FORTY-NINTH YEAR

SNYDER, TEXAS, THURSDAY AFTERNOON, JUNE 18, 1936

NUMBER 2

VETS RECEIVE INITIAL BONUS CHECKS TODAY

Scurry County Buddies May Receive Maximum of \$180,114.27 if All Bonds Are Cashed.

First checks from Dallas began coming to Scurry County today for veterans whose bonus bonds were certified in county post offices Tuesday.

Total payments to Scurry County veterans would be \$180,114.27 if all bonds were cashed. This figure is in excess of the amount predicted last week by Legion officials, for the number of veterans and the average of their bonus payments has exceeded expectations.

Through Wednesday, 163 bond packages had been received in the Snyder post office, and all except about 20 had been called for. At Hermleigh, 41 veterans received their bonds, and all of them had been called for. Between 20 and 25 packages of bonds were received by all other post offices of the county, bringing the total already received to about 225.

More Bonds Expected.

Postmaster Warren Dodson of Snyder and Postmaster W. C. Ferguson of Hermleigh expect to receive several more packages of bonds this week, bringing the county total to probably above 250.

The local postmaster reports that 138 veterans have sent in their bonds for cashing through his office for a total of \$60,700. At Hermleigh, the 41 veterans will cash out for more than \$7,000.

A few sets of bonds were received by Camp Springs, Fluvanna, Ira, Knapp, Inadale and Pyron post offices.

Largest Amount \$1,100.

Largest amount of bonds to be received by any Scurry County veteran, as far as The Times has learned, is \$1,100. Maximum that can be received by any veteran is more than \$1,500.

Postmaster Dodson handled the bonus bonds here with little last mention and with satisfaction to everyone Tuesday. The entire post office force and several veterans assisted him in handling the job with precision.

While some of the payments are being received today, the bulk of them are expected to be received late in the week or early next week.

Issues Warning Against Illegal Auto Tag Buying

A state highway patrolman, in Snyder Tuesday, said a perjury charge has been filed in district court against a Scurry County man who is alleged to have obtained a duplicate set of auto license plates by false swearing.

The patrolman said the man sold his original set of tags for \$1, made affidavit to the county tax assessor-collector's office that he lost the tags, and secured a new set for the customary fee of \$1. The old tags, it is alleged, were used on a relative's car.

The patrolman and local officers have issued a warning against such a practice, pointing out that it is a felony charge.

Warning is also issued against stock owners who allow their animals to graze on state highways. A fine of \$100 per day for each head of stock that remains on state right-of-way may be assessed against persons found guilty.

Brilliant Messages Broadcast by Neon For Snyder Stores

Addition of neon signs by two Snyder firms within the month of June makes the business section gleam with new red, blue and green messages these summer nights.

The first new sign was placed above the awning the middle of last week by Leath's Cafe, which has also been doing some repainting this month.

Maples Funeral Home has a blue neon sign in each of its front windows, reading "Maples Funeral Home."

Neon outdoor and window signs were added not long ago by Texas Rooms and Cafe, operated just northeast of the square on the highway by Mr. and Mrs. J. Money.

Three Famous Smiles in a Row at the Centennial

The President and Mrs. Roosevelt enjoyed Texas hospitality on their tour of the state last week, with Governor Alfred serving as official host. This picture was snapped during the chief executive's wide swing through major Texas cities and his visit to the Central Centennial Exposition at Dallas. Several Snyder citizens saw the president at Dallas and Fort Worth.

Ninety State, District, County Candidates on Primary Ballot

Poison Formula Given in Detail

The following poison formula, with instructions, is given by County Agent W. R. Lacey, who says that grasshoppers are threatening to hurt cotton in some parts of the county if they are not stopped:

One hundred pounds wheat bran; 5 pounds Paris green or white arsenic; 1 dozen oranges or lemons ground up, pulp, rind, juice and all; 1 ounce of sweet anise; 2 gallons of blackstrap molasses or other cheap syrup; about 8 gallons of water.

Mix six gallons of water, molasses, the oranges and Paris green together; then mix the bran in this solution, and add enough water to make a damp but not sloppy mass. Put out late in the afternoon along inside of the field where the grasshoppers are feeding. Put in small piles of about a heaping teaspoonful to a pile.

Caution: This is poisonous to livestock, so do not put it out where livestock can get to it.

Scattered Showers In County Saturday

Scattered showers in Scurry County Thursday morning and Saturday afternoon not only helped break the heat wave for a short time, but gave needed moisture to several communities. The Snyder fall was about a quarter of an inch. Some parts of the county received more than a half inch.

For the past several days the temperature has reached its highest peak of the summer, the mercury ranging around the 100-degree mark much of the time.

Legion Fund Drive Grows With Bonus

With bonus bonds being cashed this week, American Legion leaders are renewing their drive for funds with which to build a hut valued at \$2,500.

Pledges within the past week include: J. C. Denson, \$10; Collin D. Boone, \$10; Ernest Bassinger, \$5; Dr. W. R. Johnson, \$10.

Those who wish to make pledges or cash payments are urged to get in touch with J. E. Shipp, Boss Baze, Lee T. Stinson or Walla D. Fish.

SNYDER MOVIE SHOTS SHOWN

Several Scurry County citizens went to Abilene Thursday last week to see an audition of movies that were taken in Snyder during the Centennial celebration in April.

The "shots" will be shown at the Port Worth Pioneer Centennial Celebration, which opens next month. Snyder's movies were the second series taken under the West Texas-wide plan.

Shots of the Centennial parade here, of business enterprises, of purebred Herefords and of leading ranch scenes were depicted on the screen.

