NUMBER 34

COUNTY GIVEN HEALTH WORK THROUGH CWA

M. K. Maples Made Supervisor of Project Designed to Promote Sanitation.

One of the latest CWA projects in Scurry County will prove to be one of the most beneficial, in the opinion of relief workers here. With M. K. Maples in charge, a county-wide health program is being launched, with sanitation as its immediate aim.

The new health supervisor states that work has already begun on construction of pit toilets, with materials furnished by owners and all labor furnished by the CWA. These sanitary devices are being constructed according to approved specifications.

Rodents Will Be Killed In Latest Work By CWA

War against prairie dogs, cows, rats and other rodents has been declared by the CWA. These animals are being exterminated by the government relief agency in a plan calling for destruction of rodents, especially prairie dogs, by use of poison.

Young Mother Dies At Colorado; Rites Held Camp Springs

Mrs. Alver Jones, 17, of the Camp Springs community, died Thursday last week in the Root Hospital, Colorado. Final rites were held at Methodist Church, Camp Springs, Friday, and burial was in the cemetery there. Rev. Philip C. McGahey officiated, and the Odum Funeral Home was in charge.

Build Up Health and Pains Go Away

WOMEN who suffer from weak-ness often have many aches and pains which a stronger state of health would prevent.

Women in this condition should take Careful, a purely vegetable tonic that has been in use for over 50 years. Take Careful to improve the general tone of the system in cases of run-down health and "tired nerves." Women have found, in such cases, that Careful helps them to overcome pains and makes the monthly periods easier. CAREFUL is safe and wholesome for women of all ages. Try it!

CHARME DRY CLIMATE COSMETICS

For the first time ladies living in Snyder will have an opportunity to buy this remarkable new Cosmetic.

For the past four years a group of Chemistry Professors, using Lubbock, Texas, as their headquarters, have been working to perfect a cosmetic that would be suited to the dry-aired climate of West Texas.

Charme Cosmetic is the only cosmetic made to fit the needs of women living in our climate. Ask to see our complete line.

Westfall Presents His Candidacy For Legislature Place

To the Voters of the 118th District:

I have decided to make the race for State Representative from this district. To those who do not know I will say I am now serving my second term as County Judge of Stonewall County where I have spent the most of my life, and lived in West Texas all my life, and know first hand the adversities that we common to pioneers of this western country in the early days. Serving as county judge has given me a better understanding of the needs of counties, and the people in general, and would be of great benefit to me in representing this part of the State in the legislature.

While I do not claim any unusual ability, but if elected I will go to the legislature with a definite purpose to accomplish something worthwhile in this desperate situation confronting the taxpayers and the general welfare of the State. I am of the opinion that grave problems will face the next legislature, which will require drastic changes in our County and State governments. This will call for men who will without fear or favor vote for the best interest of the common people.

During my campaign I will discuss all the leading issues before the voters and give my views on the merits or demerits on each one and will plainly state my stand on any proposed legislation. I will frankly say that though I appreciate the purpose but seriously doubt the wisdom of some legislation passed by the recent legislature, and will strongly advocate the repeal of some laws placed on the statutes, that to my way of thinking is detrimental to good government. I will tell what laws I have reference to later in the campaign.

I do not intend to burden you with a lengthy platform, neither do I wish to take a narrow view of the situation, but will try to be broad minded enough to look at all sides of any issue that may come before the legislature and after considering it from all angles will pursue the course that to my mind is for the best interest of the taxpayers and the State as a whole.

I am convinced that a new day is dawning for Departments of government of this State and the Counties included. It is essential that we keep step with our National government and do our part in giving the people a new deal in eliminating all the unnecessary bureaus and commissions possible and so rearrange our governmental structure to take out any lost motion and practice rigid economy for the sake of the future tranquility of our State and the people. And let me say that we should not only have a new deal at the hands of the legislature of Texas but it is time for a square deal. The time has come to remember (the forgotten man) the taxpayer of the cities, counties and state that is groaning under the load that they cannot much longer endure. To remedy this desperate condition of property taxpayers will be the foremost aim of my administration if elected to serve in the State legislature, and I will unhesitatingly pledge myself to this end with all my ability and every ounce of energy that I possess.

