Cotton Contracts To Exceed Quota 5000 Acres, Lace Thinks

At Least 1,300 Farmers Expected To Submit Acreage; Option Plan Still Favored.

The extended time limit for filing of applications for option-benefit cotton contracts was closed last night at 12:00 o'clock.

W. R. Lace, emergency agricultural assistant, indicated this morning that almost 1,300 contracts have been requested. Since many contracts must be sent out of the state for landlord signatures, some of them may not be drawn up in final form for several days.

Approximately 900 contracts have been completed by the county committee and sent in to Washington. Members of the county committee estimate that 90 per cent of the county's farmers have made application for contracts, and that the average percentage of acreage requested to be plowed under will be about 42. On this basis, almost 100,000 acres will be included in the government contracts.

The county's allotment of 37,134 acres will probably be oversubscribed by at least 5,000 acres, when all contracts are in, Mr. Lace believes. Mr. Lace reports that contracts have been returned through the local mill in surprisingly rapid manner. Since farmers have been going in most cases directly to community committees, the local office force has been reduced. The "sitting" committee checks all contracts for discrepancies and mistakes, then files them to the county committee, where they are finally checked and signed to be forwarded to Washington.

Except in cases where the community committee and the grower can not agree on contract terms, the county inspector, W. W. Reed, is not called. Hearty cooperation on the part of growers, landlords and community committees deserves wholehearted praise, according to Mr. Lace and the county committee.

Mrs. E. J. Walker Dies Thursday At Home In Snyder

Funeral services were held Sunday afternoon at the Church of Christ for Mrs. E. J. Walker, 71 years old, who passed away Thursday at her home in East Snyder. Mrs. E. J. Walker was born in the town of Snyder, Texas, and was the wife of Mr. E. J. Walker, who died in 1924. She was a member of the Church of Christ and was a devoted mother and wife. She is survived by her husband and several children.

Jack Sturdivant Killed In Wierd Ft. Worth Crime

Jack Sturdivant, son of Mr. and Mrs. John Sturdivant of Snyder, was one of three men killed near Ft. Worth last week-end in one of the most startling crimes in Tarrant County annals. Young Sturdivant's wife, the former Melva Rutherford of Clyde, was a niece of J. B. and Harry Rutherford, the other two victims.

The three bodies were found late Wednesday in the shallow water near the Riverside crossing of the Trinity River, northwest of Fort Worth, after three days of fruitless search by Tarrant County officers and others. The bodies, partly clothed, were tied to a cement slab, but were partially floating when an officer, returning to his Fort Worth home for the night, discovered off-rising water at the top of the water near the bridge.

Federal charges growing out of the February 21 robbery of a mail truck at Fort Worth when \$72,000 was taken in lost were filed against five men late Monday after four of the five had been charged in justice court with the three murders.

O. D. Stevens, W. D. May, M. T. Howard, alias Pettijohn, and M. D. "Red" Howard, alias Pettijohn, were charged with the murder of the three men. The same four and Weldon Rount were named in complaints drawn by United States Attorney Clyde Easton charging robbery with deadly weapon and conspiracy to rob the United States mails.

The three men missing are believed to have met their deaths as the result of information given officers in the mail robbery, officers said. John Sturdivant went to Fort Worth early this week to assist in search for the body of his son, who is well known to Scurry County people.

The supposed Saturday night slaying resulted from a dispute over division of the spoils in the robbery, officers said. The slain men were, by agreement with their alleged slayers, to have received \$8,000 for their part in the robbery.

John Sturdivant, the state's district attorney, said the robbery was committed by Jack Sturdivant and W. D. May, and a third man, without a previous record. Both men have criminal records—Sturdivant, 24, from federal court in Abilene, where he was convicted in 1921 of counterfeiting; and May, 37, from Waco, in connection with the shooting of a federal officer.

It is believed by officers that the Chrysler coupe, driven by Young Sturdivant on recent visits to Snyder, is the one sought in connection with the crime.

A. A. PRUITT IS CALLED TO REST

A. A. Pruitt, 75 years old, one of Scurry County's pioneers, passed away Wednesday at the home of his daughter and her husband, Mr. and Mrs. J. A. Lee, near Shallowater. Mr. and Mrs. Pruitt have lived in this county for 30 years, having spent the last few months in the Lee home.

Funeral services were conducted Saturday afternoon at the Odum Funeral Home in Snyder, with Bro. O. D. Dial, minister of the Church of Christ, officiating. Interment was in the Snyder cemetery.

COTTON CO-OP MAN TO SPEAK HERE JULY 20

C. O. Moser, ACCA Vice President, Will Explain New Set-Up In West Texas.

Explanation of the new West Texas Cotton Cooperative Association set-up will be made in detail here at 3:00 o'clock Thursday afternoon, July 20, by C. O. Moser, vice president of the American Cotton Cooperative Association.

The announcement of Mr. Moser's coming was made Tuesday by Roy McCurdy, local co-op manager, who states that the gathering will be held in the city tabernacle. Members and non-members of the co-op, merchants and all others interested in Scurry County's staple crop are invited to attend the meeting.

Moser Here Before. It will be recalled that Mr. Moser spoke here some years ago to one of the largest crowds of farmers and merchants that ever attended a speaking in Snyder. As a result of that meeting, Scurry County jumped into West Texas leadership as a co-op county.

Mr. Moser has been the outstanding leader in the three-year struggle through which West Texas cotton growers and others have cleared the road for localized cotton marketing associations, and in so doing have overthrown the original "Sapiro" plan which has ruled for a dozen years.

The new plan puts the growers' central organization, ACCA, "on the spot." ACCA must meet private contracts, or let the cotton go elsewhere. But failure to go through ACCA, under the new set-up, does not break down the cooperative system. Local co-ops will handle the cotton, and sell to the highest bidder, whether ACCA or others. ACCA must be favored, where possible, because it is the growers' own organization and their protection against private traders' attempts to beat down the cotton price. Existing ACCA or others, ACCA must be favored, where possible, because it is the growers' own organization and their protection against private traders' attempts to beat down the cotton price.

BUSINESS MEN TO COOPERATE FOR RECOVERY

Printers, Cleaners, Bakers, Barbers Heartily In Accord With New Deal Industrial Act.

Snyder business men are heartily in accord with the New Deal recovery act that would regulate wages, hours and prices, if a survey made by the Times this week is correct. Four groups have already taken definite steps toward co-operation with the district, state and national recovery programs. Others are expected to join hands with their fellow tradesmen as soon as the opportunity is presented.

West Texas printers, the first to organize under the new plan, elected delegates to a state meeting at Abilene Wednesday last week. Included in this group was J. W. Roberts of Snyder, who attended the state gathering at Fort Worth Thursday. Texas delegates to a nation-wide meeting at Chicago, scheduled for this week, were chosen.

Joe Graham was one of almost 100 cleaners and dyers who gathered in Abilene Tuesday evening to hear George Webster of Dallas, representing the Texas Dry Cleaning Association. Back from Washington, where he spent two months studying provisions of the act, he gave a comprehensive and detailed report of how the act will apply to the industry. The group took no action on joining the national association, which plans to submit a trade code through the state organizations to its local units to comply with provisions of the Roosevelt program.

