OKLAHOMANIN **PULPIT DURING** REVIVAL HERE

Church of Christ Gospel Meetings Held on Church Property, Starting Sunday.

An open air meeting will be held by the Church of Christ, beginning Sunday, instead of the meeting in the city tabernacle that was originally planned, Minister J. Porter Sanders said yesterday.

In the pulpit for the 10 days of gospel services will be Evangelist Robert R. Price of Clinton, Oklahoma, who conducted a series of services here last September.

Pleasant Crenshaw of Sweetwater will have charge of congregational

property near the church building. "It is felt that an open air meeting will be much more pleasant and comfortable during the hot summer nights," the local church leader de-

Church members and guests will enjoy a basket picnic on the church grounds Sunday immediately after the morning preaching service.

Day services will be held in the building at 10:00 o'clock each morning. Night services will be held outloors beginning at 8:30 o'clock.

"The people of Snyder and Scurry County are extended a cordial invitation to attend these meetings,' says the minister. "Just take a 10day vacation-come out and enjoy

Snyder Sending "Goddess" To Be In Beauty Revue

Petite Wynona Keller, daughter Mr. and Mrs. John Keller, will epresent Snyder in the "Goddess of West Texas" beauty revue at Sweetwater Saturday and Sunday, it was announced early this week by cretary J. W. Scott of the Cham ber of Commerce.

More than 20 of West Texas' loveliest girls will compete during the fifth division American Legion convention for an all-expense trip to both the Dallas and Fort Worth American Exposition.

Attorney General William McCraw will be principal speaker for the agents and other public mouthpieces two-day convention. His address in all directions from Scurry County will be given in the municipal au- warned of a giant horde of grassditorium at 2:00 o'clock Sunday

Following the "Goddess" beauty revue Saturday night, a dance is to stered legionnaires and their ladics. Blue Bonnet Hotel.

General Chairman of the convention committee is George D. Barber, manager of the Sweetwater Board of City Development.

To Lions at Hamlin

Snyder won two honors at the Lions Club zone meeting at Hamlin Tuesday night. She was selected as the next site for the session, about October 1, and her retiring president Frank Farmer, was named as zone chairman for the fiscal year beginning July 1.

Most of Pick-Up Cattle, sheep and wheat during the past six months have hoisted Scurry County bank deposits to their nighest peak in at least seven years. Statement of Snyder National Bank for June 30, in comparison with statements for the three banks

Cattle, Wool and

Wheat Providing

show the 1937 deposits to have a considerable edge-\$1,152,279.95 against \$1,008.403.71. Total deposits during a part of 1930 were slightly higher for the four county banks than for the single bank that is here now. Total leposits exactly 10 years ago, in 1927, were \$1,315,140.72 in the five banks of the county, less than \$200,-000 more than total deposits for

in the county December 30, 1931,

June, 1937, in the one bank.

Total resources are also up. They are more than \$200,000 above the totals of any recent statement. They have jumped from \$1,009,945.76 in March, 1937, to \$1,282,079.00. At only one other time since 1931 have total resources passed the million mark. That was december, 1935, when the figure was \$1,047,607.77.

Although the accurate figures are not available, it is probable that both total deposits and total resources are higher for the June statement of the one bank now in Scurry County than they were for all banks combined any time since 1929.

Loans and discounts have shown mly slight variation. In December, 1936, they were \$273,630.34; in June, 1937, \$270,665.42. Highest total in recent years was June, 1935, when the figure was \$303,832,85.

The following tables reveal the shifts in total bank deposits, loans and discounts, and resources as shown by the official statements:

	Total	Deposits.	
June, 1935		\$	687,159.23
December,	1935		872,949.10
June, 1936		and a service of the service of	812,585.03

County's Retail Trade Progress Seen in Figures

Not that the figures mean much in 1937, but Uncle Sam's census bureau has just released statistics showing that 93 Scurry County stores reporting gross incomes for 1934 and 1935 revealed a substantial gain.

The gain was from \$1,432,000 in 1934 to \$1,643,000 in 1935. Scurry County retail firms covered by the business census of 1936 totaled 131, but only 93 of these reported for both 1934 and 1935.

In addition to disregarding firms which dropped out of business from one year to the next, and new firms which sprung up in the later year, these figures eliminate the errors which frequently arise through change in classification of businesses from one census to the next the bureau explains.

Food stores, with 20 reporting, had a sales boost from \$436,000 to \$489,-000. Five general merchandise stores reported \$164,000 in sales for 1934, and \$168,000 for 1935. In the apparel group, including tailors, three stores had an increase from \$50,000 to \$63,-000. Automotive group sales jumped from \$145,000 to \$194,000.

