## Mother of Local Woman Succumbs Here This Week

Last rites for Mrs. R. Medlen, mother of Mrs. W. J. Ely of Snyder, who died in a local hospital early Sunday after a prolonged illness, were said Monday morning at the First Methodist Church here, with Rev. M. C. Bishop of Post, an old friend of the family, officiating. Rev. H. C. Gordon assisted.

Another service was held at the graveside in the Masonic Cemetery, Abilene, where a number of local friends of the family, and others from various points in West Texas, paid tribute to the pioneer mother. Odom Funeral Home was in charge.

For 18 years Mrs. Medlen had been a resident of Roaring Springs, where her husband died seven years ago. She had been in Snyder only a few days when the end came.

Martha Jane Lewis was born October 4, 1860, in Newton County, Missouri. She was left an orphan in early childhood. At the age of seven years she came to Texas with an aunt and uncle, settling near Denison. She was married to Robert Medlen at the age of 22 and the couple moved to West Texas in 1892. She had been a member of the Methodist Church for a number of years.

Survivors include seven children, all of whom were at her bedside when death came. They are as follows: Mrs. A. B. Cranston, Abilene; Miss Bessie L. Medlen, Roaring Springs, with whom she resided; Mrs. Ely Snyder; Mrs. G. C. Henderson, Claremont, California; Mrs. Arlie Carpenter, LeFors; Mrs. W. K. Bagley, Eastland; Robert Medlen, Florida. Fourteen grandchildren also survive.

Active pallbearers at Snyder and Abilene were W. M. Scott, Lee T. Stinson, A. W. Arnold, L. G. Ely, A. D. Erwin and R. J. Randals. Misses Mary Curlette, Frances Sears, Irene Taylor and Louise Bowers were in charge of flowers.

## Seventh Graders Of Area Schools Graduate May 20

More than 100 seventh graders of several Scurry County schools will gather in Snyder High School auditorium on Wednesday evening, May 20, at 8:00 o'clock, for the annual county-wide seventh grade graduation exercises.

The county-wide year plan was inaugurated several years ago by Pat Bullock, now candidate for state superintendent. A full program that will involve leading students from the various schools, and an address by a well known speaker will feature the exercises, says Frank Farmer, county superintendent.

County-wide examinations will be given Monday morning, May 18, and teachers are requested to bring the papers to the county superintendent's office that afternoon. If the crowd comes up to the standard set for several years, several hundred school patrons will be on hand Wednesday evening.

## MAY 23 FINAL SIGN-UP DATE ON CROP PLAN

Extension Given; Filling Out Work Sheet Does Not Obligate the Farmer to Use Program.

The closing date for filing an application for a grant under the new Soil Conservation Program has been extended until Saturday, May 23. This word was received by the county agent's office Monday.

All farmers in Scurry County should fill out a work sheet for their farm. This is good business, costs nothing and does not obligate the farmer, but it does put him in position so that he can always apply for grant later if he finds that his farming practice for 1936 has made him eligible. It might be a good crop insurance in case of drought.

Several new rulings that were received this week which will be of help to this county are given below:

1. Two rows of grain sorghums may now be planted with one row of cowpeas, and will be counted as two-thirds soil depleting crops and one-third soil conserving crop. This is a change from the first ruling, which required equal number of rows of grain sorghum and cowpeas. Now farmers may plant either grain sorghums and cowpeas in alternate rows, two and two, or two rows of grain sorghums and one of cowpeas. Farmers are cautioned that a crop of cowpeas must be produced to count if at all possible, but the peas may be planted late in the summer provided a crop can be produced. Farmers should also keep in mind that only the part of the land planted as named above to cowpeas count as soil conserving.

Illustration of Plan. To illustrate: You are retiring (or retiring) 20 acres of soil depleting crops (cotton, grain sorghums, wheat) land and you are going to put this entire 20 acres in peas planted with feed in two rows of grain sorghums and one of peas. Sixty acres of land will be needed to be planted this way to qualify, since 40 acres of this land has feed grown on it and only 20 acres will have cowpeas on it.

2. Sudan grass may be pastured or grazed, harvested for seed or hay for home use, or left on the land.

3. Oats harvested for hay or grain for home use may be considered as a soil conserving crop if followed by a crop of sorghums this year.

