"YOUR HOME COUNTY PAPER"

FORTY-NINTH YEAR

SNYDER, TEXAS, THURSDAY AFTERNOON, JULY 16, 1936.

NUMBER 6

SEVERAL WILL ATTEND A. & M. SHORT COURSE

Nine Scurry County People Leaving Late This Week for Annual Farmers' Gathering.

A delegation of nine from Scurry County is scheduled to leave Saturday for College Station, where they will attend the twenty-seventh annual Farmers' Short Course, which will open Monday, July 20, and continue through July 24.

The county group will include: W. B. Lacey, county agent; E. B. McLeroy, assistant county agent; Ben Brooks, member of the county soil conservation committee; Miss Jonye Watson of Hermleigh; five 4-H Club boys, all of Fluvanna, A. V. Ball, Milton Smith, Kenneth Mull, Ross Belew and Berry Cribbs.

From the five boys will be selected four, who will compose the Scurry County 4-H Club livestock judging team. This team will compete against teams from other counties of the state.

The Centennial year theme was incorporated into the name of the annual Farmers' Short Course this year because of 100 years of progress on Texas farms and rural homes.

Distinction will be given the 1936 short course because of the many outstanding state and national figures who are scheduled to appear, including: Carl B. Fritsche, Dearborn, Michigan, managing director of the Farm Chemurgic Council; Edward O'Neal, Chicago, president of the Farm Bureau Federation; H. R. Tolley, Washington, administrator of the AAA, and many others.

This year the short course was divided into the main heads of horticulture, dairy, livestock, farm crops and soils, poultry, and conservation of wild life.

Scurry Gets 15 Loans For \$3,144 On Housing Plan

Latest figures reveal that 15 loans amounting to \$3,144.67 have been made in Scurry County under the modernization credit plan or Title I of the National Housing Act, according to a statement Friday by P. S. Luttrell, associate director of the Northwestern Texas District of the Federal Housing Administration.

The northwestern district of Texas with headquarters in Fort Worth, comprises 113 counties of North and West Texas. During the 20 months' operation of the Federal Housing Administration, there has been a total of 9,610 loans amounting to \$2,241,505.08 made under Title I throughout this district, states Luttrell.

Title I or modernization credit loans are made by banks and other financial institutions approved by the Federal Housing Administration.

The loans are made for repairing, altering, modernizing and the improvement of real property. The obligation is repaid in small, equal monthly payments over a period of years not to exceed five. This particular section of the National Housing Act expired on April 1, 1936, but because of the demand for this type of loan, and the great benefits to property owners, building material dealers, and labor in the building trades, the modernizing credit plan was extended to April 1, 1937.

"Altogether many thousands of business firms, and millions of wage earners, have profited," says Mr. Luttrell. "The recovery evident during the past year and a half indicates that the modernization credit plan has acted as a real force."

Friday and Saturday have been announced as sectional fellowship days, with three services daily. Services will be held here these two days, and there will be plenty of good preaching and singing, with special singing Saturday night, say church leaders. A Christ ambassador rally will be held Saturday night.

Pastor J. E. Young says: "Good crowds are attending the meeting. Many are weeping their way through to an old-time experience of salvation. The public is invited to all our meetings."

Clell Clark, son of Mrs. Stella Clark, Snyder, has enlisted in the U. S. Navy at the navy recruiting station in Dallas and was transferred to the naval training station at San Diego, California, for recruit training.

After completion of training, Clark will be transferred to a ship of the fleet, where he will serve during the remaining time of his enlistment.

Snyder Films Will Be Included Among Others at Cowtown

When the Frontier Centennial opens in Fort Worth Saturday, Snyder will be one of 85 West Texas towns to have scenic spots, industries and other attractive features presented in moving picture films. Approximately 8,000 feet of film were shot by Photographer A. L. Osborn, in the West Texas Chamber of Commerce program to have its territory shown in movies. Snyder was the second town to be pictured, her shots having been made during the Centennial celebration May 21.

"Where farmers ranch and ranchers farm" is the slogan for Snyder, which centered on farm and ranch scenes, with emphasis on livestock. Scenes of the celebration are also included.

Snyder's panel at the show will carry the same slogan, and will picture a purebred Hereford from the Winston herds.

BULLOCK SEEN AS NEW STATE SCHOOL CHIEF

West Texan Gathering Remarkable Strength in South, East and Central Part of Texas.

Reports brought to a Pat Bullock for state superintendent rally at Lubbock Monday indicated that the West Texan, former superintendent of Scurry County schools, will be Texas' next school chief.

Such was the message brought back to local friends of Bullock by Frank Farmer and Jake Smyth, who attended the meeting that mapped final West Texas campaign plans for the West Texan.

Scurry County friends were especially elated over the fact that their candidate is apparently sweeping the majority of counties in South and East Texas, and is at least breaking even in Central Texas, home grounds of L. A. Woods, incumbent, who is seeking a third term.

Woods Paper Worried. One of the most encouraging reports came from a Bullock friend who has just returned from Central Texas. He read from a newspaper published in Waco, Woods' home city, that many political observers see Bullock as the next state superintendent. This opinion was expressed in an article that was openly in support of Woods' candidacy.

An even more encouraging report came from the larger cities of the state. San Antonio, state Bullock campaign headquarters, is believed to be lining up behind Bullock at least two to one. Houston seems to be definitely under the West Texan's banner, while Fort Worth support is to be assured, and Dallas votes are rapidly veering toward a Bullock majority.

Influential Supporters. One of the most inspiring aspects of the Bullock campaign is the fact that at least 75 per cent of county superintendents, incensed at Woods' unfair treatment of rural and small-city schools, are supporting the former Snyder man. At least four out of every five county superintendents in West Texas are campaigning for Bullock, says Farmer, Scurry County superintendent, who retired last week as chairman of the state conference of county superintendents.

