

TWO LONG RUNS FEATURE 12-0 DEFEAT OF HASKELL BY TIGERS

Locals Stage Comeback Friday To Completely Smother Attack of Indians In Slow Game.

Take that 20-yard end run by Huestis, that 50-yard off-tackle twist by Wiese and those three pass interceptions by Fesmire out of Friday's game, and you would not have a very interesting game left.

Take the two runs out and you wouldn't have any score, either, for Huestis' second quarter run and Wiese's fourth quarter twist ended in the only two touchdowns of the day. No goals were kicked, so the score ended: Snyder 12, Haskell 0.

The Tigers staged a comeback all right, although it was not as fast as some ardent fans hoped for. A shifted line-up—and it kept shifting throughout the mix-up—seemed to present the strongest defensive set-up that has been seen here this year.

Visitors Didn't Get Started.

Despite the fact that Haskell presented one of her famous Kimbroughs as sparkplug, the visitors could never get started. They made not a single first down in the first half, and only three in the last. They were kept behind the 50-yard line throughout the game, chiefly because of a sturdy Tiger forward wall and Wiese's sensational punting out on the 5 to 20-yard line.

Defensively, the Haskell County crew was tight in severe pinches, with Captain Bynum at center, Starr at end, and a substitute, Adkins, at guard, starting. They threw the slow-starting Mooremen for several losses.

Fumbles marred the first half of the game for both elevens. The ball changed hands at least eight or ten times during the first quarter. The only serious scoring threat made by the Tigers, except when they actually scored, was marred near the beginning of the first quarter by one of these miscues.

Green Stars for Locals.

Green, captain for the afternoon, played one of his best games. Lee

Advertising Gets Farmer's Business

La Plata Home Press has the following to say in regard to using your home paper for advertising. Merchants, who have much to say about those who patronize the mail order houses should read this article with profit.

A farmer carrying an express package from a big mail order house was accosted by a local dealer that seldom advertised anything.

"Why didn't you buy that from me? I could have saved you the express on it, and besides you would have been patronizing a home store, which helps pay the taxes and builds up your community."

The farmer looked at the merchant and then said: "Why don't you patronize my home paper and advertise? I read it, and I didn't know that you had the stuff I have here. The people who sold me this sent me a big book that must have cost them 50 cents to print."

probably outplayed any of his previous performances, Eiland was on his toes all the way, and Neal showed well in backfield and line.

Fesmire knocked the Haskell passing attempts for a cocked hat by intercepting three tosses. Only two tosses were completed by the visitors. Snyder completed only three for short gains.

The line-ups:

Snyder—	Haskell—
Holladay	Pippens
Green (c)	Maples
DeShazo	Whately
Blakey	Bynum (c)
Fesmire	Hamilton
Jones	Roberts
Lee	Starr
Wiese	Bernard
Joyce	English
Neal	Bledsoe
Eiland	Kimbrough
Quarterback.	

Snyder substitutes: Huestis, Boren, Johnston, Beavers, Morgan. Haskell substitutes: Adkins, Solomon, C. Reeves, B. Reeves.

First downs: Snyder 6, Haskell 3. Penalties: Snyder 6 for 35 yards; Haskell 6 for 45 yards.

Passes: Snyder attempted 8, 1 intercepted, 3 completed for 19 yards, 4 incomplete. Haskell attempted 13, 3 intercepted, 2 completed for 15 yards, 8 incomplete.

Officials: Walter (Baylor), referee; Cresswell (Vanderbilt), umpire; Brady, head linesman.

Institute At Dunn Sunday For Baptist Every-Member Plan

By Rev. Philip C. McGahey, Organizer, District No. 8.

Sunday, October 29, 2:30 o'clock p. m. we are to have our Mitchell-Scurry Association every-member canvass institute. This meeting is to be held with the Dunn Baptist Church.

This is a most important meeting. We want every church in the association represented. This meeting will affect all of our budget work for the coming year. We want the pastor, some laymen and some women from every church present.

