L. A. WOODS TO HEAD OIL BELT PROGRAM SOON

L Wedgeworth, Chairman of Area Leducational Committee, Helps Outline Plans At Abilene.

L. A. Woods, state superintendent of public instruction, will be the principal speaker when the Oil Belt fall session at Abilene October 30 Dr. D. W. Wiggins of Simmons University, Abilene, will also be a featured speaker on the program.

Complete plans for the area edueational meeting were made in Abi-lene Saturday by the executive committee. C. Wedgeworth of Snyder, chairman of the program com mittee, was the guiding spirit of the session, and will have an active part in the association meeting.

Two afternoon sessions and a final night session culminating in a banquet will be the order of the program. The general theme will be "Unifying the Curriculum."

Mr. Wedgeworth and Fran Farmer, county superintendent, urge ly principals and board members make plans to attend the meeting expecially to benefit from Mr. Woods' discussion of the state "New Deal" in its educational set-

It was decided at Abilene Saturday that the spring session of the association will be held in Big Spring March 16 and 17. The state association of teachers will meet in Austin November 30 and December

R. S. Norman Is Leader of Farm Code Acitivities

NO REAL FIRES IN SNYDER FOR FIVE MONTHS

Outstanding Record Set by Citizens And Fire Department Since January 1, 1933.

A new record has probably been fire department during the first nine months of 1933.

Records presented to the City Council Monday evening revealed that the insured fire loss here durng the period from January 1 to October 1 was less than \$500, and that the loss sustained from all fires, insured and uninsured, inside and outside the city limits, was only about \$1.750.

Except for practice runs and similar calls, not a foot of the large hose has been laid since May 8— the last date on which the firemen were paid for a call. During this five-month period ending next Sunday, six calls have been received and answered by firemen, in addition to practices, wetting down the rodeo grounds and other similar

The five calls during the year at which the big hose was used netted firemen \$162.50. They were not paid for the 10 "dry" fires or for any of the other calls. At five of the fires only the booster water tank was used, while at one both the booster and the chemical were employed. It is estimated that 3.300 feet of big hose was strung at the five "wet" fires.

The report, presented by Fire Chief N. W. Autry, was highly com-

Record Breaking State Fair Will Open This Week

With the greatest agriculture, livestock and poultry shows on record entered and being arranged, with more than 250 major manufacturing plants of the state with their exhibits in place, and with one of the best amusement programs in history of the organiza-tion all set, the forty-seventh anits gates next Saturday, October 7, at Dallas.

Officers, directors, superintendents and others connected with the state exposition have gone many steps forward this year to give to Texas and the Southwest its greatest fair, Otto Herold, who is serving his second year as president, said Monday.

The theme of the agriculture, livestock and poultry shows will be "Replacement Programs," and will acres for the 1934 farmer. The agprogress of diversification during army. the past 14 years with comparative exhibits; the livestock department will emphasize "utility livestock, and the poultry department will paint a picture of more food for the home by raising chickens.

The Texas manufacturers' show is expected to be a revelation to the world, as it will show Texas factories manufacturing practically every kind of product necessary to the comfort and advancement of mankind in this state. This is ex-Texas" show ever held in this state.

The amusement program will be headed by the three elaborate musi cal productions in the auditorium-"Bitter Sweet," "Nina Rosa," October 13 to 17; and "Florodora," October 18 to 22.

Two Southwestern championship sport contests will be held at the State Fair of Texas—the cowboy championship to be held in the livestock arena, October 7 to 18. and the motorcycle races which will be held under the sanction of the American Motorcycle Association, for the official championship of the Southwest. These races will be held in the stadium each Sunday afternoon and night during the 1933 exposition.

Collect Taxes As They Mature.

Within the past several years all units of our government have suffered greatly because of reduced revenues coming into operating expense tills. These tills must look to one general source of income—that of taxation-in order to keep their heads above the

Taxation is the support of federal government, of state government, of county government, of city govrnment and of the public school system.

The delinquent tax evil is becoming more and more pronounced during recent years. So dire a sitnation is resulting because of unpaid taxes that those firms and individuals who have striven to pay their taxes-many of them at sacrifice-are beginning to wonder if they, too, might not allow their taxes to go inquent.

The payers conclude that it is an unfair practice or them to be required to bear the operating burden of governments and school and the non-payers reap an equal amount of benefit of these agencies.

C. A. Jay, vice president of the Industrial, Commercial and Agricultural Conference, speaking before gathering of conference members in Dallas a few days ago, outlined plans for collection of taxes as they become due by mandatory measures of some sort, except in extreme cases of inability. He urged that tax collectors become tax collectors rather than tax receivers, and urged that a concerted, organized effort e made by taxpaying citizens to bring some semclass mail matter, according to the Act of Congress, blance of justice into tax collections.

During his address he pointed out that state and scal units of government in Texas now have due and collected over \$120,000,000 in delinquent taxes.

