SNYDER, TEXAS, THURSDAY AFTERNOON, OCTOBER 17, 1935

NUMBER 19

COMPANION OF ADMIRAL BYRD COMES FRIDAY

Joe Hill Jr. to Speak in High School Auditorium on His An-Arctic Adventures.

Scurry County people are to have the chance to hear Joe Hill Jr. of Canyon, member of the Byrd Antarctic Expedition, tell of his adventures near the South Pole. Hill will appear in the high school auditorium Friday night at 7:45 o'clock.

Neeka, an Eskimo husky dog which was a personal gift from Admiral Byrd to Hill, will be on the stage with his master Friday night. Relics brought from the Polar regions will be shown by the adventurer as well as slides to illustrate his story of the expedition. Admission is 20 cents for students and 35 cents for adults.

"Hear his story of this wonderful land of bitter cold, constant dangers, unbelievable hardships, startling discoveries and thrilling adventures," say people who have already heard him.

Hill, the only West Texan to go to the Antarctic region, was a personal orderly to Admiral Richard E. Byrd on the expedition. He will tell of using tractors for transportation on the ice and snow. Several were completely lost during the long months of their stay.

Commercial Classes Get State Approval

Full approval of the State Department of Education has been given the local commercial courses that are being given free to adult classes through the Smith-Hughes plan. Albert T. Kreuser, state supervisor of industrial education, was here Monday to make the inspection and approval.

More than 50 adults are now enrolled for the work, which is being handled by J. C. Dennis of Sweetwater with the assistance of regular school employees. C. Wedgeworth, superintendent, announces that a few more may be enrolled in the classes.

Attend Directors Meeting

Hugh Boren, Pat Johnson and Fred A. Grayson were in Lubbock Friday for a meeting of secretaries-treasurers and directors of the Farm Loan Association. They were accompanied there by Mrs. Grayson and grandson, Grayson McKnight, who visited with relatives and friends. Mrs. Violet McKnight, the Grayson's daughter, who teaches in Spur, returned to Snyder for the week-end with the group.

What Shall We Do This Month? Take Your Choice Here

If you crave entertainment during the good month of October, you don't need to travel out of the city limits—no matter in what direction your tastes turn.

Both permanent showhouses—the Palace and the Ritz—are operating every night except Sunday and on Saturday and Sunday afternoons.

If it's exercise you crave, take a whirl at the skating rink that's been in town for some time.

"Circus" Schell Brothers, with a string of animals and acts that disappointed nearly everyone, played here last Friday. Harley Sadler, with a second circus, will be here Friday of next week.

Hollywood Shows, a typical carnival with fire dive added, played all last week. Another carnival is already booked for a later date. It is reported.

Or, if you desire a milder blend, hear Joe Hill, member of Admiral Byrd's polar expedition, at the school house Friday night of this week.

AGENT POSTS COTTON NEWS

A new service for cotton farmers is being provided by the county agent.

Weekly summaries of cotton price and movements are being posted on the bulletin board in front of the agent's office.

This service is of particular interest at this time because government subsidy payments are made on the following basis: The difference between 12 cents and the average price of seven-eighths middling cotton at the 10 southern spot cotton markets on the date of sale. Subsidy payments are made to contract signers up to the amount of their Bankhead allotments.

Action on Highway Right-of-Way Was Not Taken by Court

Meeting in regular second-Monday session this week, the county Commissioners Court recorded the following action in regard to right-of-way east of Snyder:

"The matter of relocation of Highway No. 83 or 15 from a point on Highway No. 7 one mile southeast of the city limits of Snyder, east to the Fisher County line, as suggested by the State Highway Department, came before the court for consideration.

"After deliberate discussion, action on this subject was deferred pending plans and field notes of proposed relocation of said right-of-way by the highway department."

The court examined and approved monthly and quarterly reports of the county treasurer, Mrs. O. S. Williamson.

Mother of Snyder Woman Dies Sunday At Colorado Home

Funeral rites were held at San Antonio Tuesday afternoon for Mrs. Sam Berman, 64, resident of Colorado for 10 years. Mrs. Berman died Sunday night, following a long illness at the home of a son, Philip Berman.

She was the mother of Mrs. Marcel Josephson of Snyder. Mr. and Mrs. Josephson and daughter, Sandra Jean, were at the bedside when death came, and continued to San Antonio for final rites. Mrs. Berman was a frequent visitor with the Josephsons before her last illness.

Three Colorado merchants—Max, Philip and H. I. Berman—were sons of the deceased. These sons, with their families and Mrs. M. L. Kirschbaum of Colorado, and the Josephsons, accompanied the body overland to San Antonio early Monday.

Born in Russia, Mrs. Berman came to the United States about 35 years ago, settling with her family in Seguin, Texas. She lived there until 10 years ago, when she came to Colorado to be with her three sons.

Most Schools Have Made Closing Plans

With cotton picking getting under full swing, most schools of Scurry County are making plans to close for two to six weeks.