The county delegation included J. W. Scott, Harrie Winston, Maurice Brownfield, W. E. Holcomb, Mr. and Mrs. Sidney Johnson.

COLORADO TO ANGELO ROUTE HAS APPROVAL

Years of Effort Are Rewarded in Monday Commission Hearing; Scurry Is Connected.

Colorado, June 16.—Years of effort by city, county and chamber of commerce officials of Colorado, Robert Lee and San Angelo bore fruit yesterday when the State Highway Commission approved designation of a state highway northward from Robert Lee to Colorado.

The new route added to the state system will be a continuation of Highway 208 from San Angelo to Robert Lee. It will intersect state highways 1 and 101 at Colorado. Highway 101 connects Colorado and Snyder and intersects highway 7 and highway 15 at Snyder.

The designation was made on condition that Mitchell, Coke and Tom Green Counties guarantee 100-foot right-of-way when it is called for by state highway engineers.

Representing Colorado at the commission meeting in Austin Monday were J. H. Greene, chamber of commerce secretary; Benton L. Templeton, Mitchell County judge; and J. A. Sadler, Colorado mayor. It was Greene's 31st appearance before the commission in the interest of road improvements in this section of the state.

Conflicting Stories Of Fire Boys' Meet Told by Snyderites

Nine members of the Snyder Volunteer Fire Department returned from Fort Worth late last week with conflicting stories of the annual fireboys' convention. Several of the group attended the Centennial celebration at Dallas for a few hours.

Reports from three members of the department—M. M. Glendon, Emmitt Butts and Marcel Josephson—indicate that their early Thursday night return to Sweetwater was as such a happy idea, after all. Chief N. W. Aubry, on the other hand, voices for the remainder of the locals who were footloose—Archie Biggs, Buddy Martin, Herman McClinton and Lovell Baze.

Clyde Boren, ninth member of the delegation, has no report to make. He was accompanied by his family. The convention chose Port Arthur for its 1937 meeting place and named Chief Blackstone of Burkburnett for its only competitive office, fourth vice president.

Sheriff Convention Attended by Locals

Sheriff S. H. Newman of Scurry County was in Waco Wednesday, Thursday and Friday for annual convention of the state sheriff's convention. Bill Crowder accompanied him.

The Scurry peace officer reports an interesting and helpful session, and good attendance from all parts of the state.

40 Seek Election In Scurry County

When Scurry County voters go to the polls Saturday, July 25, they will be faced with a first-primary ballot containing 90 names of state, district, county and precinct candidates.

This figure was announced Monday afternoon by A. C. Preuit, county Democratic chairman, after meeting of the executive committee to assess fees against county and precinct candidates. These fees will be used to pay the expenses of the two Democratic primaries in the county.

Missing from the list of candidates whose names were certified to the chairman before midnight Saturday, July 13, the deadline, is E. B. Clark, candidate for commissioner from Precinct No. 2. Although he unintentionally failed to file in time to have his name placed on the ballot, he says he is still a candidate, and will ask his friends to "write him in" on election day.

Forty of the 90 candidates are running for county and precinct offices, 35 for state offices, and 15 for district offices.

Mrs. Otto S. Williamson, unopposed as county treasurer, drew the highest assessment, \$75, while candidates in the race for county tax assessor-collector were next, with assessments of \$60 each.

Lee Grant, former commissioner in Precinct No. 3, made a surprise entry in that race against the incumbent, H. M. Blackard, on the last filing day.

The county executive committee will meet Monday to make final plans for preparing ballots and other election supplies.

"All are invited to our fellowship for the betterment of christianity in this area."

STORES TO BE CLOSED JULY 4

Only service stations, cafes and similar businesses that customarily remain open for holidays and Sundays, will do business on Independence Day, which falls this year on Saturday.

No special celebration of the day is planned here, but locals, in large numbers, will trek to Stamford, Sweetwater, Colorado, Midland and elsewhere for swimming, boating, fishing and other pastimes.

Clairemont Man Is Caught Here After Stolen Cotton Sale

John Garrison of Clairemont, arrested in Snyder Wednesday of last week, admitted theft of four bales of Fisher County cotton and their sale to Billy Lee, local cotton buyer, according to members of the sheriff's department.

Three of the bales had been stolen from a Rotan gin, one from a Roby gin. They were identified at the local gin yard, and have been returned to the Fisher County gins.

Garrison was released last week to the Lynn County sheriff. He is charged at Tahoka with having stolen four bales of cotton prior to the Fisher County thefts, and disposing of them in Snyder.

After Garrison's arrest, the owner-driver of the truck on which the Rotan and Roby cotton was hauled to Snyder disappeared. Local officers learned that he went to Old Mexico. The truck is being held pending disposal of the charges against Garrison.

Mexican Buried Friday. Funeral services for Francisco Munis, 77, who died several days ago, were conducted at the family residence in North Snyder. Rev. E. P. Gonzales officiated, and Odum Funeral Home was in charge of burial in Snyder cemetery. Munis has been a resident of Snyder for four years.

The local force of operators is being increased by addition of Misses Melba Clark and Farena Isaacs.

Other operators here are Misses Grace Holcomb, Ora Norred and Ethel Mae Sturdivant, and Mrs. Nora Ingram.

COTTON HANDS ARE IN DEMAND

With cotton—and weeds—shooting up in some parts of the county, following recent showers, there is an increasing demand for cotton choppers.

J. T. Jenkins, head of the NRS office here, over Perry Brothers, says those who wish to chop cotton and farmers who have work to be done are using the office as a clearing house. He invites farmers and choppers to make application at his office.

