## SAM BAUGH IN CITY TUESDAY

Sweetwater's slinger Sam Baugh, who has been designated by sports writers the country over as "the all-time, all-American, world champion" grid star, was a brief Snyder visitor Tuesday afternoon. The one and only Sammy Baugh, accompanied by his mother and his fiancée, Miss Edmonia Smith, stopped at Dr. H. G. Towle's during their Snyder visit. Sammy Baugh, that plucky passing backfielder, whose slinging passes have made football history throughout the length and breadth of the nation, was greeted and reserved. He seemed unimpressed by the acclamations that have been paid him by sports writers and fans. In fact, Sammy seemed a little bashful when introduced to the people in Dr. Towle's jewelry store. Sammy went by plane to New York City from Sweetwater Wednesday. He will be interviewed Saturday night by Robert Ripley of "Believe It or Not" fame, who speaks over a nation-wide NBC network.

## TAYLOR MADE LEAGUE CHIEF FOR NEW YEAR

Talk of Educational Films, Safety, Feature of Thursday Meeting Of County Teachers.

Elmer L. Taylor, superintendent of Ira Public Schools, was named last Thursday night as director general of Interscholastic League events for 1934. Election of Taylor and other league officials came during a county-wide teachers' meeting, attended by 115 teachers, in the band room of the Snyder gymnasium. It was the best-attended teachers' meeting in Scurry County in recent years, said County Superintendent Frank Farmer.

**Public Safety Talk.** An enlightening talk on public safety as related to the schools was made by Mr. McCree of the engineering department of Texas Tech, Lubbock.

He discussed primarily the school's responsibility in public safety as related to traffic regulations and accidents. Dr. Bradford Knapp, field president, was scheduled to make the address, but he could not come. Several films, showing how teachers could use movies to teach in their classrooms, were projected by Worden Mann, specialist in installation of school radios and movies.

The ladies' night committee, composed of Lions Frank Farmer, J. E. Sentell and C. Wedgeworth, was appointed to make arrangements for ladies' night January 4.

The committee for the sick reported that Lion Dr. J. G. Hicks had been visited, and that flowers had been sent him. Dr. Hicks was reported to be in an improved condition.

Guests were: Miss Bonnie Miller, Mrs. J. E. Sentell, Mrs. A. C. Preult, Miss Leol Cox; and Alfred J. Stiles, Sweetwater, Buffalo Trail Council Boy Scout executive; Jack Cliff, and W. A. Jean of Snyder Transfer Company.

The Lions Club played briefly a Santa Claus role, and presented Miss Bonnie Miller and the three waitresses at the Manhattan Hotel with lovely gifts, in appreciation of their help and kindness.

**Several County Men Out for Court Duty**

The following Scurry County citizens were called to Lubbock December 12, to report December 13 for federal court duty: Clemens von Roeder of Knapp, Richard Barrier, J. G. Davis, Richard McFarland of Dunn, J. O. Dodson and Joe Stinson.

All the men were excused until Monday, January 3, 1933. The group of Scurry County men returned Wednesday, December 15.

**Car Damaged by Fire.**

Slight damage was done, when Perry Alford's car caught fire last Friday, about 11:30 a. m. Mrs. Alford, who had started to town in the car, smothered the flames out with a blanket when a short circuit in ignition wires caused the wiring system to burn.

**Local Song Over KRLD.**

"For My Home Is Over There," a song with words by Leon Guinn and music by Eddie Williams, was sung by the Stamp Quartet Friday morning at 8:45 o'clock over KRLD, Dallas. The number was the program owner, and dedicated to Guinn and Williams. It will be in "Guiding Star," the new Stamp-Baxter song book out January 1.

## Mrs. A. M. Morgan Is Injured in Accident

Mrs. A. M. Morgan, wife of the Gem Theatre manager, who was injured in a head-on collision at Sweetwater Tuesday of last week, was doing nicely this week. Mrs. Morgan's car collided with a machine driven by Bert Deal at Halley and Josephine Streets.

Mrs. Morgan, who suffered severe facial cuts and a broken right leg, was so improved she was moved early this week from Sweetwater hospital to the home of her mother at Denton.

Mr. Morgan suffered minor cuts and bruises in the mishap, and Al Selman, riding with Deal, suffered a right ankle injury.

## Sunday-Monday Fire Calls; Minor Damage

Minor damage resulted from a fire call Sunday mid-afternoon and Monday afternoon at 1:00 o'clock.

The Sunday call to the R. E. Gray residence in East Snyder was caused by a defective radio tube that was smoking.

