Change in Train Schedules Means Earlier Mailing

Beginning Sunday, May 20, mail for the north bound Santa Fe train will leave the post office at 11:15 a. m. instead of the old time of 12:00 o'clock. Mail for the south bound train will leave the post office at 2:00 p. m. instead of 3:00 p. m.

Mrs. Gladys M. Anderson, postmaster, points out that these new mailings are made because of a change in train schedules. North bound train No. 92, now arriving at 12:37 p. m., will arrive beginning Sunday at 11:43 a. m. South bound train No. 91, which arrives at 3:37 p. m., will come in beginning Sunday at 2:30 p. m.

All mail leaves the post office 30 minutes before train time, the postmaster points out.

Mail and passenger train patrons are urged by postal employees and by Fred Wolcott, local Santa Fe agent, to take note of these schedule changes, which are the first to be made here in several months.

Hobbs High Will Get Affiliation In Coming Year

The State Department of Education has advised Hobbs High School officials that the deputy state superintendent, Miss Sue B. Mann, who visited the school three days, has recommended that eight subjects be affiliated with existing material to Austin. Material in three other subjects will be sent to Austin and affiliation requested for them.

The deputy superintendent recommends affiliation for English I, II and III; history I; algebra I and II; economics and civics; English IV; advanced arithmetic and solid geometry. After another year it is hoped vocational agriculture will be added to the certified credit list.

The \$17,000 institution known as Hobbs High School is located four miles east of the Scurry County line and has an expansive campus, softened by trees and driveways. New laboratories and libraries have been added, and teachers meet the requirements for first class schools. The other two affiliated Fisher County schools are Retan and Roby. Hobbs personnel has done much to get state credits.

As progress goes Hobbs is climbing up several notches. The school board has authorized a relief project for pupils this summer to include chief cities and industries of Texas. One seaport and points of history value will be visited. The plans call for a like trip for seventh grade and high school pupils each year.

CHANGED ROAD ON HIGHWAY 83

A change in more than a mile of the Highway No. 83 routing at the east Scurry County line is being sought, according to Judge Robert H. Curmutte.

At Monday's session of the Commissioners' Court, it was voted that offers would be made for new right-of-way from the Fisher County line to the Guy E. Cossey home.

This new route would join directly on the dead-end of the new Fisher County road with a 100-foot right-of-way, practically eliminate the sharp turn in the road, and shorten the road about a half mile. The Akers and Casey places are involved in the new right-of-way.

COUNTY SEEKS LEGION OFFICE FOR L. STINSON

Delegates and Alternates Selected For Initial Session of New Congressional Area.

When the Will Layne Post delegation invades Lubbock Saturday and Sunday for the organization meeting of the American Legion's new 19th district, they will be seeking to install Lee T. Stinson of Snyder as assistant district commander.

Decision to back the local commander 100 per cent was made at the regular monthly gathering of the county post in the district court room Monday evening.

Letters have gone out to various posts of the new congressional district to let it be known that support of the local candidate will be sought and appreciated.

The local legionnaires named as their delegates: W. W. Hull, J. E. Shipp, C. Wedgeworth, Russ Tate, John E. Scintell and J. W. Rogers, Porter King, Warren Dodson, W. R. Lacey, Herman Hartley, Ben Wilson and J. E. LeMond, alternates.

Mrs. W. W. Hull Is Named as Auxiliary Delegate to Confab

Mrs. W. W. Hull was named delegate and Mrs. Jess Rogers as alternate to the 19th district American Legion convention, to be held at Lubbock May 26, at a regular meeting of the Will Layne Auxiliary Monday night. All other members who can attend have been urged to do so.

The auxiliary pledged 150 glasses of jelly to be used as a relief project for the rehabilitation program in the county. This jelly is to be made just as soon as fresh fruits are plentiful and inexpensive. "Here is an opportunity for all interested persons to contribute with their own hands to a great project; to aid in a nation-wide jelly-making contest; and to have their contributions distributed among the needy of the community," according to Mrs. Lee T. Stinson, auxiliary president.

The chief project of the auxiliary at this time is preparation for distribution of 250 poppies on Poppy Day, May 26.

Palace Remodeling Extends Into June

Decision of the Palace Theatre management to further improve the local showhouse has caused postponement of the opening date of the remodeled show until some time in June.

