READY FOR FUN AT HERMLEIGH

Everybody's ready for Friday fun of various kinds at Hermleigh. The occasion will be an old-fashioned basket picnic, with trimmings. After the basket picnic at noon, two ball games will be played. First game, between candidates and Hermleigh business men, will be in costume. Game No. 2 will be between women of the faculty and women of the community. After the games, candidates—and a number of them have already accepted invitations to the affair—will be given an opportunity to speak. At noon, each participating family will furnish its own basket, and candidates will furnish the old-fashioned barrel lemonade.

COUNTY WELL DOWN TO 1,604

Report from the Coffield & Guthrie, Spears & Brownfield No. 1, southwest of Snyder, indicated yesterday that the hole is being cleaned at 1,604 feet before casing is re-run. The cleaning job was necessary after a collar clipped its threads while casing was being run, and the casing fell 89 feet. Top of the lime was reported at 1,510 feet last Saturday. Hitting the lime at this level gives the well a "plus datum" of 784—the number of feet above sea level. Operators consider this a good showing. They believe it indicates possibility for at least a fair well. The well is located in the northeast corner of the southwest quarter of Section 130.

MEMORIAL DAY TRIBUTE TO BE GIVEN SUNDAY

Joint County Service at Snyder Cemetery to Include Grave Decoration

Annual Memorial Day tribute to the county's war dead will be paid Sunday afternoon, 3:00 o'clock, at Snyder cemetery, with the Will Layne Post of the American Legion in general charge. Rev. Ira Harrison, pastor of the First Baptist Church, will preach the sermon of tribute to those who died in any war in which the United States has had a part. Graves of 105 veterans will be decorated in the local cemetery, according to W. P. King, Bill Nichols and Harry Lee, members of the legion decoration committee. Veterans in the various other communities of the county have been requested to decorate graves in their cemeteries before coming to the joint service at Snyder.

The memorial service will include firing of salutes by members of Company G, Texas National Guard, Legion Commander Boss Baze joins the decoration committee in urging that all who have flowers leave them some time prior to the service at Bell's Flower Shop. Mrs. W. R. Bell annually gives her services to arranging the flowers for the graves.

Since there is a shortage of flowers this year, due to late freezes, wind and hail, everyone who has even a small number of flowers is urged to contribute them. The public is invited by legion officials to join the "buddies" in paying tribute to those who gave their lives for their country.

Vacation School For Bible Study Completes Plans

Following the final conference of leaders of the annual vacation Bible school Sunday afternoon, definite plans for this year's community-wide school were announced. Dates will be June 6 to 17, Monday through Friday of each week. Sessions will be held from 4:00 to 6:00 o'clock. Opening assembly will be at the First Presbyterian Church at 4:00 o'clock Monday, June 6. After assembly, the children will be divided into five departments and they will go to cooperating churches as follows: Intermediates, First Christian; Juniors, First Methodist; primary, First Presbyterian; nursery, First Methodist. On the morning of the closing day, June 17, there will be a picnic for the entire Bible school group. In the evening of the same day the closing exercises will be conducted. Expenses of the school will be cared for entirely by freewill offering on the final night. Children from two years of age through high school are invited to the school. Those who are too old to be in one of the departments will be given an opportunity to assist with the younger children. Dr. W. Dickinson, federal field man of this area, with headquarters at Abilene, made his second inspection throughout Scurry County last Thursday with County Agent Lake Ballard. While inspecting the zoning practice on the J. W. Clawson farm in the

Electrolux Display Now in New Building

With Joe Hendricks continuing at the helm, the Servel Electrolux display is now being seen in a new modernized location. The sales room and office moved several days ago from a half block west of the square to three doors north of the square. Jointly occupying the building that formerly housed Maples Funeral Home is the new Scurry County Chamber of Commerce office. A partition has been added, and both sides have been painted and remodeled. Stinson Drug Company is local agent for Servel Electrolux.

"Pick & Pay" Sign. One of the most recent additions to the east side of the square is a large sign across the awning of "Pick & Pay," operated by Marcel Josephson. In addition to this large black sign on an orange background, the store has new permanent window signs.

Snyder will hold baccalaureate service at the First Methodist Church Sunday evening. Commencement exercises will be held at the First Baptist Church Monday evening. Full high school and grammar school closing details will be found elsewhere.

Ira, last of the larger schools to close, will hear Rev. Ira Harrison of Snyder in the baccalaureate program Sunday evening. Zollic C. Steakley of Sweetwater will be the commencement speaker Friday night, June 3. Lloyd Mountain and Plainview, among the smaller schools of the county, completed their work Friday. A high school play was given at Plainview last (Wednesday) night.

Folks Grin When They Crash Lights

"You're uptown now, boys!" "Who says Snyder's gonna stay out in the sticks?" "It's pretty hard to learn out here in the country, how to act when you're in a city."

"Well, I'll be..." So runs the babble of voices as the new traffic lights silently steam their "Go" and "Stop" invitations. Many folks have not learned of the signals that were installed Tuesday at the two highway intersections on the Snyder square. Most of them run through or part-way through the lights before they realize what's happening. Practically everyone is light-hearted about the whole matter, since traffic accidents, smashed fenders, injured jay-walkers have convinced most folks that strict driving and walking rules are essential. Even folks around the square are having a time remembering the lights. When a kading business man or official remembers, about halfway across the street, that he is violating the new traffic law, he grins like a small boy, and the sidewalk crowd enjoys it.