The Monday call was two blocks west of the square, where a trailer-truck loaded with seed cotton was afire without the driver's knowledge. The fire department's chemical quenched the blaze after minor damage to vehicle and cotton.

## SNYDER TO BE WELL CLOSED FOR HOLIDAYS

Merchants Report Heavy Business As Christmas Looms Only Two Days in Future.

With Christmas coming on a week-end this year, Snyder will be well closed two days in succession—Christmas Day and Sunday.

All stores, the bank and the post office will, of course, be closed. Postmaster Warren Dodson says Christmas parcels will be delivered, but otherwise the post office will have a full holiday.

All Snyder girls will be closed all day Friday and Saturday, December 24 and 25, gin owners have informed The Times.

Merchants from all parts of the business district report the best Yuletide buying in several years. Stores are remaining open late in order that buyers may have several dark hours in which to complete their last-minute shopping.

Despite this heavy business, most stores continue to offer fairly complete stocks for Thursday and Friday buyers.

## Golden Wedding Celebration For Pioneers At Ira

Mr. and Mrs. P. A. Miller, who have for several years operated the Ira Drug Store and post office, celebrated their golden wedding anniversary at their home in Ira Sunday with open house. More than 80 were present for the bountiful dinner served out-of-doors at noon, and numbers of other friends called during the afternoon.

Married at Rising Star in December, 1887, Mr. and Mrs. Miller came to Scurry County from there in 1901, settling on a farm near Ira, where they lived until a few years ago. Mr. Miller, who is 71 years of age, and his wife, 68, now operate the drug store and post office at Ira. Mr. Miller has been postmaster there for several years.

Twelve children were born to the pioneer couple, six boys and six girls, all of whom are living except one girl, and all are married except one. The Ira couple have 15 grandchildren and one great-grandchild.

Children, who with their families attended the memorable celebration, are the following: P. M. Miller, Mrs. Jess Green, Mrs. Edgar Taylor, all of Snyder; Owen Miller, Albert Miller, Oscar Miller and Mrs. P. L. Price, all of Ira; Claude Miller of Big Spring; Mrs. Orvil Moore and Mrs. Rea Falls of Monahans.

Chester Miller of Corpus Christi, the other son, was not able to be present for the fiftieth wedding anniversary observance of his parents.

A partial list of out-of-county relatives and friends calling during the day follows:

Rev. and Mrs. A. D. Leach and children, Mrs. Lila Gale and son, Mr. and Mrs. C. G. Brinkley and son, Colorado; Mr. and Mrs. J. B. Rucker, Big Spring; Mr. and Mrs. Aldon Angel, Loring; Mr. and Mrs. A. H. Byers, Rev. and Mrs. Elvis Bishop, Luther.

Punch and cake were served to guests throughout the afternoon and into the evening as they called to pay respect to the prominent Scurry County citizens.

## "Merry Christmas, Happy New Year!" Says Congressman

From Washington to The Times comes this "Merry Christmas and Happy New Year!" from George H. Mahon, congressman:

"Not being able to send Christmas cards to all of my friends in our large district, I have adopted the practice of sending them to none. If you have an opportunity, please say for me, 'Merry Christmas and Happy New Year' to all the folks back home."

"Your paper is indispensable to me in keeping up with the folks in my territory, so I am enclosing my check to cover another year's subscription."

## TRAFFIC COUNT REVEALS HEAVY TOTAL HERE

A traffic count of Snyder's principal traffic arteries by state highway department officials is furnishing The Times by G. R. Austin, maintenance foreman for Borden and Scurry Counties. The survey, conducted from 6:30 a. m. Saturday to 5:30 a. m. Tuesday, shows for instance:

## COUNTY HEARS ONE-SEED IDEA

One hundred and forty-nine farmers and ranchers were present Saturday afternoon at 2:30 o'clock for the cotton meeting held at the courthouse. Representative groups from every section of Scurry County were present at the meeting.

E. A. Miller, agronomist with the Extension Service, and F. E. Litche, extension cotton gin specialist, made some very timely talks on problems facing the cotton farmer today.

Farmers showed a great deal of interest in the project of one-variety cotton in each community. Hermleigh farmers are planning to further discuss the suitability of one-variety cotton in the Hermleigh section. County Agent W. R. Lace reports "that our farmers realize the necessity of improving staple with a uniform variety cotton."

## Two Games Shoved Into Local Win Kit From Roby, Hamlin

Two wins from strong opposition were shoved into the Tiger win bag early this week.