Mrs. S. M. N. Marrs, widow of a former state superintendent, recently resigned her state Parent-Teacher Association affiliations to work actively for Bullock.

Depending almost entirely for the support of his campaign on close friends and those who favor his educational principles, Bullock is being given sacrificial support from hundreds of school superintendents, principals and teachers who are combing their districts and purchasing Bullock literature at their own expense.

Monthly, Quarterly County Reports OK. Monthly and quarterly reports of County Treasurer Mrs. Otto S. Williamson were checked and approved by the Commissioners Court, in regular session Monday.

Aside from approval of a number of bills, little other business was transacted by the court.

In a statement prepared for The Times, Commissioner Holly Shuler of Precinct No. 2 reveals on the basis of the county treasurer's quarterly report, approved Monday by the Commissioners Court, that the precinct's financial condition has improved in the amount of \$7,209.98 since January 1, 1933.

Shuler is not a candidate for reelection. His term will expire this year. Following is his complete statement:

"I have been asked many times about the financial condition of county commissioner Precinct No. 2, and at the request of interested taxpayers and citizens I am glad to make a statement of the condition as shown by the auditor's report as of January 1, 1933, compared with the county treasurer's quarterly report for the period ending June 30, 1936, and approved by the Commissioners Court July 13, 1936, which treasurer's report is on file in the county clerk's office for the inspection of anyone interested in the subject.

"The auditor's report for January 1, 1933, shows a cash credit balance to Precinct No. 2 of \$718.20 and outstanding script warrants in the amount of \$6,459.31, leaving a deficiency in this precinct account of \$5,741.11. The county treasurer's quarterly report of June 30, 1936, shows a cash credit balance to Precinct No. 2 of \$1,542.98 and the un-

Tell Your Friends About Pat Bullock

Hundreds of post cards and letters have gone out of Scurry County and adjoining counties in recent days in support of the candidacy of Pat Bullock, whose permanent home is in Snyder.

This method of telling your friends about Bullock's candidacy may be the difference between win and lose for the popular school man, point out local friends. They recall that the state superintendent's race four years ago was determined by a margin of only a few hundred votes.

Your postal card or letter will in almost every case mean two to four more votes for Pat. Why not sit down right now and write brief recommendations to your friends all over the state? Phone or see Frank Farmer if you have a number of prospects and want him to help you contact them.

Looters Take County Brew. Looters unlocked a door in the courthouse basement early Saturday evening, entered a room that contained 12 cases of home brew, and departed without paying for their drinks or being discovered.

A portion of the brew was drunk on the spot, some of the bottles were broken and spilled, and others were taken from the courthouse. The looting was discovered shortly after dark.

The brew was taken in recent raids by state, county and local officers. None of it was involved in the liquor cases that are scheduled to be called in county court August 10. Liquor and beer retained as evidence is elsewhere in the courthouse.

Red Moore Going To South Texas as Sinton High Coach. Word came to Snyder Tuesday that Otis M. (Red) Moore, for the past two years coach of the Ranger High School football team, and former athletic championship producer at Snyder, has tendered his resignation to P. P. Brashler, chairman of the athletic committee of the Ranger school board.

In submitting his resignation, Moore stated that he had signed a contract to coach football at Sinton High School, in South Texas, during the 1936 season.

Hal Styles, sports writer for the Abilene Morning News, expresses the sentiment of Moore's hundreds of West Texas and Snyder friends as follows:

"Red Moore, a genial fellow and a crafty teacher of gridiron tactics, steps out at Ranger High School. Moore resigned to take a job as coach and teacher at Sinton High School. The former Abilene High and Hardin-Simmons star turned out a number of fine football and track teams at Snyder; moved to Lubbock his first year with the Bulldogs. It was a dismal showing the Redshirts made last year, but little of the blame should be placed on Moore's shoulders. He lost several of his star performers of the previous season and there was much dissension among the holdovers."

Wolcott Returns to Place as Santa Fe Agent After Illness. P. W. Wolcott returned to his place as Snyder Santa Fe agent yesterday, after illness forced him to retire for three and one-half months of rest and treatment.

R. M. Champion, who has been acting agent for several weeks, leaves for Wellington, Kansas, where he will be dispatcher.

A. A. Cloyd of Lorenzo is here to take care of the second shift for M. L. German, who is vacationing, with his family, in New Mexico.

The local agent is in the best health he has enjoyed in several months, and thinks he will continue to improve. He returned 10 days ago from two months of treatment in a Dallas hospital.

Snyder Tailor Will Travel From Dallas. Creston Fish, son of Mr. and Mrs. Earl Fish, has accepted a position with the Technical Chemical Sales Company, Dallas. He left here Monday for Dallas, after having spent last week there in preparation for the work.

The local high school graduate will travel for the company, with his territory in West Texas. He is in Dallas today for the purpose of mapping out his routes. Since Creston graduated from the local high school he has been associated with his father in the tailoring business.

Superintendent at Pyron Visitor Here. M. H. Greenwood, who comes to Pyron this year as superintendent to succeed T. B. Bownds, who has moved to Whiteburg, was in Snyder this week to announce that Pyron school will begin Monday, August 3.

The new superintendent has moved to Pyron, and is making plans for opening of the 1936-37 term. School will be dismissed for a few weeks later at cotton picking time.

Greenwood, whose home is at Stephenville, comes from Garden City schools.

HIGHWAY BODY TO HEAR LOCAL GROUP JULY 31

Chamber of Commerce Committee And Dunn Citizens Invited to Ask 101 Improvement.