During the campaign I will try to see as many of you as possible, and will try to convince you of my sincerity in working for the rights of the common people if elected to the legislature, and if you should see fit to send me to the legislature to represent this district, I will try to conduct myself in a way that will be for the best interest of the people in my district and the entire State. I will give as reference my own record in the county where I have lived the most of my life and have served as County Judge for the past three years.

Faithfully yours,
Leonard Westfall.

George H. Mahon

This young attorney of the 32nd judicial district for four consecutive terms makes official announcement this week that he is a candidate for Congress from the new 19th district. He has resided in Mitchell County since 1908, when his family moved to the Valley View community, near the Scurry County line. He has more recently resided in Colorado. Now only 33 years of age, he has made an enviable record as district attorney. His detailed announcement will come later.

Herbert Brock Out For Commissioner's Position In No. 4

A citizen who moved into the Pylon community when he was 15 years of age—31 years ago—and who has resided there ever since, announces this week as a candidate for the Precinct No. 4 commissioner's place. He is H. E. (Herbert) Brock.

In making a statement to the voters of Precinct No. 4 Mr. Brock emphasizes the fact that he will "do the square thing" if he is elected to the responsible position. He promises to carry into the commissioner's office the same high principles and the same business judgment that he has displayed during his many years' residence among Scurry County people.

This is Mr. Brock's first announcement for public office, although he has served his community as school trustee. He has likewise seen extensive experience as a road foreman and he says "I guess I am old in the eyes of the first men in Scurry County to run a grader."

"I seek the support of voters in my precinct is earnestly solicited on the basis of my ability to render efficient and economical service," Mr. Brock states.

Frank Farmer Out For Superintendent Position in County

To the people of Scurry County: I am asking for your vote and influence at the coming Democratic primary for the office of county superintendent. At the expiration of this term I will have served for two years in this capacity. This and my 10 years' experience as a teacher I believe will aid me the better to serve you and the schools of this county.

It has been my constant aim to administer the duties of this office impartially, efficiently and as economically as possible. I think the schools should be operated for the best interest of the children and in such a way to get the greatest value for return for each dollar spent on them.

I have tried at all times to render the courteous, efficient service you have a right to expect of a public official, and if you see fit to give me the opportunity to continue doing so I will greatly appreciate it.

Sincerely yours,
Frank Farmer.

Johnnie Jenkins Is Again in Race For Precinct 1 Weigher

To the Voters of Precinct No. 1:

I have not forgotten the excellent support that I received in the 1932 election, and that memory prompts me to again come before you asking for the office of public weigher.

If I am elected, I promise one thing, and that is to make you a weigher of whom you will be proud. In the 1932 election, some of us were confused as to the boundaries of Precinct No. 1. In the weigher's race, this precinct includes all of the county with the exception of the Hermleigh and Fluvanna districts.

Your vote and influence will be sincerely appreciated.

J. T. (Johnnie) Jenkins.

Bill Taylor To Be In Sheriff's Race

Bill Taylor requests The Times to announce that he will be a candidate for sheriff in the July primary.

R. W. (Dick) Webb is the first candidate to throw his hat into the ring for the county attorneyship.

A resident of Scurry County for many years, "Dick" Webb is said to be personally acquainted with as many people as anyone in the county.

Mr. Webb served in the office here now seeks for two terms several years ago. He points the people of his home county to the record he made while in office, and also to his record as a private citizen.

"I seek the office solely on the basis of my ability to fill it capably and to uphold the law at any cost. If my fellow citizens see fit to honor me with this position again, I pledge them my undivided time and attention."

"The influence and active support of every citizen will be appreciated."

Forest Jones Asks Reelection To His Precinct Position

Forest Jones, commissioner of Precinct No. 1, announces this week that he is a candidate for re-election.