Probably the best game played by a Snyder quintet in recent years was against Hamlin Tuesday night. The score was 25-18, but the Snyder margin was not so great except at the very end of the tilt.

Roby, which lost to Snyder by one point in the Peacock tournament, was whipped 27-21 Monday night in another tight defensive game. The Tigers led at the half, 15-10.

Starting line-ups in both games for Snyder were: Sorrells and Autry, forwards; Gladson, center; Popejoy and Sterling, guards. Richardson also saw some guard action.

The Tigers are scheduled to play at least two more games before they return to school January 3, Coach Glen Berry said yesterday.

Turner reports that hundreds of the Massey-Harris tractors are being used successfully on the Plains.

## Winston Herefords, Ponies Get Publicity

More publicity accrued to the Winston Brothers and Snyder in the current issue of "West Texas Today," monthly publication of the West Texas Chamber of Commerce.

In an article called "The Brothers, Winston," this is the introductory paragraph: "Out at Snyder, in the County of Scurry, two brothers have demonstrated the fact that through brotherly affection and close cooperation a great deal may be accomplished. Harris and Wade Winston, since 1921 have built up one of the outstanding herds of purebred Hereford cattle in the Southwest."

The article is accompanied by a half-page picture layout, including a picture of Domino Return, the Winston home and a group of polo ponies handled by the Winstons.

## COUNTY FARM TERRACING IS VOTED AGAIN

Commissioners' Court Has Record Volume of Business for Last Month of Year.

The Commissioners Court has done a record volume of business for the month of December to date. Work done by the commissioners to date for December includes approval of \$6,000 in bonds for building a consolidated school house in the Buford district, approval of two new maintainers, and approval of terracing county farms.

December 4, the voters of Buford and County Line approved a \$6,000 bond issue to build a new brick veneer consolidated school house. This action was approved by Commissioners Court for the Scurry County part of the district) December 13.

The court, in approving the bond action, gave Buford and County Line voters the privilege of selecting and buying their own building site somewhere in the Buford district. This action was also approved by the Commissioners Court of Mitchell County. The district is to be known as Buford Consolidated Common County Line School District No. 10.

**Ad Valorem Levied.** For the purpose of paying interest on the Buford district bonds, the court levied an ad valorem tax of 25 cents on the \$100 valuation of property in District 10.

On December 13 the court also authorized the county clerk to issue script warrants for \$111,032.70 to pay for two Austin-Western four-wheel front and rear drive graders. Hudson Body & Equipment Company of Dallas allowed the county a \$350 trade-in value on a used Austin-Western 10-20 motor grader.

At the Monday session this week, on application of B. F. Brooks, a resident of Precinct 1, C. E. Ferguson, a resident of Precinct 2; Bernard Longbotham, a resident of Precinct 3; and H. P. Winters, a resident of Precinct 4, requesting the county commissioners to use a part of the road machinery for the purpose of terracing land in various parts of the county, the following action was taken:

"County road machinery belonging to Scurry County may be used by the commissioners of the several precincts of the county for farm terracing purposes . . . upon applications for terracing on lands in Scurry County conforming to the provisions of Article 165-a-1, section 5 and 6, Revised Civil Statutes of Texas."

**Use of Machinery.** (Section 5 of Article 165-a provides for commissioners of the several counties to use road machinery for terracing, and construction of dikes, etc.; but on condition that the landowners petition the county for such work. An assessment not to exceed the cost of labor is to be levied. And nothing in the act shall effect existing statutes regarding impounding water reservoirs.)

This action will give farmers in the county a chance to have their farms terraced. But first they must petition the commissioners' Court for such work. The rate of charge for this work will be \$3 an hour.

Before farmers can have their farms terraced, estimates must first be made, submitted and approved, or contracts executed and approved by the court. These estimates or contracts must be duly recorded in the office of the county clerk.

The county, of course, assumes no responsibility for the consequences of any terracing work done, but the trend of the order is to allow all county farmers who can, a good chance to get their farms terraced.

As a pullman conductor made his way through the train, he came upon a woman who was weeping bitterly.

"What is the trouble, lady? Is there anything I can do?" he asked.

"Oh, sir," she replied, "I am taking the body of my third husband East to have it cremated."

The conductor consoled her and went his way. On his return he found a lady across the aisle weeping even more bitterly. Again he asked if he could be of any assistance.

"Just to think," sobbed this newly grief-stricken one, "that woman has met to burn, and I can't even get one."

