"YOUR HOME COUNTY PAPER"

FORTY-NINTH YEAR

SNYDER, TEXAS, THURSDAY AFTERNOON, JUNE 11, 1936

NUMBER 1

DOUBLE QUICK TIME PROMISED FOR COUNTY BONUS PAYING

402 ASKING TO GET PENSIONS EARLY IN JULY

Few More Applications From Scurry County Being Received at District Office.

Applications for old age assistance had been filed through June 1 by 402 Scurry County residents, J. O. Shelton, Abilene district director, announced this week. He said a few more applications are dribbling into his office.

The Abilene district had received 6,943 applications on June 1, divided as follows by counties: Taylor, 1,513; Eastland, 1,385; Jones, 798; Callahan, 590; Nolan, 518; Stephens, 487; Scurry, 402; Fisher, 389; Mitchell, 349; Shackelford, 180; Cooke, 175; Kent, 142.

In the case of each application, an investigator must contact three persons—the applicant and two references—to determine the needs of the old person. In the 12 counties of this district, 20,829 persons must be interviewed by 11 investigators, including Joe Strayhorn of Snyder.

NOW AT PYRON

Scurry County folks will be introduced this month to M. H. Greenwood, who comes to Pyron to become superintendent, succeeding T. B. Hownds, recently elected as superintendent at Witharrah. Mr. Greenwood and his wife come from Garden City schools, where he has been principal and his wife has taught primary work for four years.

HOW YOU MAY HELP BULLOCK

Many friends of Pat Bullock, candidate for state superintendent of public instruction, have been wondering how they can help the former Scurry County man, says Frank Farmer, who is handling the campaign in this part of the state.

In the first place, Pat has little reserve resources from which to obtain campaign expenses, and he is depending on his friends to assist him in completing the campaign. Contributions may be turned in locally to Farmer or to the Times office.

In the second place, friends of the school man may write or speak to their friends and relatives in all parts of the state. A word of suggestion will, in many cases, influence the vote of several persons. Use postal cards, letters or any other method of urging your friends to vote for Pat. This is the final word from Farmer.

Farm Committee in State Appointed to Handle Farm Plan

The state Agricultural Conservation committee for 1936, consisting of seven members, has been appointed, it was recently announced by H. H. Williamson, director of the Texas Extension Service.

The committee members, who will work out problems of the Agricultural Conservation program during the year, are as follows: A. H. Montgomery, Darronitz; J. H. Watson of New Castle; V. L. Cade of Stanton; H. A. Terry, Clarksville; George Chance, Bryan; L. C. Trousdale, Houston; and George Slaughter of Wharton.

Members of the temporary state Agricultural Conservation committee, which has been acting during the last few weeks, consisted of L. C. Trousdale of 1935 Rice Board; George Slaughter of 1935 Corn-Hog Board; A. H. Montgomery of 1935 Wheat Board and George Chance of the 1935 Cotton Board.

Times News Short; School's To Blame

News in the Times is a bit short this week because that three-day cooking school, with an issue each day, was such a strain on the newspaper force.

Even the fact of the newspaper's beginning of a forty-ninth year of publication must be skimmed over for want of time in which to elaborate.

If readers will forgive the publishers for this short paper, an extra budget of news will be printed next week.

More Pledges for County Legion Hut

Several more pledges for the American Legion native-sons hut have been made in recent days. Report members of the soliciting committee. Ten-dollar pledges have been made by Holly Shuler, Clint Head, Whit Thompson, Jesse H. Henley, J. B. Henley and J. E. Smith.

Personal solicitation of other Legionnaires is being made this week throughout the county. So far, not a buddy has turned down the request for a pledge.

At the regular legion meeting last Thursday night, plans for legion pledges and bonus payments were discussed.

BEST COOKING SCHOOL GROUP OUT LAST DAY

Four Hundred Attendants Final Day Brings Total for Session to Almost 1,000.

Four hundred women and girls spent two eventful hours in the Palace Theatre Wednesday afternoon for the final and most successful session of the three-day Times Free Cooking School.

This attendance, largest of the school, brought the three-day total to almost 1,000.

Featuring the final session was a recipe that presented Miracle Whip salad dressing in a molded salad—a recipe said by Miss Jessie Hogue, lecturer and demonstrator in the school, to be one of the newest food creations in America and probably one never before used in Snyder.

This second annual school that Miss Hogue has conducted here under Times auspices was participated in by more merchants than the 1935 school. The crowds of women that gathered all three days were enthusiastic in their compliments of the lecturer's work, and expressed their gratitude to advertisers and The Times for making the school possible.

Dozens of recipes were given by Miss Hogue, and she answered a number of household questions the final day. After the lectures and demonstrations each day, the leader invited women to the stage to see all the dishes.

At the closing session, Miss Hogue announced that she will conduct three more Texas schools, then go to eastern and northern schools for three months of summer work.

Good Attendance At Tent Revival South of Square

Good attendance and interest is featuring the tent revival being held just south of the square under auspices of the Church of the Nazarene, reports Rev. J. Ollie Hux, local pastor.

Evangelist A. G. Pool of O'Donnell is preaching each evening at 8:30 o'clock. "He is delivering some wonderful heart-searching messages, timely and scriptural, and we believe he has a message for everyone," Nazarene leaders say.