Cotton Classing Schools Seek to Improve Quality

With the avowed purpose of imroving the quality of Texas cotton, hree cotton classing schools will be August under the supervision of the textile department of Texas Technological College. The courses will last two weeks and are scheduled as follows: Texas Tech, Lubbock, July 19 to 30; Abilene, August 2 to 13; Quanah, August 16 to 27.

According to M. E. Heard, head of the Tech textile department, director of the three schools in West quality of Texas cotton is the main many ginners are buying cotton direct from the farmers, and are paying one price for all grades of cot-

By attending these cotton schools and learning to grade cotton according to 'government standards, ginners will be able to pay a premium for the better grades of cotton, thereby encouraging the farmers to grow better grades. Poor grades will be penalized. Under the present plan, according to Heard, there is no stimulus for the farmers to improve the grade of their cotton.

While cotton men and various others will enroll in these courses, the ginners in West Texas are specially urged to attend. Leaverne Lackey of the U.S. department of agriculture, will again assist in the Tech Work is progressing very nicely school. H. Fehleison and C. F. Ardath Does Not Find Much Time For "Scribbling"

Ardath Head, one of Snyder's two representatives at the national Boy Scout Jamberee in Washington, D. C., has not been finding much time in which to scribble off cards to his mother, Mrs. Pearl D. Head.

But his brief cards tell a story of scout who is making good among almost 30,000 other scouts . . . a scout who is cramming months of experience into a few days.

"We went to Washington Monument last night," he wrote just after arriving in the capital city. "It took us about 30 minutes to climb it. The skylight at night, with the top of the capitol and the monument alight, is beautiful beyond descrip-

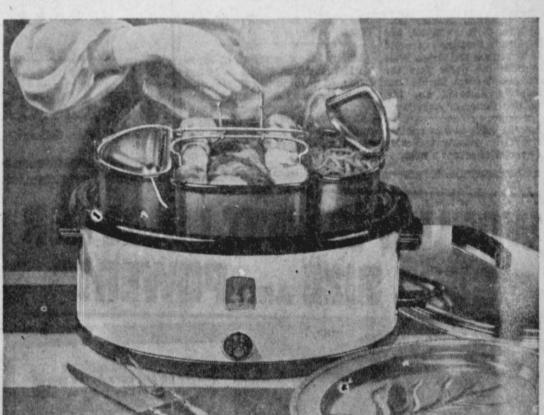

Another card said: "I went into the capitol today. Boy, it is pretty! The government buildings are immense, almost too large for the eyes to take in. I am sore from climbing up the Washington Monument and running all the way back down. I went aboard a river steamer today. We have the best camp so far."

Ardath wrote Thursday: "We went to the scout reception last night at the big arena, which is at the foot of Washington Monument. There were 29,281 scouts there from every state. I was a flag bearer. I met and shook hands with the head of the department of printing and engraving.'

ELECTRICITY BRINGS YOU

Cool Cookery with an **Automatic Electric** Roaster

· Preparing hot meals in the summer is a problem that can be solved simply and easily with a modern electric cooker, which automatically maintains the proper temperatures and cooks an entire meal without watching. You can start the :ooker and leave home, know-

ing that when you return dinner will be ready. See these electric cookers at our store, at electrical dealers, and at department and furniture stores that sell electric appliances.

Here is a meal of roast, carrots and potatoes, cooked without watching in an electric cooker. Many other combination meals may be cooked at one time in these time-saving and laborsaving electric appliances that will roass, bake, broil, stew—all without heating up the hitchen.

And it costs only a few pennies for electricity

TEXAS ELECTRIC SERVICE COMPANY

Wheat Proves to Be Miracle Crop For West Texas

Wheat this year proved the saying frequently made of it that it is a miracle crop, says the Santa Fe agricultural report for July 1. About June 1, continues the report, the crop was hardly worth trying to save. Then came soaking rains, and now the Lone Star state's wheat area, mainly in the Panhandle and the South Plains, seems to be good for 40,000,000 bushels.

The cotton acreage in Texas prob ably is slightly under that of 1936; condition from fair to good. In sects are bothering. In parts of the west, damage was caused by early cold, wet weather. Chopping to average stands practically is com-

about a quarter of a cent a mile.

Darn Tootin'

anywhere except into trouble. Too many motorists expect an automobile horn to work mir-

acles. They forget is was made for only one purpose: A horn should warn. There is nothing quite so irri-

tating as a horn-tooting motorist, with the possible exception of a mosquito in a sleeping porch. Both merit the same consideration.