City officials expect it will take several days to become accustomed to the lights. In the chief traffic officer's role is Sid Bruton, whose chief job is to gradually educate folks, courteously and patiently, to the new order of things. A few simple rules for drivers will help solve the light-signal problem:

1. Keep to the right and don't cut corners.
2. Watch the light. Don't go forward or turn to the left until the green flashes on.
3. You may turn to the right on red signal after coming to a complete stop. If you do not plan to turn to the right, try to leave space for other cars to pass you on the right.

STATE LEADER SAYS HOPPERS REAL MENACE

R. R. Reppert, Here Wednesday, Tells of \$20,000,000 Fight in Texas

R. R. Reppert, state leader in grasshopper control said Wednesday in The Times office that grasshoppers promise to be a real crop menace in many parts of Texas unless they are fought bitterly before they really "get going." Texas is waging a \$20,000,000 fight against grasshoppers, Reppert said. He came to Scurry County from Dallam County, on the upper plains, where the hoppers promise to do serious damage unless they are checked. He exhibited pictures from Dallam County to show as many as 1,200 tiny hoppers to the square foot. He said government control has made good headway in that area. Scurry County Grasshopper control committee met in the offices of the county agent Monday, with Chairman D. M. Poage in charge. State Leader Reppert was scheduled to meet with them at that time, but wired from Amarillo that the seriousness of the situation in the North Plains territory forced him to postpone his Scurry trip. Dr. W. Dickinson, federal field man of this area, with headquarters at Abilene, made his second inspection throughout Scurry County last Thursday with County Agent Lake Ballard. While inspecting the zoning practice on the J. W. Clawson farm in the

GO TO CHURCH DAY IS SLATED

Sunday, May 29—next Sunday—is "Go to Church Day" in Snyder. The day is being set aside for church going morning and evening. Mayor H. G. Towle has issued a "Go to Church" proclamation, and the special day is also being pushed in schools, clubs and elsewhere. Churches of the community plan special morning services, and pastors are urging their members to attend all services during the day. Pastors and church leaders say: "Churches are the backbone of our community. Go to the church of your choice next Sunday." The churches are cooperating in the joint Snyder High School baccalaureate service at the First Methodist Church Sunday evening.

HE STRUCK A MATCH-TANK SHE GO BOOM

"My Bonnie looked into the gas tank. The height of the contents to see. He lighted a match to assist him—O bring back my Bonnie to me." His name wasn't Bonnie, and he didn't have to be brought back—but he was lucky to get only a good singing when he decided to find out about his gas supply, with the help of a match. It happened Friday night about 10:00 o'clock, in the Magnolia Service Station driveway. The driver of an independent gasoline truck, bound for Sweetwater with an empty tank, couldn't start his truck after he stopped just north of the square. He pushed the truck downhill, into the service station driveway, without results. Deciding he was out of gas, the driver decided to take a look with the aid of a match—despite the protests of a companion. The resulting explosion gave the driver a good jolt and singeing, and caught the cab upholstering afire. An extinguisher from the station, in the hands of Leland Autry, kept the young blaze in check until the fire trucks arrived with their stream of foamite.

PROCLAMATION Go-to-Church Sunday

Since it was carved out of an Indian-buffalo wilderness in the days of our parents, the Snyder community has been God-fearing. It is fitting, therefore, that we pause at least once a year, in special worship services, to consider the vital influence of God-fearing people and of our houses of worship. Now, therefore, I, H. G. Towle, Mayor of the City of Snyder, do hereby proclaim Sunday, May 29, 1938, as "GO TO CHURCH SUNDAY." And I urge the people of our community to fill our churches on this date. Go to the church of your choice—but go to church! H. G. TOWLE, Mayor, City of Snyder.

HAIL WOLCOTT AS A SECOND JESSE OWENS

Snyder-Rice Sprinter, Olympic Threat, Given Nationwide Headlines

Congressman George Mahon favors The Times this week with a clipping from the Washington Post—a clipping that proclaims Snyder's Fred Wolcott, in picture and lengthy story, as "the man they've been paging since dusky Jesse Owens quit the amateurs." "Here comes that blond hair," proclaims the close-up picture of the Rice Institute sprint star, as he stretches arms, legs and mouth for another high hurdle. "Blond as the former Ohio State star is chocolate," the story relates, "the hurdler is a sensation track coaches believe will improve before the 1940 Olympics games roll around at Tokyo, Japan."

Two more appearances are on Wolcott's calendar this season. He will go to the National Collegiate Athletic Association meet at Minneapolis June 17 and 18, and the National A. A. U. at Buffalo, New York, July 2 and 3. "Nervous little Emmett Brunson, the Rice coach has decided to enter Wolcott only in the hurdle events of the two big meets," informs the Washington paper.

"True it is that Wolcott has stepped the 100-yard dash twice in '35 this season and is the anchor man on a great Rice sprint relay team that shattered the Drake Relays mark, but Brunson believes a bit of specializing in the timber events will give the low-headed youngster a shot at some American and world records."

