Special Judge Runs For Regular Term On District's Bench

To the Citizens of Scurry County: I hereby announce myself as a candidate for judge of the district court of the 32nd Judicial District of Texas, subject to the action of the Democratic party at the July I have lived at Big Spring in this judicial district for more than 25 years. In that period I have served as your district attorney for four years. During the last Legislature a bill was passed creating a special district court of this district for a term of two years only, to aid in clearing up the crowded dockets in some of the larger counties. I was appointed as judge of this special district court and have served about one year. The court over which I preside will cease to exist in the early part of 1933. I have been actively engaged in the private practice of law during the time I have lived in the district except for the years spent in public service.

County Clerk Race **Entered This Week** By Hermleigh Man

After strong solicitation I have decided to enter the race as a candidate for county clerk of Scurry County subject to the election of the democratic primary.

I am 36 years old. I have lived in West Texas 28 years, and in Scurry, County, at Hermleigh, for the service in the World War. During this time I have engaged in agricultural and mercantile business, and have had considerable experience in bookkeeping and clerical work, and feel that I am well qualified to fill the office of county clerk. I shall do my best to make you an efficient clerk, and shall conduct the office in a businesslike manner. I have never asked

for public office before. It is my desire to see every one in person and let you know that I want and will appreciate your vote and influence, but owing to the de pression I may not be able to do so, so if I miss any of you, I ask that you not hold it against me, but that you investigate my qualifications, and give me your support, and then, if I am elected, come to the office and let me show my appreciation by good service to you. Yours truly, ELMER LOUDER.

(Concluded from Page 1)

Judge James T. Brooks of Big Spring, speaking from the standpoint of a special judge in Judge Smith's district, saw the Snyder veteran as a man who "never missed an opportunity to do something for the other person. He was slow to anger and quick to forgive, if there was any inclination at all to be friendly. There was no pretense; he was just exactly what he was. Judge Smith never spoke ill of any person. The gathering here tonight has taught of a life unselfishly lived, and no greater tribute can be paid. He will live in the hearts of men of this district always as an example of a man who lived unselfishly and gave his life that he might help others live right. Judge A. S. Mauzey, who has taken Judge Smith's bench with an appointment from the governor, declared, "No man could be district judge without feeling the responsibilities left by Judge Fritz R. Courtesy Is Necessary. "A district judge has to deal with people as conditions arise. Different talent from other courts are required. A sense of humor is distinct value. A great learning is not sufficient in itself. Courtesy is necessary. Add to these a reasonable amount of reasoning, impartiality, and backbone, and we will have a district court that will give hope to the future."

Chief Justice Hickman, in a brilliant address sparkling with philosophy, brought out that if we did not halt the maddening whirl of industry to pay tribute to those who pass on, we would go on to destruction. "We must stop and consider," he said. "Judge Smith was a citizen of the district and state, as well as of Snyder," he went on. 'We love unselfishness. 000 In Any Kind of Times.

The times, whether they be depressing or whether they be uplifting, should not change the attitude we take toward our neighbors. We rise to give praise to the men and women who lose sleep in order to be at the bedside of their ill neighbors, who donate food and clothes and words of comfort to neighbors less fortunate than themselves. These are the things that keep the silver lining showing,-the things that seldom slip into newspapers' columns.

That Unemployment Drive. The concerted drive to relieve the unemployment situation is taking the cities by storm, but such small towns as Snyder seem to think themselves apart from the movement. It seems to us that the Chamber of Commerce should take a hand in finding odd jobs for the local people who are without work. Practically every wage earner would be willing to give a few hours of work to someone out of a job, if the situation were put before him properly.
