## THOUSANDS EXPECTED TUESDAY FOR PARADE-PAGEANT

### CROSS PLAINS SELECTED FOR FALL MEETING

Stamford Pastor Named Moderator  
By Abilene Presbytery at Meeting in Snyder.

Cross Plains was selected as the fall meeting place and Rev. William F. Rogan, Stamford pastor, was named as moderator of the Abilene Presbytery during the spring session of the church group here Tuesday and Wednesday.

Thirty-five visiting delegates from a wide West Texas area were entertained in local homes. They were fed by local church women at the First Presbyterian Church basement Tuesday noon and evening, and at the same place Wednesday noon by women of the Fluvanna Presbyterian Church.

The presbytery will go to Cross Plains Tuesday, October 13. Rev. Rogan, a youthful minister who has won the high esteem of his associates during only seven months in the presbytery, was named to the highest presbytery post to succeed Dr. Charles W. Estes, pastor at Eastland.

Estes Succeeds Dorsett.  
Dr. Estes was named at closing sessions as stated clerk to succeed Rev. Alfred M. Dorsett, former local pastor, now assistant pastor of the Cliff Temple Presbyterian Church, Dallas. Rev. and Mrs. Dorsett were here during the two-day meeting to assist in entertaining visiting delegates.

Rev. Eugene Surface of Waxahachie, a member of this presbytery, was chosen as principal delegate to the general assembly of the Presbyterian Church in the U. S. A., which convenes at Columbus, Ohio, late in May. Rev. H. G. Markley of Breckenridge is alternate. Speakers from out of the presbytery were Rev. Raymond H. Leach, president of Trinity University, Waxahachie, and J. H. Read, director of the Reynolds Presbyterian Home, Dallas.

Play Outstanding.  
An outstanding feature of the meeting was a play, "Into Thy Kingdom," given Tuesday night by young people of the church under direction of Mrs. W. R. Luce. The cast follows: Vivian Chenault, Irene Wolcott, Blossom Lee Green, Dickson Poe, Bo Moffett, James Patterson, Horace Roe, Olsen Brown. Several delegates were so well pleased with the play that they requested it for their churches in the near future.

Visiting ministers who took an active part in the program included: Rev. E. B. Surface, Abilene pastor; Rev. J. L. Cleveland, Abilene, field superintendent of missions; Rev. R. A. Walker, Merkel and Baird pastor; Rev. J. A. Owen, Albany pastor; Rev. L. B. Gray, Ranger pastor; Rev. J. J. Richardson, Kent pastor (Dallas Presbyterian); Rev. S. P. Collins, Cross Plains pastor.

### Marshal Urges That Drivers Be Careful

John Lynch, Snyder's new marshal, asks The Times this week to urge that all citizens cooperate in observing traffic regulations. He places special emphasis on speed laws and stop signs. "With traffic increasing, we are liable to have some serious accidents in the business section, especially, unless we drive carefully and with due regard for the other fellow," Lynch said yesterday.

### WANTED!

Pete Bridgeman, parade marshal, is sending out a call this week for good saddle ponies and saddles that may be used next Tuesday to keep the parade in proper order.

Joe Monroe, one of Pete's right-hand men, wants old-time cowhands who can ride—and who have some horseflesh to ride—to see him as soon as possible about having a place in the parade.

East Lander, member of the C. of C. parade committee, wants you to see him at once if you have a car of ancient make that is still in running order.

If you can't find the man you want to see, please call at the Times office and maybe we can put you on the right track.

Wanted: Everybody to help make Tuesday the greatest day in Scurry County history!

### EXTRA!

The Times will print an extra edition for Saturday delivery that will advertise the Centennial program next Tuesday in full detail. Copies of the edition will be distributed by the thousands to all communities of Scurry and adjoining counties.

Organizations that will take part in the parade are urged to secure copies in order to learn exactly how the parade will be formed.

