SNYDER, TEXAS, JUNE 17 NINETEEN HUNDRED THURSDAY AFTERNOON 17 AND THIRTY-SEVEN

# REGISTRATION OF BIRTHS AND **DEATHS URGED**

State Registrar Says Death Rate Is Naturally Low, But Records May Be Incomplete.

That Scurry and other counties of the Panhandle and South Plains have favorable death and birth rates because of healthy conditions is conceded by Dr. W. A. Davis, state registrar for the State Board of Health.

"But it would be embarrassing," Dr. Davis said in a letter to County Judge H. J. Brice late last week, "to be confronted with the statement that the low rates were due to the failure to secure complete registrations rather than to the healthy conditions of the section.

Letters to Precincts.

The state registrar has written letters to the three county registrars and to other county leaders in an effort to see that death and birth records are complete in every way. The county registrars are: P. E.

Davenport, justice of the peace, Snyder; H. C. Flournoy, justice of the peace, Fluvanna; W. W. Early, justice of the peace, Hermleigh. Records for the first four months

Scurry County. Only 57 births and in the first paragraph: other sections of the state, writes Darby, Warren Dodson, J. O. Dod-

deaths have shown an increase, while Taylor, Ben F. Thorpe, R. W. Webb, the births have shown a marked de- Wayne Williams, Sterling William crease during the past few years.

In a letter to Flournoy a few days ago, Dr. Davis went further in explaining the death and birth rate

"The death rate in the Panhandle counties is, because of climate and counties is, because of climate and healthy conditions, much lower than Mrs. Stinson on that in other sections of the state.

Statistics Doubted.

"When I have published these rates in the past, it was suggested to me that the registration in the Panhandle counties was not complete, and so I am going to send a copy of this letter to the physicians and other prominent people in your county with the request that they assist in bringing registration of births and deaths up to 100 per cent, so that when the rates are published no person can blame the low rates

### Farm Contracts Are Checked by Local Committee

The county committee, working Paso. in the county agnt's office since Monday, has completed checking the 975 work sheets turned in with 1937 County Agent Going soil conservation contracts signed by county farmers.

With several years of measuring up to government standards behind fore, believe the committeemen and county agent work. The school will attaches of the agent's office.

After local checking, the appli-

C. M. Wellborn is chairman of the a number of states will attend. county committee. Other members are J. J. Koonsman, J. H. Jean and Ben Brooks.

Present information indicates that the county will be surveyed by airplane rather than by the usual measurements. The planes are being used in other major counties of the state. It is possible that each farmer will receive a blueprint of his farm, made from pictures taken from the airplanes. This work will probably be done in July or August.

# LOCAL CHURCH REVIVAL GETS **GOOD CROWDS**

Converted Railroad Man - Saloon Owner Leading Methodists in Daily Services.

A converted railroad man is leading Snyder Methodists in a revival that is declared by attendants to have been deeply spiritual and impressive from the beginning. "Fine crowds are coming," says the pastor, Rev. H. C. Gordon

Dr. George Tucker arrived Tuesday morning, and preached his first sermon at that time on "Soul Winning." E. H. Martin, song leader and young people's worker, arrived Sunday morning to begin his work. Rev. C. E. Jameson of Colorado preached until Dr. Tucker arrived.

General evangelist for the Methodist Church, South, since 1920, Dr. Tucker was converted in Jackson, Tennessee, in 1915, and began preaching at once. As a young man was a saloon owner in Chicago.

He came to Snyder from St. Joseph, Missouri, where he was held over through Sunday night for the climax of "a great revival" at the brought Scurry County's returns Marvin McMurray Methodist

The following sermon subjects will e used by the evangelist this week: Thursday night, "The Biggest Fool in Snyder;" Friday night, "A Nation That Forgot God;" Saturday night, "The Conversion of a Skinflint;" Sunday, 11:00 a. m., "an old-time red-hot Methodist sermon;" Sunday, 3:00 p. m., sermon for ladies only, The Modern Woman."

