# Fashion News For Fall...

In perfect harmony with capricious tastes of fashionable young misses, Fall ushers in a brand new season of charm and elegance and brilliance. The new season means new desires for something different from the previous season — in fact, changing temperatures demand heavier clothing, new styles in hair dress and darker tones of apparel.

Deep in the fashion setting there is a glorious collection of subtly flattering styles; the very kind that make you feel smarter and hold your head higher. With poise and graciousness and dignity come the Fall Fashions of 1937. Make every occasion an event . . . surround yourself with the beauty that is your privilege to attain through proper dress.

Seeing is believing . . . and believing is viewing the grand array of distinctive fashions displayed in the stores whose advertisements appear on following pages.

### Clothes for the Entire Family to Show at Economy

This is a season of elegance, and yet one of trimness, says Mrs. Walla Fish of the Economy Store, as she comments on fall and winter fashions for the 1937-38 season. "This trimness," she continues, "may be acquired by choosing the shoes, hose, gloves and bag with an equal amount of care as the dress and hat.

Genuine Sterzelbach sports coats of all-weather twist tweed, fur-trimmed dress coats and school coats for the children, all, may be found in newest materials and styles at Economy Store to wear atop the fall dresses and suits.

Wash dresses at Economy are shown in several well-known lines -Monte Carlo, Boulevard, Novelty and Frolic. Large selection of printed and solid colored silks are in the new fall colors. Hats with the new upward trend are also found at Economy, as are new gloves, bags, shoes and hose to complete the cos-

A new shipment of Admiration hosiery has been received recently to add to the already complete stock of knee length and long hosiery, service weights to the sheerest of chiffons. Blouses in linens, synthetic crepes, taffetas and flat crepes, and a complete stock of lingerie will interest the buyer who looks for quality merchandise at reasonable prices.

In men s wear, Alexander and Resistol hats, nationally advertised products, Phillips-Jones shirts and Moffett and Rogers the Regent, "king of all shirts," and Packard shoes for men are featured in the newest styles and materials Manager Henry Rosenberg says of the men's department at the south side store. Peters shoes, all leather patterns, are shown for men, women and children at Economy, he says.

#### For That Evening Gown.

The evening gown may be slim as a tube or volumnious of skirt. The decollette is lower, shoulders are emphasized, but the styles are versatile. Generally, evening frocks have more decoration than in many years. There are straighter cut dresses for dining, fringed gowns are seen, and the velvet evening wrap is stressed.

#### Costume Suit Is "Must."

The costume suit in all its versions is a must in the fall and winmodel, which with the jacket reat, or even a finger-tip ca

#### LET'S TALK ABOUT CLOTHES

BY A YOUNG MODERN

Fly-away hats plus fly-away shoes equals fly-away season. And that's exactly what this fall has turned out to be. Shoes are continuing on the high road they began last year, with definite and extreme varia-

The most notable trend in shoe styles is the added grace of sport types. No longer must one wear the unflattering, enlargening fashions of yesteryear, since shoe manufacturing moguls have definitely streamlined the work shoes of milady. Soft suedes and leathers are being draped just as if they were so much

All the newer shoes are high over the instep. One black suede dinner boot has the high front cut in winglike divisions, the edges banded in patent. Even suede ties, which will be so prominent in the sports field again, are laced up high with the arched sides curving into the eye-

Gores are used as much in the new shoes as in dresses, and the elasticity thus given promises a season for comfort as well as beauty. Slip-ons are more popular than ever, and the elastic insets have solved most of the fitting problems formerly attached to them.

Classic shoe of this season is a high-cut, slip-on pump of suede. An over-turned scroll of suede rests far up on the instep. The graceful line of the scroll and the fine molding of the shoe itself are destined to place it with shoe immortals.

# Guarantee "Fits"

"We have been in business 21 years, devoting our entire time to the correct dress of men," declare B. H. Moffett and Abe Rogers. "We are in business to cater to those who care," they say.

Suits that fit are Moffett & Rogers' specialty, and they refuse to let a customer leave until perfectly fitted. Newest materials for men's suits are the chalk stripes and twotone plaids, these tailors say.

A new 1937 model super hi-tone dry cleaning system at Moffett & Rogers guarantees the satisfactory cleaning of the most delicate materials. Such modern equipment is seen in few West Texas tailoring plants, and Moffett & Rogers is up-to-theminute in this department, also.

