I was all rundown in general and so restless that I couldn't get but a few hours sleep at night without waking and being so restless and shaken up that I couldn't get to sleep again. I was awfully constipated and everything I took to relieve it just helped me for a little while and I was worse than ever after awhile. I didn't have any appetite at all and what food I did eat I had to cram down and it just worried the life out of me because I didn't digest it properly. I read so much about this Argotane medicine in the papers and some of the people who told what it had done for them had cases just like mine so I thought it would benefit me and I gave it a trial.

"Well, sir, I feel a hundred percent better in every way since I finished that fourth bottle of Argotane. Why, I can just eat like a farm hand and I have already gained a lot in weight. I don't know how much but I can notice the gain because my clothes fit me different from what they did. I began to pick up in strength and to improve after the first few doses I took and now I can go to the table three times a day and enjoy the biggest meal put before me as well as any man. When I go to bed at night I can drop off right away and sleep like a healthy baby and when I get up in the morning I feel as full of life and energy as I ever did in my life. Argotane is the only thing that is responsible for the remarkable improvement in me and I gladly recommend it to anyone suffering from a general rundown condition like I was. I am sure glad I found it when I did. Genuine Argotane may be bought in Snyder at the Stinson Drug Co. adv

STATISTICAL REPORT OF GASOLINE TAX REFUND CLAIMS—SEPTEMBER 1, 1930

Total number of gasoline tax refund claims filed from July 16th, 1929 to September 1st, 1930, other than claims filed by dealers for tax on gasoline sold U. S. Government employees 62,836

Total claims paid (same period) 62,836

(Number of claims does not include rejected claims as rejected claims are taken out of account.)

AS WE SAW IT

By JAS. H. TATE

Mentone, Calif., Oct. 23, 1930. Messrs Editors et al:

I am again "Drawing my bow at a venture," with the hope that the arrow may strike, at least a few points that will be of interest to your readers—at least to some of them.

As our son, Henry, had business at Los Angeles yesterday, we arose at 3 o'clock and at a little past four a. m. the wife and I were speeding on our way to the great City of the West. The business did not require very much time, so we had some time left for sight seeing; but this was all done hurriedly as we were to make the round trip of more than 200 miles in one day. With this explanation you will not expect more than a sketchy letter.

We have friends in Los Angeles and Pasadena but we could not take time to look them up; and this is our apology to them for, of course, they read your paper. The weather was fine and all went well. Didn't get pinched.

Some thirty miles out of Redlands we passed through what is said to be "The largest vineyard in all the world." It covers about 5000 acres. Some grapes! but we didn't see anybody drunk on wine. Further along, we passed "The Lyon's Farm," said to be the only farm of its kind in all the world. I do not know that this claim is true, since there are several places in the world that I have not visited yet. Any way, we did not strole over this strange farm, neither did we need any of its products.

Finally we were entering the metropolis of the West—and we were entering quite awhile before we finally reached that great and magnificent building—The City Hall. We went through a part of it, but description here is out of the question. Suffice it to say that from the level of the street to the Lindbergh Memorial Airplane Beacon is 449 feet. Next we went through the California State Exposition Building. Near by we saw the great "Bowl," (amphitheater) which seats 105,000 people—a real good congregation.

Since the city covers an area of 441 square miles and boasts of a population of 1,366,889 people it is evident enough that we did not see much of it. One reason why the place is large is the fact that it has swallowed up (or annexed) so many of the lesser towns round about. It would be larger still if it had

of miles across and five miles deep—we must exclaim, in amazement, "What hath God wrought!" We ate our lunch while looking out over this mighty sea of water covering an area of 70,000,000 square miles. What ever else may be scarce, there is still plenty of water, even if Los Angeles does get her water through an aqueduct 240 miles long, and coming through eight power plants; and is now planning to draw an additional supply from the Colorado River, through the Bolder Dam project, which will be at least 250 miles away from the city, or the distance from Dallas to Loraine.

It should be remembered that Los Angeles was founded by order of the King of Spain in 1781 and named El Pueblo de Nuestra Señora la Reina de Los Angeles—The Village of Our Lady, the Queen of the Angles." In view of this fact the city celebrates her 150th anniversary next year and the King of Spain is invited.

Los Angeles may mean "of the Angles, but evidently some of its citizens are not very anglic.

Harold Bell Wright and son Jr., were in Los Angeles, according to radio report, the same day we were; but the radio man didn't say anything about me. Wright once lived here in Redlands and wrote one of his books, "The Eyes of the World," in the canyon just above our home.

JAS. H. TATE.

Enuncie: What would you do if you could play the pian like I can? Loran: I'd take lessons.

November is Bargain Month for Electric Appliances

All Electric Household Appliances One-Third Off during this special sale

High-grade electric appliances at a 33 1/3 per cent discount! Here is an unusual opportunity to buy nationally-advertised appliances at a saving of one-third.

Starting Saturday morning, November 1, every household electric appliance in our merchandise store will be on sale at one-third reduction.

All of these appliances are new, made by nationally known firms and fully guaranteed.

Come to this 1/3 OFF Sale while choice articles are still available. Fore-sighted shoppers will find this sale an exceptional opportunity to select ideal Christmas gifts.

Convenient terms allowed on purchases, if desired.

This sale includes such items as:

- Percolators
 - Urn Sets
 - Waffle Irons
 - Floor Lamps
 - Table Lamps
 - Curling Irons
 - Heating Pads
 - Grills
 - Irons
 - Toasters
- and many other worth-while appliances.

1/3 OFF

- These appliances carry the nationally-known names of:
- HOTPOINT
 - WESTINGHOUSE
 - UNIVERSAL
 - MANNING-BOWMAN

—which stand for the best values in electric merchandise.

PALACIOS CELEBRATES

Nowhere has the value of permanently paved highways been better demonstrated than at Palacios. Heretofore this little coast city has been a sort of inaccessible sportsman's paradise; better fishing, better hunting were nowhere to be found. But sometimes you could get there and sometimes you couldn't, and, of course, there was always the possibility that if you got in, you couldn't get out.

Then Palacios lifted itself out of the mud—by its own bootstraps, as it were. Henceforth, rain or shine, the world can travel to Palacios quickly, conveniently, over wide, concrete pavements.

This out-of-the-mud project required a large investment, to be sure, but already dividends are being earned. Three months ago there were too many vacant houses in Palacios. Today they talk of a residential building program.

Friday, Palacios staged a mammoth celebration. East and South Bays teemed with speedy water craft. Forty-four daring drivers staged the season's greatest regatta in front of a pavilion that was populated with thousands of out-of-town spectators, and thousands more lined the shore. Twenty thousand pounds of beef and pork were barbecued, and more than ten thousand men, women and children made it disappear like dew before the sun.

Commercial fishers for shrimp and oysters have enjoyed a remarkably prosperous season. Sportmen are descending upon the city in increasing hordes, and the prosperous countryside can go to town any time it pleases, regardless of the weather. Palacios has demonstrated that progress is the foundation upon which prosperity builds.—Editorials of the Month.

TRUCKS VS. RAILROADS

A flying squadron of Houston business men had occasion the other night to visit a town twenty miles to the north.

In that distance, they met or passed eighteen mammoth trucks loaded down with bales of cotton.

The road they traveled parallels one of the State's greatest railroad lines. To every inch of that fine, concrete highway, this railroad had been a very substantial contributor.

Upon this particular line of railway, service has been curtailed time after time, the reason given being that traffic has decreased to such an extent that this train or that had ceased to be profitable.