TWO JOBS FOR COUNTY ROADS

Two highway jobs for Scurry County have been arranged for the near future, according to word reaching Snyder yesterday. Approval of a four-mile Highway 101 project was announced from WPA headquarters at San Antonio. It includes clearing, grubbing, draining, grading from the end of the present project, ending about seven miles south of Snyder, into the edge of Dunn. Tuesday's Abilene Reporter-News said 104 workers may be employed, federal funds are \$12,891, and sponsor's funds are \$23,193. Low bid on the seal coat job on Highway 7 from Snyder to the north Scurry County line was announced Tuesday from Austin by the State Highway Commission. This is a regular highway department job after new roads have "settled." The Highway 7 stretch north of Snyder was completed in 1936. Public Construction Company of Denton entered the low bid. Double asphalt surface treatments for a portion of Highway 15 in Dawson County is also included in Tuesday lettings.

Irwin's Drug Store Offers Refrigerator

A six-foot Westinghouse electric refrigerator in the front of Irwin's Drug Store proclaims that John Irwin has been named as local agent for the boxes. He points out that the refrigerators are made by the Westinghouse people whose name has been famous in electrical appliances for many years. Features of the Westinghouse include economy of operation, unusually effective storage space for meats, and "kitchen tested" performance.

Wading Pool Added To Club Equipment

Completion of a wading pool for kiddies was announced a few days ago by J. W. Scott, president of Snyder County Club. The small pool, with sloping bottom to care for various ages of youngsters, is at the south end of the large swimming pool. Summer opening of the pool and the golf course with a get-together of members and their families will be held in the near future, Scott said.

Worst Hail Season Is Bugaboo to Crops And Property

Window panes crashed, shingles cracked, crops turned to slashed blurs of green or were completely covered by sand and silt. It was Saturday afternoon, between 4:00 and 5:00 o'clock. All the while, the hailstones and the wind and the rain were beating fearful tattoos in the hearts of men, women and children. "We've never seen anything like this before," said many old-timers and practically all the new-timers.

Thousands of dollars in damages—probably \$15,000 to \$20,000 insured damages—grew out of more than an hour of wind-swept rain and pounding hail.

RAIN IN MAY

The official gauge in Snyder, over which Mrs. B. G. Johnson presides, shows the following rain totals for May, up to Wednesday, afternoon, with each reading indicating the 24-hour period prior to 8:00 a. m.:

May 4	.19
May 9	.02
May 10	.07
May 12	Trace
May 17	.16
May 19	1.50
May 22	1.35
Total	3.29

Many observers were so impressed by Saturday afternoon's hail, wind and flood waters that they guessed the local rainfall at figures varying from two inches to five inches. But the government gauge, in North Snyder, showed only the 1.35 total indicated in the above table.

Dry Creek reached a new high peak, within less than a block of the square north and east. Store keepers and housewives who were worried about broken windows and leaking roofs turned their attention to rapidly rising flood waters that came with the early-evening sunshine following the storm.

Deep Creek went out of banks in places, too, but its fury was far less than on several occasions in recent years.

Many Farms Damaged. Many farms were damaged. Heaviest losses from hail were west six or seven miles, east and southeast and north five to 10 miles.

Many fields were leveled where flood waters had never been before. Replanting of cotton, feed and gardens over hundreds of acres is the order of the day. Grain in the heavy hail and flood area was so badly damaged that much of it is already being grazed, or plowed up for planting of another crop.

Livestock in a few cases returned late in the evening with bloody backs, but no stock casualties were reported.

The wind twisted in spots, uprooting a tree near the First Baptist Church, ripping limbs from many others, tearing down outhouses, small telephone poles and other man-erected things here and there.

Champion Hail Season. Most old-timers agree that this is the champion hail season of all time for Scurry County as a whole. In mid-April a hail brought damage of at least \$20,000, mostly to Snyder business houses. Thursday of last week a several-mile strip was hit by hail in the Pleasant Hill community and on a few adjoining places.

Small hail storms and intermittent

Hermleigh Entertains Snyder Lions And Other Visitors Tuesday at Noon

Members of Snyder Lions Club and several other Snyder and Hermleigh business men, plus several county school superintendents, were guests Tuesday at noon of the Hermleigh school, with the auditorium of the 12-teacher school as the setting.

It was a good-will gathering, according to S. L. Morgan, Hermleigh grammar school principal, who was master of ceremonies. Speakers who stressed the increasing bonds of friendship, and the growing need for mutual cooperation between Snyder, Hermleigh and other communities of Scurry County, included:

Cooperation Stressed.
A. C. Preuit, president of Snyder Lions Club; W. T. Hanes, Hermleigh superintendent, who especially thanked Hermleigh and Snyder for their support of his administration, and Mrs. W. K. Roberts of Hermleigh, especially, for her assistance "when the going was rough."

Elmer Taylor, superintendent of Ira consolidated school; M. H. Greenwood, superintendent of Pyron

A copy of "The Cardinal Call," Hermleigh's second annual yearbook, with names of all luncheon attendants on an autograph page, was presented to the visitors, for safekeeping at The Times office, as a token of Hermleigh's friendship for Snyder.