An ancient Chinese philosopher said: "The big voice betokens the small mind." Five thousand years have not altered this truth, although it is expressed on our highways today with less grace and more profanity.

Impatient motorists should remember that a devil is recognized by his horns.

So, button, button, lay off the

Death Comes to J. R. Wills, 74, Pioneer of Area

Death came Friday morning in local hospital to J. R. Wills, 74, esident of this area for 37 years. Last rites were said Friday afternoon by J. Porter Sanders of Snyier, and burial was in the Fluvanna emetery, under direction of Maples Funeral Home.

Mr. Wills had been ill for four years. During the past year he had nade three trips to a Dallas hospital. He had been returned from here to a Snyder hospital several days before his death.

Born in Bell County, where he was reared, Mr. Wills moved to Snyder in 1900. He moved to the Fluvanna community, edge of Borden County, five years later, where he purchased a farm.

Surviving are his wife, a son, R. Wills of Fluvanna; three daughters, Mrs. C. E. Rea of Hereford, Mrs. John M. Austin of Memphis and Eunice Wills of Austin; two brothers, Oliver Wills of Fluvanna and John C. Wills of Killeen; and a sister, Mrs. Jones Miller of Ozona.

Pallbearers were G. W. Noel, Mert Noel, Horace Carmichael, J. F. Dowdy, B. O. Stavely and Raymond Daugherty. Flowers were in charge of Esma Carmichael, Jerry Haynes, Frances Stavely and Frances E.

WHEAT LOANS **NOW OFFERED**

Wheat loans for 1937 through the emergency crop loan office of the Farm Credit Administration are available, Ed F. Jay, field supervisor for the crop loan office of this district, announced Friday.

Applications will be taken daily in the emergency crop loan office in the courthouse by Armor Mc Farland. Loans are for summer fallowing and buying of seed for fal planting, and will range from \$20

Payment will be due in August 1938, and four per cent interest will be charged. Security will consist of a first mortgage on the wheat crop.

NOBODY'S BUSINESS

By Julian Capers Jr.

Austin.-Cumulative evidence that the end of the depression may be written in Texas this fall has been piling up here for weeks. This time the return of better times is based not upon stock market activity, bank clearings and other technical factors which may or may not be accurate but upon steadily improving conditions in the two basic industries of Texas, which every Texan knows and can read, namely, agriculture

The state has just harvested its best grain crop in 10 years-which brought about \$42,000,000 cash revenue on a favorable market. The wheat harvest was well distributed throughout the grain area of North and West Texas, with all sections harvesting a better - than - norma crop except a small section of the Panhandle which lacked sufficient moisture. In some West Texas sections, the harvest ran as high as 50 bushels to the acre, on land which can be bought for substantially less

The corn crop is virtually made already, assuring a successful harvest regardless of weather from now on. South Texas is ginning a bountiful cotton crop already, and the cotton is off to a fine beginning in North, Central and West Texas. Wool and mohair crops have been heavy, with the most favorable market prices in years. Specialized crops, including fruits, vegetables, melons, etc., have been plentiful with fair market

Oil, affecting more than half the counties of Texas, is selling at the highest price in years, with the technical position of the market excellent and evidence of further increases in the price of crude in sight, with demand heavy and storage light.

Tax Problem Acute.

But business generally in Texas is most fearful of what the polititember, when the 4th legislature will again meet in special session to impose increased taxes. Business. struggling upward from the depths, contends that heavy new taxes will strangle its comeback now. But the claim that rail wages are much highpoliticians point to the 10 million er than average in industry, and the dollar state deficit, and the elections fact that a 10 per cent wage cut, next year, as practical justification imposed during the worst of the defor the unending cry for more tax money to spend. Another 5,000 old age pensioners were quietly lopped that to restore their lost volume

Small Towns Reviving.

upon this improved outlook for the the outcome of the wager problem. farmers. Small town merchants are stocking their stores, resuming and increasing their advertising. Trades days are being revived in towns where no such activity has been carried on in years. County newspapers are increasing their size, and many are buying equipment, to handle increased advertising volume.

More than half of Texas' population is agricultural, and when the farmers prosper, that prosperity seeps into every business and counting house in the land. Conversely without rural prosperity, there can be no real prosperity in Texas. It has been a long and bitter struggle, but it looks like the end is in sight.

Prosperity Threats.