T. C. Gardner of Dallas will be our denominational leader and chief speaker. His subject will be "The Budget and How to Make the Every-Member Canvass." Rev. P. D. O'Brien, pastor of the First Baptist Church at Colorado, will speak on "The Biblical Background for Tithing." Rev. Philip C. McGahey of Snyder will speak on "Our Texas Baptist Program." A practical conference will be held. Every Baptist needs the help of this institute.

Sunday Is Mission Day!

Sunday, October 29, is to be Mission Day in the First Baptist Church at Snyder. The church voted unanimously last Sunday to send every penny that came in during the day to the cause of missions. A number have already expressed their delight that we have so designated Sunday. We have as our goal \$200. Please help us to reach our goal. The church urges upon you that you let this appeal reach a responsive chord in your heart, and go deep enough to reach your pocketbook. The cause of missions challenges you, and the heart of God will be well pleased with you if you make a worthy response to this most important call.

T. C. Gardner, state B. T. S. director, will speak at the morning service. Regular services will be held Sunday evening.

If you have a pledge to the church and you are behind with any of the payments, will you not make an earnest effort to pay up Sunday—every cent that you give will be credited to your account. If you owe nothing on your budget, pledge to the church, will you not make a worthy offering to the Lord on this great Mission Day? If you do not have a pledge to the budget of the church, the chances are you have not paid very much, if anything, during the year; then will you not bring an offering, as the Lord has prospered you, on this Sabbath day?

In the words of the NPA, "We Do Our Part." God has done and is doing His part; will you do your part? If you do your part, we will reach our goal Sunday.

Cowboys Will Play First Home Mix-Up

First home game of the season for the Simmons University Cowboys will be played in Abilene Friday night, when the Cowhands oppose the Southwestern University Pirates. The game will determine which team holds on to a mathematical chance at the Texas Conference title. Both have been defeated by the league-leading St. Edwards Tigers.

G. L. Huestis of Snyder, who was the individual Cowboy star against Baylor University last week because of his sensational punting, will be featured at left end. He is co-captain. Simmons lost to Baylor by way of a last-half passing flurry.

"The Croak" To Be Published By F.H.S.

Under the guiding hand of Superintendent E. O. Wedgworth, "The Croak" is coming to life again this week.

This Fluvanna school paper, which has been dormant for two years, is coming back in its old size, with liberal support from Fluvanna and Snyder merchants.

The four-page paper, full to the brim with school news, is to be completed in the Times plant tomorrow.

Fords Triumph Over All Other Makes In Mexico Road Races

Three Ford cars—three V-8's and a 1931 "four"—won the first three places in the famous Laredo-Monterrey road race sponsored by the Mexican Automobile Association, an affiliate of the American Automobile Association, according to official reports of the race just received.

The two V-8's established the fastest time on record for the course. The third Ford won the same position in the Class B event of the original road races which formally opened the new Pan-American highway between Laredo and Monterrey three years ago.

The race was won by Eddy Byers, a veteran figure in Texas and Oklahoma road race circles, in a Ford V-8 with an average speed for the 138.6-mile race of 78.25 miles per hour. Byers staged a thrilling finish to win over Jimmie Davis, also driving a Ford V-8, who placed second, one minute and 14 seconds behind the winner. Jim Hall of Houston was third in a Ford model A. Davis' average speed was 77.5 miles per hour. Hall's 73.1 miles per hour.

Speed Wagner, a product of the eastern dirt tracks and a veteran of several years' professional racing, was the only other driver to finish in the money, driving a Rocker roadster to take fourth place. Other entrants, including three Chevrolets, a Ford model A, an Essex, a Chrysler and a motorcycle were disqualified or failed to finish the race.

Davis took second place after suffering a blowout 20 miles out from Laredo. Four minutes were required to make the tire change. Despite this, Davis and his V-8 bettered all previous speed records for the course.

The performance of the three Fords in winning the first three places in the Mexican classic recalls the Ford victory in the stock car event at the Elgin National Road Races a month ago, when seven Ford V-8's took the first seven places in the famous event, Fred Frame, Indianapolis racing driver, in the winning Ford V-8 averaging 80.22 miles per hour for the 203-mile grind.