When three, or four of these motor trucks had crowded their car onto soft shoulders, this group of business men quite naturally began to discuss the problems which motor truck transportation had thrust upon the state. Unquestionably they agreed, the motor truck has become a menace to the life and limb of automobile riders, and it threatens the very existence of the railway lines which are so vital to the progress and prosperity of the

ABOUT PEWEEE GOLF

Now that the season is over, it surely will be alright to say something about miniature golf courses without having a thousand or so people writing letters of condemnation, full of scathing accusations that I am giving somebody or group of somebodies a lot of free publicity—or worse, that I am getting paid for doing it.

How much good or how much harm the playing of these peewee golf courses does for one's golf game doesn't interest me for I have given up hope of improvement and have about come to the conclusion that mine can be no worse.

public nuisance because they disturb the peace and quietude of those who go to bed when the lights go on (there are those who just can't let anybody else enjoy a bit of fun) doesn't bother me, for I never retire before nine-thirty; and there are only three of these courses within a block of my domicile, and you know a person really should not consider anything a public nuisance unless it affects from all four sides.

What does interest me about these little trick playgrounds is that the worst one I ever saw is such an improvement over the looks of the lot before the course was constructed thereon, that I think every man, woman and child that has the least spark of pride in his or her community should rise up and give thanks to the fellow that thought up the idea. I'm not sold on the game, and I'm not interested in how much can be made out of them in money, fun or anything else; but I do say this—give me a Peewee golf course every time rather than a vacant lot full of tin cans, broken home brew bottles, ragweed, thistles, non-descript signs and billboards, and other junk.

EASY BLOOMERS FOR THE WINDOW

This is the season to put up bulbs for winter bloom in the sunny or half sunny window during the winter months. Some of the bulbs are the easiest of subjects and certain to give flowers. Most certain to give a gorgeous display is the amaryllis. The dormant bulbs are now in stock. Potted up and placed in a window, the plant will start a leaf growth which will shortly be followed by the flower stem. Some times the flower stem appears ahead of the leaves.

The tall stem will bear from two to five huge trumpets in crimson scarlet, rose or pink. The new hybrids are of enormous size and brilliant coloring and have been featured during several seasons past. They are now grown by the acre outdoors in Florida during winter. They require only ordinary good garden soil, good drainage in the pot, and should not be given too much heat, placing them in a cool window until they are well started into growth.

The paper white and Chinese lily narcissus are favorite subjects, now being grown in bowls of pebbles and water, or in prepared fiber more than in soil. However, they grow best in soil under conditions of the average living room. Bulbs should be potted now, kept moist and set away in a dark place until they start making leaf growth when they should be brought out to the light. Lily of the valley pipe, prepared for indoor bloom, are on sale at all dealers now and are one of the easiest of house plants to grow. The pipe should be potted up and set outside until they have been well frozen. They can then be brought into the house, thawed out and the lily, thinking it is spring, will produce.

THE PAPER WHITE NARCISSUS IS THE MOST POPULAR PLANT FOR HOUSE DECORATION.

Hyacinths are perhaps the commonest bulb for indoor culture. Pot them up with the neck of the bulb just even with the soil, set away in a cold, dark place, keeping just barely moist until the leaf shoot is an inch out of the bulb. Then place them in a window.

TEXAS TECH AGGIE RODEO TO BE STAGED

Lubbock, Texas, Oct. 29.—Frontier days in college fashion will be revived here on November 7 and 8 when the first annual Texas Tech Aggie rodeo will be staged. James Williams of Lubbock is manager of the Rodeo, being assisted by B. E. Snyder of Moran, Assistant Manager G. D. Gordon of Lubbock and Jams Donley of Paducah are in charge of publicity for the event.

Present plans call for every feature of an old-time western rodeo, including wild buffalo rodeo, calf roping, steer riding, bronc riding, wild horse races, trick riding and riding relay races, wild cow milking and pack races. Rodeo grounds are to be established south of the Aggie building.

The selection of a Queen for the

loved by the Queen and her attendants, the contestants, clowns, and prize livestock. Contests, many of them carrying valuable prizes, are not only open to Tech students, but exhibition contests are to be staged by men not connected with the college.

Money earned from the rodeo will be used to send the Senior stock judging team to the International Livestock Exposition at Chicago, the American Royal Livestock show at Kansas City and the Wichita, Kansas, show. The team will be away from November 11 until December 2.

Ray C. Mowery is Coach for the Senior Team, which will include six senior students. The rodeo is being sponsored by the Junior agricultural students, assisted by the seniors. Over fifty Junior students will be called in to help make the Rodeo a success.

CHEVROLET ANNUAL DEALER MEETINGS TO GET UNDER WAY

Detroit, Mich., Oct. 30.—A significant sign of the aggressive policies to be adopted by the automobile industry toward making 1931 rank with past years in volume is seen here in the announcement that Chevrolet's annual dealer meetings are to get under way next week, two months in advance of the customary date.

Four groups of sales officials from the home office, each group accompanied by a full carload of electrical equipment, stage hands, electricians, etc., are scheduled to hold fifty meetings at as many central points during the next five weeks, which will be attended by upwards of 20,000 Chevrolet dealers and associated bankers located in every section of the country.

In previous years these meetings, which are held to acquaint the dealer organization with company plans for the new year, got under way in January, during New York Automobile Show week. Inasmuch as formerly a portion of each meeting centered upon the presentation of Chevrolet's annual new model, considerable speculation has been aroused here over a probable tie-up between the meetings and an early announcement of a new Chevrolet for 1931.

H. J. Klinger, vice-president and general sales manager of Chevrolet, remained noncommittal on the subject of a new car, other than to state that a part of the star chamber sessions with his dealers would be on this subject. He explained the holding of the meetings earlier this year by stating that normally November and December are dull months in the industry, and dealers are better able to leave their places of business during these months than in January or February. He pointed out further that by holding the meetings now, the dealers would have complete information on 1931 plans before the turn of the year, and would be able to put them into effect two months earlier than formerly, thus better preparing themselves for the early Spring rush of business.

The first meeting is scheduled at Cleveland on November 3 and the last ones at Wichita and Davenport on December 5. Mr. Klinger, under whose general direction the meetings are being held, plans to attend meetings at various points, while the next four ranking sales officials will have charge of the four groups.

BIG PROGRESS NOTED IN BOLL WEEVIL CLEANUP

COLLEGE STATION—A nearly perfect record in the early fall clean-up of green cotton as a boll-weevil attack measure is reported throughout the Gulf Coast country from Houston to Kingsville and northward to Fayette and Washington counties, according to R. R. Reppert, entomologist in the Extension Service of A & M College. "Indications point to perfectly bare cotton fields throughout this region within two weeks if weather remains favorable, and it looks as though many scattered communities will achieve 100 per cent clean-up," he says.

A ninety per cent clean-up is reported from Nueces county where intensive work has been done in other years to demonstrate the effectiveness of clean-up work. Mr. Reppert and the county agent, F. W. Hoepfner, plan to make careful surveys of conditions and early in November to lay the foundation for a tour of farmers next summer to show what results are obtained from this fall's work. Similar surveys may be found profitable in other counties where county agents are cooperating in the clean-up work, it is believed.

Mr. Reppert calls attention to the fact that where stalks have been cut in many cotton fields, new cotton growth has appeared which furnishes ideal boll weevil food. "There is a small degree of effectiveness in reducing boll weevil infestation by merely cutting stalks," he says, "but to get good results it is necessary to plow out the stalks or completely kill them in some manner. The sooner this is done the better, and certainly it must be done two weeks in advance of the first killing frost."

MASH AND SKIM MILK FILL EGG BASKET

SEMINOLE—It takes laying mash and skim milk to make hen profits go up. Gaines county poultrymen are learning by following the course of the demonstration supervised by R. F. McPatrick, county agent. Where the hens got two to three pounds of mash per month, and one-third to three-fourths gallon of skim milk, the profits per hen have gone better than 18 cents per month. In flocks shy on these important foods the profits dropped to 14c per bird per month, and probably would have gone lower had it not been that all other points of management were well observed. In one flock of White Leghorns where the production dropped to 45 eggs daily from 138 hens, the egg basket was filled with 86 eggs per day within ten days of the time the owner, J. J. Green, started feeding a wet mash at noon. "The hens wouldn't eat enough dry mash," he said.