Several local barbers planned to be in Abilene last night for a district meeting similar to those held by the printers and cleaners. W. H. Ware and Forest Wade were in Lubbock Thursday of last week for a district gathering of bakery representatives. Definite plans for establishment of uniform wage and hour scales were suggested for submission to state and national groups. Those who have attended district or state meetings agree that the new industrial codes will be fair to employ, worker and customer alike, will eliminate the cut-throat business man, and will place a high premium on quality and service.

Not only can the West Texas cotton market be better than the highest bidder, whether a co-op or a private concern, but the association may be split up into county units, each of which will also have its independent right to sell through private channels, if the co-op selling organization does not meet competition.

This is a very long way from the cooperative plan brought from California to Texas in 1921 by Aaron Sapiro, under which the grower bound himself to deliver his whole crop to the central agency, no matter what the price. Adoption of the new plan marks the victory of Mr. Moser and the "democratists" who have waged their fight within the co-op ranks for the past three years against centralized control.

Farmer Holds Key. Mr. Moser contends that the key to cooperative activity should be the local unit that will "do anything" that the farmer wants done. In the Abilene and Corpus Christi areas, this plan will have its baptism of fire during the present season, and success will quite likely come. The defeat was not so one-sided as some of the locals' losses in the past few matches. The score was: Midland 24, Snyder 16.

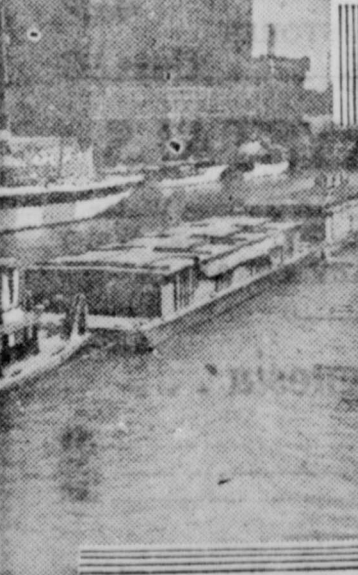

Following are results of pairings and foursomes: J. W. Roberts lost to Kidd, with foursome honors going to Midland. In the second foursome Sam Williams lost to Day, while Lex Milnech was defeating Miller, low ball going to Snyder on the nineteenth hole. W. W. Hill won from Shaw, while Wayne Boren was losing to Moran in the third foursome, with foursome honors going to Midland. In the last foursome Frank Farmer, an Otis Moore last both individual and foursome honors to Douglas and Chambers.

Mr. Moser will discuss the new plan in detail at the series of meetings which he has been invited to address in West Texas next week, July 17 to 21. After conferences with the West Texas leaders at Abilene and Dallas last week, Mr. Moser is spending this week in the Corpus Christi area, where cotton is actually moving under the new plan, and he will report on developments there when he returns to West Texas next week.

The path to final organization of the West Texas Cotton Growers Association was smoothed out in Dallas Saturday, when arrangements were completed that will affiliate Snyder with the national organization.

New Mid-Western Trade Route to the Sea

A new trade route has been opened to 22 mid-western states. It is the Great Lakes—Gulf of Mexico waterway now open to large commerce. The first large ships crossing the official ship, USS Wilmette (background) at Michigan Link Bridge, Chicago, and inaugurating the first ocean to Lake Michigan shipments. It is said that twenty-two states in the Mississippi valley are to enjoy a revision of shipping rates from this new trade route.

This employee of the Snyder post office, Noah B. Sisk, was named last week at Corpus Christi as vice president of the Texas Federation of Post Office Clerks.

FREE VACCINE SENT OUT FOR COUNTY NEEDY

Health Officer Says Typhoid Fever And Diphtheria Treatments Offered By State.

Citizens of Scurry and Borden Counties living outside incorporated towns, and who are not financially able to pay for the treatment, may obtain vaccine against typhoid and diphtheria free, according to Dr. H. E. Rossier, health officer for the two counties. The free vaccine is sent out by the State Board of Health.

"Let me urge you to get this vaccine at my office within the next 10 days," says the health official. "The supply is limited, and the first to come will be first served."

"I also have a limited supply of Schick test for diphtheria immunity, to be distributed in the same manner. For your information I will say that not all immunity vaccination against diphtheria is successful, and this test is to determine if such vaccination has been successful."

"This test is given by injecting a few drops of the liquid into the skin. If the child is immune against diphtheria, no reaction will take place; if the child is not immune, a red, purplish circle will appear over the seat of injection in about 24 hours."

"In this connection we wish to compliment the public school management under the present leadership for leaving the health matters of the county entirely up to the medical profession. This is contrary to former precedent, but works better, and we believe that there are those in Snyder who will finally learn that it is best to let the medical profession take care of its own problems, especially in private affairs, and that 'fools rush in where angels fear to tread!'"

O. D. Dial To Begin Meeting Tour Friday

Bro. O. D. Dial, minister of the local Church of Christ, is leaving this week on his evangelistic tour to various points in Texas and Oklahoma. He is expected to return about September 1.

The first meeting to be conducted by the local minister will begin Friday evening at Dunn, after which he will hold a revival at Ira. Both will continue for 10 days.

Harris Attends Bar Meeting At Corpus

Among delegates to the Texas Bar Association meeting at Corpus Christi last week was J. M. Harris of Snyder, who returned to his home here several days ago. A neighbor, Thomas R. Smith of Colorado, was named a member of the board of directors.

John C. Townes Jr. of Houston was elected president of the association. Henry P. Burney of San Antonio, vice president, and George C. Gaines Jr. of Houston was re-elected as secretary.

NEW HIGH FOR LOCAL COTTON

Cotton on the local market reached the highest point in more than two years yesterday morning, passing the 10-cent mark.

A bale of strict middling, 15-16 inch staple, would have brought about 10.10 here yesterday morning, after a nine-point rise in New York prices.

A few bales are moving, cotton buyers report, but most of those who have held their staple to date are determined to hold it for still greater increases.

Seven Beer Raids In Single Day Made As Summer Drive Opens

Rain Pockmarks County But Heat Wave Continues

A rain that pockmarked Scurry County from southwest to northeast, and hit several spots in between, was a strange visitor Thursday afternoon of last week.

While Hoyt Murphy and a few other farmers in the China Grove area were receiving a four or five-inch washout, some of their neighbors were getting only light showers. While small areas near Camp Springs was watching the breaking of terraces, other areas scarcely across the fence were praying for rain—and not getting it.

In Snyder the Thursday afternoon shower brought the week's total to 1.20 inches, and hastened new greenery on fields and lawns and gardens.

The dry heat wave was abated for a few days in the wake of the spotted rains, but it came back early this week in full force. The mercury soared to 104 degrees, official Monday, which is just three degrees less than the official high of the season. The feat was practically duplicated Tuesday.

On every hand one hears that cotton and feed are in excellent shape in view of the near-drought that has fallen on the major portion of the county. Clouds continue a threat to break the new heat wave. Cotton that was decimated in its last stages two weeks ago has been growing in spite of dryness and heat, while the areas to which rain came last week are threatening to have at least average yields.

Reports from all sections of Texas, and from many other states, indicate that drought and near-drought is the rule, not the exception. Particularly in dry weather making much of the Plains country a land of desolation. It is said that most of Dawson County is suffering considerably, while the northern Plains have seen their wheat crop fade and their pastures snuffed out like wildfire before a stream of water.