A large amount of news that is being omitted from this issue of The Times will be included in Saturday's extra. If you want a copy, call at the Times office. They will be free.

Clayton Steers Sell in Kansas City at \$9.50 per Hundred

The steers that went from the Clayton Ranch in Borden County, by way of the Santa Fe from Snyder, late in March, brought \$9.50 per hundred on the Kansas City, Missouri, market, according to the Fort Worth Star-Telegram.

The huge animals, 36 of them, averaged 1,611 pounds after making the long railroad ride. They were by far the largest animals from Texas sold at Kansas City on the day of sale, the next highest sale, from Lubbock, being at \$8.50.

Based on the average quoted in the Star-Telegram, the animals weighed a total of 57,996 pounds. At \$9.50 they brought a total of \$9,099.62, or an average of \$153.04 per head. This price was slightly less than anticipated, since the market dropped on that grade of cattle after the animals were shipped.

As a group, the steers represented one of the heaviest shipments of high grade beef made out of Snyder in recent years.

### HEAVIEST RAIN OF 1936 BRINGS SMILES TODAY

Three-Quarters to Full Inch Relieves County's Parched Pastures, Fields and Gardens.

Scurry County was partially soaked Wednesday night by the heaviest rain she has had since late last fall. Coming on the wings of a driving wind that did slight property damage in various parts of the county, the rainfall totaled three-quarters to one inch in most of the trade territory. The fall in Snyder was .80 of an inch.

Pastures, fields and gardens that have been parched by the near drought of recent weeks were given a new lease on life, although more rain is yet needed.

The heaviest fall of the year up to Wednesday night, except in a few scattered communities of the county, was 44 of an inch March 8. A total of 39 fell January 30, 25 on January 19, and 12 on February 16.

The year's total through last night's rain is 20 inches. Rainfall and young windstorms were general over most of West Texas.

Heavy clouds began rolling just before dark Wednesday. At 8:10 a heavy gust of sand for five minutes preceded the blowing rainstorm.

Local Boy Gets Mentions.  
Walter Neely Williams, son of Mr. and Mrs. Walter W. Williams, made an average of 85.5 during the past term at Schriener Institute, Kerrville, receiving honorable mention from school officials. The Williams family resides west of town.

Mayor Towle Expresses Appreciation to Citizens for Continuous Support

Mayor H. G. Towle makes the following statement to the citizens of Snyder on the heels of his re-election last week:

"I would indeed be ungrateful if I did not express my appreciation to my friends for the confidence they have manifested in me after serving them ten years as mayor.

"Several people asked me why I did not solicit the citizens for their votes. I will answer in this way: I have never been in politics. Personally, I have never announced for mayor. My announcement has in every instance been made and paid for by citizens of Snyder, and just who they were I do not know.

"Something over ten years ago I was approached by a committee of four citizens to submit my name as a candidate for mayor. I turned them down first because I did not feel that I was qualified; second, because no man in business can hold a public office without some friction and loss of considerable business.

Interest and Principal.  
"It is impossible to meet the demands of all the citizens in any town or city. By the time you pay the interest and principal payments on bonds and warrants the citizens have voted on themselves, there is very little money left with which to run the city. As a result, someone will become angry because the City Council has to turn down his proposition.

"I therefore thanked the committee kindly, and told them that I just could not afford to consider it from a business standpoint. One of the committeemen said: 'We will see that you receive a salary that

A number of Fluvanna citizens, in addition to local people, were present for the annual Easter service here.

### Visitor at Lions Club Cites Trio of Texas Needs

New beauty, new cleanliness and a renewal of hospitality were cited by Dr. Charles W. Estes, Presbyterian pastor at Eastland, as prime needs for Texas and West Texas as a whole during this Centennial year. "And this lively club is a suitable place to start such a rejuvenation," he declared.

Dr. Estes was attending the two-day Abilene Presbytery meeting here. He is retiring moderator.