Jenkins placed 44 choppers in one day this week, and has placed a number of others within the past 10 days.

Workers are especially in demand in the south and southeastern part of the county, where crops are good and weeds are even better.

Three Features Mark Meeting At City Tabernacle

Large audiences, good singing, and plain gospel preaching—easily understood—are the outstanding features of the Church of Christ meeting at the city tabernacle. E. H. O'Dowd, the evangelist, is one of the outstanding preachers and debaters of the Church of Christ. His lessons are well planned, well thought and logical.

At the services each morning at 10:00 o'clock a lesson to the church is presented in a way that is inspirational and soul stirring. At the night services, 8:30 o'clock, he presents lessons that are convincing to the unbeliever, the sinner and the one walking in error. Thus far there have been three baptisms and one placement of membership. There will be three services Sunday, with cold sandwich lunch served at the tabernacle.

The classes will meet for their Bible study Sunday at the church at 10:00 o'clock. There is a class for all. The class that meets in the auditorium, taught by Bro. Clark, is studying the ethics of Jesus, and will study in the sixth and seventh chapters of Matthew Sunday.

Thursday evening the subject for discussion is "The Difference Between the Church of Christ and the First Christian Church." Other lessons of a timely nature will be discussed every service.

All are invited to attend.—Roy J. Clark.

Local friends of E. B. Speck, Lubbock, announce that the candidate for Congress will speak in Snyder Saturday evening, June 20, at 8:30 o'clock.

The visiting speaker, who opposes George Mahon for re-election, will use a loud speaker. He spoke in Snyder recently in behalf of the Townsend old age pension plan.

CHANGE MADE AT STINSON'S

The Stinson No. 2 force has shifted gears during the past week. A. E. Wiese, who has been associated with the store for a number of years, left Sunday for Stamford, where he will make his headquarters as a salesman for Behrens Drug Company of Waco. Mrs. Wiese and Aubrey will temporarily remain in Snyder.

The Wiese place at the store has been taken by Cleve Blackard, who was associated with No. 2 until he secured a position with a Pecos drug store two years ago. Blackard and his family have moved from Pecos "back home."

STATE, COUNTY OFFICERS JOIN FOR ROUND-UP

Seven arrests, seizure of beer and whiskey with a retail value of almost \$3,000, and confiscation of two vehicles alleged to have been used for liquor transportation, were the immediate results of raids made in Snyder and Hermleigh last Friday and Friday night by county and state officers.

A representative of the State Liquor Control Board, under which the state officers work, said early this week that padlocking of the raided places would be in order if they were demanded by the citizens of Scurry County.

Assisting state men in the raids were Sheriff S. H. Newman, Deputy Sheriff Ather Chandler and City Marshal John Lynch.

Seven Men Arrested.

Following are the names of the seven men who were arrested in connection with the raids:

C. W. (Chicken) Green, Snyder. Crockett Davis, Snyder. Pete Davis, Snyder. Aubrey Stewart, Snyder. Clarence Myers, Snyder. Doc Myers, Snyder. J. E. Cunningham, Big Spring.

Raiding of five alleged illegal sellers of beer and liquor, and confiscation of one car and one truck, netted more than 50 cases of whiskey, with wholesale value of \$1,500, and 75 cases of beer, with a wholesale value of \$170. Total retail value is estimated at almost \$3,000.

To Pensions, Schools. Proceeds from liquor and beer sold as an aftermath of the raids will be used for old age assistance and school funds.

Fines that grow out of the charges go into county funds. Charges growing out of possession, transportation or sale of liquor make the defendant subject to fine of \$100 to \$1,000, imprisonment for one day to one year, or both fine and imprisonment. Those charged with beer possession, sale or transportation are subject to the same penalties, except that the minimum fine is \$25, and the maximum fine \$500.

All cases in connection with the raids are scheduled to be called in county court Monday, July 6.

Men Released on Bond. The seven men arrested have been released on bond. Chicken Green was released under \$250 bond, after eight cases of beer were found at his place in Southeast Snyder, which has been raided often. No whiskey was found there.

Pete Davis, charged with sale of liquor at his filling station located at the turn of the new highway in North Snyder, was also released under bond of \$250. No whiskey was found at his place when the raid was made. A charge has been filed against W. C. Simpson, charged to have been working for Pete Davis, alleging sale of liquor.

Crockett Davis, likewise released under \$250 bond, was charged with sale of liquor. His place is located just outside the city limits, on Highway 15 west, 100 yards south of the road. When officers approached Crockett Davis's place, he fled in his car, but was arrested later. Officers fired at him as he fled.

Stewart Car Seized. Aubrey Stewart, arrested at the Crockett Davis place, was released on \$250 bond. His car, also seized at Davis's, was turned loose under \$1,000 bond. The car contained an automatic shotgun, a high-powered 22 rifle and 21 cases of beer. Stewart's room in Davis's place contained a number of bottles of liquor.

The WOMAN'S Page

Mrs. Lee T. Stinson Elected President Of Women's Pharmaceutical Group

Mrs. Lee T. Stinson has been elected president of the women's division of the Texas Pharmaceutical Association for the ensuing year. The election was made during the annual convention of the group held in San Antonio from Monday until Thursday of last week in connection with the men's division. The local woman attended the convention along with her husband and their young son, Billy Joe.

Mr. and Mrs. Stinson and 25 were among the 5000 delegates and guests at a banquet held in the open air before the Alamo last Wednesday evening. William C. McGraw, attorney general, was toastmaster for the occasion, and Governor James V. Alford delivered the main address.

