## POLITICS SADDLES UP FOR 1934 RIDE AS CANDIDATES GET GOING

Fifteen Office Seekers Already in  
Announcement Column for  
City-County Places.

Politics took the saddle in Scurry County when the New Year entered the arena, and the star performer promises to give everybody a bucking good time before the season of handshaking and baby kissing has passed.

Candidates for the city, precinct, county and district offices are backing Old Man Politics with a large number of first-week announcements. Many who have accepted their incumbency are throwing their hats into the arena as waiting a week or so before making formal announcements, while a few, as usual, are waiting until an even later date with the hope that a sudden jump into the big middle will command more attention.

The city marshal and tax collector place is being sought by four strong candidates—the biggest lineup so far, in any race. Sid Bruck, Frank Brownfield, Sam Casstevens and J. A. Woodfin are the quartet. The only other city candidate is Dr. H. G. Towle, who has been announced for re-election by his friends.

In the state representative's race, we find official announcements from Ben P. Smith, former newspaperman, and Leonard Westfall, Blomwell County judge. Joe McNeil, incumbent, also definitely is in the running, although his official announcement has not been made.

State Senator Arthur P. Duggan of Littlefield is the only congressional candidate announced by The Times although at least five others, including District Attorney George Mahon of Colorado, are definitely in the swim.

Bernard Lenebotham, county tax assessor, and W. W. Nelson, county tax collector, have announced for the combination assessor-collector place. This consolidated office was created by a statute of the state legislature.

Edgar Wilson announces as the candidate for the Precinct No. 1 weighers race.

Incumbent candidates who stand alone in early announcements to-day are: Robert H. Garnette, county judge; Mrs. Edna B. Tinker, county surveyor; Holly Chulter, Precinct No. 2 commissioner; Lee Grant, Precinct No. 3 commissioner.

President Roosevelt has been inaugurated by Walter J. Cummings, and most of the federal departments are in operation.

The modern brick veneer school building at China Grove, replacing the wooden structure destroyed by a few weeks ago, is being given the finishing touches this week-end. Except for a small amount of equipment, the new plant is ready to open in earnest next week.

The PWC loan being sought to assist in construction costs has not yet been approved at Washington.

increase of Snyder bank loans by \$5,000 in 10 months is revealed in figures released this week by the Scurry National Bank.

The same time, an increase of \$5,000 in deposits, or more than 60 per cent, is reported.

## Scurry County Gets Into Nation's White Area, Map Reveals

Scurry County is in the "white," along with practically all other portions of the cotton producing South.

The Nation's Business magazine, in its latest business map of December 1, pictures scattered white spots—good business—in scattered portions of the United States, but only in the "cotton" South, extending westward to this general section, is a large area classed as "good." The Panhandle and Southwest Texas is in the "fair" classification, along with about half the country, while a few areas, notably in the midwest, are marked "quiet."

The "good" classification of the cotton belt is credited largely to crop-depositing bonuses and guaranteed cotton prices.

THIS graph shows what happened when the cotton grower cooperated with the Agricultural Adjustment Administration to reduce the cotton acreage in 1933. Had it not been for the plow-up campaign and the fine spirit of cooperation exhibited by southern growers, disaster would have befallen the Cotton Belt in the fall of 1933. The above graph tells this better than words. A potential yield of seventeen and one-half million bales was reduced to thirteen and one-tenth million bales by the action of the Agricultural Adjustment Administration, and, as a result, the income that the cotton grower received from his lint cotton was nearly doubled. Realizing these facts, cotton growers are expressing a desire to cooperate in future adjustment programs.

## Questions, Answers on Cotton Plan

Following are some pertinent questions and answers covering the 1934 and 1935 cotton reduction plan:

Question: What is the 1934-35 cotton acreage reduction plan?

Answer: Cotton producers are offered a plan by which they may leave out of cotton production approximately 15 million acres of cotton land in 1934, thereby reducing the acreage planted to approximately 25 million acres. Then, if it is found necessary to extend the plan another year, as much as 10 million acres may be left out of cotton in 1935, leaving 20 million or more acres in cotton that year. The plan provides that producers may rent

cotton lands to the Secretary of Agriculture in return for certain rental and parity payments. The plan, if it is to be put into operation, must include a very large percentage of all cotton farms, and the Secretary of Agriculture will decide by January 31, 1934, whether a sufficient acreage has been offered to him to make the plan feasible.

Question: What benefit may a farmer expect to receive from the plan?

Answer: In addition to the rental and parity payments, the farmers will benefit from the rise in cotton prices that may be expected as the surplus is eliminated.

Question: What assurance is there that the 1934-35 plan will be successful?

Answer: The extent to which the 1934-35 cotton acreage reduction plan will be successful will depend upon cotton producers themselves. The plan is voluntary, and it is only through the whole-hearted cooperation of cotton producers with the Secretary of Agriculture that the ultimate objective of the program can be achieved. There is every reason to believe, however, that producers will cooperate in the plan. They have realized the effects of ruinously low prices caused by

## Lubbock Meeting Draws Hundreds Of Cow Raisers

Several hundred Texas Jersey cattle breeders and agricultural officials, including a few from Scurry County, are in Lubbock Wednesday, Thursday and Friday for the annual convention of the Texas Agricultural Workers Association.

The club's president, John W. Underwood, of Denton, opened the convention yesterday with a report on the year's activities. Jack Shelton, Lubbock, was scheduled to report on the American Jersey Cattle Club. Other parts of the program were slated as follows:

L. P. Merrill, "What the Buyer Sees"; Dr. Vernon Scott, John "Fleet" "Diseases of Dairy Cattle"; Charles N. Sheppardson, Texas A. & M., "Which Way?"; E. E. Martin, State 4-H Club boys' agent, "4-H Dairy Calf Clubs"; Dr. L. C. C. Leib, state veterinarian, "Fighting Up Cows"; and E. R. Eudaly, Texas Extension Service, "Milk Marketing Agent."

L. Stangel, Texas Technological College, will be toastmaster at the annual banquet.

Pat Shelton, Lubbock, president of the Texas Agricultural Workers Association, will open the seventh annual convention for that organization tonight after noon today. The principal addresses this afternoon and first morning include: L. C. Colby, "Texas A. & M., 'Improved Methods of Collecting and Spending Taxes in Other States'; Judge Otis Miller Jones County, "County Organizations"; S. A. McMillan, Texas A. & M., "Land Tenure Committee"; Dr. J. O. Edwards, "Texas Technological College, 'Ways and Means of Bringing Back the Purchasing Power of the Farmer's Dollar'; Miss Mildred Horton, state home demonstration agent, "The Place of the Rural Home Maker in the Modern World."

