

Appendicitis Fatal To Seven-Year-Old Scurry County Girl

Seven-year-old Nova Mae Breneman of the Camp Springs community died Friday in a local hospital, victim of a six-day illness. She was operated Sunday after an appendicitis attack.

Nova Mae was the daughter of Mr. and Mrs. W. A. Breneman, residents of Scurry County for 15 years. Other survivors are her paternal grandfather, A. N. Breneman, and her maternal grandmother, Mrs. H. E. Rodin, both of Snyder vicinity; three sisters and one brother, who reside with their parents.

Rev. H. C. Gordon officiated for final rites at Odom Funeral Home Friday afternoon, 4:00 o'clock. Burial was in Snyder cemetery.

Pallbearers were three uncles, Glen Breneman and Leslie Robinson of the community, Lewis Robinson of Post, and Mr. Tate of Post. The latter two were here with their families. Other out-of-town funeral attendants were Mrs. J. O. Hays of Post and an aunt, Mrs. Pearl McVany, Houston. Jesse Huey of Scurry County and Jose Robinson of Post were flower girls.

NOBODY'S BUSINESS

By Julian Capers Jr. Austin—Confronted with no financial crisis, but with ample time to work out a constructive program of reform, the 45th Texas Legislature faces an unparalleled opportunity, under the leadership of Governor James V. Alfred, to further the return in Texas of prosperity, inaugurated by the national administration under President Roosevelt.

The governor sounded the keynote in his first message. He takes the position that Texas needs no new taxes, and only slight increases in existing tax bases, to wipe out in orderly fashion, existing deficit in the general fund. The governor pointed out that extraordinary expenditures, plus appropriations from the general fund of large sums for the Centennial, retirement of relief bonds, and the rural school aid fund, without compensating tax measures, are responsible for the deficit, and that it is not necessary or desirable to attempt to replenish the general fund at once.

What Alfred Wants. Program of the governor for the session includes enabling acts for the constitutional amendments adopted in November; repeal of the racetrack gambling law; regulation of public utilities; promotion of highway safety; tightening of the laws regulating sale of liquor; a humane parole system, including measures for probation of first-offender youths; legislation to aid tenant farmers to acquire land; and laws to qualify Texas to share in the other phases of the federal social security program, including child welfare, aid for the blind and for mothers. In addition he will seek a reasonable addition to the general revenue fund to recoup the existing deficit, and to provide funds for a much-needed state office building to house departments now renting quarters.

Autry Volunteer Fire Department's Reputation Holds

Snyder's one-man volunteer fire department overcame all obstacles early Saturday night to squelch flames that threatened to consume the big water tank on the C. E. Donaldson Ranch, seven miles south of town.

The N. W. Autry department was taking a bath when the rancher, whose telephone line had been crushed by the ice, sent word from uptown that the tank was afire. It seems that a blowtorch had been used in an effort to start frozen water to running, and a bevy of birds' nests helped start the flames. Like the thirsty man at sea, Donaldson had plenty of water but couldn't use it.

Autry, local fire chief, dressed, then spent some time finding a car. He loaded up with foamite extinguishers, and set out for the ranch at a typical Autry pace.

Just as he topped the Woody Hill, his lights went out, and when he stopped his car had careened into the barpit against an embankment, just short of the deep gully. Passersby helped right the car, and Autry was soon proving himself a one-man fire department.

The tank was saved, after it had sputtered a while. Autry missed only his bath, maybe some sleep, some heavy minutes while his car was lightless . . . but not his reputation as an extinguisher.

Local Girl Will Teach

Geraldine Longbotham, daughter of Mr. and Mrs. Bernard Longbotham, who finished her business courses in Draughon's Business College, Abilene, three months ago, is now teaching shorthand in the school. She began her new work January 1, after being employed in the office of the county agent in Abilene since completing her course. The local girl spent last week-end with her parents here.

Mary Jo Shield, who spent the holidays with her mother, Mrs. Eupha Shield, in Brownwood, returned home last week-end to resume her work in local schools. Her small sister, Helen Kay, of Brownwood was a week-end guest of her grandparents, Mr. and Mrs. M. Stacy.

PALACE Theatre Program for Week—

Thursday, Friday, January 14-15—**"THE GARDEN OF ALLAH"** starring Charles Boyer and Marlene Dietrich. All in newest technicolor. One of the really big shows of the year. News and musical.

