FORTY-NINTH YEAR

SNYDER, TEXAS, THURSDAY AFTERNOON, OCTOBER 15, 1936

NUMBER 19

## PTA PLANS TO STAGE TRIO OF BIG PROGRAMS

Parent-Teacher Week Observance Will Feature Teachers' Tea, Orchestra, Visitation.

Three special programs, two next week and one the following week, are to be sponsored by the local Parent-Teacher Association, primarily in observance of Parent-Teacher Week, October 19-26.

The special week has been made official by proclamation of Governor Allred, who says: "Because of the necessity for proper coordination between the home and school in the life of our future citizenship, the continued advancement of the Parent-Teacher Associations is of great importance to the state as a whole."

"I therefore call upon all our citizens to aid and encourage the association in the splendid work they are doing for the welfare of our school children."

### Tea for New Teachers.

A tea in the new gymnasium for all teachers, with the new teachers being especially honored, will be given Tuesday evening, October 20, at 7:30 o'clock—the first of the series of three events. A surprise will be in store for the room having the most parents at this tea, say P.-T. A. leaders.

Friday, October 23, will be visitation day in the local schools. Parents and other citizens are invited to visit in any of the rooms on that day—to come for any part of the day or to spend the day visiting in the various rooms. A program sponsored by the P.-T. A. will be given in the assembly at 10:30 a. m.

A membership drive will be staged next week in connection with state-wide observance of Parent-Teacher Week. P.-T. A. leaders urge every father and mother to attend the meetings and to join the organization if possible.

### Hummel Orchestra.

On Thursday evening, October 22, the nationally known Hummel Orchestra, composed almost entirely of one family, will play in the auditorium, 7:30 to 9:30 o'clock. Admission tickets will be 10 and 25 cents, with ticket sales in charge of the various home rooms of the grammar school. All students in the room selling the most tickets will be admitted free of charge.

After the orchestra program, Halloween stunts will be presented. Popcorn and candy will be sold. A regular P.-T. A. program is scheduled for this (Thursday) afternoon at 4:00 o'clock. Mrs. Nelson Dunn is local president.

Mrs. P. C. Chenault, Scurry County vice president, offers her assistance to any school in the county that wishes to organize a Parent-Teacher Association.

## Dr. Griffin Comes Back From Hospital

Dr. I. A. Griffin, local physician-surgeon, was brought home in a Maple ambulance Sunday night from St. Joseph's at Fort Worth, where he was treated by a bone specialist.

His elbow, critically injured in a automobile accident last month, continues to be held in a heavy cast, and the extent of the permanent injury is not known.

Dr. Griffin expects to get on his feet a wee bit within a few days. He has been confined to his bed since the accident.

### Friday Is the Night.

"The Mill of the Gods" will be presented at the Fluvanna High School auditorium Friday night of this week, under sponsorship and for the benefit of the Fluvanna Methodist Church. Admission will be 10 and 20 cents. Out-of-townners are given a special invitation.

## Snyder Dedicates One of Her Most Beautiful Buildings

This is the beautiful \$25,000 gymnasium that was dedicated Friday morning by all students and faculty members and almost 100 townspeople. Built as a WPA project, with assistance of the Snyder Independent School District, the 92x112-foot building is said by visiting school men and others to be the most modern and complete gymnasium of any school system in West Texas.

## Fifteen Citizens Of County Enter Amateur Contest

Fifteen Scurry County residents, seven of them from Snyder, are to appear on the first Sweetwater amateur contest Saturday night, according to information received yesterday from the Sweetwater Board of City Development, sponsoring organization. The Snyder amateurs are: Son Newby and sister, Mary Arnett, in a fiddle and guitar duet; the Texas Kids, who play the guitar, banjo and harmonica; and Beverly Johnson and Margie Arnett, the Texaco Twins, in a vocal duet.

Hermleigh is to be represented by Frank White and his string band of five pieces, composed of Mr. White, Mr. and Mrs. George Holcomb, Russell Dunn and Ollie Dunn. Fluvanna is to be represented by Dorothy Rea and Doris Glen Willis in a vocal and whistling duet, and by Elmo Faver in animal imitations.

There are 37 amateurs for the first contest, coming from eight communities in this section of West Texas. The 37 are grouped in 29 numbers, giving about an hour and a half program that is scheduled to start promptly at 7:30 p. m.

The three winners, to receive the \$15, \$10 and \$5 cash prizes, will be selected by a representative of station KRBC of Abilene. He is to judge the entries strictly on their merits. In addition to receiving the cash prizes, the three winners will take part in a 30-minute broadcast over station KRBC on November 5.

Following the broadcast of the last six winners on December 3, four of the best out of the 12 will be selected for an all-expense trip to Dallas and a 15-minute broadcast over station WFAA.

The contests are to be staged in the Sweetwater municipal auditorium. An admission price is to be charged all, except contestants and those who have secured admission tickets in advance from the merchants in Sweetwater.

## Izora Patterson's Singing Makes Hit At Wichita Station

Izora Patterson of Fluvanna, guest artist of radio station GKO in the Kemp Hotel, Wichita Falls, Monday morning at 10:15 o'clock, was highly complimented by members of "Billie's Melody Five" and by members of the radio staff.

This word comes from Mrs. James C. Dowdy, with whom Miss Patterson visited for several days. The Fluvanna girl, who won wide popularity in this county with her singing, was given her first radio time after a Saturday audition. The "Melody Five" sponsored her appearance.

Miss Patterson is the daughter of Mr. and Mrs. V. L. Patterson and the grand-daughter of Mr. and Mrs. J. P. Dowdy of Fluvanna. Her many county friends believe her deep rich voice will carry her far in the entertainment world.

## Local Chiropractor Goes to Convention

Dr. and Mrs. R. D. English returned early this week from San Antonio, where they attended the annual state convention of the Texas Chiropractic Society, held Friday and Saturday.

A chiropractor from Greece was the leading speaker on the program. A representative of the Palmer School, Davenport, Iowa, and Dr. James R. Dray of San Antonio were other leading speakers.

Dr. Charleston of Austin was named president and Dr. Coulton of Dallas is the new secretary of the society.

### See New Terraplane.

J. Ralph Hicks, local Terraplane dealer, went to Dallas yesterday to view the new 1937 Terraplanes at a pre-showing for dealers. He expects to have one of the machines for display here within a few days.

## DEDICATION OF NEW BUILDING

Civic pride was given a boost Friday morning at 10:30 o'clock, when Snyder's new \$25,000 gymnasium was formally dedicated before more than 1,000 students, faculty members and school patrons.

The program was not only one of praise for those who are behind the project, but also one of hope that the giant building may prove to be of outstanding worth to the students of the school.

N. C. Forrester, superintendent of Roy schools, the only visiting speaker on the program, was high in his praise of the building.