Dr. R. H. Montgomery, Texas University, and Dr. T. O. Walton, president of Texas A. & M., will be principal speakers at a banquet, and Dr. Montgomery will speak again at the closing luncheon.

## Homer Snyder Goes To Winters Funeral

Homer Snyder was in Winters Thursday to attend funeral rites of his grandfather, H. G. Schneider, 83, retired minister and well known resident of Runnels County. Mr. Schneider died at the home of his daughter, Mrs. M. L. Schreiner, at 5:00 a. m. Wednesday. He was an active minister of the Church of Christ for more than 40 years.

The aged minister had visited here a number of times, and was known to many local people.

Seventy three descendants, in addition to two brothers and a sister, survive Mr. Schneider.

## EXTENSION OF BARGAIN DAYS ON THE TIMES

Dollar Rate Continues to Apply  
On Back-Dated Subscriptions  
In This Territory.

Following the plan used by most daily newspapers, The Times announces this week an extension of its annual Bargain Days.

Bargain Days proper expired December 31, but subscribers in Scurry and adjoining counties may secure the paper this month for a dollar, with the understanding that new or renewed subscriptions are to be back-dated a month.

The \$1.50 rate continues to apply in other counties under the same plan.

By back-dating is meant this: If your subscription expired in December or if you are a new subscriber, your expiration date will be December 31 if you subscribe now. If your subscription expired in November, for instance, it will be back-dated to November when you renew now. If it is to expire any time in 1934, it will be moved up a full year.

Subscriptions will be accepted under this plan at the office, by community correspondents, or by any authorized solicitor.

Response to Bargain Days has been more pronounced than at any time in recent years. Upward of 1,000 new and renewed subscriptions have been secured for the paper.

More than 200 during the last week of the regular bargain day period. The number of subscribers sent in by The Times to The Semi-Weekly Farm News, Abilene Morning News, Fort Worth Star-Telegram and The Dallas Morning News, has reached into the hundreds.

Saturday was the banner Times subscription day of the year, with more than 70 new and renewed subscriptions coming in by person, by solicitors and by mail.

## CONFIDENCE COLUMN

Nathan Rosenberg, manager of the Economy Store, states that his 1933 business showed an increase of 22 per cent over 1932 business, and that his December business just closed was much better than that during the same month in 1932.

Lubbock advertising in The Scurry County Times is given much credit for the recent increase.

Mr. Rosenberg calls attention to the fact that quoting of low prices in his ad on page eight of this issue is not a violation of the NRA code forbidding selling of merchandise at less than cost. He says that although some of the goods are being sold under present cost, they were bought on a low market and the code is therefore not being violated.

The merchant is looking forward in 1934 to a steady improvement in general conditions, and especially in Scurry County.

## Basket Ball Starts Rolling This Week

Coach Red Moore issued suits Tuesday to about 15 boys who have ambition to make the 1934 basketball team. Active practice is expected to start today on the Tiger Field court.

In 1930 the Bengals whipped Abilene twice and came mighty close to the district title. Since then they have been out of a court most of the time and have been hard to get started. Last year there was no team at all.

Red looks forward to a right heavy crew in spite of the fact that the boys will have to learn all over again what it takes to handle a basket ball.

Father of Ten Children Held in  
Shooting as Aftermath of  
New Year's Dance.

Death came at the home of Cameron Justice, a son, with whom the 74-year-old landowner and cattleman was visiting when illness overtook him. His home was in Fort Worth, where he had resided for 12 years.

Funeral rites are being conducted this afternoon at 2:00 o'clock at the First Baptist Church, Snyder, with Rev. M. C. Bishop of Post officiating and Rev. Philip C. McGehee assisting. Burial will be in the Snyder cemetery.

Mr. Justice came to Snyder with his family in 1890. Ten years later he moved near the present site of the town of Justiceburg. He held extensive ranching property there when he died, and was also interested in Fort Worth property.

Five children survive in addition to Mrs. Williams and Cameron Justice, as follows: Jeff Justice Jr. of Justiceburg; Mrs. W. J. Williams of Lubbock; Mrs. D. Boren of Post; Mrs. C. A. Jones of Post; Mrs. C. C. Porter of Colorado. A sister, Mrs. J. M. Panchman, of Mount Vernon, also survives. Another son, Appleton, died in 1918.

Cisnero was placed in the county jail after he was arrested at 2:00 o'clock Sunday morning. He was formally charged with murder when Mirelez died early Monday night as a result of the bullet wound. He is being held in default of bond.

Officials are of the opinion that practically all the Mexicans who attended the dance were drinking. Several white persons also attended the affair, they learned.

## Windham Almost Meets His Match In "Dakota Lil"

Lil may sound like the name of a namby-pamby, but Woodie Windham found almost to his sorrow Saturday night that it was anything else but.

Mickey is his last name, and he hails from Bismarck, capital of North Dakota. This 137-pounder knocked the Abilene boy about considerably in the early rounds of the main event at the tabernacle, but the more experienced Woodie finally cracked him to the canvas in the eighth round. Mickey floored Woodie once—the first real flooring he has gotten in his several fights here—and otherwise punished the cocky little man. Mickey stayed out on his third knockdown.

Mickey breezed in from a long journey only three hours before the fight. He took the place of Jackie Hudson, the long-armed Oklahoma that Windham had a hard time knocking out three weeks ago. Fans are expecting one of the best bouts of the year when Hudson and Mickey meet Saturday night at this week in the feature event.

Townsend brothers say the opening events, especially the semi-final, will offer plenty of excitement this week, too. Ladies will again be admitted at half price. The building will be heated, as usual.

## Jeff D. Justice Dies In Post As Sickness Climax

One of the West's pioneers, one whose name is perpetuated through the Garza when Hudson and Justiceburg, died at Post Tuesday night after an illness beginning November 6. Among his survivors is Mrs. W. G. Williams of Snyder, a daughter.

