## BETTER FARM PLANNING FOR 1938 SAYS FDA

Better Farm Planning Very Important For Coming Crop Year

Farm financing in this county is evolving from a practice of merely borrowing and repaying money to the practice of planning how to borrow less and meet obligations well in advance. Vernon Slocumb county supervisor, Farm Security Administration, said this week in reporting on activities to the end of 1937.

The county farm debt adjustment committee has helped 33 farmers adjust their indebtedness, and is now working with 1 other farmer whose debts are in serious need of attention. The total amount of indebtedness involved was \$49,123, and covered 5482 acres of local land. The committee also reports \$942 in taxes paid into the local treasury as a result of this work; and the creditors made a voluntary reduction of \$142 on the debts which were larger than the value of the property involved.

These adjustments were a result of cooperation on the part of both the creditor and debtor, after the supervisor and the county FDA committees helped the farmer analyze his problem. This included listing debts and assets to indicate to the creditor that the farmer was doing all he could to meet his obligations in full.

"A majority of farm debts can be economically and satisfactorily adjusted when farmers have some method of learning how to secure equitable financing, and when creditors can be helped to see that the farmer is honestly trying to meet his obligations," Slocumb said. The FDA committee has no money to lend. It can only serve as arbitrator between the two parties, and as a source of financial information for the farmer. It is a section of the Farm Security Administration and serves as a financial advisory council to debt-distressed farmers.

## Cotton Growers At China Grove Talk Lone Seed

Nineteen additional cotton growers placed their names on the order list for the one variety cotton, at a special meeting of the China Grove Agricultural Association held in the school building last Wednesday night, February 23. Jim Merket, president, presided over more than 100 members of farm families, including some 25 farm ladies.

President Merket announced that he would set a special ginning day for the one variety cotton through the harvest period and cooperate in every other way within his capacity to maintain pure seed for the community. Kansas multiple block certified seed was adopted at a previous meeting and confirmed at this session.

"We, who raise cotton must of necessity raise our home food and feed supply and take care of it, if we are to expect a continuous profit," stated County Agent Luke Ballard while discussing various problems confronting agricultural people of the community.

"In order for the county to receive its just and fair allotment of base acres and marketing quota it is mandatory that every farm in the county be covered by a work sheet," Ballard pointed out. "This means that it is up to those who have already signed a work sheet to make it his business to try and influence the non-signers to give this required information rather than to leave it for the county committee to do, as no one else can give the information as correctly as can the operator of the farm."

The business session concluded, delicious cake and coffee were served to all in attendance by the ladies of the community. Among those serving were Mrs. Dan Hamill, Joe Halston, Floyd Merket, Ray Allen, Tom Reeves, Leonard Allen, August Brown, Stanley Merket, Carl Halston, W. O. Brown, Frank Wilson, Joe Neal, O. M. Laster Jr. and H. M. Murphy.

## COUNTY FARM GROUP MEETS FOR CHECKING

About 100 Farms Have Not Been Covered by 1937 Work Sheets

The county committee of the Agricultural Conversation Association of Scurry County met in special session Saturday at the office of the county agent, with J. H. Jean, chairman, presiding. Perry Echols, C. V. Thompson and Alternate Ben Brooks were present.

Approving of SR-9 applications for 1937 payments that have been signed by all interested parties, preparatory to forwarding to the state board at College Station, and check-up of the farm ownership map against work sheet signers as the foundation for the 1938 program according to the Agricultural Adjustment Act of 1938, was the principal order of business.

Several Not Covered. It develops that there yet remain more than 100 farms in the county that are not covered by a 1937 work sheet. These farms will have to be covered with work sheets by the county committee, according to the law from the best information available, in order that the county receive its best possible allotment from the state board.

"It is to the best interest of the county as a whole that the operators give this information, and the 1,500 who have signed should use their very best effort to persuade those who have not signed to sign up in order that the county receive its just dues in base acre allotments and marketing quotas," states Jean.

Committeemen Help. Community committeemen have been notified to assist in spreading this information throughout the county and to develop all information possible for work sheet coverage on those farms not yet signed up.

Official information confirming Secretary Wallace's proclamation for cotton marketing referendum, to be held March 12, has been received, and organization will be set for the holding of the election. It is definitely set forth that the total vote of all cotton producers of the nation will decide the effectiveness of the marketing quota section of the law. If two-thirds of the cotton producers vote favorably then the marketing quota becomes effective for 1938, according to County Agent Luke Ballard.