Mrs. Stinson, who served as first vice president of the women last year, was toastmistress at the farewell luncheon, the last of a series of entertainments which favored the group of women, Thursday at the Gunter Hotel, convention headquarters.

Bluebonnet blue was featured in decorations and appointments for the luncheon, for which places were laid for 120 Texas women pharmacists and wives of pharmacists, a number far exceeding any previous convention. Mrs. Stinson was appropriately dressed in a knitted frock in bluebonnet blue as she presided for the program.

"First Impressions of Texas," a poem by Grace Noll Crowell, was presented in booklet form with hand painted cover to each woman present.

Flowers and potted plants as well as growing shrubs, which decorated for the convention, were lovely, according to the local woman. Elaborate favors and gifts were presented by sponsors and wholesale companies on every occasion, she said.

The local people were also privileged to hear an address by President Franklin D. Roosevelt paying tribute to the 182 Texas heroes who died at the Alamo, and to Texas for her 1936 Centennial celebrations. The service was more impressive because its setting was in the courtyard of the Alamo, the most important of Texas shrines.

The San Antonio convention was the most enjoyable ever attended by the Stinsons, they say. The Spanish air furnished by the beautiful setting and by the convention entertainment, furnished by El Paso, the 1937 convention city, added interest—so much interest that the local people joined a party of convention attendants, including several West Texas druggists and wives, for a week-end trip to Monterey, Old Mexico.

LET'S TALK ABOUT CLOTHES BY A YOUNG MODERN

During these hot sultry days, little attention is given to clothes. Something cool is all that is necessary for the average woman, but for the office worker the appearance element enters just as strongly as in the winter months. She has to look nice even if the thermometer does register 93, and sometimes it isn't such an easy problem.

The elimination of silk from the office is by far the best thing girls have done. In the middle of the afternoon, nothing can look worse or be so hot and sticky as a wilted silk dress. And no girl can do first class work when her clothes are uncomfortable.

Instead of the old tub silks, she now adorns crisp little cotton-dotted swisses, dimities, and novelty weaves of every description. There's a new fabric on the market similar to crash, yet as thin and cool as dimity. It makes an ideal office dress. Of course, linens and piques are always nice, but they wrinkle too easily to be really practical for office wear.

The dresses are simple—we see no intricate patterns or unnecessary trimmings. They have very short sleeves, medium-low necks with tiny flat collars of contrasting material, and few or no pleats. Trimming consists of colored buttons or grosgrain ribbon belts and bows.

Cotton laces are extremely popular, according to girls at Texas State College for Women (CIA). They are shown in pastel colors with shoulder lacings of narrow velvet ribbon. Some even have a tiny bolero jacket that makes a dress-up frock when you have a luncheon date. The dresses are street length and have very little trimming.

She was accompanied to the camp by her mother, her grandmother, Mrs. J. R. G. Burt, and her small sister, Raymona, all of whom returned home Friday.

Try CARDUI For Functional Monthly Pains

Women of the 'teen age to the change of life have found Cardui genuinely helpful for the relief of functional monthly pains due to lack of just the right strength from the food they eat. Mrs. Crit Haynes, of Essex, Mo., writes: "I used Cardui when a girl for cramps and found it very beneficial. I have recently taken Cardui during the change of life. I was very nervous, had head and back pains and was in a generally run-down condition. Cardui has helped me greatly. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician."

Chicken Barbecue Enjoyed by Class.

Members of the Win One Class of the First Methodist Church were entertained with a delightful chicken barbecue at the home of Mr. and Mrs. J. E. Blakey, south of town, Tuesday evening. Elizabeth Blakey and Hazel Gordon were hostesses.

The supper was delicious, Mrs. Joe Caton, class teacher, says, and the evening was one of the most enjoyable of the year for the 17 girls who attended. Supper was served on the lawn, and electric lights were turned on for the "84" games which were played later in the evening.

Class members arranged a surprise handkerchief shower for Hazel Gordon, who leaves soon to enter training at the Lubbock Sanitarium.

Members of the Victory Bible Class of the First Methodist Church met in the home of Mrs. A. M. Curry last Wednesday afternoon. Mrs. Homer Jenkins and J. H. Henderson were assistant hostesses.

A devotional from Psalms 119 was conducted by Mrs. I. W. Boren, class president, as was the business session, which followed. The class quilt was bound at the meeting and is ready for sale, the president says. Ice cream and cookies were passed to Mrs. H. C. Gordon and C. T. Glen, and Miss Ruby Curry, guests, and Mrs. Boren, Joe Strayhorn, J. P. Avery and Tom Fish, members of the class.

Six-Year-Old Is Party Honoree.

Alice Meryl Wilmet, six-year-old daughter of Mr. and Mrs. Lex Wilmet, was made honoree at a delightful birthday party given by her mother Sunday afternoon from 3:00 to 5:00 o'clock.

Misses Mary Ellen Williams and Cyrella Fish were in charge of the games during the afternoon, and they were presented with dainty gifts at the refreshment hour. Favors for the party attendants were zaxoo music pipes.

A pretty birthday cake was cut and served at tea time with ice cream and cookies to the following: The honoree, Ellen Jo Avery, Nelda Belle York, Dorothy Sue Cox, John Billy Harvey, Joye McGlaun, Jack McGlaun, Billy Don Burk, Mary Jo Burk, Frances Sentell, Joe Dave Scott, Mary Ann Randalls, Lucy Dodson, Mary Ellen Williams and Cyrella Fish.

Five Guests Are Present for Club.

Mrs. J. D. Scott was hostess to the Wednesday Afternoon Bridge Club at her home this week. Her guests were: Mrs. J. G. Hicks, Miss Clarabelle Clark of Amarillo, Mrs. Red Moore of Ranger and Mrs. Ed Grissom of Abilene.