Death came at the home of Cameron Justice, a son, with whom the 74-year-old landowner and cattleman was visiting when illness overtook him. His home was in Fort Worth, where he had resided for 12 years.

Funeral rites are being conducted this afternoon at 2:00 o'clock at the First Baptist Church, Snyder, with Rev. M. C. Bishop of Post officiating and Rev. Philip C. McGehee assisting. Burial will be in the Snyder cemetery.

## Miss Scott Assumes Management of WU

Miss Lera Mae Scott, whose home is in Mineola, arrived here Saturday to take over the work of F. E. Smith as Western Union Telephone operator, assuming duty on January 1.

Miss Scott has been associated with the Western Union work for only one year, coming here from Jefferson, and she states that her work here will be tedious. She is following the custom set by several operators before her by making her home with the C. E. Fergusons.

Smith received promotion, and at the present time is on a vacation relief job in Rotan.

## \$75,000 to Be Received by County Farmers, Plus Prospect of Future Rise Benefits

More than 500 Scurry County cotton producers have ordered that the cotton they hold under option contracts be delivered into the option pool created by Secretary Wallace for the purpose of holding the cotton.

These producers executed certificates that will entitle them to be advanced \$20 per bale, or a total of about \$75,000, in return for which they have agreed to sign the 1934-35 acreage reduction contract if they are eligible to do so before they receive this advance. In addition to this \$20 per bale advance they will be entitled to share in profits of the pool in proportion to the number of bales they have in it.

It is understood at the county agent's office, through which the checks will be handled, that the farmer will receive a full \$20 a bale or fraction of a bale advance and there will be no liability on his part as he signs the acreage reduction contract.

This option pool plan can not be accepted after January 15. The county agent is prepared to deliver the option contracts at any time they are called for at his office, or he will be glad to give additional information at any time.

About 100 farmers have ordered their option contracts sold immediately. This means an outright sale just as it would be made to an individual cotton buyer. The seller will receive the difference between six cents per pound and the price of New York middling 7-8 inch staple cotton on the day he orders it sold.

## SCHOOL TERM ENDS JAN. 12

Snyder schools will end their first term's work Friday, January 12, registration will come Saturday the 13th, and the second term will begin Monday the 15th.

C. Wedgeworth, superintendent, announces that a new and less formal plan will be followed in graduation exercises this mid-term. No special speakers will deliver addresses or sermons. Instead, the graduates themselves will have charge of an assembly program at 10:00 o'clock Friday morning in school auditorium. They are: Frances Boren, Henry Clements, Bob Hamilton, Lola Mae Littlepage, Bonita McGehee Mavis Shuler and Norman York.

## J. W. McCoach, Railway Veteran, Hears Last Call

J. W. McCoach, 77, retired veteran of the Santa Fe Railway, died in Los Angeles, California, Friday night, and was buried at Post Tuesday afternoon.

For 45 years the railroader followed his profession. When he retired from the service two years ago he brought to a close an eight-year period as agent of the Santa Fe at Snyder. He was stationed at Post before coming here. His home was here, but he and Mrs. McCoach have spent much of their time since his retirement in visiting with their three daughters and traveling in other parts of the United States.

He had been in California only 10 days following a visit in Post. He was in ill health when he made the westward trip.

Funeral rites were conducted at the Presbyterian Church, of which the deceased had been a long-time member, by Rev. E. B. Surface of Abilene. Burial was in the Post cemetery, with the Masonic Lodge, of which Mr. McCoach was a member, in charge.

Survivors are Mrs. McCoach and three daughters: Mrs. J. A. Stallings of Post, Mrs. J. A. Barton of Los Angeles, California, and Mrs. John Ivancovich of Tucson, Arizona.

Snyder's outstanding sports of the present era, Bedford McClinton, was nominated by Prexyerson of Abilene Reporter-Times for a place in the West as sports parade of 1933.

Prexy declared that Bedford winning three first places in district meet at Abilene on the local lad to year-round champion. He might have added, McClinton, teamed with Buck, he went on to Austin and broke third place in the state Snyder High School, McClinton first in the West in the 220 yards.

The visitor praised the government's cotton control program for 1933 and said that it brought millions of extra dollars to Texas farmers. He expressed the opinion that whole-hearted cooperation on the part of producers will practically assure an even fairer price under the proposed 1934 and 1935 plan.

The Hande-Dande Company has made announcement this week that a change has been made in management and ownership of its

### College Students Home for Holidays Feted With Parties, Dinners, Dances

A series of parties celebrated the return of college students to Snyder for the Christmas holidays. Guest lists for the four parties following included Misses' Charline Ely, Mildred Stokes, Johnnie Mathison, Gwendolyn Gray, Margaret Deakins, Jeanette Lollar and Rube Lee, and Roberta Raybon of Lubbock.

**Miss Lollar Hostess.** Miss Jeanette Lollar, daughter of Mrs. T. L. Lollar, was hostess to friends at a buffet luncheon given at the Lollar home Friday. The house was beautifully decorated with holiday decorations. Table centerpieces were lovely yellow and white chrysanthemums placed on white linen table covers.

**Dinner at Lee Home.** Miss Rube Lee, student in Texas Technological College, Lubbock, entertained Saturday night with an informal dinner party in the home of her parents, Mr. and Mrs. W. B. Lee.

**Annual Slumber Party.** The Manhattan Hotel was a scene of merriment Saturday night for friends of Miss Margaret Deakins when she entertained with a slumber party. The affair is an annual occasion for the hotel. Every year for a number of years near January 1 Miss Deakins is hostess for a slumber party. Members of the party attended the midnight show at the Palace Theatre, and returned to the hotel for their midnight feast, which consisted of delicious fresh fruits.

**Six o'Clock Dinner Is Feature.** The climax of holiday festivities, according to several, came Sunday evening when the girls were complimented with a New Year's Eve dinner party given at 6:00 o'clock in the W. J. Ely home, 2703 Avenue U, with Miss Charline Ely, McMurry College, Abilene, student, as hostess. The three-course turkey dinner consisted of many highly garnished dishes placed on one long table covered with white linen. Holiday colors—red and green—were used in profusion in decorations and menu. After dinner Miss Margaret Deakins broke the seal on the New Year's resolutions which were made on December 31, 1932. The resolutions were read, and each told whether or not she had kept her resolution. It was found that some had and some had not lived up to their vows last year. New promises were made, sealed in an envelope and placed under the care of Miss Ely to be read on next New Year's eve.