Robert Jones of Cisco has arrived to help in the meeting. He has charge of congregational singing, and also sings and plays the violin.

"Both of these men have an interest in the Christian welfare of our town and county," says the pastor, "and we believe they have ability as leaders. Members of all the churches and of no church are invited to come and help. Let's lead our people back to God and back to the Bible. We are expecting souls to be saved and Christians built up in faith, and for a general uplift of the community to a closer walk with God."

Attendance Low at Hot Weather School

Low enrollment has so far featured the summer school session, which is being held here this season under direction of King Sides, W. W. Hill and W. F. Cox are also on the faculty.

The school began Monday. Enrollment includes high school, junior high and grammar school students.

Total enrollment to date is 16. Monday is the final registration day.

Press Meeting Is Attended by Locals

The Times is represented at the annual meeting of the Texas Press Association in Tyler and Dallas late this week by Willard Jones, co-publisher. Miss Allene Curry, society editor, and by Mrs. Jones and June Jones.

An outstanding program centering around the Centennial theme and Tyler's famous rose gardens has been planned for the early part of the session. Delegates will then go to Dallas, where they will be guests of the Centennial Exposition.

Rev. Cal McGahey here.

Rev. Cal McGahey, former pastor of Baptist churches in Scurry County, with his family, is visiting with friends and relatives in Scurry and Mitchell Counties. He is pastor of the Baptist church at Coombes in the lower Rio Grande Valley.

A. A. Pat Bullock Says State Ballot

The name of Scurry County's former superintendent will appear on the state ballot like this: A. A. Pat Bullock.

Candidate for state superintendent, Bullock had the "Pat" inserted by a San Antonio court. When the Democratic state executive committee met last week, they announced officially that he is opposed in his race for superintendent only by L. A. Woods, incumbent.

Charley Lockhart, Scurry County treasurer 'way back yonder, is opposed in his race for re-election as state treasurer by Garland Adair.

LOCALS GO TO FIRE MEETING

Several local firemen, led by Chief N. W. Autry, are in Fort Worth this week to attend annual session of the state firemen's organization. The convention ends today, but several of the boys plan to go to Dallas for the Centennial Exposition.

The best attended, best entertained and best programmed convention in years is being reported by Fort Worth dailies.

Bruce Murphy May Start to Annapolis

Bruce Murphy, son of Mr. and Mrs. W. E. Murphy of Borden County, 25 miles southwest of Snyder, has gone over the preliminary hurdle on his road to Annapolis, Maryland, where Uncle Sam trains his sailors. The appointment was made by Congressman George Mahon.

His literary work accepted because of his record in Snyder and Ranger High Schools and in Ranger Junior College, Bruce will go June 17 to Annapolis, where he will take his physical examination.

He was a graduate of the Ranger college May 26. Previously he attended Ranger High School two years and Snyder High School two years.

Henry Rosenberg here. Henry Rosenberg has been back in Snyder for several days to take charge of the Economy Store while his father, Charles Rosenberg, owner, was out of town.

His resignation has been accepted by the local school board, which had re-elected him. No successor has been named.

Sullivan has been associated with the local school since 1928. He came here from Stanton, where he taught three years immediately after his graduation from Rice Institute, Houston.

Mr. and Mrs. Sullivan and children, who have taken an active part in the city's church and social activities, left Tuesday for Nacogdoches, where they will visit relatives before taking up their new work.

Texas Farmers Fill Out 300,000 Sheets in Latest Program

Approximately 300,000 work sheets have been filled out by Texas farmers to participate in the Agricultural Conservation Program. It was estimated recently the State Agricultural Conservation committee upon surveying reports from county agricultural agents up to June 1.

Members of the state committee further pointed out that the 300,000 work sheets represent about 75 per cent of all Texas farm acreage.

They said that out of the 500,000 farms in the state, some 400,000 should be eligible to receive grants. It was for the purpose of giving farmers more time to sign up work sheets that June 10 was set as the final date in Texas.

Times Makes Error in Hermleigh News

In last week's Times it was incorrectly stated that Evelyn Kasper was elected queen of the school recently. Clara Schulze was the successful queen candidate, as The Times had stated in a previous issue. Evelyn Kasper was the school valedictorian, as The Times said last week.

The error was merely a matter of "mistaken identity," the names of the two girls having been transposed in the thinking of the publisher who wrote the article last week.

New Station Pictured.

In a four-page three-color "Picture News," the new Sinclair service station on the east highway, operated by Charles S. Hardy, is well publicized. The folder includes a picture of Hardy and another of his station.

Voice Around the World at Fair

Secretary of Commerce Daniel C. Roper formally opened the Texas Centennial Exposition in Dallas June 6. His voice, circling the world by wire and air, two minutes later snapped the ribbon shown above and opened the main gate to the grounds.

Yes, Ice Skating In Texas In June

Believe it or not—but there's ice skating in Texas this summer; and here's the proof of it. It's on the Black Forest, many-featured midway attraction of the \$25,000,000 Texas Centennial Exposition which opened in Dallas auspiciously June 6.