A glittering Christmas tree on the dining table was attractive as were other holiday decorations at the home of Mrs. H. L. Vann recently, when she entertained members of El Felis Club and guests at the club's Christmas party.

Next meeting of El Felis Club will be January 7 at the home of Mrs. Wade Winston.

He dashed up to the bar and hollered: "Gimme a double-header, quick, before the trouble starts!"

The bartender did, and he drank it.

"Gimme another double-header—before the trouble starts!"

Bartender, puzzled, did, and asked: "Before what trouble starts?"

He replied, sadly: "It's started now. I ain't got any money."

"Did they take an X-ray photo of your wife's jaw at the hospital?"

"They tried to, but they could only get a moving picture."

## Bronchial Coughs Need Creomulsion

Just a common cough, a chest cold, or a bronchial irritation of today may lead to serious trouble tomorrow. They may be relieved now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medicinal combination designed to aid nature in soothing and healing infected mucous membranes by allaying irritation and inflammation and by aiding in loosening and expelling the germ-laden phlegm.

The Medical Profession has for many years recognized the beneficial effect of Bechwood Creosote in the treatment of coughs, chest colds, and bronchial irritations. A special process was worked out by a chemist, for blending Creosote with other ingredients and now in Creomulsion you get a real dose of genuine Bechwood Creosote which is palatable and can even be taken frequently and continuously by both adults and children. Creomulsion is one preparation that goes to the very seat of the trouble to help loosen and expel the germ-laden phlegm. When coughs, chest colds and bronchial troubles—due to common colds—hang on, get a bottle of Creomulsion from your druggist, use it as directed and if you are not satisfied with the relief obtained, the druggist is authorized to refund every cent of your money. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief that you want. Over 33 Years In Snyder

### Glen Berry Making Town Basketball Conscious, Says Holt of Reporter

Harry Holt of the Abilene Reporter, in Snyder a few days ago, took time out long enough to get a whole of a good story from the Tiger basketball court. Although The Times has used practically all the material in past issues, Holt has given such a complete bird's eye view of Coach Glen Berry and local basketball that the entire story is reproduced.

Basketball definitely has become a part of activity at Snyder High School. It's dominating the spotlight of attention in the sports world now that the mole skins have been stored for a year.

But here basketball is more than a sport. It is a combination of science and industry, with 176 scantly-clad youngsters forming the machine. At the control is Glen Berry, a soft-spoken coach with a decided Southern drawl.

#### They Go Into Action.

The continual bounding thud of highly inflated basketballs gives the rambling gymnasium a pulse that quickens into a frenzied throbbing as the dozen lads forming this year's team go into action.

Continually skipping to the hardwood court and retreating to the showers are youngsters who daily are eyed by Technician Berry, who 18 months ago moved his basketball laboratory from East Texas. In the land of pine trees, eight years were required by Berry to dish out a combination of five lads that never let up and went ahead to win the state championship. That was in 1936 and marked the mentor's final year at Cushing as he sought the beautiful plains of West Texas.

"Yeah, we are going to have a pretty good ball club this year," drawled the mild-mannered Berry between observations at the prospects and words of advice to an all-senior starting quintet. "But then we have more boys coming up. The entire reserve squad is composed of Juniors and sophomores, who will get a lot of experience this year," he added.

#### One of Top Players.

At that point, lithe and smoothly-muscled J. M. Sterling glided across the court with ease of a polished dancer. He handled the ball like a magician and placed his stubby arms to a great advantage on the defense. "There," said Berry, "was one of the three best players in this district last year, and already he is improved." Sterling last year attended Ira and transferred to Snyder so he could play football. He

replaces at one guard a veteran lost by graduation.

Teaming at the other protective slot is Wayne Gladson, six-foot regular of last year.

Leon Autry, graceful forward who is an inch shy of the six-foot mark, continued to hit the bucket with precision of a marksman. "He is the kind of boy who makes a goal just about any way he tosses the ball," put in the coach. Autry was star of the quintet a year ago.

#### Sorells and Address.

Lending support at the other tally-seeking post is Jesse Sorells, another transfer from Ira. He is five feet, 10 inches tall, and a polished player.

Rounding out the team that is expected to go far in West Texas is Leon Address, center. The husky chap with square shoulders stands nearly three inches above his mates.

But, Coach Berry, like most coaches, is a pessimist. He says Abilene should win the district championship in a walk, with Hamlin and Big Spring very much in the picture. And he sees a lot better game this time than last year.