Relieves Women's Pains

Here is an example of how Cardul has helped thousands of women:

"I was very thin and pale," writes Mrs. F. H. Scott, of Roanoke, Va. "I suffered from weakness and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worn, tired, day after day.

"My mother had taken Cardul, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and it built me up. I gained in weight, my color was better and the pain left my back. I am stronger than I had been in some time."

Cardul is sold by local druggists.

Midget Tigers Lose To Heavy Steerlets On Big Spring Grid

After opening its season with two whitewash wins over Roman, Coach Charles Owens' troupe of grade school Cubs went to Big Spring Saturday afternoon and took a decisive lacing, 34 to 0. You can't blame the peewees, for it was discovered after the game that they had played eighth and ninth graders.

The Cubs are making daily preparations now for a return battle with the hard hitting Howard County gridmen. November 3 or 4 will be the date, and Trier Field will be the place. Coach Owens reports that his line has been considerably strengthened. His boys are determined that the outcome at Snyder will differ radically from that at Big Spring.

Those Cubs are staying young men. They used only one substitute during the Steer game, while the guest team sent in a constant stream of fresh material.

Good attendance has marked the Cub entanglements. Since the Tigers are not to play next week-end, a large crowd of backers is expected to turn out here.

Hospital Notes

B. D. McDowell of Arah underwent an appendicitis operation last Friday at the Emergency Hospital, and is doing nicely.

Little Miss Bobbie Jo Reep of Camp Springs entered the hospital Saturday for medical treatment. Her condition is improved.

Mrs. Jim Ikard's tonsils were removed at the hospital Monday.

Mrs. Truman Ellis and baby returned to their home at Fluvanna last Wednesday. Both are doing nicely.

Dr. and Mrs. I. A. Griffin and son, Leighton, went to Carlsbad Sanatorium Sunday to visit with two of Dr. Griffin's cousins.

Industrial Sidelight For Texas

Texas farmers are interested in the industrial development of Texas.

Why? Prices of many of their products would be materially increased by demand from industrial workers. When eggs were bringing 7 cents a dozen in Texas in 1932, in Connecticut (an industrial state) they were bringing 22 cents.

At the same time butter, bringing 1-3 cents to Texas butter producers, was bringing 25 cents a pound in Massachusetts (another industrial state).

Student—"These university professors don't know a thing! Why, not one of them could teach and get away with it anywhere else. They're just dumb—why, they oughta get a whole new teaching staff!"

Another—"Yeh, I flunked, too."

Snyder, Texas, Thursday Afternoon, October 26, 1933

The Times Creed:

For the cause that needs assistance;
For the wrongs that need resistance;
For the future in the distance,
And the good that we can do.

THE WEEKLY DOZEN

Just a Flap Between.

Talkative Tillie insists that the only thing between some of these tent show plays and nothing is a canvas flap—and 15 cents.

A Timely Suggestion.

Pessimism Pete suggests that many a cracked radiator and many a worrisome night may be eliminated by patenting one of the several good automobile doctors in Snyder.

Your Home Is Your Castle.

Every man's home is his castle, if he wills to make it that. Every castle that is really a castle is brimful of hospitality. That is just another reason why you should be willing to offer your spare beds for use of the 18th District convention of veterans next week.

The Big Boys Have It.

There is no question about it. The big boys of the gasoline and oil world are getting a new strangle hold. On top of that, state and federal taxes on oil products have a strangle hold. Two strangle holds on the neck of Mr. John Public may eventually mean something nigh unto death.

Highway Construction.

Anyone who has traveled the Snyder-to-Colorado road recently will rejoice with Colorado upon awarding of contracts for grading and drainage structures on a new route as far as the Scurry County line. But where will all the sand go if there is no dirt highway in the slushy side of Mitchell County?

Another Day of Grace?

It may be that the fools who continue to burn their fingers in the stock market are to have another day of grace, but justice will have no part in their restoration. Prosperity just can not return as long as so many people are trying to get something for nothing, no matter how many miracle prescriptions we may have.

Plenty of Entertainment.

When the American Legion convention comes to Snyder November 4 and 5, every visitor will find plenty of good, wholesome entertainment. If he finds any other kind, he will find something that is not sanctioned by the vast majority of local legionnaires and other local citizens. Snyder takes most of her fun clean and above-board.