"The Sunday night subject will be the most vital subject before the world today," declares Dr. Tucker. It is "Was Christ Divine or Mere Man?" Services are held daily at Samson of Old Testament fame 10:00 a. m. and 8:15 p. m.

ounces. She and Mrs. Hays were moved home Tuesday from Snyder ver.

#### For Shame!

Chief N. W. Autry of the Snyder volunteer fire department did not travel several hundred miles for nothing last week. He returned from the state firemen's convention at Port Arthur with an extra pair of shoes and sever-

The Port Arthur citizen in whose home Autry, Emmitt Butts and Lovell Baze were roomers during the convention promptly wrote the chief that he needed his clothes. Autry, caught with the goods, was forced to return the purloined articles. (Or maybe the shoes didn't fit.)

Autry declares he is entirely innocent. Butts remained with a cousin and Baze visited an undertaking parlor the last night of the convention, and Autry packed their suitcases for them the next morning. His story is that he just picked up too many shoes and ties.

#### Payments on 28 Sewing Machines Made by Citizens

Snyder citizens, 28 of them, paid cash this week in order to keep the sewing room project in operation. Their liberality, expressed by making final payments of \$17.55 each on 28 sewing machines used by women and girls who are the chief support for 70 families, is making it possible for the WPA project to continue indefinitely under direction of Mrs. Sam O. Nations.

Mayor H. G. Towle and other city officials took the lead in retaining the sewing room. A committee composed of N. M. Harpole, Maurice Brownfield and Willard Jones solicited the payments. Each purchaser will own the machine he drew by lot, after the government project

Purchasers are as follows: W. H. Ware, J. D. Scott, Lee Colwell, C. M. Boren, H. P. Brown, Dr. Grady Shytles, Earl Louder, Fred Wilhelm Hugh Taylor & Company, Graham & Martin, W. J. Ely, N. M. Harpole, R. O. von Roeder, Stinson No. 1 John Keller, Boren & Grayum, R. J. Randals, Forest Sears, Mrs. Sam der Transfer Company, E. J. Anderson, Marcel Josephson, Dr. H. G. # District Highway Engineer Tells About New Terracing Program

## FRENCH CITES OLD AND NEW CONSTRUCTION

Editors' Note: The following article was delivered as a speech by W. A. French, superintendent of the State Highway Department in Division 8, at a terracing short course at A. & M. College recently. The article has a particular appeal for Scurry County because it includes discussion of the construction of Highway 101 near Snyder.

#### By W. A. FRENCH.

(Continued From Last Week) The critical engineer might say that there would be no surface tanks for stock water and there might be a time when there would be a rain greater than any known before. In order to offset this argument it is suggested that for every one or two thousand acres of drainage area storage tank be constructed withou a spillway, or if a farmer or ranch man has a small ravine or creek through his place, small storage tanks could be constructed without spillways and enough water diverted so that he will have stock water, but at the same time being careful not to givert too much which would cause the dams to break and cause floods and erosion below.

What would be done with the run off from ranches? All of the ranches in the drainage area should either be terraced or listed on contours The plowing of the level furrows will increase the grass production more than 100 per cent and increase the moisture content in the sub soil to a depth of from six to eight feet

The federal government is now aiding ranchmen in building of surface tanks. This will help prevent run off of excess water and could be so designed and constructed that there would be no run off. The run off from small pastures and ranches which are adjacent to and above farm lands could be controlled in several ways. If the surplus water is needed it could be evenly distributed over the land by a system of "syrup pan" terraces.

#### Construct Level Levee.

levee would be constructed between the farm land and pasture or ranch. The material for the levee could be obtained from a series of low places or borrow pits and hauled to proper location. These borrow pits would levees and basins could be so design- the maximum width of right of way,

# Stops Water Flow Through Bridges

This view is of a clay model of the terracing demonstration four miles west of Abilene on Highway 1. The entire drainage area is terraced with level terraces joined to highway, county

railroad embankment, eliminating soil erosion and conserving all the water falling in the area. The project stopped flow of water through five bridges.