KNOW TEXAS

Texas has 900 million acres of virgin pine and about the same amount of standing hardwood timber worth 3 1-3 million acres of second-growth pine and 2 1-2 million acres of second-growth hardwood.

Texas made the greatest population gain in its history in the 1920-30 decade, percentage of increase being 24.1 per cent.

Texas has the largest helium gas plant in the world, the largest chili

and female manufacturing and canning plant, the largest rice packing plant, the largest single oil refinery and the largest custom smelter—to give only a few of its "largests."

Texas' road-building program for 1930 includes \$41,500,000 for highway construction, \$17,500,000 for local roads and bridges.

First wife: I suppose you carry a memento of some sort in that pocket of yours?
 Second ditto: Yes, it's a lock of my husband's hair.
 P. W.: But your husband is still alive.
 S. W.: Yes, but his hair is gone.

Longer Service-Life For Your Motor

Using Velvet Motor Oil regularly is one of the cheapest and surest ways of making any motor run better and last longer. Velvet Motor Oil flows readily and protects moving parts at all speeds and temperatures. Affords a dependable compression seal which resists power losses and crankcase dilution. Forms but little carbon and the little it forms is light and easily removed through the exhaust. Has the lasting qualities to make your motor run smoothly, coolly, and powerfully. Costs no more than ordinary oil. Sold at all Humble Dealers.

HUMBLE FLASHLIKE GASOLINE

Pale and Weak

"I THINK Cardui is a wonderful medicine, for I improved greatly after taking it," says Mrs. A. W. English, of R.F.D. 4, Roanoke, Va. "When I was just a girl of 13, my mother gave this medicine to me, and it did me a great deal of good. I was weak and run-down. After I had taken Cardui awhile, I felt much better. "In 1924, my health was poor. I felt miserable, and hadn't enough strength to do my housework. It took all my willpower to keep up. I was pale and weak. "I got Cardui again and took it. My improvement was wonderful. I can recommend Cardui to others, for my health was so much better after I had taken a course of the Cardui Home Treatment."

FLUVANNA NEWS

Miss Burline Boynton is the authorized correspondent for Fluvanna, and as such is authorized to receive renewal and new subscriptions. Cooperate with this estimable young lady by sending your news and subscriptions to her.

We are very sorry that our good and faithful correspondent, Mr. Raymond Seal, will not write for us any more as he is moving to San Angelo the first of November where he has a position as book-keeper for some firm there. We are very sorry to lose Raymond and his good wife, and we wish for them much success in their new home.

After rain and cold we are having some very fine weather again. Trust it continues some few days yet, that people may finish gathering their cotton and feed.

O. S. Willis is moving his family to Lubbock. We regret to lose them. Their reason for moving is they have two sons there in Tech. Rev. T. L. Nipps and wife went to Polar Sunday where Brother Nipps preached in the afternoon. Mr. J. J. Betew went to Mineral Wells Saturday returning with his wife and son Ross. Ross spent three

weeks there taking treatments for appendicitis.

The play entitled "Bashful Mr. Bobbs" was presented at the High School auditorium Friday night. The play was a scream, each character playing his or her part perfectly. They kept the house in an uproar with fun. Also the music was very much enjoyed.

Quite a few have been attending Harley Sadler's at Snyder.

Charles Bley who is attending Tech at Lubbock spent the week-end with his parents. Mr. B. E. Robison from Monahans spent Monday with his wife who has been very ill at the home of her parents, Mr. and Mrs. H. H. Haynes.

Rev. Speck of Snyder preached to the Christian congregation Sunday. Rev. Speck is leaving Snyder and going to Oklahoma.

occasion and were not in the least disappointed.

Important sinners from out of the county were: Mr. Dewey Nideckin and his father, both of Hamlin, Mr. Claude F. Scott of Abilene, and a Mr. Alexander.

The county convention will meet next time at Mount Zion on the fourth Sunday in April, beginning on Saturday night before said Sunday. May we all meet again as we did at Union this time.

The Misses Huffmans Entertain.

Misses Gladys and Thelma Huffman were delightful hostesses entertaining a large crowd of their friends at a lovely party given at their home last Saturday night. Much humor was derived from the games. "What do I look like to you?" and "If you love me smile," to say nothing of the other amusements.

In playing "If you love me smile," Jack Witherspoon was told to fall upon one knee before some fair damsel and, looking as appealing as he possibly could, ask her if she could ever love him; if she smiled then she must take his place and ask someone else the question until they were made to smile, and so on.

In asking this question several of Jack's fellows were not nearly so lucky as he for the girls would not smile at the wistful upturned face of the boys without much pleading. So Jack in his attempt to be helpful said:

"Ah, that's not right. You gotta do like I done peal 'em."

After this several of the boys and girls retreated to the kitchen where they made a sumptuous amount of Pecan fudge, taffy, coconut caramel, date delight, and almonds. In preparing the dates the recipe read: "Stove dates," etc. Leonard Brumley immediately wanted to know if the young ladies wished him to go out in the yard to search for stones to help in the preparation.

About forty persons took part in this delightful occasion.

Fire-side Games Much Enjoyed.

Many friends gathered at the home of Mrs. E. U. Bullard last Tuesday evening where they enjoyed several games of "forty-two," and "Touring." Those enjoying this occasion were: Misses Willie Mae Willis, Marie Devenport, Gertrude Binion, Faye and Florine Bullard, Messrs Talmage Turner, J. C. Witherspoon, Bill Daniel, Floyd and Homer Devenport, Clyde and Chas. Binion, and Orben Newman. High score was won by Gertrude Binion and Bill Daniel.

Miss Gillmore Hostess.

Misses Gertrude Binion and Er-dice Gillmore and Floyd Devenport enjoyed several games of "forty-two" at the Gillmore home last Tuesday evening. This party was quickly arranged in respect to the coming

UNION DOTS

Miss Gertrude Binion

Miscellaneous

Mrs. C. A. McCoy and children spent Wednesday with her mother Mrs. A. L. McGinty of Snyder.

Mr. and Mrs. H. H. Jeffress and family spent the week-end with Mrs. Dunbar of San Angelo, sister of Mr. Jeffress.

Mr. and Mrs. J. G. Garner of Snyder were guests in the home of Mr. and Mrs. Herman Moore Sunday.

Mr. and Mrs. Ivey Biggs of Dora (Nolan county) and their children spent last week-end with relatives here.

Mr. and Mrs. M. E. Deavers spent Tuesday night in the home of Mrs. and Mr. C. A. McCoy and family, sister of Mrs. Deavers.

Jodie Bynum became a member of the church of Christ by his act of baptism which took place Tuesday night at Snyder.

Miss Edice Gillmore took up her abode in the teacherage at Plainview Friday in order to assume her position as teacher in the Plainview community school which opened Monday, October 27.

Miss Ruby Berry spent last week with her sister, Mrs. Everett Clarkson.

Mr. and Mrs. J. C. Sanders of Odessa were guests in the home of Mr. and Mrs. J. C. Witherspoon and family last week.

Mr. and Mrs. Dewey Moore of Slaton visited relatives here last week.

Mr. and Mrs. Will and daughter Tommie of the Plainview community enjoyed Sunday dinner in the home of J. L. Currell.

Mr. and Mrs. H. G. Moore and family motored to Tahoka last week-end where they visited Mr. and Mrs. John Moore and family.

Mr. and Mrs. Claude F. Scott and little daughter of Abilene enjoyed Sunday dinner in the home of C. L. Devenport and family.