Latest improvements, in addition to lengthening of the building, include a new air-cooling system, ladies' and men's rest rooms. The front office is to be remodeled later, and the entire theatre is to be redecorated.

The two delegates were chosen recently at a meeting of the presbytery at Breckenridge.

Like other recent church gatherings, the assembly will probably be confronted by some of the most pertinent questions of spiritual, political and mental import that it has known in years, says Rev. Lambert.

Smaller Schools of County Are Closing

Although most of the smaller schools of the county will close in June, several of them are already closing their doors.

The Times requests that all community correspondents furnish complete school closing accounts at least a week in advance of closing exercises. Teachers in communities having no correspondents there are only two such communities in the county who will do their patrons and the paper a favor by making the reports.

Lion Odom Given Key, Plaque and Picture by Club

As a grand finale of the Lions Club program Tuesday at noon, Ralph Odom was given a Master Key, a gold-plated emblem on a mahogany plaque, and a free flashlight picture.

Lion Ralph earned the key and the plaque by bringing in 16 new members to the local Lions Club. The picture came as a distinct surprise at the close of presentation of the trophies by Director Abe Rogers and President J. C. Smyth.

More than 30 members were present for the meeting, despite the fact that a large number had gone to the West Texas Chamber of Commerce sessions at San Angelo. A feature of the program was a talk by D. P. Yoder, in which the Lion-churchman described the trip taken from Snyder to Jackson, Mississippi, and back again by way of New Orleans.

Several Scurry County cattlemen were involved in selling and buying of Herefords at the sale that climaxed Sweetwater's annual Hereford show Friday.

AAA PROGRAM COMMENDED IN AREA MEETING

West Texans Request Equitable Plan for Counties Affected By Special Conditions.

Representatives of 75 West Texas counties, gathered in a cotton session at Big Spring Friday, expressed full sympathy with the "purpose and intent of the Agricultural Administration program," but requested that the government consider cross-county ginnings, drought and other uncontrollable conditions before setting final quotas for many West Texas counties.

Judge Robert H. Curmutte of this county was chairman of the resolutions committee, which highly commended the West Texas Chamber of Commerce for its activities in behalf of this area's cotton growers.

Scurry County was represented at the meeting by Judge Curmutte, Joe Canon, W. J. Ely, O. P. Thrane and W. R. Lacey.

Committee at San Angelo

The Scurry County cotton committee, composed of O. P. Thrane, W. C. Hooks and H. P. Winters, attended the agricultural conference of the WTCC convention at San Angelo Tuesday along with Judge Curmutte, County Agent W. R. Lacey and W. J. Ely, local WTCC director. They heard George Adams, director in charge of the cotton program for the AAA in Texas, then had an hour's conference with him in regard to this county's claims for increased allotment under the Bankhead Law and the volunteer acreage reduction contracts.

The county agent talked by telephone with O. B. Martin, director of Extension Service at A. & M., in regard to raising Scurry's per-acre allotment of 91 pounds, and was told that careful consideration would be given local claims concerning cross-county ginnings and drought.

Practically all sign up. The agent reports this morning that practically all farmers have signed their contracts under the new allotment, and he urges those who have not turned in their contracts to do so immediately.

The resolution passed by the WTCC convention and addressed to the AAA is as follows: "Believing in the purposes and intent of the AAA program and being in complete sympathy and accord with the efforts being put

HOME TOWN TOPS 187 MEMBERS IN BACKING REGION PROJECTS

Auxiliary Ready For Poppy Sale Here on May 26

Poppies are blooming in Snyder today. They are to be seen by the hundreds at the poppy headquarters of the Snyder unit of the American Legion Auxiliary, where preparations are going forward for "Poppy Day," May 26.

The poppies are exact replicas in color of the famous French poppies which grew in such profusion on the World War battle fields in France and Belgium. They have been made by disabled World War veterans and will be worn on "Poppy Day" in tribute to the war dead.

The shipment of poppies, consisting of 250 of the little red flowers, arrived at auxiliary headquarters today from Legion, where disabled veterans unable to do other work have been given employment during the winter and spring making poppies. Each flower has been carefully shaped by hand to a very realistic likeness to the wild European poppy—the memorial flower of the World War.

At the auxiliary headquarters a corps of workers are counting the flowers and arranging them in baskets, ready to be taken out to the streets by the women who will distribute them on "Poppy Day." Contributions for the poppies will be used to support the relief and rehabilitation work carried out by the American Legion and Auxiliary for disabled veterans and needy children of veterans.