Several Locals See Baer-Dempsey Show

Several Snyderites traipsed to Fort Worth Tuesday night to see Max Baer, giant heavyweight, in his exhibition bout. A feature of the exhibition was the refereeing of Jack Dempsey, deposed champion, who is now the nation's supreme prize fight promoter. The locals are agreed that the exhibition, as well as the preliminaries, were well worth the time and money.

The local delegation included G. H. Leath, Joe Stinson, Dr. J. G. Hicks, Warren Dodson, H. J. Brice and Andy Jones.

BREAD PRICES UP TO 8 CENTS

Retail bread prices in Snyder were advanced to eight cents yesterday, when both bakeries announced a jump in the wholesale price from six to seven cents.

The new price schedule applies to loaf bread of all kinds—sliced and unsliced, plain and whole wheat. The seven-cent price has not fluctuated here during the frequent changes in the price of wheat. Newspaper reports indicate that eight cents is the average to be charged for bread under the new plan, while Big Spring is reported to be charging 10 cents.

Rise in the price was due not only to the new processing tax of \$1.38 on every 196-pound barrel of flour, but to the remarkable climb in the wheat market recently.

A Cool Frock

For a PATTERN, size 34, 36, 38, 40 or 42, send 15 cents in coin, your NAME, ADDRESS, STYLE NUMBER and SIZE to Kay Boyd, 103 Park Ave., New York, N. Y. Complete and simple sewing chart with each pattern.

The blouse has a deep pointed yoke extending over the shoulders to form short sleeves. Pointed yoke sections in the skirt repeat this line. The trimming may be of pleating or binding in a self or contrasting color. The belt buckle may also carry out the color scheme.

This easily made model is designed in five sizes—34, 36, 38, 40 and 42. Size 38 requires 3 1/2 yards of 35-inch material.

Mrs. J. W. McCoach Given Surprise Party.

Mrs. J. W. McCoach was made honoree at a surprise party given in her home Monday afternoon by the ladies of the First Presbyterian Church. It had been announced Sunday morning at church that Monday afternoon would be visitors' day for the missionary society, but this was just part of the trick played on Mrs. McCoach.

Believing it would really be visitors' day, the honoree was ready to greet several of her friends, but had not expected to serve in a receiving line.

An enjoyable program was given. Mrs. J. C. Miller asked each guest their birthday date and then read to each a special scripture for that date from the Bible. A clever book title contest was conducted by Mrs. J. W. Roberts.

At the tea hour ice cream and wafers were served, and Mrs. Roberts played several piano selections.

Members of the missionary society present were Mrs. E. F. Sears, Table Faver, A. M. McPherson, R. L. Miller, W. E. Grantman, Sherin Taylor, Bert Baugh, C. E. Peverson, Mabel German, John Abercrombie, T. S. Egerton, Connie McMullan, S. T. Egan, R. C. Grantham and J. W. Roberts. Other guests were Mrs. Billy Frank of Madill, Oklahoma, Mrs. Dora Harlie of Wauka, Oklahoma, Mrs. Sally Johnson of Alvarado, Misses James R. Hicks, H. G. Tuel, J. P. Nelson and Wynona Brown, guests; and to Mrs. H. J. Brice, W. M. Scott, Sidney Johnson, Joe Strayhorn, E. M. Deakins, T. L. Lollar, R. L. Miller and W. J. Ely.

Refreshments, passed by the leader, were enjoyed by the following members: Audrey Bills, Alma Faye Henry, Carolyn Dunn, Florence Leath, Marva Nell Curtis, Acie Watkins, Forest Crowder was a new member, and Ola Margaret Leath was a guest.

Side Quit Hurting, Got Stronger, Well; CARDUI Helped Her

Mrs. R. L. West, of Huntville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I grew nervous over my condition—this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui. I bought it and I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well."

Cardui is sold at drug stores here.

Palace Theatre

Program for Week:

Thursday-Friday, July 13-14—"The Story of Temple Drake"

with Miriam Hopkins, Jack LaRue and William Collier. Children under 16 and Moll-Victorians are not expected to see, under 14 or enjoy this realistic epic of 1933 morals. Made for adults—modern, frank, realistic.

Latest News, Sport Thrills and Novelty, "Sea Devils."

Saturday, July 15—"Son of the Border"

starring Tom Keene, with Edgar Kennedy. A roaring drama of the Rockies, where Cupid's darts come packed in smokeless powder.

Chapter III of "Phantom of the Air," and Bosko Comedy, "The Sheep Herder."

Sunday-Monday, July 16-17—"International House"

with these stars of Radio-Fun-Son: Peggy Hopkins Joyce, W. C. Fields, Rudy Vallee, George Burns and Gracie Allen, Col. Stoopnagle and Budd, Cap Calloway and his orchestra and many others. The world's biggest entertainment joy-ride.

Music Shorts and Novelty. Preview of this show starting at 11:30 Saturday night.

Tuesday-Wednesday, July 18-19—"The Girl in 419"

with James Dunn, Gloria Stuart, David Manners and Jack LaRue. More thrilling than an ambulance ride. More romantic than a song by Chevalier. More action than a cyclone!

Added: Cartoon and Comedy. Bargain Nights: Adults 15 cents, Children 5 cents.

Georgia Forkner Has Birthday Party.

Georgia Forkner celebrated her thirteenth birthday Tuesday afternoon when her mother, Mrs. Arthur Forkner, entertained with a party at their home, 1055 Twenty-sixth Street.

After the playing of various games a pretty birthday cake was cut and served with ice cream, a pink and white color scheme being carried out.

Guests were LaVerne and Doris Moffett, Lorne Autry, Jack Terry, Marvett Watkins, Juanita Beauchamp, Louise and Nell Verma LeMond, Cera Frances Armist, Elmergo Spears, G. L. and Leon Autry, Gladys Crowder, Mary Davis, Wilma Terry, W. H. Forkner and the honoree, Georgia Forkner.

STINSON MADE VET CHIEF AT MONDAY FEED

Big Crowd of Legionnaires and Visitors At City Tabernacle For Quarterly Affair.

Lee T. Stinson was made commander of the Will Layne American Legion Post at the annual election that followed an excellent "feed" at the city tabernacle Tuesday evening.

The drugged steps from the first vice command into commandship after a peace-time record as an outstanding legionnaire. He succeeds A. C. Pruitt who was made adjutant to succeed Walter Fish.

Fish, in turn, was elevated to the first vice command, and J. E. Leonard was made second vice commander. W. W. Hill was re-elected as finance officer. Warren Dossion was named as secretary of post, and Porter King was re-named as historian. Rev. D. R. Todd was made chaplain.

The feed that preceded the business session is described by many of the boys as the best ever put on by the local post. With members of the City Council as guests, and more than 100 ex-service men as hosts, 52 chickens and proportionate amounts of cream, gravy, watermelon and cake were served away.

Installation services for the new officers will be held Monday evening July 24, it was decided. It is possible that a representative of the state department will be present. The Lubbock post has been invited to send a delegation to help officiate during the ceremony.

Tributes were paid to the departing officials, and a ringing welcome and pledge of cooperation greeted the newcomers.