Others on the program were: C. Wedgeworth, superintendent of local schools; King Sides, high school principal; H. L. Davis, president of the school board; Glen Berry and Miss Patricia Cole. The Tiger Band gave several selections.

## Winston Herd Gets Several Notches in Show at Ft. Worth

Harrie and Wade Winston added several notches to their championship belts when winnings were announced in the Hereford show at Fort Worth last week.

Fresh from winnings at Amarillo and Lubbock, the herd competed at Fort Worth in what many Hereford breeders believe to be the best Hereford show ever held in the county.

Winston male winnings follow: Bulls calved between May 1, 1934, and December 31, 1934, sixth, Adandixity, out of 31 placings; bulls calved between May 1, 1935, and August 31, 1935, fifteenth, Domino Design 7th, out of 31 placings; bulls calved after January 1, 1936, sixth, Flashing Westman, out of 34 placings.

Female winnings: Heifers calved between September 1 and December 31, 1935, eighth, Louise 3rd, out of 39 placings; heifers calved after January 1, 1936, eighteenth, Sporting Lady, out of 25 placings.

Four animals, get of one sire, age: Twenty-third out of 29 placings.

A total of 440 Herefords, representing breeders in 13 states, competed in the show.

## H. E. SMITH TO BE 4-H JUDGE

H. E. Smith, county agent of Coke County, will be the judge of the animals in the Scurry County Four-H Club show, to be held Saturday, October 24, at the old Blackard warehouse, a half block north of the square.

The local county agents say Smith is an experienced man in livestock judging, and was a member of the international judging team while at A. & M. College.

Club Agent E. B. McLeary reports keen interest in the show, not only among business men and ranchers but among the club boys, who are working feverishly to have their animals in shape.

## Star Telegram Has New Bargain Rates

The Fort Worth Star-Telegram Saturday announced that its annual bargain days have begun. A special offer enables new subscribers to get the paper until November 1, 1937, for the one-year bargain rate.

As usual, The Times will be sold in combination with the Star-Telegram at a reduced price. The special rate this year, Times and Star-Telegram, daily with Sunday, is \$7.50; without Sunday, \$6.60. Regular bargain rates on the Telegram are \$6.95 with Sunday, \$5.95 without Sunday; on The Times, \$1 in this trade area. Thus subscribers can save 35 cents by combining the two papers.

## Soil Projects to Start in County Under NYA Plan

Lyndon B. Johnson, director of the National Youth Administration in Texas, announced Thursday that NYA participation in soil conservation projects will get underway within two weeks in nine North Central Texas counties, including Scurry County.

Gradually the program will be expanded to embrace 50 Texas counties, these being selected wherever employable youths are available in counties whose farmers have expressed the greatest desire to terracing work.

The National Youth Administration will furnish surveying crews in the county. These crews will work under supervision of a transit man chosen by the county agent. The crews will run terrace lines for farmers applying to the county agents, but the farmer must construct his own terraces.

The nine counties chosen for testing out the program are Callahan, Shackelford, Scurry, Nolan, Jones, Stephens, Mitchell, Taylor and Eastland. About 170 young men will be employed on the nine surveying crews, Johnson estimated.

Boys working on these projects will work one-third adult time and be paid the prevailing wage.

The Texas A. & M. Extension Service has estimated that terracing benefits farm land an average of \$8 an acre. A need for more surveying parties has delayed the terracing program in many parts of the state in the past.

## Services Here for Pyote Couple's Son

Final rites were held at Odom Funeral Home Monday afternoon, 2:30 o'clock, for Jerry Lynn Bearden, four-month-old son of Mr. and Mrs. W. L. Bearden, formerly of Snyder, now of Pyote. Rev. H. C. Gordon, assisted by Rev. Harvey Carrell of Pyote, officiated. Burial was in Snyder cemetery.

The child died at Pyote after an illness of a week. The Beardens have five other children, three boys and two girls. Grandparents are Mr. and Mrs. R. L. Sifton of Pyote, Mr. and Mrs. C. C. Bearden of Snyder.

### Seaman Does Not Come.

Rev. C. Cecil Seaman of Amarillo, Episcopal bishop, was unable to appear in the First Presbyterian Church pulpit Sunday morning, as scheduled, because of a conflicting engagement. The pastor, Rev. James E. Spivey, preached at a service.

## Football, Undernourished Kiddies And Fathers-Sons Talked by Lions

Snyder Lions Tuesday at noon accepted a hard-boiled challenge for a football game, thrown out by the fire department.

They voted to help raise funds for undernourished children of the local schools.

They voted to throw their support to the Fathers and Sons banquet, sponsored by scouters of the Snyder District, to be held early next month.

They heard Coach "Red" Hill of the Snyder Tigers say that 100 per cent support from the fans will do things for the boys who are out on the football field—or in any other sports endeavor.

And they heard Glen Berry, head of the physical education work of the school, basketball coach and football assistant, declare that the newly begun physical education program, made possible by the new gymnasium, would help build finer boys and finer athletes.

## MANY FANS TO WATCH TIGERS PLAY AT ROBY

Pep Squad, Band and Business Men Will Follow Locals to Lions' Lair Friday at 2:30.

With a week of rest behind them—as far as real games are concerned—the Tigers are in fair condition for their second conference tilt at Roby Friday afternoon, beginning at 2:30 o'clock.

Many business men will follow the Tigers to the Lions' lair for a mix-up that will have much to do with the Tigers' chances to win the district bunting. Along with them, too, will be the huge pep squad and the high-tiptin' Tiger Band.

On paper, the Tigers have a slight edge, for they have won one conference encounter, losing none. Roby whipped Merkel, and tied Loraine last week. On the other hand, Snyder barely nosed a win from Colorado, and Colorado has been beaten by Loraine.

### Hard to Pick 'Em.

But anyone who attempts to pick a winner out of this year's medley of evenly matched teams would be risking his guesser's crown. Practically all games have been as close as Snyder's one-point and five-point wins from district squads. The wise ones are saying that the Roby-Colorado tilt this week-end will make their guessing much easier.

Any team that gets a two-game winning streak, even early in the season, will have more than a 50-50 chance to take the crown, and the hustling Tigers have just that thing in mind. Coach Hill has been drilling them hard and long this week and last. The line-up will probably be the same as in the Rotan affair, except that Jackie Scarborough, who looked good in the second stringers' game at Coahoma, may get a chance at Mebane's guard job.

### The Season's Records.

If you want to compare records: Roby 6, Stamford 12; Roby 6, Merkel 0; Roby 6, Loraine 6. Snyder 21, Spur 0; Snyder 13, Colorado 12; Snyder 0, Lamesa 6; Snyder 12, Rotan 7.