## Level Terraces Near Big Spring

Work enacted in French's article includes level terraces on slopes of highway fills and cuts

to prevent soil erosion as in the picture above on Highway 1 five miles west of Big Spring.

#### Wider Right-of-Ways.

In 1927 the new highway commision adopted a policy of requiring the counties to secure not less than 100 feet of right of way. At this ime the design was again changed. Automobile traffic was increasing and a good deal of thought was given to a safe section. As the adjacent property was not terraced, it with Ruby Keeler, Ross Alexander, was necessary to carry the water the interurban electric lines says he Lee Dixon, Allen Jenkins, Louise which ran from the property to the highway, down the hill in a ditch. This ditch was designed with flat front and back slope with a rolling type of ditch.

The present design includes the love 'Carmen'. elimination of unnecessary ditches. The drainage area is studied. Material for high fills is hauled in from borrow pits removed from sight of the road. In the Panhandle on a starring James Dunn and Sally Eilars level section, miles of road were with Warren Hymer. Comedy and built and all of the material hauled routine question to their underin from hidden borrow pits.

> A new section of road in Scurry County was built across a farmer's field, which was terraced, by hauling the questions in triteness. But last in all of the material and not dis- year one University of Arizona co-ed turbing his terraces, and eliminating unexpectedly confided: "I came a structure which would have been required under the old method of construction. One entire drainage area near Abilene has been terraced and dogs?" to entirely prevent any run off of water. All private road, county road, railroad and highway ditches have

#### House Approves Bill That Would Assist Farmers

Action of the House of Represenatives last week in passing a bill providing for the continuation of the three and one-half per cent interest rate on Federal Land Bank oans is of particular interest to West Texas farmers. The measure provides that the three and one-half per cent rate shall be extended for one year, for a four per cent rate for the period July 1, 1938, to June 30, 1939, and for a four per cent in-

rate has been in effect for the past two years and the act establishing the reduction expires June 30, this year, unless the measure as passed by the House is approved by the Senate and signed by the president be- Social Security board field office,

Congressman George Mahon stated that the fact that the House passward farm legislation.

No estimate has been made as to mmissioner loans, but final approval of the three and one-half per cent interest provision in the interest charges during the next year. Congressman Mahon estimated that a saving of \$200,000 during the next year would be realized by Federal Land Bank borrowers of the 15th congressional district.

#### Social Security Question Box

Editors' Note: The Times is publishing a series of questions and answers concerning the federal old-age benefits provision of the Socity Security Act. Employers who wish to have further questions answered should write to the Social Security Board office, 1530 Allen Building, Dallas.

Question: .What should an emloyee do if he loses his Social Security account card? What should he do if he has been issued more than one account card?

Answer: If an employee loses his account card, he should report such loss to the postmaster, where his original application for an account card was made. He may later receive a duplicate SS-5 form, Application for Account Number. He should fill out this form, showing terest rate on land bank commison line 14 the place and date of his sioner loans for a period of two is returned to the postmaster, the worker shortly will receive a duplicate card.

If an employee receives two o more account cards, he should present, preferably in person, all account number cards issued to him to the local post office or to any either of which will designate the

#### Heavy Shortage Of Good Layers Seen by Expert

A heavy shortage of laying hens, with a corresponding increase in egg and poultry prices, is in prospect for the fall of 1937 and the early part of 1938, according to George P. McCarthy, assistant poultry husbandman of the Texas A. & M. Extension Service.

High feed costs and low prices for poultry products has resulted in the heaviest culling program in recent years. The unfavorable price picture has also resulted in a decline in the purchase of baby chicks. Commercial hatcheries have reported a 35 per cent decline in the sale of baby chicks.

With better egg prices in prospect, McCarthy urged that poultrymen give their pullets every chance to come into early production and to maintain production. "Poultry men who feed their pullets properly during the summer and give them every opportunity to develop will be well repaid during the fall and winter," he said.