Saturday, January 16—**"THE BIG SHOW"** starring Gene Autry with Smiley Burnette, Kay Hughes, sons of the Pioneers, Jones Boys and the Light Crust Dough Boys. A round-up of action . . . filmed at the Texas Centennial. Chapter XII of "Darkest Africa" and comedy.

Sat. Night Prevue, Sun., Jan. 16-17—**"MUMMY'S BOYS"** starring Bert Wheeler and Robert Woolsey, with Barbara Pepper and Moroni Olsen. A pair of shrinking violets in the Valley of the Nile. Comedy and musical.

Monday, January 18—**"BANJO ON MY KNEE"** with Barbara Stanwyck, Joel McCrea, Helen Westley, Buddy Ebsen, Walter Brennan, Walter Catlett, The Hall Johnson Choir. A great drama with music. Bank Night, Bank Account \$100, less state tax.

Tuesday, Wednesday, Jan. 19-20—**"3 MEN ON A HORSE"** with Frank McHugh, Joan Blondell, Guy Kibbee, Carol Hughes, Allen Jenkins, Sam Levene, Teddy Hart. Conceded to be the greatest comedy hit in ten years, now in its second capacity year on Broadway and being played in four countries by ten companies to thousands of hilarious crowds. It's the funniest motion picture ever filmed. "Backyard Broadcast," a Broadway Brevity. No raise in admission for this great show.

Mrs. J. R. Morgan Dies at Monahans; Resided in County

Mrs. J. R. Morgan, 25, resident of the Canyon community until one year ago, died Sunday, January 3, in a Monahans hospital. She was a pneumonia victim.

Final rites were held Tuesday afternoon, January 5, at the Turnbow cemetery, near Dublin, home of Mr. and Mrs. W. H. Palmer, her parents. Rev. W. D. Martin, Episcopalian pastor at Purves, officiated.

Survivors include Fred Palmer of West Snyder, a brother, who attended final rites with his wife. Two other brothers, Henry and Emmett Palmer, of Dublin, one sister, Mrs. G. A. Allen of Hico, also survive, in addition to her husband and two sons, Homer Lee and L. E.

T. I. Bynums Have Reunion Christmas

"Jolly" was the word used by the T. I. Bynum family in describing their reunion during the Christmas season. All of the seven children, in-laws, grandchildren and old friends gathered at the Bynum home in the Union community.

The gathering was the second for the family in the past two years. When the last of the children left, Mr. and Mrs. Bynum left for a few days visit with those in Lubbock and Levelland.

Among those present were the following: Arthur Turner and family of Portales, New Mexico; Mr. and Mrs. W. R. Cox and sons, Doyle and Junior, of Durand, Michigan; Mrs. E. G. Abbott of Lubbock; Virgie Bynum of Amarillo; Doris Bynum, Levelland; Mrs. R. M. Brigman and son, Lowell, Maypearl; Orville Bynum and family, Levelland; Osco Bynum and family, Odessa; J. P. Abbott, Lubbock.

Spinach? "Wonderful," Says Mary

Mary Theresa Kavin, seven, shown with her brother, Edward, after she had eaten the first solid meal in her life. It comprised spinach, chopped beef, mashed potatoes and gelatine. Mary was born

without lower intestines and she had to live on liquids entirely. An operation performed recently has made her entirely normal, and she is looking forward to attending school and carrying her lunch.

Colorado Couple Weds Here.

Miss Elots Beavers, formerly a student in the local high school, and Joe F. Smith, both of Colorado, were married at the local Methodist parsonage Saturday afternoon at 3:00 o'clock, with Rev. H. C. Gordon officiating. They will continue to live in Colorado.

"The prof is not as big a fool as he used to be."
"Is he getting wiser?"
"No—thinner."

Millard Shaw Moving.

Millard Shaw Jr. has accepted a position in the legal department of the Stewart Title Guaranty Company, headquarters of which are in Houston. The former director of Trier Band has practiced law in Abilene for two years, following his graduation from the University of Texas law school a few months earlier.

Observe closely the qualities in yourself that you hate in others.

C. F. Sentell Reds Win Eleven Places At Slaton Exhibits

C. F. Sentell's 15 entries in the Plains-Panhandle Poultry Show held at Slaton four days of last week won 11 places for the local man. He breeds single comb Rhode Island Reds.