The true purpose of education is ter wardrobe. It may be a tailored to cherish and unfold the seed of immortality already sown within us; moved becomes a dressy frock. #### Everywoman's Has **New Wave Machine**

A new Realistic permanent wave machine, 24-heater model, has recently been added to the already well-equipped Everywoman's Beauty Shop. Since enlarging and remodeling recently, as well as the new equipment adding, the shop is well able to take care of beauty needs of local women, according to Mrs. Woodie Scarborough, owner.

Four expert licensed operators are in the shop regularly-all wellknown girls who have made their homes in Snyder a number of years. They are: Pauline Hartley, Mrs. Harry McHaney, Mrs. Jack Wright and Mrs. Lovell Baze

Contoure cosmetics, highly advertised line, are handled by Everywoman's, and Mrs. Scarborough and her girls personally recommend

#### Airmaid, Airmate Hose at Stinson's

Airmaid hostery is being shown this season by the two local Stinson drug stores in livelier, richer tones than ever before. They speak of gay times ahead when correctly chosen to enhance the beauty of a new fall costume.

Airmaid hosiery and Airmate socks and ankies are still living up to their slogans, "More miles per pair' and "Wear them and compare them with your former hosiery expense.

From service weights to the sheerest of chiffons in women's hose are shown in Airmaids, which come in knee-length hose, too. New color chart for Airmaids shows the following interesting new tones: Incatan, Rio, Andes, Avenue, Cafe, Clair, Stormy and Smokemist.

Airmate ankies for men suggest the new style note for the fashionminded men of this locality, and those who stick to the regular Airmate socks will find them at either Stinson drug store in black, white, nubrown, navy, gray and French tan.

Education commences at the mother's knee, and every word spoken within the hearsay of little children tends toward the formation of character.-Hosea Ballou.

#### Queer Names and Why.

Five towns in Texas have every ight to be dirty-their names are Mud, Clay, Earth, Sand and Grit. Among other odd names is that of Round Top, so called because it has an old log house with a round dome situated on a round hill. Origin for one of the most optimistically named towns in the state, Rising Star, has never been discovered. And then there is the town named Floydada by mistake, because some post office could not read the handwriting which designated it is Floy-

#### Tree Publicity Needed.

Although the widespread plain-lands with their romantic cowboy figures have received more publicity than any other aspect of Texas, its wooded areas could well claim their share of the glory. In 1930 the total commercial forest area was 12,624,-000 acres, and three state forests in Cherokee, Montgomery and Newton Counties added 5,600 more acres. Principal kinds of wood are yellow pine, oak, red gum and tupelo, but with the state forests as laboratories. experts are now making research toward growing new varieties.

# Large Selections Of Fall Clothing Seen at The Fair

"Style lines are flattering in early showing: of fall fashions. Newer lines, colors and trimmings are all featured in the 1937 fashion parade for both men and women," say salespeople at The Fair Store.

Largest selection of cotton frocks for women and girls is found at The Pair. A stock of clever little wash frocks includes several well known brands—Peggy Palmer, Polly Ann and Suzette. Style of these garments is repeated in silks of flattering weaves and colors also at The Pair.

The Fair's Hirshmaur sport coats are so expertly styled that they accentuate the beauty of the wearer. Slightly fitted full length, swagger, mannishly tailored, straight line boxy tilored types are all included in the group at The Fair. And besides the smart lines, Hirshmaurs are wrinkle, dust and moisture proof!

Shown at The Fair are the nationally advertised Dr. Austin's shoes for men and women and Bob Smart shoes for men. School and dress shoes for children and dress shoes for men and women are also seen

New styles in Van Heusen shirts and in Stetson, Davis and Bancroft hats are features of men's wear at The Fair.

#### Covered Buttons Are Made at Local Shop

"New fall fashion notes say that covered buttons add a smartness that cannot be given by any other form of trimming." Winnie Garner says. Covered buttons in a variety of styles and sizes are featured at Miss Garner's sewing shop.

Sixteen styles and sizes of covered buttons are made by Miss Garner, and covered buckles and buttons add a dash to the made-over dress as well as the new ones. Dress making, button holes and covered buttons are offered with guaranteed satisfaction by the local sewing shop.