Miss Clark received the guest prize, Mrs. Robert H. Curnutte Jr. played high for the high score prize among members, and Mrs. J. P. Strayhorn took the traveling prize at the close of a series of contract bridge games.

Other members present were: Mrs. Maurice Brownfield, W. W. Hill, Weldon Johnson and Gaither Bell. The hostess passed a dainty ice course at tea time.

People Make the Telephone System

Poles and wires and switchboards alone don't make a telephone system. You've got to have people.

You've got to have men and women and children that want to talk with each other. You've got to have operators sitting night and day before the switchboards. You need to have linemen willing to go out when the lines are down, and work with a 40-mile gale lashing sleet and snow into their faces.

It's folks that make a telephone system. When you figure out why service is better than it used to be, you find it's just people at work—men working problems out on American Telephone & Telegraph Company's staff, and inventors in Bell Laboratories, and the like.

The goal of the people who work for the Bell System is to furnish the people who use telephones with a service that is fast, and clear, and moderate in its cost to the user.

NEWLY WEDS WILL LIVE AT RANCH HOME

Mr. and Mrs. Grady Ferguson, who were married recently, are making their home at the Ferguson ranch, 40 miles northwest of Snyder in Borden County. Mrs. Ferguson is the former Miss Zoulena Barnett, a teacher in the local schools last year.

The wedding took place in the parlors of the First Presbyterian Church at Minden, Louisiana, Sunday morning, May 31, at 9:00 o'clock. Rev. W. F. O'Kelly, a life-time friend of the bride's family, officiated with the double ring ceremony. Parents of the bride, Mr. and Mrs. William A. Barnett of Simsboro, Louisiana, and a few close friends attended the services at Minden, where the bride was born and spent her childhood. The couple spent two weeks in Louisiana and returned here last week.

For her wedding dress the bride chose a dressy jacket frock of crepe and tulle with a blue and white Chanel model. She wore a leghorn hat and other accessories of ecru. Her corsage was made of radiance roses combined with baby's breath.

A bachelor of music degree was taken by Miss Barnett from Judson College at Marion, Alabama, and she has also attended Louisiana Southern University. Her sorority affiliation was Alpha Delta Pi at L. S. U. As teacher of public school music, she has been a member of the faculty of several Louisiana schools, and was last year a teacher in the local schools, her first year to teach in Texas.

Several leaders of the local Methodist Church were in Sweetwater Saturday morning for a fish fry at Lake Sweetwater that honored Bishop H. A. Boaz of Fort Worth.

Hosts and hostesses for the social gathering were Rev. S. H. Young, presiding elder, and Mrs. Young, Rev. and Mrs. Palmer of the First Methodist Church, Sweetwater, and Rev. and Mrs. Smallwood of the Highland Heights Methodist Church.

Held at the cabin of Mr. and Mrs. Cox, Sweetwater residents, the fish fry included not only fish from the lake, but fried chicken and "trimmings."

The guest list, made up mostly of pastors and their wives from the Sweetwater District, included Dr. and Mrs. O. P. Clark of the First Methodist Church, Abilene, and their son and daughter-in-law. Attendees from Snyder were Rev. and Mrs. H. C. Gordon, Mr. and Mrs. Joe Caton, Mr. and Mrs. R. H. Odum.

THE WEEKLY DOZEN

Not a Holiday for Death.

If this heat wave continues to wane and this summer sun continues to sun us, the weather should inspire motorists to go forth and slay each other in unprecedented quantities on the Fourth of July.

Tillie Is Well Satisfied.

Talkative Tillie says even if she hadn't learned any more at the cooking school than how to make cabbage smell and taste like something else, and how to use garlic without offense, she would feel well satisfied over success of the annual affair.

Not to Mention the Looks of the Thing.

Pessimism Pete says if the Times' office, post office and a few other so-called business houses around town would get rid of their weed crops, flies and mosquitoes might decrease in proportion to the efforts of the weed cutters.

Political Predictions.

It's mighty early in the race for The Times to be making political predictions, but we'll stake our unknown political reputation on Pat Bullock, Jimmie Allred and Charley Lockhart winning their state races without too much difficulty.

Bonus Bonds and War News.

What about the Veterans of Future Wars? The daring young college men broke into the headlines with a gusto for a few weeks, but their cause seems to have been drowned beneath an avalanche of bonus bonds and world-wide war news.

No Typhoid Fever Scare!

It is foolish to have typhoid fever scares and other epidemics in Scurry County almost every year. The secret of control of typhoid and several other diseases is bound up in that little word cleanliness. Let us be clean. Let us be healthy.

Weekly Rooseveltism.

President Roosevelt; "We can be thankful that people in all walks of life realize more and more that government is a living force in their lives. They understand that the value of their government depends on the interest which they display in it and the knowledge they have of its policies."

Debunking Queen Helen.

Debunkers now tell us that the Trojan war was probably the result of a boundary dispute, and was not caused by the abduction of Helen, the beautiful wife of King Menelaus, by Paris, and that Helen was a myth. Still, Helen's story must have happened somewhere; it's too good a story just to be made up, even by a war office propagandist.—Exchange.

Fair Time in Scurry.

Fall and harvest time will be on us within a short time. Why not set your head on having a jam-up good fair in Scurry County? We will have the crops. The fair could be financed with community-wide cooperation. Hundreds of folks are literally aching for a fair. Let's have a fair that will make the state sit up and take notice as it did when we had our Centennial celebration.

All He's Cracked Up to Be.

