Mrs. James Trent of Clarendon Was Principal Legion Auxiliary Speaker

Mrs. James Trent of Clarendon, president of the Eighteenth District of the American Legion Auxiliary, was principal speaker Saturday evening at the banquet given in honor of visiting members. Her address on "The New Member" was a toast to the Snyder unit, as she said, "to the baby unit" of the district.

Resolutions Laud Snyder Auxiliary.

"It gave me great pleasure when I was told that Snyder had organized an auxiliary unit," she said. "Those of us who have been doing auxiliary work a number of years realize what a great opportunity for service belonging to an American Legion Auxiliary is. More than \$1,000,000 are expended each year by the auxiliary in hospitals and welfare work, as well as a vast amount of personal attention which is often the most valuable thing which can be given a suffering man who is far from home.

"What a privilege it is to enlist in an organization that has only the thought of service as its aim!" she said in conclusion. "And so we welcome the Snyder unit into the 18th District, and we feel that this unit will mean much to the department of Texas.

Members of the Scurry County Legion Auxiliary unit were congratulated by the following resolution for their outstanding service during the Saturday and Sunday convention:

Be it hereby resolved that: The Eighteenth District convention of the American Legion Auxiliary, Department of Texas, express appreciation to the members of the Scurry County Unit No. 181 for their cordial hospitality and many acts of kindness. Special thanks are due the local unit for the Auxiliary banquet on Saturday evening. For a unit organized such a brief period as the Scurry unit, we feel that you have been unusually successful in your efforts and are especially deserving of praise for the way in which you have handled the Eighteenth District convention.

Miss Meva Doak Weds Butler Smiser.

Announcement is made of the marriage of Miss Meva Doak and Butler Smiser, both of Fort Worth, which took place Sunday at the ranch home of Mr. Smiser's parents in Oklahoma. Rev. Smiser, the bridegroom's father, read the ceremony in the presence of the immediate members of the two families. Mrs. Bernice Doak and daughters, Maxine and Mary June, and Mrs. Smiser.

The bride is the daughter of Mrs. Bernice Doak of Fort Worth. She was graduated from Snyder High School in May, 1930, with honors, and further continued her education in Byrnes Commercial College in Fort Worth. After completion of her courses there she began work as a stenographer. Her mother and sisters moved from Snyder to Fort Worth, and the family has been there since that time.

Meva was at one time, before her graduation from Snyder High School, society editor of The Times. Friends here will remember Meva best as they knew her during her high school days, as she, with her wonderful personality and her ukulele twanged her way into the hearts of Snyder people.

Butler Smiser was for several years business manager for Texas Christian University. At the present time he is with the Trinity Life Insurance Company in Fort Worth.

NO . . . WE DON'T WASH THIS WAY!

Time was when this method of laundering might have been well and good—before efficient equipment had come into use and before the part of woman in the home was looked upon as a housekeeper and not a drudgery doer.

Years ago, however, when Snyder Laundry first came to Snyder to help to lift the burden of washing drudgery from the shoulders of women of the community, our institution invested practically all its profits (above a bare living) in modern laundry machinery and equipment to take care of the laundry business that nobody else wanted to do.

Now, with thousands of dollars invested in this equipment to do laundering of a high quality that nobody else in this community can do, we appeal to people's reason to help us continue in business by giving us their laundry work. We know you will need us in the future—which makes stronger our appeal that we need you.

TWINS FEATURE ON SADLER STAGE

"Big" and "Lit," famous Whitehouse Twins, who have become nationally known for their stage acts, are playing with the Harley Sadler tent theatre, which plays at Snyder for a whole week, beginning Monday night. Their vaudeville numbers add spice to the ever-popular offerings of the Sadler company, which is well known in this section for its high class dramatic work. Opening play Monday will be "Don't Rush Me."

Harley Sadler With New Company Will Play All Next Week

Harley Sadler and his new company will be in Snyder for a week's engagement starting Monday night, November 13, under auspices of the Snyder Fire Department.