#### What Milady Will Wear.

For fabrics, there are not so many hairy surfaces; tweeds are appearing. Alpaca in either silk or wool is an early leader. Plaids for youngsters and college girls are seen on every hand. Silks are real in many frocks, rather than synthetic. Velvet—that new improved non-crushable velvet, some of which will even stand washing—is definitely in the picture.

will be much easier if it is handled by a shop that really knows how to solve your sewing problems.

QUALITY MERCHANDISE

#### **Black Predominates** In Fashion Picture

The fashion picture, so brightly drawn for the 1937 style-conscious people, is nevertheless "black."

Black is wnat the chic woman will wear-morning, luncheon, afternoon and evening, whether she is business woman, butterfly, young matron or over fifty. Even the college and high school girls will include black in their wardrobes.

The man who is fashion-conscious will likewise recognize the importance of black, whether he is business or professional man or young college blade.

Although black is conseded first place, other colors claim their attention too. There are the browns in livelier tones-coffee, Margo and Acajou. Green may be definitely Erwin, as bright as a shamrock. Wines in richness add their note. But where is the blue? The navy stand-by has been almost completely overlooked, but if you happen onto a brilliant blue—it's the height of smartness

#### Shoulders Are Given Place in Spotlight

Shoulders are important this season. They take on a boxy air, and smart wear and hard service. the same note is expressed in coats. Lines are slim and straight, especially as applied to skirts, unless the opposite extreme is preferred and then flares are volumnious. The hemline is 14 inches from the floor for suits and full fashions, while the daytime formal may be 15 inches. For evening, hems tip the floor again, with the exception of the shorter-in-front models. Those ballet type skirts of the late summer have disappeared.

Waistlines are important, too. The smart woman may admit she has a stomach, but the diaphram must be flat. There is the highlow line, effected by draped or fitted designing, but the natural waist will have its accent in a belt or fastening of some type. Shirring has made its appearance, even in exaggerated form from neck to hem. Gores and panels are often seen.

#### THESE THINGS I ASK

A little band upon my finger, A little home in which to linger; Two little tots upon the floor, A friend and neighbor right nex door.

A little money laid away, A little dream from yesterday. A little joy, a little sorrow, A little hope for dim tomorrow. To be a mother and a wife Is all I ask of you, O Life.

### **Real Inspiration** In Fall Fashions At Bryant - Link

Women who have seen the glamorous style spark of the new fall creations think it's an inspiration to be smartly dressed this season, says Mrs. Joe Caton, head of Bryant-Link Company's ready-to-wear department.

She visualizes girls and women in Nelly Don frocks as the candid camera clicks-Nelly Dons that lead in the passing fashion parade for fall. "Going places?" "Off to school?" "Or stay at home?" In any event, and for every event, step into the brisk autumn air in a Nelly Don that puts you ahead in the fashion scene, she suggests.

Glorious creations in which to capture the fall mood have been released by manufacturers of Levine and Franklin frocks, also, Mrs. Caton says. Her line of these better dresses is truly an inspiration! "And our line of Redfern coats will win the instant approval of every woman who is fashion minded and value conscious," she says. They are smartly styled and tailored to fit. of fabrics loomed especially for

Too, she says, there's a treat in store for those who like to sewwhen they visit our store for the lovely new silks and woolens, have McCalls patterns to design their dresses, the wide selection of belts and buttons for trimming-and Bryant-Link's lovely accessories complete any costume.

In co-ed and girls' colleges alike, strictly tailored pajamas and housecoats are favored, and high school girls are fond of them too, says Mrs. Caton, and we have a stock of these the girls will love. "You may visit us with the expectation of seeing a truly original line of opera blouses for fall and winter, and our Patricia and Catalina hats are new in design and striking in appearance!"

Hart Shaffner & Marx and Rose Brothers suits for men, both popular brands, are shown in new fall styles and better quality than ever before says A. C. Kincaid, of the men's department at Bryant-Link's. The fashion-minded man will also be pleased with our large selection of Laudenberg hats, Arrow shirts and Interwoven socks, in new fall

#### Finer Materials and **Accessories Stressed**

Finer materials, with more real silk in evidence; designs that are definitely feminine, highlights of metal and jewels for trim, mastercraft tailoring, furs in abundance, and quality fur too, are giving to the ready-to-wear for women a tone of luxury not evidenced in many

History repeats itself. From the gay days at the turn of the century. styles have received their inspiration. If you choose a garment that definitely smacks of 1900-a day so close that it is just now taking on the glamour given by the lengthen-ing distance of time—you are just as up-to-the-minute in this 1937 as you would have been 37 years ago.