## Chemists Continue To Seek Acid That Will Dissolve Lime

Geologists and oil scouts were still puzzled late Wednesday at Martin No. 1, 15 miles southwest of Snyder, said to be the second well in the United States that has failed to respond to acids dissolving lime formations encountered.

Powell Chemical engineers were reported to be experimenting this week on possible formulas for acid treatment that will not congest the high gravity oil found in Martin No. 1.

## NEW USES FOR COTTON URGED AT GATHERING

Better Cotton and Ginning Also Emphasized by Dallas Meeting

Victor Schoffelmayer, agricultural editor of The Dallas News, cited figures during the meeting to show that 93 per cent of the 1937 Texas cotton crop had a staple length of less than an inch. "If we are to recover lost markets," Schoffelmayer stated, "short staple cotton must go."

The committee urged establishment of a federal cotton improvement corporation, preferably located in Texas, with 11 directors. This federal research corporation would promote new uses for cotton, longer staple, and assist in restoring lost foreign markets.

Mrs. J. F. Drennan Retires After Giving 17 Years "Hello" Service

By Minnie Lee Williams. Mr. and Mrs. W. H. McQuaid have bought the Hermleigh and Dunn telephone exchanges, and are now operating the Hermleigh exchange. The former operator, Miss Murphree, is still working at Dunn.

The McQuaids have taken the place of Mrs. J. F. Drennan, who has been Hermleigh manager since 1927, when the Standard Telephone Company bought the exchange from J. J. Henry. Mrs. Drennan was operator about five years during the Henry ownership.

The new owners made the purchase from O. I. Griffin of Lorraine, who bought the exchange at Hermleigh from Standard Telephone Company in 1934.

Several new telephones have been installed, and the new manager says quite a few others are planning to put in new phones. McQuaid farmed his place west of Hermleigh several years prior to moving to town last week. He says he will continue management of his farm, although Mr. and Mrs. E. T. Vernon have moved to the place from Hermleigh.

Mrs. Drennan says she will enjoy a rest after 17 years of constant service. She wishes to extend her thanks and appreciation to all her telephone subscribers and patrons for their kindness and promptness in paying their dues, and says she has greatly enjoyed serving the public. She now resides with her husband and father at the C. W. McQuaid place near the Drennan Garage.

Editors' Note: The Times joins the Hermleigh community in thanking Mrs. Drennan for many courtesies extended while she was operator at Hermleigh.

## Don't put up with useless PAIN

Get rid of it. When functional pains of menstruation are severe, take CARDUL. If it doesn't benefit you, consult a physician. Don't neglect such pains. They depress the tone of the nerves, cause sleeplessness, loss of appetite, wear out your resistance.

Get a bottle of Cardul and see whether it will help you, as thousands of women have said it helped them.

Besides easing certain pains, Cardul aids in building up the whole system by helping women to get more strength from the food they eat.

### Mayor Towle Relates How Federal-Aid Projects Have Improved Town

W. E. Burke, district WPA official at Lubbock office, reports the following letter sent by Mayor H. G. Towle of Snyder is the "nicest, most concise" message yet received by officials of the Works Progress Administration:

Honorable H. P. Drought, state administrator:

"Will say in reference to improvements in the City of Snyder that they all have been of the permanent type. The Snyder School gymnasium valued at \$30,000, has a garage built on the east side of the gymnasium, gymnasium and garage materials being of native rock and concrete.

**Paving Discussed.**

"We have completed 24 blocks of asphalt paving, with an estimated value (based on contract paving) of \$158,400.00. Curb and gutter has been completed on these blocks. Base has been completed on 16 more blocks, which are ready for topping. Curb and gutter has practically been completed on 15 more blocks."

Mayor Towle further points out that district WPA officials "have been pleasant to work with, our im-

provements will serve the city for generations to come, and this WPA work has provided a livelihood for some sixty families.

"Last but not least our sewing room, managed by Mrs. Sam O. Nation, has been exceptionally successful, and has provided a living for some sixty families. In all, WPA work has been quite successful in Snyder."

**Officials Pleased.**

A release from the State WPA office at San Antonio indicates the early response by Texas mayors and county judges to a request that they submit reports on their experiences with the federal works program have been particularly gratifying, according to H. P. Drought, state administrator for the Works Progress Administration.