Sentell's outstanding bird won three blue ribbons—grand champion male of the American class, grand champion male of the entire show, and grand champion bird of the entire show.

Among birds over which the Sentell champion won was the best blue ribbon winner in his division at the recent Dallas Centennial poultry show, in which the local man had no entries.

The Slaton show, one of the leaders in West Texas, attracted more than 300 chickens and other poultry.

Ranges in Good Shape.

Texas ranges and livestock were in good shape generally at the beginning of the year, a report issued Monday by the bureau of agricultural economics announced. Ranges were classed as 87 per cent of normal. Cattle were rated 84 per cent.

A genuine artisan cares more for his work than for the limelight.

When You Need a Laxative

Thousands of men and women know how wise it is to take Black-Draught at the first sign of constipation. They like the refreshing relief it brings. They know its timely use may save them from feeling badly and possibly losing time at work from sickness brought on by constipation.

If you have to take a laxative occasionally, you can rely on

A GOOD LAXATIVE

First Christian Church

Bible school, 9:45 a. m.; morning worship, 10:45; Christian Endeavor, 6:15; evening worship, 7:15.

Subject of the morning sermon, "The Battle Ground," subject of the evening sermon, "The Jailer and His House."

We were proud of our Bible school and church attendance last Sunday morning. Every teacher was present in spite of the cold weather.

We have a sincere, zealous and faithful Bible school faculty. Let us show them our appreciation for their efforts by supporting them with our presence each Lord's Day. Then let us show our appreciation to God for His great blessings by

remaining for the Lord's Supper and the morning sermon. Everyone invited to all of our services.—C. E. McPherson, pastor.

Miss Grantham Improves.

Miss Edith Grantham, bookkeeper for the local Bryant-Link Company store, who has been seriously ill with indigestion and complications, was taken to the home of her sister, Mrs. Herbert Banister, in Lubbock Tuesday from a Lubbock sanitarium. Reports from her bedside state that she is improving. She was rushed to Lubbock last week after a severe smothering spell.

Miss Bill Glen returned home early this week from a three months visit with her sister, Mrs. A. D. Murphy, Mr. Murphy and friends in Texas City and Galveston.

THE SERVICE BEAUTIFUL—

Regardless of how much or how little you can afford to spend for a funeral service—our foremost consideration is . . . beauty. All of our large stock of equipment is placed at our clients' disposal and the numerous details of a service are painstakingly attended to so that the result will be one of infinite dignity and beauty. At our mortuary, the client can be assured of a service that will leave an infinitely beautiful memory-picture to treasure thru the years.

Captain Sentell Discusses Uncle Sam's Local Men

John E. Sentell, commander of Company G, 142nd Infantry, National Guards, released a fund of "army" knowledge on the Lions Club Tuesday at noon. His was the second of a series of talks on business, professional or vocations followed by local Lions.

Program committees for the remainder of the fiscal year were appointed by the permanent program committee, which is headed by Marcel Josephson. A letter from District Governor Elmer Elliott re-emphasized the fact that at least two members are being sought by each member of District 2-T within the next few days, honoring Melvin Jones, founder of Lionsism.

Captain Sentell said Uncle Sam has the smallest standing army of any of the larger powers of the world—smaller, even, than many minor countries, such as Abyssinia. This regular army of approximately 100,000 men is bolstered by a reserve force and by the National Guards, of which the local company is a part.

The speaker said more than 3,000 Texas men go to a central camp annually for two weeks of intensive National Guard training in addition to their regular routine of at least one session weekly. Only one other state, New York, has sufficient National Guard strength to have a camp all its own.

All members of the National Guard are civilians, although they have army instructors occasionally. They are being molded into a comparatively small but capable working unit that will be of great assistance in case of state or national emergencies, said Sentell.

Two little girls were seated before a plate containing two bunches of grapes, one a large bunch, the other a small bunch. After some silence, Katie said to the other: "Is 'oo greedy?"

"No," said Betty, "I see not one bit greedy."

"Then," said Katie, much relieved, "oo choosie."

Judge—"Mrs. Murphy, why did you assault the gas man?"

Mrs. M.—"Sure, yer honor, he called me an occupant."

New maid—"In my last place I took things fairly easy."