Chamber of Commerce President Forest Sears said early this week that Snyder and Dunn citizens have been invited to appear before the State Highway Commission at Austin on Friday, July 31, for discussion of plans for improvement of Highway No. 101.

The joint committee named last Tuesday after a session of local Chamber of Commerce representatives and Dunn citizens, with the Commissioners Court, is composed of the following:

W. C. Hooks, J. E. Brown and L. E. Russell, Dunn; W. J. Ely, A. D. Erwin, Harrie Winston and Forest Sears, Snyder Chamber of Commerce. Other citizens will also probably make the trip.

The committee will formulate details for submission to the commission, including the fact that the Commissioners Court has pledged that it will secure right-of-way at any time.

Immediate improvement of the strip from the Mitchell County line, by way of Dunn, to a point two miles southeast of Snyder, where it will intersect Highways 7 and 15, will be asked by the delegation.

Work continues on the Mitchell County portion of the road, only two or three miles having been opened to traffic.

School Transfer Required During This Month Only

All pupils of scholastic age who expect to attend school, and whose grades are not taught in their home district, should be transferred by August 1, says Frank Farmer, county superintendent.

Those whose grades are taught in their home district and expect to transfer to another district should bear in mind they will be expected to pay their own transportation and tuition. Laws make it mandatory that the receiving district charge this tuition or endanger its receiving state aid of any type from the state.

The law also provides that all transfers whose grades are taught in the home district may be appealed by the local school board to the county board, whose decision is final.

August 1, since under the new transfer laws transfers can not be made after this date without special permit from the State Department of Education.

Local Boys Enrolled In Classing School

Enrolled in a two weeks' cotton classing school at Texas Tech, Lubbock, are two local boys. They are Delmus Perry, son of Mr. and Mrs. W. A. Perry, who attended a school of the kind at Houston recently, and Bernard Longbotham, son of Mr. and Mrs. B. Longbotham.

The school began last week, and it is the annual cotton classing school conducted in the textile engineering department at Texas Tech. Laverne Lackey of New Orleans, government supervisor of cotton classing, and M. E. Heard, acting head of the textile engineering department at Tech, are directing the classes, which close Friday.

Soil Committee in Session This Week

The Scurry County soil conservation committee is having sessions in the courthouse this week.

Applications for participation in the 1936 government soil conservation program are being checked by the committeemen.

TRADE MARK

This and other thinly draped young women have become the virtual trade marks of the Fort Worth Frontier Centennial, which opens Saturday. Cowtown is going in for giving folks a good time, with "Wild and Whoopee" as her slogan. Billy Rose's "Jumbo," Casa de Manana, Sally Rand's Nude Ranch, and other similar attractions will headline entertainment offerings.

Plans are practically complete for broadcasting of first primary election returns from the west side of the square Saturday night, July 25. Under sponsorship of The Times and Snyder merchants, state, district and county returns will be given as quickly as figures can be gathered by telephone, telegraph and carriers. All folks in Scurry and surrounding counties are invited to attend this big election party.

Results will be compiled Saturday night and published in copies of The Times that will be distributed free of charge from the following locations: Times Building, Snyder; Fluvanna, Hermleigh, Gall, Pyron, Camp Springs, Ira, Dunn, Dermott.

Street talk indicates that county interest centers in the sheriff's and county judge's races, although all contested races are up for their share of gossip and prophecy. Keen interest is also being developed in the state representative and state senator races.

In the opinion of most state political writers, next week's ballot will give Allred a commanding first place, with Fischer second. Hunter and Sanderford are given an outside chance to enter the runoff, with Pierce considered entirely out of the race.

Seasonal Upturn Revealed In June Figures of Bank

A sharp seasonal upturn is revealed in the statement of Snyder National Bank for June 30, 1936.

Deposits were more than \$125,000 above what they were on June 29, 1935. Loans and discounts aimed almost \$50,000, while total assets this year, climbed more than \$95,000.

Comparative figures gleaned from recent bank statements show June 30 condition to be not far behind that of March 4, this year, and December 31, 1935. They follow:

Deposits—June, 1935, \$697,159.23; December 31, 1935, \$672,949.10; March 4, 1936, \$834,109.91; June, 1936, \$812,585.03.

Loans and discounts—June, 1935, \$255,804.99; December 31, 1935, \$222,361.01; March 4, 1936, \$267,795.49; June, 1936, \$303,832.85.

Assets—June, 1935, \$860,795.05; December 31, 1935, \$1,047,607.77; March 4, 1936, \$989,927.60; June, 1936, \$956,288.29.

Hermleigh Installs New Type Laundry

Hermleigh has a new laundry. The modern trend of washing was introduced into the town Monday with opening of the Hely-Selby Laundry by W. W. Davidson, Borden County man.

The new business occupies the Carnes Building, which was formerly used by the Philip Williams Grocery. Two modern steam washers are now in use, and others are to be installed later.

Enrolled in a two weeks' cotton classing school at Texas Tech, Lubbock, are two local boys. They are Delmus Perry, son of Mr. and Mrs. W. A. Perry, who attended a school of the kind at Houston recently, and Bernard Longbotham, son of Mr. and Mrs. B. Longbotham.

POLITICS GETS PIPING HOT AS BALLOT NEARS

Wednesday, July 22, Final Voting Day for Absentees; County Combed by Candidates.

A voting public that was sluggish and apparently uninterested early in the campaign has provided candidates with a piping hot political griddle during the first half of July.

State politics has not warmed up as much as candidates had hoped, but county and district races give promise of bringing out a record percentage of votes, based on poll tax payments.

Wednesday, July 22, is the last day for casting absentee votes. If mailed, the absentee ballots must be postmarked not later than that date. Those who wish to vote absentee ballots must apply for the ballots in writing. Application blanks may be obtained from any county clerk.