Ira and Byron have already closed, and several other schools will probably halt classes after Friday of this week. Two or three of the schools that started late will not close.

TWO PIONEERS PAID TRIBUTE IN LIONS MEET

Canes Presented as Service Club Inaugurates Plan to Honor Blind, Near-Blind.

Inaugurating a plan whereby blind and near-blind persons of Scurry County will be given distinctive white canes with red tips, the Lions Club Tuesday at noon paid tribute to two pioneers.

The special guests, F. C. Boyd of the Turner community and W. R. Wren of North Snyder, were introduced by Dr. H. G. Towle, and paid high tribute as "the salt of the earth"—two of the group of pioneers who laid the groundwork of our modern progress—by President John E. Sentell.

Replying, both visitors recalled scenes of more than 30 years ago, when the Snyder square was ankle-deep in mud on rainy days and there were only wagon trails in Scurry County.

Canes Nationally Used. The canes given the pioneers are used by elderly, blind and near-blind persons in towns of five countries that are served by several thousand Lions Clubs. They not only mark their owners for special consideration from all pedestrians and motorists, but represent a mark of special tribute.

Other canes will be distributed soon, the president said. Chairman H. J. Brice of the October program committee introduced Irene Wolcott, who represented several local high school artists who were heard last Friday at assembly in an "amateur hour" broadcast over the school's new radio system.

Music and Reading. Nell Carlton, Elizabeth McCarty and Richard Brice presented vocal solos, with Wiley Brice accompanying. Ernestine Morton gave a reading, and Wiley Brice entertained with a piano solo.

H. L. Wren and W. A. Boyd were other guests of the day. It was decided by unanimous vote that the club postpone its regular meeting on Tuesday, October 29, in order to hear District Governor Ralph Randal of Panhandle at the regular hour on Thursday, October 31.

O. P. Thrane and J. C. Smyth were made members of a resolutions committee in connection with the death of A. B. Ely, father of Lion W. J. Ely, and Mrs. Sam Berman, mother of Lioness Marcel Josephson.

WPA and Relief Officials Visit in Snyder Recently

That district officials of the various government-help agencies are on the job has been well proven by visits made to the local relief and re-employment office within the past few days.

Miss Caroline Chambers, supervisor of women's work in state district No. 13, was here last week for the purpose of getting the final papers properly signed for the sewing room which is to be one of the projects under the WPA program. She expressed appreciation for the progress that has been made preparatory to getting WPA projects started in Scurry County. Miss Chambers was accompanied by Mrs. Brooks, an assistant.

Mrs. Bernice Louder, district supervisor of intake and certification, was a visitor in the local relief and NRS offices last Friday. She spent several hours checking certification reports, and said the local office is progressing nicely in getting out certifications. Mr. Darrell, district supervisor of education, was also a visitor last week.

Miss Nellie Mae Henderson, district supervisor of FERA—Federal Emergency Relief Administration—was here Monday morning.

The NRS office—National Re-employment Service—headed by J. T. Jenkins, was visited the same day by E. A. Elliott of Abilene, district NRS manager.

New Pontiac Model Shown by Stimsons

A new Pontiac for 1936 is on public view at the Stimson Brothers show rooms in North Snyder.

"They sell at prices which put them within the range of the lowest priced cars on the market," say Ole and Woodson Stimson of the Pontiacs.

"The silver streak" radiator and hood grille that formed the central design motif of 1935 and earned for Pontiac the descriptive characterization of the "most beautiful thing on wheels," continues as the basic theme with certain pleasing changes that reflect even greater refinement of taste and more artistic beauty than was expressed in the original.

Snyder Transfer Company Stages Picnic for 65 Employees, Friends

The shades of a perfect Indian summer afternoon fell on a group of 65 picnickers at Wolf Park Sunday. They were employees, employees' families and friends of the Snyder Transfer Company, gathered on the outskirts of Snyder for one of those old-fashioned scenes of food and fellowship that have almost gone out of style.

Mr. and Mrs. Pete Bridgeman, owners of the 20-year-old transfer line, and chief host and hostess for the afternoon, have been trying to stage such an affair for 10 years, but Sunday was the first time they could congregate the bulk of their trucks, business cars and employees.

Picnic Area Made. After the picnic, members of the transportation and office divisions lined up before the fleet of trucks and cars for a picture that was made by Miles Studio. The entire group was then included in a picture with the caravan of trucks as a background.

The "company" picture featured Mr. and Mrs. Bridgeman in Pete's favorite pose—atop the saddle horse that the local transfer man rides in his spare time. Next to this trio were "Old Dutch" and "Dan," veteran draft horses who continue to see service in front of the local pick-up wagon.

All employees were in the picture except O. B. Harris of Abilene, who was unable to be present.

Plenty of Good Eats. The menu, prepared chiefly by Mrs. Bridgeman and Emma, colored chef, consisted of lardup'ed red beans, black coffee, soda pop, fried chicken, baked ham, potato chips,

Father of Local Men Is Interred In Jones County

Fifteen Snyder people, in addition to members of the immediate family, were in Anson Monday afternoon to attend funeral rites for A. B. Ely, 79-year-old father of W. J. and L. G. Ely, local farmers.