## First Child Born In Snyder Visits In Town Briefly

W. D. Fugatt, said by J. Wright Moor and other old-timers to be the first white child born in the town of Snyder, made a long-delayed call Sunday to the city of his birth.

Fugatt was accompanied by his wife and by his aunt, Mrs. Alonzo Jacobs, now of North Hollywood, California. The latter's husband and his brother, J. R. Jacobs, both former county residents, are remembered by many old-timers here. The group that visited here Sunday had been guests of J. R. Jacobs at El Paso.

## Rains in County Gradually Boost Year's Prospect

Prospects for an average crop year in Scurry County have been gradually improved during the past month, as shower after shower fell in scattered communities.

Within the past week every section of the county has received rainfall ranging from showers to heavy downpours.

In Snyder the fall has totaled only 59 of an inch for the four showers that fell Thursday, Sunday, Monday and Tuesday. In many other parts of the county, however, these falls were heavy, and only a few scattered localities have failed to receive at least an inch of moisture during the wet spell.

Snyder registered 26 Thursday, 65 Sunday, 63 Monday and 15 Tuesday night. Planting of cotton and feed is progressing rapidly. Wheat and other grains are extremely spotted, but an almost-average yield is in prospect. Gardens, for the most part, are taking a new lease on life. Except in the localities where heavy rains have fallen within the month, pastures are still needing plenty of moisture.

### Young Sparrows' House Disturbed! Firemen to Blame

Those mean old firemen disrupted a happy home last week. They moved the ancient fire siren from its resting place just behind the fire hall. The loud-mouthed screamer now rests atop the building on the southwest corner of the square that is occupied by Jack Colwell's tailor shop.

Several newly-hatched sparrows were waiting with open mouths for Mama Sparrow when the fire boys mounted the scaffold to bring down the heavy siren. Their nest may have been the reason for the noise maker's failure to carry to all parts of the town recently.

With sparrows' nests removed and the siren located higher and more centrally, Chief N. W. Astry thinks some of his sleepy-eyed firemen won't have much excuse for missing fire calls in the wee hours of the morning.

## Lillian Logan Named "Ideal Girl" by High School Girls' Club Tuesday

Lillian Logan, senior class president, was chosen by the Girls' Club of the local senior high school Tuesday morning as "Ideal Girl for the Second Semester, 1935-36."

Ballots were passed to club members at the close of an inspirational talk by Superintendent C. Wedgeworth. The speaker was introduced by Miss Mattie Ross Cunningham, club sponsor.

Superintendent Wedgeworth, in the course of his talk, named and discussed seven characteristics of an ideal girl. At the close of it girls were asked to grade themselves honestly on those characteristics—character, fidelity, industry, personality, courage, service and leadership—and results, which are being compiled in the office, promise to be interesting, the club sponsor says.

Daughter of Mr. and Mrs. A. J. Logan of the Pleasant Hill community, Lillian entered the local school in September, 1934, from Independence, county rural school. She has risen high in the esteem of her classmates and teachers during her two years here—so high she received the highest honor given among girls, that of being selected as the "Ideal Girl."

Last year Miss Logan was made a member of the student council. As president of the graduating class, she made another step toward the top at the beginning of the second semester. She was senior contestant for school queen and was mist of honor in the Centennial pageant held here recently. She has rapidly gained popularity by her unaffected, friendly and gracious manner, her friends say.

Hazel Jones placed second in the voting; Sadie Tell Jenkins was third; Florine Lewis and Muriel Woodard tied for fourth place. An "Ideal Girl" is selected each semester by the Girls' Club.

High school girls having received the honor of being called ideal since the custom was started four years ago are: Lola Mae Littlepage, Frances Clements (Mrs. Willard Lewis), Mary Margaret Towle, Farena Isaacs, Dollie Clements, Elizabeth Gordon and Dossie Mae Caton.

Ballots, which are cast secretly, read as follows: "Who of all the girls in our high school, is, to your mind, the best example of what a high school girl should be? Which of our girls comes nearest to your ideal of girlhood? What Snyder High School girl expresses in her every-day life the highest qualities of character and of service to school and community, the liveliest disposition, the finest courtesy?"

## Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramp-like pains. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'do-less.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." If Cardui does not help YOU, consult a physician.

### Bride-Elect Is Honored Friday.

Miss Pauline Jenkins, bride-elect of V. L. Clark, was complimented with an announcement party and shower at the home of Mrs. I. T. Ivison Friday afternoon. Hostesses were Mmes. Ivison, J. C. Johnson, Alfred Greenway, James A. Clark and C. M. Davidson.

A cook book was compiled for the bride by each person who registered, giving her favorite recipe. Games were enjoyed throughout the afternoon.

Mrs. H. C. Gordon played a wedding march as a piano solo as little Miss Martha Ann Williams and Junior Martin, dressed as bride and groom, and several attendants entered pulling a beautifully decorated float piled high with lovely gifts.

Mrs. King Sides gave a toast to the bride, and Mrs. H. C. Gordon toasted the girls left behind. Mrs. Gordon also favored the group with a piano solo, "The Flower Song."

A lovely plate of sandwiches, cake and iced tea was passed to more than 35 guests. Unique plate favors held the following announcement: "Pauline Jenkins-V. L. Clark, June 1, 1936."

A. and intercollegiate debate work. Granddaughter of Mrs. W. T. Baze, Snyder, the Tech student is well known here. She will take a degree in speech arts from the school in June.

Mrs. Robert E. Gray Jr. had as her guests during the week-end her mother, Mrs. R. D. Irby, and her younger sister, Miss Betty Irby, both of Dallas.

### SUDDEN DEATH FOR HARGROVE

Death came to Newt Hargrove, Snyder taxi driver since 1913, five minutes after the 52-year-old man became violently ill as he sat in his car on the north side of the square Wednesday evening at 6:45 o'clock.

A heart attack caused death Mr. Hargrove ate his dinner at home, as usual, but complained several times during the afternoon, and took medicine to alleviate the pain just below his heart. He did not go home for supper. When he slumped, unconscious, in front of the Leath Cafe, friends rushed to give assistance, but he was dead before he could be removed from the car for emergency treatment.

Final rites will be held this (Thursday) afternoon, 3:30 o'clock, at the family residence, 807 23rd Street. Maples Funeral Home will be in charge of burial in Snyder cemetery.

Survivors are Mrs. Hargrove and one son, Weldon; two brothers, Ernest and Luther, and one sister, Mrs. Frank Lochmiller, all of Willis Point.

### TRAIN CARRIES F. W. BOOSTERS

Snyder was visited a few minutes Wednesday afternoon by a train bearing several coaches of boosters from Fort Worth. The T. C. U. Band and other features were presented in a 15-minute program. Billy Rose and his big-time entertainment offerings at the Fort Worth Frontier Centennial were presented by the boosters in a colorful folder.

The folder caught the eyes with pictures of thinly-clad blondes doing everything from riding bronchos to swimming in "limpid waters," with such phrases as "Out where the fun begins," "Take your entertainment sitting down," "You will get a square deal in Fort Worth," "Casa Manana—unquestionably the house of tomorrow," "Biggest enterprise on earth devoted exclusively to entertainment," and "Lovely freight of 250 eye-bedeveling coryphees."

### Noa B. Sisk House Burns at Mercedes

Word came to Snyder late last week that the home of Mr. and Mrs. Noa B. Sisk, who recently moved from here to Mercedes, was completely destroyed by fire Wednesday night of that week.

Sisk, a post office employee, "swapped" jobs and exchanged homes recently with M. J. Howze, who is now making his home in Snyder.

The Sisks write local friends that they barely escaped from the burning building, that they saved no clothes except the pajamas they wore, and only a few small articles. "The people of Mercedes were certainly kind to us in our loss," they write.

THE WEEKLY DOZEN

A Political Prediction.

Pessimism Pete, with his ear attune to political thunder, predicts that many a small cloud will grow to stormy proportions just before voting time, but that there will be a severe drought of wisdom and foresight when some of the small clouds roll into capitol hill.

Weekly Rooseveltism.