60 Years to Make Good for Parents

Centennial Shafer at Centennial. His parents named him Centennial 60 years ago, when he was born June 6, 1876. Sixty years later, to the day, Centennial Shafer bought the first ticket as Texas Centennial Exposition opened in Dallas.

TUESDAY WILL BE FIRST DATE OF PAYMENTS

Scurry County Veterans Scheduled To Receive Quarter Million Dollars From U. S.

Double quick time for delivery of bonus "baby" bonds from the government is promised here Tuesday, June 16, by Postmaster Warren Dodson. Similar promises of hurry-up delivery are coming from other postmasters of the county.

Each veteran must apply in person for his bonds, which are to be in denominations of \$50 each. The bonds will be delivered at the local post office. They will be certified for payment in the district court room.

After these two preliminaries are aside, the bonds will be rushed to Dallas, where 48-hour service on checks is promised. All checks should be back within four or five days after the bonds are certified in Snyder, says Dodson.

Delivery If Vet's Ill.

Veterans who are ill will have their bonds delivered to them, if the bonds come through the Snyder post office, declares the postmaster. The veteran must sign his name exactly as it is given on the bond. Bonds not applied for on the 16th or 17th will be carried out on mail routes Thursday, June 18, only. After that date they will be held at the post office.

J. E. Shipp, commander of the Will Layne Post of the American Legion, estimates that the total bonus payment in this county will reach about \$125,000. He bases his payment estimate on the nationwide average of slightly more than \$500 for each of the 3,740,000 veterans, or a total for the country of approximately \$2,000,000,000 to 3,742,000 veterans.

Scurry County has an estimated 250 veterans.

Help Summer Trade.

These bonus dollars are expected to ward off for several weeks the normal summer trade decline, a canvass of the nation's business men indicates.

Fortunately, for their bonus payments, no Scurry County buddy took part in the bonus march to Washington in 1932. Uncle Sam has announced that the cost of transporting the marchers back home will be deducted from the payments this month.

All veterans are now acquainted with the value of the bonds. They can be retained and draw 3 per cent interest, or they can be cashed at will. Remember, you can cash them today, tomorrow, or any time you wish between now and 1945, at which time they must be cashed—so don't think you are compelled to cash them immediately.

NEWS of the WEEK

Black Legion Threatens.

Detroit, Michigan—Warned that his home would be bombed by the Black Legion, Mayor William W. Voisine, of Escorse, a town of 17,000, was forced to take refuge in the municipal building. The bombing of his home ten months ago is now attributed to the organization of terrorists charged with wholesale murders throughout this state.

Liberal Planks Demanded.

Cleveland, Ohio—Liberal elements within the Republican party will make a determined fight for liberalized social and economic planks in the platform to be adopted by the national convention now in session. Many go so far as to echo the suggestion of Ex-President Hoover that even the Constitution might be changed, "if necessary," to give the states control over wages and working conditions.

Louis Routs A. F. of L.

Washington, D. C.—John L. Lewis is head of the United Mine Workers of America, out-generalized the American Federation of Labor in its scheme to unionize the 450,000 workers in the steel industry. Instead of the A. F. of L. policy of separate craft unions for each type of work, Lewis will attempt, through his new committee for industrial organization, to organize steel men into a huge industry-wide union.

Germany Imports Curbed.

Washington, D. C.—Sensing, in an increase of 13 per cent in imports from Germany, an attempt to "dump" the products of the Reich on American markets at ruinous prices, the Treasury Department has announced "Countervailing" duties on German cameras, glass ornaments, toys, dolls, cotton, rayon and leather gloves, china, surgical instruments and many other products. American manufacturers complained of unfair trade practices on Germany's part, which the increase in duty ranging from 22% to 56 per cent seeks to correct.

Solving Headache Mystery.

Atlantic City, New Jersey.—Because the brain itself cannot register pain, and because so many and varied causes are blamed for headaches, the delegates to the American Neurological Association's annual meeting took keen interest in Dr. Temple Fay's description of ten years' work in studying head pains. He traced 547 possible irritating conditions, all attributable to the fluid balance of the body. His suggestion: Pat people should reduce the amount of liquid consumed to a quart a day; lean, neurotic types should increase liquids to three or more quarts a day.

First Christian Church

Bible school, 9:45 a. m.; morning worship, 10:45; Christian Endeavor, 7:30 p. m.; evening worship, 8:30.

Subject of morning sermon, "Love in Tears." Subject of evening sermon, "Elijah, the Tishbite." Now that summer is really here, there is danger of a diminished Bible school and church attendance. However, we have little fear of this, for our Men's Bible Class, taught by A. J. Cody, is doing a great work. The men of that class are refusing to be absent on Sunday, so interesting has it become.

Also, the church is making an effort for more members at the Lord's table and worship services. Let every member help with his presence. Visitors are always welcome to all of our services.—Guy E. McPherson, pastor.

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

GRAHAM & MARTIN

Miss Jessie Hogue, demonstrator in the Times Free Cooking School, was our guest Monday during her tour of the city. She inspected the plant of Graham & Martin. Among other things, she said:

"People of this section are certainly fortunate in having in their midst a Cleaning and Pressing plant so well equipped as that operated by Graham & Martin. Such fine modern and efficient pieces of equipment as I found here are usually in only the larger cities.