The retired farmer, resident of Jones County for 52 years, was interred in Rose Hill cemetery, Merkel.

Services were conducted at the First Methodist Church, with Rev. Ben Hardy, pastor, officiating. He was assisted by Presiding Elder Sam Young of Stamford, former Snyder pastor; Rev. H. C. Gordon, present Snyder pastor, and Rev. R. D. Carter, pastor of the Anson Baptist Church.

Mr. Ely had been ill for a number of weeks. The local men and their families had been frequent visitors at his bedside. Death occurred Sunday night at 7:00 o'clock.

Surviving Mr. Ely are 10 children, four brothers and three sisters. Sons are J. W. and E. L. Ely of Anson, G. W. Ely of Sweetwater, W. J. and L. G. Ely of Snyder. Local funeral attendants were Mr. and Mrs. A. W. Arnold and daughter, Vera Gay; Mr. and Mrs. Joe Stinson; Rev. H. C. Gordon, Dr. H. G. Towle, R. H. Odum, Frank Farmer, J. E. Shipp, D. P. Yoder, I. H. Walton, Mr. and Mrs. W. M. Scott.

Mr. and Mrs. Frank Patterson of Westbrook visited in Snyder with Mr. and Mrs. J. G. Patterson during the week-end.

It Was Columbus Day

Saturday was Columbus Day, and many bank customers who had overlooked the notice in The Times realized that the holiday was in effect. Snyder National Bank was closed all day. It was not a national legal holiday; the post office was therefore not closed.

Jack Howard Rides Buggy for Laundry

Jack Howard is the new driver for Snyder Steam Laundry's delivery "buggy."

The laundry's self-service department, adjoining the main laundry on the west, was recently enlarged by addition of another set of tubs. H. A. Lattimore continues as the laundry manager.

Changes at Edd Dotts

The Edd Dotts store, under the new management of Lee Armstrong, is making extensive changes. The basket rack has been moved near the front of the store, to the east. An aisle has been arranged just inside the door. Practically all goods, except those on the wall shelves, have been moved to form convenient and attractive floor pyramids.

ROAD SURFACE WORK IN TOWN

Surfacing of Highway No. 7 from Hermleigh to Snyder is now approaching the Snyder business district. Gravel had been leveled out right up to the R. S. & P. tracks, and asphalt pouring has been completed on the eastern edge of town.

The entire route will be complete and ready for traffic before the week is out, barring bad weather or other hindrances.

GINS PURR AS DELAYED CROP TURNS WHITE

Total County Turnout Nears 2,000 Bales as Weather Continues Warm and Clear.

The delayed cotton crop in Scurry County fields is beginning to move rapidly this week as warm weather and fairly clear skies continue to prophesy a yield of 20,000 to 25,000 bales.

Gins—14 of them are running in the county—are purring steadily. Snyder gins have started their night runs, and most others are following suit. Tuesday found wagons filled with the staple stacking up in gin yards.

Snyder ginnings this morning were almost exactly 1,200 bales, and an estimate for other gins carries the total up to and possibly past the 2,000 mark.

Light showers threatened late last week and again this morning, but no heavy rains have stopped picking in any community this month.

With the cotton crop turning white, hundreds of Mexicans are drifting into the county. Most of them are in trucks—10 to 30 per truck. Every effort is being made to use all available county pickers before the transients are given places.

Barber Shop, Cafe, Welding-Blacksmith Shop Being Opened

Three new businesses are opening for business in the block of buildings just north of the square, on the east side of Avenue B.

C. E. (Ed) Pendergrass, who has barbered here for more than two years, and until recently operator of the R. & K. barber shop, has opened a two-chair shop just across the street from the Cochran Grocery.

Just south of the barber shop is a cafe that is now in the hands of Mrs. Fred Belsel, formerly of Brownfield.

Mr. Belsel, who moved here recently with his wife and daughter, is opening a welding and blacksmith shop on the north end of the block, just south of the livestock pens.

Opening other business houses on the block is planned for later in the month, it is reported.

Re-Organization of Local Nazarenes Is Announced Sunday

Rev. V. B. Atteberry, superintendent of the Church of the Nazarene in the Abilene district, assisted in the revival that has been going on at the city tabernacle, and reorganized the church here Sunday morning.

The congregation has secured the old tabernacle one block west of the school building, where a full church program will be carried out each week. The Sunday school will be reorganized Sunday afternoon at 3:30 o'clock. Rev. J. Ollie Fitt, pastor, will preach at the close of this service and at 7:45 p. m. Sunday morning he will preach at the Ennis Creek school house.

"There will be a place at all services for those who are interested in the upbuilding of the kingdom of God," declares the pastor.

Apostolic Meeting Being Conducted by Speaker From Spur

G. Frank Smith of Spur, evangelist and promoter of the full gospel of Christ, is preaching for services that are now going on at the Apostolic Faith Church, corner of Avenue O and 22nd Street (three blocks north of the Church of Christ), according to members of the congregation.