Jimson—"I don't believe in long engagements, do you?" Simpson—"Yes, I do; why should not a young couple be happy as long as possible?"

Greta—"Since I last saw you I have divorced my husband." Marlene—"I know; we were married almost immediately."

"Hello, Brown! Wasn't yesterday a fine day for an auto trip?" "Yes, I got one fine for speeding and another because my lights were out."

"So Clara concluded to accept that rich young scapgrace in spite of his bad record?" "Yes, she forgave his past because of his presents."

"But how did you get her to believe such an outrageous lie?" "I told it to her in strict confidence."

"So Jack is engaged? Is Maybelle the bride-to-be?" "No, Maybelle was the tried-to-be."

"This is only the third, my dear," said the husband, "and you have dated the letter the tenth." "Yes, darling," explained his wife, "I meant to ask you to post it."

"Dad, I've decided to settle down and go into the chicken business." "Better try owls. You're more familiar with their hours."

He (cautiously)—"If I should propose, would you say yes?" She (still more cautiously)—"If you knew I would say 'yes' would you propose?"

Falls 17,500 Feet

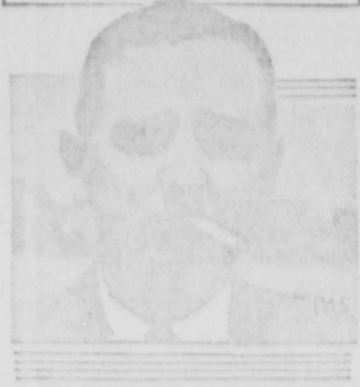

John Tranum, of the British Royal Air Force, leaped 17,500 feet before pulling the cord to open his parachute, thereby establishing a new record over the American mark of 15,000 feet. He stated he neither lost consciousness nor became confused.

Dodge Weds Again

Divorced less than a week, after a settlement of \$5,000 on his wife and \$10,000 for their child, John H. Dodge, son of a well-known Dodge motor firm, started Detroit by flying to Elkhart, Ind., to marry Miss M. Olive of Detroit.

"Is your husband still worrying over that new auto he bought?" "Constantly," replied Mrs. Churgins. "I never knew such a severe case of flivver complaint."

Stranger—"Tell me, have any big men been born in this city?" Native—"None, only babies."

He—"I'm groping for words." She—"Well, you don't expect to find them around my neck, do you?"

Marriage Licenses In County Reveal 80 Per Cent Increase Over Divorces

The divorce mill slowed down 50 per cent in this county during 1932, while the marriage machine showed a 80 per cent increase, despite slow money and unromantic times.

This 80 per cent gain from 1931 to 1932 is revealed in the table just released by the Bureau of Census, Department of Commerce.

Marriage licenses, which of course exclude a considerable number obtained in other states because of the strict Texas marriage laws, climbed from 63 in 1931 to 69 in 1932. Divorces, during the same period, declined from 29 to 10.

Texas as a whole showed a slight decrease in marriages for the two-year period, and a slight increase in divorces. There were 49,192 marriages performed in Texas during the year 1932, as compared with 40,512 in 1931, representing a decrease of 20 or eight-tenths of one per cent. In 1932, there were 61,730 divorces granted. There were 137 marriages annulled in 1932, as compared with 121 in 1931.

The estimated population of the state of Texas on July 1, 1932, was 5,904,000, and on July 1, 1931, was 5,913,000. On the basis of these estimates, the number of marriages per 1,000 of the population was 6.7 in 1932, as against 6.9 in 1931; and the number of divorces per 1,000 of the population was 2.38 in 1932, as against 2.67 in 1931.

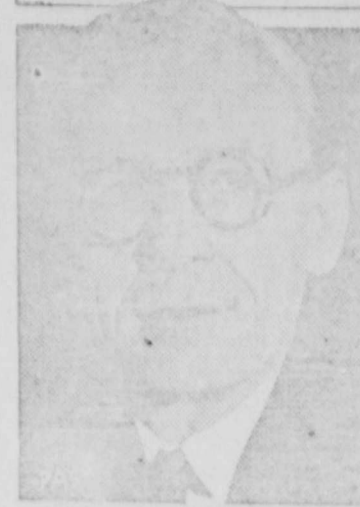

The number of marriages was furnished by the county clerk and the number of divorces by the clerk of the district court of each county. The figures for 1932 are preliminary and subject to correction.

Man—"Got any mail for me?" Post Office Clerk—"What's your name?" Man—"You'll find it on the envelope."

"Nature is wonderful." "How do you know?" "A million years ago she did not know we were going to wear spectacles, yet look at the way she placed our ears."

Professor—"I would like a preparation of 'phenylsulfocyanate.'" Dr. Clerk—"Do you mean mustard oil?" Professor—"Yes, I can never think of that name."

Sherwood Today

Russel T. Sherwood, friend and alleged financial confidant of former Mayor Jimmy Walker of New York is back after 21 months absence to face court charges involving a tax lien and a \$50,000 contempt fine. Sherwood disappeared preceding the Walker investigation.

Father—"How do I know you are not marrying my daughter for my money?" Suitor—"Well, we're both taking a chance. How do I know you won't fall in a year or so?"

Quartet of Scurry And Borden Studies On Tech Honor Roll

Four Scurry and Borden County students won places on the Texas Tech honor roll for the spring term, according to a delayed report from the Lubbock school.

Ben Hill Jenkins of Gail, who topped the senior class averages, made an average grade of A on 18 term hours of work.

Miss Weta Snykes of Hermleigh won her A rating on 15-17 term hours of work. Lee Francis York of Snyder, with an average grade of B-plus, had 15-17 term hours of work.

Lawrence Shipman of Fluvanna averaged B on 18 term hours of work. The second term of the summer session of Texas Tech will begin with registration Saturday of this week. Classes will begin Monday. The summer term closes August 23 and commencement exercises will be held on that day. The ninth annual fall session opens September 18.

Navasota Graves Cheese.

Navasota and Grimes County have begun stock subscription solicitation to raise \$6,000 for establishment of a cheese factory at Navasota. Snyder and Scurry County could catch a lesson.

A Movement Upward.

The sooner American tradesmen get together on prices, wages and other most points, in the manner of Roosevelt's proposal, the sooner the cut-throat artists will have a dose of their well-earned medicine.

Either Way You Take It.

From the trend of street corner conversation, one would be led to believe that wetness of things determines the prosperity of things. We refer particularly to prohibition and weather. Give us wet weather every time, but may the Lord deliver us from a wet Texas.

Some People Laugh.

Some people laugh when you mention a fall fair or any other special get-together day for Snyder. Snyder business men will live (indeed they are living) to rue the day they said thumbs down to opportunities to come in closer contact with their farmer friends.

Fishing Away From Home.

The man who travels several hundred miles away from home to do his fishing, and then returns to Bull Creek or Deep Creek for his fish, is akin to the woman who went to Abilene or Fort Worth to do her shopping, and returned to find a woman here wearing a dress exactly like her own.

Free Vaccination.

Vaccination is one of the safeguards against disease that science has provided. Now that you can be vaccinated without cost, provided you don't have the cash with which to buy vaccine, you have a golden opportunity to help save this county from the senseless epidemics that have shifted from year to year.