"Immense supplies of cleaning fluid, filtered regularly, and used in connection with the famous Dri-Sheen Process, assure the patrons of this shop the best in dry cleaning facilities.

"Modern tumblers and driers pass the clothes on the modern pressing machines. Complete facilities for spotting are present.

"Hat cleaning and re-blocking equipment completes the services offered by Graham & Martin.

Miss Hogue selected our DRI-SHEEN PROCESS for keeping her dresses clean and fresh during her stay in Snyder for the Times Free Cooking School.

PASTOR TAKES OVER WORK AT LOCAL CHURCH

Rev. James E. Spivey Preaches First Sermons Sunday at First Presbyterian Church.

Rev. James E. Spivey, young minister who has just completed work on his bachelor of theology degree at Princeton Theological Seminary, Princeton, New Jersey, was greeted as pastor of the First Presbyterian Church Sunday. He filled the pulpit at both services.

The young clergyman is a resident of Texas, having been reared in Jackboro. He is a graduate of Trinity University, Waxahatchie.

Previously he has held Bible schools among the mountain people of Tennessee and has served as pastor in New Egypt and Cream Ridge, New Jersey.

Rev. Spivey preached Sunday morning on "Nature of an Ideal Congregation," evening, "The Marks of an Ideal Preacher."

Under the new minister's direction, the local church is re-organizing and making plans for the coming summer months. Just now the center of interest is upon the Presbyterian encampment at Buffalo Gap, June 24 to July 1, to which a number of young people are hoping to go. Plans are also being made for the vacation Bible school to be held here in July.

The pastor will preach at both morning and evening services next Sunday. The morning subject will be "The Unfinished Man" and the evening topic, "The Ensign of Victory." A special Flag Day observance, to which all people of the community are invited, will be held in the evening.

The local Methodist congregation and pastor, Rev. H. C. Gordon, are to join in the evening service as an observance of Flag Day and as a gesture of welcome and friendship to the new Presbyterian pastor.

Joint Gathering Baptist Mission Meetings Sunday

The three mission meetings being fostered by the First Baptist Church will have a joint gathering at the city tabernacle Sunday afternoon, 3:30 o'clock. Pastor Lawrence Hays will preach on "What Jesus Means by the New Birth." All church people of the community, and especially the unchurched, are cordially invited.

The trio of mission meetings is getting well under way, says the local pastor. Rev. Forest Huffman is preaching on the east side, Rev. J. P. Fields on the north side, and Rev. R. R. Cumble on the west side. Rev. Willis J. Ray, Big Spring, district missionary, preached on the west side Tuesday and Wednesday nights. He will return from Dallas Monday and will preach at the west side throughout next week. Rev. Hays will preach Saturday night in the absence of Rev. Cumble.

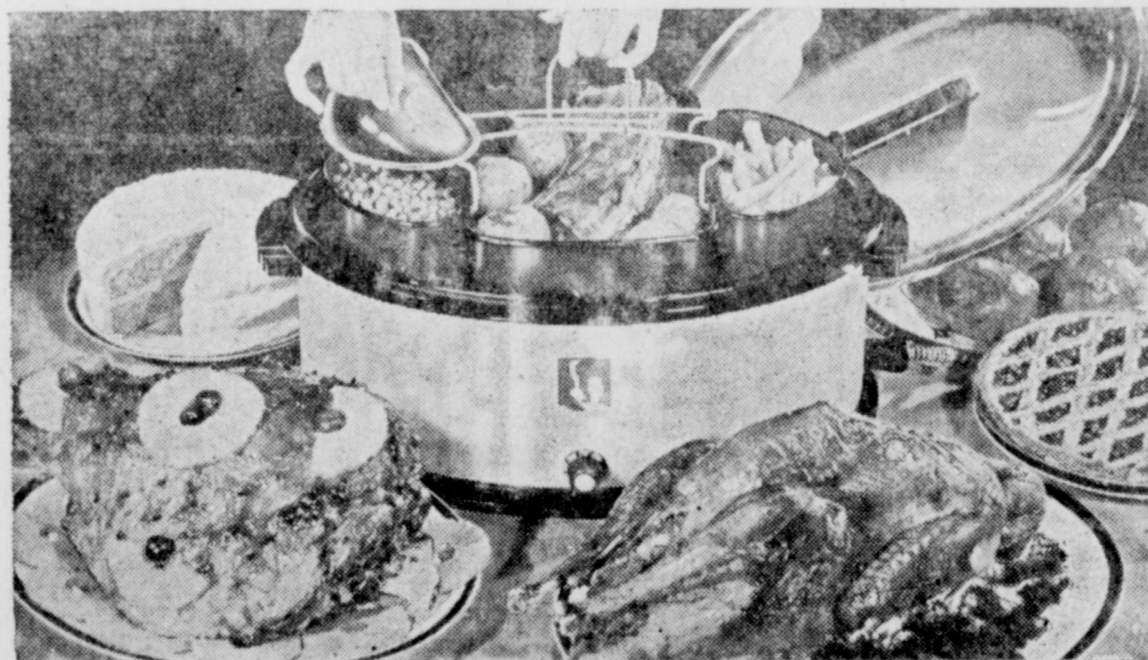

More than 100 attended the three services Tuesday night. Women from the local church visited in the three communities Monday and Tuesday, taking a religious census and inviting the people to attend.

