the City Council and the citizenship as a whole," say friends who presented the formal announcement to the Times, "Snyder has made a remarkable record of economy and progress under the Towle administrations.

"The city has come through perilous times with flying colors, not only remaining on a cash basis but also making a number of worthwhile improvements.

"To former accomplishments of the administration may be added the present paving program, which can be carried through to a successful end only by a mayor who understands the needs of the city and the manner in which these needs may be met through federalaid channels.

"We cannot urge too diligently the need of keeping a man of Mayor Towle's type at the head of our city government. We respectful y present his candidacy, with the sincere believe he will continue to serve, without pay, with the progress of our community as nis chief objective."

### George Outlaw Out For Re-election As **District** Attorney

The Times was advised several days ago by George W. Outlaw, district attorney of the 32nd Judicial District, that he will be a candidate for reelection to the office.

The Sweetwater attorney said in his formal statement:

"In announcing my candidacy to this office I wish to express my appreciation for the support my friends have given me in the past, and if returned to the office I shall continue to handle the affairs in a fair and impartial manner. "As to my qualifications, I refer you to my past record and expe-

rience in the office."

### **Ernest Adams Gets** Into Precinct No. 3 **Commissioner** Race

To the citizens of commissioner's Precinct No. 3 in Scurry County: I am taking this method of announcing my candidacy for office of county commissioner.

I have lived in Scurry County for 26 years, and for the first time I am asking for public office.

If elected to this office I promise to give to the citizens the very best ervice that I can, with the interest the county at heart.

Your vote and influence will be reciated, and I will try to see of you personally before the primary.

Respectfully yours, R. E. (Ernest) ADAMS.

The first trench silo in Scurry County was dug by Will Beavers of the Fluvanna community in the away. early part of 1934. Beavers planned to fill it with cane and hegari, but you who were in West Texas remember how that it became a little drier each day as spring wore into summer and summer ran its course. Well, this resourceful farmer-stockman having been in this country 40 years, was not to be outdone by the weather. A number of his neighbors had

allowed a good crop of Canadian thistles, or we better know them as tumb'e weeds, to grow on their land, so Beavers mowed these weeds while they were still green and tender and put them away in his trench. The winter of 1934 and spring of