Sponsored by a group of national organizations, the United States community improvement appraisal is designed to gather information concerning the results of the several works programs agencies which have operated during the past five years.

### Hobbs Boys Win Many Places in Livestock Show

At the third annual boys' livestock show held at Roby Saturday, Hobbs F. F. A. exhibitors won a total of 12 places in the 4-H Club and F. F. A. livestock show, at which a total of \$275 in cash awards was given away. Hobbs Vocational Agriculture Teacher C. Littlepage was superintendent of the dry lot calf division.

Mark Cave of Hobbs placed first, showing calves under 775 pounds in the dry lot division, and second in the champion dry lot calf show. Mark's brother Dale placed sixth showing dry lot calves. English Dooley of Hobbs bettered Dale by placing fifth with dry lot calves.

Malcolm White, perennial Hobbs ribbon winner at livestock shows, played fourth showing dry lot steers weighing 775 pounds and over. Carol Hodges of Hobbs placed eighth in the same event showing 775 pound class steers. Andrew Williamson placed fifth exhibiting milk fed steers in the 875 pound class.

L. E. Woods of Camp Springs placed fourth showing fine wool lambs, Barton Willingham of Hobbs placing seventh and thirteenth, with Bob Etheredge of Hobbs placing fourteenth, in the same event, while another Camp Springs boy, Scott Bavousett, placed fifteenth showing lambs.

In the best group of three fine lambs, fed by one, Barton Willingham with his lambs placed fourth, with another Hobbs boy, Bob Etheredge, placing fifth.

The Hobbs F. F. A. chapter placed fourth in the group of three calves fed by one department. Tom Green County Agent W. I. Marshall of San Angelo was livestock show judge, Fisher County Agent T. H. Roensch being general superintendent.

Winners in the third annual Hobbs project show were announced Friday afternoon by judge R. H. Campbell, Sylvester vocational agriculture teacher. Inclement weather hindered the show, but most of the entries came in regardless of the mud.

"Representatives of local governmental agencies, large and small, are best qualified to discuss the results of the works program for they are the ones who have originated projects for the employment of the destitute jobless in their communities," said Drought. "For this reason, they have been requested to supply data indicating on a nationwide scale the extent to which lasting improvements and valuable public services have been realized through the cooperation of local and federal governments."

### Albania Described By Woman Relative Of Snyder Citizen

In a recent article in the Birmingham (Alabama) News-Age-Herald, Miss Frances Youngblood of Washington, D. C., formerly of Birmingham, declares that Albania, tiny country in the European Balkans,

has a rare charm seldom found anywhere on the globe.

Miss Youngblood last summer visited in Snyder with a cousin, Mrs. H. A. Mullins.

One of the most interesting paragraphs from the article follows:

"Natives costumes are more prevalent in this country than anywhere else in Europe. The mountaineers wear tight suits of homespun broadened with black braid

while the city outfit, consists of baggy white trousers, short black jackets with enormous pompons and long black fringe, Turkish style shoes, pointed and turned up at the toes and a white fez complete the costumes unless you wish to include a pair of heavy silver pistols at each hip and a wide-bladed knife with pearl inlaid handle of beautiful design frequently worn in the broad, colorful girdles."

### Independents on Top in Dazzling Melee in Snyder

Between 300 and 400 fans Saturday night saw the most dazzling display of basketball ever seen on a local court, when the independent Slaton Oilers, one of the nation's top teams, outpointed the Stephen F. Austin Teachers College quintet from Nacogdoches, 40 to 35.

A remarkable passing game by the West Texans featured a tilt that included one-hand shots from unheard-of angles, lightning-fast scoring plays and machine-like dribbling. Out of the bevy of outstanding players emerged Massey, veteran Teachers' center, as high point man, with 14 tallies.

Not far behind was Jack Miller, with 12, Leroy Crews, with 10, and Jim Neely, with 9, all of them Oilers. The five first stringers from Slaton included three brothers, two of them former Tech stars. They are A. Leroy and Snooks Crews.

Included on the East Texas lineup was Matterson, forward, who was all-state forward on the Interscholastic League team that won the state championship three years ago under the coaching of Glen Berry, Snyder basket mentor.

Working as smooth as a clock, the Oilers quickly jumped into a 14-3 lead, but a spurt by the Lumberjacks in the second period brought the count to 20-18, favoring the Oilers, at the half. Near the close of the third quarter the Teachers went into the lead for the first time, 29-28, and the lead switched three times up to 34-41.