Commencement for Pyron High School Grads Wednesday

Commencement exercises were held last night for six Pyron High School seniors—three boys and three girls. Bro. O. D. Dial of Snyder delivered the class address.

After the recessional by Mrs. Grady Hamrick, the salutatory was delivered by Gaylen Cummings, the class sang, and Ethel McWhirter gave the valedictory. After the address by Bro. Dial, diplomas were awarded to the following graduates: George Ruth Pagan, Lora Light, Ethel McWhirter, Troy Bowen, Gaylen Cummings and Kenneth Patton.

Gaylen Cummings is class president, George Ruth Pagan is vice president, and Ethel McWhirter is secretary.

The grammar school program is to be given tonight (Thursday). The junior-senior picnic was held near Sweetwater Tuesday evening. Wednesday of last week was official "senior day," "senior in a Jam," senior play, was given late in April.

Superintendent Grady Hamrick reports that the senior class next year will probably be the largest in the school's history.

Car Owners Asked To Observe "Stop"

While a majority of Snyder citizens and others observe the "stop" signs in the business district, says J. A. Wofford, city marshal, a few persist in ignoring them.

"These signs are placed at busy intersections for protection of motorists and pedestrians," the marshal points out, "and I want to urge adult drivers to observe them to the letter, and parents to warn their children about the dangers of not even slowing up at the signs."

Zone Gathering for Automobile Dealers

A two-district gathering of automobile dealers was held at Big Spring Tuesday afternoon, with four Snyder men among the attendants. D. P. Yoder, local chairman, Earl Brown, H. H. Eiland and Porter King were in the local group.

Ellis Boyd of Fort Worth, chairman of the state advisory committee, told the large delegation of dealers that the automobile code was working more perfectly and equitably than any other code under the NRA, and that it was reflecting to the benefit of dealer and customer.

DISPLAYS FOR COTTON WEEK

Snyder merchants are featuring displays in which National Cotton Week, May 14-19, are predominant.

The most unique and attractive of local displays is probably being shown by J. H. Sears & Company. Mrs. Forest Sears is said to be responsible for a large map of the United States with the various states indicated with prints of various color combinations against a sheetrock background. "The Whole Country Goes Cotton" is the title above the map.

National Cotton Week was originated for the purpose of showing the nation the variable uses to which cotton may be put in wearing apparel.

Lead Part in San Angelo Gathering Taken by Director W. J. Ely and His Associates.

One of the highest honors in the gift of the West Texas Chamber of Commerce came to Snyder during the 16th annual convention of the regional organization at San Angelo this week.

Snyder outranked 186 other member towns as a participant in activities sponsored by the WTCC, it was announced Monday afternoon for the chamber's directorate.

With W. J. Ely as chairman, this city won the distinguished honor by participating in the Century of Progress exposition program, meeting its membership requirements, and having active committees on public works, beautification, public expenditures, and actor control.

Convention Activities. Nor did Snyder lag in convention activities.

Tuesday, styled "Snyder Day" by local Chamber of Commerce directors, found the county seat of Scurry represented at San Angelo by this group:

1. "Home Town" contest speaker, Geraldine Longbotham, and the speaker's sponsor, Miss Effie McLeod. Speaking Tuesday afternoon, Geraldine won wide applause from the audience, but was not given a final position by the judges.

2. West Texas poster entry, prepared by Mary Margaret Towle, which was given an honorable mention.

3. Speecher at the Rainbow Round-up, Miss Janice Erwin, who is said to have performed nobly at all showings of the "up-down" pigskin.

Tiger Band on Hand. The Tiger Band, 32 strong, which paraded acceptably and tooted its own horns in spite of the absence of its director, Clyde Rowe, who remained in Snyder because of his wife's illness.

Local WTCC Director W. J. Ely, local Chamber of Commerce president, Harrie Winston, and Secretary J. W. Scott. These leaders were instrumental in securing recognition because they led Snyder to such high honors in WTCC activities.

A delegation of between 75 and 100 persons, all told, on Tuesday and several Monday and Wednesday.

In its closing sessions Wednesday afternoon, the WTCC convention selected Plainview as its 1935 meeting place, elevated James D. Hambrick of Fort Worth to the 1934 presidency to succeed Walter D. Gline of Wichita Falls, and passed several resolutions with typical West Texas bars in their words.