Cook—"Well, it's different here. They keep things locked up."

A woman often catches the devil when she thinks she is catching a man.

Unemployment Compensation in Texas

Editors' note: Following are questions and answers prepared by R. B. Anderson, chairman-director of the Texas Unemployment Compensation Commission, which is an interpretation in simplified terms of the various provisions of the recently enacted Texas Unemployment Compensation Act. Further questions and answers in this series will appear in this paper from time to time.

Question 1: "When will the payment of benefits to workers start under the Texas Unemployment Compensation Act?"

Answer: Payments will begin on January 1, 1938. This is a very important fact for every employee to remember. Why? Because your unemployment during 1937 will be figured on the basis of your employment record during 1937.

If you have steady employment during 1937, you will be entitled to more benefits in case you lose your job in 1938. On the other hand, if your employment record for 1937 is poor, your compensation will be strictly limited until you have improved your record of employment.

Just how this system of "credits" works will be fully explained in a later article. The important fact to remember now is this—your employment record during 1937 will have an important bearing on the credits you build up.

Unemployment compensation may be compared to a savings account. Until you have put something in, you cannot draw anything out.

You, as a worker, will want to understand the other sections of the Texas law so that you will know what to do to build up the best possible record. The aim of unemployment compensation is to keep men in jobs. This fact will become clearer as these articles proceed.

What Benefits to Expect.

Question 2: As an employee, suppose I become unemployed in 1938. What benefits may I expect when the commission begins payments to the unemployed?

Answer: In the first place, you must realize that to receive any benefits at all, you must meet certain eligibility requirements. Questions concerning these eligibility requirements will be discussed later.

But suppose that you are eligible. The law sets up a maximum and a minimum for benefits, but the average rate of benefits is 50 per cent of the weekly wage.

With the following examples, you may take your own present wage and determine just what you could expect to receive if you become unemployed:

(1) All persons who have a wage of more than \$30 a week will receive the maximum benefits—\$15 a week.

(2) Those whose wage falls between \$10 a week and \$30 a week will receive an amount equal to one-half their weekly wage. If your pay was \$20 a week, your benefit, if totally unemployed, will be \$10.

(3) Those whose wage is between \$10 a week and \$25 a week are entitled to benefits of \$5 a week. Those whose wage is less than \$25 a week will receive an amount equal to three-fourths of the weekly wage. If you are getting \$6 a week and become unemployed, then you will get \$4.50 a week.

Effect of Part-Time Work.

Question 3: "Suppose I lose my job, but had a chance to get another at considerably less money, say a part-time job. Would my taking the part-time job deprive me of benefits? In other words, could I make more money by not working?"

Answer: As was said before, this law was designed to encourage employment, not unemployment. Therefore, it has been worked out so that the man with part-time work will have a larger income than the man who is totally unemployed.

You are eligible for limited benefits if you are "partially unemployed."

Oversea Veteran Of Camp Springs Community Dies

Pneumonia from which he had suffered for a week, plus a heart involvement, claimed the life in a local hospital Thursday of E. W. Boatwright, 42, oversea World War veteran. He farmed in the Camp Springs vicinity, and had been a resident of the county for 16 years.

Services Friday afternoon, 2:00 o'clock, at the Camp Springs church, were officiated by Rev. Ira T. Huckabee of Herrleight, who was assisted by members of the Will Layne Post of the American Legion, of which Mr. Boatwright was a member. Odom Funeral Home had charge of arrangements for burial in Camp Springs cemetery.

He is survived by his wife and two children, Doyle, 12, and Basil, 6; his parents, Mr. and Mrs. R. J. Boatwright, Carbon; two sisters, Mrs. D. Hall of Carbon, Mrs. D. H. Persons of Haskell; one brother, W. M. Boatwright, Carbon.

Pallbearers were J. E. Shipp, A. C. Preuit, Jim Beavers, Roy Stewart, W. M. Nichols and Lee T. Stinson, all legion "buddies." Mrs. Mildred James, Mrs. Georgia Davidson, and Misses Irene and Callie DeShazo were in charge of flowers.

The law says a man is partially unemployed when he earns, in a new job, an amount "less than six-fifths" of the amount he would have received in compensation had he been unable to find part-time work.