Many Absentees. Judging from the number of ballots that have been cast to date, absentees may approach the mark of almost 150 set before the first primary of 1934. Thirty-nine ballots had been cast yesterday afternoon, and eight more had been applied for but not cast, according to records in the office of Mrs. Mattie B. Trimble, county clerk.

Candidates are combing the county for territory they missed early in the race, or remaining in the population centers where they may contact as many voters as possible.

Local Interest High. Street talk indicates that county interest centers in the sheriff's and county judge's races, although all contested races are up for their share of gossip and prophecy. Keen interest is also being developed in the state representative and state senator races.

In the opinion of most state political writers, next week's ballot will give Allred a commanding first place, with Fischer second. Hunter and Sanderford are given an outside chance to enter the runoff, with Pierce considered entirely out of the race.

Bruce Finds Speck Of Dirt, Mispaced Hanky Not So Good

A speck of dirt in your room or a handkerchief whose angle is not just right will bring demerits at the U. S. Naval Academy, Annapolis, Maryland, Bruce Murphy has learned.

The Borden County boy, son of Mr. and Mrs. Ed Murphy, was accepted at the academy more than two weeks ago. He had passed all literary requirements because of his good record in college, and was able to come through on his physical examination at Annapolis.

With the exception of the strictness, to which he is gradually becoming accustomed, Bruce writes his parents that he is enjoying his work immensely.

Since he was forewarned about what he might expect, Bruce is not surprised at the hard-boiled rules. His advance information came from the eminent Clemens von Roeder, who attended the naval academy in his days of youth and innocence.

Scurry County Boy Hurt at Big Spring

Douglas Riley, aged seven, was struck by a car in East Big Spring early last Friday afternoon, receiving a broken left leg and internal injuries.

After receiving emergency treatment in a Big Spring hospital, the son of Mr. and Mrs. Bill Riley was rushed to Snyder General Hospital in a Maples Funeral Home ambulance. He had not been moved from the hospital late yesterday, but his condition is not considered critical.

The boy had accompanied his parents to Big Spring, where they were at the bedside of Ross Riley, who was ill.

LEAH SMITH AND JOHN KING ARE WED RECENTLY

Announcement has been made here of the marriage of Miss Leah Smith, teacher in the local schools last year, and John B. King of Detroit, Michigan, formerly a Snyder resident.

The marriage took place in the parlors of the First Methodist Church in Detroit early Sunday morning, June 21. The bridegroom's brother, Guy King, and his wife entertained the 20 wedding guests at a delightful breakfast at their home in Detroit following the ceremony.

The bride was attractively dressed in a simple frock of navy blue sheer with yellow accessories and shoulder corsage.

Mrs. King is a daughter of Rev. and Mrs. I. A. Smith of Seymour, Mo. She is a well known Methodist minister of this territory, having been pastor of the church at Floydada before being sent to Seymour. A teacher for several years in the Wellington public schools, Miss Smith came to Snyder to teach last year. She was re-elected to her place with the local schools for next year. Her college work was done at McMurry College, Abilene, and West Texas State Teachers College, Canyon.

Son of John W. King, Snyder, Mr. King has spent the past 13 years in Texas. He came to the state from Jacksonville, Florida, where he received his education. Leaving Snyder March 1 of this year, he went to Detroit to work in the press room of the Detroit Free Press, a position he has held since that time.

Mr. and Mrs. King are at home to their friends at 5478 Cass Avenue, Detroit, Michigan.

Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right." Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

Mrs. Boyer Is Hostess to Club.

Mrs. Junior Boyer, a new member of the Duce Bridge Club, was charming hostess to club members and guests at her home last Thursday evening. Bridge prizes went to Allene Curry, high score, and Frances Chenault, traveling prize.

The hostess passed a dainty ice course to the following: Mrs. Marvin Hinds of Abilene, Miss Francis Northcutt and Mrs. Herman Doak, guests; Ruby Lee, Frances Chenault, Margaret Deakins, Johnnie Mathison, Janice Erwin, Mavis Webb, Mrs. Billy Lee Jr. and Allene Curry, members.

Mary Jane Beall will be next hostess to the club. The date for the party is Thursday, July 23, at 8:00 o'clock.

Snyder Girls Are All-Star Campers.

Wynona Keller and Juanita Burt are among the girls who are fulfilling the requirements for all-star rating at Camp Waldemar for Girls, near Kerrville.

At the final banquet Friday night, Miss Keller will be one of the eight girls receiving a diamond to go in her gold all-star pin, which she earned last year for being a third year all-star camper. Miss Burt will receive a Waldemar "W" and felt star for rating all-star her first year at the camp.