"It is the hope of the church fostering such meetings," point out the sponsoring church leaders, "that all the Christian people of the several communities will lend their support morally and physically that the entire community may have a spiritual awakening and thus every effort may be united to reach the unsaved. Meetings will continue throughout next week. Only night services are held this week.

All children under 16 years of age are assembled from all three meetings in the afternoon for an hour of Bible story and choruses. This afternoon meeting for the children will converge with the street service.

RECIPES USED BY MISS HOGUE DURING COOKING SCHOOL GIVEN

The Times is pleased to present the following recipes given by Miss Jessie Hogue during the Free Cooking School Monday, Tuesday and Wednesday.

Sugar, Pecans and Orange Peel.
1 1-2 cups sugar, 3 1-2 cups shell-egg yolks, 1 1-2 cups cream and milk—mixed, 1 orange peel cut in medium pieces.

Cut orange peel into strips and boil several times to take away bitter taste. Mix sugar and cream well. Cook over hot fire until heavy syrup falls from spoon. Just before syrup looks as though it would turn to sugar, pour in nuts and orange peel and stir thoroughly until heavy coating of sugar forms. Turn on marble table to cool.

Asparagus Wheel.
10 crackers, 1 1-4 cups milk, 6 eggs, 1 1-4 tspns. salt, 1 can green asparagus tips, 1 tbspn. butter, 1 cup grated American cheese.

Beat yolk of eggs to lemon color, add milk, salt and pepper, and fold in whites that have been beaten very stiff. Add 1-2 cup cheese, crumbled crackers and add to custard. Place in round baking dish and sprinkle the 1-2 cup of cheese over top. Arrange asparagus on top in wheel-like ring. Sprinkle with remaining 1-4 tpsn. salt and put butter in center. Place baking dish in a pan of water, bake in hot oven until custard is set. Place a few pieces of parsley in center just before serving.

Lima Carioca (Mexican).

1 cup dried lima beans, 2 tbspn. Mrs. Tucker's shortening, 1 tbspn. chopped onion, 1 tbspn. chopped parsley, 2 tbspn. chopped green pepper, 1-4 tpsn. paprika, 1 cup tomato juice, 1-2 tpsn. chili powder, 1 tpsn. salt, 1-4 tpsn. pepper.

Soak dried lima beans several hours or overnight. Drain, cover with boiling water and cook slowly until tender, adding salt when partly done. Cook onion, parsley, pepper and paprika in hot shortening 5 minutes. Add tomato juice, chili powder and cooked limas. Simmer 15 to 20 minutes, or until limas absorb some of the sauce.

Amethyst Cream Sherbet.

1 cup light cream, 1-3 cup sugar, 2 tbspn. light colored Velvee syrup, 1-2 cup pineapple juice, 2 egg whites, beaten stiff, 1 cup whipped cream.

Scald the light cream and combine with sugar and syrup. When cold, add fruit juices and whipped cream. Freeze without stirring for 2 to 4 hours.

THE WEEKLY DOZEN

The Last 20 Weeks. Pessimism Pete, when reminded that it's only 20 weeks till the general election, reiterates that the last 20 weeks are the loudest and hardest. Witness the Republican convention at Cleveland this week.

Weekly Rooseveltism. President Roosevelt: "We ought to know by now that our well being depends, in the long run, upon the well being of our neighbors."

Hard on the Dictionary. Talkative Tillie says most folks are finding everything good and nothing bad about Dallas and Fort Worth Centennial celebrations; but she wants the floor a half minute to protest against over-use of dictionaries in quest of Centennial-describing adjectives.

In for a Cool Summer. "The scientists say that we are in for a cool summer," W. J. Hale says in the Ropes Plainsman, "which is no news to people on the Plains, where sleeping has been so pleasant all summer that it has been hard to get enough."—Exchange.

No Pretense at Electra. When most cities decide to have a bathing beauty revue, they select a promenade spot near enough the water to get a tang of watery breeze. But Electra, in celebrating its silver centennial, announces that the revue will be held at the football stadium. Pigskin to pigskin, we call it.

Quit Advertising . . . And Shriv! "Quit advertising and your business will shrivel and shrink away." Chairman Ernest O. Thompson of the Texas Railroad Commission, said in a speech at the Dallas Ad Club Tuesday. He recounted how once prosperous businesses had dwindled away because over-confident or self-satisfied owners or managements had thought themselves or their products so strong they could quit advertising.

Restraining Self Respect. More than 27,000 Texas farm families have been put on their feet recently by rehabilitation loans, the government agency discloses. One borrower is quoted as saying: "I had rather work my life away than have my food and clothes doled out to me." One mother wrote of her relief-getting experiences, before the rehabilitation loan: "As I would study about getting relief, tears would come to my eyes and my face would flush so red some of the boys would laugh at me."