### Price Holt Weds Mississippi Girl.

Marriage of Miss Sara Pinky Snowden of Jackson, Mississippi, and Price Holt of Snyder took place Friday evening, December 22, 1933, in Jackson. The pastor of the First Baptist Church performed the double ring ceremony in the living room of the Baptist parsonage. The bride's sister and husband, Mr. and Mrs. Silas Shannon, of Jackson, and Miss Geneva White and Clarence Williamson of Snyder were the only attendants.

The bride has been for several years before her marriage book-keeper for the Montgomery Ward Company in Jackson, Mississippi. For the wedding she was beautifully attired in a smart navy crepe frock trimmed with snowy white satin, worn with navy accessories. The ever popular redingote is synonymous with spring. Here it is again among the first showings for 1934. It is a smartly tailored lightweight wool coat with a flat silk print frock, gayly patterned.

The feature of this smart spring outfit is the butterfly tie of frock material as a neckline trim of the coat. The neckline of the coat is new, a puffed roll of self coat fabric. Sleeves are modified and vary in style line from that shown in the illustration, with full sleeve for the upper arm to those which are inverted with fullness of sleeve between elbow and wrist.

Mayor H. G. Towle Said by Friends to Be Worthy Servant

Friends of Mayor H. G. Towle of Snyder announce this week as a candidate for re-election. It is pointed out in the formal statement that the record of economy and municipal progress begun by Dr. Towle when he became mayor almost eight years ago has been continued through the leanest years on the city's books.

Edgar Wilson Asks Election to Office of Public Weigher

Edgar Wilson is the first candidate to make announcement for the public weigher's place in Precinct No. 1. In placing his candidacy before the people of his precinct, Mr. Wilson recalls that he served in the same capacity for four years previously, and was unopposed for the second term. He was not a candidate for re-election to the third term.

F. M. Brownfield Throws His Hat in Ring For Marshal

F. M. (Frank) Brownfield throws his hat into the ring this week as a candidate for city marshal. A resident of Snyder for a number of years—and of Scurry County even longer—Mr. Brownfield has served as a peace officer for eight years. He was deputy sheriff for two years, then served for three terms as sheriff. He retired from the sheriff's office at the end of the six-year period without seeking re-election.

Lee Grant Asks to Be Re-elected For Precinct 3 Office

Lee Grant announces this week that he is a candidate for re-election as commissioner in Precinct No. 3. In asking support of precinct voters, Mr. Grant calls attention to his continued efforts to carry on work that would benefit his constituents and the county as a whole. He states that he will have a statement to make in The Times soon.

Aspermont Official For Representative

Leonard Westfall of Aspermont, county judge of Stonewall County, announces this week that he will be a candidate for state representative from the 118th district. In a telephone call to The Times Wednesday afternoon, the judge indicated that his formal announcement will appear in district papers next week.

W. W. Nelson Says He Seeks Combined Office for County

To the Voters and People of Scurry County: I wish to take this opportunity at the beginning of the new year to express my appreciation to each and every one of you for the confidence you have placed in me in the past, and especially for the many acts of kind consideration you have given me during the years I have been your servant in a public capacity.

I came to the West when its vast prairies were grazing grounds for its cowboys, and have seen it gradually change to the rich agricultural region of today. I have rejoiced with you in prosperity, drought and depression, but during all these long years you have never failed to place your confidence in me, for which I shall always be grateful. I assisted in the organization of Scurry County and the people honored me by electing me their first sheriff and tax collector.

Again in 1930 you expressed your confidence in me by electing me tax collector of the county. During the past years I have actively supervised the collection of all state, county and much of the school district taxes in the county. I believe I have done this in a way that will meet with the approval of a vast majority of the people.

During the last term of the legislature our law makers saw proper to abolish the offices of the tax assessors and tax collectors of the various counties of the state, and in lieu thereof created the office of assessor and collector of taxes for each county.

I am taking this opportunity to ask that you promote me to this newly created office. In doing so, I do not feel that I am asking too much of you, for it has been a long time custom to honor a worthy servant by electing him to higher and more important offices.

Sam Casstevens In Running for Local Marshal's Position

Sam Casstevens makes the following announcement of his candidacy for city marshal of Snyder: "In asking the citizens of Snyder for the city marshal job it is hard necessary for me to state how I stand on law enforcement, because I have served as a peace officer for several years. I served as deputy marshal under Pack Wolfe, as deputy sheriff under four sheriffs, Darby, Merrill, Boies and Byrd—and as a member of the City Council for six years."

Lee Grant Asks to Be Re-elected For Precinct 3 Office

Lee Grant announces this week that he is a candidate for re-election as commissioner in Precinct No. 3. In asking support of precinct voters, Mr. Grant calls attention to his continued efforts to carry on work that would benefit his constituents and the county as a whole. He states that he will have a statement to make in The Times soon.

J. A. Woodfin Out For Snyder Job As Marshal-Collector

He believes in—and practices—law enforcement, and states that if elected he will do his duty in preserving peace and order in Snyder.

Robert H. Curnutte Seeks Election to County Judgeship

To the voters of Scurry County: I am taking this time to announce myself for the Democratic nomination for re-election to the office of county judge of Scurry County, and to ask your vote and support at the Democratic Primary to be held July 28, 1934. In my announcement for the office of county judge for the present term I promised you that I would use my best efforts to reduce the expenses of Scurry County to its income. During the year 1933 your Commissioners' Court, of which I am the presiding officer, reduced this county's expenses enough to cut down the outstanding warrants by more than \$10,000. I have kept an itemized account of all the expenses of the county for the past year and would be glad to show it to any one interested.

With the continued assistance of the Commissioners' Court I feel that if you will help me with another term of office that we can, if conditions continue during the past year, put all the various funds of the county that have been for several years, and still are very much behind, on a cash basis. I have tried in all matters that have come before me in my office to serve you for the best interest of the county, and if I am re-elected will continue to give the best service that I can. Assuring you of my appreciation of any support you may give me and asking your continued assistance in carrying out the duties of my office, I am, Yours very truly, Robert H. Curnutte.