Berry grew up in a basketball hot-spot that is equal to Indiana, and it is only natural he is a year-round fan of the game. He attended Stephen F. Austin College, and in recent years has been doing graduate work at the University of Texas.

#### Started at Cushing.

His coaching career was launched at Cushing, which is in the same district as Athens, the Arkansas University of the cage game in Texas high school circles. Berry placed good teams on the floor in 1932 and 1933. But they attracted little attention since all of the fans were on the Jimmie Kitta bandwagon.

The best team at Cushing lost to the Kitts-coached team that later won the national title. Probably the best player from that section was Bennie Tompkins, says Berry.

He has succeeded in transplanting some of that spirit in West Texas. Already Snyder is conscious of its cage team, and if all goes well the town will hop on the band wagon before it gets to the first turn.

Practically every boy in high school has ambition to make the ball club. And for six periods each day the coach works with those gangling kids who are playing the game as their physical education course. But they may become stars before graduation overtakes them.

Reserves of this year's team are lanky J. R. Popejoy, rugged E. J. Richardson, clever little Ernie Keller, Roy Baze, Carl Harrover and fast-breaking Fred Bullard, who scales 115 pounds.

### Increase in 'Flu' Is Reported Over State by Doctors

Reports from widely separated parts of Texas to the state health department indicate that influenza is on the increase. Recent snows and colder weather account for the increase, according to Dr. Geo. W. Cox, state health officer.

Cold, gripe, influenza or whatever we may call them are believed to be spread from person to person through discharges from the nose and throat. To protect yourself and others from such discharges, here are precautions to be followed.

Influenza is highly infectious. Practically everyone is susceptible to it. No matter how many times you may have had the disease, you may contract it again. Therefore, keep away from people who are sneezing, coughing, or sniffing, or who are actively ill with colds, influenza, or pneumonia.

Keep away from crowded places. Have your own towel and drinking cup and always wash your hands before eating.

Keep yourself as fit as possible. Drink plenty of water, eat simple, nourishing food, exercise out of doors every day, dress according to the weather, get plenty of sleep in a well-ventilated room.

If you feel an attack of flu, or even what you may think is an ordinary cold, coming on, go to bed, send for your doctor, and follow his directions. A cold can too easily develop into a fatal mistake.

#### Church of Christ

Sunday, December 26—Bible study, 2:00 p. m., lesson Hebrews I; preaching, 2:30 and 7:00 p. m., by Charles H. Robinson of Abilene.

Bro. Showalter was with us last Sunday and preached two splendid sermons. His di course Sunday night was a concise review of the political and religious history of the Jews during the 500-year period of time between the two testaments, which was very interesting and profitable.

While we are manifesting the "Christmas spirit," let us also manifest the "Christian spirit" by attending church services.—R. C. Huggins.

#### First Baptist Church

Rev. Ira Harrison announces that there will be no preaching services at the First Baptist, either morning or evening. There will be Sunday school Sunday morning and B. T. U. Sunday evening, as usual.

The church granted Rev. Harrison a leave of absence Sunday to allow him to go home.

### RECORD MADE IN FIRE DRILLS GIRLS' TROPHY WON AT DIVIDE

Monday, December 13, during the second period classes, the fire gong sounded; fire chiefs rushed to the exits and back to give directions to the various groups.

The student body has made a good record on clearing the building in a remarkably short time, with no exits obstructed. Drills with obstructed passages will soon be practiced.

Students and teachers are urged by Principals Bishop and Morgan to keep their secretaries, chiefs and monitors ever ready so that any fire alarm, either in drill or a real fire, may be properly regarded and creditably handled.

"We never expect our building to be destroyed by fire," they say, "but we want to be prepared to take care of our lives in case it is. There is no greater lesson in life than to learn to take care of oneself in time of danger."

"The Cardinal," Hermleigh.

When the basketball girls returned from the Divide tournament Saturday, December 10, they brought with them a pretty trophy.

This trophy was won by sportsmanship and attractiveness, and we are very glad to know that win or lose our girls are good sports. The trophy is nine inches high and has a player in the act of pitching a goal. The player is made of bronze and is on a black base. It is on display in the library.

Ethel Young was selected as a guard on the all-tournament team, and was presented a small gold basketball. Ethel did some unusually good guarding in both games.

Our losing to Westbrook by a score of 34-38, and to Furman by only a few points, didn't bother us so much after we won the beautiful trophy, and placed one player on the all-tournament team.

### Public Address System Is Pride Of School Folks

The Fluvanna community and student body are very proud of the new public address system, which arrived Saturday, November 27.