An Example for Others. There is in Coleman County a woman who is setting an example for every farmer in the county. Through the sale of turkey eggs, that woman has been able to make an average of \$12.75 per day during the past several months. Further, she has made about the same amount in past seasons upon the sale of turkeys. Her example just goes to show what can be done when efforts are put forth. It also goes to show that many another Coleman County farmer could easily add to his income.—Coleman Democrat-Voice.

Texas and the Nation. Secretary Daniel C. Roper of the Department of Commerce, at the opening of the Texas Centennial, "I feel certain that I voice the feelings of every American when I congratulate Texas upon one hundred years of outstanding achievement and growth. Texas brought into the nation a history of its own, short in time, but rich in achievement. No more interesting history has ever been recorded than that which has been written to preserve for posterity the progress of the state."

That Cooking School. With the second annual Times Free Cooking School a thing of the past, except for the inspiration of county women to prepare new dishes and to make housework happier, the publishers wish to express through this editorial column their genuine thanks for the hearty cooperation of every attendant and every advertiser, and for the many good things that are being said about the success of the school.

Rounded the First Turn. The political sweepstakes in Texas, at least as far as Erath County is concerned, has rounded the first turn. We have had two candidates for governor to speak, one for railroad commissioner, and any number of local entries have sailed forth into every nook and cranny of the county—all with the avowed intention attracting the smiling countenance of the sovereigns. In other words, the candidates are out after votes, for after all is said and done votes are the things that count in any election.—Stephenville Empire-Tribune.

More Good Roads Needed. Floyd County needs more good roads. While at long last the gaps are being filled from the east to west, with crews working on both ends of Highway 70 in this county, the north and south arteries have yet to be lined up for all-weather improvement. No telling the cost every year to business of every kind in this situation. Floydada business interests can do no better job than to concentrate on the effort to get these jobs done as quickly as possible.—Floyd County Hesperian.

The Times Creed:

For the cause that needs assistance; For the wrongs that need redress; For the future in the distance, And the good that we can do.

Liquor Control.

"Discouraged because they are finding it so expensive, bootleggers and others convicted of violating Texas' new liquor laws have already paid out approximately \$50,000 in fines and court costs. A number of others have gone to jail."

Thus reads the first paragraph of a news release that came from the Liquor Control Board at Austin this week.

"If we continue to make it so costly, the people who are breaking the law will have it impressed on them that there's no profit in what they're doing," declared Liquor Administrator Charles R. Miller. "When we finally succeed in taking the profit out of their business, these people are going to fold up and quit."

While the Liquor Control Board and Mr. Miller are to be highly complimented for their inroads against illegal liquor and illegal liquor handling, the liquor control chief is a bit too optimistic. He implies that sooner or later, despite lack of cooperation from some local officials, the profit will be taken out of illegal liquor and bootleggers are "going to fold up and quit."

Men who have watched the situation for two generations say there is more legal liquor and more illegal liquor in the United States than ever before. They say the situation is disgraceful in Texas—more disgraceful a hundred times over than it was a few years ago, when the Eighteenth Amendment was in force.

Even if Mr. Miller's optimistic attitude were justified, and illegal liquor were eventually downed, legal liquor would have the state in such a tremendous moral and physical morass that the Liquor Control Board would like a single drop of water on an ocean of troubled liquor.

EDITORIAL OF THE WEEK

"YOU CAN'T DO EVERYTHING"

It was recently revealed that Vice President Garner, in a letter to an anti-New Deal Democrat last July, said: "You can't do everything you want to do and I can't do half what I would like to do. You can't control everybody you would like, and I am in a similar fix."

What the vice president has said is true not only in politics but in every-day life. That is because most people want to do vastly more than they can do. They are tempted to bite off more than they can chew, and they frequently do. The result is they do nothing well. Everybody wants to do this and everybody wants to do that, without stopping to consider their qualifications for the job.

Too many people today want to do the other fellow's job in life. Nobody seems immune to their scheming—not even a president of the United States during his legally elected term. The result is that the schemers neglect their own jobs and make it harder for the other fellow, who is really trying, to do his work as it should be done. If this were the only evil man had to put up with, the bearing of it wouldn't be so hard. But coupled with it is the inborn desire in nearly all human beings to do somebody else; to control somebody; to lord it over somebody with a big stick—whether it is in politics, business, some organization or the home, and the burden is increased a hundred-fold. Politicians want to control everybody. Labor wants to control everybody. And so on it goes from the biggest "machine" down to the smallest individual. Everybody wants to get somebody else under their thumb. But, luckily, as the Uvalde philosopher has pointed out, the schemers can't control everybody they would like to. Man is prone to selfishness and thus to live to himself alone rather than to be under somebody's thumb—especially when that thumb belongs to a fellow who would like to put a lot of pressure on it.—The Pathfinder.

CIVILIAN "INSURANCE"

One million Boy Scouts are leading the nation in a drive to build up, in the Federal Bureau of Investigation at Washington, the largest and most valuable civilian fingerprint collection in the world.

Decision of the Scouts to add their prints to the already voluminous file is a step toward the day when the distinguishing marks of all law-abiding citizens would be recorded voluntarily for protection against kidnaping, accident, loss of memory, or mistaken identity.