Past records reveal: 1931, Snyder 41, Roby 0; 1932, Snyder 39, Roby 6; 1933, Snyder 7, Roby 7; 1934, Roby 18, Snyder 6; 1935, Snyder 15, Roby 0.

## MOORLANDS IN OUR COUNTY 60 YEARS AGO

It was exactly 60 years ago last Wednesday—October 7, 1896—that J. Wright Moorland landed in what was later to become Scurry County. And he has been a citizen of the county ever since.

The pioneer citizen, who yet resides on his ranch northwest of Snyder, was Texas' first professional buffalo hunter, crossing Red River about three years before he came to Scurry County.

It was near the location of his present ranch house that Mr. Moorland killed what is said to be the only white buffalo ever seen in Texas. The incident occurred shortly after he came to the county.

The settler landed in this county with 40 yoke of oxen, 16 wagons used for handling freight, two four-mule teams, his brother, John W. Moorland, and several other men.

The party lived in this area four months before they saw any other white men. During that time they killed 4,500 buffalo, cured 62,000 pounds of meat, hauled the hides to Fort Worth to be shipped to New York. The meat was marketed at old Fort Griffin at seven cents a pound.

### Bridge Over Clear Fork Will Be Built; County Buys Paver

Agreement for construction of a bridge valued at about \$2,000 over Clear Fork, southeast of Snyder, was completed Monday in the regular session of the Commissioners Court. Russell Smith represented the Austin Bridge Company. Construction of the bridge is expected to begin within the next few days, said Smith.

The court approved the monthly and quarterly reports of Mrs. Otto S. Williamson, county treasurer.

Purchase of \$4,000 in Scurry County warrants was authorized. Three \$1,000 funding warrants, dated September 10, 1930, for the benefit of the courthouse sinking fund, are to be purchased from Dunne-Israel Company, Wichita, Kansas. One \$1,000 general funding warrant will be purchased from H. C. Burt & Company, Houston, for the benefit of the courthouse sinking fund, provided one jail bond of \$1,000 is offered at the same time at par and interest.

Four local preachers and several from other parts of the county attended a special service for preachers Tuesday. More than 400 attended from an area of more than 200 miles. The local group included Rev. H. C. Gordon, Rev. James E. Spivey, G. E. McPherson, and Rev. and Mrs. Lawrence Hays.

### Mary Ellen Places Second in Audition At Dallas Saturday

Returning to Dallas Saturday for the finals of an amateur contest sponsored by Sanger Brothers, Mary Ellen Brown placed second only to the orchestra which won first place in her elimination contest the previous week.

Too, the 11-year-old Snyder girl was given a screen test of her singing and her acrobatic dance.

Commenting on Mary Ellen's appearance at the Fort Worth Frontier Centennial October 6, The Fort Worth Press said: "In the amateur auditions, parading talent for Billy Rose's next show, Mary Ellen Brown won the praise of silk-hatted Will Morrissey, Billy Rose's main Friday."

"She was her home town's sponsor and took the spotlight bow in Monday night's preview. She presented an acrobatic dance on three red and white drums Her twisting and turning awed the audience."

And the Star-Telegram, which gave a similar report, added: "She was called back for five encores."

### Champion Typist to Perform at School

Miss Remo Paulsen, former world's champion typist, will give a demonstration at the local high school Wednesday morning, October 21, at about 10:00 o'clock, says Superintendent C. Wedgeworth. The public is invited to the demonstration, which will be held in the auditorium.

In the international competition last month, Miss Paulsen won fifth place in the race for world's champion typist. She typed a net average of 121 words per minute for an hour with unfamiliar copy.

Cotton Grades Lower. This week's grade and staple report for the state of Texas shows that of the cotton classed during the past week 22.5 per cent was white middling and better grade, compared with 45 per cent the previous week and 63 per cent to date this season.

### Accurate Figures Show Ginnings at More Than 8,000

With gins outside of Snyder outdistancing local gins more than in the average season, the county's ginning total had climbed yesterday to about 8,350, according to figures gathered by The Times and Fuller Cotton Oil Company.

Snyder's total stood at about 3,500 bales, almost 1,900 more than at the same time last week. Even experienced cotton men expressed surprise yesterday at the heavy turnout farmers are getting.

Official government figures October 1 were 4,676 bales; for October 1, 1935, 118 bales.

### Cancer Fight to Be Led by Women Of This County

The American Society for the Control of Cancer, whose headquarters are in New York City, is starting a new nation-wide campaign of education, which will have a counterpart in Scurry County. It is organizing a "Woman's Field Army" for the purpose of establishing units throughout the country for the purpose of informing the public as to how it may best protect itself against cancer.

Members of the Scurry County medical group and women's groups are expected to join actively in the campaign soon.

Those who have given the subject most thought estimate that from 50 to 65 per cent of the 130,000 deaths which occur each year from cancer in the United States (and the number is constantly increasing) are needless deaths and are due to ignorance and neglect. The purpose of the American Society for the Control of Cancer is to try to reduce this needless cancer mortality through education in regard to cancer.

Many observers consider the sewing room project one of the most beneficial—in the short run and in the long run—of any government-sponsored work that has been carried on in the county. One visit to the large building—full of busy, learning women may convince you that these observers are right.

WPA City, County Project. WPA funds are used for salaries and similar purposes, but the project is made possible because the county pays rent on the building and the city pays utilities bills and furnishes a portion of the equipment.

### J. J. Koonsman Has Winning Steers at Ft. Worth Auction

J. J. Koonsman's load of steers placed second in their class at the Fort Worth Centennial Livestock Exposition last week. They weighed more than 600 pounds.

Roy C. Parks of Midland was the big winner in the show, but Spade Ranch of Colorado took first place in the 600-pound division.

In the first auction held at the sales pavilion in the new Fort Worth cattle barn, the Koonsman steers were purchased by the Sauer Cattle Company, Huntington, Indiana, at champion lot of feeder cattle, bred and exhibited by Parks of Midland, sold at \$9.95 to Sibley Farms, Sibley, Illinois. Earl C. Gartin was auctioneer.

### October Food Sale Gets Dodds Results

Over at Edd Dodds store, where Mack Casey has been holding forth as manager for some time, the October food sale that was advertised in last week's Times has been bringing surprising results.

Mack says Saturday was one of the best days the store has known since it was established here about four years ago. And Friday and Saturday, the other special selling days, were far above average for that time of the week.

### MICKIE SAYS—

D'VER SEE THIS, NOOZ PAPER LAY'N IN ANYBODY'S WASTE BASKET? BUT HANDBILLS N ADVERTISING SHEETS—SAY, A WASTE BASKET IS HOME, SWEET HOME TO THEM

### \$1,100.00 Monthly Going To Women And NYA Group

Fifty-three women are making most of the livelihood for their families in the WPA sewing room project in the old Times location, a half block west of the square.