Gas Ad Wins Prize.

A gas ad run in The Times—and in a number of other Texas papers—won first place in a national contest. Fittingly enough, the ad related how much work a penny's worth of gas will do. Fittingly, because folks have been thinking in terms of pennies, not dollars, for several years. Lone Star Gas System is to be congratulated.

More Encouragement.

It is fine to know that Scurry County is preparing the average reduction papers in such excellent shape. Because the central committee was determined that none of the contracts should be far-fetched, the county is later than some of its neighbors in getting its applications okayed. But it's better to be a few days late than to have the contracts thrown back in our faces.

Another Snyder Man Honored.

Maybe Snyder citizens have no more brains than their fellows, but certainly they have infinite capacity for getting elected and appointed to places of prominence. Take Noah B. Sisk of the local post office, for instance. He was made vice president of the Texas State Federation of Post Office Clerks. Congratulations to one of the most accommodating post office clerks Snyder has ever had.

A Preacher's Philosophy.

A youthful preacher said the other day that the more he travels from backwoods to towns to cities to universities, the more thoroughly he becomes grounded in the belief that folks from one end of the world to the other differ in quantity, not in quality. In other words, the big business man laughs at the same thing, cries at the same thing, worries over the same thing as his country cousin.

It's Wets Against Dries.

A number of misguided citizens will tell you that it's not a question of the wets against the dries in the August election, but a case of dries against those who don't want their liberties disturbed. Pray tell us, then, why every straw vote, every vote in another state, every article or conversation concerning the coming election, refers to opponents of prohibition as the "wets." The wets, and don't you forget it. You can't cover up human desires with fine words from the dictionary.

Family Ties More Binding.

Family ties are becoming more binding in Scurry County. Federal figures for 1932, released this week, reveal that divorces showed a marked decrease, while marriages showed a decided rise. What means this new trend in family affairs? It is extremely doubtful that husbands and wives are more congenial than they were two or three years ago, when divorces were at a shamefully high peak. It is probable that the depression may be blamed for the change in divorce records. It takes money, or credit, to get a divorce. If the depression can make family ties more binding, and if it can convince men and women that the greatest God-given privilege on earth is marriage, then its financial aspects will have been considerably minimized. The home is yet the foundation of the nation. If divorces do not continue to decrease, we will continue to have a depression on morals and the high ideals of youth.

The Other Half Rome.

In Browning's lengthy poem, "The Ring and the Book," one section is called "The Other Half Rome." In the same vein, we would entitle a section of this editorial page "The Other Half Scurry County." Most of us are bounded in 90 per cent of our thinking by an area only a few miles square. Radio, newspapers and magazines, plus swift transportation, have failed to give us the world outlook that is so often misinterpreted by writers of the day. Take the question of prosperity, for example. Is it not true that most of us judge our own prosperity according to the prosperity of our neighbors? We are inclined to use local measuring rods rather than broad measuring rods. If we could expand our views to include West Texas, the entire state, Uncle Sam, yea, and the world, we would become better citizens, and prosperity would soon be fact rather than an experimental hope of the New Deal. The other half Scurry County, to enlarge on Browning's figure, should learn to know what its neighbors across the county line are thinking and doing and planning. Sympathy grows out of understanding; and brotherly love out of sympathy.

Women, Beware!

Current newspaper items include an account of a fire, caused by a lighted cigarette, which consumed property in a Massachusetts residential district to the value of \$7,000. An adjacent column in the same issue of the paper contains a report of the awarding of a prize, in the form of a cigarette case, to a beautiful young woman, by prominent woman leaders of a relief organization, in recognition of her work in collecting the largest sum for emergency funds. Every citizen finds it fitting that the humanitarian service of individuals who have generously contributed time, energy and financial assistance to such a deserving cause should be rewarded. And though he may reasonably feel that a more suitable gift might have been chosen, he will not attempt to say that the choice was influenced by any but the most disinterested of motives. It is not amiss, however, to remind the modern woman that the tobacco interests continue to pursue their unscrupulous methods of capitalizing every instance of feminine patronage. Recently, in a newspaper interview, Miss Emily R. Kneubuhl, executive secretary of the National Federation of Business and Professional Women's Clubs, Inc., issued a warning. She stated that when women first got the vote in the United States, they were ruthlessly exploited by politicians; that they subsequently awoke and extricated themselves, but that now they are facing the very grave danger of commercial exploitation. There are cases to support her assertion, and women who are taking part in the many projects afoot in behalf of public welfare may well heed the counsel to remain on the alert.—Christian Science Monitor.

CURRENT COMMENT BY LEON GUINN

Until now federal employees have been watching activities of Roosevelt relative to the economy ax, for it has been known for some time cold facts must be faced if our cock-eyed budget ever was to be balanced. . . . About 20,000 employees are slated to be discharged along. . . . the deficit for 1933 was \$1,786,000,000, whereas Mr. F. D. R. plans to reduce 1934 fiscal expenses to \$2,600,000,000, which is the low point to shoot at for United States expenses in running its gigantic corporation affairs. . . . The president's promise to slice 25 per cent from expenses was at first laughed at, but recent developments convince everyone he is earnestly doing his very best, the gold bloc nations of Europe be jumped up and down.

You have heard much about the London Economic Conference—some criticism, some praise. . . . Just why delegates should represent the world's nations to decide what fraction of a cent each country should value its currency at has never been definitely ascertained. . . . The "gold powers"—meaning Switzerland, Holland, France, Italy, Belgium and Poland—want desperately to remain on a gold basis, and held out hope Roosevelt would sanction the idea to stabilize our rambling dollar at this time. . . . Imagine their surprise when he cabled them to go comb their hair so far as America was concerned, for it was useless to parade stabilization when unbalanced budgets meant Europe was living on credit. . . . "Lack of politeness," growled irate Frenchmen. . . . "A second declaration of independence," sensibly asserted Englishmen of the citizenship variety. . . . Now conference attendees vision small hope of pegging our dollar on a gold content basis anyway soon, no chance of wedding francs and pounds, but just watch the boys, for anything can happen.

The RFC will loan \$3,000,000 to Russia to purchase some 70,000 bales of Southern-grown cotton, a preliminary step to advancing more loans to the U. S. S. R., Wall Streeters whisper. . . . Since radical thinkers are in the "brain trust," conservative citizens may occasionally be shocked, yet Roosevelt should steer cautiously in the rough waters of Soviet recognition. . . . Privately speaking, recognition at this time would be a calamity. . . . After all, recognizing the Russian hordes wouldn't help American trade much. . . . Shall we exchange moral demarcation for a mess of Russia's meager trade postage—for the good of U. S. exports? And since when are foreign loans so popular to finance exporting a mere trickle of any commodity? . . . July 18 the Texas exhibit at the World's Fair, Century of Progress, or what you care to term it, will be on display. . . . As usual, Texans were slow in finances to set up the decorated posters, etc. at Chicago. . . . Which is similar to the antics of merchants careless about advertising

THIS WEEK IN WASHINGTON

Washington—The man of the hour in Washington is Bernard M. Baruch. Sitting at a desk in the state department without any title or official position, while President Roosevelt was away on his vacation, Secretary of State Hulin at London and Assistant Secretary Moley on his way to join Mr. Hull, Mr. Baruch has been receiving mail addressed to "The Acting President," the "Next Secretary of State" and even "The Big Boss."