Ben F. Smith Asks For State Position Of Representative

To the Voters of the 118th Representative District: In announcing my candidacy to the office of representative of the 118th Representative District, I wish to say that I have lived in West Texas for more than 30 years, and have been actively engaged in newspaper work as publisher prior to 1923. I am personally acquainted with many people throughout the district, especially those who have lived in this section for the past number of years.

In seeking this office I feel that I know West Texas and West Texas problems and that if elected I can do some real constructive work for West Texas. I am for West Texas first and the state at large, and shall work for the best interest of both.

Henry Newman Out For Re-election To Office of Sheriff

Among candidates to announce for re-election this week is S. H. (Henry) Newman, sheriff, who asks the voters of Scurry County to consider his first-term record before casting their ballots or pledging their support. "In the beginning of this campaign I want to say that I have made mistakes during the time I have been in office," the sheriff stated early this week, "but I have done my best to make amends for anything I have done that was not for the best interests of the county. I believe in law enforcement, and have done my best to enforce the law. If the voters see fit to honor me with the office again, I shall continue my efforts to make this county a fit place in which upright citizens may live."

"I take this opportunity for thanking the citizenship for its cooperation with county peace officers during my term of office."

Mrs. Tinker Seeks Treasurer's Place For Another Term

To the voters and my other friends in Scurry County: In announcing my candidacy for re-election to the county treasurer's post, I wish again to extend my sincere thanks to those who have supported me in the past. Feeling that your expressions of confidence meant that I should consider my office a public trust, I have endeavored at all times to serve Scurry County.

Several years' experience should better qualify me to meet the manifold problems that arise in carrying out the duties of this office. Now that we are emerging from one of the gloomiest financial periods in the history of our county and nation, a detailed knowledge of governmental affairs should be the prime qualification of a public servant, next to unquestioned honesty.

Holly Shuler Gets Into Campaign For No. 2 Re-election

Holly Shuler is a candidate to succeed himself as Precinct No. 2 commissioner, he announces in The Times this week. He states: "I wish to express my appreciation for the honor of serving you as county commissioner of Precinct No. 2 the past year. It has been a year of progress in restoring our confidence in each other as well as in business relations. I sincerely trust I have not betrayed that confidence you showed to have me in electing me as your county commissioner."

"I have made mistakes, but in asking you for the honor of a second term I assure you of as fair, honest and economical an administration of this office that is in my power to give you. In announcing my candidacy for commissioner of Precinct No. 2 subject to action of the July primary, I wish to say that your vote and influence will be greatly appreciated."

A Clean-cut Town.  
"Snyder's the prettiest little city in West Texas," said C. F. Sentell a few days ago, after a trip to points north and east. Birthday balls for President Roosevelt are to be held throughout the nation on January 30, with the infantile paralysis camp established by the President as the beneficiary. Snyder will have no birthday ball, but her citizens are behind the spirit of the benefit events elsewhere.

The War on Hitch Hikers.  
One of the most helpful things being done in Texas to start the New Year right is the war on hitch hikers. Strictly speaking, it is no war at all, but an effort to put non-paying travelers into useful work, or get them back home again. The fact that the vast majority of these hitch hikers are under 25 years of age is double reason for seeing that they settle down.

CWA Leaders Congratulated.  
Scurry County CWA leaders, headed by Joe Monroe, are to be congratulated for the efficiency with which they handled a difficult situation during the late weeks of 1933. With few exceptions, even unemployed men who were well-nigh hopeless have been complimentary of the relief office and its work. As for that, all governmental or semi-governmental agencies here are to be congratulated for their faithfulness in carrying out New Deal measures of all varieties.

The Most Disgraceful.  
The Nation magazine says: "The most disgraceful page in the history of 1933 is the cruel and irrational fury which the Nazis have vented upon Jews and radicals in Germany." One who has observed the Nazi workings intimately, and who recognizes it as one of the world's most straight-laced dictatorships, says the Hitler ousting of Jews was due principally to a desire to increase employment of unemployed Nazis. Thank heavens, American employment is not being increased in any such manner.

**If You Know a Better Road—**

From Collier's  
The honeymoon days of the NRA are over. Harsh and angered words are heard. The routine irritations of living burst out into controversy.

Confused minds question the desirability of keeping the Blue Eagle as the symbol of our national industrial recovery.  
The NRA is not a sacred cow. Like other public efforts it is subject to criticism. If it turned out in experience and application to be a poor and useless scheme, it ought to be abandoned and it would be abandoned.

Unless we go completely crazy, however, the NRA won't be dropped by this Congress or any Congress in the near future. Certainly the NRA will not be abandoned until something fairer and more practicable has been invented to take its place. So far no one has suggested a better substitute.

Forget for the moment the petty difficulties which the NRA has produced. Consider the broad purposes it was designed to serve. Measure its accomplishments and its failures. Thus we may get a just and reasonable picture of its place in our lives.

President Roosevelt described the purposes of the NRA in his message to Congress on May 17th last. These went to stimulate re-employment, to increase purchasing power and to prevent unfair competition and disastrous overproduction.

With these purposes surely no rational person can quarrel. Everybody will be benefited by re-employment. Everybody will be benefited by an increase in purchasing power. Ever reputable citizen certainly is against unfair competition. The purposes of the Recovery Act are thus obviously good and generally approved.

How, then, about the means provided in the law to accomplish these ends? They are simple enough. For the period of the emergency, Congress consented to suspend the anti-trust laws so that employers might combine to increase employment, enlarge the national purchasing power, and so hasten economic recovery.

The industrialist could have exemption from the anti-trust laws and protection against unfair competition if he agreed to cooperate with the National Recovery Administration.

Congress went one step further. It provided a licensing system for those employers who didn't sign codes. Not everybody is to be licensed. Licenses are designed only for the control of those stubborn fellows who, contrary to the public interest, persist in unfair competition. Licenses thus are a last resort after persuasion has failed.

Obviously there is nothing radical in all this. For long years conscientious employers have bewailed their impotence to correct glaring abuses because of the prohibitions of the anti-trust laws.

The Recovery Act makes possible these reforms so long demanded.  
(To be concluded next week.)

**EDITORIAL OF THE WEEK**

WE CAN'T BE AMUSED.

From all appearances "the morning after," anti-prohibitionists are going to get less fun out of repeal than prohibitionists. At least if dries can sit back and allow an irresponsible sense of humor full play with the comic material which legal liquor presents. For yesterday the worries passed to those who for 14 years have had so many laughs out of the efforts to enforce prohibition. Today the dilemmas are all wet.