But two menaces are visible to cer- by motor car dealers. tain revival of business this fall in Texas. One is labor troubles, which have paralyzed some industries in the eastern cities, and which have caused some sporadic trouble in certain Texas metropolitan areas. Only two industrial developments-oil and transportation-employ sufficient industrial labor to be seriously threatened by labor trouble. The oil industry, by timely wage increases and tactful handling of its employees has so far avoided difficulty. The big four railroad brotherhoods have demanded a 20 per cent wage increase, retroactive to May 1, on s national scale. In Texas, this means an increase of \$3,200,000 annually, affecting 9,000 employees of the

Gas Tax Collections Up.

Responding to corrective legislation, enabling the comptroller to do a better job of collecting, and with consumption increasing substantially, gasoline tax collections have stepped up substantially. Comptroller Shepherd estimates \$4,500,000 increase for the year over last year, which will give about \$2,000,000 net additional to the highway department, for state projects, and the same amount to the schools and the county bond retirement fund, equally divided. The increase in gas consumption is further evidence of returning prosperity, as is the difficulty of obtaining quick delivery in some models of motor cars, reported | South Side Sq. — Snyder

KNOW TEXAS By F. L. McDonald, Texas State College for Women, Denton

When East Texas is mentioned the magic word "oil" blots out all Carnes and Mrs. Sears Cook. lesser ideas associated with the country. But no matter how much the tourist has heard about the vast-Winfrey Giddens, and Ruth Hearrell ness of the East Texas oil field, it will surpass all expectations.

Around Henderson, Gladewater, Tyler and other cities in the heart of the field the derricks are so thickly planted that they appear like a forest. At night this section is like a mammoth, gayly lighted carnival. All the picturesque characteristics of a country on the boom are visible, from the thronging population and the shiny new houses and stores to the hundred of by-product industries that follow any kind of discovered wealth. The traveler with a sociological turn of mind can view first hand what happens to a town like Longview, for instance, when its population shoots up from 5,000 to 25,000 over a short period of time.

The oil country has other boasts to make, however, and in Tyler one sees the beds which furnish nearly half the nation's supply of roses. Festivals take the spotlight at Jacksonville, where the early summer visitor can view celebrations in honor of King and Queen Tomato.

History comes into the picture at Nacogdoches, where the Old Stone Fort is located, and down near Livingston the "Alabama-Conshatti Indian reservation provides interest Both of Sam Houston's homes are open for inspection at Huntsville.

A trip down into the southeas corner of the state places one in the midst of the greatest petroleum refining community in the world; and if the visitor is weary of seeing oil wells and refineries, the gulf is nearby and various resorts are sprinkled heavily along the coast.

Diphtheria Deaths Reduced. San Antonio has reduced its num-

ber of deaths from diphtheria almost 50 per cent since 1935, accordto the Texas Planning Board's public health committee which reports that only 13 persons succumbed from diphtheria in San Antonio in 1936, as compared to 23 persons week-end with relatives here. in 1935.

Three Times More Grapefruit. A grapefruit crop of more than three times that of 1936 was forecast for Texas in a report received of the Walker family which was by the Texas Planning Board from held at the Albert Martin home. the U.S. Department of Agriculture. The report estimates the 1936-37 day for a few days stay. He has crop will run to 9,200,000 boxes, as been in Lubbock at the bedside of compared with 2,741,000 boxes last his wife.

Are You Listenin'?

Once upon a time, when crops were good, prices were high, and business was larrupin', all anyone had to alick his heels together and yell two or three times.

But it's different now. We've seen so many crops few years ago has been knocked out by these seasons of stark terror.

Nay, not so! We have the same progressive stuff in our natures. All it needs is awakening. We need a firecracker put under us. We need a Moses to lead us out of the wilderness of do-nothingness.

Who shall it be? Well, in the old days it was the Chamber of Commerce that took the lead hand. If this organization can't or won't get the job done now. let's form a Scurry County Fair Association. Let's get ready for big doings this fall!

The Times, maybe, is just about to go daffy over this idea of having a fair in the fall. But doesn't it make your spirit burn to see Kent County, Garza County, Mitchell County, Nolan County and almost all other nearby counties with their plans already underway for a bigger and better fall fair?

Are you still listenin'? Too bad. Just when we thought you were beginning to get interested!

Just Wondering.

Practically every outside evangelist who comes to Snyder goes out of his way to compliment this for the space given their churches' activities.