The explanation is that Mr. Baruch has greater influence with this administration than any other man who appears in public. That statement does not detract from the influence of Col. Edward M. House, who never appears in public, and whose influence with the present president is probably as great as it was with the last Democratic chief executive, Woodrow Wilson. But Col. House and Mr. Baruch understand each other, and nobody detracts for a minute from Mr. Baruch's ability or his sincere devotion to the public interest.

Baruch Unusual Type. Mr. Baruch was chairman of President Wilson's war industries board. After the war he helped finance and work out the first of the programs for farm relief which laid the foundation for the present agriculture administration act. He is that unusual type, a man of large affairs who has made millions by his own unaided ability as a trader, who prefers public service to anything else but does not want public office. His advice is valued because he knows business and finance down to the ground and because he has the confidence of leaders in almost every walk of life.

Personally, Mr. Baruch is tall, handsome, white-haired and urbane. He is forceful but always tactful, a man of genuine culture and high integrity, and the president relies on him for advice to an extent which has hardly been realized so far.

For example, George N. Peek, who is the supreme administrator of the agricultural adjustment act, is recognized as Mr. Baruch's man. Mr. Peek was a plow manufacturer in Illinois, and Mr. Baruch got to know him and to admire his administrative qualities when he was actively studying the farm situation. General Hugh Johnson, administrator of the industrial recovery act, is also Mr. Baruch's personal nominee. He was associated with Mr. Peek in the agricultural implement business. Thus, indirectly, Mr. Baruch is sponsor for the two men who will have to operate the two most far-reaching projects of the New Deal, and it is to be expected that his advice will dominate.

Some New Deal Surprises.

Washington is only just beginning to get acquainted with the men who have come in to operate the New Deal. Some have proved surprises.

Daniel C. Roper, secretary of commerce, is one of those. Mr. Roper has been so active in politics and the practice of law that nobody had any idea of his administrative capacity. As the head of the largest of all the government departments, however, he is showing so much "horse sense" that he is being spoken of as the balance-wheel of the administration. He is one of the most influential men in the cabinet, and more and more work is being dumped on his shoulders.

Mr. Woodin, secretary of the treasury, is personally beloved by everyone who comes in contact with him, from the president down. It is an open secret, however, that he will not remain long in his position. The strain is beginning to tell on him—he is 67 years old. His successor may or may not be Lewis Douglas, director of the budget. Mr. Douglas is amply qualified, but there is strong opposition to him developing among the more radical elements of the party.

Time To Cut Behind

By Albert T. Reid

Mrs. Wilson, who uses her maiden name of Frances Perkins as secretary of labor, is coming to be regarded as perhaps the best judge of men and motives in the whole cabinet. Unlike Mr. Roper, who is able to delegate details, she wants to do everything herself, which may prove too much of a job.

Eastman and Railroads.

Mr. Eastman, the federal coordinator of railroads, former head of the Interstate Commerce Commission, is no longer regarded as a "dangerous radical," but he has the confidence of the railroad people. He believes although he does not personally desire it, that government ownership of railroads is inevitable at some future time, and

he is skilfully preparing the minds of railroad people to the acceptance of that idea.

The one man in high place who thinks solely in terms of party politics is Postmaster General Farley. His fellow cabinet members try to resist his efforts to displace competent people merely because they are Republicans—to replace them with persons whose chief known qualification is that they are Democrats. They do not always succeed.

The distribution of government jobs is just beginning. As long as the president wanted things from Congress quickly he withheld patronage. Now those members who "played ball" with him will be able to nominate their constituents for public office, and there will be

plenty of them. The new deal calls for a larger army of federal employees in the field than has ever been seen; more than enough, probably, to make up for all the dismissals in Washington.

He—"Who spilled mustard on this waffle, dear?"
 She—"Oh, John, how could you? This is lemon pie."

Sen—"Look, Pop, I won the loving cup."
 Dad—"So that's what you think I sent you to college for?"

"No beautiful girl ever made a fool out of me."
 "Oh, I don't know. I think she is rather good looking."

FUNSTERS

"I hear Elsie had to take ether twice to get through her operation."
 "Yes, one to operate and the other to keep her from talking about it."

Customer (at Mexican restaurant)—"Two orders of Carnicero Lleno, please."
 Waiter—"Sorry, sir, that's the proprietor."

Grandma—"Oh, Jimmy, darling, I am surprised. Aren't you going to give brother part of your apple?"
 Jimmy—"No, Granny, Eve did that and she's been criticized ever since."

They had just eloped. Alighting from the taxi in front of the minister's home, the boy generously asked the taxi-man how much—and remember the depression.
 "Oh, that's all right; her dad paid the fare before you left," the driver replied.

Four toll canning plants will be started in Fannin County as the result of efforts of the Bonham Chamber of Commerce. One will be at Bonham, another at Honey Grove and the other two at other places in the county where production of cannable fruits and truck is largest.

One of the psychology students visiting at Howard Asylum noticed one of the inmates wheeling a wheelbarrow upside down.

"That's not the way to push that thing," the visitor said. "You've got it upside down."
 "Oh, have I?" answered the inmate. "Well, I used to push it the other way and they put bricks in it."

A man whose son was an applicant for a position in the civil service, but who had been repeatedly turned down, said: "It's hard luck, but Bill has missed that civil service again. It looks like they just won't have him, that's all."

Friend—"What was the trouble?"
 Man—"Well, he was kinder poor at spellin' and geography, an' he didn't do too well in arithmetic."

Friend—"What's he going to do about it?"
 Man—"I don't know. Times are not so good for us, an' I reckon he'll have to go back to school teachin'."

We Present... A PRIZE-WINNING AD

The advertisement of your Gas Company reproduced below, which ran several months ago in this paper, was awarded first prize for gas companies in the Better Copy Contest of the Public Utilities Advertising Association at the recent national convention in Grand Rapids. This is the third consecutive year that first award has been given this company. We again present this ad for your attention in the light of the judges' decision that it tells the plain truth about natural gas service in a simple, straightforward manner.

TODAY and TOMORROW

FRANK PARKER STOCKBRIDGE

AGE.—One of my rural neighbors is a lady of 83. Last year she lost one eye and was otherwise banged up in an automobile accident. She's getting around again, but not quite as spry as she was. Her doctor thought that she had some teeth in her teeth out. She's still got all the teeth she ever had, and an X-ray examination showed there was nothing wrong with them.

I've discovered what the matter with me, she told her doctor the other day. "I laid awake last night thinking about it, and I've come to the conclusion that I'm beginning to grow old."

Refusal to recognize the passing years is what keeps some folks young at 80 past; turning one's thought on the past instead of the future make some old at 40.

CROPS.—I saw in a Paris dispatch the other day that the French government has fixed 115 francs per quintal, or about \$2 a bushel as the minimum price for this year's wheat crop. France has long been far ahead of the rest of the world in wheat production, to insure agricultural prosperity.

There are a lot of things about the French people, especially the French politicians, that I don't like. But I have to admire their unchanging devotion to the economic interests of their own people, regardless of what the rest of the world may try to get them to do.