Midway BTU Host; Snyder Selected as June Meeting Site

Midway was host Monday night at a BTU zone meeting that attracted both Scurry and Fisher County visitors. Song services, which started at 8:00 o'clock, were in charge of Lawrence Deavers, with BTU Vice President Jack Inman presiding over the business session, which included reading of former meeting minutes. A large delegation of Snyder people was present at the Midway session.

During spirited discussion, Snyder was selected as the next BTU zone host the fourth Sunday in June, with Rev. Ira Harrison entering the successful bid. Quotations on "Soul Winning" were followed by a special number given by the Williams quartet of Hobbs.

Rev. Cecil Rhoades delivered the sermon of the evening on "Getting Ready For the Summer Revivals," with a special following on the "BTU's Part in Soul Winning." Following an evangelistic appeal, the May BTU zone meeting was adjourned with a prayer by Rev. Leslie Parks, Midway preacher. The Midway pastor, Rev. Buster Edwards, was general chairman in charge of the program.

W. T. Black and J. A. Black and their families were week-end guests of E. A. Black and daughter, Susie. The Lamesa men are sons of the local pioneer.

Mrs. J. E. Sneed, Formerly Fluvanna Citizen, Succumbs

Several Scurry and Borden County citizens were in Winters Sunday afternoon to attend funeral rites for Mrs. J. E. Sneed, 79, who lived with her husband in the Fluvanna community from 1919 until 1924. Mrs. Sneed died Saturday afternoon in a San Angelo hospital after a week's illness.

The family moved to Winters in 1924, and Mr. Sneed died in 1932. Since 1932 Mrs. Sneed has been living with a daughter, Mrs. Elmer Dorsett, who moved to San Angelo a year ago.

Burial was in Fairview cemetery, after rites were held at the First Baptist Church, with Rev. W. T. Hamor, pastor, officiating. Mrs. Sneed had been a member of the Baptist Church for 62 years.

She was the mother of 13 children, 10 of whom survive. They are Oscar Sneed, H. D. Sneed, Claude Sneed of Fluvanna, Mrs. G. W. Noel, Mrs. Ed Lemons, Mrs. M. D. Noel and Mrs. Elsie Holder of Los Angeles, California, and Mrs. Henry Devore of Los Angeles. One brother, Jim Drake of Woodley, survives. Thirty-two grandchildren and six great-grandchildren also survive.

Snyder General Hospital

Ten new surgical patients have been in the hospital this week, and only two were gone yesterday. Charlie Prather of Snyder and Tommie Parks of Seagraves, both surgeries, left the hospital early this week. E. B. Boling of Dunn, medical, also was moved home several days ago.

In the hospital yesterday were eight of the surgical patients, as follows: Mrs. Marion Engle, Abilene; P. A. Werner, Hermleigh; T. E. Grimes Jr., Dunn; E. L. Montgomery, Abilene; Mrs. Leslie Parr, Vincent; Mrs. Pat Jones, Ira; and I. B. Wade, Snyder.

Marian Randsal, young daughter of Mr. and Mrs. R. J. Randsal, has been in the hospital several days as a result of a fall in which she received accident injuries.

First Methodist Church

Meet your friends in the services of the church next Sunday. Church school, 9:45 a.m.; preaching, 11:00 a.m.; group meeting, 7:00 p.m.

At 8:30 p. m. Bro. Dial, pastor of the Church of Christ, will deliver the baccalaureate sermon to high school graduates.—M. C. Gordon, pastor.

First Presbyterian Church

A cordial invitation is extended to all to participate in the regular services of this church. Preaching at 11:00 a. m., with the pastor occupying the pulpit; Sunday school at 9:45 a. m. The evening service will be dismissed in favor of the annual baccalaureate service at the First Methodist Church.

Next Sunday afternoon the fifth Sunday meeting of Presbyterian young people will be held at Buffalo Gap, and the Christian Endeavor of this church will attend that meeting instead of holding its regular session.

Please remember that next Sunday is "Go to Church Day."—James E. Speivey, pastor.

Mrs. L. E. Scott and daughter, Mrs. Rose Wynn, both of Dallas, are guests of their son and brother, J. W. Scott, and family. They visited last week with W. M. Scott and Mrs. Scott of San Angelo. Mrs. Scott has not visited in Snyder for three years due to ill health, but she is in excellent health now considering her 80 years.

Bewhiskered Visitor Attracts Attention

A bewhiskered visitor in Snyder Sunday and Monday attracted attention to himself as well as to the Clovis, New Mexico, Pioneer Day celebration, June 2-3.

The visitor was Logan Williamson, who, with his wife, visited relatives in Scurry County. Mrs. Williamson is a sister of Mrs. O. D. McGlaun, Mrs. Gus McClinton, Ira, A. J. and Mrs. Clarence Whitley.

The Clovis event will include rodeo, horse show, parade, carnival, street dance, air circus, league baseball game and free entertainment of various kinds.

Dr. and Mrs. Lee Scarborough of Seminary Hill, Fort Worth, were guests last week of Dr. and Mrs. A. O. Scarborough.

Skating Rink to Be Started Here Soon

A locally owned and operated skating rink will be opened in Snyder in the near future, according to W. C. Weninger and A. E. Harvey, local business men.