Jimmie Greene of Colorado, recently named to enlist West Texas Chamber of Commerce members to participate in the Frontier exhibit at Fort Worth, outlined the plan to the club. He was accompanied by Joe Pond, a past president of the Colorado Lions Club.

Other guests of the day were John B. Griffin of Abilene, County Commissioner; H. E. Brock and Holly Shuler and Leon Gunn of Camp Springs.

## Chicken dinner to starboard!

"Here comes a rooster, floating by on a chicken coop! The repairman is rowin' out to catch him—we'll have chicken stew for supper!"

In the flood-swept little river town, only the telephone operators remained, keeping the lines open for levee workers fighting the angry torrent. And at sundown, by long distance, the marooned office reported all well—and a chicken dinner in sight!

Good times and bad, it takes people to give you telephone service—men and women with the ability to do a good job in fair weather, and the courage to stay at their posts when emergencies threaten.

The entire specialized organization of the telephone system—this company, the expert staff of American Telephone and Telegraph Company, Bell Laboratories, Western Electric—exists for one purpose only:

To help the men who patrol the lines, and the women who work at the switchboard, do a better job of giving you good, economical telephone service.

THE WEEKLY DOZEN

Attention, Weather Man. Pessimism Pete says next Tuesday's parade will be truly typical of the good old days if we are visited by a gushy sandstorm.

A Suggestion to Milady. Talkative Tillie advises other members of her sex to watch the fashion portion of the parade carefully.

Greatest Show in County. Many folks are slow to realize that next Tuesday's parade will be by far the greatest event of its kind ever staged in Scurry County.

To Make the Day Complete. No matter how colorful Tuesday's parade may be, we can not escape a reminder that most of the old-timers who made Scurry County history will be looking down on the celebration from an everlasting home.

To J. Wright Moorar. Scurry County has been too long in paying proper tribute to J. Wright Moorar, who is undoubtedly her most widely known pioneer.

Religion's Role. The parade committee believes the great mass of people will be as much interested in the religious section of the parade as in any other.

While Paying Tribute. While tribute is being paid to those having a large hand in the Centennial celebration, let us not forget any who have been responsible for major portions of the parade or pageant.

After the Parade Is Over. After the parade is over, Pete Bridgeman can probably be given much of the credit for its success. He has worked and is working long and hard on making the proper plans for getting the parade started right and then marching right.

How the Celebration Started. To C. Wedgworth, Snyder superintendent, must go credit for inaugurating the local Centennial celebration idea.

The Story of Marching Men. Marching men in the parade will remind us not only of the glories that surround our World War veterans almost twenty years after the conflict, out of the ever-present necessity for keeping armed forces for defense.

Organizing the Pioneers. Just as Scurry County has neglected J. Wright Moorar and a few other men and women who helped break trails into this area, so have we neglected most of those other pioneers who came to this friendless country forty years ago and more.

My Ignorance, and Yours. The Tuesday celebration will have accomplished much if it brushes up some of our minds on Texas history. In many cases, the outside world knows more about the defense of the Alamo, the Battle of San Jacinto, the drawing of the black beans, and other vivid events, better than Texans.

J. Alton Burdine, University of Texas: "What is needed, and what has been lacking in one possible exception in Texas history, is a governor who will have the mental and moral stature to lead the way out of the tail-end position that our state (government) now occupies among the United States."

Senator Kenneth McKellar, Tennessee: "Hoover added to the national debt \$5,000,000,000 in two years and two months, and, so far as beneficially affecting the depression is concerned, he might as well have gotten together \$5,000,000,000, reduced it to ashes, and then scattered the ashes in the ocean! On the other hand, Roosevelt spends \$3,800,000,000 in three years, makes the country prosperous and happy, and restores prosperity to our people."

Yesterday They Came.

Better have it said, "There he goes," than "Here he lies."—Neils Larson.

Yesterday a land of promise . . . and tribulation . . . beckoned men and women of East Texas, South Texas, North Texas and a dozen other sections. They came to the heart of what we now choose to call West Texas.