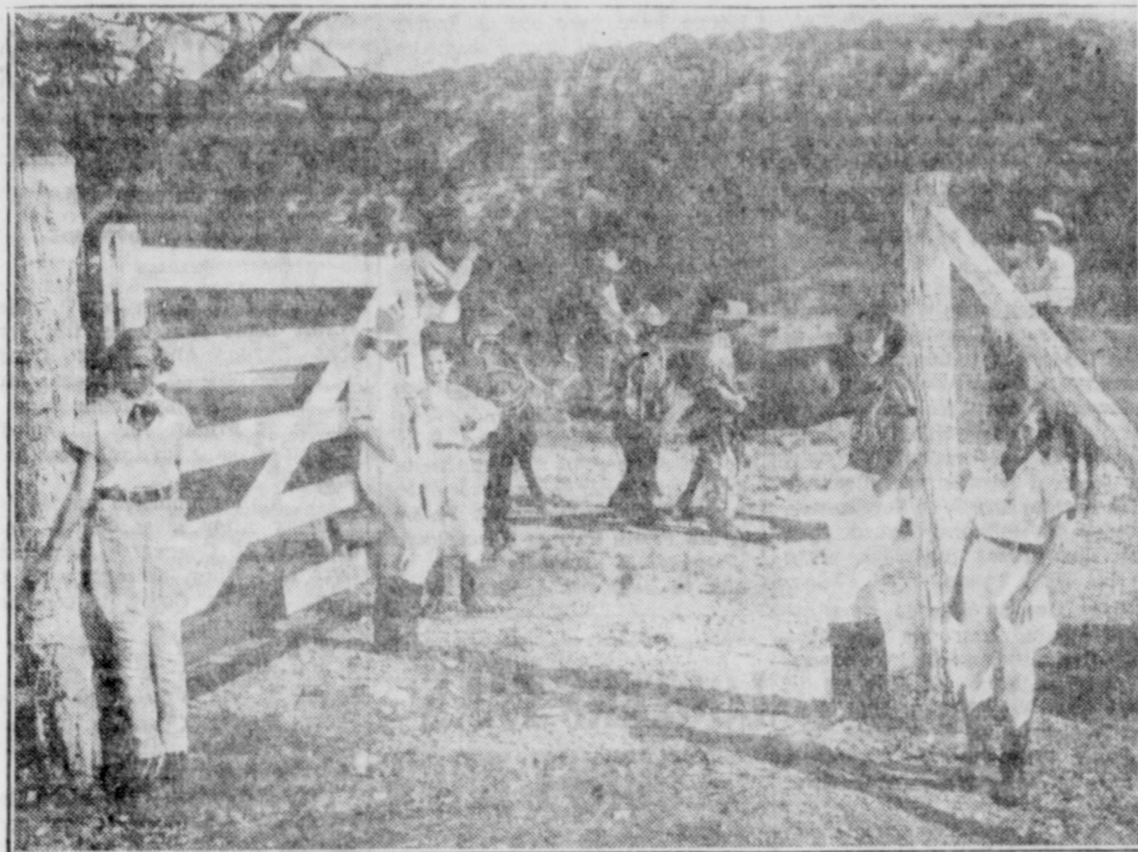

Miss Burt is finding time to take part in a number of activities besides working for all-star rating. She rode in the western drill in the horse show July 4, and on July 10 she was one of 100 campers going to San Antonio on a sightseeing trip.

Miss Keller is one of the most talented dancers at Waldemar, and was featured on the July 4 pageant program, which was attended by her mother, Mrs. John Keller, her grandmother, Mrs. J. R. G. Burt, and her sister, Raymona, in a solo dance, "La Paloma." She recently passed the Junior Red Cross life saving examination and rode in the spectacular quadrille July 4.

RAIL ROMANCE DISCUSSED BY LUBBOCK MAN

Railroad Week Observed Here by Program, Display and Posters; Two Roads Cooperate.

Second annual observance of Railroad Week by the Western Association of Railroads has had its miniature in Snyder, where a talk at the Lions Club Tuesday at noon on "The Romance of the Rail" featured...

The talk was made by Jack Randall, Lubbock attorney. He declared that the romance of the rail is returning, following the period of depression through which the railroads have been passing.

Added speed, comfort and service, plus adjusted rates, have been the big factors in the railroad's return to popularity, he said. He cited air-conditioned cars, streamlining, and reduction of the time between Chicago and Los Angeles from 56 to less than 40 hours as examples of the railroad's recent progress.

"The railroads ask a square deal—no more," he said in conclusion. Other special guests for the Railroad Week program were: I. M. Robinson, Lubbock, Santa Fe traveling freight and passenger agent; W. A. Hotman, Abilene, R. S. & P. assistant general freight agent; Fred Wolcott, Snyder Santa Fe agent; R. M. Champion, acting Snyder...

Rev. Lawrence Hays, pastor, who has been conducting a successful 10-day revival at Rockwall, will be back in his pulpit Sunday.

Santa Fe agent, A. C. Preuit, local R. S. & P. agent, who is a club member, expressed appreciation for the club giving the railroads an opportunity to present the program.

A small electric train in the window of Snyder Hardware & Implement Company, along with posters, has attracted considerable attention. Several posters were placed in business houses and the courthouse.