Weninger and Harvey have already purchased their skates and other equipment, and say they will announce their location within a few days.

"Memories" Featured in Program At Traditional Fluvanna Banquet

Memories of Fluvanna High School seniors and juniors, faculty members and guests ran back many a day at the annual high school banquet held at the Manhattan Hotel in Snyder Saturday evening at 8 o'clock. Zolie C. Steakley, Sweetwater attorney, was main speaker for the evening, and his message, too, centered on "Memories."

Joe Sam Truss, junior class president, was toastmaster for the evening's program of memories and fun, interspersed with piano selections by Clarice Jordan, Fluvanna music teacher.

School colors, red and black, were featured in attractive place cards and memory books, each decorated with printed designs of seniors in traditional cap and gown. Lovely spring flowers, pinks, roses and larkspur, in crystal and green glass bowls, with tall white tapers burning in matching candelabra, centered the tables.

The floral decorations and lighted tapers made an attractive background for girls of the two classes, teachers and guests, who wore floor-length summer formal frocks, many with flowers in corsages or arranged in their hair.

"Thanks for the Memories" and an encore, "That Old School of Mine" and "Blue Hawaii," accompanied by Miss Jordan, who also played a medley of familiar old tunes on the program.

Three other members of the junior class appeared on the program—John Henry Roddy in a joke session dedicated to the seniors, "Our Dignified Seniors;" "Painful Memories," reading by Edith Freeman; and James Whitcomb Riley's poem, "That Old Sweetheart of Mine," given as a character reading by Howard Taylor, with musical background by the girls chorus and accompaniment by Miss Jordan.

Final part of the program consisted of outstanding memories of high school days by the senior class members, who also expressed appreciation to juniors for the banquet and other courtesies and also to the teachers. Brief talks were also made by Superintendent E. O. Wedgeworth, senior sponsor, Rev. James E. Spivey, commencement speaker, Rev. Fuquay and Leo H. Beavers.

Members of the senior class present were: Ross Belew, Cecil Boren, Daisy Nell Cavin, Berry Cribbs, Bill Lightfoot, Wayland Mathis, Eula Landrum Smith, Marionette Patterson, Ruby Reaves, Mada Ruth Sneed, H. D. Sneed.

Juniors attending were: J. R. Brown, J. D. Patterson, E. I. Smith, Jr., Howard Taylor, Joe Sam Truss, John Henry Roddy, Howell Moore, R. B. Wills, Pauline Campbell, Emma Carmichael, Rossa Carmichael, Lavern Edmonson, Adrean Dyess, Juanita Elkins, Hazel Evans, Myrtle Lightfoot, Edith Freeman, Marie Sullenger, Emmitt Lilly.

Guests were: Messrs. and Meses. E. O. Wedgeworth, Gilbert Mize, Buford Browning, Leo H. Beavers, Tommy Parquhar, and James E. Spivey; Misses Murvel Rankin, Clarice Jordan, Rose Marie Clowson, Patsy Snodgrass and Allene Curry; Rev. Fuquay, Steakley and Eugene Smith.

Cowboy Bunkhouse Begun at Stamford
After several years of delay, a dream of oldtime Texas cowhands is being realized in the completion of the cowboy bunkhouse at the Texas Cowboy Reunion grounds at Stamford. Construction already is under way, and the unique building will be finished before the ninth annual reunion July 4, 5 and 6.

The announcement has particular interest for Scurry and Borden County cowhands, since a number of them annually take part in the contests at the Stamford reunion.

Howard Bros. Spruces.
Henry Howard of the Howard Brothers station has been sprucing up his station considerably lately—and even the Saturday afternoon flood failed to erase signs of his improvements. Chief among the changes is replacement of the old brick front, with its pump-hiding nature, with a station front that is more inviting and accessible.

OLD MEXICO'S PLENTY SAFE, DECLARES RETURNED TOURIST

"Old Mexico's plenty safe for the tourist. These so-called revolutions against President Cardenas is no worse than the United States president—except the Latin temperament demands a little more action than the average U. S. temperament."

So said "Doc" Kirby, publisher of the Portales Tribune, secretary of the New Mexico Press Association, when he came through Snyder Monday after a two-week vacation in Old Mexico. Kirby was in Mexico City while the young revolution was being squelched there. "But I wouldn't have known about it if I hadn't read about it," he declared.

"The Mexicans are so polite that if a tourist happened to get in the middle of the firing zone he would be bowed through with

all courtesy, and both sides would cease firing.

"Because of the recent expropriation of foreign oil properties in Old Mexico, and the recent minor uprising, tourist business down there is not much more than 10 per cent of what it was a few months ago.

"But the tourist has nothing to worry about in Old Mexico. The highways are patrolled constantly for protection of tourists against hijackers, and a Mexican citizen will go a mile out of his way to make an American or any other foreigner feel at home."

This direct word from Old Mexico will be of particular interest to several Scurry County families that are planning to take their vacation in the Latin country this summer.

Many Will Go To Annual Field Day At Spur June 3

The program of the annual field day of the Spur Experiment Station, to be held June 3, indicates that it will be worth while for every livestock owner in Scurry County including 4-H boys with livestock demonstrations, according to County Agent Luke Ballard.