Example: Suppose you were making \$30 a week and lost your job. Being totally unemployed, you would be entitled to \$15 per week as compensation. However, you get a part-time job paying \$18 per week. The sum of \$18 equals exactly six-fifths of \$15; therefore, you would not be entitled to any benefits.

But if your new wage is only \$12, your wage is less than six-fifths of the compensation you are entitled to. Therefore, you are entitled to "partial employment benefits." The question now is—"How much will I get?"

The law says that in such cases the benefit shall be an amount equal to the difference between the possible weekly benefit (\$15 in your case) and five-sixths of your new wage. Your new wage is \$12. Five-sixths of \$12 is \$10.

The difference between \$15 and \$10 is \$5, which would be the amount of your benefit. Now, this \$5 added to your wage of \$12 gives you a total income of \$17.

Therefore, it paid you to get part-time employment.

If you have any questions concerning the various phases of this law as it affects employers or workers, you can have your questions answered by writing to R. B. Anderson, chairman, Texas Unemployment Compensation Commission, Austin.

1-MINUTE SAFETY TALKS

By Don Herold

"The makers of that car have put a lot of brains into it, Son. Match theirs with yours"

The automobile is here to stay—and I'm glad of it. There isn't a greater crank in the world than I am on the subject of careful driving, but, at the same time, there isn't a greater friend of the automobile.

The automobile puts zest into modern life. It gives the city dweller the country and it gives the country dweller the city. I thoroughly enjoy a long motor trip. And I don't need to defend the motor car as a pure transportation device for transaction of business and movements of merchandise.

Automobiles are away ahead of most of the people who drive them. The mounting toll of automobile

killings and injuries leads some folks to say that "something will have to be done about automobiles." I say that something will have to be done about people.

Statistics show that in a relatively small percentage of accidents it is the car's fault. A car is not to blame if its owner has neglected its brakes, lamps or tires—or if he drives like a wild Indian on a rampage. A car is not to blame if its owner abuses the power it gives him, regards it as a toy instead of a fine transportation instrument, or gets drunk on speed instead of practicing caution and discretion and moderation when he takes the wheel.

Named on Honor Roll. W. S. Goodlett Jr., Dunn, and Alvin Camp, formerly of Snyder, were named on the John Tarleton Agricultural College honor roll for the second preliminary. It was announced by the school recently. To merit the honor they were required to make grades of 80 or above.

Mr. and Mrs. W. J. Waldrop of Corpus Christi are guests this week of Mr. Waldrop's sister, Mrs. C. L. Autry, Mr. Autry and other members of the Autry family in the county.

Mr. Ben Tefkin and son, Danna, who have been guests of Mrs. Tefkin's parents, Mr. and Mrs. Pete Bridgeman, for the past month, left Wednesday, returning to their home at Los Angeles, California.

Enters Dallas School.

Wiley Brice, son of County Judge and Mrs. H. J. Brice, will enter Draughon's Business College in Dallas this week. He was accompanied to Dallas Monday by his mother, who returned home late Wednesday. Brice is a graduate of the local high school.

Sonny sat on the lower step his face resting in two hands. "What's the matter, Sonny?" asked a gentleman.

"Nothin', just thinkin'," replied Sonny.

"What about?"

"Thinkin' how dumb trees are to take 'off their clothes in winter and put 'em on in summer."

Mrs. Mary Green of San Francisco, California, who was formerly Mary Woelert of Snyder, is visiting here with her mother, Mrs. Emma Woelert, and other relatives. She arrived here December 31 after a holiday visit with relatives in Melvin and Dallas. She plans to leave late this week, returning to her home in San Francisco.

Mr. and Mrs. Everett Rutledge of McKinney were guests of the Galveys here last week.

Get Your Milk and Cream From Robinson's Sanitary Dairy—Delivered on Time—Phone 9050

Snyder General Hospital

Mrs. Violet McKnight, a teacher in the Ballinger High School, and Janice Erwin, both local girls, have had major operations in Snyder General Hospital this week. Medical patients have been: E. W. Boatwright, Camp Springs; Bonnie Lorraine Lewis, Herrleight; and Mrs. E. M. Pettigrew, Justiceburg.

Mrs. J. M. Mangum of Monahans and Frank Lawson of Fost, last week's medical patients, and Mrs. LeRoy Nichols of Post and Miss Hattie McKell of Colorado, surgical patients of last week, together with Miss Erwin and Mrs. McKnight, were still in the hospital late yesterday.