### Paralysis Takes Life of Another Pioneer Mother

A stroke of paralysis four days earlier brought death in a local hospital to Mrs. E. L. Crowder, pioneer Scurry County mother, last Thursday night at 9:20 o'clock.  
Mrs. Crowder, who was born in Kentucky December 4, 1863, moved with her husband to the Dunn community in the early days. Mr. Crowder died April 12, 1931, and Mrs. Crowder moved to Snyder about two years later.

The long-time county citizen had been a member of the Baptist church for many years. In charge of final rites at the Dunn Baptist Church Saturday afternoon, 2:00 o'clock, was Rev. J. W. McGaha, veteran county Baptist preacher, and Rev. Ira Harrison and Rev. Cone Merritt, assistants. Burial was in Dunn cemetery, with Odum Funeral Home in charge of arrangements.

Pallbearers, most of them grandsons, were as follows: Elmo Crowder, Lewis Blackard, Durwood Hall, Cleve Blackard, Elton Crowder, Max Brownfield, Doyle Crowder and Wayne Williams. In charge of the flowers were Mrs. Wayne Williams, Mrs. Thelma Freeman, Marian Crowder, Allene Wilson, Virginia Taylor and Mary Ellen Williams.

Survivors are as follows: Four daughters, Mrs. H. M. Blackard, Ira community, Mrs. Eva Hall, Winters, Mrs. Joe Wilson, Cooper, New Mexico, and Mrs. Myrtle Grady, Dallas; two sons, Frank and R. G. Crowder of Dunn; two half-brothers, Joe Payne, Clam Scott, Oklahoma, and Jack Payne, Snyder; one sister, Mrs. Edna Eaves, Pooiville, Oklahoma; 14 grandchildren and five great-grandchildren.

### Thrills Aplenty in Trip to Old Mexico

When one bullfighter, one horse and eight bulls were killed in one afternoon of bullfighting, P. D. Lambeth almost fainted in the grandstand. This gory bit of entertainment was just one slice of adventure from the week-long trip into Old Mexico, from which he returned several days ago.

The local Bryant-Link Company employee went the trip, with all expenses paid, because the Snyder store sold more Philco radios, during a contest that closed January 31, than any other Bryant-Link store. A number of other Philco contest winners were in the party of which Lambeth was a part.

Four new members were voted into Troop 35. At the scout meeting next Saturday morning at 10:00 o'clock, Scoutmaster Maples reports membership cards will be presented all members. He urges all scouts to be present at the Saturday morning meeting to get their membership cards.

New Scout members are: William McMorris, Lance Mullins, Hewlett Duncan and Melton McMorris. The two Boy Scouts awarded tenderfoot badges recently are Page Cleavenger and Billy Gray.

### People Urged to Help Completion of School Rolls

County Superintendent Frank Farmer reported Wednesday that the county-wide scholastic census that will be taken during March is getting underway in Scurry County. A state law, Farmer explains, makes it compulsory that the scholastic census in each county be taken during March.

Included in the scholastic census are those who will be six years old or older previous to September 1, 1938; but not over 18 years old previous to next September 1. Married people within the scholastic census age limit will be put on census rolls, although they may not be attending school.

The per capita for each person of school age is \$22, which makes it important that census takers list each eligible scholastic, in order that county public schools may receive their proper allocation. Just to make sure each family understands the proper age limit, state

**Several Models In One For W. W. S.**  
Woodson W. (We Won't Work) Smith, who has corralled packages and a wreck whoopie for Railway Express Agency since one of the oldest wars, a few days ago fixed up a regular-style express wagon. Now he is protecting his deliveries from this wet weather, riding in high style, and "h-h-ying" most of his friends.  
The new wreck of the Hesperus is very much like the one-hoss shay, except that it hasn't fallen down—yet. It has a motor of one denomination, a body of another, and various parts of doubtful parentage. It's quite a wagon, and Snyder's proud of its W. W. W.

## "Declaration of Policy."

In a copy of the Agricultural Adjustment Act of 1938, mailed to The Times through the courtesy of Congressman George Mahon, a total of 157 words are required to give the "Declaration of Policy." If you are interested in reading the other 82 pages of the closely printed booklet, please form a line just outside the Times office and wait your turn. Better still, write to the congressman and ask for one of the entertaining copies.