Miss Fay Rogers returned to her home Monday from the Emergency Hospital where she had undergone an operation for appendicitis.

If this is seen by a most imposing magazine agent who called at several homes in this community last Friday afternoon please let it be known. Apologies for calling you imposing—I didn't say I didn't like that kind, did I?

IMPORTANT EVENTS

Younger Set Enjoys Party.

The Misses Helen Witherspoon, Lee Alvin and Eleanor Hays, Faye and Florine Bullard; Messrs S. D. Hays, Jr., Homer Devenport, Talmage Turner, Dutch Shepard, Man-cill Devenport, J. C. and Jack Witherspoon, and Charles and Clyde Binion gathered at the home of Orben and La Rue Newman last Thursday evening where they were delightfully entertained with several tables of "forty-two."

County Songsters Meet at Union.

A great number of cars were to be seen surrounding the church Saturday evening and a still greater number all day Sunday as the many people from over the county arrived to witness the Scurry county Singing Convention and take part in it. The natives of this community had long looked forward to this

LITTLE BULBS FOR THE ROCK GARDEN

No form of gardening has taken such quick and secure hold of gardeners' fancy as rock gardening. A rock garden is a garden for little plants, the miniatures, the tiny jewels, lost in the average perennial border or formal garden.

The first masses of brilliance in the rock garden will be given by the little bulbs as well as the softer affectionate greeting of the softer color of the earliest bloom—the snowdrops, white with green trimming. Now is the time to go over the rockery where the plants are about to enter their winter sleep and wherever a bare spot of soil shows itself, tuck in a few of the tiny bulbs which will pop up with the first warm suns of spring, give their beauty, and then wither back to the tiny bulb in time to be out of the way of the later subjects.

The rock garden is not for the common run of garden plants. It is a garden for the smaller plants and especially for the species which often retain a delicate beauty lost in their more colorful children. Plant crocus species, as well as the named varieties. There are a number of fine sorts.

Plant such snowdrops as you can find catalogued. Try the tribe of muscari, the grape hyacinths. The California doe-tooth violets or trout lilies as well as the eastern forms are beautiful material. The little yellow winter aconite, Eranthis hyemalis, difficult to grow under ordinary garden conditions, usually takes kindly to the rockery. The intense blue of the Siberian squill, which will grow anywhere,

is a fine rock garden note. There are other squills of equal beauty. California offers some tiny bulbs of rare beauty in its butterfly tulips and brodia.

Some of the smaller tulip species such as the lady tulip, elusiana, are fine rock garden material. You may steal a march on the season and have the rock garden a thing of sparkling beauty before the regular rock garden perennials start their season by the liberal use of the little bulbs of early spring.

The miniature species are indispensable for rock garden use and are one of the real gems of the miniature garden.

"Well, old man, what are you doing now?" "Selling musical instruments. Sold a thousand yesterday!" "Goodness man! Pianos?" "No—phonograph needles."

WONDERFUL VISIT TO CALIFORNIA

Mr. Pete Bridgeman has just returned from Los Angeles, Calif., after visiting two weeks with his wife, daughter and husband, Mr. and Mrs. Ben Terkla. Mrs. Bridgeman has been a resident of California for several months due to ill health but is improving rapidly.

The short time spent there proved to be very enjoyable and was crowded with seeing all things of interest in the vicinity of Los Angeles. He witnessed an exciting football game between the University of Southern California and the University of Utah. He also saw one of the most thrilling polo games of the season at the Uplifter's Polo Club in Beverly Hills.

He was entertained on Sunday evening with a dinner at the home of his daughter and son-in-law, with a theatre party afterwards at Grauman's Chinese Theatre, supposedly one of the most magnificent show places in the world, featuring "The Big Trail."

He spent some time with his sister, Mrs. Marvin Wood, and niece, Mrs. Jim M. Martin, both formerly of Snyder. They drove him to the Los Angeles Harbor when they went aboard the battleship "Maryland," which is one of the largest of Uncle Sam's fleet. They were fortunate in seeing a fighting plane catapulted from the giant airplane carrier "Saratoga" which carries from 85 to one hundred planes.

He saw the museum, rose gardens and new agricultural building all located at the Exposition Park which is considered one of the sights in the city.

Among other places visited was Fox Carthy Circle Theatre, dedi-

THEY CAN EVERYTHING—EVEN RABBITS

WICHITA FALLS—The problem of living at home has been solved by Mr. and Mrs. R. W. Thomas on their 10-acre farm in Wichita county. Mrs. Thomas is a 4-H pantry demonstrator and has more than 800 containers of food on her shelves for winter use. Thirteen varieties of vegetables and four kinds of fruit all raised on their own farm protect them against a monotonous diet. The meat cans have been filled with a baby beef fattened for the purpose, and with culls from the poultry flock. For a change in meat diet, Mrs. Thomas has canned some rabbit.

In the cellar, potatoes, onions, and pumpkins have been stored, and 24 1-2 quarts of honey from their own bee-hives will supplement the jellies and preserves in providing the sweets needed in an adequate diet.

Father: Wh daughter, that fellow only earns \$10 a week. Daughter: Yes, but daddy dear, a week passes so quickly when you are in love.

No Pretender to a throne

modern mothers have the leisure to really govern their kingdoms

EVERY mother is a Queen. But no Queen can have her kingdom happiest when she is worn out by too heavy housework. No mother can do full duty to her home when the house takes all of her hours.

Old-fashioned washday robs you of time, energy and nervous force. Hundreds of women in this community have found freedom by turning to our modern laundry service.

We have made a business of washday. In each department skilled workers are carefully trained to serve you. Telephone today and a routeman will call promptly, to help you select a service suited to your needs.

Dry Cleaning

REMEMBER how delighted you were with your dress when you first saw it in the shop? Well, you'll re-experience that pleasure when your dress comes back from the SNYDER LAUNDRY AND DRY CLEANERS—restored to its original beauty and grace of line.

ARTICLE XIX WHY FRESH AIR MEANS MORE MILK

Ventilation in a Barn Where Dairy Cattle Are Kept as Important as Proper Feeding

Editor's Note—This is another story in a series of articles on dairying written by the well known national dairy and poultry authority, Dr. L. D. LeGear, V. S., of St. Louis, Mo. The entire series will appear in this paper. Our readers are urged to read them carefully and clip them out for future reference.

For several years we have had with us fresh air advocates. Whereas our forefathers did everything possible to keep the night air, which was supposed to be unhealthy, out of the lungs by boarding up doors and windows and filling every crack and crevice, we now roll our beds out onto the open porch and breathe deeply of the frosty atmosphere.

The modern dairy farmer is paying more and more attention to the ventilation of his barns because he knows that the proper changing of the air is essential to the health and well being of his herd. Unless pure air is mixed with hay and grain you do not get the maximum amount of milk.

In the summer time ventilation is no problem because doors and windows are open but in winter the opposite is true. We are not talking now of barns with artificial heating, but the kind where the heat from the bodies of the animals is depended upon to keep the temperatures up and the cold down.

It is easy enough to let cold air in. But to regulate the amount is the task. Unless there is a proper proportion of cold, dry air and the warm, moist air from the livestock you have a damp and dangerous stable.

Fortunately, we have men who have made a very careful study of barn ventilation, among them King, of the Wisconsin Experiment Station, and others.

We know that cows in breathing give off carbon dioxide, moisture, marsh gas and other matters. We know definitely how many cubic feet of fresh pure air are necessary every hour to offset the impurities of a cow's breathing. From that we can determine the size of ventilating flue necessary to produce that change in air.

The so-called King System of ventilating provides for a large flue which opens near the floor and extends above the roof. The carbon dioxide, being a heavy gas, seeks the floor. Air on the floor is always colder than that near the ceiling. The wind blowing against the top of the flue which is open above the roof provides the suction which draws the foul air from the floor up thru the opening where it is discharged.