Not much chance exists of any unforeseen increase in the number of laying hens before well into 1938. June and July chicks have never proved profitable and commercial hatcheries have suspended operations for the summer.

Inquiries in Scurry County indicate that fewer baby chicks were sold than usual and prospects are for fewer pullets next fall for layers.

The farm family with a well developed lot of pullets properly housed, fed and cared for will cash in on the higher priced eggs. Prospects are good for a big feed crop and chickens will help sell it to a good advantage.

throw aside all conventions and

have the time of his life-what with

Last year, after a week's breath-

taking stay there, I came away with

leaving one's own state!

American village

By Frances E. Jones, Fluvanna High School

Editors' Note: The following essay, written by Frances E. Jones, graduate of Fluvanna High School recently, (won a prize of \$2 in the contest recently conducted throughout Texas by the Greater Texas and Pan American Exposition, Dallas. The prize represents fourth place in the high school division of state district eight. The state was divided into 24 districts, with six winners in each.

Chief among my ambitions today is to make a trip this summer to the Greater Texas and Pan American Exposition in Dallas. And, while it is indeed going to be difficult for me to confine my reasons for this to a 500-word essay, I can at least outline the alluring highlights I know to be connected with this stupendous show.

It was my good fortune to visit the Texas Centennial Exposition last year, and I can only hope that Lady Luck will favor me with another such trip to this second and even more enticing exposition in the fairest of cities, Dallas. For, first off among the attractions the

#### NOBODY'S BUSINESS

By Julian Capers Jr.

Austin.-What effect the action of Con. Martin Dies, who obtained adoption by the national house of representatives of an amendment to the bill creating a new federal judgeship in the Houston district, that would require the appointee to be a resident of that district, upon the plans of Governor James V. Allred to obtain the appointment as federal judge, furnished grist for the political gossip mill here. If the bill | is finally passed by the senate with the Dies amendment in it, it would mean Allred, a resident of the Wichita Falls district, could not be appointed federal judge, and the whole elaborate plan, reported to have the secret approval of Senators Tom Connally, Morris Sheppard and Vice President Garner, would collapse. Friends of Allred here believe the Dies amendment will be taken out by the senate, under pressure from Garner and the two Texas senators. This will delay final passage of the bill, however, and keep the political situation in Texas in its present state of uncertainty and high tension for probably another four to

#### Dies Mad at Jimmy.

Dies offered and fought for the whizzing rides, the featured shows amendment because of his feud with smacking of Broadway, and a milthe Texas governor, growing out of lion other gay sports! the candidacy of Clyde Smith of Woodville, against Dies last summer. Smith, who startled the state an intense desire to return. And four years ago by making a very with the months that longing has creditable race for attorney general grown. I want to pass once more of wheat and cotton, and more reas an unknown was appointed assis- through the mammoth, arched en- cently by oil and gas fields, between tant secretary of state under the trance into that enticing rendezvous. the high plains and For Worth are Allred administration, and Dies I want to walk leisurely down the couraging him to run against Dies.

is particularly irksome to friends of Cavalcade, listen to the soothing mer Lieutenant Governor Walter Woodul, who are anxious to begin his cam- grounds, by means of 20 singing paign for attorney general, and can towers, and breathe again that air, ham and Throckmorton, where Forts not very well do so until they learn crisp with a Lone Star tang! whether he is going to serve a year as governor, as he would do if Allred resigns. Close friends of Woodul declare the latter would not seek no additional revenue, but cut off election as governor, even if he about \$450,000 a year, when it reserved out Allred's term, but would pealed race horse betting. The govrun for attorney general, leaving the ernor's vetoes eliminated more than gubernatorial field open to Col. Er- \$1,000,000 from the departmental nest Thompson and Attorney General Bill McCraw, now generally regarded as the chief contenders.