State Relief Scored. The convention without a dissenting vote adopted a resolution calling for abandonment of present relief "methods" and organization machinery, after a spirited talk on the question by the president.

Among other important resolutions were: Continued support for education, especially the seven state-supported colleges of West Texas, and opposition of abandonment of any "stifling" present plan for the Texas Centennial, declaring proper observance can not be had under present arrangements; urging more speed at Washington in getting projects started under the PWA; endorsing a bill for federal control of oil; opposing a road building holiday.

The condition of the West Texas chamber was shown to be in excellent shape, with \$18,000 cash balance, all current bills paid, 27 more towns added to the organization, and many additional members. Snyder raised \$100 in membership fees for the year—\$25 above her quota.

Major 1934 Activities. Four major activities were outlined for the coming year:

1. An analysis of the agricultural possibilities of each county in the area.

2. An analysis of possibilities for successful operation of small industrial enterprises, having in mind the processing of West Texas raw materials and the employment of West Texas labor.

3. The encouragement of the settlement of undeveloped or partially developed farming areas on such a basis that a thrifty family can own a home and make a living.

New Businesses Sought. An analysis of the commercial needs and possibilities of towns and cities in order that new business enterprises may be obtained and over-crowding guarded against.

As San Angelo had good-bye to conventioners yesterday afternoon, convention officials declared the sessions to be the most worth while ever held by the largest regional organization on the face of the earth.

And Snyder, the city of little more than 3,000 souls that won the activity prize, declared that she was thankful for the forward-looking director and his helpers who helped "put her across" in a WTCC way.

New Roof for Home. A new roof has just been completed on the old Buchanan home in East Snyder. The chimneys have also been torn down to prove that the new era of gas is here. Mrs. Mattie B. Trimble states that the house has "feels" better since the new roof has been built over the occupants' heads.

Business Women Have Last Meeting

The Business and Professional Women's Club was entertained with its annual May Breakfast Tuesday morning at 7:00 o'clock at Mrs. Wilsford's Coffee Shop by Nancy Caton, Vera Miles, Kenneth Alexander and Allene Curry.

The hostesses greeted the guests at the door, and the sound of merry-making inside the cosy room invited them in, and with Daisy Smith at the piano a sing-song was had.

Carrie Gray offered thanks over the meal, and as the breakfast was being deftly served Ethel Ellard rose and proposed a toast to the outgoing officers. Each person drank to the old officers and to the incoming officers, who were seated at one long table. After breakfast the crowd again gathered about the piano and sang at their last meeting of the club year "Blest Be the Tie That Binds."

Attractive place cards marked places for the following: Gladys Anderson, Louie Dodson, Era Holt, Ethel Ellard, Gail E. Smith, Vera Gray, Edith Hull, Lena Josephson, Ida Merrill, Mary E. Martin, Maggie Norred, Maye Rogers, Woodie Scarborough, Daisy Smith, L. I. Jo Wilson, Edna Tinker, Hattie Wade, Maude DeBald and the hostesses.

Annual Junior-Senior Banquet Last Friday Is Social Highlight of Season

The annual junior-senior banquet for Snyder High School was staged at the Manhattan Hotel Friday evening at 8:00 o'clock. The host class, the Junior A's, sponsored by Mrs. J. P. Nelson, entertained the graduating class and members of the local high school faculty.

The Junior A's and Mrs. Nelson used a pretty scheme in decorations and table appointments. Numerous streamers of crepe paper in various colors were strung from light to light over the banquet tables forming a perfect hexagon, and each light was surrounded with festive balloons. Streamers also connected each corner of the hexagon with a center light, which was directly over the speaker's table.

Tables were centered with clusters of pretty balloons, strewn with bright colored confetti and bowls and vases of lovely roses. Places were marked with small purple graduation hats mounted on gold cardboard, carrying out the senior class colors of purple and gold.

Favors were folders of cardboard with the south door of the high school sketched on the front, and having in them the banquet menu program, senior class roll and the junior class roll.

To the Voters of Precinct No. 3:

I have been requested to correct a few misquoting statements concerning myself and my ability to serve you as your commissioner.

First, the statement has been circulated that I am just a young and inexperienced boy; second, that I have never made a success; and am not accustomed to handling finances; third, that I have not lived here very long. I shall try to answer these statements as truthfully as I know how.