BRAIN.—If you set down the figure 1 and then spend a few weeks putting down fifteen million ciphers after it you will have a number that would fill about 30 books of ordinary novel size. There is no name for a number of that magnitude. It goes beyond all human imagination. Yet that is, approximately, the number of "telephone lines" which connect the individual brain cells with each other.

Science now regards each cell as an electric battery, connected with all the others and the rest of the body by nerve filaments which transmit impressions and sensations much like a telephone system. There are perhaps fifteen billion cells in the average brain, arranged in orderly patterns. The power of the mind depends upon the number of these cells that are utilized.

Most of us use only a tiny fraction of our brains. Probably the ablest minds that ever functioned did not realize a tenth of their possible capacities. Men's minds grow by use, by the effort to think more and more clearly about new and unfamiliar things. Most of us are just too lazy to do our own thinking.

DETERMINATION.—I wish the English language had a single short word to express the combination of qualities which enables some of us to fight our way to the top against heavy odds. I would apply that word to Frank Rents, who was born without any pupils in his eyes. When he was five a daring surgeon grafted the pupils from an animal's eyes into Frank's. He can see dimly, but only by a great effort can he focus his vision upon any object.

Yet Frank Rents, now 24, got his diploma as a Bachelor of Law at the University of Wisconsin law school the other day, and so little fuss had he ever made over his defective vision that hardly any of his classmates knew of his handicap. That young man will get along in the world.

CLOTHES.—A young lawyer of my acquaintance came back from a trip to California with 45 suits of new clothes and the same number of new shirts, neckties and other male adornments. He is a smart young lawyer but had always been careless about his clothes. His friends asked what had happened to him in California.

He had gone out there to try a lawsuit against a big oil company. It was a doubtful case that the head of his law firm had refused to touch. The young man took it on a contingent fee; one-quarter of what he recovered for his client. He was confident that he could make any jury of reasonable men see his side of it. But when he got to California he learned that women customarily sit on juries.

"I didn't know a thing about feminine psychology," he said, "so I asked an experienced trial lawyer out there what to do. He advised me to make myself the best dressed man in the court room. I didn't know anything about fashionable dress, so I put myself in the hands of the principal men's furnishings house. They fitted me out with a complete new outfit for every day of the trial."

"What else did you bring back besides the clothes?" he asked him. "Ninety thousand dollars," he replied. "I won the suit and got \$300,000 damages for my client."

Man (at church confessing his sins)—Father, forgive me, for I kissed a pretty girl.
Priest—"How many times did you commit this terrible sin?"
Man—"Father, I came here to confess and not to brag."
"Ladies and gentlemen," said the lecturer, "I understand the language of wild animals."
From the back of the hall piped a voice: "Well, the next time you see a skunk, ask him what's the big idea."
Sambo—"Look heeh, woman! Yo' know yo' all done marry me jes' for mah evment insurance."
Clementine—"Yes, Ah knows dat, honey, but ain't Ah been willing to let yo' die a natural death?"

Baptists Will Meet In Ira Next Month

Ira was chosen as the August meeting place of the Mitchell-Scurry Association during the Hill Tuesday. "These meetings are improving in spirit and fellowship, and Baptists who are missing them are missing real treats," Rev. Walter Deaver, who delivered the afternoon address, said yesterday.

Mrs. Jack Smith of Colorado and Mrs. C. B. Reeder of Lexaune presented the subject assigned to Mrs. Philip C. McCahey of Snyder. One of the day's treats was the special music arranged by Earl Shepherd, Rev. Dick O'Brien of Colorado preached the sermon of the day. Others on the program were Rev. T. A. Patterson of Roscoe and Rev. Marvin Leach of Wastella.

Cancer Ranks In Fourth Place As Cause of Deaths

Dr. John W. Brown, state health officer, in speaking of cancer, said that it ranked fourth as a cause of death in Texas, being exceeded only by heart disease, tuberculosis and pneumonia, in the order named. One of the reasons so many people die of cancer is because the disease usually exists some time before it is recognized and treated. It has then progressed from a local and small cancer to a large and dangerous one.

In the beginning cancer is not painful; if it were, many would go to their doctor immediately and receive treatment. Any lump, especially in the breast, which comes and remains without any satisfactory explanation, should be looked upon with suspicion. Other suspicious symptoms are any sore that does not heal about the tongue, mouth or lips; sores caused by broken teeth or ill fitting dental plates should receive attention; irregular bleeding or discharge from any of the orifices of the body is a danger signal; persistent indigestion with loss of weight is a symptom of cancer in the stomach, which is so frequent as to make its early detection possible. With any of these signs one should go immediately to a doctor. In many cases the suspicion of cancer will have been unfounded but it is better to be safe.

It is desirable to treat all diseases in their early stages, but in no affection is it more important than in cancer. The danger is like that of a fire—at first there is but a spark which can be easily extinguished, but if let go unchecked it soon becomes unmanageable. Many cases of cancer can be cured and many more prevented if the public will give their full cooperation to the medical profession. Periodic physical examinations made with cancer in mind affords the best protection against the disease.

Surgery, X-ray and radium are the main weapons which are used to combat cancer. They are employed as preventatives when they remove pre-cancerous conditions and as a cure when they remove the cancer itself.

Judge—"How many children do you have, Mirandy?"
Mirandy—"Well, judge, I has two by my first husband, one by my last husband and then I has two of my own."

The man who doubles up with mirth when a woman has difficulty in driving through a 10-foot garage door usually sobers up when he tries to thread a needle.

Gas Ad Appearing In Times Wins Top Competition Prize

For the third consecutive year, the Lone Star Gas System has won first prize in a national advertising copy contest among the major gas companies of the country. The winning ad, entitled "Natural Gas Is Your Lowest Priced Domestic Servant," was judged the best piece of copy among all advertising placed in newspapers by gas companies of the United States in the year 1932. Public Utilities Advertising Association, which conducts the contest, announced the award at its annual meeting held in Grand Rapids, Michigan.

The prize ad appeared in The Times and more than 200 other Texas and Oklahoma papers in February last year. Copy was prepared by Willard C. Wiegel, assistant advertising manager of the Lone Star Gas System. Will C. Grant is manager of the advertising department. Western Newspaper Union set the type and made the stereotype plates and mats for the ad.

Lone Star also won first prize last year in the same contest, with an ad written by Mr. Wiegel and received first honors again in 1931. The nation's best gas advertisement was a simple, direct statement of how much gas service a penny will buy. It stated that one cent's worth of natural gas service will cook a good dinner for three people, operate a bath room heater for two hours, heat enough water for two baths, operate a living room heater for 45 minutes, make 33 cups of coffee, heat enough water for 14 shaves or run a gas refrigerator for eight hours.

Continued Gain For Penney Chain Group

Sales of the J. C. Penney Company for the month of June, 1933, were \$14,617,388.95 as compared with \$12,024,970.91 for June, 1932, according to H. L. Vann, local manager. This is a gain of \$2,592,418.04, or 21.56 per cent. This is the third consecutive month to show a sales increase over last year. In April the percentage of gain over 1932 was 1.87 per cent; in May the gain over a year ago was 14.13 per cent. Total sales for the first six months of 1933 were \$71,018,688.40. This compares with \$69,230,242.21 for the first six months of 1932, or an increase of \$1,788,446.19. The percentage of gain for the first six months is 2.51 per cent. In view of the fact that losses were shown for the first three months of the year, the total gain for the first half year reflects strongly the improved buying by the consuming public.