President Roosevelt: "In the broader problem of government of all kinds, local and state and federal and international, we in this country today are thinking not merely in terms of the moment, but in terms that apply to the rest of our lives and to the lives of our children."

"Popular Government."

Says Tom Hunter: "The place for a governor is in the governor's office, and his first duty is application to the business and best interests which he is under oath to serve, namely Texas and its people. Nothing could be more appealing to a governor with the welfare of the people as a whole at heart."

"Overwhelming Majority."

Says The Nation, progressive political weekly: "President Roosevelt will be re-elected by an overwhelming majority probably exceeding that of the landslide vote of 1932. The pro-administration tide is running so strongly that the Republicans themselves privately admit the hopelessness of their cause."

And It's in Texas!

The third largest cavern in the United States—Longhorn Cavern near Marble Falls, Texas—contains a colossal chamber, electrically lighted and paved, which has been fitted into an underground ballroom and another, a natural cathedral, which has been developed into the world's only underground theatre.

West Texas Leads.

Five Texas cities showed gains above the average during the past month, according to the University of Texas Bureau of Business Research. Three of these—Abilene, El Paso and Lubbock—are strictly in West Texas—and one other, Laredo, is practically in West Texas. The third is Waco, Central Texas. West Texas leads, as usual.

The Graduation Season.

The graduation season is the customary time for vague speeches and threadbare sentiments that only a few over-anxious parents will enjoy. Someone with a gift for originality should draft a new type of commencement address that will give young men and women a vision that is dressed in language and hope that they can understand.

You'd Better Be Careful!

This is a gentle warning to folks of all ages who have weak hearts: Don't go near the softball games that will begin at Tiger Stadium Monday night unless you have plenty of dinero for doctor bills! The excitement will be terrific, and the fun will be even more so. Games start at 8:00 o'clock each evening; two games nightly; ten cents for adults, no charge for children.

"Sparkplug of the Trip."

Said a newspaperman of the Centennial Special Train to northern and eastern points: "Jimmie Allred was the sparkplug of the trip. With 39 speeches, including radio speeches in every city and two or three in some, plus four radio talks over national hookups, he set a terrific pace. The governor literally won friends for Texas by the hundreds of thousands. Whether they were tycoons of industry or the men on the streets, Jimmie sold them on Texas."

Cotton Prices Advance.

Says the government cotton market review: "Cotton prices advanced during the week and the ten market average of 11.55 cents for middling 7-8 inch on May 8 was 14 points higher than a week earlier. Strength in cotton prices developed during the week despite substantial improvement in weather conditions in much of the cotton belt and further declines in prices of other commodities. Securities prices strengthened somewhat following the sharp decline in the previous week."

Constitution vs. Politicians.

Wichita Daily Times: "The purpose of the state amendment and of the law passed in accordance with it (old age pension law), the purpose of the federal legislation on the same subject, is to provide old age assistance for those who really need it. It is not easy to draw the line, but the effort must be made to draw it clearly and as straight as the amendment provides. And when the language of the constitution clashes with the ambitions of politicians, the latter must give way to the former."

"Work, Not Charity."

County judges and mayors of Texas overwhelmingly endorse a work program in preference to relief and idleness, according to a poll recently reported to State Works Progress Administrator H. P. Drought. Of 402 answers to questionnaires distributed to every county judge and mayor in Texas, only two expressed opposition toward work relief. "The theme of work, not charity" runs through the entire list of answers to the questionnaire," declares Drought. Certainly there has been no government-help agency that has received less criticism than WPA, unless it is the CCC camps.

Viewing With Alarm.

From State Press in The Dallas News.

The Scurry County Times (Snyder): Talkative Tillie says some of the girls in last week's parade were martyrs almost as truly as their forbears were martyrs. Their grandmothers braved the frontier with a man and a gun between them and the wilds; the girls braved an icy norther with much less to protect their dainty skins.

What was the matter that the girls in the parade couldn't wear enough clothes to protect their integumentary surfaces from the icy norther? Were the young ladies required, by any authoritative order, to subject themselves, without benefit of textile warmth, to whatever winds might blow? We can imagine nobody at Snyder promulgating a rescript to the effect that the fair paraders must dress like bathing beauties posed for the plunge. The truth no doubt is that Talkative Tillie and her friends paraded that way because they liked that way of parading.