I am a married man and am 32 years of age. True, I have accumulated no great wealth and accomplished no great things in my short career of 12 or 14 years, when most of us have had to struggle for a bare existence. It would seem more appropriate to use the word "script" instead of "finances." This script, which draws interest while our people strive to meet heavy tax burdens imposed by county, state and national governments, can be decreased by curbing some excessive spending. I came to this county in 1915. I was away a short time, employed with the Highway Department and going to school.

Friends, I class these among the best qualifications that a man can have. We are in need of a man that will carry out a constructive and economical plan whereby we can get back once more on a cash basis, and to this end I pledge myself. Yours in faithfulness, WALTER W. BILHOP, 11p

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right dose of a liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels back to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given to the youngest child. Local School Faculty and Members of Board Enjoy Dunn Picnic Wednesday

The Snyder public school faculty, members of the board of education and guests say that the annual faculty picnic held west of Dunn on Deep Creek Wednesday evening in the form of a steak fry proved a hilarious affair.

Baseball games and horse shoe pitching furnished diversion for the crowd before it became dark. Then an impromptu play, which was written and directed by Miss Nona Carr, was presented by Mrs. J. P. Nelson, Misses Maurine Cunningham and Clyde Rowe and R. L. Williams, using a huge rock for a stage. Music was furnished throughout the evening by a stringed instrument trio composed of violin, guitar and banjo, played by Curtis Jarratt, Felix Jarratt and Nig Stringer.

After the abundance of food, including delicious steak cooked by Chef Charlie Ross, assisted by C. Wedgeworth and R. L. Williams, and ending with ice cream, was dispensed among the crowd, attention was gathered about the bon-fire for a sing-song, and Miss Mattie Ross Cunningham added a Mother's Day poem to the program.

The following board of education members and families were present: A. C. Preullt, G. H. Leath, R. J. Randall, J. G. Hicks, Edgar Wilson, and W. W. Smith. More than 24 hours were required for blowing up Monday's rain, but that is nothing compared to the time required to convince a few diehards that prosperity is gradually returning to the land of the South Plains.

May West and Simmons.
Mac West, whose half-lewd pictures and statements have littered motion picture screens and newspapers for several months, was chosen to select the benches for Simmons University (now Hardin and Simmons University). It must be admitted that the bulky "come on up sometime" lady was wise in choosing a Snyder girl as one of the lovely lassies, but Mae West and Simmons somehow do not seem to jibe in spirit.

"America Must Choose."

If the tenant cotton farmer of the South is to become a better citizen and a more useful cog in the American wheel of growth, the country's policy of economic nationalism must be abandoned.

That is the premise of Peter Molyneux, editor of The Texas Weekly, in his new booklet, "What Economic Nationalism Means to the South." It is a companion to Secretary of Agriculture Wallace's "America Must Choose," which holds somewhat the same premise on a nation-wide scale.

After showing that neither Congress nor the President is doing anything definite toward alteration of tariff barriers and clearing up of trade relationships with foreign countries, Mr. Molyneux concludes with these summary statements:

"It is certain that if the policy of economic nationalism is persisted in by the United States, if the American people attempt to adjust themselves to their changed international status by adopting policies even more narrowly nationalistic, than the economic and social problems of the South will become almost hopeless.

"This is so true it seems to me, that no national policy, no matter how beneficial it may be for even a majority of the people of a country, can be squared with any humane conception of civilization, if it has consequences for one section of the country as inexorably destructive of the well-being of the people of that section as the policy of economic nationalism must be of the well-being of the people of the South.

"Not only should not the people of any section be expected, in the name of the national welfare, to sacrifice so much that is essential to ordinary decent living, but no nation, calling itself humane and civilized, should maintain a policy that requires such sacrifice by even a small percentage of the people. If the truth must be told, the South already has sacrificed too much in order that this policy might be maintained. It would be idle to say that the time has almost come again to calculate the value of the Union to the cotton states, because the futility of such calculating has been settled once and for all. The verdict of Appomattox as I have said, still stands, and it must continue to stand. But at a time when so much is being about making a permanent readjustment of many of our social and economic arrangements, is it too much to expect this great nation to give consideration to the possibility of righting this ancient wrong?"

CURRENT COMMENTS

BY LEON GUINN.