Can this tax be collected? Shall it be collected, or shall we simply levy additional taxes on those of our citizens who have already paid? Mr. Jay's organization has made a study of the situation, and results of this study indicate that a large portion of those owing delinquent taxes are able to pay but refuse to pay until force requires them to do so. Investigation in 14 scattered counties, taken to average the state by, reveals that about five per cent of the people of the state owe about 40 per cent of the delinquent taxes of the state. Mr. Jay concludes that a great portion of these are able and should be required to pay their delinquent taxes. He states that a majority of the delinquents have used the small taxpayer who has not paid as a smoke screen to avoid paying.

Take the case of the school districts in Texas: There are \$24,000,000 in delinquent taxes due the various school districts of this state. If these school districts could get the five per cent of the delinquents who owe abou 40 per cent of the tax to pay off, they would have additional revenue of \$8,000,000.

The Times believes it is only justice to require all who owe about 40 per cent of the tax to pay off, they paid in Scurry County, a saving of some 15 per cent could be made by the county in purchasing supplies and equipment. The average seller usually takes into onsideration the fact that when he is paid with a ounty voucher he must hold it for several months before getting his money, and adds a little to the selling price asked of the county. Six per cent interest is paid on the vouchers by the county until they are cashed, which adds more unnecessary expense to the county's burden.

Several states are using a delinquent tax certificate plan that is said to be working out nicely. When taxes become delinquent the collecting agency issues certificates against the property which act as a lien in event of non-payment of taxes after a period of time. These certificates are sold, and the government

Two men spoke on the battleground of Gettysburg 60 years ago. The first delivered an oration of more than two hours in length: not one person in ten who reads this page can even recall his name. The second speaker uttered 250 words, and those words, Lincoln's Gettysburg address, are a part of the mental endowment of almost very American.

Many noble prayers have been sent up to the throne of gracelong impressive utterances. The prayer which Jesus taught his disciples consists of 68 words, and can be written on the back of a postcard. Many poems and essays have been penned by writers who hoped that they were making a permanent place for themselves in literature: but the greatest poem ever written consists of 128 words. It is the twenty-third Psalm.

Next Week: Simplicity and Strength.

"Isn't it dreadful?" moaned Rachel. "I refused to marry Pat several weeks ago and he has been drinking steadily ever since." "Yes," agreed Dilly, "that is carry-

ing the celebration too far."

J'EVER STOP TO THINK?

BY EDSON R. WAITE

It must be admitted that many high in political and business life in this country are advocating a new brand of patriotism under the name of economy

They say economy is patriotism, advocating the cutting of wages, cutting on national defense and depriving our disabled war veterans of benefits granted them.

I wonder if these gentlemen ever stop to think:

That such economy is cutting down the buying power of the country, and the stronger the economy wave goes the less money can be spent and circulated. Business men who "stop to think" know:

To curtail advertising cuts down

Cutting down sales cuts down production;

Cutting down production cuts down employment and income; When employment and income are cut down it leaves a whole lot of people with no money to spend.

economy has been preached and practiced altogether too much. There is nothing wrong with machinery unless it is that we do not see one of these birds dart out of have enough of it, and that it is

One of the causes of the depres-

sion at the present time is that

The mating call is a low-toned

We Want Your Abstract Business!

... We solicit your abstract business on the merits of the service we render. Your title work entrusted to us will receive careful attention and can be depended on to reveal your title. We render the highest type of abstract service available.

...Our abstracts are not mere work sheets requiring you to go to the county records to examine your title, but enable a full and complete examination of your title to be made. ... The depression has taught us the folly of investments in stocks, bonds, business interests, or what have you. REAL

ESTATE has continued to produce. Your cotton, corn, feeds, grains, and vegetables for your family have produced abundantly

-thus providing the necessities of your livelihood. Your land is

your only REAL investment. ... Protect your investment in Real Estate by an examination of your title. The law books are full of laws affecting real estate and the rights of the owners thereof. An abstract will not make your title good, but is an "X-Ray" showing the condition it is in. Correct that deed now-where a flaw was made years ago. You may have opportunity to sell, lease or borrow on your real estate, and if that flaw is in your way it may cost you thousands

of dollars. Would you buy a 1914 model car? Then would you buy a 1914 model abstract? Abstracting has progressed, lawyers are more particular in examination of titles, demanding full and complete detail in abstract work.

OUR PRICES ARE REASONABLE OUR WORK IS UNEXCELLED PROMPT AND EFFICIENT SERVICE

Largest Enrollment At A. C. C. Includes Three From County

The twenty-eighth annual session of Abilene Christian College at Abilene has begun with the largest enrollment in the history of the institution, it has been announced from the office of James F. president. This is the second successive year in which there ha been a record enrollment at this institution, Mr. Cox said. Four in-structors have been added to the faculty to take care of the increase n enrollment.

Saturday, September 30, with some students still to enroll, the enrollment of the college department had reached 509. One hundred and thirteen had entered the elementary and high school departments, making the total enrollment of the institution 623. These students come from 12 different states: Oklahoma, New Mexico, Arizena, California, Missouri, Texas, Alabama, Ohio, Arkansas, Louisi-

ana, Tennessee and Kansas, Among those enrolled are: Maurine Simson of Snyder, sophomore; John Sheehan of Hermleigh, freshman; and Frances Clements Snyder, freshman.