We now must provide for fresh air to enter. The wind causes pressure of air against all sides of the barn. It is desirable to have the

cold, fresh air enter near the ceiling where it gradually mixes with the warm air, and drifts slowly downward where eventually it will be sucked in by the ventilating flue and sent out through the roof. These openings for fresh air should be down near the ground or foundation and go up through the walls before entering the barn. Some ventilating systems change the King plan to this extent—the outlet for the foul air is at the ceiling and in the center of the barn.

Inlets should be about 4 by 16 inches and the ventilating flue not less than 2 feet by 2 feet. This whole system of course is based upon the barn being tightly constructed. For instance if the system is properly installed and the barn is closed all night there should be very little or no odor in the morning when you enter.

In some barns windows are depended upon for ventilation. Plenty of windows are a good thing. They admit sunlight and cost very little more than the same amount of wall. Double-glass windows are very desirable because a single pane allows a coating of ice to form on the glass when the moisture from the inside air condenses on it. The double panes, set in the same sash, should be about 1-4 inch apart.

One objection to windows as a means of admitting fresh air is the draft hazard. It is a good plan to hinge the window at the bottom in a one-story barn, because there is not room to have the sash slide upward. In the northern states storm windows are almost a necessity in winter to keep the barn warm.

Told He Must Die Man Finds Life In Crazy Water

Deputy Sheriff Wants World To Know His Crazy Story

In the year of 1923 I was living at Altus, Okla. I was confined to my bed with a complication of diseases. It was diagnosed by different ones as Bright's disease, Paralysis, Neuritis, Rheumatism, and a dead liver.

When it was decided to take me to Mineral Wells the doctors did not believe I would live to get there, and the doctors in Mineral Wells when I arrived did not think there was any chance for me to recover.

I drank Crazy Water for four months and was, so far as I can tell, completely well. I gained 94 pounds in weight, and took a job as deputy sheriff which necessitated my being on my feet from eight to twelve hours every day, and oftentimes doing a lot of night work.

Crazy Water certainly pulled me out of the grave.
Geo. Hensley, 19-tfc Granite, Okla.

HOW CAN I?
By ANNE ASHLEY

Q. How can I drive a nail into plaster without marring the wall?
A. A nail can be driven into a plastered wall without crumbling the plaster if the nail is put in hot water for a few minutes, or dipped into melted paraffin.

Q. How can I prevent draught?
A. Dissolve one ounce of flour of sulphur in one quart of soft water. Do not use it until it is thoroughly mixed and settled. Apply it at night.

Q. How can I successfully launder ties?
A. Before washing ties, baste them carefully, to prevent the lining or padding from becoming lumpy. Remove the basting before ironing and the ties will look like new.

Q. How can I make a good toilet perfume?
A. A good toilet perfume can be made by mixing two ounces of alcohol with one-half ounce of orris root. Keep in a bottle, tightly corked, and shake well before using.

Q. How can I bleach a scorched spot?
A. Rub the spot immediately with

a cloth dipped in diluted peroxide. Then run the iron over it and it will be as white as originally. Do not use this method on colored material.

Q. How can I test eggs for freshness?
A. Place the egg in a pan of water. If fresh, it will lie on its side. If a few days old it will tilt upwards. If stale, it will stand on end. If very old, it will float.

Q. How can I preserve a new clothesline?
A. A new clothesline should be boiled for about thirty minutes before using it. This prevents stretching. It will not tangle as readily and will last much longer.

Q. How can I mend kid gloves?
A. Buttonhole around the edge of the tear before drawing together. Then over-sew the buttonhole together and the repair is substantial.

Q. How can I make a cockroach trap?
A. Fill a pie pan, or similar container, half full of sugar water. Place it on the floor and slant several sticks, each about three inches long, from the floor to the edge of the vessel. The roaches will crawl over and drown.

Q. How can I separate a water glass when it becomes stuck in another?
A. Pour cold water in the upper one to contract it, and then immerse the lower one in warm water to expand it. They can then be easily separated.

Q. How can the skins from beets be removed very readily?
A. Place the beets in hot water

for a short time, drain off the hot water and immediately fill the vessel with cold water.

Q. How can the shiny parts of a garment be removed?
A. Sponge it with a solution of one teaspoonful of ammonia to one quart of water. Then press on the wrong side.

Q. How can I make a cement for pipe joints?
A. Mix ten pounds of yellow ochre, four pounds of ground litharge, four pounds of whiting, one-half pound of hemp, cut up fine. Mix together with linsed to about the consistency of putty.

Q. How can I remove a rusty screw?
A. Heat a poker or spike red-hot and apply it to the head of a screw that is rusty and obstinate. When the screw has become hot it can be removed very easily.

Q. How can I take away all dampness of rooms?
A. Place blocks of camphor in all corners and on the shelves, replacing them as they evaporate.

Q. How can I remodel a straw hat?
A. If it is desired to change the shape of a straw hat, pour boiling water over it and while it is hot and pliable, reshape it with the hands. Take a bowl or vessel that will fit the crown and place the hat on this while working, also leaving it on the bowl to dry in the sun.

Q. How can I tighten the handle of an umbrella?
A. If the umbrella handle becomes loose, fill the hole in the handle with powdered resin, heat the rod, and then press firmly in the hole.

Q. How can I prevent the peeling of onions from affecting the tear ducts of the eyes?
A. By dipping the onions for a moment in boiling water and then beginning at the root and peeling upwards.

A baby does not need shoes until walking time. Shoes put on before then, generally for appearance, do more harm than good. The first walking shoes should have flexible but firm soles unpolished, preferably slightly buffed, and broad enough to be a steady platform under each foot. Very soft soles curl and make more difficult the baby's task of learning balance. Stiff or boardlike soles are also to be avoided. The toes of the uppers should be full or puffy, not flat and cramping to the toes.

Tilson predicts Republicans will retain majority in House.

The little daughter of a tire salesman had seen triplets for the first time. "Oh mother," she cried on returning home, "What do you guess I saw today?"
"I can't imagine dear. What?"
"A lady that had twins and a spare."

Vacuum Packed Peas

PEAS have always been one of the most popular of canned vegetables, but it has been comparatively easy to tell them from fresh peas because they have been packed in brine. There is a new way of packing them, however, which has been so successfully tried out over a period of several years that now one of the great chain store systems of this country is packing them by this method and offering them to the public.

Just Like Fresh Peas

This new method of canning peas is called vacuum packing, and the peas that are so packed are processed dry (no liquid in the can). The result is crinkly tasty peas which it is practically impossible to tell from the fresh, either by taste or appearance. In fact they are "as alike as two

Here are some mighty good ways to use them:
Currys, Peas and Celery: Simmer the contents of one 10-ounce can of vacuum packed peas and one 8-ounce can of diced carrots together for about five minutes. Cook three-fourths cup diced celery until tender, drain and add to carrots and peas. Season with butter, salt and pepper. This recipe serves eight.
Cauliflower and Pea Salad: Boil until tender but not mushy two cups cooked cauliflowerlets. Keep the cauliflowerlets whole and distinct. Marinate separately these, one cup of vacuum packed peas and one can of asparagus tips thoroughly in French dressing. Then toss lightly together the peas and cauliflower, and pile on lettuce. Arrange around the edge the asparagus tips and garnish with mayonnaise. This recipe serves eight people.

Cold weather is motor-punishing weather... Now, more than ever, you need the extra protection of this DE-WAXED, EASY-STARTING OIL

In cold weather motors usually are hard to start, but Conoco Germ-Processed oil actually makes starting easier!

There are two good reasons for this.

First: Germ-Processed oil is thoroughly de-waxed and does not congeal at low temperatures. **Second:** Germ-Processed oil does not drain away during periods of motor idleness.