Girls are as fond of dress as ever they were, yet strangely willing to reduce it to the lowest common denominator when the occasion offers them opportunity to enliven an otherwise drab picture. The grandmothers of the Snyder girls used to play croquet in long skirts, which they lifted daintily when they had to put a foot on the croquet ball. Sometimes the lift was half way to the shoe top, but only the most daring let the entire shoe become visible. Look at 'em playing tennis today—the granddaughters, we mean. Grandmother couldn't even have imagined herself in such a costume without calling on the saints to preserve her. In those days there were no such costumes, and in these days it seems like there are no such saints. Alarmists tell us modern civilization is in a tough spot. We do not know. Possibly it is that civilized viewpoints have changed in accommodating new things to view.

CURRENT COMMENT

BY LEON GUINN.

Know your home county better. . . . It is one of the best investments one can make, dividend returns covering a lifetime. . . . As a standard reference text to help one in knowing especially the soils of Scurry County, the U. S. Department of Agriculture (Bureau of Chemistry and Soils) in cooperation with Texas A. & M. College offers a soil survey of Scurry County, complete with a soil map lithographed at considerable cost. . . . In the northwest part of Scurry County the Fluvanna flat is the first noticeable "plain" to be found; that section of the county known as the Roscoe divide being the other "plain," although both are in a geological sense Permian Bed deposits with depressions forming our small county lakes. . . . And when one gets into the chemistry of our soils, diverse as they are, one takes up the pulsating subject upon which hinges our livelihood. . . . Our cultivated soils are washing away at the rate of eight inches of top soil each 100 years, so an intimate knowledge of soils, absorption rates, chemical composition, etc. today is almost mandatory for successful farming.

Says Dr. Leroy T. Patton, Texas Tech, of our abundant caliche beds: "A quite unique feature of this region is so called 'caliche' or cap rock. . . . This is a white, impure limestone rather soft and chalky, but in some places siliceous and quite hard." . . . As to what forces made the deposits Dr. Patton continues:

"This rock is a secondary deposit being the result of deposition of ground water drawn to the surface by capillary action, deposition resulting from evaporation a short distance below the surface." . . . So it is with graphic geological facts about our Vernon clay (droughty), our Randall clay (small lake bed soil), our heavy soils, sandy soils, and shaly soils. . . . Since caliche underlies most of Scurry County, county is in Permian Bed (Quartermaster) belt. . . . In your soil survey will be found the answer to knowing your home county better. . . . No doubt, Dr. Patton, you will be interested in the fact our underground sheet water, pure as any in the world (over 98 per cent test lacking in mineral content), is the same sheet water found on your beloved Plains.

Talent.

When talent comes tripping into your home in the guise of a boy or girl, can you recognize the rare and zesty talent?

Two performances in Snyder last week brought forth many exclamations of wonder from parents and friends who did not know that their children possess talents that may be developed into something the world craves.

We refer, of course, to the Amateur Night at the high school auditorium, under sponsorship of that capable group of women, the Musical Coterie, and to the pupils of Mrs. Hilton Lambert, who performed at the Palace Theatre two nights.

It is possible that Snyder and Scurry County have no more talented youngsters than the average communities; but the talent of our boys and girls has certainly been developed far beyond the degree reached in most communities.

The Times Creed:

For the cause that needs assistance; For the wrongs that need resistance; For the future in the distance, And the good that we can do.

Scurryites Get Publicity During Young Dem Meet

Two former Scurry County officials, Charley Lockhart and Pat Bullock, were given hefty publicity at Abilene last week-end during their appearance as state candidates at the state rally of Young Democrats. The Reporter-News gives the two candidates this sendoff:

Charley Lockhart.

Charley Lockhart, standing 45 inches high on his own feet, is "asking the folks again for their support in my race for state treasurer."

For 16 years Lockhart was treasurer of Scurry County during the years preceding 1916. He has served as state treasurer for a number of years. He is submitting his past record as a basis for re-election.

Lockhart says he is less than four feet high and weighs only 130 pounds, but is "old enough to be state treasurer."

Garland Adair, former Abilene newspaperman, is opposing him in the race.