The students have the eighth period set aside each Wednesday for programs. The students are unexperienced, but it is interesting to listen to these radio programs. The public address system can be moved to almost any room in the school. We are able to use this in chapel programs, plays, and other school activities.

Last Friday the government class had charge of the chapel program. They presented an excellent program over the public address system. Daisy Nell Cavin was master of ceremonies. After the introduction, "Home on the Range," the news report was given by Berry Cribbs.

Another way of testing knowledge without the regular excruciating exams is by a personal interview. Ross Belew acted as the "man of the street" and quizzed some of the brilliant students of the campus. Billy Lightfoot thrilled those who attended with a harmonica solo of "Just Because." Some of the odd happenings of the world were revealed by Eula Landrum.

Following this was a solo of "Beautiful Texas" by Berry Cribbs, with his guitar accompaniment. The sports review of the Class C football team was given by Billie Lightfoot. Next was the one and only Eula Landrum, who played the "Good Granny Rag" in her usual manner of banging the piano.

The nitwit of the campus, H. D. Sneed, ended the entertainment with a nonsense speech portraying Uncle Horace. Sneaking around he found the latest gossip on the students and faculty. The finale "Home on the Range," put every one to his feet ready for the next class.

The patrons are cordially invited to attend these chapel programs each Wednesday morning at 10:15 o'clock. —"The Stampede," Fluvanna.

Without hesitancy, the publishers of The Times say to their readers this full Christmas season that next week's edition, issue of December 30, 1937, will be the most important single publication ever printed in Scurry County.

Of course the edition will be a matter of personal pride to the entire Times force and others who have assisted in preparing it.

Most important of all, the edition will contain dozens of pages—more than 9,000 column inches—of historical data and pictures concerning Scurry County, past and present. This vast storehouse of material will compose the Fiftieth Anniversary Edition of The Times, an edition celebrating 50 years of newspaper ups and downs in Snyder.

The last paper of 1937 will be notable for two other things. It will be an introduction to the 1938 political campaign, which is destined to be one of the most important and hotly contested in the history of county, district and state politics.

It will contain a message direct from Roger W. Babson, the world's ablest statistician. "Cheer up," says Babson, "better times ahead!" If you wish to read the whys and wherefores of this prophecy, read next week's paper. Last year, for the first time, Babson's first-of-the-year prophecy was made available to weekly newspapers—and The Times was the only weekly in this vicinity to take advantage of the rare opportunity.

Fiftieth Anniversary . . . politics . . . Babson! Can you beat this triumvirate for The Times' farewell to the year 1937?

Figure It Out.

Issue No. 5 of "The Southwestern Sports Magazine" contains some interesting articles on Texas football, golf, hunting and other sports. But its inside front cover and its introductory page contain glaringly conflicting statements. The cover page features a full page two-color whiskey ad. Says the introductory page: "Southwestern Sports Magazine is dedicated to the upbuilding of sports in the great Southwest. Whiskey . . . sports . . . upbuilding. If that makes sense, you figure better than The Times figures.

The Terrible Penalty.

Senator Harry Flood Byrd: "Hundreds of millions can be saved in administrative and overhead expenses and simplifying the duplications of government agencies. Other hundreds of millions can be saved by eliminating waste and extravagance from necessary activities and by abolishing altogether the less essential activities. You must remember that public economy, like private economy, is not spectacular or attractive. It is a steady, hard, uninteresting grind. The home hand does not often turn out to greet a returning economist. We talk a lot about it and do little. But under our present perilous situation the longer we defer economy the greater and more terrible the penalty we pay."

Honesty Pays.

Here's a good short news story. A New York tailor found a wallet of \$1,598 one day the past week. He returned it to the owner and was rewarded with a very formal "Thank You!" at the door—not even invited to come in. His friends told him he was a sucker, but Herman Rosenzweig was happy because he had resisted a rose temptation. Well, other friends saw that the story got into the newspapers and the mail brought Herman a rain of one dollar bills. Not only that, but his pressing business increased 400 per cent. Herman said, when visited by reporters: "They said I was a dumb-bell because I returned the money. Well, my shop is packed with work. Who's the dumb-bell now? Honesty—it's still the best policy as well as the correct principle and rule of life." And who is there to question Herman's statement?—Salisbury (Missouri) Press-Spectator.

Clergyman's Month.