In the life of Will Woodin one notes a desire to be successful as a business man, also a lyric writer; just a bit difficult—indeed a tinge of sadness was eight-columned with the news of his death. . . . William Hartman Woodin as Secretary of the Treasury in 1933 had an exacting position requiring long hours and little sleep, what with the bank holiday demanding careful analysis and a staphylococcus infection of the throat stealing away the vitality of gnomic Mr. Woodin. . . . There is small need of elaborating on the death of this ex-secretary of the treasury, for as treasury officials go "Wee Willie" Woodin did his best according to his ability, and ability to inject his personal opinions in administration policies caused his resignation—all health sedately veiled at the time. . . . Question: "Will 'Wee Willie' Woodin be longest remembered as a treasury one-timer, or as a song writer?"

And in the beginning God made the cottonseed as the sons and daughters of woman might veil themselves in prints befitting the antiseptic sunshine so abundant in America and elsewhere. . . . Lo, Adam did not spin nor weave so true leaves composed possibly the first racial wardrobe. . . . In the cottonseed (emory) God placed the divine resurrection of plant life—the ability to absorb moisture and warmth and grow into a greenish stalk that is a marvel of science in composition. . . . Behold the Inca tribe and Peruvians borrowed cottonseed from Egypt and raised cotton of a superior staple. . . . Inca calicoes were the envy of Europe for centuries, when pirates sailed the Spanish Main more drunk than sober and gold was the ransom inhabiting dark corners.

In these days Columbus sailed over and accepted America in the name of good intentions. . . . And behold certain wise men found cottonseed suitable to Southern soil, and Eli Whitney started the cotton raiser off by pattering with a gin. . . . For many years the cotton growers waxed exceedingly expansive and husbandmen sowed millions of acres in super-exotic cotton stalks in order that the New Deal might later introduce the NRA to put eagles in ye shop windows and AAA's in ye farmers' piazzas. . . . And certain scribes hit upon the idea of so many cotton, wheat, and tobacco stalks; so it was that Wallace reigned over the agricultural domain and hirings over treasury checks. . . . Thus Mr. Public saw 22,000,000 acres whacked to a given number of cottonseed per acre. . . . This looked good in the sight of man, and the New Deal, bill weavels, and Wallace-Henry A. gave us the alternative AAA.

"Hordes of Gullies."

Hordes of gullies now remind us
We should build our lands to stay,
And, departing, leave behind us
Fields that have not washed away.
When our boys assume the mortgage
On the land that's had our toil,
They'll not have to ask the question,
"Here's the land, but where's the soil?"

Consistency is a rare quality in this transient period of widespread change.

On an average of every 90 minutes a murder occurs in the United States.

Belief in the supernatural is so prevalent in England that there are more than 150 manor houses and castles which are unoccupied because "ghosts" are said to flit about the premises.

52.7 per cent urban and 43.8 per cent rural. But now it is almost a 50-50 proposition.

To Educate or Not to Educate.

Some of the lobbying done by the Texas State Teachers Association, and some of the publicity it sends forth to newspapers, are certainly unworthy of the great bulk of the state's teachers. That education has been brow-beaten and trampled by the exigencies of the depression and clever politicians there is no doubt. This deplorable condition, however, does not warrant the teachers' organization in exerting doubtful pressure on legislators and newspapers. Nor does it warrant the customary action of most school leaders in forcing their teachers to become members of the association.

"No Long Waits—No Short Weights" SOUTH SIDE OF SQUARE SNYDER, TEXAS

LIGHT RAINS IN AREA MONDAY

Showers in scattered portions of the county Monday brought hope for a downpour to thousands of citizens, but the heavy clouds failed to yield much moisture.

Snyder's fall for the day was 48 of an inch. A few communities received slightly more, but most of them were only dampened. Fortunately, the rain was not of sufficient force to harm many patches of newly planted cotton.

Some of the lowest temperatures on local May records were registered along with and immediately after the showers.

Stinson Picture on Convention Buttons

The rosy countenance of Lee T. Stinson of Snyder, president of the Texas Pharmaceutical Association, adorns thousands of lapel buttons that are being sold throughout the state at 25 cents each as an advertising stunt preliminary to the annual convention at Mineral Wells on June 18-21.

Some such legend as "Meet Him at Mineral Wells" is on each button. Mr. Stinson said yesterday that he expects to greet the largest delegation of druggists that has ever attended a state convention.