To this group of bread winners may be added 10 young women, learning to sew through this WPA project, helped by NYA funds.

These sixty-three women are turning out 1,500 to 1,800 garments and other items monthly, as 28 sewing machines, 10 of them recently installed, buzz out seam after seam, yard after yard.

Paid \$1.00 Per Month. The older women are paid \$21 monthly; the younger women, \$10 monthly. The total payroll now is about \$550 twice monthly—\$1,100 per month.

This average has been maintained for six weeks. Before that time, 35 workers were paid \$325 to \$400 bi-monthly. This average was maintained from the time the sewing room was opened, November 27, 1935, until the number of workers was increased.

Mrs. Sam Nation, supervisor of the project, points out that the garments and other items go to the local commodity room, in charge of Mrs. Ruth Line, where they are distributed to the needy, under direction of a welfare worker.

## PREVIEWS 1937 CAR

RENO, NEV.—"I never dreamed an automobile could be so lovely as the new 1937 DeSire," says Winifred Showler. "The body lines, the sweep of the fenders, the little niceties of detail all helped to win me over. Not to speak of the many new improvements in riding ease and safety. I'll bet there'll be millions who'll think just as I do about this new car."

## VISITS N. Y.

Paying a long-deferred visit to New York is Mrs. Alicia C. De Erzuraris, who is shown on the S. S. Santa Barbara. Back home in Chile the senora is mayor of Providencia, one of the country's most aristocratic residential communities. She is believed to be the first woman to hold such a post in a South American republic.

## Public Library Is Discussed by Club.

"A Public Library for Snyder" club project for the year, was the program topic for members of the Twentieth Century Club at their meeting last week in the home of Mrs. J. E. LeMond. The program was directed by Mrs. B. M. West.

For roll call, members answered the question, "What should our library contain?" Mrs. W. R. Lacey directed a panel discussion, "How Other Towns Have Obtained a Public Library." Mrs. H. J. Brice explained the plan followed in Sweetwater. Mrs. P. C. Chenault that used in Tulsa, and Mrs. Lacey that followed in Midland. Mrs. West outlined the needs for a public library and gave suggestions for obtaining a library in Snyder. A round table discussion of the project concluded the program.

## LET'S TALK ABOUT CLOTHES

BY A YOUNG MODERN

Appreciative shoppers are watching the new winter coat collections most enthusiastically. They're so different that even the keenest shoppers mistake them for stunning outer tops of particularly distinctive ensembles. They're long and fitted, they're graceful without a single suggestion of bulk or shapelessness anywhere. The fur is attached as decoration, not just thrown hit or miss anywhere on the wool.

A stone gray wool has a flaring skirtline, a neatly accented waistline with a gray suede belt; long, very modestly fully sleeved, and shows silky rich brown matrix for the chest protector effect, the rounded moderately large collar and the narrow bands around the cuffs. This coat will be especially smart with old gold dresses or a gray wool suit of a darker tone. The coat dresses up or down to whatever you decide to wear.

Tuxedo collars are big successes with girls at Texas State College for Women (CIA) Denton. The plump individual looks inches thinner, even taller, and the tall can wear them with equal dash. A tuxedo collar of Persian lamb or gray wool dramatizes another high fashion note. It looks distinctly Russian with the flare to the skirt, the slenderizing long collar, and the wide, loose sleeves also cuffed in the fur.

Silver fox is worked into flattering collars on some of the black wool coats, and civet cat fur is especially smart on dull green coats.

"I never have to remind my Maytag to be careful."

Every day, every year, more women recognize the many advantages of having clothes washed at home—particularly in a Maytag. Clean washings done in quick time, without harsh treatment of the clothes and no insanitary risks, have won the approval of Mrs. Texas. She also recognized the superior construction of the Maytag one-piece, cast-aluminum tub, Gyrotator washing action, Roller Water Remover and other Maytag features. In Texas, as everywhere, Maytag leads in demand. Let a Maytag do your next washing... and remember there is also a Maytag Ironer to further solve your laundry problem.

### Inconsistencies of Legislature and Voters Scored by Leonard Westfall

By Leonard Westfall, 118th District Representative.

The inconsistencies on the part of the voters of Texas, and the Legislature as well, seriously threaten a continuance of the old age assistance voted by the people.

The 44th Legislature will vote, if given a chance by a majority, to give pensions to everyone in this state over 65 years of age. The 44th Legislature will vote by a greater majority for the same purpose. The people of Texas proved by their vote in the last primary that they were in favor of giving pensions to all people over 65 years of age. They proved this by defeating members who were not in favor of giving it to all, and electing new members with the pledge to construe the constitution to mean that the voters when they voted this amendment intended that it should mean all people over the age of 65 years without any restriction.

The people and the Legislature were very liberal in our laws to give it to all the people that come within that age. They refused the taxation that will in any way be equal to the liberal policy they pursue in giving pensions to all old people.

The National Social Security Board, together with the Old Age Assistance Commission, agree that our law is too liberal and a desperate effort will be made either at this special session or at the regular session to liberalize this law. A

great majority of the members are pledged to make it more liberal, and all efforts to further restrict property qualifications of applicants for old age assistance will be futile, as these members will carry out their pledge to their people and never vote to make this law any less liberal.

If we are going to make this law apply to all, it means that we must be more liberal in our vote in getting taxes, or else the whole move will come to naught. The 45th Legislature will doubtless decide the fate of the old age pension move in Texas, because, as I have said before, they will either be compelled to restrict this law to the more needy or else be more liberal in taxing the people of Texas to pay it.

I would appreciate very much my people letting me know their wishes in this matter. I believe you want to give it to all the people over 65 years of age. Those of you who hold this view and those of you who believe the law is too liberal, or should be left as it is, I would appreciate your writing me your wishes in the matter, as this will probably come up in this session of the Legislature.

If I can be convinced as to the wishes of my people, I will vote and fight for what I think you want.

### These Four-H Club Boys Use Blackstrap Molasses From Feed

J. T. and J. W. May, Four-H beef calf feeders, are taking advantage of the low cost of blackstrap molasses in their ration, while the cost of corn remains comparatively high.

These feeders have substituted blackstrap because of the lower net cost as compared with corn, and for its palatability in the ration. Since it is approximately 80 per cent as valuable as corn from a nutritive standpoint, there is sufficient reason to use molasses in combination with grain sorghum, bran and oats.

These boys told E. L. McLeRoy, club agent, that their calves are eating larger quantities of feed and drinking almost twice the usual amount of water. Of greatest importance to the feeders is the fact that they have been able to remove corn from the ration and keep their calves going at the regular rate of average daily gain.

The two calves that these boys are feeding will be shown in the Scurry County Four-H Club Show on October 24.