Pardon us, please, if we use a slang expression to describe many Snyderites' opinion of President Roosevelt. These locals say, in every-day language, that the President is all he is cracked up to be. In short, he is jolly, full of vitality despite his arduous duties, and as friendly as news stories and news pictures indicate. What a President to have in office for two terms running!

H. L. Mencken Suggests.

H. L. Mencken, who is most often described by the adjective "vitriolic," told big-time newspapermen recently that their editorials are seldom read and seldom appreciated because they are buried beneath formal headlines and inside a dry place in the paper. The American Mercury publisher said well, as long as editorial pages are timid souls. But when editorials drip venom or praise or unqualified conceit, their messages are seldom missed.

Sound Financial Condition.

The Texas Weekly: "Texas's financial condition is much better at this time than one might expect, considering the extraordinary expenses which the state government has been called upon to bear in the years since the depression began to darken around us. . . . (This condition), as outlined by Governor Allred in an address before the recent convention of the Texas Bankers Association, is such as to bring a feeling of happy surprise to taxpayers of the state."

A Dollar's Worth of Affection.

Gilmer Mirror: "An 82-year-old man was fined \$1 for alienating the affections of another man's wife, the judge evidently deciding that a fellow that old could not alienate more than a dollar's worth."

President Roosevelt: "Throughout the whole world change is the order of the day. In every nation economic problems, long in the making, have brought crises of every kind for which the masters of old practice and theory were unprepared."

Senator Collie.

Senator Wilbourne B. Collie of Eastland County has made such an outstanding record as the youngest member of the Texas Senate that voters of the 24th District will certainly return him to the post for another term.

The Times, which always follows a policy of voting for the man who has done his job well, is supporting the Eastland man for several reasons, any one of which makes strong reasoning in his behalf.

Senator Collie has served his constituents. He has labored continuously for court reform and other measures that would make for better living and better citizens.

Senator Collie has won the wholesome respect of his fellow senators. He was made speaker pro-tem of the Senate, and this honor at one time gave him the unusual privilege of being governor for a few hours. Near the beginning of his career as a senator he was made secretary of one of the most important ex-officio committees, whose investigations and recommendations concerning crime control have helped solve many of the state's criminal problems.

Senator Collie is a hard worker. He stays on the job. He is not a blowhard. He was elected on a platform of unassuming performance, and he has followed that platform.

Senator Collie is honest. Even his opponents in this section, who are fighting the senator on popular prejudices rather than real issues, do not attempt to impugn his honesty of purpose and his unqualified sincerity.

The Times has no doubt but that voters of this district will reward Senator Collie for his faithful service, for his hard work, for his dignified following of honest ideals in politics.

The Lord of San Simeon.

Heywood Brown in "The Nation": William Randolph Hearst discovered Landon and fostered him. His name would hardly have come before the convention at all but for the spade work performed by Hearst and his lieutenants. . . .

But the Republicans in Cleveland owe Hearst much more than a debt for the discovery of a candidate. For more than a year Hearst has set the pace and defined the issues for practically all the attacks made upon the Roosevelt administration. . . .

It is true, of course, that William Randolph Hearst has far from a complete sway over the American press, but he has more control than any single individual has ever had since the beginning of American journalistic history. Even those publishers who do not like Hearst's methods or his politics very seldom express their disagreement in public. The Republican candidate in this campaign will have more than 75 per cent of the press on his side. Hearst has delivered a large part of this. . . .

It is a little late in the day for the Republican party to talk of breaking with Hearst or disowning him. . . .

Having captured the candidate, Hearst has also captured the party. Now is the time for all good Republicans to make pilgrimage to San Simeon (Hearst's home). They have no other place to go.

CURRENT COMMENT

BY LEON GUNN.

With campaign literature finding its way to every section of Texas, the governor's race this year is assuming much interest, for with Jimmie Allred's avowal of seeking re-election, and the announcement of our perennial candidate, Tom Hunter, for the office, the field narrows down to Hunter and Allred as chief vote getters.

Looking through the easy fitting glasses of impartiality, one can say Jimmie's early day life is so well known, as is his brilliant legal record, one needs little introduction to the man; Hunter being a West Texas and hence one might care to know him better. . . . From 1902 to 1908 "Tommie" Hunter attended school at Claremont, his father, Frank Hunter, having been cook for the far-famed 2 Circle Bar outfit. . . . The 2 Circle Bar Ranch is now known as the O Bar O. Tom Hunter later played the oil game for big stakes; luckily played it wise, and made as one Spaniard said, "much da dinero for rain days." . . . Now, Tom comes forth with a smooth line of campaign broadsides, terming Allred Jaunty Jimmie, "the galvanizing beauty queen governor." Since all indications are Tom will fall short of his mark by 125,000 votes, he will no doubt one day be content with his oil and real estate holding to let Jimmie be himself; even if a few beauty queens are in need of public recognition and a crown to match their "hankie" bathing suits.

The Resettlement Administration, humanity's re-habilitating agency in America, with its 90,000 clients in Texas and Oklahoma, has done a great deal toward easing the pinch of poverty's ill fitting shoes, and therefore is doing a commendable thing. . . . Yet, according to one of the "brass hat auditors" of the RA, it seems Rexford Guy Tugwell allowed his state supervisors to buy up more land than at first was contemplated by Tugwell. . . . The idea of an exodus from one part of a state to another was "one way out" for many a client. . . . Yet a large scale movement of families is always costly, the Resettlement Administration "bearing down" to catch up with back checks to certified clients. . . . More and more, re-habilitation is appearing to begin at home.