"The results of the past year's feeding practices developed definite information as to the values of vitamin A deficiencies in feeding rations that is of vital importance to all livestock feeders from the standpoint of profit and loss and a greater use of cotton seed meal supplemented with greater quantities of roughage, all of which we produce in the county," it is pointed out.

Several carloads of livestock producers are planning to attend the field day meeting from Scurry County, leaving from the courthouse at 6:30 o'clock Friday morning June 3. Livestock producers who have not listed their names should do so at the county agent's office.

"Inspection of the four-year pasture improvement work done in soil and water conservation, as it effects the increased carrying capacity of the pasture, is worth the trip to any and all range owners of the county," Ballard concluded.

Makes Record in Spelling.
Billie Ray Butts, third and fourth grade student in the Fairview School, Mitchell County, made almost a perfect record in his course in spelling the past year. Out of the 103 days he was present at school he made 103 perfect spelling grades, for which he was awarded a merit certificate. The seven-year-old boy is the son of Mr. and Mrs. Voy Roper and a nephew of Mrs. J. T. Roper, Snyder.

Final Issues of Six Publications Of Area Schools

Final issues of Scurry County's six school papers were published within the past two weeks from the Times plant, thanks to the loyalty of advertisers and the hard work of students and faculty members.

State school leaders indicate that the support accorded the six school papers, and the excellence of their contents, stamps them among leaders in school circles. It is probable that no other county in the state with equivalent school population has such a large number of school papers, according to County Superintendent Frank Farmer.

At the end of the school year, the leaders of the six schools request The Times to express their appreciation of the wide support given the papers by merchants and individual supporters at Snyder and elsewhere.

"Tiger's Tale," Snyder publication, has been issued bi-monthly. "The Cardinal," Hermleigh paper, monthly; "Eagle's Voice," Pylon, "Owl's Hoot," Dunn, "The Stampedo," Fluvanna, and "The Ira Bulldog," Ira, each six weeks.

Between 40 and 50 issues of the various papers have come out of the Times plant within the past school year, a check-up reveals.

"HERMLEIGH BUILDS"

R. S. Covey, superintendent of Sweetwater Schools, was principal speaker at Hermleigh's commencement program held in the school auditorium Wednesday night. The program was dedicated to W. T. Hanes, head of the Hermleigh schools for the past two years. Covey's address on "Service" stressed three main points—length of man's vision, breadth of man's mind and depth of man's soul.

Picnic Dinner for Millers Celebrates Anniversary Dates

Mr. and Mrs. Owen Miller and Mr. and Mrs. Fred Miller, Scurry County citizens, celebrated their 25th wedding anniversaries Sunday with a picnic dinner at Bull Creek. Numbers of relatives and friends spent the day with the two Miller couples.

Attendants included the following: Mr. and Mrs. P. A. Miller, Albert Miller and family, Jess Dixon and family, Lawrence Price and family, all of Ira; Earl Woolever and family, Mrs. Paul Davis and family, Mrs. Weidon Bills and daughters, Jack Davis and family, Edgar Taylor and family, Mr. and Mrs. Jess Green, Mr. and Mrs. J. J. Dyer, all of Snyder.

Mr. and Mrs. Ernest Woolever, Lee Myers and family of Idalou, Claude Bishop and family of Ralls, Mr. and Mrs. Claude Woolever of Odessa, Mr. and Mrs. Claude Miller of Big Spring, Mr. and Mrs. Charles Clinton of Luther, Marvin Bishop and family, Ed Murphy and family, Cass Cary and family, Marvin Berryhill and family, Tom Cary, Hoyle Cary and family, Doris Warren, all of Knapp; Ed Grant and family of Dunn and numbers of others.

Western Electric telephones are made to work together

Western is manufacturing and supply unit for the Bell System

Whether you're talking across the street or to San Francisco, it doesn't "just happen" that you hear clearly and easily over the telephone. One reason you can do it Western Electric telephones, precision manufactured for the entire Bell System, are the same all over the country. You might say they're "tuned" to each other, somewhat like radios to a broadcasting station.

If telephones and equipment weren't uniform, voices might not be clear. It would be vastly more difficult for us to give you the good service at low cost that you have come to expect.

SAVED! Vitamins Minerals Flavor Color

Do you know that the taxes paid by your gas company last year amounted to about 72 cents per meter per month? So summer bills of a dollar or two hardly cover taxes—an operating cost over which we have no control.

Fresh Vegetables TASTE BETTER ...LOOK BETTER WHEN COOKED WITH GAS

FOR rounding out a healthful, well-balanced meal there is nothing like the first tender vegetables of early summer. How you cook them is all-important if their healthful vitamins and minerals, their natural flavor and color are to be retained. A 1938 gas range excels in boiling vegetables as they should be—with controlled heat, little water and in covered utensils.

Time, gas and food values are saved with the improved gas simmer burners. They provide the most flexible and accurately controlled cooking heat yet devised in a cooking appliance. At the click of a valve they give you the exact shading of heat required for any cooking job. Because of this exact temperature control, kitchen heat and humidity are held to minimum. See these new gas ranges and learn all about their many improvements that make cooking surer, cooler and easier.

Only the improved gas simmer burners on 1938 gas ranges give an accurately controlled boiling heat at the "click" of a valve. They save gas... keep kitchen cooler.