### YOUNG FOLKS

Listen, boys and girls, here's something you will be interested in: Today my secretary came to my private office and informed me that a good-looking young lady wished to see me. Without stuttering, I said, "Show her in." She did, and to my pleasant surprise she was one of my former students all dressed up and as happy and prosperous looking as could be. I said to her, "How are you getting along with your position?" She replied, "Just fine, I am doing both the bookkeeping and shorthand work. I am now answering myself and of the correspondence myself and my boss thinks I'm a wonder at it." I then inquired if they had advanced her salary and she said, "Yes, several times. I am now drawing a better salary than I ever anticipated I would. I just think your school is wonderful and your training is so thorough and practical—I'm surely a Byrne booster."

In about three hours a young man that I had recommended to a responsible position walked in to thank me for the way I assisted him in landing a good position. He said, "They told him they would try him for two weeks and if he made good they would keep him, otherwise they would pay him off, but in a few days more payday rolled around and instead of getting fired he received a ten dollar raise."

Thorough business training paid this young man and woman and it will pay any Byrne student who will study, work and try to make good. We could tell you the happy experience of many a boy or girl who has recently graduated in Byrne College.

### Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanborn of Panguitch, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt wonderful. I am a large to my daughter who was in about the same condition and she has had all right. Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician."

### First Baptist Church

The pastor will preach Sunday morning on "Discipleship—What It Is and What It Costs." A trio will sing "Shall I Crucify My Saviour?"

Congregational singing of our old hymns and gospel songs is a special feature of the services that all our people greatly enjoy. Gipsy Smith says that American churches have lost a vast deal because the people in the pew do not sing and many do not know the songs any more. Let us learn them and sing them. Next to effective preaching, singing the gospel into people is indispensable.

Our Sunday school workers are visiting and enlisting for Sunday school attendance. Let all our church family find their place in the teaching service, along with numbers of friends.

The B. T. U. hour is 6:15 p. m. The closing assembly program is in the junior department at 7:15. The training union needs all the support of all the members.

### FINAL PENSION CHECKUP SOON

Judge R. C. Crane of Sweetwater announces that he and a crew of probably four others will be in Scurry County within a few days to make a final checkup on all pension applications that have been filed.

Several persons who believe themselves to be eligible applied early but have not yet been thoroughly investigated, and have therefore had no final action on their applications.

The subject for 7:30 p. m. is "Ahab—Satan's Hero of the Old Testament." This promises to be one of the outstanding messages in the series on Bible characters. Be in the services and bring a friend. A male chorus of 16 voices will sing. Welcome, thrice welcome.—Lawrence Hays, pastor.

And the invisible but dangerous cold germ finds one of his best opportunities in homes where occupants are most liable to sudden changes of temperature. Therefore, it is a wise precaution to avoid the possibility of sudden changes of temperature in your home this coming winter by providing a constant circulation of pure warm air throughout the house.

The Weekly Dozen

A Choice Quotation.

William Feather: "As soon as a man has learned how to make a good living by working, he tries to make a better living without working and the losses from his speculations compel him to go back to work."

Weekly Rooseveltism.

President Roosevelt: "Liberty requires opportunity to make a living—a living decent enough according to the standard of the time, a living which gives man not only enough to live by, but something to live for."

A Scandal Column?

Talkative Tillie says she is tempted to start a new "Believe It or Not" column, with nothing eligible except scandal that has been digested, multiplied, spewed out and gloated over. Which means, of course, that all scandal would be eligible.

Two Sides to an Old Question.

Pessimism Pete says my obligation for trading at home ends when my home merchant's obligation for keeping step with the times ends. Not many customers are content to spend their money for stream-lined cars, modernistic furniture and futuristic clothing. . . with a merchant who follows 1910 merchandising plans.

The Literary Digest Poll.

Times subscribers who are following the Literary Digest presidential poll this year will be interested to know results of the poll in 1932. They have been furnished this newspaper by the magazine, at our request, as follows: Popular vote, Republican 13,761,541, Democratic 22,821,857, Socialist 684,781; electoral vote, Republican 59, Democratic 472, Socialist 0.

"I'm Kissing My Wife."

"To be kissing four years after marriage is a sure sign that the marriage took," a Washington, D. C. judge told his court when two industrious officers arrested a man and his wife for kissing too heatedly in front of their own home. Forthwith, the officers were severely rebuked. The judge's opinion seemed to be that it's far better to kiss your own wife in public than to kiss another's wife on the sly.

A Worthy Project.

One of the most worthy projects that has grown out of our government-help program is the sewing room. The Scurry County room, sponsored jointly by the city and county, not only is teaching women things to do that will be extremely helpful in the future, but it is giving them meat and bread for present days. At the same time, thousands of garments are being made for those who continue to need direct relief.

Fifty Advertisers.

Since finances became tight a few years ago merchants have not been prone to advertise in such large measure as they did in the twenties. But the latest, most modern merchants are advertising more regularly than ever, even if their ads are not of such large caliber. Witness: The Times carried 50 separate ads last week, 43 from local firms, 7 from outside concerns. It pays to advertise, week in and week out!

Grapefruit in Texas.

Texas is far behind most states of the Union in the production of fruits, in proportion to her size, seven states leading her in acres planted to fruit in 1935, according to government figures. But Texas' status as a grapefruit center is reflected in these figures: Trees not of bearing age—Florida 494,432, California 431,277, Texas 1,856,735. Yet Florida, with more mature trees, harvested almost four times as much grapefruit in 1934 as Texas harvested.

A Distinguished Building.

Only a handful of townspeople attended the dedication ceremony at the new gymnasium last Friday. But that handful, along with 1,000 students and faculty members, saw the interior of one of the most distinguished buildings in Snyder—or in all West Texas, for that matter. Indeed, the gymnasium and grounds, atop that graceful rock wall, with that beautiful park just to the northwest, is one of the most attractive spots you will find in many miles of traveling.

Feeding Hungry Stomachs.

Hungry stomachs—almost 50 of them—come to Snyder schools day after day. At home they have less than enough to go around. At school they must mingle with children who have plenty. That makes them hungrier than ever. So it is a tremendously worthy goal that has been set by study clubs and the service club of the town. . . to help feed these hungry little stomachs. Watch for the date on which you, too, may have a chance to help, and, at the same time, get some side-busting entertainment.

Pensions for Our Aged.

There seems to be no question but that our Legislature was a bit too liberal with its pension law. No one will deny that our aged citizens, most of them worthy, should be helped financially by governments when other sources of income fail; but only selfish souls and demagogues will contend that all persons, or even the majority of persons above a given age should be given a pension. The Legislature would do well to tighten up on pension requirements, with the idea in mind that those who have received grants through "pull" or misrepresentations should be weeded out in a hurry.

Johnny and Sally.