Many people are still under the impression that a clergyman has nothing to do except conduct services on Sunday. While it is impossible to list the many duties and demands that are made upon an active rector's time and strength, the following report for November may give some idea of what one was called upon to do: Pastoral calls, 74; sick communions, 62; private interviews, 30; funerals, 7; weddings, 2; Sunday services, 15; week-day services, 12; baptisms, 9; sermons, 9.—Brampton (Ontario) Conservator.

Faster and Smoother.

Whiskey mixed with gasoline will make the car run faster and smoother. It will make the road eat up all the bumps and chuck holes and make the driver thrill until it happens! Then he wakes up in the place of which the minister so often speaks. He will not see the flowers and hear the preacher tell the folks what a good man he was. Yes, whiskey and gasoline mixture is a great thing—for the junk dealer and undertaker.—Colorado Record.

The Cost of Relief.

In the first nine months of 1937 the payments to needy persons from federal, state and local tax funds was \$152,416,000 less than in the corresponding period of 1936, the Social Security board reports. The total of such payments is still high enough, running to a bit more than a billion and a half dollars, or over \$177,000,000 a month. The lowest month in two years was September, 1937, when the relief outlay was \$159 millions.—Menard Messenger.

Outliving Them All.

The Bible has outlived all other books. Emerging from a heavy antiquity it is today the world's best seller. Written in languages long dead it has been preserved in its entirety in 174 other tongues and has been in part translated into over 279 more. The vigor with which it is finding its way into the languages of the race is not abating for, according to the American Bible Society, some portion of the scriptures is appearing in a new tongue at the rate of one every four or five weeks.—The Mission Times.

No Rough Stuff.

Have you noticed in recent months that picture shows, fiction and the daily press have seemed to veer away from so much rough stuff—so many blood and thunder tales? The public is fed up on so much gangsterism, goryness and hell-raising thrills. We're largely a people of comparatively simple tastes, and we want our thrills tempered with horse sense.

A Letter We Like.

The Times likes to feel that its advertising and its news columns in some measure help its readers to enjoy fuller and richer lives. So it is that the publishers appreciate the sentiment of a personal letter received a few days ago from Will C. Grant, advertising manager of the Lone Star Gas System: "We are mindful of your assistance to us in keeping gas users advised about natural gas and modern gas appliances. Both of us, through our cooperative efforts, have made it possible for the public to become further informed about a service that is of utmost importance in its scheme of living."

Blood Relations.

The young Snyder girl who believes that it should be spelled Yule-tied must be a blood relation to the young whippersnapper who believes Christmas cheer should trade "ch" for "b".

Editorial of the Week.

PITY, RATHER THAN CENSURE.

Let's give some lusty cheers for the American Mothers' Sentinel League of Salt Lake City!

The organization struck a responsive chord in the heart of every sentimentalist—as most of us are—with its resolution condemning "the practice of telling any child there is no Santa Claus." The resolution was adopted after children returning from school had reported their teacher as saying "there is no Santa."

How a school teacher, above all others, could display such ignorance, is the amazing part of the thing when every one with an ounce of sentiment in his heart knows that Santa Claus is the most real of beings. On the streets or in the home in Lubbock, or any other spot of our land, one cannot escape the knowledge of his presence through the holiday season. And, as the mother president of the sentinel league said, "those who would teach children there is no Santa Claus rob not only the children's lives but their own lives of joy."

However, we should not be too critical of the particular teacher in this case. Rather, we should think of such persons with feeling of pity.—Lubbock Avalanche-Journal.

The Sensible Thing.

The sensible thing to do if J. Edgar Hoover were not so intent on publicity, would be to cooperate with local officers; giving credit to whom credit is due. . . . Local officers of the law can go only so far in trying to check our revolution of crime, and G-men are supposed to take up where the county official has to leave off. . . . Since the FBI at the moment has the largest personnel turnover of any federal agency, F. D. R. has notified Hoover to change office policies—not men.

Santa Claus.

We can remember when we were under the impression that St. Nicholas was a jolly old fellow with white whiskers and a red suit. Now he is just a poor devil working for a salary, his red suit represents the life's blood spent in an effort to make both ends meet and his whiskers are gray from the task of trying to pay the last installment on last Christmas' purchases before time to buy again.—Memphis-Democrat.

Unemployment Offices.

The list of unemployment offices in Texas published the other day, affords one with a little imagination the idea that manning them ought to go a long way toward solving the unemployment situation. These new offices will get going about the first of the year. You folks voted for this to happen, and don't you forget it.—Floyd County Hesperian.

A fly was walking with her daughter on Jim Pizman's head. "How things change, my dear," she said. "When I was your age this was only a footpath."—Dalhart Texan.