Pat Bullock.

A. A. (Pat) Bullock of San Antonio, also a former resident of Scurry County, is seeking the place of state superintendent of public education, now held by L. A. Woods. He spent his boyhood in Mitchell and Scurry Counties.

Forty-one years of age, he has been active in the public schools of Texas for the past 20 years. During that time, he served as principal, superintendent of schools, county superintendent, director of the rural school division of the state department of education and state director of the Works Progress Administration emergency education program.

If elected, Bullock promises he will administer the affairs of the public schools in a constructive, economic and democratic manner. He believes that government of the people, for the people and by the people should be strictly adhered to in the administration of the schools of the state.

Visitors Recall Old Residents of Town

Several Snyder visitors during the week-end recalled some of the residents of some years ago.

Mrs. Kate Cotten had as her week-end guest her sister, Mrs. B. W. Hudgins, of Dallas. The late Mr. Hudgins was formerly superintendent of Snyder schools. Mrs. Cotten and Mrs. Hudgins visited their old teacher, Miss Dota Garoutte of Merkel, Saturday afternoon. Miss Garoutte, who visited here recently, formerly taught here and was founder of the Garoutte Girls' School at Merkel in the early nineties.

Mrs. Cotten's daughter and son-in-law, Mr. and Mrs. Bythel D. Martin, formerly of Snyder, were also week-end guests.

Mrs. Eupha Shield and small daughter, Helen Kay, were week-end guests of Mr. and Mrs. Travis McClatchy in Brownwood.

Mr. and Mrs. Jack DeWald of Lubbock spent the week-end with Mrs. DeWald's parents, Mr. and Mrs. John L. Webb.

CEMETERY TO HAVE WORKING

Hermleigh and adjoining communities are planning a cemetery working there all day Thursday, May 21. Men are urged to bring along their hoes and other tools, while women will bring plenty of food for a lunch to be spread at noon.

Dozens of men, women and children are expected for the annual working.

Largest Frigidaire Installed by Hotel

King & Brown, local Frigidaire dealers, have just installed the largest regular Frigidaire yet placed in Snyder. The huge four-door box was placed in the Manhattan Hotel.

The box has a capacity of 18.3 cubic feet, and a food storage area of 33.8 square feet. It contains six big ice trays capable of freezing 144 cubes or 20 1-4 pounds of ice, two big hydrators, and is porcelain lined inside and out.

King & Brown announce that during the first four months of 1936 they exceeded their entire year's quota of Frigidaires by 240 per cent.

Week-end guests of Mr. and Mrs. J. Nelson Dunn and children were: Mr. Dunn's sister, Mrs. J. L. Stewart, and daughter, Marjorie; his niece, Miss Pauline Waldrip, and Miss Christine Tucker, all of Weatherford; Mr. and Mrs. D. M. Dunn of Weatherford were also here, visiting with his brother and family from Sunday until Wednesday.

Mrs. J. W. Bondurant of Fort Worth is a guest of her daughter, Mrs. Wayne Boren.

Miss Dossie Mae Caton, student in Texas Tech, Lubbock, visited here with her mother, Mrs. M. Caton, and sister, Mrs. Hugh Birdwell, over the week-end.

Joe Says Rexall Train Convention At Abilene Best

When Joe Stinson returned from Abilene last week after seeing the million-dollar Rexall train, and attending the convention of 150 West Texas Rexall dealers aboard the palatial palace on rails, he declared it "was the best thing I ever attended."

Louis K. Liggett, founder and president of United Drug Company, and 19 executives of the concern, welcomed guests aboard the train. A highlight of the program was presentation of a Lone Star flag, made with flowers, to Liggett by John Ray, general manager of Mc-Lemore-Bass Drug Company, Abilene.

lene. The balance of the business program was given over to discussion of merchandising methods by United Drug Company executives. Joe was accompanied to the convention by his wife, Mr. and Mrs. J. D. Scott and son, Joe Dave, and Albus Bowden. Visiting druggists were guests of the company at luncheon Friday and again at dinner in the special train diner. At night they danced in the convention car to music furnished by the special train orchestra. The train was open to public inspection a portion of the time it was in Abilene, and many West Texans saw the 12 coaches, four of which contained exhibits of United Drug products, and was drawn by a streamlined locomotive.