"It is our desire to have everyone to cooperate with us for the salvation of the souls of men," says a statement prepared for The Times. "This meeting is strictly undenominational and for the purpose of receiving the whole church of God and drawing the various denominations closer together."

The meeting is being sponsored by a number of local people, including Mr. and Mrs. H. C. Gore, Albert Buchanan, T. J. Pickling, L. B. Peterson, Lindsey Jones, J. S. Lovelady, John Davis of Polar.

New Paint for Gulf

A paint sprayer operated by a regular Gulf man has been busy this week on property of the local Gulf Refining Company agency. Silver paint quickly changed the complexion of the tanks adjoining the R. S. & P. tracks in East Snyder.

White paint completely redecorates the Olds station on the northeast corner of the square. The Gulf shade of orange, in nationwide use, will continue in use for signs, pumps and decoration.

J. J. Dyer Improves

J. J. Dyer, jeweler and watchmaker, has been making continuous improvements since he moved from the east to the south side of the square several weeks ago. A brilliantly lighted show window displaying new jewelry, and a hanging gold sign on glass are among his most recent additions.

New Hospital Has First Baby Guest Sunday Afternoon

Ladies and gentlemen: Meet Jackie Arvil Martin Jr., first baby born at the Snyder General Hospital.

The robust young man, weighing nine pounds to the ounce, made his appearance at 4:30 o'clock Sunday afternoon. He is the son of Mr. and Mrs. J. A. Martin of Fluvanna, residents of Scurry, Kent and Mitchell Counties for a number of years.

Jackie Arvil dozed peacefully—and in rather grown-upish fashion—when a Times reporter viewed him in the nursery about 20 hours after his arrival. "And he's good almost all the time," declared one of the nurses.

Mrs. Martin, formerly one of The Times' rural correspondents, says the building of the hospital was one of the finest things ever done by Scurry County. "I'm certainly proud," said she, "that my son was the first baby born in such a fine hospital."

Jackie Arvil has two sisters, Alena Dell and Iris Mae, both as healthy as himself.

RESETTLEMENT HELP EXTENDED

Aid will be extended through the Rural Resettlement plan to 100 or more worthy Scurry County applicants, it has been indicated by Director Fry of this and Fisher Counties.

Mr. Fry is in the courthouse on Monday and Friday of each week, and will be glad to discuss the program with applicants.

The program is designed for worthy farmers who are near the end of their financial rope, and not primarily for relief or former relief clients.

A local committee to aid the two-county supervisor is being considered.

IMPROVED TAX PAYMENT SEEN BY COLLECTORS

City, County, State and School Taxes Due and Payable Since First of October.

Improved payment of current and delinquent taxes of all kinds is seen this fall by local collectors.

County, state, city and school taxes became due and payable on Tuesday, October 1. Collectors have reported light collections so far, but they base this slowness on the fact that few taxpayers are in a position to remit until cotton moves faster.

County Tax Assessor-Collector Bernard Longbottom said yesterday that only five poll tax receipts have been issued since October 1. He calls attention to the fact that voters will no longer be able to cast their ballots in any election unless they actually show their poll tax receipt or exemption certificates at the polls. The receipt or certificate must be secured at the collector's office not later than January 31.

Under the new permanent plan approved by the Legislature, delinquent tax payments for any year may be paid this month with penalty and interest totaling 10 per cent. The amount increases one-half of one per cent per month. Delinquencies are penalized on the basis of 8 per cent penalty and 6 per cent interest per annum. Interest accumulates monthly—one-half of one per cent being added monthly from July 1, 1935.

Thus the total for November—interest and penalty—will be 10 1/2 per cent, December, 11 per cent, etc.

City Secretary J. S. Bradbury, who collects city and Snyder school taxes, states that city delinquencies are about \$45,000; school, about \$35,000.

Annual New-Comers' Tea Highlight Of Social Interest for Snyder Clubs

The New-Comers' Tea at the home of Mrs. Melvin Blackard here Tuesday afternoon from 3:00 until 5:00 o'clock claimed social interest of the town this week. The tea is an annual affair given by the Alpha Study Club.

Each member of the hostess club invited one guest, and others who called during the afternoon were members of local federated clubs. New-comers, who were honorees for the affair, were in the receiving line.

Mrs. Blackard greeted guests at the door and presented Mrs. A. R. Norred, Alpha president, who headed the receiving line. The lace-covered dining table was centered with a pioneer scene portraying a camp at evening light with a campfire gleaming in the center. Silver coffee and tea services were at each end of the table. Tea plates contained decorated open-faced sandwiches, nut bread sandwiches and stuffed dates. Miniature covered wagons filled with corn candy were plate favors.