The First Thing to Do.

In spite of all the acts and laws and isms that have come into being recently, The Times holds the old-fashioned position that the first place for money is in paying debts. The folks who buy fine clothes, ride in new cars and go on long journeys, while their debtors are going almost hungry, went a long way toward bringing Old Man Depression into our midst.

Hit Me on the Chin!

Snyder Tigers played last Friday afternoon with the "Hit me on the chin, I like it!" attitude. They did not play that way over at Rotan, for they had become a mite cocky in their old winning days. If you want to see some more of this brand of football, have a trip out to Tiger Field tomorrow afternoon at 3:30 o'clock. The Roby Lions, unbeaten in three conference starts, are coming.

An Encouraging Sign.

Cotton is better this year than usual, almost any cotton man will tell you. Scurry County is coming into her own as far as good cotton is concerned. Her market is better than any in this whole area. Her girls are anxious to please. Her business houses are willing to cooperate with cotton growers to the fullest degree. If we just must keep on raising so blooming much cotton—or so much blooming cotton—let's keep these encouraging signs always in the offing.

It's Easier to Be Careful Now.

Money is not moving swiftly now, by any means, but it is going so much faster than it did in 1931 and 1932 that most of us can afford to be more careful. For instance, a few dollars spent on your old car now may save twenty dollars later. A three-dollar doctor bill now may save a \$75 operation later. Ten dollars spent on fences may save a \$50 horse. Five dollars on repairs around the house may save splinters and blood poisoning, and put your wife in a better humor, to boot.

The Infernal Optimist.

If you are an optimist, you will find the peace that passeth understanding in the throngs that came to town Saturday, bought things they needed, and returned home happier than they have been in three or four years. If you are a pessimist, you will be shuddering in your feeble way, and thinking that the good things can not last. The pessimist may be responsible for holding the old world in needed check occasionally, but it's the infernal optimist that brings smiles and happiness and the better things of life.

Climb Up, Stay Up.

State Press in The Dallas News suggests: "Perhaps there ought to be law passed to prohibit anybody from going into debt, Uncle Sam excepted." State Press surely overlooked a bet when he failed to except county governments in his blanket prohibition. If these arms of government were not allowed to go into debt, what in heaven's name would embryo candidates have to run on, and what would taxpayers have a chance to gripe about?—The Scurry County Times.

Counties and other political divisions went into debt in a big way when citizens were doing the same thing. There was a time when a \$1,000 obligation was considered a trifle by any expansive Texan who aspired to millions and supposed he was on the way to reach them. Counties bought public improvements eagerly, the solid citizenry voting bond issues with neatness and dispatch. But as in all cases when delusions of grandeur get the upper hand, there came a reaction. Today \$1,000 looks like a special dispensation from the lady who keeps Dame Fortune's cornucopia. The general indebtedness, private and public, does give the constructive candidate a new hold upon the voters' attention. He tells them how to construct a bridge that will lead counties out of despair. Such bridges as the most vociferous candidates propose seldom are crude structures. They are quite fanciful in the main, and opponents who offer old-fashioned footlogs in lieu of dreamy bridges are not much considered. When one suggests working out instead of rising on inflation's wings he is suspected of playing with the big interests. The big interests themselves have so shrunken it is hard to tell the magnitude from the insignificant. Yet it remains true, and stubborn, that there are no dead levels, that ups succeed downs, and the way to rise and stay risen is to climb, not jump.—State Press in Dallas News.

EDITORIAL OF THE WEEK

BUSINESS, BUT NOT AS USUAL.

Years ago when the New York Store down by the post office on Main Street started to run into the red, the proprietor, being a far-sighted man, closed the doors, overhauled his stock, and took an inventory of the business practices that had led to the failure. Then, his store stocked with fresh, salable merchandise, and his methods changed, he opened the doors. In the front window he placed a big sign, "Business as usual."

Undoubtedly the proprietor of the New York Store overlooked the true significance of his sign. He was not doing "business as usual." If he had been he would have headed for another failure.