The Weekly Dozen

Weekly Rooseveltism. President Roosevelt: "Now, as always, the flag and the Constitution stand for democracy, not tyranny; for freedom, not subjection; and against a dictatorship by mob rule and the over-privileged alike." Selassie No Spende. Can the "boob" given Haile Selassie be traced to the fact that he isn't spending that gold that he carted off of his beloved Ethiopia as freely as he might have? If he were freer with his hoard maybe he could get a respectful audience.—Lockney Beacon. Jim's Spelling Bee. Former Governor Jim Ferguson conducted a spelling bee on the south steps of the Tom Green County courthouse last night and failed all of the candidates for governor except Roy Sanderford of Belton, his candidate.—San Angelo Standard-Times. Not Good Reading Matter. While Dallas and Fort Worth pow-wow over who has the best Centennial exposition, we country people sit around and laugh up our sleeve because, all the time, we don't care who has the best show, we're going to see all of it anyway. The mud-slinging is not even good reading material.—Farmersville Times. Natural Texas Beauties. Likelihood is that Texas highways in another decade will have been transformed into an ever-unfolding view of the natural beauties which adorn Texas prairies and hills, presenting our state as a panorama of loveliness that it is rather than as a series of dumps and trashpiles that it is not.—Floyd County Hesperian. Advertising Must Live. Limit the freedom of advertising, as it would be limited under the proposals of its adversaries, and we would do away with a large share of the American press. It would die in proportion as advertising would die. The first to go would be the country newspaper, which is the very backbone of our American democratic freedom.—Albert D. Lasker, chairman of the board, Lord & Thomas. Solving the Problem. What's a fellow going to do? If he drives slow and cautious he lays himself liable to get hit in the back and if he goes at a fast clip he's endangering life and limb of himself and the other fellow. We've about come to the conclusion to buy an airplane. We'd as soon take a nose dive from the air as to take a nose dive into the air from the ground.—Stanton Reporter. Advertising Pays. Another indication of the value of newspaper advertising comes in the announcement of George J. Schaefer, vice president in charge of sales of the United Artists' organization, that newspaper ads have increased theatre attendance and receipts 40 per cent over the country this year, above the figures for last year. Comparative tests in key cities in the East showed that newspaper advertising was the factor that brought the increase.—The Dallas News. Foremost Democrat. President Roosevelt, following his speech accepting the Democratic nomination for re-election, stands forth as the world's foremost Democrat. In emotional quality, in high ideals, in practical vision of realities, in compelling leadership, in exalted spiritual heights, in moral courage and in vivid delineation, the speech ranks with any of the noble and inspiring statements that have illumined American politics in crises.—Salisbury (Mo.) Press-Spectator. Election Night Emotions. Most every sort of emotion can be seen in front of the D-V office on election nights. There are the candidates who are winning and then a few feet away are those who are being defeated. Then, there is sympathy seen in the faces of many while elation is seen in the faces of others. Then, there are expressions of surprise and disappointment when the votes in some box go contrary to the belief of some of the candidates.—Coleman Democrat-Voice. Twilight in the Foothills. Twilight in the foothills of the Caprock, below the mighty mesa of the Plains, is blown in as crimson and purple mist from the depths of a phantom sea. Against the harbour lights of faint stars rise silver sails of a vagabond cloud, a ship floundering on the white shoals of the moon and fantasy, soon to be shattered in the storm of beauty and the broken pieces drift away on the tide of silence. The soul is stirred and fearful in the presence of a divine violence that clutches the curtain during the rehearsal of destiny, long enough to allow a glimpse of the stage and its magnificent properties.—The Matador Tribune. The Progress of Recovery. According to the Federal Labor Department, 88,000 persons were added to the payrolls of the nation's industries in the month of May, making the total of new jobs filled in the past year 650,000. In the past four months a quarter of the persons employed on federal work relief projects have been dropped, reducing the number so supported by 700,000. Standard Statistics report that corporation profits in the first five months of this year are nearly 50 per cent greater than in the corresponding period last year. All of these facts are distinctly encouraging. They indicate clearly that business in general is picking up.—Holmes County (Ohio) Farmer-Hub.

A Green Persimmon.

Most of Scurry County has been handed a green persimmon this season as far as weather is concerned. But are most of us complaining? Not on your life. We know from sweet experience that the ripe mellow fruit of late summer is often more luscious after the mouth-drawing dryness of June and July. This green persimmon is not half as bad as many street-mongers would have you believe, anyway. Few farmers, when pinned down, will not admit that they continue to have prospects for at least fair crops if rain comes this month. We look rather bedraggled, in a crop way, when you compare our cotton and feed with the remarkable greenness of the Plains and most territory eastward. But those who have watched West Texas and Scurry County longest know that not a year passes that presents good prospects every month. June and July are our green persimmon months, maybe. Who knows but that late July or early August may see the floodgates of heaven opened and poured upon us. Even if this is not entirely logical argument, who wants to be a pessimist, anyway? Let's talk about politics and forget about serious things—at least until after July 25.

Editorial of the Week.

NO KISSING FOR 25 YEARS! George W. Urganhart, president of the Chatham County Tuberculosis Association, declared that in 25 years tuberculosis would be extinct in the United States—if there were a law against kissing and one compelling people to sneeze into handkerchiefs. "Tuberculosis thrives on kisses!" he declares. A patient was heard to remark that 25 years seemed a long time between kisses; that a married couple in a contest held a kiss for 24 hours; but he doubted that a couple could hold a kiss or refrain from kissing for 25 years. In Japan, kissing is almost unheard of. Motion pictures imported from Hollywood are subject to strict censorship. Kissing scenes that Christopher Morley describes as, "the more sentimental passages, those amorous busses which directors prolong by ingenious calculus; almost long enough to satisfy the women in the audience, but not quite so long as to embarrass the men," are deleted. The censors explain: "There would be a spread of kissing if the Japs knew what they were missing." Still, tuberculosis is a major cause of death in the land of cherry blossoms and battleships; perhaps kisses are being bootlegged, perhaps there is an illicit trade in sweet kisses unknown to the austere censor, or perhaps the honorable foreigner is responsible. The failure of prohibition laws has shown that a statutory measure is not the way to temperance or moderation; the way is through education. Could people be educated to a substitute for a kiss on the mouth? Some scientists advocate the neck kiss; many report its romantic effect inadequate. Other sentimental methods of salute might be tried. What of the nose-rubbing of the Eskimo?—The Fluoroscope.

Current Comment.

BY LEON GUINN. One of the most commendable movements yet started this Centennial year, and one that is rapidly gaining momentum is the movement started by our friend Virgil O. Stamps of Dallas (one of the South's outstanding music publishers) to make music a required subject in Texas schools. . . . It is a movement the singers of Texas are behind, rank and file. We recognize our National Music Week in all our public schools, have our musical coteries, orchestras and high school bands, yet fail to make music a required subject in Texas schools, because in our zeal of building for the future we have long since taken the study of music for granted, a subject school teachers through their generosity keep alive. . . . An extra curricula subject music has been, with the extra curricula fee inherent in optional courses of unfilled subjects. In 1935 Texas had a scholastic enumeration of 1,560,438, with a total of 1,275,000 attending school. . . . Interesting to note that only 25 per cent, or 356,225 Texas students studied music a second year. . . . Which means 75 per cent of our school children in Texas are denied (for financial reasons) the study of music in our public schools. If ever there was a time in the history of education when music should be a required subject in our public schools, it is today when the state and federal governments are insisting on music in our school system. . . . Long since recognized by teachers is the need of requiring music in our school credit setup, since music is the basis of all the fine arts, a thing of the soul that is the instrument of God for keeping alive the highest emotions of all races. Vocational subjects, home economics, physical education and other kindred assignments have long since been incorporated as required subjects, yet while encouraging music in Texas schools we have neglected making it an accredited requisite. . . . In justice to the school children, who will make the America of tomorrow a better America, we owe them an introduction to music as their rightful heritage.