Alpha Study Club members in the house party were: Misses Hattie and Gertrude Herm, and Mmes. Blackard, Wayne Boren, Maurice Brownfield, Joe Graham, J. G. Hicks, Ixon Joyce, Alfred McGlauin, J. P. Davis, T. Egerton, Mabel Y. German, J. R. Huckabee, W. A. Morton, E. J. Richardson, D. P. Strayhorn, O. S. Williamson and J. A. Woodfin.

Dr. Rose Roberson Is Married Sunday.

Dr. Lila Rose Roberson, daughter of Mr. and Mrs. C. R. Roberson, and Dr. Cecil A. Robinson of Gladewater were married in a 1:00 o'clock ceremony at the First Presbyterian Church here Sunday, October 5. Members of the immediate families and a few friends were present for the wedding.

Rev. B. H. Foreman of Corrente, Plaquemine, Brazil, who is on furlough from his missionary duties and who is a life-long friend of the Roberson family, performed the ceremony. He was assisted by Rev. Alfred M. Dorsett, pastor of the local Presbyterian church.

John R. Nockles of Fort Worth attended the bridegroom as best man, and the bride's sister, Miss Lucretia Roberson, was maid-of-honor.

The bride is a graduate of the high school at Clovis, New Mexico. She did her pre-medical work at Daniel Baker College, in Brownwood, and received her M. D. degree from the Baylor University Medical School in Dallas. During the past year she has been serving an internship in the New York Infirmary for Women and Children in New York City. She spent several weeks with her parents here during the summer.

Dr. Roberson, also a graduate of Baylor University Medical School in Dallas, did his pre-medical work at the University of Utah. He is now connected with the McKean Clinic in Gladewater, where he and his wife will work together.

Dr. and Mrs. Robinson left immediately after the wedding for Gladewater, where they will be at home.

After electing officers, the members discussed with the sponsor the various subjects which they wish to study during the year.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Halleyville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'no-les.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." If Cardui does not help YOU, consult a physician.

Keep a Good Laxative always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. "We have used Telford's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. "I take Black-Draught for biliousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results."

Leaf tobacco being sold to highest bidder

United States Treasury Building

From 1900 up to 1934 the leaf tobacco used for cigarettes increased from 13,084,037 lbs. to 326,093,357 lbs.; an increase of 2392%

It takes mild ripe tobacco to make a good cigarette.

During the year ending June 30, 1900, the Government collected from cigarette taxes \$3,969,191

For the year ending June 30, 1934, the same taxes were \$350,299,442 an increase of 8725% —a lot of money.

Cigarettes give a lot of pleasure to a lot of people.

More cigarettes are smoked today because more people know about them—they are better advertised. But the main reason for the increase is that they are made better—made of better tobaccos; then again the tobaccos are blended—a blend of Domestic and Turkish tobaccos. Chesterfield is made of mild, ripe tobaccos. Everything that science knows about is used in making it a milder and better-tasting cigarette.

THE WEEKLY DOZEN

And What About 50?

At 20 we don't care what the world thinks of us; at 30 we worry about what it thinks of us; at 40 we discover it doesn't think of us.—Newark Ledger.

The County Barometer?

"The best barometer of the condition of a community is its percentage of delinquent taxes," another editor has written. If that is really an accurate barometer, it's time to be sorry for poor old Scurry County.

Weekly Rooseveltism.

President Roosevelt: "Methods and machinery change, but principles go on, and I have faith that no matter what attempts may be made to tear it down, the principle of farm equality expressed by agricultural adjustment will not die."

A Thoughtful Thought.

Henry Ward Beecher: "Do not keep the alabaster boxes of your love and tenderness sealed up until your friends are dead. Fill their lives with sweetness. Speak approving, cheering words while their ears can hear them and while their hearts can be thrilled."

Diplomatic Editor.

An editor recently stated that he had been kissed by the most beautiful married woman in town and promised to publish her name in the first issue of the paper next month. In two weeks the circulation doubled. Then the editor named his own wife.—Bertha McMillan in Macksville (Neb.) Enterprise.

Littlefield Needs Houses.

This town needs some houses—big houses, little houses, fat houses or lean houses. People want some place to live. Come to think of it, it would be a good thing for Lamb County if we'd even get a lot of chicken houses, and then some more chickens to put in them.—County Wide News (Littlefield).

Man's Use of Electricity.

Subjected to perplexity, mankind sees some unknown force direct the current of human life to strange destinations, yet a lesser animal might wonder at man's use of electricity. The same slender wire that carries current to illuminate a house of worship may extend to a dismal prison room and end at a grim chair from which a soul is being thrown into eternity.—Matador Tribune.

Education Needed.

Probably most Texans know that their vast and beautiful state capitol is constructed of native granite, and perhaps many of them have wondered why more native stone has not been used in Texas buildings. What is needed in Texas is a campaign of education for architects and for the general public regarding the merits of native stone. Use of Texas stone on a wide scale would mean new quarries, new finishing plants, and increased employment.—The Texas Weekly.

A New Teacher Plan.