Why? The publishers are inclined to believe the fact has more than passing significance. It indicates, for one thing, that most church leaders are truly grateful for any type of public support. It indicates, too, that many newspapers do not cater to church news except in routine fashion.

agencies to carry its message. After all, newspaper | Cracks: Sub

When you have this background, and when the barrasses" the highly ballyhooed Red army. leaders bring messages that are rooted in deep, consecrated study, newspaper publicity, radio publicity, placards, circulars and other methods of advertising

The Times shall continue to devote a large amount merely supplementary to the great mass of men and women who worship in faith and live their religion

Another T. B. Legend.

Not many moons ago, in the burrough of Abilene, resided a political ramrod whose campaign sins were legion.

When he strode onto a stump or a soapbox to consider an opponent, lo, the very sparks of hades dripped from his words.

votes; they complained not, neither did they sue.

the leers of the populace in his region, even his own

neighbors who had tired of his string bowties, could tied down with an oral obligation to Lewis and his cation-two blocks north of the no longer be visualized.

And the pangs of defeat gnawed deep; so he went forth to sue.

His wrath first touched members of the fourth estate within his former reservation, for they had failed to tickle his palate; next, a great newspaper is getting in the headlines as the most ruthless public dirty capitalist!" wails The Literary in ye Pan American city, for they had looked over enemy of the day! . . . With all his machine gunning, skyscrapers and tramways at his foibles.

Now that the political ramrod has gone forth to sue, he hath proven himself neither a Hottentot nor a hot potato, but a . . . pardon us, please, for we don't give a sou about being sued.

Cotton Question.

Dr. A. B. Cox, director of the Bureau of Business serve some consideration? Shall we wait until another inson, "flowed quite gayly." . . . Doubtless so. emergency is upon us before we make a serious effort to get world data upon which to build a policy?"

Why Hurry?

"This splendid subway enables our people to save eleven minutes in going from one city to another," appreciates each and every kind word. . . . While this the proud mayor of a large eastern city told a Chinese | column caters to no particular group, it is always glad philosopher and statesman not long ago. The phi- to get letters from women readers, yea even old maids losopher nodded his head gravely and inquired: "And | . . . Some of Scurry County's maids, who live on the what do you people do with the eleven minutes you crumbs of golden yesterdays, have a philosophy of life save?" And this is what we call an editorial within that is simply beautiful, and the beautiful in philoso an editorial.

Current Comment.

By LEON GUINN.

Joseph Stalin, whom Lenin called the "man of to do to get interest arc sed in a fair or a rodeo was steel," last week looked in the gray distance, and saw his coveted five year plan crumbling to ashes. . In a moment of bitterness he lost his head, and hell fizzle out and so many hopes blasted, that we shy broke loose in the land of the Soviets. . . . A total of away from any suggestion of undue progress like a 28 Far Eastern Republic officials had already been calf from a new gate. Is it possible that a lot of the "dispatched," Stalin deciding more should bite the stuff of which an up-and-at-'em Snyder was made a dust; which started the world's most dreaded reign

> Rubbed out in the purge was Michael Tukhachevsky, who had built up the Soviet war machine to the greatest standing army in the world (a total of 2,000,000 men). . . . Stalin found Tukhachevsky guilty of undercover work with a "foreign power" (presumably Germany), and didn't care one ruble's worth, that under the No. 2 army head, Russia's red star had blazed in its brightest glory across the military horizon.

Such generals as K. V. Putna, R. P. Eidermann (who created the 6,000,000 member civil reserve corps), and Iona Yakir (hero of the Ukraine) were also "dispatched." . . . Rounded up were: President G. M. Krutoff of the Far Eastern Republic, M. J. Kalmanovich ("giving cattle cholera virus"), and other lesser official planets.

Stalin's reign of terror touched every windswept steppe in Russia, and the world got a glimpse of what dictatorship in its most godless form can be. . . Censored: The number killed in the Kremlin's sound proof execution room (used chiefly by the dreaded ice, led by Warren Williams of Bu-OGPU, or secret police). . . . Cold, unreasoning fear paper for its support of religious activities. Local is in every Russian's heart today, and for a very good ministers, too, have been kind enough to extend thanks reason. . . . The poorest peasant's life isn't too safe, o'clock. and as for the officials who have talked, well-one doesn't like to be reminded of Russians shot in the throat, and flapping their arms, like wings, in the wind because they can't breathe.

manded that all "saboteurs" be weeded out of the ed with a sermon by Rev. N. W. Trinity University is the only college be spread on the church grounds. But it probably indicates something deeper-that Soviet Union; and how they are weeded out matters Pitts of Coahoma. the church is coming to rely too much on outside not to Pravda-or Stalin. . . . Some five year plan After the lunch, to be served by appropriate that we should have a 10 days, through July 21.—J.