Department of Justice officials already report that the civilian file now started has proved of infinite value in countless cases. It is certainly desirable that the public volunteer in building up this civilian file. In a sense, it's a kind of insurance.—San Angelo Morning Times.

In Defense of Women.

The prime minister of England, Stanley Baldwin, comes to the defense of women in a matter that for centuries has been hurled at the fair sex, that is, they "can't keep a secret."

Mr. Baldwin was not thinking of trifling bits of gossip that occasionally flit back and forth. He had in mind affairs of state, matters of grave import, which might have been disclosed and thus upset the apparatus. He says government leaks occur, sometimes serious leaks, but never has the indiscretion been charged to women, although they knew official secrets that could have caused international complications had they been made public.

This statement from so high an authority confirms what I have known for a long time, but lacked courage to express—that the worse gossipers are not the female of the species but the male.—Exchange.

When your work becomes a task, quit; you're in the wrong business. Until your work is your pleasure, you can never be successful.

NOBODY'S BUSINESS

By Julian Capers Jr.

Austin.—Newspaper readers in more than 100 towns where "Nobody's Business" is published read in this column last April a declaration of policy voiced by Gov. Alfred with regard to the state highway department. The governor said: "The highway department of this state should be free from executive interference and this administration has maintained a hands-off policy. The highway department should not be a political organization and every person connected with it should be free to vote for whom and what he pleases."

Last week a metropolitan city newspaper, published in North Texas, suddenly became concerned about the highway department, and loudly demanded in an editorial that the governor promulgate and announce a non-political highway policy, after two opposition gubernatorial candidates had sought to drag the department into politics by claiming they wouldn't do so.

The governor repeated his two-months old declaration in a speech at Childress, and pointed out that the highway department, under the able direction of the Allred-appointed chairman, Harry Hines, had spent more money and built more miles of road during the past year than ever before in its history.

Then the big-city newspaper published another editorial in which it let the cat out of the bag, and demanded what it really wanted all the time—that the governor pledge himself to re-appointment of Gibb Gilchrist, chief engineer of the department.

Law Says No.

Of course, the hiring or retention of an engineer, or any other employee, is an administrative matter, in the hands of the highway commission, with which the governor has no concern. If he meant what he said when he voiced his pledge of non-interference. Behind the scenes there has been a merry little difference going on for months, between Hines and Gilchrist. They have differed over the policy of building highways to by-pass small towns, which Gilchrist favors and Hines opposes. There have also been other differences. Gilchrist, nationally recognized as an able engineer, is, nevertheless, no stranger to political activity, and with appointment of another highway commissioner scheduled next February, there may be interesting developments.

Under the laws of Texas neither Allred nor any other candidate for public office may promise a job in advance to anyone—even if the governor intended to abandon his hands-off policy and try to run the highway department. The root of the trouble in the highway department has been the fine line of difference which separates policy and technical administration. The commission is supposed to decide matters of policy, the chief engineer technical questions. The routing of a highway through or around a town can be either a matter of policy or an engineering problem—depending upon which side of the fence the observer is on.

Candidates Open.

The week featured the formal openings of Carl Hardin, ex-state senator of Stephenville, and Ernest O. Thompson, chairman of the Railroad Commission, candidates for the

Several Local Boy Scouts Planning To Attend Annual Camp June 23-30

Several Boy Scouts of the two Snyder troops are making plans to attend the annual summer camp of the Buffalo Trail Council. The local group will be in camp, under present plans, during the second of three one-week periods—June 23 to 30.

Through a Lions Club committee, many of the boys are being given work in order to make a few dollars to help pay camp expenses and to supplement funds for buying uniforms. Anyone who has yard work or any other work that can be done by scouts is urged to call Lorin Maples, W. R. Lacey, Warren Dodson or W. E. Holcomb.

The camp this year will be held at Camp Pawcett near Barksdale, which is situated on a high plateau overlooking the Nueces River in the Nueces Canyon. The camp has been used previously on two occasions by the Buffalo Trail campers and this year's camp is being held at Barksdale by popular request. The camp, which opens a week from Tuesday, will continue for three weeks. Each week will be a separate period. The dates are as follows: First period, June 23 to 29; second period, June 30 to 6; third period, June 7 to 13.

Program of the camp will feature swimming, life saving, marksmanship, scout advancement, archery, camp fires, hiking and exploration, handicraft, nature study, first aid, stories, songs, games and plenty of free time so scouts may do what they like best. Camp honors will be given for campcraft achievements, and a regular court of honor will be held at each camp period so that scouts advancing may receive their advancement awards. In all activities safety is a main consideration.

The camp fee is nominal—\$6 for each period. Scouts are asked to register promptly. A registration fee of \$1 should accompany the application.

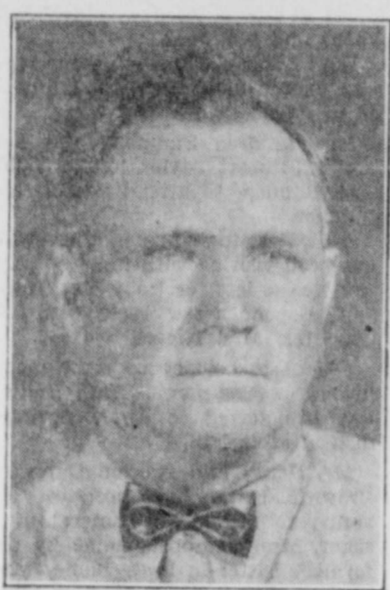

The cats—always a big feature of camp—will be given special consideration. Sonley Jones, who for six years has been camp cook, will again be in charge of the mess hall. The menu is being planned in accordance with a schedule of meals outlined by a government dietitian.