Something of this sort has been going on all through business in the past few years. With renewed trade activity business men are getting ready their signs, "business as usual." But there are also warnings in a recent number of its Industrial Bulletin declares:

"There will be no more business as usual. . . . It will be more highly regimented and under closer scrutiny by government and by trade. It will be made more conscious of its social obligations, and profit will no longer be its sole objective."

Witness the statements of Professor Georges P. Doriot of Harvard Business School recently:

"We shall not, I think, emerge from this experiment exactly as we went in. Something has been learned and something gained. Most important is that, however private the transaction appears to be, its effect must be considered in relation to the whole picture. The business of today is not an affair of making profits. That is incidental. Business is the service of supply. It aims to provide goods and services sufficient to allow people to live, to develop and to live still more fully."

It may take some time for this to become apparent to all. Changes so far-reaching must be worked out slowly. But the movement has started, and the man or business organization who attempts to open the doors of trade again with the belief that business will be as usual is facing the same failure that overtook him before. Business must now build on ideals and purposes which in the old order of things were far from usual.—Christian Science Monitor.

CURRENT COMMENT

BY LEON GUINN

Since Hitler has decreed Germany must go the economic path of trade alone, much concern has been expressed over the official withdrawal from the crimped League of Nations. . . . It is well to remember that Adolph Hitler did not get even a high school education, therefore, lacks the acumen to see very much more than his moustache. . . . France has completed 200 miles of underground trenches, and feels "secure." Belgium has a \$150,000,000 network of under-cover defense lines; and England has also "certain well-formed plans." . . . Rumor keeps Japan and Russia in a stew, with the United States considering Russian recognition. . . . Almost anything could happen.

It is so easy to get excited where war talk is concerned. . . . The mixed bloods of Europe will cause dissension and strife, kindreds of nobility will war and see buck privates "dig in and die," but America can let European countries settle their war, while we war on poverty, nudists and the NRA. . . . (We should not war on the NRA, however). . . . Shall the old, undying sin of raising hell with lead and powder be revived; should human digits wither like grass before enemy fire? . . . In the next war bullet velocity will be increased 500 per cent, and people shall drown in their own blood, because airplanes will loose blankets of lethal gas, undescrivable in effectiveness. . . . Fortunately, billions of barrels of water keeps America beyond immediate invasion by water. . . . Which suggests a strong air defense.

You will be interested in the treatment given narcotic addicts. . . . Alcohol is injected into certain nerves that branch out from the spine. . . . The neuralgia, nausea pains are thus quieted, relieving the patient. . . . By deadening sensual pain it is possible to cure the drug derelict. . . . Hotcha New York rodeo description: "The new (to them) attraction is milking wild cows. . . . Out of the stall rushes the cow, running here and there about the arena, much like a doomed Spanish bull. . . . A cowboy on a horse lassoes the cow and two helpers get armlocks on her horns. . . . Then the cowboy jumps to the ground, hauls out a pop bottle and tries to make a connection. . . . Three drops of milk in the bottle is the minimum requirement." . . . That, it appears, is New York!

Passenger—"Hey, con, stop th' train! That there's my station."
Conductor—"We don't stop there no more; the engineer's mad at the station agent."

BRUCE BARTON

Writes of "THE MASTER EXECUTIVE"

Supplying a week-to-week inspiration for the heavy-laden who will find every human soul paralleled in the experiences of "The Man Nobody Knows."

To Be Understood

Finally Jesus knew the necessity for repetition and practiced it. One of the sons of President Garfield was traveling with him through Ohio, when the president was addressing county fairs. At the close of the day he asked his boy what he thought of his speeches. The boy was embarrassed by the pert question.

BARTON

"Why . . . why, they were fine, dad," he replied, stammering, "but I felt awfully uncomfortable part of the time. You repeated yourself so often; once you said the very same thing in different words four times over." Garfield slapped the boy's shoulder with a hearty laugh.