It was a land of tremendous possibilities, they knew. Nor sand nor drought nor Indians nor loneliness could stop them in their quest for the unknown quantity that has drawn men and women of every age to move to the great beyond.

West Texas . . . and in some degree, the part of her that is now Scurry County . . . became known as the hospitality center of the world. The early settlers were neighbors to everyone.

As railroads and comforts came, as the growing West was slowly but surely modernized and linked with neighbor states and communities, that hospitality decreased. Maybe there was less need for hospitality. Maybe hospitality became less of a virtue because men and women became slightly calloused in character when civilization stepped in.

At any rate, this modern generation is inclined, in its less thoughtful moments, to pass the stranger by with less friendliness; to let even its lifelong friends be shunted to the rear by the hurry of the age.

With the greatest celebration in Scurry County history only a few days away, can we do less than revive the old-time hospitality that made West Texas the mecca of those who preferred freedom and tribulation to the civilization of older generations?

Can we do less than convince the pioneer who still holds fast to old ideals of hospitality that he is not only welcome to share the fruits that his hands first created, but that he is revered and honored for his influence and his labors?

Talkative Senators.

Passing of the late Senators Huey Long and Thomas P. Schall took from the United States Senate two of the most talkative members in recent years. In 1935 Senator Long averaged three times as many words on the Senate floor as any other member.

CURRENT COMMENT

BY LEON GUINN.

Of prime interest to each and every West Texan is soil conservation, a subject that has played a vital part in the rise and decline of races and empires for 3,000 years. . . . The Soil Conservation branch of the U. S. Department of Agriculture is now chiefly concerned with the dust bowl area of Kansas, Oklahoma and the Texas Panhandle, seeking ways whereby 565,000 denuded, deforested acres of eroded land may be salvaged to halt the march of a future American Desert across the Midwest. . . . As far back as 400 B. C. the Chinese practiced scientific soil control, contouring hillside rice fields, irrigating fertile valleys with crude ditches that protected, by water level, the erosion of alluvial silt deposits. . . . But Chinese agriculture declined with soil erosion, just as our American race of Cliff Dwellers perished when a severe drought dried up irrigation canals. . . . The Incas of Peru had mastered the problem of erosion before Columbus discovered America, so history relates, and the opinion by J. E. Pierce, University of Texas, that we are in the heart of a triangle dealing with Pueblo and Mound Builder culture, makes soil conservation a thing that predates written history.

This writer has been corresponding with George A. Dutchie, acting chief, Division of Information, U. S. Forest Service, Washington, concerning soil conservation, present goal of U. S. Department of Agriculture being to cover the dust bowl area with legume crops, quick rooting grasses so far as possible, in order that the poison laden dust of the area might not "sweep down across the sand hills of West Texas, drying out already limited moisture." . . . It seems to me salt cedar, one of tomorrow's tools in fighting erosion, could be utilized in the area, salt cedar catching blowing soil encompassing an area of 25 feet. . . . Salt cedar has the habit of sprouting out again, if only a few branches are left uncovered, and with the same forces set in motion by nature when man makes bare of vegetation a vast area of limited rainfall, it is logical those same forces can rebuild again the dander upping term of "dust bowl area," thousands of nude, sterile acres being made fertile by the use of salt cedar, tomorrow's tool of science and leavening condiment of the tree world.

President Roosevelt: "However we may divide along the lines of political or economic faith, all right-minded Americans have a common stake in extending production, in increasing employment and in getting away from the burdens of relief."

The Times Creed:

For the cause that needs assistance; For the wrongs that need resistance; For the future in the distance, And the good that we can do.

Final Rites for Former Resident Held Wednesday

Refreshing Relief When You Need a Laxative

Because of the refreshing relief it has brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. It is very economical, purely vegetable, highly effective. . . . Mr. J. Lester Roberson, well known hardware dealer at Marshallville, Va., writes: "I certainly can recommend Black-Draught as a splendid medicine. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

**District Attorney's Job Being Sought by Zollie C. Steakley**

Zollie C. Steakley, Sweetwater attorney, announced this week that he would be a candidate for the office of district attorney, 32nd judicial district, which includes Scurry, Mitchell, Borden and Nolan Counties. His candidacy is subject to action of the Democratic primaries.