The initial "turning over" process is made easier by the protective lubricating film which is on duty before you touch the starter. The usual 40% to 60% of motor wear occurring during the starting period is greatly reduced. Conoco Germ-Processed Motor Oil gives you

easy starting—and quick starting, even at zero temperatures.

Change now to this new oil. Use it all winter for motor safety and economy. You always will find Germ-Processed Motor Oil at stations bearing the Conoco Red Triangle.

CONOCO GERM PROCESSED PARAFFIN BASE MOTOR OIL

Society

MRS. IRWIN CLUB HOSTESS

Mrs. John Irwin was a charming hostess to the Altrian Daughters Club Monday evening at her home, 1203 26th St.

During the business session a report of committees was made. It was voted by the club to sponsor the picture, Nancy Carroll in "Laughter," to be shown at the Palace on November 10 and 11.

The general causes of the American Revolution was the subject for the interesting study lesson, which was directed by Miss Martha Gray. Members answered to roll call by naming their favorite heroes of this period. Wharton's Memorial to Mexican Congress was discussed by Miss Ola Lee Cauble. Miss Eloise Scott spoke on what the battle of San Jacinto meant to Texas. Remarks on the story of the Alamo and Goliad were made.

Mrs. Irwin, assisted by Miss Lura B. West, served a lovely refreshment course to Misses. Brentz Anderson, Ina Mae Caswell, Lucille Brown, Inez Caskey, Ola Lee Cauble, Martha Gray, Mary Harkey, Marilu Rosser and Eloise Scott; Misses J. D. Scott, Herbert Bannister and Joe Caton. Miss West was a club guest.

W. M. S. MEET

The Methodist W. M. S. met Monday at 3 p. m. in the home of Mrs. Cullen Higgins, assisted by Misses. Curry, Lemon and Stokes.

The meeting was called to order by the president, Mrs. R. H. Odom and after some business discussions the following program was rendered. The Devotional subject was "The Golden Rule," given by Mrs. Avary and most appropriately applied to our lives, the dominant thought being that it be made the standard of human relations.

The Missionary Discussion was "The Home as a School of International Brotherhood," under the direction of Mrs. Homer Snyder and was ably presented by Misses. Avary, Hamilton and Wallace.

Mrs. Lemons presented current news items of Missionary interest. Refreshment plates of pie and coffee were passed to twenty three members.

CHRISTIAN ENDEAVOR TO HOLD RALLY

A union Christian Endeavor rally of the C. E. societies of the First Presbyterian and First Christian churches will be held in the First Presbyterian church, Wednesday, November 12, at 7:30 P. M.

Harold Levitt, field secretary for the Texas C. E. Union with a group of Endeavors from Sweetwater will be in charge of the meeting. An interesting and helpful program is assured.

All young people, whether regular attendants at Christian Endeavor or not and other people interested in C. E. are urged to be present.

MRS. W. R. BELL HOSTESS TO ALTRIANS

The Altrian Club members and several guests were entertained on Friday afternoon at the home of Mrs. W. R. Bell.

During the business session the Better Homes Committee reported that 150 magazines had been distributed at the Methodist Rummage Sale. A motion was carried to pledge \$101.00 toward the building of the Federation Club House at Austin. Mrs. J. T. Whitmore was elected as a delegate from the Club to the State Federation meeting at Houston.

An interesting program was given on "Looking Forward to the Great Adventure," by Both Tarkington.

Director—Mrs. J. W. Leftwich. Roll Call—Quotation from the Author.

Parliamentary Drill—Mrs. C. R. Buchanan.

Biographical Sketch of the Author—Mrs. J. C. Stinson. A lovely salad course was served to Misses. H. P. Brown, C. R. Buchanan, Joe Caton, R. D. English, R. L. Gray, G. A. Hogan, W. W. Hamilton, C. C. Higgins, J. W. Leftwich, A. C. Preult, L. T. Stinson, J. C. Stinson, O. P. Thrane, and H. G. Towle, members, and Misses. Austin Higgins, Norman Autry, N. B. Moore and Henry Brice, guests.

Mrs. H. P. Brown will be hostess at the next meeting of the club on Nov. 7th, at 9:30 a. m.

SAN SOU CI CLUB

The Misses Hattie and Gertrude Herm graciously entertained the San Souci Club members, and their husbands and friends, at their home on Tuesday evening.

Lovely prizes for which high score were won by Mrs. Forest Sears, club member, and Mrs. J. G. Hicks, and Mr. Hill, guests.

Dainty refreshments were served to the following: Misses Maurine Cunningham, Mattie Ross Cunningham, Blanch Mitchell, Gladys Mitchell, Neoma Strayhorn, Opal Wedgeworth and Messrs. Hill, Campbell, Sides, Shaw, and Springfield, and Messrs. and Misses. J. G. Hicks, J. P. Nelson, Melvin Blackard, Lewis Blackard, Forest Sears, Wayne Boren, A. R. Norred, J. R. Hicks, and Wraymond Sims.

MR. AND MRS. A. R. NORRED ENTERTAIN BRIDGE CLUB

Members of the Thursday Night Bridge Club were delightfully entertained at the home of Mr. and Mrs. A. R. Norred on Thursday evening, October 23rd.

Prizes for high scores went to Mrs. Forest Sears, and Wayne Boren. A delicious salad course was served.

Blackard, Herbert Bannister, Forest Sears, G. B. Clark, Jr., Wayne Boren, and Wraymond Sims, members and the Misses Maggie and Ora Norred, guests.

MESSES. BOREN AND ELY HOSTESS AT CLUB PARTY

ed to Messrs and Mmes. J. G. Hicks, Geo. Oldham, Ivan Dodson, Melvin

One of the most enjoyable parties of recent weeks, was the forty-two

party given by Mrs. I. W. Boren and Mrs. W. J. Ely, on Thursday evening, October 23, at the home of Mrs. Boren, when they entertained members of the Twentieth Century Club and their husbands, and a group of friends.

The Boren home was beautifully decorated with roses and autumn flowers, and table appointments emphasized the Halloween motif. A delicious plate lunch was served

to the following members and guests:

Messes and Mmes. H. J. Brice, C. E. Fish, I. A. Griffin, W. B. Hamilton, W. T. Raybon, W. M. Scott, B. M. West, Ollie Bruton, Walla Fish, J. W. Ely, R. H. Odom, Preu Grayum, Clyde Boren and Mmes. Joe Strayhorn, Nelson Dunn, J. P. Morgan, H. C. Moore, and Miss Neoma Strayhorn and Messrs. W. J. Ely and I. W. Boren.

TWENTIETH CENTURY CLUB

Mrs. J. C. Dorward was hostess at the regular semi-monthly meeting of the Twentieth Century Club on Tuesday afternoon.

A fine program was given, with Mrs. J. Nelson Dunn as leader. Roll Call—Famous Sayings from American History. Protection for the Family Thru

Life and Fire Insurance—Mrs. J. Nelson Dunn.

Current Events—Mrs. W. M. Scott.

Insuring the Education of the Child—Mrs. H. J. Brice. Vocal Duet, "All Through the Night"—Mrs. C. E. Fish and Mrs. Allen Warren.

Dainty refreshments were served to Messrs. H. M. Blackard, I. W. Boren, H. J. Brice, J. Nelson Dunn, W. J. Ely, C. E. Fish, I. A. Griffin, W. C. Hamilton, W. T. Raybon, W. M. Scott, Joe Strayhorn, Allen Warren, and B. M. West.

Another paradox is that by remaining a slave to art may one become its master.

ON TEXAS FARMS
 by W. H. Darrow
 Extension Service Editor

Another triumph for experiment station varieties of seed is recorded in Collin county where W. H. Clark of Frisco harvested 26 bushels of Denton wheat per acre against a yield of 20 bushels on nearby land, and 85 bushels of Nortex oats per acre compared with 55 bushels per acre on neighboring farms using ordinary varieties.