The problem of how to prevent the new "temperance" going on a spree has already elicited from leading newspaper advocates of repeal vehement pleas to the public not to indulge in any orgy of celebration. Somehow they are very like the old appeals of the dries for observance of the law. Even prohibitionists who enjoy the show must hope the new exhortations will be effective. For somehow it is difficult to derive any unalloyed pleasure from the predicament of anti-prohibitionists who are now struggling with the problems their success has evoked.

Dries could get many a chuckle out of the solemn discussions of whether drinking is more of a social danger when the drinker is sitting or standing, the problem of getting revenue from liquor without encouraging bootlegging, the amusing quandary as to what constitutes an "honest speakery," the question of how to reconcile state sovereignty with a federal distillers' code, the debate over whether the new saloons should be called taverns or inns, attempts to keep politics out of licensing and liquor out of dry states—in short, the whole new crop of harassments which afflict those who would cope with the unrepented liquor problem.

It might be supposed that the Monitor, along with other dries, would sit back and enjoy this spectacle. In some ways it would be easy to look on from the sidelines and jeer at the worries of the wets. But we confess we do not possess either the necessary detachment or irresponsibility. For the problem is not a wet problem; it is an American problem, indeed a problem of humanity. And much as we might like to see the repealists get out of the predicament evoked by the repeal, we know that, however sincere, they cannot get the nation out of it without aid.

We can't be amused by the plight of the nation today; we can't avoid doing everything in our power to help overcome the enemy, which remains—today as under prohibition—liquor. In so far as repeal helps repealists to discover that enemy, we shall be encouraged. And wherever it leads them to fight that enemy they will find us fighting beside them.  
As the Monitor understands the problem, it is essentially one of getting at motives. On the side of demand, that means educating the drinker to the evils of drink and to the fact that it is not a natural appetite of men. We are ready, as we always have been, to aid every effort of this kind. On the side of supply, getting at the motive means removing profit from the making and selling of intoxicants. Prohibition attempted to do this, but today America has cast prohibition aside and is starting again to experiment with other means. We believe these means should be tested as open-mindedly as possible; we shall support all which promises to lessen effectively and practically the production and consumption of alcohol.—Christian Science Monitor.

"If your advertising appropriation isn't bringing in the results that your competitor's appropriation is, there must be a reason."

"Newspaper advertising is primarily for the purpose of creating in the minds of those who read the desire to own your merchandise. Only a limited number of things can be sold by merely naming the articles and the price."

"Attention to copy for your newspaper space pays real dividends upon which you do not need to pay the federal excise tax of five per centum."

"A good selling talk, plus good values, plus service will move goods from the shelves. The space you pay for in the newspaper is of little value unless your copy supplies the selling talk and you are ready to back it up with values and service."

"Newspaper advertising does pay and there is advertising because of that, fact."

Recently spent a few days in Memphis, Tennessee. While driving out Poplar Avenue one day, my attention was attracted by a rather unusual building, almost the entire front of which was glass. I stopped to look it over. On entering I found myself in a large reception room, the walls of which were covered with pictures of attractive children, beautiful young ladies, handsome matrons and distinguished men.

Introducing myself I was greeted by Mr. Walter Gray, the proprietor, who readily consented to show me over the establishment. After admiring the many beautiful photographs, especially those which were mounted on the Clark Plaks of rare woods, which is the newest and the most attractive way of preserving indefinitely your pictures and which are handled in Memphis exclusively by Gray Studio, we entered the camera room with its large plate glass skylight, where Mr. E. H. Cassidy, the artist, explained that all his pictures are made by sunlight, and that while there are artificial lights used by some studios, no light has ever been invented that equals sunlight for roundness and detail in the finished picture and that practically every photographer in America whose work has received recognition by the National Association, uses the natural light of the sun in making their negatives.

Passing through the dainty arranged dressing rooms we entered the work rooms, fully equipped with every modern apparatus for the production of artistic photographs.

Back of the studio in fireproof houses, Mr. Gray has his negatives filed, nearly a quarter million of them, all numbered and packed in boxes with a card index system that enables him in a few minutes to find any negative made during the 33 years the studio has been established. During these 33 years, Mr. Gray has made the pictures of the elite of the South and his negatives cover every phase of life of the leaders in the social, political and business life of the Southland. The ground on which the studio is built is historical, being part of the estate of the old Anti Bellum Brinkley home.

Governor Frank H. Cooney of Montana says:

"Stopping to think is not nearly so important as what you do with your thinker when you stop to think."

"If you devote the stop to thinking of the difficulties and the dangers that may lie just around the corner, they may loom so large in your imagination that your spirit may be daunted before you set out."

"If you devote the stop to looking back and calculating the defeats you have suffered in life's battles, then you may be discouraged and tempted to ask yourself 'What's the use?'"

"But if you devote the stop to thinking of the tussles you have had with Old Man Circumstances in which you have come off victor despite all your handicaps, and the occasions on which you won over mishap, discouragement and misfortune, then you are likely to be emboldened to take a firmer grip on yourself and a new hold on the problems that are to come, so that when you meet them you will be endowed with a courage and a strength that must triumph."  
"When you stop to think, think right!"

HEALTH NEWS

From Dr. John W. Brown, State Health Officer

Taking Stock for 1934. At the close of the old year and looking forward to 1934, Dr. John W. Brown, state health officer, reminds Texas that this is inventory time and that it is quite as important to "take stock" of one's physical assets and liabilities as it is of one's financial resources.

"One of the best ways to do this is for each person to go to his or her doctor, at regular intervals, for a thorough medical inspection of the human machine. If a weak spot has developed in some part of the system, very often the doctor can advise as to ways by which the encroaching weakness or disease can be checked. This will help in prolonging life for healthy usefulness.

Standardized Products Pay. A profit of \$218 from sale of standardized canned products is reported by Mrs. W. E. Miller of Floydada, who is a member of Lake Side Home Demonstration Club in Hale County.

Methodist Church

S. H. Young, Pastor.

Last Sunday night was Young People's Night at the Methodist Church. The young people had charge of the singing and the pastor brought a message on Christian Education, at the conclusion of which an offering was made to a students loan fund the young people of the conference have raised. It now amounts to a little over \$12,000, and is to be loaned to worthy students.