Friends who have watched him during his first tenure of office declare that he has been the kind of public servant that has been needed—hard working, conscientious and economical.

"I wish to express my appreciation for the honor of serving you as commissioner during the past year," the official says in making his announcement. "I have made mistakes, but assure you that I have tried to be fair to all, honest and economical in handling the county's affairs."

"In asking for the honor of a second term I promise that again I will look to your interests first and always. In announcing my candidacy for commissioner of Precinct No. 1, subject to the July primary, I wish to say that your vote and influence will be greatly appreciated."

County Clerk Asks Support of Voters In Reelection Run

To the Voters of Scurry County:

In announcing my candidacy for re-election to the office of county clerk of Scurry County I ask for your vote and support at the Democratic primary, July 28, 1934.

I am now serving my first term in this office and I am fully aware of the great responsibility of this office; our county, as well as state and nation never needed serious, real thinking, industrious officers as it does now in this period of readjustment and stress.

No person could be more deeply grateful for the confidence and esteem of a people than I am of yours. Courtesy, painstaking and untiring service for the people of this county shall dominate my whole policy at all times.

I feel that in a great measure you know what my services have been, and should I again be entrusted with the responsibilities of this office I pledge my untiring service in the future as I have rendered in the past.

Respectfully and earnestly asking for your consideration, influence and vote, I am,

Sincerely,
Mattie B. Trimble.

Bill Wilson Comes Out This Week For Local Marshal Job

Throwing his hat into the city marshal-tax collector job this week, W. I. (Bill) Wilson solicits the careful consideration of Snyder voters.

For six years Mr. Wilson has been the city sanitary officer. His duties in this connection have given him intimate contact with the marshal's office. His friends feel that he will put his best into any position to which he is entrusted. He likewise has served on several occasions as relief night watchman.

He has lived in Snyder for 10 years, and has been a resident of Scurry County for 28 years.

"I am trying to work up to a better job in the interest of the people," Mr. Wilson stated early this week. "If the citizens see fit to honor me with this responsible place, I pledge my wholehearted efforts in making them a courteous and efficient official. I shall appreciate your influence and active support."

Warren Dodson Not To Ask Reelection As County Attorney

In a formal statement to The Times this week Warren Dodson lets it be known that he is not a candidate for re-election to the county attorney's office.

His statement follows:
"I wish to thank the people of Scurry County for the kindnesses shown me and the cooperation given me as county attorney. I have enjoyed the work very much, but feel that I have held the position long enough, and therefore I will not be a candidate for re-election."

"I request your continued cooperation during the remainder of my term of office."

The honeymoon is over when she serves him hot tongue and cold shoulder.

precipitate your influence and active support."

Tom DeShazo Comes Out This Week For Marshal-Collector

The city marshal-collector race was further enlivened this week by the entrance of T. J. (Tom) DeShazo.

Friends of the candidate have urged him so strongly to make the race, he states in making his announcement, that he has decided to throw his hat into the ring.

Mr. DeShazo asks The Times to say that he is making the race on his own merits and that he solicits support only on the basis of the service he can render Snyder citizens.

"I feel that I am qualified for the place, and I take this means of thanking you in advance for your support," is his words to local voters. "I will try to see all of you before the third of April."

Dick Henderson In Running as Public Weigher Candidate

C. B. (Dick) Henderson is this week making official announcement as a candidate for the public weigher's job in Precinct No. 1.

Born and reared in this county, Mr. Henderson feels that he is well qualified by experience and ability for the job he is seeking. He is 39 years of age, and has resided here all his life except during his period of service in the World War. He has never before sought public office.

"I admit my ignorance of politics," the candidate says, "but I believe I know how to be a servant of the people. As I see it, the chief qualifications of this office are courtesy, honesty and efficiency. If my present friends, and the new ones I make from day to day, see fit to put me in the position, I promise to serve them to the best of my ability."

"How long were you away on your wedding tour?"
"Too long. It developed into a lecture tour."