"So you thought your old dad was running out of ideas," did you?" he cried. "Well, I don't blame you; but there's a method in his madness. Tomorrow when I reach that passage in my talk, you watch the audience. The first time I make the point, you'll see by their faces that a few folks near the platform get it. But further back there will be noise and commotion; people will be turning their heads to find out who has just driven up, or what sort of a hat Mrs. Jones has on and they won't hear me at all. When I repeat it the first time a few faces in the middle of the crowd will show a response; on the third go, I'll make still more converts; and on the fourth trial they will all have a notion of what I am talking about. But it takes four shots to land them all; experience with all sorts of audiences has made me sure of that."

It has been said that "repetition is repetition." No important truth can be impressed upon the minds of any large number of people by being said only once. The thoughts which Jesus had to give the world were revolutionary, but they were few in number. "God is your Father," He said, "caring more for the welfare of every one of you than any human father can possibly care for his children. His kingdom is happiness. His role is love." This is what He had to teach, but He knew the necessity of driving it home from every possible angle.

So in one of His stories God is the shepherd searching the wilds for one wandering sheep; in another, the Father welcoming home a prodigal boy; in another, a King who forgives his debtors large amounts and expects them to be forgiving in turn—many stories, many advertisements, but the same big idea.

Because the advertisements were unforgettable, the idea lived, and is today the one most powerful influence on human action and thought. To be sure, the work of the advertisements is far from complete. The idea that God is the Father of all men—not merely of a specially selected few—has still to penetrate some creeds, and to establish its dominance in society.

Next Week: Founder of Modern Business.

People will go miles to a good live city to trade.

In many cities an active campaign should be put on to sell the home city to the home people, and then all get together and tell the world about it.

RUSH WORK OF GETTING RIGHT OF WAY ON 101

Actual Construction Awaits Only Action of Commissioners Court of Mitchell County.

From The Colorado Record. Actual construction work on Highway No. 101 awaits only the securing of right-of-way for the route from Colorado north to the Scurry-Mitchell County line and subsequent awarding of grade and drainage structure contracts.

Field notes on the route, as recently approved at Austin, specify for the highway to lead east of north from terminus of Hickory street, intersecting the old road about 1,000 yards this side of Buford. From Buford the survey leads direct toward Dunn. The first project, including section of the road at Mitchell County, will be 8.9 miles in length.

County Judge A. F. King stated Wednesday that the Commissioners' Court would rush work of obtaining the required 100-foot right-of-way from the city limits to the county line. The county agreed to furnish right-of-way on condition the state built the highway.

There is not a single turn from the north city limits until the survey converges with the old road near Buford. The same is true between Buford and Dunn. After the first section is under contract the second and last portion of the road, leading from the county line to intersection with Highway No. 7 at Snyder, will be started.

Longer Staple Crop Is Now Being Grown

This week's government report of cotton in this area says: There was an increase in the proportion of spotted and yellow tinged cotton in District No. 3, the red sands and Plains, this week. The proportion of white strand middling and better declined in that area this week. Ninety per cent of the cotton from District No. 3 was tenderable on futures contracts.

Only 10 per cent of the cotton from that section was shorter than 7-8 inch this week. Forty-two per cent of the cotton from District No. 3 was 15-16 inch or longer in staple.

Some gulls were following a ferry boat. Irishman—"Nice flock of pigeons." A tourist inquired: "Those are gulls." "Well," said the Irishman, "gulls or boys, they're a fine flock of pigeons."

77% SAFER Than Smooth Old Tires!

Tests on slippery pavement show that new Goodyear All-Weatherstop cars 77% quicker than smooth, old tires and quicker than any other new tires... Take no unnecessary chances on slippery fall and winter roads—put on safe-gripping new Goodyears now! Most sizes still priced lower than last fall.

Goodyear All-Weather Superwast Card Tires \$7.20 and up—less trade-in allowance for your old tires

Expert Tire Mounting! We clean rims, paint them to prevent rust, properly apply new tubes and tires. Experienced tire men do your work here.

GOODYEAR PATHFINDER Superwast Card Tires \$5.55 and up—the quality tire within reach of all

OLDS SERVICE STATION

Several Batches Of Cotton Checks From Uncle Sam

Two more batches of cotton plow-up checks for Scurry County and a second batch for Borden County have arrived since last week-end. Thirty-nine checks for \$5,857 came in Sunday and Monday for Scurry. Borden farmers received 30 checks for \$6,816 later in the week.