Two Eggs Laid by Turkey Overnight

Dean Cochran has two reliable witnesses to prove that a turkey hen at his produce buying establishment laid two full-fledged eggs between 7-8 o'clock Friday evening to 6:00 o'clock Saturday morning.

The "eleven-hour" wonder was purchased by Dean from J. A. Love, who resides northeast of Snyder. She was a 12-pounder.

All fowls except the turkey hen were taken from the pen before Dean and his co-workers went home Friday evening. Only the hen could have been responsible for the two eggs, Dean will tell you.

CHEVROLET

WHY do you suppose Chevrolet keeps repeating, in all of its advertising, "Drive it only 5 miles"? Very frankly, here's the reason: Chevrolet engineers have tried out all the various makes of cars in today's low-price field. They have compared performance—on rough roads, in traffic, over hills, through sand and mud and water! And they have proved, to their complete satisfaction, the same things that hundreds of thousands of Chevrolet owners are proving in their daily driving. The Chevrolet ride simply can't be matched by any other in the low-price field. That's why we urge you to "Drive it only 5 miles"—and that's why we promise, "you'll never be satisfied with any other low-priced car."

M'CORMICK-DEERING

For Better, Easier, More Profitable Dairying

If your cream separator is losing money by wasting butterfat at the skimmilk spout, it is high time to invest in a new McCormick-Deering Ball-Bearing Cream Separator. A Babcock test of the skimmilk will tell whether you can afford to continue using your cream separator.

The McCormick-Deering is the closest-skimming cream separator on the market. It is easy running, easy to clean, and it will give many years of good service. It is built in six sizes—capacities from 350 to 1500 pounds of milk per hour. Come in and let us demonstrate its efficiency. We will also demonstrate the McCormick-Deering Milker on request.

Helen Sterling spent Thursday night with Viola Ault of County Line.

Those who enjoyed Mother's Day in the home of J. H. Wiggins were Mr. and Mrs. L. D. Robinson and children of Donn, Mr. and Mrs. Morris and baby of Westbrook, Mr. and Mrs. Preston Pace and Mr. and Mrs. Charlie Wiggins of Fairview.

Dick Hardee and family attended the family reunion in the home of Mr. and Mrs. F. W. Hardee of Fairview Sunday, besides all the children and grandchildren. Two sisters of Mrs. Hardee, Mrs. Lansing Rhoades of Fairview, Mr. and Mrs. R. O. Dawson and son, Granville, of Sweetwater were present. Our reunion didn't seem as it always has, because of the vacant place that Neal always filled, who passed to his reward three months ago.

I wish to correct a mistake that I made in my letter last week. Arlene Shepherd has not returned to her home yet, but it is thought that she will be able to return soon.

John Weir and son, O. D., made a business trip to Brownwood last week.

The senior play, "Jimmie, Be Careful," at Ira Friday night was enjoyed by a large crowd. You people who failed to see it certainly missed something.

NEW RELIEF PROGRAM TO HAVE SELF-SUSTENANCE AS CHIEF AIM

Replacing of Tenant Farmers One Of Goals Announced by the State Commission.

Many farm families in Texas were cut off from various federal emergency relief rolls April 1, but a new program is being put into immediate effect for aid of a different and more business-like kind, according to Director Merle Dresden of the Texas Relief Commission.

New relief for most families will be directed mainly toward helping them to become self-sustaining. Families not suited to farm projects may be continued on work projects, or where no other course is open, will be given direct relief.

Joe Monroe, Scurry County administrator, is perfecting plans toward carrying out the new relief policies.

Many Tenants Displaced.

During the government's program relating to the reduction of certain crops in Texas many tenant farmers became displaced only to find themselves on the relief rolls of the state.

Director Dresden is of the opinion that many landowners who let tenants go, due to inability to care for them, would be now willing to have those same tenants, or an equal number of them, live on their farms under the jurisdiction of the Texas relief commission's rural rehabilitation division.

It has been pointed out that widespread misunderstanding of acreage reduction contracts has led to the release of many tenant farmers. Officials of the administration believe that when brought to the attention of land-owners, these misunderstandings will be cleared up and thousands of tenant farmers will be given a few acres around their dwellings, upon which to raise the things necessary to self-sustenance.

Open to Certain Families.

The rural rehabilitation program will be open to families that have made arrangements for crop production and also to those who are being allowed by their landlord to live on land removed from crop production, as well as to families not now living on farms, but those whose life experience has been agricultural.