THE WEEKLY DOZEN

Backing Away From the Front.
Talkative Tillie remembers 'way back yonder when the young bloods sat on the back pews at church because they were too timid to sit near the front.

These Changing Times.
Paper clips are said to be the latest rage in ornaments for women's dresses. How times do change! Only yesterday every flapper told the boy friend: "Clips don't go."

The All-Purpose Pad.
Pessimism Pete is certain that the new shoulder pads so prevalent in women's outer wear were created as a depression emergency. Now the jobless males of the species have something solid to weep on. The original idea that the pads resembled wings has failed to withstand the onslaught of midnight parking parties.

The German-Long-System
Whatever you may say for Hitler and Long, they have sure-fire election methods. You don't exactly have to vote for their hand-picked candidates, but there just isn't anyone else to vote for. If you, as a voter, desire to write a name on the ballot, your ballot will probably be thrown out . . . and you may get some of the same.

Few Fires in 1933.
One of the brightest feathers in Snyder's 1933 cap was the low fire record. For more than six months during the year the fire boys did not use the large water hose, and there was only one blaze of major consequence. While the fire boys and diligent city officials deserve plenty of credit for the record, it is to careful citizens that the chief laurels belong.

A Tribute to Life Insurance.
It is doubtful that any other business approached the usefulness and growth of life insurance during the height of the depression. Many families that struggled to keep premiums paid were rewarded with fat checks when disaster or death came. We cannot recall having seen a single public indictment of life insurance officials, despite the popular attacks on "higher-ups" of all kinds during 1933.

The Faith Political.
Most voters seem to have an unerring faith in the men for whom they vote. A reprobate of any caliber can come out for office on a blow-hard platform, and he will probably be elected. The sins of the past are apparently forgotten in the glow of promises for the future. The Dallas Dispatch went so far recently as to say that the head of Texas' penitentiary system had proven himself too fine a man to be degraded by a gubernatorial race.

Car Words for Your Vocabulary.
The automobile industry is adding dozens of new words to the national vocabulary. Words that meant nothing to the lay mind a dozen months ago are street-talk now. Witness: Stream-lined, knee-action, and many others. The industry has started a "Believe It or Not" column of its own, too. Lean back and read a newspaper while the new marvel makes dirt roads at 80 miles an hour! And so on, far into the pocketbook.

Improving Bank Statements.
Bank statements of December 31 indicate that deposits have increased and loans decreased in practically all parts of West Texas. Bankers and the public alike—and NRA and Mother Nature—are to be congratulated. Now if those frozen loans would loosen up, when ironclad collateral is offered, Mr. Public would regain his old-fashioned attitude toward banking houses. Snyder's bank, in particular, deserves the handshake of every man in the county. It has proven stable, efficient and cooperative through the entire season of depression.

1934 Tips for Drivers.
Hell-bent automobile drivers are herewith given some suggestions for 1934: Never slow down at a dangerous corner, especially if you are trying to beat a careful driver to the draw; when you strike a pedestrian, never let him off with anything less than two broken limbs and a wrecked car; never slow down when you near school playgrounds, for the very child you hit might grow up to be a gangster; never cross a public thoroughfare until you attain a speed of at least 35 miles an hour—to do so may put you in the class with those who have brains and use them.

More Living at Home.
The year just closed was remarkable in Scurry County for the fact that living at home became more practiced than at any time in recent years. More chickens were raised. Turkeys slumped a bit in quantity but picked up in quality. More fresh

Meet Our Public Servant No. 1

Among the 14 political announcements that appeared in The Times last week was that of Dr. H. G. Towle. His friends are running him for mayor again.

It cannot be said of many candidates that their friends are "running them." Most of them are running themselves. Their friends are supporting them, but not running them.

Whatever may be said of the merits of the other candidates, they cannot measure up to the high peak of public service reached by Dr. H. G. Towle. He is in every sense of the word Snyder's and Scurry County's public servant No. 1.

Most candidates are in the race for a mixture of reasons—salary, fees, vainglory, business building, and a real desire for public service. For Mayor Towle there is only one reason—public service.