Avoid Accidents By Prevention Is Warning by Cox

"The only way to avoid the useless waste of life due to traffic accidents is to prevent the accident," reads a warning issued by Dr. Geo. W. Cox, state health officer.

"It is not a question of who is right and who is wrong after the accident has occurred," he said. "And automobile accidents never happen merely because of 'bad luck'—there is a definite cause for every one of them, although it is not possible to determine the precise origin of every mishap."

Leaders of the safety movement agree that the most fundamental approach to the solution lies in the education and training of the individual. Safety education includes the training of individuals to avoid accidents to themselves and to prevent accidents to others.

It involves the acquisition of a certain fund of information, the ability to apply this information to concrete situations, and the building up of habits which will make the application of knowledge to situations automatic.

"The dangerous curves and intersections on the highways of Texas are distinctly marked, and automobile drivers can assist greatly in the reduction of deaths from automobile accidents by carefully observing these warning signs."

"Some motorists rely too much on traffic rules and regulations, thinking that if they obey the rules of the road at the time when an accident occurs, no blame can be attached to them. This is not true. The only man who considers himself blameless in case of accidents, when he was obeying the rules of the road, is the one who did everything possible to avoid that accident."

"The consequences of automobile accidents are so disastrous that only when we have done everything in our power to avoid such accidents can we consider ourselves, or expect others to consider us, blameless in the case of accident."

"When each individual does all that he is able to do toward avoiding an accident of any kind, then and then only will our traffic accidents be avoided."

"Texas Parade" Praises Harris; He Visits Again

"Texas Parade," official monthly publication of the Texas Highway Department, and the Texas Good Roads Association, in its December issue carried an article that praised Representative C. L. Harris as "running true to West Texas form."

Almost coincident with receipt of the magazine by several Scurry County folks, the Spur man was in Snyder Monday for a brief visit with his friends.

"Texas Parade" said of the man who represents this district in the House of Representatives at Austin: "Perhaps it is the pioneering strain that has come down to them from their ancestors, but it is a pertinent observation, nevertheless, that West Texas members of the Texas Legislature usually may be found in the thickest work on a tough problem."

West Texas members usually go to the heart of things and exhibit tremendous energy in accomplishing their objectives.

"A first term member of the House of Representatives from that portion of Texas generally regarded as 'West Texas' who is running true to this form is C. L. Harris of Spur, representing the 118th District. At his first session of the Legislature he served on the highly important conference committee on departmental appropriations, a place that many an older member would have been proud to fill. Like other West Texans (and no reflection is offered on other parts of the state), Representative Harris maintained an active interest in many items of particular concern to his district, such as the establishment of a new hospital in West Texas for the care of persons mentally ill, soil and water conservation measures, the conservation of other natural resources."

"He was on the front line against measures regarded as detrimental to the highway program and strongly opposed any diversion of highway revenues. Coming from West Texas, I can certainly see a great need for legislation designed to promote the completion of the highway program, and to accomplish this the highway department will certainly need all of the motor vehicle taxes it can obtain," Harris declared.

Fourteen NYA boys assisting the Stephens County agricultural agent ran terrace lines on 20,000 feet of farm land and checked plane tables maps on four Stephens County farms during the last work period.

Young Speaker for M. E. Meet at Camp

Rev. S. H. Young, presiding elder of the Sweetwater district, preached the principal morning sermon at Camp Springs Sunday for Methodists of the Hermleigh charge. His sermon was followed by a bountiful basket dinner.

Methodist groups represented included Hermleigh, Inadale and Snyder (besides the Camp Springs group). The business session was held from 1:30 p. m. to 2:30 p. m. Next conference will be held at Hermleigh.

The conceited young man had been in the hospital for some time and had been extremely well looked after by a pretty young nurse.

"Nurse," said the patient, one morning, "I'm in love with you. I don't want to get well."

"Don't worry," replied the nurse, cheerfully, "you won't. The doctor's in love with me, too, and he saw you kissing me this morning."

Midway Concert and Box Supper Net \$

Midway had a full house Thursday night for a combined concert and box supper. At the concert, highlights included: The Hobbs quartet, Midway quartet, and an octet. L. M. Irion, president of the Scurry County singing convention, and Mrs. Irion were among out-of-community visitors.

The Midway concert and box supper was held to raise funds to pay Eddie Williams for teaching a 10-night singing school. A total of \$39.50 was raised, which leaves quite a bit in the singing class treasury. The Midway folks wish to thank the 27 Snyder firms for their many useful donations and gifts.