Of course, it might give Romance many a knock-out blow, but Saucy theorizes that the teaching profession might be advanced if the teachers were put on a 12-month salary basis, instead of a nine-month. The plan would simply be where a teacher had given complete satisfaction during a school year, such as resulted in reelection by the school board, that salary be continued through the vacation months, provided such teacher accepted the reelection and reported for duty when the school reopened in the fall.—Saucy in Brady Standard.

Most for the Least.

Ex-governor Francis of Missouri once said the following about newspapers: "Each year the local paper gives \$600 to \$1,000 in free lines to the community in which it is located. No other agent can or will do this. The editor in proportion to his means does more for his own town than any other ten men and in all fairness he ought to be supported, not because you like him or admire his writings, but because the local paper is the best investment a community can make. Today the editors of the local papers do the most for the least money of any people on earth."—Missouri Press News.

On the Nation's White Spot.

Farming has taken on new life in Texas this year, but oil is the chief product that placed the state among the two leading states of the Union last month from a standpoint of production. Texas is furnishing now more than 40 per cent of the current oil production of the country, and this state has about 50 per cent of the proven oil reserves of the whole world, according to Elmer H. Johnson, regional economist for the University of Texas Bureau of Business Research. It will not be surprising if the wildcatting that has been kept alive in Scurry County for a number of years is continued indefinitely, for the world demands more and more oil products.

Main Street Thronged.

Well, anyhow, Main Street is the business barometer of a town and county. For hours each Saturday we sit and watch and think as the busy shoppers go by, getting a slant on 'em, and by their movements, actions, etc., we know just about how everything is getting along in town and county, whether it's wet or dry, cold or hot; if crops are good, cattle fat and hens laying, it's reflected in their bodily movements and facial expression. The study of the masses, the human throng is a wonderful study, yes, we like to walk down Main Street, shake hands and rub shoulders with the folks. It gives us a wonderful inspiration. Yes, still living in the house by the side of the road.—Albany News.

The Saturday Night Bath.

The Saturday night bath has become essentially an American institution. In most other civilized countries, folks bathe daily or when their wives or neighbors demand it.

This all-important American earmark—the Saturday night bath—originated back in the fairly good days when running hot water and most other modern conveniences were unknown. Town folks, of course, have largely drifted away from the custom, and most of them now perform the necessary rite at least twice a week.

Not that the farm folks have less pride or less desire to be clean. They just don't have the facilities for bathing whenever the urge strikes them. Few bathtubs. Few running water supplies. Few home electric plants. Therefore, few in-between baths.

Principally to root out the once-a-week bathing habit and other customs that make life in the country usually more tiresome and bothersome than life in town, Uncle Sam has taken it on his shoulders to help farmers get the benefit of cheap power, light and bathtub service. The Rural Electrification Administration—just REA to most of us—Uncle Sam calls his new agency.

So far, REA has not penetrated to Scurry County. It may never get a very firm foothold here, primarily because most of us have cotton, debts, and new wearables and eatables on our minds just now. But the REA has furnished some figures that are well worth reading, and is undoubtedly setting thousands of farmers to thinking about how much economy and comfort can be added to their homes by power and light service.

National surveys disclose, says REA, that of the 32,700,000 persons in this country living on farms: Seventy-three per cent must carry water from wells or other sources of supply;

Seventy-seven per cent must put up with unsanitary, inconvenient outdoor toilets;

Ninety-three per cent have neither bathtub nor shower;

Seventy-six per cent must depend upon kerosene or gasoline lamps; apparently about 10 per cent use candles or are entirely without light;

Thirty-three per cent heat their homes partially or entirely with fireplaces; and 54 per cent with stoves;

Forty-eight per cent are compelled to do their laundry work out of doors.

EDITORIAL OF THE WEEK

WHAT MUSSOLINI BELIEVES.

Mussolini believes the British Empire is about to collapse and that the Italian Empire will rise majestically in its place, according to Albert Viton, pseudonym of a prominent American journalist who writes from Florence, Italy, in The Nation.

Mr. Viton continues: "What is Mussolini's object in his Ethiopian adventure? The answer is not economic but political. Mussolini has embarked on an extensive campaign which aims to convert the kingdom of Italy into an empire. Ethiopia is to be the beginning; the Mediterranean, an Italian lake, is to be the end. In the eyes of Italian military and diplomatic leaders Ethiopia is destined to be the Italian Gibraltar, the foundation of the new imperial Rome. But where will Italy expand? The answer to this question will sound fantastic outside of Italy, but it is a commonplace within the Duce's borders. Mussolini expects to plant the Italian imperial lion on the cadaver of the British Empire. Every Italian down to the plainest man on the street is convinced that the British Empire is either collapsing or already dead and that it will take only a strong will on Italy's part to inherit its greatness. . . . Repeated contact with high Italian officials and with the common people has persuaded me of the universality of this view.