Mr. Steakley, a native West Texan, was graduated with an A. B. degree from Hardin-Simmons University, Abilene, after which he attended the law school of the University of Texas, being graduated from that institution with the degree of Bachelor of Laws. He has been practicing law in Sweetwater since his graduation four years ago. In making his announcement, Mr. Steakley, among other things, stated that in his judgment "four of the most important characteristics of an able prosecuting attorney include: first, aggressive prosecution; second, economy in the expenditures of money incident to investigation and prosecution; third, thorough and effective assistance to the grand jury; fourth, a vigorous execution of all grand jury indictments."

And then Mr. Steakley added: "I simply say to the voters of Scurry County and this district that I shall, if honored with the office, give my best toward being this type of a prosecuting official."

"The district attorney's office must assume the major responsibility for law enforcement," Mr. Steakley further said in asking the voters of the district to place that responsibility upon him.

**Thanks Voters.**

I wish to thank Snyder voters, through The Times, for their support of my candidacy in the recent city election. It was a clean-cut, above-board race, and I congratulate John Lynch, new city marshal and tax collector. I wish to assure Mr. Lynch that he will have my fullest cooperation in my capacity as deputy sheriff.—Sid Bruton. 1tp

**Evelyn Erwin on Honor Roll.**  
Miss Mary Evelyn Erwin, Baylor University student from Snyder, made the Baylor winter term honor roll, according to an announcement from the registrar's office. To win a place on this roll it is necessary for a student to make grades of B plus or better in all courses. Miss Erwin received a personal letter of congratulation from Dr. E. N. Jones, Baylor dean.

**Are You Gambling Every Day?**

It is not necessary for you to shoot craps to gamble, neither is it necessary to bet on horse races. There are folks who go on day after day suffering with indigestion, heartburn, stomach ulcers, acid dyspepsia, gasiness, sour or upset stomach, bloating, constipation, bad breath, sleeplessness, headaches, tired feeling, despondency, due to excess acid. And in this way they are gambling with their most valued possession, which is their good health. Why not give Gas-Tons (the scientific tablets) an opportunity? They may give you the relief you yourself expect; if not, your money will be refunded. You take no gamble here. Gas-Tons are sold in Snyder by Irwin's Drug. Trial size bottle (25 tablets) \$1.00; 100 tablets \$3.00. 42-4tc

**M. B. Noel Comes Out This Week for Job in Precinct 2**

Announcement was made late last week by M. B. Noel of the Democrat community that he will be a candidate for commissioner to succeed Holy Shuler, who has announced that he will not be a candidate for re-election. The name of the new candidate will be found in this week's announcement column.

Resident of the county for a number of years, and of the Democrat community for some time, Mr. Noel feels that he knows the people and their needs, and that he is qualified to assist in handling a "airs of the county and his precinct."

"I will deeply appreciate the vote and influence of every citizen in my precinct," declared the candidate late last week, "and I shall attempt to see each and every one before the campaign has ended."

The spring term of district court ended last week after a rather "hot" three-week session. No cases were tried after The Times was issued last week. Officials of the court are in Gall this week for a one-week term.

**"Cyclone" Davis, Tall and Colorful, Visits in Snyder**

The gaunt form, black hat and silver-grey beard that visited Snyder Wednesday afternoon belong to "Cyclone" Davis, whose political career two decades ago, and later, stamped him as one of the most colorful products of the Woodrow Wilson era.

"Cyclone," now 81 years of age, continues to parade up and down the country as if the snow of many campaigns and winters had not whitened his hair and beard. Yesterday he was accompanied by his eldest son, Arlon, who may be remembered by old-timers as the youngest bank president in Texas (at Rotan) and as the youngest mayor in Texas (also at Rotan).