Hegari growing in East Texas is off to a good start with county agents reporting satisfactory yields in most places. B. F. Despain in Newton county cut 1000 pounds of heads from one acre and has another crop ready from the sickers. In Colorado county Everett Brothers of Alletton reported a yield of 462 pounds of hegari heads from an acre which the county agent compared with corn on the same land. The corn made 44.6 bushels per acre.

Out in Young county Herbert Wheat has found that he made more money in producing cane hay this year than on any other crop. He baled 557 bales on seven acres, sold the crop for \$306.35 and with costs of \$77.90 shows a net profit of \$228.45 per acre. It is fitting that he lives in Red Top community.

Texas supremacy in grain sorghum production depends in no small degree on her seed breeders, particularly those who multiply the pure line strains developed by the

HELPING TO BUILD TEXAS
 Cost of the new building of the Dallas Gas Co. will be increased to \$1,000,000 by the addition of four more floors than originally were planned. The building is electrically welded throughout its steel framework. Five new cars embodying recent improvements in construction will not only carry as many passengers as seven formerly did on the lines of the El Paso Electric Co., but have increased the speed from 10.3 to 11.9 miles per hour. Older cars will be remodeled to include the new features. Texas Utilities Co. is constructing a new power plant near Abernathy, 20 miles north of Lubbock, to serve a large area in that section of Texas. The plant is designed for an ultimate capacity of 45,000 kilowatts, making it one of the largest in the state.

San Benito is to dedicate its new airport with a formal celebration Nov. 11. A high-powered beacon already has been put in operation. Sweetwater will have its dam across Bitter creek, to supply the city with water, completed about Dec. 1, solving the city's water problem for many years to come. Due to the late frosts and ravages of insects the Texas Pecan crop this year will be only about 14,000,000 pounds. The new \$300,000 stadium at Fair Park, Dallas, was opened by Texas Aggies and Tulane. It has a seating capacity of nearly 50,000 and was completely filled at its first night game—between Dallas high school teams. Taylor is to have a municipal airport, a 69-acre tract having been leased for the purpose.

Sweetpotato production in Texas is estimated at nearly 8,000,000 bushels this year. Citizens of Northern States have no idea of the deliciousness of Southern yams. All they know about the potato as food is gleaned from experience with the "nigger-taters," a tasteless, tough, white potato that compares with a "pumpkin-yam" about as wood pulp does to strawberries. T. W. Walton of near Conroe is probably the largest grower of pansies in the South. Starting eight years ago now with an investment of 30c in seed, he now ships pansies to all the Southern states, as far west as Utah, as far north as Kansas and as far east as the seaboard states.

Prouder Story, 4-H club boy of Houston county, showed a gross income from one acre of tomatoes of \$183.19 and a net profit of \$122.22, making 9,490 pounds of the crop. Business conditions in the Houston area are reflected in the report of the Houston Lighting & Power Co. for August, showing an increase of 6,417.195 kilowatt hours over the August 1929 total. The company's Deepwater plant will have a capacity of 230,000 horsepower when two additional units, now being installed, are completed, the largest power plant in the south.

Temple, with practically its entire business district lighted by white way standards, is extending the "white lights" into the residential districts, with one white way lane two miles long extending clear across the city. United Gas will spend \$20,000,000 in the next twelve months in expansion of its system in South Texas with new distribution systems in several East Texas towns. Galveston Customs District is second in rank in the United States, only the New York district rating ahead of it. The new Orleans district is third.

Moore county is to have a new \$150,000 courthouse at Dumas, county seat. Work is ready to start on the new \$250,000 courthouse at Liberty. Brenham is building a new \$60,000 hospital. The W. O. W. hospital at San Antonio has let contract for a chapel, bird sanctuary and a carillon tower, total cost \$150,000. Quanah is to have a new hospital. Beaumont is considering the expenditure of \$1,400,000 on a permanent solution of its water problem. Improvements on the Arlington Hotel, Marlin, costing \$75,000 are planned. A \$500,000 hotel at Port Isabel is reported projected by the Baker Hotel Co. Western Union plans \$100,000 three-story office building in Fort Worth.

Houston hopes for a \$2,000,000 Southern Pacific passenger station are deferred until next year, postponement until 1931 having been announced by the company. Texas Electric Service Co. is to spend \$750,000 on improvements in and around Ft. Worth with rebuilding of rural lines part of the program. Work has started on a \$125,000 theatre at Pampa. Brownwood is ready to start work on the \$2,500,000 water project on Pecan Bayou.

experiment stations. In this connection a 4-H club boy must be mentioned. Alvis Dunn of Dawson county got his inspiration to produce pedigreed seed at a state short course and this year bagged 2000 heads on a 50-acre tract. He has 5000 pounds of state certified seed to help increase milo maize yields in West Texas next year.

"Look here, Bonis, asked Colonel White, 'do you happen to know where Ink Judson is just now?'"
 "Yassuh! Yassuh! Sho' does sah, he's asleep dis minute over dar in de shade of de lumber yard lookin' for a job, sah."
 "I want a revolver—for my husband."
 "Did your husband say what make of revolver?"
 "No, but I don't think that matters. He doesn't even know I'm going to shoot him."
 Bargain Days, \$1.00 per year.

"Down Under Land" Offers Its Fish, Game and Scenery To Outdoor Loving Visitors From Across the Blue Pacific

When golden autumn has fled, and bitter winds sweep from the North, many folk would like to pack their belongings and liberate themselves until gentle Spring once again smiles upon the land.
 Australia and New Zealand, far-off lands in the south Pacific are being visited more and more by travel-wise people who would avoid the beaten path. One of the most delightful ways of journeying to these distant countries is over the Canadian Pacific Railway to Vancouver, then via one of the Canadian Australian Line steamers which ply direct to Suva, in the Fiji Islands; Auckland, New Zealand and Sydney, Australia. An interchange arrangement permits the traveler to return on the same round trip ticket via a Union Steamship liner to San Francisco thence by rail to his home town.
 Sydney, the gateway to Australia, is a cosmopolitan metropolis with one of the finest harbors in the world. The climate is always temperate, seldom varying more than 17 degrees F., and many who visit Australia find conditions there so delightful that they remain indefinitely. Australia is a land of outdoor sports such as horse racing, football, cricket, swimming, motor racing, golfing, big-game fishing, mountain climbing and hunting.
 New Zealand is acknowledged to be the "sportsman's paradise" by visitors from all over the world. Railways and motor roads give easy access to hundreds of lakes and streams where brown trout, rainbow and sea-run trout abound in such size as to astonish fishermen from other countries. Deep-sea fishing attracted Zane Grey, celebrated novelist and sportsman, to New Zealand in 1925, and he had a thrilling time with the swordfish and fighting mako sharks. Deer, too, are plentiful, and New Zealand's display at the Wembley Exhibition, London, was acknowledged by the world's leading authorities to be one of the best collections ever seen anywhere.

PIONEER NIGHT AT FIRST CHRISTIAN CHURCH SUNDAY

Last Sunday evening's Special was well attended with fine interest. All ages and departments of life were represented in a fine way, with the younger generation pronounced by several as predominant. Interest in the Scriptural text quotations ran high, with most gratifying results as to Scriptural understanding. Not one text was offered which did not fit into some phase of the theme of the evening, Sister George W. Brown and Brother A. J. Cody tied in correct selection. A book will be given each.

On next Sunday night the church will feature PIONEER NIGHT in which all pioneers of Scurry county are invited to take an active part. Premiums will be given to the oldest resident of the county who is present and to the person coming nearest to the exact quotation of the text used in the pioneer sermon which is to be featured.