Candidates Will Make Appeals In Rally At Snyder

A county-wide political rally to which all county and district candidates are said to have been invited will be staged on the east side of the courthouse on Friday evening, beginning at 8:15 o'clock. Among district candidates who will present their appeals for votes are Zollie Steakley of Sweetwater, candidate for district attorney, whose public address system will be used during the evening. Since this will be the first county-wide rally during the current campaign, practically all county candidates and several district office seekers are expected to present brief messages for the benefit of voters. W. A. Craddock of Spur, candidate for state representative, said yesterday that he will be among district candidates to speak.

M. and Kendale, attended funeral services at Blum Sunday afternoon. M. M. returned home Sunday, and Mrs. Clark and Kendale are remaining there visiting with the Wards and other relatives. Surviving the 12-year-old school girl are her parents and a younger brother, Edwin Rogers Ward, who is 10 years of age. The Ward family is known to a number of local people.

Roosevelt May Put OK on Shelterbelt

Continuation of the shelterbelt project despite adverse congressional action appeared possible late last week following an assertion by President Roosevelt that he favored going ahead with the plan. At his press conference the president told newspapermen he planned to drive ahead the project, which is designated to protect dust-choked Western plains with extensive tree planting. The belt would come through this county.

ATHER CHANDLER

To the Voters of 118th District.

I want you to know that I deeply appreciate the vote you gave me in the last election and in return for this support I have given the very best service possible. Your cooperation has caused me to redouble my efforts to give the service that you had a right to expect, and uncompromisingly fight for the rights that, according to my best judgment, you justly deserved. It has never been my policy to take the course of least resistance, but I have taken the side that I thought was right, regardless of circumstances.

As most of you know, I held the county judge's office for two terms, and relinquished it and asked for a higher office. Now I am asking to be re-elected to this important place for the second term solely on the record I have made in my first term. This record is an open book and I stand ready and willing to defend it as against anyone that might challenge my sincerity of purpose in my service in the Legislature. The house journal will show my vote from the beginning of the regular session to the last minute of the last called session was consistent for the best interest of the people and in the interest of good government.

The journal shows on page 2241 of the regular session I voted for house joint resolution No. 19, which was the proposed change in the constitution to set up an old age assistance law. It also shows on page 161 of the last called session that I voted for house bill No. 46, which was known as the omnibus tax bill to raise the revenue. The present law now in operation was known as house bill 26, shown on page 289, of the called session. The journal shows that I voted for the adoption of the conference committee report which was the final passage. If I voted for these as I have stated, and give the page in the house journal as proof, then I don't think that any of the old people can say that I didn't do everything in my power to help them in the Legislature.

I am humbly grateful for the privilege of serving the people of the 118th District in the State Legislature. Frankly, I believe I am representing a people that wants nothing but justice and fair dealings, and in all my acts and in every vote I tried to the best of my judgment to reflect the sentiment

BAVOSETT

M. W. (Matt) Bavousett, candidate for county assessor-collector, pledges his best efforts toward a fair, economical administration of the affairs of the office, if he is chosen by the people July 25.

of the people of my district. While my feeble efforts many times seemed to no effect whatever, and in spite of myself I said to myself "What's the use?" But I never failed to voice my sentiment and speak out in no uncertain terms against the powerful corporate interests that seek to dominate the Legislature and enact laws favorable to their selfish interests and against the interests of the people. Though my judgment might have been wrong at times, yet I was the uncompromising friend to good government and the best interest of the people.

From the bottom depths of my heart, folks, I tell you that throughout my entire time in the Legislature I rendered faithful and unselfish service, which I will continue to do if you return me to the Legislature. I believe with my experience I can be much more effective in fighting for the rights you justly deserve.

As it is impossible for me to see each one personally. If I have not met you in person in this campaign, let this be a personal solicitation for your vote and influence in the coming primary.

Yours very respectfully,
LEONARD WESTFALL,
Pol. Adv.

To the Citizens of Scurry County.

Clyde Thomas was reared in Panoia County, and served seven years as deputy sheriff in said county, and the undersigned have known him all of his life and recommend him to the citizens of Scurry County as being an honest, law-abiding citizen, and worthy of the place he is now asking.

Signed—A. J. Holmes Jr., county clerk; J. R. Duran, attorney; J. A. Browning, county superintendent; L. M. Hunt, sheriff; H. B. Williams, county treasurer; H. C. Williams, deputy tax collector; Fred Whitaker, county attorney; W. A. Hill, D. C. Hill, Pol. Adv.

TO THE VOTERS OF SCURRY COUNTY.

I wish to say that if, in my efforts to meet you personally and solicit your vote for county clerk, I failed, rest assured it was not intentional on my part. The use of the car in which I traveled was limited, and often times I failed to complete the canvass of the locality in which I happened to be working.

Bear in mind that I am offering you the experience of many years of business, which qualification will assure you that if I am elected, the office of county clerk will be filled in a creditable manner, both to the county and myself.