"Once Mussolini's imperial dream is recognized as the basis of Italian maneuvers in Ethiopia, and the Italian belief in the imminent downfall of Britain is comprehended, it is easy to forecast how Italy will play its diplomatic game. Under no circumstances will Italy take hostile action against France or Yugoslavia. It must maintain friendly relations on two sides in case England decides to close the Straits of Gibraltar. Furthermore, it will try to remain on diplomatic terms with the Soviet Union, which might be a necessary source of raw materials. On the other hand, it will oppose with the same determination it showed last summer any attempt at independence on the part of Austria, which must remain a gateway for raw materials on the Continent. The Italian front is solid against Britain, and the key to this anti-British attitude is the belief that Britannia is doomed."—The Nation, October 16.

CURRENT COMMENT

By Leon Gulian.

Probably one of the most interesting things to the ranchman is the so-called Judas Goat, betrayer of sheep lead from unloading pens at packing plants to the abattoir, where killing and dressing (some declare undressing) occurs. . . . At the plant of the New York Butcher's Dressed Meat Company Billy works, the only Judas Goat in blase Manhattan, leading 2,000 sheep per day to the odorous abattoir. . . . Billy has been at the plant three years, and if the goat lives a normal 10 years will have led 4,500,000 sheep to sheep heaven. . . . Sheep (unlike cows or hogs) cannot be driven by man, hence the tall white Billy, with uncanny skill leading a flock of sheep indirectly to the American table. . . .

Heating 'G-Men' Are Waging War On Common Cold

America's public health enemy No. 1, the common cold, is about to be put on the spot. The heat is to be turned on and this rampaging foe of mankind, recognized as the most vicious and destructive of all diseases, is finally to be "taken for a ride" by none other than the G-men, in this case the gas men.

Starting in last week's issue of The Times, the gas company is launching one of the most intensive campaigns ever devised to teach people how to properly heat their homes in order to protect their health. They have declared war against the disease germs that lurk in cold hallways and unheated rooms. Backed by medical authorities, they state that the family which huddles in one room over an open flame heater with the windows tightly closed is inviting disaster. An even heat throughout the entire house is said to be one of the best protections against colds, while to pass from a hot room into a cold hallway is an invitation for the deadly cold and pneumonia germs to strike.

The common cold is costing the American public hundreds of mil-

lions of dollars yearly and doctors have found that one of the most fertile breeding grounds for this germ is the stuffy, overheated, poorly ventilated room. It is for this reason that the gas company, according to its officials, is taking the lead in public education to reduce the ravages of colds, pneumonia and other similar diseases by instructing the public in the proper methods of heating their homes.

With newspaper advertisements, booklets and information of all kinds, the bombardment is to continue through the heating season. Doctors, scientists, heating engineers, ventilating experts, public authorities, newspapers, and others have been enlisted for the war.

common Everyday Colds!

"Colds" are dangerous! Don't regard them lightly. According to government statistics, diseases of the breathing apparatus are responsible for more deaths than any other single cause, including cancer or heart disease. While respiratory diseases often start seriously, they are closely related to "colds" and in many instances are directly traceable to catching cold.

Municipalities have made great progress in stamping out typhoid fever, smallpox, diphtheria and other communicable diseases that once demanded their grim death toll. But America's Public Health Enemy Number One, the common cold germ, still rages rampant as a constant threat to the health and safety of our loved ones. Frequently "common colds" pave the way for such serious illnesses as pneumonia, bronchitis, influenza, tuberculosis and other serious respiratory diseases that result in so many deaths each winter.

Any sudden change in temperature as you go from a warm room into a cold one disturbs the heat-regulating apparatus of the body and makes it susceptible to the vicious attacks of "cold germs."

Your health and that of your family is your most valuable possession. Guard it this winter with proper ventilation and adequate heat in every room in the house. COMMUNITY NATURAL GAS COMPANY.

Tune in each Thursday night at 6:45, WFAA-WBAP, beginning October 17, for vital facts to help you guard your family against Public Health Enemy No. 1

America's Public Health Enemy Number One, the common cold germ, is marshalling his forces for winter!

CORN AND HOG VOTE WILL BE TAKEN OCT. 26

Farmers Are to Decide Whether Adjustment Program Shall Continue in U. S.

The men who raise and sell corn and hogs will decide on October 26 whether the corn-hog adjustment program sponsored by the government shall be continued for the year 1936.

A number of Scurry County hog raisers and a few corn raisers are eligible to participate in the nation-wide vote. The referendum ballot will be simple. It reads like this: "Do you favor a corn-hog adjustment program to follow the 1935 program which expires November 30, 1935?" This proposed ballot follows the general plan of the entire AAA program—letting the farmer decide whether they shall continue under various phases of the cooperative control program.

All corn-hog contract signers can vote, as well as all farmers who have raised hogs for sale. Those who have raised hogs for home use only are not eligible to vote. The election will be held in the courthouse on Saturday, October 26, 8:00 a. m. to 9:00 p. m.

Big "Brown" Saturday. Pat Brown and son, Harold, report that last Saturday was the best selling day they have enjoyed in several months. They are looking forward to a hefty fall business within the next month, and are ready not only with a full stock of groceries but with a recently installed meat market manned by Buck Williams.