The procedure will be directed to provide the family with such essential necessities of operating a farm as may now be available to them. Food and clothing will also be supplied until the family's own efforts meet these needs.

Large-scale shifting of families from town to town, or from one part of the farming territory to another, is not contemplated. The first job, said Director Dresden, is to care for destitute families where they are.

"Work Relief" to Be Initiated.

To help the rehabilitation family make repayment of indebtedness to the relief agency, "work relief" will be initiated. These projects must be undertaken in such places, and to such an extent, as will meet the needs of the families to be rehabilitated. That is, the number of families to be aided and the time and manner in which they should be

employed, for their own best interests, will be the fundamental consideration in determining the location and character of the projects.

State and local rehabilitation committees will be named to assist in putting the program into effect and it is expected that volunteer committees in each community will be chief factors. The county agricultural agent and home agents will be asked to advise in setting up practical plans of farm procedure for each family and supervision will be provided to see that the plans are effectively carried out.

Women to Help.

Women will be expected to take an important part in planning and directing this progressive program. While the prime objective is to assure that destitute families are enabled to provide themselves with food and clothing, this is considered only the foundation upon which to build higher standards of rural life in all lines. Both individual and community interests will be fostered.

HERE IS MORE CONCERNING AAA Program CONCLUDED FROM PAGE 1

forth to apply its principles equitably in each community throughout the South, believing that only by complete cooperation can this program bring the greatest good to the greatest number.

"Therefore, be it resolved, That the counties assembled go on record pledging individual and collective support to the AAA program and its sponsors, with the assurance that we recognize the value of the acreage reduction program now in progress and that this reduction should and must be fairly and equitably distributed and that each producer of cotton should be placed on the same basis of fair treatment with his cotton producing neighbor and realizing that throughout West Texas during the past six years there has been one or more sub-normal years due to drought, hail, insects and other natural causes over which we have no control;

County Line Ginnings.

"Therefore, be it further resolved, That careful consideration be given to the figures and supporting data that justifies reasons for elimination of sub-normal years in counties where such conditions have existed. It is also urged that special consideration be given county line gins in arriving at a fair and equitable county average in cotton production;

"That it be further resolved, That Secretary Wallace exercise the power given him under Section 4 of the Billhead Bill to the end that the purpose of the voluntary contract program and the Bankhead Bill may not be destroyed by the non-signer who will increase his cotton acreage and production in spite of the tax."

Norge Rolator Line Being Handled Here

C. W. Harless and Tom Carr announce this week that they have become local agents for the nationally-advertised Norge rolator electric refrigerators.

One of the Norge models is on display at the Harless-Carr display room east of the square on 25th Street. The distributors invite electric customers of this trade territory to learn details of the improved line.

Fire at Pick & Pay.

An electric refrigerator motor was responsible for much smoke but little fire in the Pick & Pay grocery store, north side of the square, early Thursday night of last week. By forcing their way into the building through the back door, the firemen were able to quench the fire before it spread from the box.

Buck Howell Takes Double Dash Event

Buck Howell continued his undisputed command of dash events in the Texas Conference Friday at Brownwood, when he stepped away from all conference contestants to win the 100 in 10 flat and the 220 in 22.4. He also took a third in the broad jump.

G. L. Huestis, also a former Tiger star, tied with two other vaulters for second place in that event, at 12 feet. The two former Snyder boys thus accounted for 13 of Simmons University's points in the conference meet. Abilene Christian College led with 60 points, while Simmons and Howard Payne tied for second with 36 points each.

FORD V8

\$515

THE CAR WITHOUT A PRICE CLASS

FIVE big men can relax in utter comfort on the deep cushions of the Ford V-8. Wide seats keep elbows out of ribs. Ample leg room keeps legs from being cramped.

Why? Because Ford measures roominess in terms of usable body room. Not in terms of the distance between bumpers, which means nothing when you come to analyze it.

The Ford V-8's very engine construction gives you more body room, as the diagram explains. Cylinders are "doubled-up" saving space, not strung along in a line to waste it.

See how much less space is occupied by the V-8 engine as compared with the ordinary "six" or "eight." Less space for the engine means more space for the passengers.

The Ford V-8 front seat is adjustable. It quickly and easily adapts itself to a six-foot-two husband or a five-foot-two wife. It ends forever that source of strife.

Before you buy any car at any price, drive the Ford V-8.