#### Press Freedom Curtailed.

Disregarding the plea of Texas newspaper publishers that the law was a direct attack upon the freedom of the press Governor Allred signed the bill prohibiting dentists from advertising last week-end. Allred at first indicated he would disapprove the bill, but it had the strong support of Secretary of State Edward Clark, whose recommendation to Allred apparently carried more weight than that of the press of Texas.

An interesting bit of gossip concerning the bill circulated in Austin was to the effect that it was lobbied through the Legislature by Ex-Senator Carl Hardin of Stephenville on a contingent fee paid by the "ethical" dentists' organization. If the governor had not signed the bill, Hardin, according to the story, would have been paid nothing for his four months' work getting it through the Legislature. Certain large city daily newspapers are expected to support a legal test of the constitutionality of the act.

#### State Finances.

Some idea of the task confronting the legislature may be drawn from the final appropriation figures, after Governor Allred had vetoed certain items and approved the big appropriation bills for the biennium. The total of the appropriations is \$74,-569,803, to run the government for the next two years, and increase of more than \$10,000,000 over 1935-36. The state general fund deficit is about \$10,000,000 and will likely reach \$20,000,000 at the end of the year, which is the low point for tax

#### How to Make Your Home Life Happier

Don't nag. Don't try to make your partner

Don't criticize. Give honest appreciation. Pay little attentions. Read a book on marriage.

These are the seven rules for naking your home life happier ointed out by Dale Carnegie, auther of today's best seller, "How to Win Friends and Influence People.' "It is an astonishing and alarm-

ing fact that one marriage out of every six in the United States ends in divorce," said Carnegie, "and if that number are actually wrecked in the divorce courts think of the number that must be unhappy but don't end in divorce because of chiliren, religion or economic reasons "My advice to a wife seeking

reater happiness is to first ask herelf why her husband married her. She'll find that it wasn't because he expected her to nag or criticize him. We have many famous women in history who ruined their happiness by nagging. "Mrs. Abraham Lincoln tried it

and failed. She was always complaining, always criticizing her husband; nothing was ever right. She complained that there was no spring to his step, that he was stoopuldered. She didn't like the way his huge ears stood out at right angles from his head.

"Mrs. Lincoln't jealousy was so oolish, so fierce, so incredible, that merely to read about some of the disgraceful scenes she created in public makes one gasp with aston-All this nagging only made Lincoln regret his marriage

DALE CARNEGIE

and it made him avoid her pres ence as much as possible. "Marie Eugenie, the Countess of beautiful woman in the world. Na- average was California, with 21.3 poleon III of France, nephew of Napoleon Bonaparte, married her. They had health, wealth and pow er, fame, beauty, love, all the re-

quirements for a perfect romance "Napoleon could make Eugenie an empress, but neither the powe of his love nor the might of his throne could keep her from nag ging. The wife of Count Leo Tolsto was another to discover the dead! poison of nagging when it was too late," added the famous author.

A pleasing disposition is more cor vincing than argument. Stay away from the doctor wl

# I WILL OIL-PLATE YOUR ENGINE

And even quicker I can plainly state how it saves your oil and your engine to change to Oil-Plating. After I put in Conoco Germ Processed oil, which is the only oil that forms Oil-Plating, let's say you run a bit and then want to park-a few minutes or maybe hours. But every drop of Germ Processed oil will not drain back down into your crankcase like an everyday oil. Instead of that, a definite amount of this oil is always left closely plated all over the pistons, cylinders, bearings and other parts, from the bottom clear to the top of your engine. You'd say that the oil is united for good, to every working surface. I don't know of anything that will make Oil-Plating let go, no matter if you want to stop and start at every doorway, or make 500 miles a day across the mountains. Staying in place and not just splashing on and off, Oil-Plating can't leave the usual openings for friction and wear. Your smooth, quiet, cool-running engine will certainly make you notice that, and of course, your own eyes will see Conoco Germ Processed oil staying up around full.

## A New Philosophy.

A new philosophy of foreign trade-a philosophy that has a direct effect on Scurry County-is featured in the current issue of The Texas Weekly. "The real trouble is," summarizes this Dallas journal, "that Americans do not buy enough goods from abroad."