While embers glowed the reconstruction started

Before the flames had reached the telephone switchboard in the little Arkansas town—before the swirling wall of smoke had driven operators from their posts—plans for rebuilding the fire-doomed office were under way.

At a great warehouse in a distant city, men were loading a new switchboard, new telephone cable, new office equipment, into express cars. Nearer the spot, cable splicers and workmen skilled in telephone construction were being taken from their jobs and rushed toward the office about to be destroyed by fire.

While embers still glowed in the fire-twisted skeleton of the old office, the work of reconstruction was under way.

One advantage of the Bell System's far-flung organization is this: When disaster flattens the telephone system, men and money and materials are instantly available for the prompt repair of the damage.

**For County Attorney.**

Sterling Williams, Snyder attorney, announces this week that he will be a candidate for county attorney, subject to action of the Democratic primary July 25. He says a full statement will be made concerning his candidacy in next week's Times.

**Huffman Lives at Bethel.**

In the announcement of J. E. (Jake) Huffman as a candidate for commissioner in Precinct No. 2, published last week, The Times incorrectly stated that Mr. Huffman is a resident of the Turner community. He has lived in the Bethel community for a number of years.

**Courthouse Preaching.**

Arthur B. Watkins of Lubbock, youthful minister of the Church of Christ, will preach to a congregation in the courthouse Sunday morning at 10:30 o'clock and Sunday evening at 8:00 o'clock, local leaders announce.

**Goodyear Offers Double Eagle Air Wheel Tire Here**

Pollard & Jones, local Goodyear tire dealers, are announcing what they term the greatest tire in Goodyear history—the new double eagle air-wheel, which is being more extensively advertised than any other tire ever made.

The new tire is being featured as the outstanding blue banner value for the months of May, June, July and August.

Goodyear recently celebrated the making of the No. 250,000,000. Fred Andrews, Goodyear representative who was here Tuesday, said his company's statisticians had figured that if all the Goodyear tires that have been made were stacked they would reach 17,750 miles high, or they would circle the globe more than four and one-half times.

A feature of this tremendous tire production that is of interest to the South is that these 250,000,000 tires used 1,200,000,000 pounds or 2,400,000 bales of cotton.

E. M. Deakins was in Dallas over the week-end.

Mrs. R. E. Casey of Roscoe was a Mother's Day guest of her son, Mack Casey, and family.

Mrs. Dixie Smith of El Paso, a former Snyder resident, visited with friends here late last week.

Miss Opal Crowder of Fort Worth visited with relatives and friends here during the week-end.

Delmus Perry left Saturday for Houston, where he will spend several months studying cotton judging.

Mr. and Mrs. A. J. Riley had as their guests Sunday the following: Mr. and Mrs. Frank Aucutt and children, Mr. and Mrs. Tarrence Riley and Tenine Riley, all of Clovis, New Mexico; Mr. and Mrs. Ross Riley and children of Big Spring; Mr. and Mrs. B. F. Gee of Sweetwater; and Mr. and Mrs. Bill Riley. Mr. and Mrs. Clyde Miller of Ft. Vanina were visitors in the afternoon.

**Hearing on Freight Line Into Lubbock Gets Postponement**

A hearing at Lubbock last week before John Ross, examiner for the Texas Railroad Commission, attracted Pete Bridgeman and other local people. The hearing was postponed until a later time after a number of witnesses were heard Wednesday, Thursday and Friday.

Merchants Past Motor Lines and Dalby Motor Lines are making application for a new line that will connect Dallas and Fort Worth by way of Spur.

The application is being contested by Snyder Transfer Company, which was represented by Durwood Bradley of Lubbock; several railroads, represented by Herbert Smith of Austin; Fort Worth Warehouse & Storage Company, and Johnson Motor Lines, represented by Victor Gilbert; Miller & Miller, and Pete DeShong, represented by Clem Calhoun.

The contesting lines maintain that the new line is not necessary.

**Name Omitted From Roll.**

The name of Mary Helen Bolin was unintentionally left off the high school honor roll published last week. Miss Bolin's name should have been in the "B plus" group.