No one pretends to know much about the new act, for it is so complicated that a Chinese philosopher couldn't give you the gist of it after a dozen readings.

The announced purpose of the act is: "To provide for the conservation of national soil resources and to provide an adequate and balanced flow of agricultural commodities in interstate and foreign commerce and for other purposes."

In the opinion of most close observers of the cotton situation, Uncle Sam would get along a lot better with his farm-aid plans if he would bear down less on the infinitesimal plans of the average farmer and more on the problems of international marketing.

But the principal thing before the house just now is that the new act of government is with us, that it is designed to help the farmer, and that the farmer who does not take advantage of its opportunities is just not the farmer he should be.

## "Snow White" Teaches.

"Snow White," that fairy tale-movie feature little lady-picture, who is awaited with pulsing hearts by dozens of Scurry County youngsters, may bring Hollywood bigshots out of their stupid coma, according to Jimmie Fidler, irresponsible columnist.

It seems that the movie makers, often said to be the most progressive business men in the world, are falling several years behind toy makers and other manufacturers and merchants. They are just now letting it soak through their skulls that they can appeal to children (and adults too) with clean pictures for children.

And that brings up a local question. Why wouldn't it be profitable to picture show operators to set aside one day each week to one show for pictures that appeal primarily to children. . . pictures that forget crime, sexy sex, imperfect triangles and rip-roaring, gun-shooting Westerns?

## Trade and Banter.

From a far-sighted exchange comes this contribution from the poetic impulse:  
Out of a hat  
The magician can conjure a rabbit.  
But from a new hat  
A good saleswoman  
Can conjure a new woman.  
And the woman herself will then be something  
To conjure with.

## Current Comment.

By LEON GUINN.

Personal: All thanks to Dr. A. O. Scarborough, J. L. Martin, editor of The McCamey News, and other friends for their Current Comment compliments. . . Our recent weather, with that lovely thing around the corner we call springtime, reminds me of a recent fable concerning this business of preview bathing suit displays in February; fall and winter coats previews in August.

Once a New York merchant by the name of Scoop-em-all got sold on the idea of preview style shows, and began displaying June bride trousseaus in December, summer bathing suits in February, and fall furs and coats along in August. . . He became obsessed with the idea other New York firms were trying to get ahead of him, so instructed buyers to begin buying 1939 designs after June 15, 1937.

Not being satisfied with gaining fame as the first American introducer of present day feminine what notes three years before hoop skirts were left by the wayside, Scoop-em-all got in the habit of sending Christmas cards and presents at Easter; New Year cards and greetings at Thanksgiving, and celebrating July 4 Christmas Eve. . . In his late sixties Scoop-em-all took very sick one day (from viewing what styles might be 10 years from now), and thinking of a front page scoop, one New York daily had a long obituary staff written.

In the excitement of getting a late extra special on the streets, when Nick Gutter Rat played a couple of "typewriters" on the East Side mob, and watched them fall off Brooklyn Bridge one by one, the daily carried in four deck heads Scoop-em-all's demise. . . Very irate, Scoop-em-all demanded an apology in the next issue, or else—Talk, talk. . . Not to be outdone, the city editor sanctioned this release: "Little Master Scoop-em-all was reported today to be cutting his third baby tooth. . . Due to a typographical error, Little Scoop-em-all was yesterday reported dead at 67. . . In an exclusive news interview, Scoop's nurse, Miss Gern Free Uniform, said this morning the young master had just received a gold handled teething ring from Mayor Gardenia."

The Scurry County Times is the only newspaper in world that is published of, by and for Snyder her and trade territory.

## "To a Snyder Friend."

In the following lengthy editorial, published a few days ago in the Lubbock Avalanche-Journal, Charley Guy throws a number of good-natured brickbats at The Times. Frankly, it is one of the most enlightening editorials we have read recently. Some of the facts we knew; some we did not know.

But the chief point of the Times editorial was meant to be this: That the level Plains and the rolling Plains boast, cuss and argue over cotton more than over everything else combined. We do it here in Scurry County, when we should be paying more attention to our cattle, our sheep, our grain, our chickens, our gardens.

Charley's editorial is a gentle and deserved reprimand for a misstatement that was not intended. Maybe, as the writers at Lubbock and at Snyder earnestly hope, this exchange of editorial facts and fancies will help people . . . and newspapers . . . talk more about the diversified farm and ranch industries that really make West Texas.