Black-Draught Clears Up Sluggish Feeling

"I have used Theford's Black-Draught for constipation for a long time," writes Mrs. Frank Champion, of Wynne, Ark.

"If I get up in the morning feeling dull and sluggish, a dose of Black-Draught taken three times a day will cause the feeling to pass away in a day or two. I feel like a new person. After my use of this I would not exchange Black-Draught for any medicine."

P. S.—If you have children, give them the new, pleasant-tasting DRUG of Theford's Black-Draught.

Beginning promptly at 8:00 o'clock Friday evening of this week a concert produced by invited singers from Snyder, with pupils who have attended the music school of vocal music here also taking part on the program, will take place at the Baptist Church. Immediately following this an addressing of Miss Will begin, the prizes awarded all the boys from 10 cents to \$100. Come on, girls, with a sample of your culinary art. Come on, boys, this may be your only chance of finding out whether the lady friend can prepare a party as good as your shoe sole or one that will cause you to want to eat pie the rest of your days. Come on, mothers and fathers, and enjoy watching your children perform and hear the worthwhile special on the program. Big, little, old and young are invited to take part.

An attempt to revive the weekly prayer services was started this week last week. All are invited to come. Doyle Mahen was last week's leader. "Distant hills are greener." So all of the Epworth Leaguers who did not attend the Fourth of July week-end services at Stamford, Colorado or Sweetwater, donned picnic costumes, put on their broad-brimmed hats, packed a delicious lunch in the tonneau, tucked a bathing suit under an arm and Lamesa is a pleasant nook on Bull Creek, where they spent the day, parents acting as chaperones.

Mr. and Mrs. Joe R. Wilson spent an enjoyable Fourth at Gravel's ranch.

Tuesday morning's sprinkle was cute. Wednesday's rain was still cuter. But the earth's mouth is just too big in this section, for it seemingly swallowed that morsel of moisture at one gulp, and at this writing it seems as dry as ever.

Miss Clarice Blakely enjoyed last week-end at the home of Miss Desha Parsons at Snyder.

L. B. Miller of Ira visited in the home of his uncle, E. E. Woolver, Sunday.

Miss Ardelle Woolver entertained at her home last Friday evening. Plainview News

Lorena Smith, Correspondent

Our community had a light shower of rain Wednesday of last week, with a heavy downpour the following day, making a total of an inch or more.

The farmers are unusually busy with their plowing and chopping of cotton. Several are also planting feed.

During the Baptist revival meeting held by Rev. Walter Deaver of Snyder, several were added to the church—Mrs. John Woodard, Betty Gibson and Ocky Smith by baptism and Mrs. Lee Nichols by letter. There is no organized church here hence these members will work with the Streyhorn congregation.

Mr. and Mrs. Dennis Tate of Goldthwaite were guests first of the week of their parents, Mr. and Mrs. B. S. Tate.

Vernon Carnes and Miss Louise Brooks were married in Snyder Monday, July 10. Rev. Walter Deaver performed the ceremony. The bride, who is a resident of this community, is the daughter of Mr. and Mrs. Ben Brooks, one of the most prominent families of this section. She had her early schooling here, and for the last two years has attended Snyder High School. Of the bridegroom we know little except that he is an industrious young farmer of the Ira community, son of Mr. and Mrs. Jack Carnes, and brother of the correspondent from this community. They will make their home at Ira. A host of friends from this and adjoining communities join in wishing for them much happiness.

Last Friday evening in the home of Mr. and Mrs. B. S. Tate, Sanders Tate of Post and Miss Louise Ballow of Stephenville were united by the holy bonds of matrimony. The bride is the daughter of Mr. and Mrs. B. L. Ballow of Stephenville and an ex-student of John Tarleton College. The bridegroom is the son of Mr. and Mrs. J. W. Tate of Post and grandson of Mr. and Mrs. B. S. Tate of this community. He is connected with the cotton mills of Post and is also a recently ordained young minister of the Nazarene Church. He has many friends in this community, made during his visits with relatives here, who are wishing for the young couple much happiness. Sanders was determined that his old granddaddy should perform his marriage ceremony, and since he was not able to make a trip to Stephenville, he just proceeded to bring his bride to Snyder.

Miss Ruth May and mother and Miss Pauline Jenkins of Snyder were week-end guests of Mr. and Mrs. John Woodard.

Doyle Mallett of Hermleigh died last Monday at the home of his grandparents, Mr. and Mrs. Clay Doyle. He was the 13-year-old son of Mrs. Frank Mallett. He is survived by his mother, two sisters and three brothers. Interment was in the Dunn cemetery. Death came after a short illness of meningitis.

Miss Ruby Durham of Lubbock spent the latter part of last week with Connie Shepherd.

Miss Mittie Davis of Oklahoma spent the week-end with Mr. and Mrs. A. J. Jones.

Mrs. Bill Deal and son of Big Spring spent last week with her father, Joe A. Merritt.

Ed Merritt of El Paso spent last week with her father, Joe A. Merritt.

Mr. and Mrs. A. J. Jones spent Sunday with his parents at Dunn.

Mr. and Mrs. Tackett of California are visiting the latter's parents, Mr. and Mrs. Cummings.

People of this community enjoyed a picnic on the Fourth of July in Mr. Bill's pasture. Lots of cake and drinks were enjoyed by a large crowd. In the afternoon a baseball game was played between Pleasant Hill and Bethel, Bethel winning by a score of 1 to 3.

STEEL ALONE IS NOT ENOUGH!

—neither strong enough, nor safe enough, nor quiet enough for the body of a quality car like

CHEVROLET

Why is it that every 12-cylinder and 16-cylinder car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment have definitely proved: **STEEL ALONE IS NOT ENOUGH!**

The trouble with steel alone is that it stands just so much shock and punishment. Steel alone is also inclined to rumble and rattle. BUT—when you put the two together—a heavy, staunch steel body over tough, solid hardwood—then the hardwood reinforces the steel—and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet. CHEVROLET MOTOR CO., DETROIT, MICH.

"It saved his life,"
the doctor said

A Texas farmer was chopping wood one morning. The ax glanced off a hickory log and deeply gashed his foot.

His wife telephoned the doctor—"Come as fast as you can!"

"Tie a cord tightly around his leg below the knee. I'll be there at once," a voice flashed back along the wires.

Later, the doctor said: "Those brief directions by telephone saved that man's life. Even then, he was very weak when I arrived."

Your telephone is ready day or night for emergencies, just as it is for business, or for friendly visits in the afternoon. It may be worth a nickel today, a quarter tomorrow, a thousand dollars next week.

China Grove News

Dorothy A. Swan, Correspondent

China Grove was visited by the worst rain and wind storm of many years last Thursday. In the eastern part of the community the precipitation was from about one-half to one inch, while around the store and north a mile or two was from four to eight inches. Land and the roads were badly washed, and numbers of chickens drowned. This much needed moisture is highly appreciated by our farmers, as they had some hope that their crops will not be in vain. However, crops that were up were holding up wonderfully and really growing in most places.