#### Gay Colors Important.

The three-piece suit-jacket and skirt tailored, and swagger coat with no skimping on the fur-is blazoned across the scene. Here colors are important—gay camel hairs or other finer fabrics.

Rastus was sent to the general store: "My boss," he said to the clerk, "wants a pane o' glass nine by 'leven."

"Haven't got none that size, Ras-tus," said the joking cierk, "but will a 'leven by nine pane do?" "I'll try'er," replied Rastus. "May-be if we slip'er in sideways nobody'll notice it."

"Isn't it wonderful the things that can be made from ordinary beef bones-piano keys, dice, teeth, knife and fork handles, and so on!"

"Yes; and my landlady thinks that they make soup, also."

## Dress Suits Are Favored by West Texas Cowhands

Men in West Texas know styles these days! Straying from the traditional cowboy attire, so familiar in the West, local merchants report that more dress clothing for men was sold last season than in several

Even for sports and business, West Texas males are fashion-conscious. They are insisting on quality and they are stepping out in more color. This year, there is black; with it clinging sleeves are tucked slightly come brown tones, grays, deep greens, some blues-very dark. Cheviot materials are gaining favor, tweeds are colorful and overplaids and stripes are good.

In hats, there are metallic shades, copper, zinc, anaconda and steel. Now, snap brims are first; later the Homburgs will be favored. Shoes , are more broguish.

Shoulders of men's clothing are wider, more boxy, giving the drape effect. Lapels likewise are slightly wider. The suit may be doublebreasted or not, according to the individual. Coats are longer, and waistlines are not so accentuated. There are also sunburst sports backs.

Men are becoming more careful in choice of their furnishings. There is more color in shirts, and when a man buys his shirt now he also selects a tie and often his sox. Color harmony is the aim. Smart neckwear is designed with this idea. The most important change in neckwear, they say, is the change from silks to wools in ties.

Here's a men's style note-they don't wear garters any more, the merchants say. They either buy ankle sox or those with elastic bands at the top.

#### **Turbans Attractive** With Veils, Plumes

Turbans are mounting. There is a definitely higher line in the hats. Features may be a perky quill, or a draping ostrich plume, but they are oh, so smart.

These hats are dripping with flattering veils. The tailored hat with the daytime suit takes on another air when swathed in fluttering film. The veil may even be tied under the chin-there's that 1900 idea bobbing up again.

An Irishman who was sleeping all the night with a negro, had his face blackened by a practical joker. Starting off in a hurry in the morning, he caught sight of himself in a mirror. Puzzled, he stopped and gazed, and finally exclaim-

ed: "Faith, they've woke the wrong

Father (to young son sucking his thumb)-"Say, son, don't bite that thumb off. You'll need it some day when you are old enough to travel."

#### LET'S TALK ABOUT CLOTHES

By a Young Modern

"Sunday-go-to-meetin" dresses this fall rival formal evening gowns in the number of smart touches and flattering new lines they employ. A much sleeker silhouette is favored than the flounces of last year would allow, but skirts are still full enough for easy walking.

Typical of the dresses which will be worn for dates, picture shows, informal parties and the like is a little black silk crepe with the skirt fitting like snake skin save for a bit of shirred fullness in front. Long, at the shoulder, and the simple Vee-neckline is fashionably low.

Although Lady Style has turned her most approving smile upon black as high color this season, girls at Texas State College for Women with experimental ideas find that varied colors and materials can still be used advantageously. For instance, heliotrope-blue satin-back crepe forms a smart-looking draped number with the shapely new corset-fitting look around the waist.

Powdery blue velveteen is used for another dress in the modern mode, with a shirred ring extending from the waist to the hipline, thus holding the fullness of the skirt into straight lines.

Daring color combinations carry on the fight with conservatism that they started several years ago, and one sees rust and lavender, rust and turquoise, blue and fuchsia, blue and brown and gray and beige. Pink, so long in disfavor, is being reclaimed and put with certain tones of browns and grays.

As for materials, luxurious is the word. Those leading so far in Paris and other style centers are velveteen, satin-back crepe, sheer wool, moire and the easily-drapable jersey.

# Fall Garments at Penney's Feature

"New fall styles are more flattering and more feminine than ever," says Mrs. Gus McClinton, head of the ready-to-wear department of the local J. C. Penney Company store. "Our department is full of attrac-tive fall garments."