The former congressman, commissioner of Indian affairs, and vice presidential nominee, with his son, appeared in high school assembly this morning.

The two Davises were selling a book, "Memoir," profusely illustrated, written by "Cyclone," which chiefly concerns the Texan's colorful career.

**FOR ATTORNEY**

George W. Outlaw of Sweetwater, serving his first term as district attorney, has announced as a candidate for re-election. He submits his record during his first term as the chief basis for his re-election platform.

**First Methodist Church**

We are grateful to all who helped with the good services held in our church last Sunday and the Sunday before.

We are happy to be home again, and back in the regular work here. Let us all find our places in next Sunday's services.—H. C. Gordon, pastor.

**First Christian Church**

Bible school, 9:45 a. m.; morning worship, 10:45; Christian Endeavor, 7:00 p. m.; evening worship, 8:00. Subject of morning sermon, "The Compassion of Jesus." Subject of evening sermon, "Paul's Answer to King Agrippa."

The Men's Bible Class, taught by A. J. Cody, is growing rapidly. All men and boys not attending Bible school elsewhere are invited. You are missing a treasure if you don't attend. This class meets at 9:30 a. m. and participates in a 40-minute song service under the leadership of Lawrence Dever.

We are looking forward to new growth and new activities in our church and its work as a continuation of our pre-Easter revival. Come and help us grow and accomplish great things for the Master. Every one welcome.—G. E. McPherson, pastor.

**Competition Strong In Abilene Contest**

Competition was strong at the annual West Texas high school band contest in Abilene the past weekend, according to Fred P. Rattan, director of the local Tiger Band, which entered the contest Saturday.

Although the local group performed well, they did not place in the competition. Thirty-four band members made the trip, chaperoned by a group of teachers and parents. The local boys received valuable pointers from other performers to make them more determined to work toward perfection and enter again next year, said Rattan.

Eastland placed first in class B, Bowie was second and Coleman ranked third in Snyder's division of Saturday's contest.

**Ford - FOR ECONOMY**

**"The Ford V-8 uses less fuel and oil for the power it gives than any other car we have ever made AND ITS UP-KEEP COST IS THE LOWEST"**

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better. For, the fact is, it's way down the list.

The big items of car economy are low first cost, low up-keep cost and low depreciation. Savings here can make a great deal of difference in cost per mile. Gasoline mileage is more of a talking point than an economy factor.

Check up and you will find that the difference between 17 and 19 miles a gallon is less than \$10 for a whole year's average driving (8400 miles at 18 cents a gallon). Here are the big items that make the Ford the most economical car:

- More value for every dollar you pay.
- Lower cost for repairs and service.
- Long life. Slow depreciation.
- Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. No other car under \$1645 has a V-8 engine. No other low-price car has Center-Poise Riding, safe, sure mechanical brakes and Safety Glass all around at no extra cost.

The aged woman, wife of the city fire marshal and long-time Woodmen official, had resided in Scurry County for 29 years. She had been a member of the Methodist Church for 70 years, and was one of the first graduates of Sam Houston Normal College, Huntsville. She was born in Linden, Cass County, November 29, 1855.

Funeral services were held Friday afternoon, 3:00 o'clock, at the First Methodist Church, with Rev. Lawrence Hays officiating. Odom Funeral Home was in charge of burial in Snyder cemetery.

This week's patients include the following, all of whom were still in the hospital yesterday: Miss Oia Floyd, surgery; Mrs. Edna Holmes, surgery; Mrs. Edna R. Milliker of Westbrook, medical; Dr. J. G. Hicks, medical.

Honorary pallbearers were Fred Grayum, J. C. Stinson, A. E. Duff, J. R. Joyce, Joe York, J. C. Maxwell, Will Williams, Joe Caton, T. Cornelius Davis, Harry Lee, E. B. Baugh, D. N. ### Here's How Soil Conservation to Apply in County

How the new Agricultural Adjustment Administration soil conservation program may work out in Scurry County is explained briefly by W. R. Lacey, county agent.