The mayor's office holds no salary attraction. Of all offices in the gift of city and county voters, it is designed to attract more criticism and less praise. Yet Dr. Towle has permitted himself to be announced year after year. He has felt that Snyder and Scurry County needed fearless municipal planning—and he has given it, let the chips fall where they may.

It is needless to relate the many municipal improvements brought about by Mayor Towle, backed by a staunch City Council and a cooperative citizenship. But it should be noted here that the city of Snyder is one of the few governmental units in West Texas that pays all its bills in cash. The sledding has been hard, and pressure has been brought to bear from many angles that would obligate the city to veer from its cash policy. The mayor and his co-workers have not budged.

The custom of finding fault with public officials, especially those who have no axes to grind, should certainly be forgotten in the case of Mayor Howard G. Towle of Snyder. And it is forgotten by the vast majority of local citizens. Faith has been outspoken in Dr. Towle's unanimous choice in election after election.

Dr. Towle's accomplishments for this section of West Texas have not been of the ballyhoo variety. They have been based on leadership and personal sacrifice, not on red-eyed propaganda and factionalism.

Re-announcement of Dr. Towle for mayor of Snyder was a re-signal for Snyder's municipal progress.

If You Know a Better Road—

(Concluded from last week.)
From Collier's
Nobody who surveys the field without prejudice can doubt that the NRA has accomplished highly desirable results.

It was guessed that 12,000,000 workers were unemployed last March. Of these possibly 3,000,000 were out of work because of the so-called normal changes of industry. In 1929 at least as many were out of work. So about 9,000,000 was the number whose unemployment last March might be fairly attributed to the depression. Of this number certainly a third has been reemployed.

More than that, all the indices show a very considerable increase in the wages paid. Purchasing power has actually been greatly increased. Of course we did not turn in one step from the depths to the heights, but that we are on the highroad to recovery few informed people doubt.

Of course many individuals and groups have tried to gain unfair and selfish advantages from the New Deal in industry. Some employers have been "chisellers" and some labor organizations have made unscrupulous use of the opportunities offered by the Recovery Act.

Some now say that, having turned the balky engine over and got it going, the NRA is no longer needed. Consider that view for a moment. Suppose Congress were willing to repeal the Recovery Act, what would be put in its place?

Certainly the anti-trust laws would stand unrepaid and unimpaired. Does any thoughtful manufacturer or merchant want that? Is anarchy in business so pleasant and so profitable that cutthroat competition must be restored? Obviously not.

Furthermore, the temper of this country is not reactionary or even highly conservative. If the Recovery Act were repealed, something stronger would be substituted. Look at the lunatic suggestions for inflation which have backing in Congress. A Congress which listened to Oklahoma's Elmer Thomas or Louisiana's Huey Long would draw up a pretty law for the regulation of our business life!

The Recovery Act is not perfect and its administration, according to the frank confession of so good a witness as General Johnson, has not been flawless. The man who makes no errors, however, is dead.

The law can be improved and with luck it will be when Congress assembles. It won't be bettered, anyway, by any attempt to destroy it. The fact is that the Recovery Act was a belated attempt to do swiftly in the midst of a tremendous emergency what should have been quietly undertaken and accomplished long years ago. It can profitably be amended by its friends, but it won't be amended by its enemies.

Women buy more than 80 per cent of all retail goods sold.

Good government is the product of a well informed citizenship.

Every player in the game of life holds a winning hand at some stage.

We are sending a quarter of a million men into the woods to get them out of the woods.

Fourteen million farmers raise the basic commodities covered by the new law.

A half-million farmers lost their status as landowners in the last three years.

Work is resting in smokehouses and other storage places than at any time since the real depression began. The new year should offer an even greater increase in home produce of all varieties. Indeed, the depression should teach us some lessons in living at home. Prosperity made living at home little more than a ballyhoo movement fostered by overzealous chambers of commerce.