J. E. Falls Out of Commissioners Race in Precinct No. 3

The Times is in receipt of the following letter from J. E. Falls, candidate for commissioner in Precinct 3, who has been taking treatments at Marlin:

"Please tell the voters of Precinct 3 that I have decided to withdraw from the race as commissioner of that precinct. I feel that it is best for me physically not to continue in the race. I will be in Marlin one or two more weeks.

"Especially do I wish to thank my friends for the encouragement they gave me.

"I have only this to say: The three men left in the race are good honest men and either will make a good commissioner. They are all my friends."

Neeley's Daughter Saves Life of Girl

The part played by Frances Neeley, daughter of Mr. and Mrs. E. C. Neeley, former Snyder resident, is disclosed in this article from Monday's San Angelo Standard-Times: "Alice Gumpers, 10, 223 Allen Street, probably owes her life today to Frances Neeley.

"At Ben Ficklin Dam on the Concho River yesterday Frances, a Girl Scout, pulled Alice from the water above the dam after she had gone under twice.

"Alice, the granddaughter of Mr. and Mrs. C. L. Carmans, became strangled when someone splashed water in her face. The girl was revived after being taken to the river bank."

L. M. Goodrich, Seeker of State Job, Visits Here

Practically all folks around the public square were met Wednesday by Lewis M. Goodrich of Shamrock, candidate for attorney general.

The North Plains candidate was traveling in a sound-equipped car, but said it is too early for most voters to be interested in speeches. Most of his campaigning is by the hand-shaking, card-giving route.

Only West Texas in the state race, Goodrich is seeking the place after serving five years as city attorney of Shamrock, six years as district attorney of the 31st Judicial District, which includes Pampa.

"My only platform promises," said Goodrich, "are these: I have no debts, political or otherwise; to pay; I elected your attorney general, the best interest of all the people of Texas shall be represented; I shall give all that is within me and shall surround myself with carefully chosen assistants for whose ability and integrity I can vouch."

Records Reveal Names of Local Leaders of Old

While digging around in archives and other state records at Austin, W. T. Carley of that city "discovered" the leaders of Snyder and Scurry County in days of old.

Names of the leading business and professional men were found on records of various kinds that are in the permanent official and historical files of Texas.

Old-timers, especially, will be interested in recalled memories that surround these names from early pages of Scurry County history:

Joseph Autrey, Lee Boren, T. H. Crowder, S. F. Culbertson, Dodson Brothers, J. E. Dodson & Crump, P. German, J. F. Grayum, E. A. Hurdman, Jefferson Justice, T. D. McMillan, J. R. Massey, I. H. Nelson, H. B. Patterson, Pruitt Brothers, H. L. Pruitt, Alonzo Scarborough, R. G. Strayhorn, I. W. Wasson, W. F. Wilks.

Of course there are a host of other names that could be added; but these just happen to be the ones uncovered in searching through the dusty state records.

Gossip is best defined as adding two and two together getting the result OF TWENTY!

Senator Collie Out As McCraw Speaker

Senator Wilbourne B. Collie of Eastland, whose district includes Scurry County, announced Saturday that he will take an active part in Attorney General William McCraw's campaign for governor. Collie is serving his second term in the senate, and his term continues for two more years.

The Eastland attorney was widely discussed this year as a possible candidate for lieutenant governor, but announced recently that he will not make the race.

The Cleanest City

For eight years in succession the city of Lubbock has won a loving cup in recognition of its record as "The Cleanest City in Texas."

Lubbock's leadership in cleanliness was no accident. It was achieved through constant effort on the part of civic leaders. Lubbock is clean because her citizens want her to be clean.

Snyder has often been referred to as one of the cleanest little cities of its size in the state. But those of us who view the little segments of dirt and carelessness around the town know that there is much to be done in the way of beauty and cleanliness.

Would it not be able to call Snyder, in all truth, "The Cleanest Little City in Texas?"

The slogan would be especially apt from a moral and religious standpoint, too, in view of Snyder's low crime record and her large number of God-fearing individuals and churches.

If cleanliness really is next to godliness, as a sage has said, let us bend our personal and cooperative efforts toward a cleaner and a more healthful community.

How Do You Drive?

Many a man or woman who has been driving a car for years has not yet learned how to drive.

This is the conclusion of the sales manager of a nationally sold automobile. "Those who once learn to operate a car correctly are seldom in trouble," he declares. "It is those who learn the wrong way, who get off on the wrong foot that cause most of the accidents."

Proceeding from this point, the automobile man makes these suggestions for the benefit of every driver:

"The technique of professional race drivers provides a clue to the best way to make turns and curves. These men apply the brakes when approaching the turn, enter it at reduced speed and accelerate as they come out on the straight-away. This method makes steering more effective and keeps the car under control, making it unnecessary to jam on the brakes in the middle of the curve, which is a dangerous practice."

"When going up a hill, shift into second gear as soon as your speed gets down to 20 miles an hour. Use the same gear going down as you used going up."

"When starting in sand or mud put the car in second or high gear—and release clutch pedal slowly. The wheels won't spin and dig themselves in."

"In going down long hills—in either second or high gear—slow the car by a succession of 'snubbing' actions rather than by continuous pedal pressure. This is also a good rule when coming to a stop from a high speed."