The Sadler organization is practically all new this season, with many new faces, new plays, music and vaudeville. New members of the company include the Whitehouse Twins, feature vaudeville act, singers and dancers; Ewart & Barry, singers, dancers and acrobats; Miss Diane DeLaire, ingenue leading lady; and Joe Golfer and his 12-piece radio band. It is also rumored that Bart Couch will re-join the company here after an absence of several months.

The opening play in Snyder will be "Don't Rush Me," said to be one of the funniest of present day society comedy-dramas, showing Harley and Billie Sadler and each member of the company to excellent advantage. Ethel Snow and A. C. Hefner still remain favorites over the territory, as well as Bud Nairn. Show authorities announce that prices have not been advanced, and on Monday night, in Snyder, one lady will be admitted free when accompanied by a paid adult ticket and the ladies' free coupon contained in this issue of The Times.

A Book or Two

Found in the Rental Library of Mrs. Mabel Y. German

For a few hours the reader of "The Enchanted April" will dismiss his cares to live in an atmosphere of witchery and romance, all produced by the beguiling influence of a medieval castle, surrounded by perfumed flowers and flooded with sunshine.

The author, "Elizabeth," in her charming, sprightly style, continually offers a delicate barbed wit as relief for such pure romance. Her characters do impossible things and say impossible things, one may think. Not even the coldest of husbands nor the most dignified of matrons fails to yield to the enchantment of the place. But all things are possible, "Elizabeth" contends, under this warm—and slightly maddening—Italian sun. So marvelous an effect is produced on the four English women who merely rent this enchanted castle for the month of April, that one wonders what would happen if they had lived under its influence for a lifetime.

Grover Scott is now employed at McGlau's service station. New type battery radios. See King & Brown. Itc

Quartet of Singers Perform In County

The Southern Melody Boys, a trained and experienced quartet from Emory, have been appearing recently in several Scurry County communities. They present a program of sacred, popular and comical songs that is said to be pleasing to every type of audience.

The quartet is composed of B. W. Waits, Ulysses Waits, Grady Painter and Horace Holmes, the latter a son of Walter Holmes, Scurry County singer.

Mrs. A. W. Arnold submits the following clipping from an East Texas newspaper, published in her former home town, where she recently visited:

- Tax the people, tax with care. To help the multi-millionaire; Tax the farmer, tax his fowl; Tax the dog, tax his howl; Tax his hens, tax his eggs. And let the bloomin' mudsill beg; Tax his pig, tax his squeal; Tax his boots run down at the heel; Tax his horses, tax his lands; Tax the blisters on his hands; Tax his plow, tax his clothes; Tax the rat that sipes his nose; Tax his house, tax his bed; Tax the bald spot on his head; Tax the ox, tax the gas; Tax the road that he must pass And make him travel over the grass; Tax his cow, tax his calf; Tax him if he dares to laugh; He is a common man, so Tax the cuss all you can; Tax the laborer but be discreet; Tax him for walking on the street; Tax his bread and tax his meat; Tax his shoes clear off his feet; Tax the payroll, tax the sale; Tax all his hard-earned paper kale; Tax his pipe, tax his smoke—Teach him government is no joke; Tax his coffins, tax his shrouds; Tax their souls beyond the clouds; Tax all business, tax the shops; Tax their incomes, tax their stocks; Tax the living, tax the dead; Tax the unborn before they are fed; Tax the water, tax the air; Tax the sunlight, if you dare; Tax them all and tax them well; Tax them to the gates of hell!

ON TEXAS FARMS

By W. H. Darrow, Extension Service Editor

What to do with retired cotton acres has not stumped Texas farmers. From every part of Texas reports from county agents come pouring into Extension Service headquarters describing good uses to which extra acres have been put or are about to be put.

There is Garrett J. J. J. in Franklin County who planted corn in the cotton middles before plowing up the contracted crop.

In Tyler County 90 per cent of the farmers have planted fall gardens and half of them are sowing oats, rye, rye grass and hairy vetch for winter grazing and later plowing under to enrich the soil.

A permanent use for old cotton acres may be the growing of sorghum for syrup. In Bastrop County syrup mills have increased fourfold in three years as a result of demonstrations in growing better sorghum cane.