Slade (at beach)—"Do you go in for Browning?"

Dumb Dora—"Not so much. Just a nice little tan is all I care for."

The Southern Whinery in San Antonio is the only U. S. bonded winery in the 10th Federal District, which embraces Texas, Louisiana and Oklahoma, according to data compiled by the Texas Planning Board.

"Did you see how excited those two peroxide blondes got when the ball team made that run?"

"Yeah, the bleachers went wild."

Folks, There's—
No order too small for our attention or too large for our capacity.

ONE OUT OF EVERY FOUR ADULTS HAS—

Sinus Disease

According to leading doctors, "sinus trouble is one of the most prevalent and troublesome diseases of today. This dreaded and sometimes fatal disease is caused by and follows the COMMON COLD."

All kinds of serious complications besides sinus infection follow the common cold. America's Public Health Enemy Number One, THE COMMON COLD GERM, relentlessly wages its attack to pave the way for such serious illnesses as bronchitis, pneumonia, tuberculosis, and other serious health-wrecking diseases. Frequently cold infection extends into the ear or mastoid.

During the common cold months, or winter season, it is especially important to take every precaution to protect your health. Quick changes of temperature should be avoided. Sudden changes of temperature, such as occur when going from a warm room into a cold one, makes it easy for you to "catch cold." Don't give a common cold an even break. Prevention is the best remedy. However, if you should catch cold, consult your family doctor before it has an opportunity to undermine your health.

For your health's sake, and to obtain the greatest value from the fuel you use, heat your entire house and provide adequate ventilation during the short winter season.

... Lone Star Gas System

* Only a Cold... but serious disease may follow!

The common cold germ is responsible for more than two hundred million illnesses each year.

A BALLOON BUGGY-BOAT

The Balloon Buggy-Boat is truly a unique vehicle. Powered by an automobile engine, it rolls over land, mud, and water on tires ten feet high by three feet wide—the largest ever molded.

Gulf Oil Corporation engineers call their invention a Marsh Buggy. It is equipped with all the marine requirements for Class 1 motor boats. Its displacement in water is two feet.

In water and mud the Marsh Buggy obtains traction from rubber treads pulled over the tires. If punctured, the tires can be inflated while the machine is in motion by starting a small air compressor.

THE 7500 pound Marsh Buggy is used to transport Gulf geophysicists, together with their equipment, into the Louisiana marshes where they search for oil. The huge machine, which combines the basic principles of motor car, tractor, and boat, has a top speed of 35 miles an hour on firm ground, 12 miles an hour in waist deep mud and mire, and 6 knots in water.

Education Chief Tuberculosis Foe Says Dr. Brown

Tuberculosis continues to be one of the major causes of death in Texas. Public health authorities agree that the death rate will not diminish satisfactorily until the average person appreciates that tuberculosis is preventable, that it is not inherited directly, that it is acquired by direct transmission of the tuberculosis germ from the sick to the healthy; and above all, that he must be concerned immediately if any symptom appears.

"In combating tuberculosis," said Dr. John W. Brown, former state health officer, "education of the public is of prime importance—education as to the characteristic character of the disease and its methods of transmission, how to prevent the disease and how to treat it when contracted, to the end both that recovery may be as rapid as possible and that spread of the disease to other members of the family and to neighbors may be avoided.

"Children pick up tuberculosis as readily as they do measles or scarlet fever or any other contagious disease, but tuberculosis differs from some in not showing up as quickly as other germ diseases. As a rule, the characteristic symptoms of other diseases develop in a few days after a person has been exposed, while it takes a much longer time for the symptoms of tuberculosis to be recognized.

"The periodic health examination by a competent physician plays an important role in the fight to stamp out tuberculosis. These check-ups should include examination of high school and college students by the tuberculin test and X-ray and prompt examination of all persons who have symptoms of tuberculosis. "Removal of the contact case, protection of the infant and the young, and prompt professional advice when symptoms suggestive of tuberculosis arise, will do much to reduce the tuberculosis death rate. These measures, however, are largely outside the province of health officials, and the problem is quite definitely a personal one."