Charley writes: J. C. (Jake) Smyth, co-pilot of the Scurry County Times, Snyder, in a recent editorial in the newsy, interesting, well-edited newspaper, took a little fling at the South Plains for boasting of its cotton record. He took a news release of Congressman George Mahon as the basis for his thought and elaborated on the need of diversification.

The particular paragraph that interested The Morning Avalanche, said:

"Our point? It is this: let the level South Plains counties raise nothing but cotton until their hair turns as white as the fleecy staple on their expansive acres. Let them brag about their production to visitors. And cuss about the low price to their neighbors. As for Scurry County, let her gird her loins for an intensive campaign that will consider cotton only as one of a number of 'money crops.'"

Brother Jake, we are surprised! Where have you been all these years. Don't you know that the South Plains has a wide diversity of agricultural industries?

Take dairy cattle for example. Largest cooperative creamery in Texas is at Plainview; the largest Jersey Cattle show in Texas, equal to the Dallas State Fair, is held in Plainview each spring. (Ask D. T. Simon of the Texas Jersey Cattle club about it.) Armour & Co., has a creamery at Floydada; Kraft-Phenix Cheese Co., has a cheese plant at Lamesa, the second county west of you and they've got lots of registered Jerseys running around in that county, too!

There is a creamery at Tulia that a Lubbock man, Henry Teubel, is owner of; Littlefield boasts of a creamery of some importance as does Spur. Hereford also has a creamery.

We left Lubbock until last. More creamery butter is churned in Lubbock than in any other point in Texas. One pound out of four in Texas comes from the Hub City. Lubbock has three plants.

Again, in the egg cracking business three Lubbock concerns handle eggs for shipment. Lamesa has one just starting that will operate until summer.

Take cheese, Abernathy has the pioneer plant and it pays from \$60,000 to \$75,000 a year to farmers, depending on the price of milk. Plainview has a cheese plant and Lubbock has one. Spur now is working on a cheese plant.

Take irrigation for example, Hale County raises thousands of tons of alfalfa annually; Floyd, Lamb, Bailey, Swisher, Castro and other counties produce the crop under irrigation. They also raise produce such as beans, peas, potatoes, sweet potatoes, tomatoes, corn and even okra.

We've got cattle feeding and sheep feeding on the South Plains, Jake. Commercial feeders will probably feed 70,000 to 75,000 head in a year ending next August. Farmers may equal that amount.

Last year we harvested between 16,000,000 and 18,000,000 bushels of wheat; sold the former amount for better than a dollar per bushel; the latter is going at from 85 to 90 cents or better.

Grain sorghums—75 per cent of Texas grain sorghums come within 75 to 100 miles of Lubbock; as much of the sudan seed for commercial planting.

We pasture sheep on the Plains. At least 300,000 head were pastured or fed this year. Twenty thousand were fed ensilage in one pen at Levelland, for example.

Now Jake, in case you did not see an article concerning the farm income of this trade territory of some 20 counties, including your own, we will give you some information on the income for 1937. This, by-the-way is still coming and is making general business conditions much better than in most other sections of Texas.

Grain sorghums, sudan and corn will add to the income of area farmers, \$37,000,000; livestock, \$14,825,000; produce, \$6,350,000; wheat, \$16,000,000; other crops, \$650,000; cotton, \$43,000,000.

This territory sells and ships 150,000 head of hogs; 75,000 to 100,000 calves sold and 100,000 more head fed out; 150,000 sheep grazed; as many purchased and sold, and 50,000 head bred and sold; state certified grain sorghum seed added \$150,000 income and a number of other crops add to the grand total.

In closing, Jake, let us tell you this is only part of the story; because of lack of space, we've had to hit the high spots and let it go at that.

So pardon the length, Jake, but we thought you'd like to know!