Since waistlines and smooth lines are so important this season, J. C. Penney Company offers the Lady Lyke foundation garments. Also in the lingerie line Penney offers dainty and serviceable gowns, pajamas, negligees, slips and panties

Better dresses at Penney's store are in the Mirra Lane frocks, and a nice selection of Glen Row dresses is also featured. Cotton printed frocks are cleverly made into smart styles in those shown at the store, as are blouses, uniforms. A group of new wool suits has been received and are displayed at the store this

Fall and winter hosiery colors in Vanettes are in deeper and richer tones of two-thread, three-thread, four-thread and six-thread weights. The new colors are Blushglo, Carib, delight to expectant mothers and Incatan, Rio, Andes, Cafe Clair, to those selecting gifts for the new Avenue, Burnt Sugar and Smoketone. Vanettes carry on their reputation for practicability and long wear and establish a new exquisite sheer beauty never before seen

### Latest Styles in Suits and Coats At Joe's & Jack's

Men's style notes for 1937-38 fea-ture the double-breasted styles in suits and topcoats, says Joe Graham of Graham & Martin. Stripes and overlaid plaids are the outstanding materials for new fall suits, and most popular among colors are the browns and grays, he says. Banker's gray and Oxford gray in plain or plaid materials are shown in sporty topcoats by Graham & Martin for the man and boy.

"We are still featuring the Dri-Sheen cleaning and satisfactory work is guaranteed," declare Joe and Jack. This is the time of year to have your hats cleaned and blocked, they say, adding "Look at your hat. Other people do!"

The shop owners together with their new silks man, Maurice Collier, and Jim Hartley, who has been with them some time, invite local people to dress up their old clothes by having them cleaned with the Dri-Sheen process at their shop.

Selection of fall and winter clothing for men, women and children in Snyder is so wide and so in keeping with world-wide fashion trends for 1937 that it competes with that of larger cities.

# FAIR INCLUDES **JACK-STALLION SHOW ONE DAY**

Large Tent Engaged; Old Settlers' Reunion Featured; Community Fairs Are Slated.

Now that the rodeo is over, definite plans are being made for the Scurry County Fair, to be held here Thursday, Friday and Saturday, October 21, 22 and 23.

General Chairman W. R. Lace, named by the sponsoring Lions Club, says a large tent has been engaged for exhibits. The large city tabernacle and grounds just north of it will be used. Probably the outstanding feature

An old settlers' reunion, at which it is proposed that a permanent association be formed, is definitely on the fair program.

Hermleigh and Fluvanna are planning community fairs prior to the central exhibit at Snyder, and several other communities are expected to follow suit soon.

Principal feature of the fair, of course, will be the agricultural exhibits. Farmers and : anchers are urged to save their best crops for display at this outstanding part of the fair.

Harley Sadler's tent show has definitely been booked for two of the fair dates, Priday and Saturday, under sponsorship of the fair.

# No Arrests

Local and county officers report that although last weekend's rodeo brought hundreds of people to Snyder, not one arrest was made for any cause.

"It was the most orderly large crowd with which we have ever had any dealings," declared Sheriff Clyde Thomas and City Marshal John Lynch.

Rodeo officials, too, were loud in their praise of the orderly manner in which all rodeo crowds conducted themselves.

# OFFICIALS AND **GIANT CROWDS** PRAISE RODEO

Friday and Saturday Performances Declared Successful From Every Angle.

To put it mildly, success crowned the efforts of a group of men to stage a first class rodeo in Snyder. Ask almost anyone-rodeo official, spectator, merchant, cowhands-and you will discover that the Friday and Saturday event, first annual rodeo of the Scurry County Rodeo Association, left a good record.

So successful did this first effort prove to be that officials-President J. M. Stewart, Ring Director Joe York and Secretary-Treasurer Geo. Parks-are already making plans to stage an even better rodeo next year. Believe It "Paid Out."