LET'S TALK ABOUT CLOTHES

BY A YOUNG MOLERN

Nothing equals the lure of new neck scarfs. Once an addict or collector the urge never dies, you keep buying and wearing the things. We shopped for new arrivals to wear under dark winter coats, and found a most satisfying assortment of brand new ideas.

For instance, there are the paper prints—a nice newspaperish print in off-white soft silk that is especially effective. The scarf is slippery, slim and soft to manuse, in double loop or single twist around the neckline of suit, blouse or knitted outfit. The matching bags come in two distinctive styles; a round one with a zooty black satin button in the center and a strap; and a pouch affair with corners cut and a long loop for the wrist.

Silk squares in script letters, printed in contrasting colors come in several stunning combines and are a nice scroll idea to wear with a plain silk.

Another printed scarf has bands with the names of famous movie stars in contrasting color; and still others have an international alliance of tiny figures dressed in national costumes printed in an all over design against a clear one color background. These scarfs are square shape and can be doubled and worn as triangular styles.

Ascots of silk are blazing with such unusual designs as express labels, tiny reproduction of all the railroad stations in Paris, or some of the famous buildings. These are especially favored by girls at Texas State College for Women (CIA), Denton. In addition to the printed scarfs, the novelty crepe ideas with embroidered initials are rapidly gaining in popularity.

Proposed changes in the Texas mining laws which would enable better prospecting for minerals are being studied by the Texas Planning Board's mineral resources committee.

BABSON Views Bonds

By ROGER W. BABSON,
Oracle of Business.

January is usually one of the biggest investment months of the year. It should be even more so this year due to the tremendous outpourings of dividend extras during December and the bonds called for January. My figures show there are more than a billion dollars seeking reinvestment at the present time.

Investors are perplexed. They are asking: "Is it wiser to hold investment funds liquid, hoping for lower prices and better yields in the future, or are bond returns going to remain at current levels indefinitely?" Here are some of the major pros and cons which must be considered in answering this question:

Five Bullish Factors.

1. **FLOOD OF MONEY.** The hoard of money seeking investment from all sources today is unprecedented. Bank deposits and reserves are at peak levels. Business and investment confidence has returned.

2. **SCARCITY OF NEW ISSUES.** The small dribble of new issues is one reason for the bond man's present assurance. Back in 1929 new capital financing totalled \$8,640,000,000. In 1934 the figure was \$178,000,000; while in 1936 the total was still only \$1,100,000,000.

3. **PREVAILING MONEY RATES.** Money rates are at the lowest level in history. Money, like labor, wheat and other commodities, has its price and its price is ruled by the law of supply and demand. Today money is a drug on the market. Its pitifully low return has dragged bond yields down with it.

4. **GOVERNMENT POLICY.** The administration's idea is to keep the lid on money rates for the near-term, at least. It has the power over credit to do so and most of the decisions of the Federal Reserve during the recovery period have been based on this policy.

5. **BUDGET OUTLOOK.** The improvement of federal finances is a fifth "pro" factor, although its effect is not as strong as the others. Despite astronomical spending, record-breaking tax collections are slowly narrowing the gap between income and expense. If the current trend continues there is some possibility that the budget can be balanced in 1939.

Five Bearish Influences.

Against these buoyant influences must be balanced a number of

trends which will eventually level off bond prices.

1. **BETTER BUSINESS.** Rising business profits are perhaps the most basic bearish bond factor today. As more profits can be earned in business, the demand for money increases. Money rates gradually rise and funds are coaxed out of low-yielding securities into more profitable channels. New enterprises sprout up and add to the money demand.

2. **GOVERNMENT POLICY.** Eventually, however, the treasury will "pull the plug." When its refunding operations are concluded, the government will probably let money rates seek their own level.

3. **CHANGING DEMAND.** Even today there is a substantial gain in the number of investment opportunities. The small volume of new issues is currently supporting high bond prices; but the trend is definitely toward a bigger volume.

4. **FEAR OF TAX EXEMPTS.** The tax exempt situation is another factor bothering many a bond buyer. There is a strong feeling that some day tax-exempt issues may be abolished.

5. **LOW YIELDS.** The average yield on a high-grade bond today is slightly over 3 per cent. Never before, in my memory, have industrial concerns been able to sell callable new debenture bonds bearing a 3 per cent coupon at 100.

Babson's Conclusion.