CHAS. J. LEWIS,
Pol. Adv. 1tp

Fischer Speaker Lambasts Allred On Pension Stand

Declaring that taxes from liquor drunk by the young people were paying old age assistance under Allred's plan—and only partially paying, at that—Judge B. Y. Cummings of Fort Worth spoke to a crowd on the east side of the courthouse Wednesday afternoon in behalf of the candidacy of F. W. Fischer for governor.

He said Fischer advocates paying the promised old age assistance at once, primarily through a natural resources tax which would increase

state revenue \$100,000,000 per year. He reiterated the statement Fischer made when he spoke here last month: "Tax the untaxed, untax the overtaxed."

Judge Cummings was introduced by Professor S. B. Culpepper of Comanche County, who, in turn, was introduced by Ernest Rippetoe, leader of the well known Rippetoe men's quartet from Comanche County. The quartet presented several numbers of popular and religious songs before and after the speaking.

Judge Cummings spoke earlier in the day at Colorado, nd later at Rotan and Sweetwater.

Mrs. Nathan Rosenberg visited the first of this week with her parents, Rev. and Mrs. J. W. McCarty, in Anson.

Harry Tom King in Snyder for Speech

Harry Tom King of Abilene, candidate for state senator, spoke to a crowd of Scurry County people Tuesday afternoon on the east side of the courthouse.

He outlined his career in West Texas as a public servant and a private citizen. He brought frequent laughs from the crowd with

his references to Senator Wilbourne B. Collier, incumbent, and purported to quote from the Senate Journal to show that Collier had not supported old age assistance measures at all times.

What Ho! 118th District! Let the Truth Be Told.

I have been over the six counties, and have found that there is not much respect for the office of legislator.

They say what is the use—all they go for is the \$10 a day, and other things to be had on the side. Whose fault, dear voters? Yours, of course. The man shaking the most hands gets your vote.

Mr. Merritt has had the office four times, but does not point to anything of importance he accomplished.

Mr. Westfall? Well, I will leave it to you to find out. I could not. Mr. Harris? Be it remembered that you sent one young man from Scurry County. He drew his pay, rarely answered the roll call, and never returned to the district. Dickens later offered a young man, and he came near being elected.

Experience in life and accomplishment in Legislature should merit your consideration:

I helped to save the oil rights to schools of Texas.

I was first to propose the parole law.

I helped to pass the law opening West Texas to settlement, and many other important measures. The crowning ambition of my life is to help pass an old age assistance law that will not be a burden on anything or anybody—a law after two years' trial will work so satisfactorily that no one will want to discard it, one that will be a consolation to the needy aged as time marches on.

Respectfully,
W. A. CRADDOCK,

Veteran Baptist Minister Passes At Snyder Home

Death came to Rev. L. D. Hull, 79, Baptist pastor in West Texas for 48 years, just as he wished—while he was in the harness of the Lord, whom he had served since childhood. He passed away early Tuesday morning, victim of a heart attack Sunday morning from which he never regained complete consciousness.

Within a few minutes after the attack he would have been in his accustomed place at the First Baptist Church, in whose pulpit he had served as substitute pastor several times in his declining years.

Rev. G. W. Parks of Roscoe, who entered the ministry shortly after Rev. Hull, officiated for final rites at the church Wednesday morning at 10:00 o'clock. Rev. M. E. Bishop of Post and Rev. Derr of Ralls assisted. Odom Funeral Home was in charge of burial in Snyder cemetery.

The veteran minister was ordained in 1888 at Rising Star. Among his former pastorates are Big Spring, Gorman, Jayton, Carbon, Breckenridge, Ranger and Eastland. He was well known among West Texas Baptists, since he has taken an active part in associational and district gatherings until near the time of his death. Many of the funeral attendants yesterday said: "He was one of the greatest Christians I ever knew."

Born in Johnson County, Texas, June 9, 1857, Rev. Hull had resided in the state practically all his life.

Surviving are: Four sons, Arthur of Lamesa, Dee of Lamesa, A. T. of Floydada, A. C. of Scurry; four daughters, Mrs. Algie Smith, Big Spring; Mrs. J. D. E. of Big Spring; three sisters, Mrs. D. Thompson of Big Spring, Mrs. Dick Woods of Mason County; thirteen grandchildren, and four great-grandchildren.

Flower girls at the funeral were Mr. Hull's granddaughters: Mrs. C. R. Burns, Lamesa; Miss Clarice Hull, Lubbock; Miss Bobbie Dee Hull, Lamesa; and Miss Doris Hull, Amarillo.

Enthusiasm Grows For Bible School; Will Begin Monday

Enthusiasm for the vacation Bible school has been growing during the past week and indications are that about 75 children are awaiting the opening of the first session on Monday morning, July 20, at 9:00 o'clock. All are urged to be at the Presbyterian Church a little before that hour so that the work of registration, assignment to classes and organization may be carried out quickly.

Because there are a number of small children who could not come alone to the church, there has been appointed a special committee to call for those who cannot get to the school otherwise. They will be picked up in cars and brought back home at the close of the 11:30 o'clock period.

If you desire the service of this committee for your children or for any children of your acquaintance, please notify Mrs. S. T. Elza or Rev. James Spivey.—Reporter.

Outward to the world goes your voice

Sidewalks end at the edge of town. Lawns give way to the open fields. But the telephone lines go on and gleaming threads of copper stretching out through the valleys and over the hills.

They carry your voice to the world.

This sweeping away of the old-time barriers of time and silence is one result of the staff work of American Telephone & Telegraph Co., the researches of Bell Laboratories, the skillful buying and manufacturing of Western Electric.

Without the developments and improvements these Bell System organizations have given the men and women who furnish telephone service here, your voice could hardly go as far, and as fast, for so little.