Hallowe'en Musical To Be Given Friday By Spears Students

A Hallowe'en musical will be given by piano pupils of Mrs. Elmer Spears, assisted by expression pupils of Mrs. Charles Owens, at the First Baptist Church Friday evening at 7:30 o'clock.

All selections rendered will carry out the thought of Hallowe'en, and Miss Elizabeth McCarty will be master of ceremonies. The public is given a cordial invitation to attend. The program follows:
"March of the Wee Folk"—Empress Wolcott.
"Ghosts and Goblins"—Paynell Spears.
"March of the Phantom"—Virginia Pruitt.
Duet: "Dance Grotesque"—Irene Spears and LaFrances Hamilton.
"The Goblin Procession"—Glynn Curry Snyder.
"Hallowe'en Pranks"—Oleta Ikard.
Musical Reading: "The Giants"—Phil McGahey; with Mary Sue Sentell at the piano.
"Witches' Revels" and "Hallowe'en"—Dorothy Pinkerton.
"Jumping Jacks"—Wurnette Paver.
Musical Reading: "The Ghost"—Vivian Nelle Wilford; with Billie Lou Thompson at the piano.
"Nightmares"—T. J. Teter.
Reading: "When We Haven't Said Our Prayers"—Billy Jo Stinson.
Reading: "Someone"—Billie Jean Wilford.

We Have More Than Our Share of Shows

Snyder has more than her share of shows this week. In addition to full programs at the Ritz and Palace Theatres, Jack and June Alfred's Comedians are giving two shows nightly on the city lot, and the All-American Shows, a carnival, is located on the first block north of the square.

Then there's the football game Friday afternoon, and the parade of new clothes on the square Saturday. Take your choice.

If You Get Up Nights

Physic the Bladder With Juniper Oil
Drive out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUKETS, is bladder physic, also containing buchu leaves, etc. Works on the bladder similar to castor oil on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights" go back and get your money. If you are bothered with backache or leg pains caused from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep. Sinson Drug Co. says BUKETS is a best seller.

Dizziness

relieved by Black-Draught
'I decided to take Theodor's Black-Draught, as I had been having bilious spells,' writes Mr. Chas. E. Stevens, of Columbus, Ind. 'When I get bilious I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. I know then that is what I have. I feel better after I take Black-Draught. After I found how good Black-Draught is, that is what I have used. I feel better after I take Black-Draught. That to me, is a very good feeling. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.'

Wanted
(6) per cent per annum; that said note provides that all installments past due and unpaid shall bear interest from maturity date thereof until paid at the rate of eight (8) per cent per annum, but that plaintiff has demanded interest thereon at the rate of six (6) per cent per annum; said note also provides that if default be made in any of the payments therein provided for, then the whole of said note may be matured; plaintiff further alleges that the defendants secured the payment of said note by deed of trust of E. Lupo, trustee, covering and resting upon said 4,373 acres of land hereinabove described; that the defendants thereby created and fixed a valid and subsisting lien thereon; that the defendants, R. L. McMullan and Mary L. McMullan, defaulted in the payment of installments which matured on the first days of January, 1932, and 1933; that plaintiff exercised its option and declared the whole of said note due, and that said note provided that if collected by suit, or if placed in the hands of an attorney for collection, the maker thereof agreed to pay a sum equivalent to ten (10) per cent of the amount of principal and interest then due thereon; that the defendants, R. L. McMullan and Mary L. McMullan, defaulted in the payment of principal and interest and against all of the defendants for foreclosure of the lien and this in the event the relief prayed for under the petition is granted in the first court of its petition be denied.
Herein fail not but have you before said court on the first day of the next term thereof this writ with you return thereon showing how you have executed the same.
Witness: MAUDE M. AKERS, Clerk of the District Court of Scurry County, Texas.
Given under my hand and the seal of said court at Snyder, Texas, this 26th day of September, 1933, the date of issuance hereof.--MAUDE M. AKERS, Clerk of the District Court of Scurry County, Texas. 18-19c