In getting the answer to the question: "Should I buy now or wait?" the bond investor must carefully weigh these various factors in the scales of his own individual situation. Those who do buy now must turn a shrewd eye to the problem of maturities than ever before. That is the most important bond rule today.

Personally, I prefer non-callable short maturities. Simply to fatten yields, do not buy second-grade stuff. Briefly, it seems to me that the balance between the "pro" and "con" factors favors continued high prices for the near-term but lower prices over the longer-term. As I size up the outlook, the bond market today is in about the same position as the stock market was in the latter part of 1931.

Business, as estimated by the Babsonchart, is now running at 1 per cent above normal and 5 per cent above a year ago.

DULL HEADACHE GONE, SIMPLE REMEDY DOES IT

Headaches caused by constipation are gone after one dose of Adierika. This cleans poisons out of both upper and lower bowels. Ends bad sleep, nervousness. — Stinson Drug Company. N-1

This Bank will observe Tuesday, January 19, as a Holiday, on account of Robert E. Lee's Birthday.

Dr. Edmund Ezra Day, director of the social science program of the Rockefeller Foundation, who has been elected president of Cornell University, to succeed Dr. Livingston Farrand, who retires next June.

Joy is the meat of life and laughter is the dessert.

New Program of School Health Is Being Sponsored

A new program of child health will be inaugurated in the local school system within a few days.

All dentists of Snyder will meet at the local superintendent's office Monday afternoon, 5:00 o'clock, with Dr. J. G. Hicks as chairman, to perfect an organization and to formulate plans for a dental clinic. City and county health officers have been invited.

Headquarters for the clinic will be at the school building. Every child will be given a complete dental examination. Prevention of trench mouth and similar diseases, and need for dental work will be among the chief objectives of the examinations.

Letters will then be mailed to parents of children who need dental attention, and the suggestion will be made that the family dentist be consulted.

This is the first step toward a complete physical examination of all children, looking toward determination of physical defects retarding class work and general student welfare.

PRODIGY

Smiling at you is Paul Bartlett, son of Mr. and Mrs. William J. Bartlett of Medford, Mass., who started teething at the age of three months, and now has a dozen molars to his credit, a month before his first birthday.

Get rubber stamps at Times office.

KNOW TEXAS

By F. L. McDonald, Texas State
College for Women, Denton

Beginning with this issue of The Times, a series of short feature articles intended to better acquaint its readers with a "greater Texas" will be brought to them. The leading industries, cities, geographical points of interest, recreational spots, etc., will be dealt with in the light of the most recent facts available.

Overhadowing all other industries are those of oil, cotton and cattle, but dozens of others are rapidly coming to the fore, some may become rivals of those which now hold the leadership.

Few people probably realize that Texas produces about 75 per cent of the sulphur used in the United States and a large portion of the supply used throughout the world. Texas sulphur is more than 99 per cent pure as a rule, and nearly a million and a half tons are produced annually, this amount having a value of between 25 and 37 million dollars.

First to claim a producing company was Brazoria County, in which

the Precourt Sulphur Company began operations. Today Matagorda, Wharton and Duval Counties are producing most of the Texas sulphur. Reeves and Culberson Counties are known to contain extensive deposits of sulphur, but no production companies are yet operating there.

Rev. and Mrs. A. W. Waddill of DeLeon are visiting here this week with Mrs. Waddill's sister, Mrs. W. W. Hamilton, Mr. Hamilton and other relatives and friends. Mrs. Waddill is a former resident of Snyder, and Rev. Waddill, a Methodist minister, is well known here.

RESOLUTIONS.

Whereas, it has pleased God, in His infinite wisdom, to call from the walks of men, H. C. Hayter, our beloved brother Mason, and Whereas, in Brother Hayter's call from labor to refreshment we mourn, his going as a distinct loss to the fraternity, and Whereas, his church, his family and his many friends keenly feel the loss of a good man, a worthy father, and a loyal friend, and Whereas, his community will mourn his passing as that of an upright, noble, Christian citizen, a just and honorable man, and a true Mason,

Therefore, be it resolved: First: That we will ever revere and honor the name of our late Brother Hayter, whose name appears so often on our minutes; Second: That we give expression of our feelings to the memory of our worthy but fallen brother;

For the first time in history Texas grapefruit this winter commanded a 35 cents per box premium over California and Florida grapefruit on the New York market.