The local church board of Christian education met Monday evening in its regular monthly meeting, with O. P. Thrane as chairman. Every member was present, save one. Among the plans for this year it was agreed that the board would sponsor a course on the Spiritual Movement in the Methodist Church, in keeping with the church-wide plan to celebrate this year of the two hundredth year of Methodism.

The pastor and O. P. Thrane attended a district set-up meeting at Sweetwater last week and standard training schools were arranged for the district. The one for Snyder church is set for January 23 to February 2, with Rev. W. B. Hamilton, secretary of the Conference Board of Christian Education, Rev. C. A. Bickley, pastor at Big Spring, and former presiding elder of the Lubbock district, and Mrs. John E. Eldridge as instructors.

We are glad to announce that we have reached our quota of subscriptions to the Southwestern Advocate, and they are still coming in.

Now that Christmas activities are over and we face a new year may we offer and all take up our Christian duties with renewed zeal, and make this a profitable year to the religious life of ourselves and our neighbors.

Come to church and Sunday School next Sunday.

Dials of Feed Saved.

The dials of rent feed brought in to Webb Farms in Pecos County have been put into trench silos this year and fed to cattle. Formerly these small amounts of feed were seldom used.

Pullets Lay 50 Per Cent Rate. "I would have had no cash income this winter if I had not followed extension service methods in growing my early spring pullets," declared Mrs. J. H. Calhoun of Oakland section, Colorado County. Her 130 pullets were laying at a 50 per cent rate in November.

Pit Toilets to be Constructed. One sanitary pit toilet is to be constructed this winter as a demonstration in each of 21 Denton County communities having home demonstration clubs.

Miss Mary Ellen Davidson honored Mrs. D. G. Dabbs and Mrs. J. C. Fields, recent brides, with a miscellaneous shower at the home of her parents, Mr. and Mrs. W. C. Davidson, Friday afternoon. The honorees received many useful and lovely gifts. Refreshments consisting of sandwiches and chocolate were served to the following: Mmes. Marion Dabbs and Mother Dabbs of Lloyd Mountain, Luther Morrow, David Williams of Hobbs, Snooks Hargroves of Rotan, J. L. Fields, W. H. Talley, W. C. Davidson and Whitcomb Simpson, and Misses Mary Alice Simpson, Grace Talley, Marguerite Fields and the honorees.

Miss Jewell Morrow became the bride of D. G. Dabbs of Lloyd Mountain on December 22. The couple was married by Rev. O. D. Dial in his home in Snyder. The bride wore white crepe with accessories in beige. She is the daughter of Mr. and Mrs. Luther Morrow of this place. The groom is from the Lloyd Mountain community and is favorably known among the young set of this community. They will make their home in the Lloyd Mountain community. Their many friends wish them much happiness.

Mrs. Hazel Fambro and J. C. Fields were married in Sweetwater, Sunday afternoon, December 31. The bride was attractively dressed in blue with matching accessories. She is the daughter of Mr. and Mrs. Tom Fambro of this place. She attended school at Hobbs the past two years. J. C. is the son of Mr. and Mrs. J. L. Fields, and was a member of the graduating class of Hobbs High School in 1933. This popular couple will make their home in this community on the Jones farm east of Camp Springs.

Mrs. Alice Burnett with her son, Prentice Merrill and wife, are settled for another year on their farm east of Camp Springs. Mr. and Mrs. Burnett should also be mentioned among the newlyweds. They were married recently in Turkey, where the groom finished high school with the mid-term graduating class. The bride has not met or learned who the bride was before her marriage. The groom is a Camp Springs boy, although he has not lived here for several years. He and his mother have been with his father and family of Turkey. They are glad to have the old Burnetts back with us, and also extend a welcome to the new Mrs. Burnett.

We are sorry to hear that Miss Lena Hamon of the Times family is in the Emergency Hospital. We hope for her a speedy recovery, and in the meantime I'm sure that her home community as well as we others are going to miss her letter to The Times.

We understand that Mr. and Mrs. David Williams of the Hobbs community are to move to their new home south of Camp Springs this week or the early part of next week. To say that everyone enjoyed the dedication services at the Methodist Church Sunday is expressing it mildly. Presiding Elder C. A. Long of Sweetwater brought the dedicational address Sunday morning. His text was Isaiah 40:31. After this a beautiful lunch was enjoyed by a large crowd. At 2:30 Rev. Long gave another sermon that was very inspiring. Rev. and Mrs. Grady Anderson, the pastor and his wife, were honored with many useful and beautiful gifts by the members of the church.

Bro. Cecil Rhodes of Pleasant Hill will preach at the Baptist Church next Sunday morning and night. He is a young preacher. Come out to hear him, and bring someone with you. There will also be a Sunday School revival on Sunday morning, at which time talks will be made by each teacher or by a member of their class. You are invited to come to Sunday School.

We were made sad last Tuesday night, December 26, when the message came of the death of Rev. C. A. Jones of Pook, who departed from this life at the age of 88 years. # CAMPUS BEAUTIFICATION HERE FEATURES NEW CWA PROJECTS

### Changing of Creek Bed and Building of New Road Headline Double School Program.

One of the most elaborate and far reaching CWA projects being carried forward in this county is rapidly taking form on the local school campus.

When completed the city will witness a complete transformation of the west side of the campus and of the flower and shrub beds surrounding the double buildings.

To begin with, the bed of Dry Creek is being diverted from its winding path to make a beeline between 26th Street and 28th Street. The old bed will be filled with debris and dirt. All the school's property will thus be on the east side of the creek.

Twenty-seventh Street, which has been plugged by the school grounds for two blocks, will be carried on through the new campus. It will cross a new bridge over the newly-channeled creek, take a wide, gentle curve to the south, and veer into 28th Street just west of the rock wall built through the campus last year.

The opened street will be gravelled and otherwise improved to provide students and patrons easy access to the school grounds. Since it will come near the southwest corner of the buildings, it will allow parents to stop to deliver or call for their children without the traffic jam that often occurs on the narrow street east of the campus.

Parking spaces for students and faculty members who leave their cars during the day, and for visitors, will be provided to the north of the new street, abutting the rock wall. The playground adjoining 26th Street will be enlarged by diverting the creek bed, while the portion of the school-owned property adjoining 28th Street, useless in the past, will be used for an older boy's ball grounds.