A Money Making Scheme.
The Times is considering plans to open a candidate-tutoring school if business slows down during the early months of 1934. If the school materializes, you may expect these to be some of the lessons taught: 1. When to kiss babies, and how old the babies shouldn't be; 2. How to solicit the vote of a man you have been owing for five years (we haven't figured out the answer to that one yet); 3. How to memorize all the political platitudes in one night-mare; 4. He who lies not, is not elected; 5. How far to go in trying to obtain the vote of a jealous husband's wife. We are anticipating 100 per cent enrollment of Scurry County candidates.

JEVER STOP TO THINK?

BY EDSON R. WAITE

Bruce B. Brewer, vice-president of the Perry-Hanly Advertising Co., says:

That buyers today want facts. What article have you bought recently without thinking it over quite a bit? That means you, and everyone else, will read more about some article in which you may be, or can be, interested.

In the newspaper you have these facts logically presented to you. You can linger on a certain point of advantage; you can read it again; you have the evidence there on which to base your decision.

News is "hotter" today. Things are changing rapidly. We wonder what is happening now, and what might happen next. So we keep in touch with today's events through the newspaper.

"Hot news" keeps people reading newspapers. They read the papers, too, for the "hot news" about products or services they need. If the facts are there—enough facts and convincing facts—people will buy. And that, after all, is the purpose of advertising: To make the sale. The newspaper has a big advantage because it presents those facts so that the purchaser may think them over, study them again and again, as he makes his decision.

CURRENT COMMENT

By LEON GUINN

One hears quite a bit regarding the 1934 acreage plans for Southern cotton farmers, along with the many other recovery items. . . . We all know the farmers that obtained government loans during the '31-'33 period recently cut their acreage until further acreage slicing by them would be unfair to agriculture in general. . . . Mr. Wallace has, therefore, outlined a 5-year production sheet for farmers to plan fewer acres for this year. . . . Since this averages cotton production for consecutive years it is clearly more constructive than a cut from last year's acreage. . . . C. A. Cobb is the ramrod to obtain this data. . . . One understands some do not care to cut cotton acreage, because some are not signed on the familiar line. . . . That does make a difference! . . . Washington hints a new song this fall thus: Plant and harvest it; we plan to tax cotton produced under no acreage reduction 34 per cent (estimate). . . . Just planned however.

Social planning is a great thing. . . . Roosevelt aides are looking into the future when your boy and girl will be men and women; brain trustees evidently are planning for their welfare, hence many abstract ideas, and a few downright amusing. . . . For one thing this administration is concentrating the transients, very pleasing. . . . Treasury gold purchases are supposed to delve into the afterworld. . . . Of the debased dollar many do not care how wild the cockeyed thing skids, just so it is stably overhauled. . . . Brisbane and other writers with a yen for Socialism (in part) asserts we now need about 25,000,000 more peoples in America ("Texas, intensely cultivated, could feed the world's present population"). . . . The imported variety until now have settled more or less in industrial centers, and as most miners, steel and automobile employees have big families it creates a big problem. . . . In a few years social planners (No Socialists) think the average family will number about six. . . . Here's an idea for Mr. Roosevelt: The American boy and girl have reached the stage where their very heritage is threatened. . . . For in a few years they must farm about 50 acres to the family (average), and brain trustees should be advised just how much the average farmer can realize in cold cash farming 50 acres. . . . Today all houses are filled in the farming section and youngsters planning a marriage should be assured of a cozy home of their own. . . . That is their God-given heritage! . . . So the plan for 25,000,000 additions in America loses its glamour when considered for the rank and file of humanity. . . . Well, we have learned much the past three years; now Congress will teach us more.

County Chairman F. I. Townsend Secures Corruption and Inefficiency in Government.

Editors of The Times: Permit me, through the columns of your paper, to remind your readers of the fact that during 1934 the voters of Texas will elect a governor, lieutenant governor, a United States senator, and practically all other state officers.

Public Interest Low. One of the principal causes of ignorance and incompetence, as well as dishonest persons, being elected to public office is the failure of the voters to take an active, intelligent interest in public affairs.