Johnny and Sally are your boys and my girls—and how they have grown during the last few years!

If they have twice as much life, at least 50 per cent more horse sense and 100 per cent more individuality than we had when we were boys and girls, they need just that much more guidance—and worthy examples.

So Four-H Club work, Camp Fire Girls and Boy Scouts have come into being. They are just three of the organizations that are helping Johnny and Sally to become well rounded citizens.

The emphasis is being placed on youth in this country during the next few weeks.

First, there will be the Four-H Club boys' show, which we should all support with our might and means. Then there will be a fathers' and sons' meeting early in November, and a joint church meeting Sunday, October 18, with Camp Fire Girls taking the leading role.

If we love our Johnny and our Sally, let us show them—and how!

"This Mad Life."

We are indebted to "The Chaser," that optimistic, energy-full publication of "the san" at Carlsbad, Texas, for the following choice bit of philosophy:

Rushing to the office; rushing out to eat; rushing back, rushin' home, down the rushin' street; rushin' up and rushin' down, rushin' in and out. Say, what's all this rushin' fur? What's it all about?

Rushin' after money, rushin' after fame, climbin', pushin', shovin'. It's a dizzy game. Steppin' on each other's heels—"Let me by!"—"Look out!" Say, what's all this rushin' fur? What's it all about?

What's the use o' rushin'? Let us loaf awhile, watch 'em push, run and grab. We'll jus' set and smile. As they scramble down the road, gaily we will shout: "Say, what's all this rushin' fur? What's it all about?"

Current Comment.

BY LEON GUINN.

Perhaps no one issue in recent months has invoked so much debate with our Austin lawmakers as the "old age pension bill." . . . For today, Texas must dig up \$1,200,000 for her October and November payments to the aged needy, or else Uncle Sam will stop paying his 50 per cent of the bill. . . . The federal government matches state funds dollar for dollar conditionally; our legislators not yet understanding the conditions specified.

Now to our dearly beloved aged, who have been accustomed to the luxury of figuring on \$200 a month, it is going to be a bit drab to find Texas will be doing herself proud to pay \$20 per month this winter to the 60,000 now on roll. . . . In the first place, the federal social security board warned our state board the roll of applicants should not exceed 50,000, which would take care of the old folks needing the assistance the most.

Yet our state lawmakers took it for granted the sky was the limit; high pressured through a thinly jelled "security act," which gave almost anyone over 65 the right to old age assistance (the law made very little demarcation about owning property, except over \$3,000). . . . The federal board had in mind starting out with our needy aged on the relief rolls, as the only eligible applicants, yet this marginal specification was generously ignored. . . . Then, some certain big city lawmakers inserted the scale of payments, ranging from \$12 to \$30 per month (according to need, station in life, etc., to keep big blocks of city votes).

Now, even though the Frazee-James omnibus tax measure is made law at Austin, it will be 90 days before any appreciable amount of taxes for old age assistance accrue. . . . In the meantime, Frank Bain of the national social security board at Washington and other federal brass hats insist Texas cut down its applicant roll to 50,000. . . . Perhaps it might have worked out better, after all, if our Austin legislators had started the old age pensions off with only those on relief; paid to each and every one the same amount of \$30, not allowed 675 "white collar workers" to overburden the Austin setup with expensive overhead.

A wealthy man engaged an English tutor for his son. "Take him up into the mountains," he said, "and break him of the habit of using slang." "I will jolly well do that," replied the tutor. Two months later the pair returned home. The anxious father rushed up to the tutor for a report. "Did you have a successful trip?" he asked the cultured Englishman. "You said a jawful; I'll say we did," was the genteel reply.

URGES VOTERS OF WEST TEXAS TO SUPPORT AMENDMENT NO. 6

Says Cities Will Control Legislature Soon If Proposed Change Is Deputed.

George Moffett, member of the Texas Legislature from Chillicothe, made these statements in Austin today:

"Texas is the largest and most important agricultural state in the Union, and this should be the most potent fact in the minds of legislators as they enact the laws under which the people of Texas live— "But the state's population trend is not toward the farm. It is away from it, moving into already populous centers. In the 1920-1930 decade the population increased 1,162,000, and almost exactly one-third of the increase occurred in the three most populous counties. By actual census figures 69 rural counties showed decreases in population between 1920 and 1930. Power farming probably accounted for most of the decrease—

"If Texas were given legislative redistricting today under our present constitution, Dallas County would have ten members and Harris County (Houston) 11. In 20 or 30 years more this would be doubled—

"Unless our present constitution is amended, population will continue to be the only yardstick by which representatives in the Legislature are allotted to the various counties, and the big cities will completely control the Legislature.

Moffett's statement was made in support of one of six proposed constitutional amendments upon which the people of Texas will vote on Tuesday, November 3. It is Amendment No. 6, providing for equalization of legislative representation on a basis of geography as well as population in laying out districts. As chairman of the legislative committee on constitutional amendments, Moffett is the author of Amendment No. 6. He is for all the amendments, but believes this one is by far the most needful "to keep the government in the hands of all the people and not the few who have moved to the cities and whose interests are more industrial than agricultural."

Moffett said further: "Thirty states take geography as well as population into consideration in laying out legislative districts—why should not Texas? In Oklahoma the limit for a county is seven members; in Georgia and Florida, three members; in Iowa, two members; and other states that are predominantly agricultural have similar restrictions based on geographic and territorial considerations.

"Decentralization of Power. "Our forefathers wrote it into the federal constitution that the president and vice president of the United States should not come from the same state. They opposed concentration of powers—and Amendment No. 6 proposes to do the same thing in Texas. "The United States Supreme Court in 1932 held in a clear-cut decision

"Large City Control. "Unless Amendment No. 6 is adopted by the people next month and written into our constitution, four or five of our larger counties will, within a few years, have a population preponderance enabling them to control and dictate the laws under which the people of all the other counties must live. Amendment

"Amend Constitution. "The present constitution is amended, population will continue to be the only yardstick by which representatives in the Legislature are allotted to the various counties, and the big cities will completely control the Legislature.

"Huge Area Neglected. Another example: An area in West Texas reaching from Farwell down to Sanderson and from Balnearia across to Paint Rock—an area as large as the state of New York—has only three members in the lower house, no greater than the representation allowed Beaumont and Port Arthur in one county, Jefferson.

Moffett sounded this warning: "It was a stern and hard fight to get the Legislature to submit this amendment. Opposition to submission, centering in the populous counties that profit most under the present law, was overcome with the greatest difficulty. If the people vote against the amendment next month, I am afraid they will never get another opportunity to pass on the question, and that the state will be redistricted under the present laws. And that would give two counties (Dallas and Harris) 14 per cent of the entire lower house membership."