"Take a typical farm of 70 acres. Native pasture and the land around barn and house and lots cover a total of 28 acres, garden and orchard take up two acres. The remainder is normally divided between 80 acres in cotton and 50 acres in feed, mostly grain sorghums and a little cane.

"The soil depleting base would be 130 acres in this case. The minimum requirement to qualify for a grant calls for at least 20 per cent, or in this example 26 acres devoted to soil conserving or soil building crops or practices. Since there is very little more feed than his stock needs, most of the shifting will have to be made from cotton acres.

"Suppose this farmer feels that he must have at least 56 acres of cotton to get along. That will give him 24 acres for soil improvement plantings, but he needs two more acres to qualify, so he takes out two acres of grain sorghums to make up his 26 soil conserving acres. He may plant these to legumes or pasture grasses, or to small grains to be pastured or turned under. There are other possibilities, but these are the chief ones.

"He finally decides on 20 acres of sudan grass pasture and six acres of cowpeas to be pastured off and turned under. This helps the land and at the same time makes his feed supply safe. So with 56 acres of cotton, 48 acres of grain sorghums and cane, six acres of cowpeas, 20 acres of sudan pasture, garden, orchard and a little native pasture, this farmer has a pretty fair farming system."

Mr. and Mrs. Cloyce Drinkard were guests of their parents, Mr. and Mrs. J. S. Lewis and Mr. and Mrs. J. G. Drinkard, here from last Thursday until early this week. Mr. Drinkard is a student in Texas Technological College, Lubbock.

Mrs. Mattie B. Trimble had as guests Saturday her daughter-in-law, Mrs. Homer Trimble, and two sons of Austin.

Mrs. H. H. Ellard returned home Saturday night from Quanah, where she attended the funeral of her niece, Pauline Claybourne, who formerly lived here.

### Dallas News Tells How Rev. Dorsett Lost Purse and \$23

The Dallas News late last week related this tale of the Rev. Alfred M. Dorsett, pastor until this month of the First Presbyterian Church, Snyder.

"Synthetically the Rev. Alfred M. Dorsett, 6033 Richmond, assistant pastor, City Temple Presbyterian Church, listened to the plea of a handout Wednesday.

"And whether Mr. Dorsett's thoughts were occupied with the parable of the Good Samaritan was not disclosed. Nevertheless he listened—and heeded.

"Accosted near the Y. M. C. A. Building on North Ervay, he took a neatly-dressed 20-year-old man to a nearby restaurant, paid for the meal and departed.

"A few minutes later D. E. Huckabay, attendant at a filling station at Ross and Lamar, saw a man throw something in the gutter. Investigating, Huckabay found Mr. Dorsett's billfold and credentials. He followed the man to Houston Street, where he saw him enter a small store. When he returned a few minutes later, he found the man had purchased a shirt and discarded his old one.

"Mr. Dorsett later reported to the police he lost \$23."

### Mothproof Cleaning Process Offered by Jack Colwell's Shop

A new process of clothes cleaning, which renders clothes moth proof while they are being cleaned, has recently been instituted by Jack Colwell. This method, known as the Monte mothproof cleaning process, is absolutely harmless, odorless and non-poisonous, says Colwell.

The local tailor explains that the process involves the use of a special chemical solution in the regular cleaning fluid, and that fabrics so treated are made moth-resistant in every fibre. It was pointed out that any other method of mothproofing is less efficient, since creases, seams and hems might be overlooked or be actually inaccessible.

Jack Colwell's shop is Snyder's exclusive licensee for the Monte process, that privilege having been extended by the Monte Company of St. Louis, Missouri.

Garments treated by the Monte process are insured against moth damage for a period of six months. The insurance offered by Colwell is carried by one of the country's larger insurance companies.