No final reckoning has been made or a few bills are outstanding. But officials believe the two-day event will at least "break even," including building of a fence that cost several hundred dollars. Crowds increased at every per-

formance, climaxed with an overflow Saturday night attendance. An impressive feature of the rodeo was the grand entrance, with all officials and entrants taking part This was arranged by Jack Hoey of San Antonio, professional rodeo announcer. Not all of the efforts of the administration were condemned, and not one statement I made has been found wrong in the replies printed. Roosevelt ran and was elected on a wet ticket, but he did not repeal the 18th amendment. I suspect I have done as much for Senator Sheppard as any one in the county. have always admired and respected

The handling of the CIO matter in the replies would indicate the writers were not aware that Lewis was promising no new thing to any worker and has made no effort to help anyone who is not already in a union. The writers seem not to know that he is simply organizing a rival union in order to get the union dues into his hands to be used in the political tie-up with the administration which has never been denied since asserted by Lewis, who wants to be dictator of the United publicans if they will promise him each other and have laws absolute-States. # DEATH COMES TOW.L. KELLER

Death came last night (Wednesday) at 11:00 o'clock to W. L. Keller, for 23 years a farmer and merchant he had been in the second hand furniture business in Snyder.

Mr. Keller suffered injuries 10 days ago when he was knocked down and run over by an automobile in the Snyder business district.

William Levi Keller was born in Shellby, Illinois, April 2, 1862. He moved to Snyder from Tarrant "red" by the end of the current bi-County in 1914. Survivors include the widow; three sons, J. N. ### Must End Somewhere.

During the three-year period beginning in 1936, Texas taxpayers will have assumed about \$40,000,000 in additional state taxes. They must also pay out about \$75,000,000 in new federal social security taxes during this period, making about \$115,000,000 of new taxes for which they must foot the bill, not counting other increased federal and local levies. There is a limit to what the people can pay. Many believe that limit is rapidly being approach-

Several of the fans wno traveled to Sweetwater Friday night to watch a football game on well-sodded Newman Field, between Snyder Tigers and Sweetwater Mustangs, returned home with a tune something like

"The Tigers were deader on their feet than any good ball team we ever saw in action.'

It wasn't altogether the Tigers' fault. They went into the melee with an inferiority complex, for Spur, a squad they had planned to conquer, had walloped the stuffing out of them the previous Friday night. Too, Fullback Tate, the most experienced and the heaviest man on the team, was on the sideline with injuries, and Jay Rogers, guard, was on crutches with the broken leg he Love beckoned and I followed: sustained in the Spur game. "All they need now," opines Mr. Fan, "is to Love beckoned and I followed: get enough fight to use their weight, She vanished when I stumbled speed and knowledge."

Wallace Smith and Weldon Strayhorn didn't look bad for the Tigers. In fact, they weer forced to make the majority of tackles from their backfield positions. But the line was so sluggish that the Mustangs had defense smeared and offense well organized before the Tigers had moved out of their tracks.

Coach Red Hill, as well as Coach Laurence Priddy of Sweetwater, used a swarm of substitutes.

Harry Holt of the Abilene Reporter-News staff summed up the game

#### What Harry Says.

The Sweetwater Mustangs uncorked a stream-lined running attack at Newman field and a rugged defense for a 49-0 victory over Snyder.

A powerful line in the front ranks, tutored by Head Coach Laurence Priddy, former Texas Tech star, mechanically cut the opposing wall to shreds, and late in the first quarter bullet-like backs began pouring through freshly opened holes in the Neither beauty nor enemy's armor. #### **Church of Christ**

The subject for discussion next Lord's Day is one that every child of God should be intensely interested in, namely, "The State of the Righteous Dead," or "Where Do-Christians Go After Death?" Whatis Hades and where is it? Is it the same as hell? What is Paradise and where is it? Is it the same as heaven? Was Adam in Paradise? Was the thief in Paradise? Was Paul caught up to Paradise? Was this the same Paradise into which Christ and the thief went?

Come out Sunday and we will try to find out where you are going. Study Heb. 2-14, Rom. 8:29-30, Matt. 25:50-53 carefully, and come prepared to enjoy the lesson .- J. Porter Sanders, minister.

But, please, don't think The Times desires to condemn the bicycle craze that has taken possession of the land. Rather, the two-wheeling fancy should be encouraged.

Bicycling is healthful. It is economical. It is sensible. It is altogether a leveler of social distinction. Of course, the populace would stand aghast if County Judge H. J. Brice or Mayor H. G. Towle were to ride bicycles to work morning after morning. But the two officials would assuredly be giving their aging muscles and their sedate appearances a needed tuning up. They would be setting a noble example of frugality, which, if transferred to government, would make the Democrats a No. 1 platform for the next

On, then, with your bicycles. The only persons who should resent the new craze are the automobile dealer and the gasoline seller.