We call it a new philosophy because it seems to so completely unknown to the president of the United States, to Congress, to Texas newspapers and to the general public of the South. But Peter Molyneaux, Texas Weekly publisher, has been piledriving the idea through his columns for several years. His constant hammering, his lucid presentation of a vital issue, and his fact-ribbed arguments, have made him the chief Moses crying in a wilderness of confusion against the "Buy American" movement.

When William Randolph Hearst, the journalistic Bluebeard, tried a few years ago to sell America on the "Buy American" movement, the folly of his scheme disgusted sober Americans, and his scheme collapsed. (Hearst is reputed to have furnished his California castle with almost wholly European furniture.)

Excerpts from the Molyneaux article, typical of the logical and factual approach that characterizes this mention the dividend returns down the years. . Uncle Sam's attitude toward foreign trade:

"Cotton exports from Texas ports continue to show a marked decline, according to figures released West Texas. during the past week. Cotton exports for the ten months of the cotton year (August 1 to May 31) from the ports of Houston, Galveston, Port Arthur and approval, the federal government would have matched Texas City amounted to only 2,661,000 bales, as com- our state appropriation of \$750,000, with Mexico matchpared with 3,088,000 bales for the corresponding period ing our park acreage across the Rio Grande. . . . It a year ago. . . . Whereas foreign countries are conless of American cotton. . . .

for the situation. Even democratic congressmen from knowledge with state parks board directors. cotton-producing states do not seem very much concerned about it. They seem perfectly content with the so-called 'soil conservation' program by which the production of American cotton is bing 'adjusted' to the declining foreign markets, pending the time when a 'friendly' Supreme Court will make a restoration of the AAA possible

"Some day the cotton South will wake up to the fact that American policies are progressively closing the markets of the world to American cotton. But then it may be too late. .

"There is no market in the United States for Texas cotton. Practically all of it must be sold abroad. How could foreign customers pay for Texas cotton if Americans refused to buy any foreign goods? The answer to that, of course, is that they can't. And certainly that should be clearly understood in Texas, since we have so much cotton that, if sold at all, must be sold

#### Soil-Conserving Crops.

Extension Service Farm News: "Acreage of soilconserving crops in the southern region in 1936 was the largest on record, according to the first official report of the AAA conservation program in the South. A total of approximately 21,500,000 in nine states, including Texas, were planted to soil-conserving crops by producers participating last year in the government program. This is an increase of approximately 800 per cent over 1929."

#### Imagination, Maybe.

Perhaps it's his imagination, but Pessimism Pete has a half notion that the "Traffic Lane" conducted here recently has increased the courtesy, carefulness and runnability of Scurry County cars and drivers. Now, if local officers will stick a few fines on local drivers who continue to flaunt all the rules of traffic and driving decency, the situation would indeed be attractive.

#### The Fight Goes On.

The Canyon News: "The fight among Democrats in Congress goes on at a merry clip. The result will stand. When they resume their seats, let him resume. probably be defeat of the party in 1940. While most If he doesn't wish to follow the rules, let him stay outmembers of the party were highly elated at the sweep- side and talk hoss with his curbstone cronies. It's no ing victory last week, leaders were distressed that so use for him to say he is so tired from standing up all few Republicans were left in Congress. An overwhelming democratic majority in Congress cannot be hand- By offering that excuse he adds duplicity to disrespect.

#### Against the Grain.

Lufkin News: "Efforts of Mr. Roosevelt to fix up the Supreme Court more to his liking is not completely without precedent. Men in more obscure walks of life have long pestered police court judges to tear up traffic tickets.'

had a cash income of \$120 a year, or less. This equals of action should not be taken into the church. We almost one-third of all the tenant farmers in Texas, are saying this for the benefit of those Snyderites who and recent drouth years have without doubt increased | think they are at liberty to differ with the congrethe proportion.