For the "Dear People." All of those who are candidates for reelection will tell you that the wonderful work that they have done for the "dear people" and of their yearning to continue the good work.

The Democratic party is responsible for the administration of the state government at Austin, and also in Scurry County, because it nominated and elected the officers who are in charge of the affairs of Scurry County.

Pre-Election Pledges. Practically every candidate for public office in 1932 pledged themselves to reduce the expenses of the government—both state and county.

Who Is Responsible? Who is responsible for the more than two million dollar increase in the expenses of the state government in 1933, (not including the Highway Department's) as compared with 1932?

Legislature to Blame. The members of the present Legislature are equally culpable, for it followed the practice of ignoring and disregarding the mandate of the people.

Feathering Their Own Nests. And then we have the clerks' associations, the county judges' and commissioners' organizations, all striving to feather their official nests at the expense of the private citizens.

For Party Honesty. I believe in party honesty as well as personal honesty. Our trouble in Texas is not so much due to dishonesty, or corruption and graft, as it is to incompetency and inefficiency.

An Office Oligarchy. There has grown up in this country an idea that before a person can render public service that he or she has to become an office holder, and because of this idea we have established an office holder oligarchy.

MORE cotton but less money from it. Farmers know this, but heretofore there has been no method by which they could be assured of full cooperation by all growers all over the Belt in reducing acreage. The Agricultural Adjustment Administration offers such a method now, and the grower who will cooperate will be paid for his cooperation. As a result, the whole Cotton Belt will benefit, the surplus will be reduced, and the outlook for the future will be brightened. A study of this graph should naturally cause the farmer to pause before he produces cotton in excess of consumption requirement.

A Book or Two

Found in the Rental Library of Mrs. Mabel Y. German

"Life Begins at Forty"

In "Life Begins at Forty" Walter B. Pitkin opens new avenues of hope to those who dread middle age and who fear that life ends—practically—at forty.

"Life begins at forty for those who have something to live for and in and by. For the empty, it is a void. For the stupid, it is a stupidity. For the weak, it is a conscious death. But for the vigorous and the vivid it is the end of an overture and the beginning of still greater music."

"Grow old along with me," Mr. Pitkin advises us. How? In youth, by thorough mastery of household tasks, along with academic study and by thorough training in a means of livelihood most suited to one's desires and capacity.

That the book is inconsistent at points cannot be denied. Yet it is clearly and cleverly written, and it contains a wealth of stimulating, original, inspiring thoughts.

Snyder National Farm Loan Body In Tuesday Meet

At the regular annual stockholders' meeting of the Snyder National Farm Loan Association, held Tuesday, the following directors were re-elected: W. V. Jones, president; J. A. Merritt, vice president; Hugh Boren, secretary-treasurer; A. P. Gannaway, A. Johnson and W. B. Lemons.

Continued improvement of the farm loan situation in Scurry County was reflected in the annual report of the secretary-treasurer. He advised that many borrowers are paying advanced installments for 1934, whereas for the last year or two it has been necessary for the Federal Land Bank to grant extensions.

Another great advantage has been provided by the Federal Land Bank for its borrowers, says Mr. Boren. "The rate of interest on all loans has been reduced to 4 1/2 per cent for a period of five years. Additional aid may be taken advantage of, in that the principal payment may be deferred, where taxes and interest are not delinquent."

This Is the Month to Promote Your Home to Vented Heat

The inducement? A stock reduction of Payne Floor Furnace of Estate Heatrola floor models which offers the opportunity of installing "furnace-type" heat at a saving. They give more warmth than the older type equipment. Won't you investigate their advantages, and the savings?

No Wall Sweating—No Drafts

These units provide a continuous flow of warm air into all corners eliminating cold spots. Floor Furnace requires no room space. It is swung beneath floor. The flame of this unit never touches the air you breathe. Heatrolas come in smart cabinet models. Both are vented to eliminate wall sweating.

Either of these units quickly installed on terms that will fit your monthly budget.