Forad County ought to have a good supply of alfalfa hay in the years to come, for many farmers are preparing to put idle cotton acres into this crop this fall. Some plan to follow the Spur Experiment Sub-Station method of terracing and corrugating alfalfa land to hold run-off water from adjacent fields.

The principle of this recovery administration is united action, not sporadic and widely separated attempts to end unfair practices.

First Tech Classes Taught Here Friday

First of the Texas Tech extension course classes will be taught here Friday evening at 7:00 o'clock, in the county court room, with Professor R. A. Mills as teacher.

English 233, for underclassmen, and English 532, for upperclassmen, will be taught. Twenty-two have already enrolled, and others are expected for opening classes by Frank Farmer, county superintendent.

Yields Determine Profits. A West Texas farm management study by Texas Agricultural Experiment Station shows that the high profit farms in 1932 were farms with high yielding acres. If production must be reduced, the place to make the cut is in number of acres and not in yield per acre, as all the farm relief measures recognize.

4-H Pantries Help Distress. Everything in many a Hidalgo County farm home was damaged by the hurricane except the 4-H pantry products, says the home demonstration agent. Full of products properly canned and well stored, these pantries became centers of food distribution to unfortunate neighbors after the storm.

Pickles Packed for Profit. It cost \$2.90 to plant and brine 60 gallons of pickles, according to Mrs. T. A. Moseley, who has the pickles become centers of food distribution to unfortunate neighbors after the storm.

Poisoned Maize Kills Rodents. Soaking last year's maize heads in a solution of two pounds white arsenic in 10 gallons of water for five or six hours and scattering the heads in the fields away from farm stock has given Haskell County farmers good kills of jack-rabbits, ravens and rats, the county agent reports.

A banquet to honor the eminent Chinese physician, Dr. Sing Lee, planned by New York medical men, included the presentation of a bound volume of testimonials and letters of appreciation from those who had benefited by the doctor's skill.

Every rational person knows that since there were international causes of the depression, there must be international remedies.—Cordell Hull.

Success is 90 per cent perspiration and 10 per cent inspiration.—Thomas Alva Edison.

COTTON IS STILL KING

Cotton, the king of farm crops of the South, has held sway for many years, and though his rule has dimmed, he is apparently destined to be supreme as the chief revenue producer for Southern farmers for many years to come.

As political states are feverishly attempting to eliminate waste and put government on a high plane, so the growers of King Cotton are attempting, in many sections of the cotton belt, to improve the quality of this important Southern crop. This battle for improvement of quality is given impetus when the spread in price between the short staple and the long staple is sufficient to reimburse the farmer for the expense involved in growing the better staple.

Grade and Staple. The quality of cotton is largely revealed in the grade and staple designations. And, even though there are more than 40 grades of cotton and many lengths of staple at the farmers' or primary cotton markets, trading is very often done on one price or a small variation from the basic price.

Preparation has to do with the smoothness of the cotton. If the bale is picked dry and ginned in that condition on a properly adjusted and properly run gin the sample will come from the lint flue in a very smooth condition.

Leaf is a term used to refer to any kind of trash but more especially to particles of cotton leaves appearing in the sample. The higher the grade is the smaller will be the amount of leaf present.

County Court Fails To Start Functions

It wasn't Judge Curmutte's fault that county court was not held early this week.

He was there with the docket, but there wasn't even a lawyer around the place. An out-of-town attorney wrote that his case would not be contested, but there was otherwise not a chirp about a case of any caliber.

So Judge Curmutte went downstairs again.

SPECIAL Turkey Announcement!

We will operate our DRESSING PLANT at Snyder during the 1933 TURKEY SEASON and PAY THE FARMERS THE HIGHEST MARKET PRICE OBTAINABLE.

Turkeys dressed at Snyder furnish direct employment to our own Scurry County folks. If sold to outsiders, then outsiders collect the HUNDREDS OF DOLLARS PAID OUT FOR PICKING, GRADING AND PACKING. When you sell direct TO US, you are doing YOUR BIT IN FURNISHING EMPLOYMENT TO OUR OWN SCURRY COUNTY PEOPLE. Think it over.