A San Diego man is exhibiting a string, originally 14 miles long, in which he has tied 1,000,000 knots in Double the number of the page and multiply by 346,521. his spare time. Silly, isn't it; yet he has a string with Add 5. And if this is all you have to do, you would a million knots in it to show for his spare time—and be far better off taking a nap.—Weekly News (Auckwhat have you?-Washington Post.

Current Comment.

West Texas Press Association

By LEON GUINN.

When Governor Allred's veto ax swung down on the Big Bend Park project Tuesday, Austinites were its use of electric current that it astonished at "Dandy Jimmie Boy," for only three can make ice for less than prevailing onths ago Allred had given the project a "whoop it prices. up boys" approval. . . . Project sponsors didn't have to look very much for the reason, for the boys close its small current consumption, is to the governor revealed Jimmie did the blue pencil plenty powerful is demonstrated by ushing not so much in a fit of economy as in a fit the fact that this large cube of ice of revenge (due to the fact the Legislature didn't pass | cannot even start to melt because ome of his pet tax proposals).

This writer recently skirted the boundary of the Big Bend project, and found the people of Fort Stockton, Fort Davis, Alpine, Marfa, Presidio, Terlingua and other cities vitally interested in the proposed park, and for it 100 per cent. . . . Jimmie just hasn't got the haze of purple distances in his eyes, nor does he seem to grasp the magnitude of this haven of wildwoods in the majestic Chisos Mountains. . He seems to overlook (or ignore) the immediate returns to so big Texas if the project be completed, not to Texas Moses, shed new light on the seriousness of Allred's pencil pushing tactics has placed Pat M. Neif and members of our state parks board on the spot, in a move that bodes bad news for new state parks in

If the Big Bend Park project had received Allred's

was the state's only chance to create an international suming about four million bales more of cotton this park and game reserve, at a cost Texas could afford year than their average consumption prior to the de- to pay. . . . Washington declines to state how much pression, they are consuming about three million bales | the U. S. park service had carmarked for the project but reliable sources indicate the U.S. park service "There is every reason to expect the production | had in mind around a \$500,000 program for a complete of foreign cotton, which has increased from less than system of park roads and trails, with more funds as 12,000,000 bales in 1928 to more than 17,000,000 bales needed . . . Allred claims he didn't know how much this year, to continue to expand. We say this, because the federal government planned to spend on the Big we see no reason to expect the American government Bend Park, but taxpayers think he might go to the to change the policies which are chiefly responsible trouble of finding out, since the amount was common

Allred's veto is more significant, when one con-

siders the dwindling relief funds reaching Texas. . WPA Papa Harry Hopkins swears the WPA payroll in Texas will decrease, as will PWA disbursements in has the backing of our Texas Agri- June 1, published at Brownwood the future (Hopkins pulls plenty of strings unofficially with PWA), and other relief agencies face unfilled payroll cupboards. . . . Since the impression is that farmer organizations. In fact, the of the bill from almost any of our Texas will not need relief funds for park projects, bill was worked out and drafted by farm papers. Texas may not get what allocations there are left in the group of farm leaders of several Of course, by far the best thing other agencies for relief work this winter. . . . The farm organizations called together to do is to join the Texas Agriculrelief bloc, who go to yelling for more funds about for that purpose by Secretary Wal- tural Association in their county frost killing time, will do well to keep this delicate lace. situation in mind.

Had the Big Bend project gone through, Scurry County stood a good chance to get her park project through by September 15, for our parks board would have been in a position to order plenty of push ahead. principle and thereby will prevent rights! . Texas has lost the park project of a century in scarcity of farm products as well the Big Bend country (temporarily), and defenders as huge surpluses of same. It is Knapp, June 8. of the plea Texas didn't have the \$750,000 to spare of vital concern to the consumer will recall Allred turned right around and signed the as well as the producer of farm bill to increase school appropriations by \$5,000,000 for products. th next fiscal year. . . . Texas couldn't possibly have raked up \$750,000 for the Big Bend Park, but can and wheat supplies would tend to rake up \$5,000,000 for educational expenditures. . . . If the situation had been reversed, the state no doubt and the consumer need not fear could have raised a paltry \$5,000,000 for a state park.