C. Wedgworth, superintendent, who has been the leader in planning the extensive improvement program in cooperation with Joe Monroe, CWA administrator, announced that a supplementary project is to begin today. It will call for building of a 15-inch scalloped rock wall around all the flower and shrub beds next to the school buildings. The low picket fence built several years ago must be replaced if the beds are to be protected. Plants killed by last year's freezes will be replaced with new ones.

Even in its early stages, the double project is promising radical beautification and modernization for Snyder's once-drag school grounds.

The higher men climb the longer their working day. And any young man with a streak of idleness in him may better make up his mind at the beginning that mediocrity will be his lot. Without immense sustained effort, he will not climb high. And even though fortune or chance were to lift him high he would not stay there. For to keep at the top is harder almost than to get there. There are no office hours for leaders.—Cardinal Gibbons.

Increased business for the Southwest Tablet Company of Dallas, has compelled the company to build an addition to its present floor space. The company makes tablets, school stationery and supplies.

A concrete instance of recovery under NIRA (the National Industrial Recovery Act) is noted in Iowa. Because of the similarity in names, Nira, a "lost town" of 20 inhabitants in Washington County, has been "found" by the newspaper man.

"People are crying that the depression is terrible, that they cannot get as much to eat as formerly. I believe that if they will just grasp opportunity by the horns and put forth every effort, there is no reason for their pantry shelves to be empty, their children crying for food, and their husbands out of sort." So speaks Mrs. O. C. Barlow, a Kaufman County farm wife who has 984 quarts of fruits, vegetables and meats on her pantry shelves as a result of her work as a home demonstration club 4-H pantry demonstrator at Prairieville.

Making sorghum syrup for sale proved profitable for Ben Hubbert, who ran the only syrup mill in Scurry County this year. From three irrigated acres he made 625 gallons, which sold readily at 60 cents per gallon. It was his first year and the overhead was high, but in the long run it will be a good proposition, the county agent says.

## Surplus Products of Farm To Be Fed To Unemployed Group

The newly formed Federal Surplus Relief Corporation will start with a capital of \$250,000,000, supplied by processing taxes collected from processors of farm products, and will be what the name implies.

Food will be bought through the Agricultural Adjustment Administration, which has a definite check on the quantities of surplus stocks in every section, and will not create shortages, such as could not be avoided in the rush of buying in war time. Distribution will be made through the emergency relief organization, which is equally familiar with transportation costs.

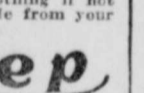

It will be food which otherwise would go to waste through lack of markets.

### Foundation Patterns Help.

With the aid of foundation patterns which are a short cut to good fit and economical dressmaking, Mrs. J. O. Jackson, home demonstration club woman of Swan, in Smith County, last year made 17 dresses and undergarments for herself and 12 dresses for other women. She also helped 29 other women make foundation patterns.

## Mushy Weather Slows CWA Work, But Hundreds Continue on U. S. Payroll

Although mushy weather put a temporary crimp in this county's CWA payroll last week, the payroll for the week ending December 23 was \$5,755.17, paid out to 811 men and for use of 189 teams.

The Times is indebted to George Brown, bookkeeper in the local CWA office, for compiling these and other figures relative to the several government-paid projects, and to Joe Monroe, county administrator, and other members of the office force, for their cooperation in presenting CWA facts of interest to Times readers.

Last Saturday's payroll, while slightly less than that of the previous week, represents one of the county's largest payoffs for any similar period in its history.

Since the CWA work began in earnest during late November, the payroll in Scurry County has reached a grand total of \$18,616.98, and far more than 1,000 persons have been employed.

With good working weather most of the week, the latest payroll is expected to reach slightly higher than last week's.

A traveler in any part of the county will find roads being surfaced and otherwise improved. The cemetery road, especially, is being given a deep coat of gravel. The courthouse painting job is nearing its final stages. In Snyder, many blocks of streets have been remarkably benefitted, and the work goes on. An article concerning the new school campus project here will be found in another column of this issue.

## Santa Fe Thinks Stockmen Entering New Year With Fair Degree of Hope

"Stock is in good flesh considering the difficulties the industry has undergone, and stockmen are starting the new year with a fair degree of hope for successful operation."

That sentence from the Santa Fe Railway's monthly report on agricultural and livestock conditions in the states its lines traverse just about represents the Scurry County situation.

Other sidelights on the livestock, cotton, feed and turkey situation are given in the December report, as follows:

Grass pastures generally have been closely grazed, and the feed value of most of them is going downward. Some sections are shipping feed in for stock needs, and others are shipping stock out to localities where feed is plentiful; but generally the various livestock areas will be able to take care of their respective needs. Wheat pasturage ranges from poor to good.

Shortage of Water.

Shortage of water is reported in many sections. Creeks, wells and springs from which thousands of heads of livestock have drunk their fill for a generation are dry, and in many instances stockmen have been at their wits' end to meet this emergency. However, no deaths from thirst have been reported, and the situation in dry areas has been improved by light rains in the last few weeks.

By Vance M. Rucker, extension marketing specialist, Kansas State College of Agriculture.

"With the heavy run of heavy fat steers apparently well over, due primarily to a flood of hold-overs from the summer market, some improvement should be in sight for the fat cattle market in January. This assertion applies to the good quality light cattle, and some of the good heavy kinds stand a fair chance of an improved market after the holidays. The in-between kinds of short-fed cattle likely are to remain plentiful for some time. There are a good many crop-fed cattle being held for the January market, but with the heavier kinds of medium to good quality out of the way, the lighter kinds of quality will advance in price."

The turkey movement to market is the highest obtained in 20 years or longer.

A crop of cotton from fair to excellent has been harvested in all states growing that commodity, and much of it has been marketed. The per unit cotton production in Texas at Christmas time was about normal, and prices, although considered low, were sufficient to give raisers returns more or less satisfactory. The poultry industry generally did better in 1933 than it did in 1932, attributable to the fact that it is better organized from year to year, and, therefore, better managed.

Corn, grain sorghums, hay and other feed crops have made from fair to good yields. Winter has come to the corn belt, and little preparation for spring crops will be made before March.

By crop rotation and plowing under two crops of peas Bill Humberg of Frio County increased his corn crop this year from 13 bushels per acre to 40 bushels per acre.