G. H. Leath left Tuesday morning for Jamestown, Alabama, where he will visit for several days with his father, H. T. Leath, who will be 89 years of age the last day of October. The elder Leath's health has become poor in recent weeks, and the local cafe man was anxious to see him before winter comes.

That congressional districts need not even be approximately equal in population. County commissioners precincts, city commissioners precincts, judicial districts, school districts and many other subdivisions created for legislative purposes, are not laid out on a population only basis, but usually with an eye to giving each section or community fair representation. Geographic and territorial considerations play an important part in shaping the aforementioned districts, and should likewise be considered in laying out representative districts instead of using population alone.

"Since the total membership of the house is fixed in the constitution at 150," said Moffett, "it certainly is proper and fair that no one county out of the 254 counties in Texas should have a disproportionate representation, and a maximum of seven should be enough. In a state as large as Texas it would never be for the best interests of the state to permit the bunching of its lawmakers in a very few counties. It is more justifiable for Texas to recognize geography, as well as population, than any other state, because it is the largest state with the farthest-flung boundaries and has the greatest diversity of conditions and interests.

ment No. 6 seeks to put a reasonable and necessary balance wheel in our governmental machinery, and it should be adopted." At the present time representation in the Legislature is fixed by dividing the total population of the state by 150 (the number of representatives in the house) and allotting representatives to each county, or counties, in accordance with the resulting population quotient. Here is an example of how that works: Dallas County, with six members, has a representation exceeding the combined representation of the following 32 West Texas counties: Dallam, Sherman, Hansford, Ochiltree, Lipscomb, Hartley, Moore, Hutchinson, Roberts, Hemphill, Oldham, Potter, Carson, Gray, Wheeler, Deaf Smith, Randall, Armstrong, Donley, Collingsworth, Parmer, Castro, Swisher, Briscoe, Hall, Childress, Bailey, Lamb, Hale, Floyd, Motley and Cottle.

### Hermleigh Whips Canyon Visitors; Harless Is Star

Jack Harless, fleet back, got his fingers on a loose punted ball Friday afternoon at Hermleigh, and the resulting score led his Hornets to a 6-0 victory over the Canyon Teachers College demonstration high school team. It happened in the second quarter.

Canyon threatened to count in the final quarter, but the stinging Hornets held them on the six-yard line for four downs. The host team led in first downs, about 15 to 5, looking especially good on wide running plays. Harless and Roberson, Hermleigh passer, shone in the backfield, while Elheredge at end and Jones at guard were in the limelight.

The Hermleigh pep squad, led by Frances Patterson and Willa Deene McMillan, were impressive in their first appearance in dashing satin blouses and red skirts. They are sponsored by Miss Lela Day. After the game, this 35-girl squad and home economics girls were banquet hostesses to boys and coaches of both teams.

The Canyon team, headed by Coach L. T. Barksdale, came in three cars, returning after the banquet.

Surviving besides her husband are her parents, Mr. and Mrs. S. L. Allen of England, Arkansas; two daughters, Lois and Marjorie Martin; seven step-children, Herman, Arlis, J. B. Lyndon, Arnel, Joyce and Burlene Moses, all living at home; six brothers, Jim, Dorse and Ullis Allen of England, Arkansas; Lewis Allen of Snyder, Millard Allen of Rotan and Idis Allen of Roby.

### Initial Payment Under 1936 AAA Program Coming

The Agricultural Adjustment Administration announced Saturday that initial payments of 90 per cent would be made to producers under the 1936 agricultural conservation program in the North Central, Western and East Central regions. Producers in the Southern region, which includes Texas, will receive 90 per cent of the Class I payments and 100 per cent of the Class II payments.

Payments will be made as rapidly as possible, but due to the amount of work involved several weeks will elapse before they can go out in volume. H. R. Tolley, administrator of the AAA and related acts, said: "The decision to make initial payments of 90 per cent in some regions is in line with the policy previously followed. In former years administrative expenses have been deducted from the second part of the payment, and the same procedure will be followed this year. Complete information on participation and expenses will not be available for several weeks, although it is known that the number of farmers taking part in the program is in the neighborhood of 4,000,000."

### 1-MINUTE SAFETY TALKS By Don Herold

### SO I'M A HYPOCHONDRIAC?

One of my friends (in fact, it was my older daughter) has accused me of being a "hypochondriac" on this subject of automobile accidents.

All right, then, the railroad companies are hypochondriacs on the subject of safety.

That's what makes them safe. When your train stops in a station, you see and hear men tapping the wheels and brakes, looking for possible trouble.

Railroad hypochondriacs, I guess. Afraid of accidents—the sissies!

All along the railroad tracks are red and green lights, to keep trains from bustin' into each other. If the engineer sees a red light, he's just enough of a hypochondriac to stop his train.

Constant inspection and constant care are the price the railroads pay for their enviable safety records. They know that they can't depend on luck or bravery.

The railroads are not afraid to be cowardly careful. We motorists can't depend on double tracks or red light signals to keep us from smashing into each other, but we can heed the red lights of last year's accident records and of today's papers' reports of yesterday's crashes.

We can face 1935 figures gathered by the Travelers Insurance Company, for instance: Automobile accident deaths, 36,100; persons injured, 895,280; accidents caused by drivers exceeding speed limit, 121,460; wrong side of road, 85,770; cars with defective brakes in accidents, 18,690; with glaring or "out" headlights, 10,750; punctures or blowouts, 7,360.

And we can have our brakes and steering apparatus and lights inspected freely and we can throw our old tires away, and we can drive with brains instead of bravado—even if we are accused of being a little hypochondriac on the subject of safety.

### Estimates Made From Surveys of County Planners

Farm men and women of Texas from 204 counties who turned in program planning surveys instituted by the Extension Service estimate that if farm practices were adjusted to maintain soil fertility and control erosion that the farm population in the state should not in their judgment increase more than 115,000.

George E. Adams, assistant state agent of the Extension Service and chairman of the committee on program planning, pointed out that these figures are taken from estimates made entirely by those living in the country as farmers and farm homemakers.

Other things brought out in the survey, which has been sent to Washington for compilation with figures from other states in a national report, was that the farm men and women of Texas estimate that there should be a decrease in crop land, especially in cotton and wheat, and a corresponding increase in pastures and grain for feed.

### For Bad Feeling Due to Constipation

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. Mrs. Jay Mullins of Lake, Ark., writes: "My husband and I both take Eberford's Black-Draught and find it splendid for constipation, biliousness, and the disagreeable, aching, tired feeling that comes from this condition." With reference to Syrup of Black-Draught, which this mother gives her children, she says: "They like the taste and it gave such good results."

**BLACK-DRAUGHT**

They also estimate that there should be an increase of at least 550,000 head of cattle and 320,000 hogs on Texas farms, partially, at least, for home use. These committees also found that more gardens and orchards were needed to supply vegetables and fruits for home use in Texas.