Moratorium Asked By County Farmers Under Federal Act

Since the new Frazier-Lemke Bankruptcy Act, as re-enacted by last session of Congress, giving farmers three years moratorium where they have been foreclosed or being sued, two cases have been filed in Scurry County during the past two weeks, according to Ben F. Smith, conciliation commissioner for Scurry and Borden Counties. These farmers were sued judgment taken, and their property advertised for sale. When the farmer files his petition with the conciliation commissioner, all actions by state courts are set aside, the federal courts grant three years moratorium, and the farmer remains in possession of his property. The farmer pays rent on the customary basis then prevailing in the county where the property is located.

"The first yearly rental is due one year from the date the farmer is given moratorium. The conciliation commissioner becomes referee for the farmer's property.

Presbyterian Church

"Love Imperishable" will be the theme for the morning worship service at 11:00 a. m. Sunday. This will conclude a series of three sermons on the general theme of "The Hymn of Love," the 13th chapter of I Corinthians.

Theme for evening worship service at 7:30 p. m. will be "The Light of the World," the second sermon in a series on the general theme "The Proclamation of the King," based on the Sermon on the Mount. Sunday school will meet in all departments at 9:45 a. m. with a special worship service under direction of Mrs. Alfred M. Dorsett. Christian Endeavor will meet at 6:30 p. m. to continue the study of "Principles of Jesus," and to launch into an attendance and membership contest which was initiated last Sunday evening.—Alfred M. Dorsett, pastor.

Four County Girls in Denton State College

Four Scurry County girls have enrolled in Texas State College for Women (CIA) for the fall semester of the 1935-36 session. Three of these girls, including Misses Jeanette Lollar, Mary McCarty and Frances Northcutt, are from Snyder. Miss Farris Stevenson is from Hermitage.

Registration of over 2,200 students ranked the institution as the largest women's college in the world. Two hundred and four Texas counties are represented, 18 states and three foreign countries.

First Christian Church

Bible school, 9:45; morning worship, 10:45; evening worship, 7:30. We were all made happy last Lord's Day by the presence of our former Bible school superintendent, R. S. Snow, Mrs. Snow and their little daughter.

Our Bible school work is progressing nicely. Of course we want all the pupils we can properly teach, but our chief aim this year is more thorough teaching and regular attendance of those pupils now enrolled. The teachers are all cooperating splendidly with the superintendent and are doing their best to teach a little better this year than they did last.

The subject of the morning sermon is "Miracles in the Christian Dispensation." Subject for the evening sermon is "When We Meet God Face to Face." The morning sermons are doctrinal in nature. We are trying to learn more of what the Bible teaches concerning such great themes as "The Terms of Pardon," "The Church" and "Miracles." The evening services are of an evangelistic nature. Everyone welcome.—G. E. McPherson, minister.

Stinson No. 2 Has Pyramided Display

A new display counter built in the modern manner has been installed recently at Stinson drug store No. 2, west side of the square.

The pyramided counter, which gives space for many displays in a minimum of space, was constructed by a local carpenter. It replaces glassed display cases formerly used in the center of the store. A. E. Wiese and J. D. Scott say their customers have volunteered many favorable comments about the new fixture.

Christian Jew Has Two Good Services At Baptist Church

Two good services were conducted at the First Baptist Church Sunday by Rev. Joseph Cohen, a Christian Jew, reports Rev. Lawrence Hays, pastor.

In the morning the visitor spoke on "The Jew and Christianity." He traced the history of the Jews through Old and New Testament times to the present, and said their dispersion was but the forerunner of a world-wide movement toward a Christian Jewish people. He cited the recent exodus of Jews from Germany to Palestine as a major event leading toward rebuilding of Jerusalem as a Jewish center.

In the evening, after the church had observed baptismal and the Lord's Supper services, the speaker portrayed the orthodox Jew's practice of the Passover feast, and told of the holy supper's significance to the race. He declared, in a powerful word-picture that kept his hearers listening intently, that Protestant churches as a whole are failing to realize the true significance of what it means to be a Christian, and that they are therefore holding back Jesus Christ from a world that longs to know of Him.

Future Farmers of Hobbs School Visit Experiment Station

The future farmers of Hobbs High School, with their advisor, visited the state experiment station at Spur several days ago.

The boys went principally to see the calves, but unfortunately most of the calves had been shipped. S. S. Lively, assistant superintendent, told them the ration that was fed to the calves. The ration was to prove that calves could be fed indefinitely on cottonseed meal if enough vitamin A was fed with it. Alfalfa hay and cod liver oil contains the necessary vitamin A.

Mr. Lively then showed the boys the trench silos and a relief map of the farm. The whole farm contains 400 acres.

The following made the trip: Ardis Murphree, Marvin Scott, Walter Weems, Carol Kincaid, English Dooley, Malcolm White, Calvin Phillips and John Akers.

Charlie Byrd of Lefors is visiting with his parents, Mr. and Mrs. J. H. Byrd.