The summer camping program of the Buffalo Trail Council is in charge of the camp committee, with Carl Blomshield of Big Spring as chairman. He is assisted by the following men: Wallace Wimberly of Midland, E. L. Langley of Sweetwater, W. Creech of Wink, W. E. Holcomb of Snyder and W. W. Porter of Colorado. A. J. Stiles, scout executive, will be camp director.

Many of the scoutmasters and other scout leaders are planning to attend Camp Pawcett and assist with the instruction. Each troop will camp as a unit and the individual troop organization will be maintained.

Never mind the business outlook. Be on the outlook for business.

This candidate for commissioner in Precinct No. 2, W. H. Grant, is asking voters that he does not contact personally to remember him when they cast their ballots July 25. "If elected," he says, "I will perform the duties of the office economically, with justice to all and special favors to none."

Scurry County 4-H CLUB NEWS

E. B. McLeroy, Club Agent

The club agent made personal visits to the homes of many club members during the past week.

Selection of animals and field crops is going forward rapidly and the majority of the club boys are actively working with their projects now. Club members enrolled with beef calf demonstrations are urged to complete all arrangements for calves as quickly as possible, in order to have a creditable showing for the county 4-H Club show this fall. In numerous cases, club members have selected beef calves from their fathers' herds as their first feeding project. These boys plan to feed and show their calves this year with the idea in mind to purchase a better type of calf with proceeds of the first year's feeding project. Registered animals are not required for any of the 4-H feeding projects.

During the remainder of this month the club agent will make individual calls to 4-H Club members not heretofore visited.

Rodeo Featuring Ranch Cowhands Tops at Reunion

Although there will be many worth while attractions on the program of the seventh annual Texas Cowboy Reunion to be held in Stamford July 2, 3 and 4, the chief entertainment feature of the reunion will be the rodeo, featuring the cowhands from the ranches.

Word has been received from numerous contestants and visitors of former years that they will be on hand this year when the gates swing open on July 2. In addition many Centennial visitors to Texas are expected to visit Stamford during the reunion to witness a rodeo that has been classified as "an authentic survival of a typically Western institution." Former years have seen crowds of 50,000 and 55,000 visitors here during the three days. This year even more are expected.

Why Gulf makes a new Gas for June

JUNE—MONTH OF BRIDES . . . and the month when summer officially starts. Gulf is on the job with a new summer gas—because unless your gasoline is "Kept in Step with the Calendar" it can't give you the best mileage . . . part of it blows out of your exhaust unburned, wasted. Every gallon of That Good Gulf you buy in June is specially refined for summer driving—so that all of it goes to work, none of it goes to waste. Try a tankful!

North Side Roots Easterners Out of Top Pew In Hectic Tuesday Embroglio

Playing minus the services of their manager, Norman Autry, and another first string infielder, Buddy Martin, the North Side Tuesday mowed down the league-leading East Siders, 14 to 8.

The win gave this Autry crew a slight lead. Each squad has lost only one game, but the North Side has played seven and the East Side only five.

The second Tuesday night game was one of the best of the season. Fluvanna won from Pleasant Hill, 5 to 1, by tallying four times on the extra eighth. The teams were deadlocked at one-all after the first. Fluvanna's win, plus her 9 to 6 defeat of the West Side last Thursday, gave her a tie for third place with Dunn, the latter having whipped Pleasant Hill and the Lions during the week.

Lions Scare North Side.

The surprise tilt of the week was the Lions Club's holding of the hard-hitting North Side to six runs Friday night, while the Lions were tallying five. North Side eked out a win by scoring two in the seventh. Pleasant Hill dropped to sixth from third place in the standings within the week, while West Side, maintaining its 500 per cent average, dropped from fourth to fifth. Hermleigh remained just a notch above the Lions, with only one win.

North Side's win over the East Side was featured by two consecutive home runs over the center field wall by Fred Wolcott Jr. Only three other home runs have gone over the fence during the season.

Percentages, Box Scores.

Here are percentages and box scores for games played through Tuesday night:

Team	Played	W.	L.	Pct.
North Side	7	6	1	.857
East Side	5	4	1	.800
Fluvanna	5	3	2	.600

Business picked up considerably Saturday and Monday around the square when several local business men discovered that they had been fondling hot checks.

The sex is not so important to the losers, however, as finding the gal or the mister who did the job. So far, he or she has not been found.

Regular games on the schedule during the next few days are: Thursday, Lions vs. Hermleigh, Dunn vs. North Side; Friday, West Side vs. Pleasant Hill, East Side vs. Fluvanna; Monday, Hermleigh vs. Dunn, North Side vs. West Side; Tuesday, Pleasant Hill vs. East Side, Fluvanna vs. Lions.