The Times Creed:

For the cause that needs assistance; For the wrongs that need resistance; For the future in the distance, And the good that we can do.

Parades, Rodeo Headlining Texas Cowboy Reunion

The best attended and one of the most enjoyable features of the Texas Cowboy Reunion at Stamford has always been the big down-town parade. The parade this year will be the biggest and best in the history of the reunion, according to Warren B. Tayman, chairman of the parade committee, who says that some brand new attractions will be incorporated in this year's event.

Parades will be held daily during the three days of the reunion, July 2-3-4.

Seven rodeo events are on the card for this year's show. Three rodeo performances will be held each day during the reunion—morning, afternoon and night. Cash prizes in the rodeo events total \$1600. Prize saddles, boots, spurs, hats and other premiums will swell the total prize list to approximately \$2500.

Cash prizes will be given in bronco busting, calf roping, steer riding and wild cow milking each day. A special junior steer riding contest will be staged at night performances on July 3 and 4, and the winners will receive cash prizes. Cowboys over 55 years of age will compete for honors on July 2 and 3 in a special calf roping contest, the winner to receive a hand-made saddle.

In addition to these attractions, a cutting horse contest will be held on the morning of July 3. This contest has always been popular with the spectators, because more depends upon the skill of the horse than the ability of the rider. It is particularly popular with the cowboys who like to boast of the skill and intelligence of their horses. Each contestant must cut five head of cattle, designated by colored ribbons, out of a herd. The horse and rider doing the job with the greatest skill and speed wins the contest and prize, a fine hand-stamped saddle.

A change has been made in the rules of the cutting horse contest in that there will be no elimination contest as in former years. The entire contest will be held on the morning of July 3, the horses being given their final rating by the judges at that time. Certain changes will be made in the manner of conducting the contest, in order to give the rider a better chance to show his horse.

Green Strip Means Loss of Good Soil To Be Stopped Soon

Some crops are enemies of soil erosion and other crops are allies. Some crops protect a soil from erosion and others induce soil losses.

According to the Soil Conservation Service, nearly all forage crops—such as alfalfa, the clovers, sudan grass and lespedeza—check soil washing and blowing much more effectively than such cash crops as cotton, tobacco, corn and potatoes.

The Soil Conservation Service is recommending strip cropping to thousands of farmers cooperating in its 141 demonstration areas throughout the country. Strip cropping means planting strips of close-growing, soil-protecting crops on the contour between strips of clean-cultivated, soil-depleting crops. Each close-growing strip checks the speed of water running down the slope. The strips of protecting crops catch the soil that washes away from the clean-cultivated strips. Combined with terracing and terrace outlet drainageways, strip cropping provides the best protection against cropland erosion in many regions.

Strip cropping is also effective in retarding wind erosion. Close-growing crops break the wind, and in addition help build up fertility and conserve moisture in the soil. Strip cropping is comparatively new in erosion-control procedure, but is being used on nearly all demonstration projects in 41 states.

One way to judge the world is to consider yourself a sample.

FARMERS GET SUBSIDY CASH

Scurry County farmers last week received 253 cotton subsidy checks for a total of \$7,140.11. A total of approximately 1,500 of these checks is due to be received in the county this month.

These were the first subsidy checks received in the county. They represent the difference between the market value and 12 cents per pound on the day the cotton was sold.

Distribution of the checks started early last week. All who received checks were notified by mail.

Abilene, June 15.—School leaders and others from a wide West Texas area gathered at the Hilton Hotel here Sunday afternoon to make final plans for a regional-wide drive that will place A. A. Bullock in the state superintendent's office.

Representatives of thousands of teachers and other citizens expressed enthusiastic belief that the former Scurry County superintendent of schools, a native West Texan, will sweep the state in the July 25 election. The group gathered from an area bounded by Kermit and Menahans on the west, Rochelle and Stephenville on the east and south-east, Nocona and Childress on the northeast.

R. P. Tull, vocational agriculture teacher at Rochelle, was made chairman of the West Texas group, after L. E. Huff of Kermit opened the gathering as temporary chairman. J. C. Smyth, Snyder newspaperman, was made secretary-treasurer.

Out of this meeting grew definite plans for district organizations heading at Abilene, San Angelo, Lubbock, Amarillo and Wichita Falls.

Attendees at the meeting included Frank Farmer, Scurry County superintendent.

Pastures Do Better If Breathing Spell Given Them Often

A breathing spell for pastures pays good dividends in more forage and better gains in weight of cattle, according to tests by the Bureau of Animal Industry at the Ardmore field station, Ardmore, South Dakota.

Two-year-old steers grazed continuously on native range stocked at the rate of one steer to 10 acres from May 15 to September 14 (122 days), gained 83 pounds per steer as compared with 157 pounds gained by similar steers on alternate grazing but at the same rate of stocking.

It was estimated that from 10 to 15 per cent more grass remained at the end of the experiment when the area was grazed alternately than when it was grazed continuously.

Steers receiving a barley supplement of 9.57 pounds per head daily on alternately grazed range gained 297 pounds per head. An additional group fed a barley supplement of 9.8 pounds per head daily for the last 66 days on grass gained 227 pounds per head.

He said he appreciated the congeniality of Snyder folks, which contrasts with the attitude he has found in some West Texas towns. He complimented The Times for its appearance and modern shop.

SNYDER LOSES TO ABILENE KP

Errorless ball by Abilene's K. P. team of softballers was the difference between win and loss Wednesday night at Tiger Field. The visitors were matched with a squad of Snyder all-stars in the first inter-city game of the year for the locals.