## One of County's Earliest Settlers Buried Yesterday

Mrs. Bertha Sarah Gann, 79, one of Scurry County's earliest settlers, died at her home in Snyder Tuesday morning at 5:30 o'clock. The pioneer Snyder woman had been confined to her bed for 18 weeks, following a stroke of paralysis. Born near Austin January 28, 1859, Mrs. Gann moved with her first husband, E. Q. Thompson, to Snyder June 1, 1889. Mr. Thompson died here in 1890. Her second husband, J. H. Gann, to whom she was married in 1892, died in 1916 at Bridgeport. Mrs. Gann has been a member of the First Methodist Church since she was 18 years old. Funeral services were held at 3:00 o'clock Wednesday afternoon at the local Methodist church, with Rev. C. E. Jameson of Colorado, assisted by Rev. H. C. Gordon, officiating. Maples Funeral Home was in charge of burial in Hillcrest cemetery. W. R. Bell, Joe Caton, C. W. Morton, I. H. Walton, W. W. Smith and W. E. Doak were active pallbearers. All of Mrs. Gann's old-time friends were named as honorary pallbearers. Mmes. Loy Logan and Buster Curtis, Neoma Strayhorn and Allene Curry were in charge of floral offerings.

One son, Ed J. Thompson, Snyder, and one granddaughter, Jan Thompson, Ft. Worth, survive. Other survivors include six stepchildren, four of whom were present for final rites Wednesday, four brothers and six sisters.

Stepchildren who attended the funeral were: Mrs. Ella Gilmore, Mrs. Lela Stovall, Huey Gann and Walter Gann, all of Ninnekah, Oklahoma. Mrs. Emma Morgan of Bridgeport and T. G. Gann of Ninnekah were unable to attend, as were the aged sisters and brothers, Mrs. T. G. Gann and son, Mrs. Walter Gann and two daughters and Mrs. Stovall's son of Ninnekah, and Miss Thompson of Ft. Worth were the other out-of-town relatives who were present.

## TEXAS HOTEL, CAFE CLOSED

A Snyder landmark went the way of most landmarks several days ago, when the Texas Hotel, above the first building east of the square on the highway, was taken over by R. C. (Bud) Miller, operator of Olds Service Station.

Walter's Cafe, also in the building, was also purchased by Miller. Equipment of both cafe and hotel were retained by Mr. and Mrs. A. E. Walton, who had both businesses leased. The equipment has been moved out, and hotel and cafe have been closed.

Miller has announced no definite plans for use of the entire building. He is now using the lower corner portion for his service station and body works.

## District Missionary Plans Baptist Meet

Rev. J. J. Strickland, district missionary, has been in Snyder this week making plans for the District 8 annual meeting of Baptist churches, which will be held in Snyder March 17-18. He said a crowd of at least 500 is expected from a territory that includes such larger churches as Midland, Big Spring, Lamesa, Colorado, Roscoe and Snyder.

State speakers at the convention will include: Rev. R. C. Campbell, state secretary, G. C. Hopkins, state Sunday school secretary, and T. C. Gardner, state BTU secretary, all of Dallas.

## Sheehan Assists With Show.

John Sheehan, son of Mr. and Mrs. John R. Sheehan, senior student, has been chosen one of the division managers for the 10th annual engineer's show to be held on the Texas Technological College campus April 8 and 9. He will have charge of chemical engineering displays, it has been announced. Sheehan made the first A in chemical engineering that has ever been awarded in the Tech the first semester.

## Commendation of Hermleigh School From Inspector

Commendation of the Hermleigh school system was received this week by Superintendent W. T. Hanes from the state Department of Education. The report was based on the report of Miss Madge Stanford, deputy state superintendent, who is supervisor for this area.

Approval of one and one-half additional units of affiliation, bringing the total for Hermleigh High School to 24½, was announced. The new credits are one-half in commercial law and one in bookkeeping, this trend toward a vocational curriculum being in keeping with the recently adopted school-wide plan.

The four principal points of the supervisor's report are summarized as follows: Plan of making pupils report to parents has been based upon the new curriculum; excellent exhibits are required of the teachers; each teacher is required to spend one day each semester visiting in some school system they consider better than their own; a business atmosphere prevails throughout the school, yet not to the extent that teachers and pupils feel suppressed.

The Times has a complete line of office supplies.

## WORLD DAY OF PRAYER NAMED

At a meeting of local ministers last week plans were laid for the union observance of the World Day of Prayer this Friday. This day has been designated by the inter-denominational missionary agencies as a time for prayer for the work of Christ throughout the world. It is set for the first Friday in Lent each year and is observed in more than fifty countries of the world.

The annual service of prayer in Snyder will be held in the First Methodist Church at 10:00 a. m. on March 4. Representatives from the various churches will have part in the program which will last for

Mr. and Mrs. Earl Hicks were in Abilene on business last week.