This county planning activity will go ahead in Texas this year under supervision of an Extension Service committee consisting of George E. Adams, assistant state agent, Miss Mildred Horton, vice director and state home demonstration agent, Miss Lola Blair, specialist in foods and nutrition, R. W. Snyder, supervisor of specialists' work, S. A. McMillan, economist in farm management and W. E. Morgan, economist.

### Notice to My Friends:

Heavy expenses have grown out of my recent automobile accident, and I have naturally been unable to earn customary revenue for several weeks. Because of this added expense and lack of income, I wish to request that all those who owe me bills in any amount make every reasonable effort to pay up as quickly as possible.—I. A. GRIFFIN, M. D.

The Yoakum County council appointed a committee of two of their members to give the commissioners' court a complete report on home demonstration club work in the county. Foolish questions don't have to be answered. Mr. and Mrs. Marcel Josephson and daughter, Sandra Jean, visited in San Angelo Sunday.

### EAST WARD TO NAME OFFICIAL

Citizens of Ward No. 3 (east ward) will have an opportunity to go to the polls Friday of this week and name an alderman to succeed J. E. Shipp, who recently moved to another ward.

The name of only one candidate, Willard Jones, has been submitted for the ticket.

The election will be held in the commissioners court room of the courthouse, with M. Stacy as judge. Voters who are otherwise qualified and who have resided in the east ward for six months may cast their ballots.

### Odd Fall Weather Brings Blooms to Local Pear Trees

Several Snyder pear trees have been blooming in recent days, as Old Man Weather continues to play peculiar tricks on the temperature.

One is a small tree in Mrs. G. A. Hagan's yard. Another is a large tree just south of the highway, five blocks east of the square. Others are also blooming in various parts of the county.

Mrs. J. R. G. Burt had a cherry tree in bloom in her yard in South Snyder several days ago. The tree bore a full crop earlier in the year.

Old-timers say they remember only a few years when trees bloomed twice.

### Weldon and Billie Wearing New Boots

Weldon and Billie Ray Watson, aged ten and eight, are wearing new boots—bought with money they earned during the Ira school's six-week intermission for cotton picking.

The two youngsters not only pulled enough cotton to purchase a pair of \$3.98 boots apiece, but they have also bought all their every-day clothes. This record was made in the face of the fact that almost two of the six weeks were too rainy for cotton pulling.

### First Proposed Amendment Would Make State Sole Agent For Liquor

(Editors' Note: This is one of a series of articles that is being run in The Times to acquaint voters with the six constitutional amendments on which they will ballot November 3. Prepared by Secretary of State B. P. Matocha at the request of state newspapers, the articles are strictly explanatory and are not intended to influence voters one way or the other.)

S. J. R. No. 3-A.

The first proposed constitutional amendment to face the voter on November 3 is S. J. R. No. 3-A, which provides for a state dispensary system to have exclusive sale of distilled liquors and all profits from the sale of such liquors would go to the state. The sale of spirituous distilled liquors for private profit, as is now the case, is prohibited within this state, by this amendment, except when such sale is made to the state, according to B. P. Matocha, secretary of state. It is further provided that the state of Texas shall have the exclusive right to purchase at wholesale and to sell at retail such distilled spirituous liquors. Such sale shall be made only in unbroken packages and no such liquors shall be consumed on the premises where sold. The difference between the proposed plan and that now in effect would simply be one of ownership—i. e. by the state rather than the individual.

The state would maintain various places of business for the purpose of the sale of such liquor direct to the consumer. These places of business would only be maintained in the counties, precincts or incorporated towns where by local option elections such sale has been made legal.

Local option as now in effect would not be changed by adoption of the amendment. The sale of alcoholic beverages containing not more than 3.2 per cent alcohol which has been legalized in such political subdivisions shall not be prohibited by this section.

This amendment further provides that the open saloon shall not be reestablished.

It is also provided in this amendment that the Legislature shall have the power to regulate the sale for private profit and possession of distilled liquors for medicinal, scientific and mechanical purposes.

The Snyder line-up: Taggart, left end; Scarborough, left tackle; Boren, left guard; Hargrove, center; Mebane, right guard; Riley, right tackle; Rogers, right end; Hall, quarterback; West, left half; Mof-fett, right half; Keller, fullback.

### Carnival Will Be Staged at Hobbs Next Friday Eve

What is "IPTA"? Who is "IPTA"? All most of the folks over at Hobbs know about "IPTA" is that it's the name of the mystery booth that will feature the Hobbs school carnival Friday, October 23. Thrills and excitement are promised at the booth.

A carnival queen will be crowned at 5:00 p. m. as the first feature of the program. She will be elected, at one cent per vote, from the following candidates: Oleta Weems, senior; Grace Poteet, junior; Lulline Thomas, sophomore; Marjorie Stewart, freshman. Grammar school attendants will accompany the queen at the coronation.

An indoor baseball game between the high school girls and the men over 45 years of age will be staged just before the coronation.

Each class will sponsor a carnival booth. Hamburgers, drinks, sandwiches and other palate ticklers will be served by the home economics girls.

Proceeds from the carnival will be used for purchase of classroom and athletic equipment. J. C. Conrad, coach, is in general charge of the carnival. R. K. Williams is the Hobbs superintendent.

### Better Light Essay Contest Announced For School Children

An essay writing contest on "Better Light—Better Sight," with 37 prizes totaling \$255, has been announced by L. J. Geer, district manager of the company. The subject of the essay is "Why I Need Good Lighting at Home and at School," and the contest may be entered by any school student in towns served by the Texas Electric Service Company, except children of the company employees.

The contest is free, and all needed reference material and entry blanks containing the contest rules are available at the company office. The contest opens October 15 and continues through December 14, when the best essays will be selected and the winners announced as promptly as possible. The age and grade of the contestant will be taken into consideration in selecting the winning essays.

The chief purpose of the essay contest is to impress on students the need for safeguarding eyesight, particularly when reading or studying at night when artificial light must be used, and in the daytime indoors when the natural light is not strong enough to prevent eye fatigue.

### First Presbyterian Church

Sunday school will convene at 9:45 a. m., and Christian Endeavor at 6:30 p. m. next Sunday, but there will be no preaching services at the Presbyterian Church due to the fact that this is the regular Sunday for the pastor to go to Fluvanna.

In the evening the Presbyterian congregation will join with other churches of the community in a service honoring the Camp Fire Girls. A fundamental part of the training given in this organization for girls is the emphasis upon spiritual development, and it is well that all of the community join together in a service of worship at which the Christian growth of our youth is emphasized.—James A. Spivey, pastor.

The impostor makes others believe him to be what he knows he is not.

### Somebody Is Responsible! Is It You?