The score was 7 to 3. Snyder got 7 hits off Corley, who struck out 8 and walked 2. Grady Shytle, pitching for Snyder, gave up only 8 hits, allowed 3 walks and struck out 13 men. Weeks of Abilene hit a home run to deep left in the third with two on.

Time of the game was an hour and 25 minutes. Bunker Hill of Snyder and Childress of Abilene umpired. Sims caught for Snyder, Hudson for Abilene.

First Presbyterian Church

The special Flag Day observance last Sunday evening is felt to have been a great success, due to the cooperation of the American Legion, the Auxiliary and the pastor and congregation of the First Methodist Church. Almost a capacity crowd was present and the spirit of fellowship and loyalty under the flags of church and state will long be remembered by those present.

There will be no preaching service in the morning nor in the evening of next Sunday, as this is the Sunday on which the pastor holds services in the Presbyterian Church at Fluvanna. The other regular exercises will continue, however, and the members of the church will join with other congregations of the town for worship services.

The Presbyterian campment at Buffalo Gap will start next Wednesday and all those who plan to attend should make final arrangements with the pastor for transportation, equipment, etc. It is not too late to make your plans to attend.

Men-of-the-Church Club

Plans are being perfected for a Men-of-the-Church Club to be sponsored by the Presbyterian Church. Purpose of the organization is to bring the men together for inspiration, service and fellowship. The club is being organized at the request of laymen and for laymen, and will be open to any men who wish to join. A meeting for discussion, planning and temporary organization will be held in the basement of the Presbyterian Church next Friday, June 19, at 8:15 p. m. You have a cordial invitation to be present.—James E. Spivey, pastor.

Borden County Has Raised a Mosquito

So lively has been the interest in the Borden County mosquito that was left in the Times office that the publishers have decided to tell the truth about the critter, just as Nolan von Roeder, the capturer, would tell it.

It's a mosquito, all right. Nolan says so. Of course there have been a few doubters to view the long brown winged insect with the triple steering apparatus and tail, but the majority have asked incredulously: "Is it really a mosquito?"

In case you are not convinced that it's really a mosquito, come down and have a look. If you still don't believe it, just remember how those Borden County fellers catch fish, grow watermelons, raise cattle and breed cottonseed.

Terraplane Seen in Local Showrooms

The 1936 Terraplane coupe, mounted on 115-inch wheelbase, with 88-horsepower engine standard, with 100-horsepower optional, with the high compression aluminum cylinder head. J. R. Hicks, whose showrooms are a block east of the square on the highway, is new local dealer.

Hicks, whose showrooms are a block east of the square on the highway, is new local dealer.

J. R. Hicks Has Taken Dealership For Terraplanes

Completely new and more modern than ever in appearance, more luxurious in style, and with a wealth of engineering development, the new Terraplanes for 1936 are here and are on display at the J. R. Hicks showroom, 1619 25th Street.

The well known Snyder service station man and tire dealer announced last week that he has taken the local agency for Terraplanes. "Not only do the new cars attain entirely new standards of beauty, but they incorporate safety engineering features to a degree never before found in automobile chassis and bodies," according to the new dealer. "In addition, there are a number of innovations of a fundamental nature which no cars have ever had before."

"Although these cars are still in the lowest price field, they are much bigger and finer than their predecessors of the same make. Of interest from a safety, as well as comfort standpoint, is the wholly new principle, radial safety control, which makes possible the greater safety in riding, steering and stopping. So marked a difference does this new front end system incorporate in the riding qualities of the car that the manufacturers of the Terraplane have given the name, "rhythmic ride," to the result of the synchronized and unified suspension system."

Walter Visits Here.

W. B. Dowell, former commissioner of Precinct 4, was a week-end visitor in Scurry County from his present home near Littlefield. He says he has a fair prospect for good crops—and that the political good is as rich in Lamb County as it is in Scurry.

Three Teams Tied for Second Place; Northerners Continue to Lead League

Red Hill's East Side crew, league leaders early in the season, dropped still deeper in percentage within the past week. With five wins and three losses, they are now tied with Pleasant Hill and Fluvanna for second place in the league.

Continuing their fast pace, the North Side maulers won two and lost none. They are leading the league with eight wins and one loss. West Side, which showed up strong in the beginning, has dropped to sixth position.

The Lions Club remained in the cellar with no wins, despite the fact that they have acquired the services of local boys under 18 years of age. Hermleigh broke even in its two starts to keep the seventh position. Dunn dropped to fifth place, her squad also breaking even in two starts.

League officials ask The Times to call attention to the fact that 15 years is the age limit for free admission. All persons over that age are required to pay the 10-cent admission charge. With warm nights coming regularly, attendance at practically all games has been good.

Schedule for the next few days follows: Thursday, Dunn vs. West Side, Hermleigh vs. Pleasant Hill; Friday, North Side vs. Fluvanna, Borden County fellers catch fish, grow watermelons, raise cattle and breed cottonseed.

missed in the first search of the place.

Clarence Myers, fifth Snyder man to be released under \$250 bond, operates the filling station at the bend of the road on Highway 15, a half mile outside the city limits, just beyond the Crockett Davis place. Beer and whiskey were found at his station, and he later told officers that 21 cases of whiskey, found in a barn on the Dee Myers farm, four miles west of Snyder, were placed there by him (Clarence) without Dee Myers' knowledge. Dee Myers was also charged, and released under \$250 bond.

J. E. Cunningham of Big Spring, the seventh man arrested, said he was driving a wholesale liquor truck for the West Texas Wholesale Drug Company, Big Spring. He was released under \$1,000 bond for transportation of liquor in a dry territory, and the truck was released after \$900 bond was posted.