. Can it be that Jimmie Allred, with all good wishes to him, is falling heir to the emoluments and emollients of office, notally pencil pushing yens?

#### Church and Visitor.

State Press in Dallas News.

The Scurry County Times (Snyder): Pessimism Pete wonders what kind of religion a man has when he stands around on the streets jawing with his cronies during the week, then remains seated at church while others are standing for

Pessimism Pete should understand what sort of religion that man has. He hasn't any religion. Nor has he any too much politeness. When in Rome, do as Mussolini does. When in church, do as the other churchmen do. When they stand up, let the visitor week that he can't stand a minute or two on Sunday. It is all right to hold converse with whomsoever will converse on the street, and all right to gild the lily in pavement conversation. That is not the point.

Ours is a democratic country and Americans are still allowed to express their opinions, convictions, suspicions at will. The street corner is the best place for exhibiting free speech, and any American is within his rights when he announces full confidence in Buck Jones or flatly asserts his belief that Buck Jones is a tool of the interests, perhaps a tory or an economic royalist. Al fresco averments come under the head More than 90,000 families on Texas farms in 1930 of constitutional privilege, but freedom of speech and

#### World's Largest Ice Cube Shown By King & Brown

The largest single ice cube ever made by a standard household electric refrigerator is now on display at King & Brown, authorized dealers for Frigidaire. This ice cube s so large that it would easily fill the entire ice compartment of the average ice box. It weighs more than 75 pounds.

Porter King and Earl Brown returned Friday night from an allday Frigidaire meeting at Dallas, in which the midsummer slogan, "Frigidaire makes ice cheaper than you can buy it," was stressed.

"We made this large ice cube as a part of a demonstration here proving that with a Frigidaire, usin a meter-miser, ice in bulk actually could be made for less money that it could be purchased for on the narket," said King & Brown.

"Naturally, Frigidaires are no poled by the ice they make, nor do we suggest that making ice with Frigidaire is the way to cool an ice box, but we are prepared to show that even that job can be done more economically with a meter-miser, so far as actual dollars and cents are concerned. This is possible because

"That the meter-miser, even with it is connected to the Frigidaire freezer. And when a cake of ice nside a refrigeraor cannot melt, that proves the refrigerator is colder than any standard household ice

You can always do without what

you can't get.

The Bachelor . . . he loves to GO With lots of power and pep . . . and so His car takes second place to none . . . Stock car performer Number One!

Step on this accelerator... and meet a new driving thrill. You're boss of power that's No. 1 in the low and moderate price fields. And smoothest power, too! You're driving a running mate of the cars that broke 40 official American Automobile Association records out on the Utah Salt Flats . . . in the most punishing stock car test of all time. Cars that also have *certified* acceleration marks of 0 to 50 m. p. h. in 9.4 seconds for Hudson and 10.4 seconds for Terraplane! Cars that can take any hill on any main traveled highway in America in high gear. Take the wheel yourself and see!

# Eight Guests on Display at Lions Session Tuesday

Eight guests were presented at the regular Lions Club meeting Tuesday at noon. They were: Mrs. A. C. Preuitt, Snyder; Dr. George Tucker, Memphis, Tennessee; E. H. Martin, Texas singer; A. B. Anderson, Brewster County; J. H. Jean, C. M. Wellborn, J. J. Koonsman and Ben Brooks, Scurry County

President-Elect A. C. Preuitt preided in the absence of President Frank Farmer.

Martin was presented in a vocal solo, with Mrs. Preuitt accompanying. Dr. Tucker brought a humorous message and invited the Lions to attend revival services in which he and Martin have leading roles at the First Methodist Church this week and next week.

Jean, Wellborn, Koonsman and Brooks are members of the county soil and range conservation com-