These specials are being featured with a definite spiritual outlook, the purpose of which is to foster a spiritual revival for the entire community. There who have been in attendance have expressed themselves as delighted thus far, and bid the movement God speed.
 In addition to the above mentioned special, the Church Open Forum will be instituted. It will call for a free discussion by all who desire to take part. Quotations will be as follows:
 Why was Jesus baptized?
 Had He not been baptized, would He have sinned?
 Could He have been the Christ?
 What constitutes righteousness?
 Give Scriptural support for your view.
 The invitation is to all. Come! Thomas M. Broadfoot, pastor.

Europe is alarmed by new reports of Italo-Serbian row.
 "Hey, there, shut the door!" a street car passenger yelled to a newcomer. "Were you raised in a barn?"
 To the amazement of everyone, the man, after closing the door, sat down and wept.
 "Say, brother, I didn't mean to hurt your feelings," the first man apologized.
 "That's just it," sobbed the other. "I really was raised in a barn and it makes me homesick every time I hear a jackass bray."
 Try sausage and fried canned pineapple. Cook sausage meat in flat cakes one-half-inch thick. Brown slices of drained pineapple in the sausage fat and place one sausage cake on each piece of pineapple for serving. Have the platter and the plate very hot.

Teacher, "Willie! make a sentence with the words, 'deface, defence, and detail.'"
 Willie, "Deface went over defence before detail."
 Little girl, "Mother, what did you do when a boy first kissed you?"
 Mother, "Never mind."
 Little Girl, "I did the same thing mother."
 Marrying a girl that is beautiful but dumb would be all right if she would only stay that way.
 Bargain Days, \$1.00 per year.

WTCC PUBLICITY COMMITTEE WILL BE HOST FOR EDITORS

R. V. Colbert of Stamford Offers Ranch Home for Meeting of West Texas Scribes, Sunday Night and Monday
 The West Texas Chamber of Commerce wants newspapers of the member territory to know more about its work and plans, including specifically its program for 1931. With its publicity committee in the spot as host, the regional organization will have an overnight convention next Sunday and Monday, near Stamford. Invitations have been mailed to editors or managing editors of all daily papers in the territory, one or more representatives being picked for the Marsh-Fentress, Harte-Hanks and Nunn-Hove-Hawk groups.
 The real host for the occasion however, is to be neither the West Texas Chamber of Commerce nor its publicity committee, but the organization's treasurer, R. V. Colbert, banker-ranchman of Stamford and famous for hospitality. Mr. Colbert has suggested that the convention be held on his 30,000 acre ranch, and is going to turn over to his newspaper guests the commodious ranch home four miles northeast of Stamford.
 Play With Week.
 The editors will begin gathering about Sunday noon, reporting to the WTCC's headquarters office, and the party will move on to the ranch directly after lunch. Two business sessions are planned—Sunday afternoon and Monday morning, but plenty of time will be reserved for rest and play.
 Invitations have been sent to Jas. R. Record, Fort Worth Star-Telegram; L. A. Wilke, Fort Worth Press; Wallace Perry, El Paso Post; Ben Donnell, Wichita Falls; Jim White, Brownwood Bulletin; Ray H. Nichols, Vernon Record; Eddie Warren, Post Dispatch (Warren is immediate past president of the West Texas Press Association); T. E. Johnson, Amarillo News-Globe; Chas. A. Guy, Lubbock Avalanche-Journal; and Henry Ansley, El Paso Herald-Times.
 On the publicity committee are these eight West Texas newspapermen: Max Bentley, Abilene-Reporter;

1. Crowds Follow Jesus—Preston Wilson.
2. At Capernaum—Jackie Scarborough.
3. At Cana—Opal Adams.
4. The Nobleman Returns—Jack Hamilton.
5. The Centurion Comes to Jesus—Lyle Alexander.
6. Jesus Heals the Slave—Geraldine Shuler.
7. Poem—Kynastine Morton.
8. Sword Drill—Mr. Newton.

Talkative Barber, "Your hair is getting thin sir! You should put something on it."
 Bored Client, "I do."
 Barber, "May I ask sir, what is it?"
 Client, "My hat."
 Pat stopped to read a sign in front of Max Goldstein's place. "Ladies Ready-to-Wear Clothing." "Sure, an it's about time," mused Pat, as he walked on.

SLEEP ON RIGHT SIDE, BEST FOR YOUR HEART
 If you toss in bed all night and can't sleep on right side, try simple glycerin, saline, etc. (Adlerika). Just ONE dose relieves stomach GAS pressing on heart so you sleep sound all night. Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisons you never knew were there. Relieves constipation in 2 hours! Let Adlerika cleanse your stomach and bowels and see how good you feel! Stinson Drug Co. adv. M-3

POLAR NEWS
 By Mrs. J. A. Martin
 Our community has become a rainy one in the last few weeks. The what and how which was so new in the fall is looking fine and we hope it will help to keep the stock alive this winter.
 Mr. Cantrells who have lived on Mrs. Massengill's place the past year have moved south of Snyder to pick cotton this fall.
 A. C. Elkins has been at Justiceburg the past few weeks helping J. T. Simms with his cattle there. Edgar Shuler and wife were Sunday visitors at Polar.
 Mr. Walker who has been in the West Texas Baptist Hospital at Abilene for the past two weeks is said to be improving.
 Mrs. W. H. Mercer of Amarillo, Texas, was a guest of her sister, Mrs. J. A. Martin last week-end.
 Rev. S. B. Wilkerson and family of Snyder were Sunday guests of their daughter, Mrs. Johnnie Hoyle. Mrs. Alvin Elkins was called to the bedside of her mother, Grandma (Griggs) last week.
 Miss Zula Carlisle was a guest of her uncle, H. F. Clark of Bison last week.
 Mr. and Mrs. S. B. Weatherby were business visitors at Rotan.
 Mrs. Rena Elkins and daughter of Sweetwater were Sunday visitors at Polar.
 Misses Iris Bullock and Bessie Burnett spent Sunday in Snyder.
 Senior B. Y. P. U. met Friday night with seven members present. The five active members present were 100 per cent in everything except study course and we expect to begin study course work soon. Our B. Y. P. U. cordially invites visitors and solicits members who want to work for the Master.
 Fifty-three were present at S. S. Sunday afternoon. Brother T. L. Nipp of Fluvanna was present and preached after Sunday School. Acts 2 as a scripture lesson. Johnnie Hoyle united with the Baptist church here making 15 members. We were honored by having two Baptist preachers present. Brother Wilkerson and Brother Nipp.
 The Junior B. Y. P. U. met Sunday afternoon with 8 of the 11 members present. There were 5 who made 100 per cent in Bible reading. The Juniors are going to have to work to catch the Seniors Union. Our Senior Union made 69 per cent last quarter against 23 per cent for the Juniors. Come on Juniors. School is progressing nicely at Polar and new pupils are being added each week.

STRANGE INCIDENT!
 Sometimes strange things do happen so it was strange a few weeks ago when we opened our paper and read in the birth registration: "Mr. and Mrs. J. A. Martin, a boy Oct. 2." For the benefit of our friends who want to send us the congratulations we might say: "The honor belongeth to someone else." There's a Mr. and Mrs. J. A. Martin at Snyder as well as Polar.
 Hans: What do you mean by telling Dot I'm a fool?
 Harry: I'm sorry, I didn't know it was a secret.
 Bill: He's gathering material for his novel now.
 Ed: Traveling around the world?
 Bill: No, collecting waste paper.

OFFICIAL DATA

 "Doctor, do you think the anesthetic will make me sick?"
 "No, madam," replied the surgeon. "I think not."
 "But still she was not satisfied. "But" she continued, "how long will it be before I know anything?"
 "Madam," replied the other gravely as he signaled to his assistant that he was ready, "don't you think that is asking a great deal of the anesthetic?"
 "Dumb Dora thinks it wonderful that the world is timed to go around exactly once a day."