"Speeds depend on many conditions. The best rule is to depend on your speedometer and use common sense."

"If a wheel runs off the pavement, take your foot off the accelerator, hold the wheel straight and allow the car to slow down gradually until it can be brought back on the road without jar or sway. If a tire blows, don't jam on the brakes. Slow down gradually."

Editorial of the Week

A VERY SAD CASE

Here are a few choice hotshots from the pen of wise H. M. Price in the San Angelo Standard-Times:

The LaPollette brothers have organized a new party and everybody with a bad liver has somewhere to go.

I notice in an exchange a very sad case of insanity in a young girl. It says: "The doctors don't know what her trouble is. She stays at home doing simple tasks; she doesn't talk cross to her parents; she is nice to elderly people who visit in her home; the poor thing even likes to sew and she makes her own clothes; she will go into the kitchen and prepare a good meal and she washes her own hair instead of going to a beauty parlor to have it done. She can be satisfied without having a date and in many other ways is a strange creature." It is such a pity to see her mind in this shape. The doctors say they have never known such a case.

A merchant tells me he had a new reason given him why a customer couldn't pay his bill. He said: "He told me he couldn't pay me because he had to pay his preacher. I told him to ask the preacher to pray for me."

Here is a cautious editor who says on the front page of his paper: "All I ask is that should I be involved in a town scandal the people of the town will say as little about it as this paper will."

The Governor's Race

If you are a wise political sidelineer, you will not pick your two runoff candidates too soon. In other words, you will not be too quick to follow the sentiment that has been going the rounds—the sentiment that McCraw and Thompson are cinches to enter the runoff. With the persistent Hunter, the radical Farmer and the pompous Crowley in the race, the only cinches are the kind you'll find around Monte Carlo or carnival pin-wheels.

Word of Thanks By Fred Wilhelm To Area Friends

Fred Wilhelm, veteran Snyder grocer, whose east side Hande-Dande store was closed last weekend, has furnished The Times with a note of thanks to all his friends in this area. The note carries such a high note of optimism and represents such a broad view of life that it is reproduced just as it was written by the long-time local business man:

"I wish to express my sincere thanks and appreciation to the people of Snyder and Scurry County for their loyal support and kindness shown me while I was in business in Snyder. Words cannot express my appreciation for same. "I wish to say to those who have been indebted to me that the slate has been wiped clean and that you are no more indebted to me, and I want you to know I am still your friend. I still have the same kind feeling for you I have always had. I can truthfully say I have no ill feeling towards any human soul in this whole wide, wide world."

"I lay my downfall to present conditions—no one is to blame. I believe there are as many honest people in the world today as ever. Most everybody would like to pay his honest debts if he could, but it cannot be done under present conditions. So let's all still be friends... but it's hard for some to understand."

"If you could make a better world with heaven right at hand, then do your best, cooperate, and try to understand. First understand just what God is and find him in your heart; Next try to understand yourself... of him you are a part."

The other fellow you must know, your neighbor and your friend, and blame and question not his acts—then love will have no end. You cannot judge another by what appears to be. For things might be quite different from that which you can see.

You do not share another's thoughts and do not have his mind. So some excuse for what he does is hard for you to find. If you will make a better world, make this a happy land. You must not lose your faith in men, but try to understand."

Yours sincerely,
F. T. WILHELM.

showers have fallen in small areas for several weeks.

Heaviest general rainfall of the year came Wednesday evening and Wednesday night of last week. Lightest fall in the trade area, as far as The Times has learned, was southwest of Snyder, around Knap and beyond, and toward Fluvanna. However, with exception of small areas, the entire territory has received needed spring rains.

Highlights of the Storm.
A heavy plate glass was crashed by hail Saturday evening in the Boren-Grayum office, basement of The Times Building. Ten or 12 windows were broken out of the courthouse. Literally hundreds of panes crashed in many homes and in a few business houses.

The big fire truck was called into action. It pulled out many cars that were drenched out in East Snyder flood waters, and hauled people and some household goods out of threatened lowland homes. The county is again flush with hail insurance adjusters. They estimate that total insured hail loss in the county this season has been upwards of \$50,000. Not much of this amount includes crop and land damage, which amounts into many additional thousands.

Fluvanna community, he told the well-known farmer:

"You are doing a good job poisoning. However, as you see, there are too many jumbo grasshoppers out in the pasture, and you will have to watch them and poison them regularly about every five days to keep them from crossing into that young cotton in the field."

"These jumbo and yellow hoppers are from one-half to two-thirds grown, and once they get into the cultivated crops you will have lost control."

Mixing Plant Bait.
Report of mixing plant operations shows 18,600 pounds of poison bait has been distributed to more than 60 farmers, and the demand is increasing daily. Eight more drums of sodium poison and five barrels of molasses have been received.

"The mixture has been changed to add molasses in order that it may be more effective as the grasshoppers get larger and more difficult to control," states Chairman Poage.

This change has been made on recommendation of Field Man Dr. Dickison.

Change Cost Basis.

The basis of cost has also been changed in making the change from dry to wet mix, to take care of the added cost of molasses, which is to be supplied by the producer according to federal grasshopper control rulings.

Cooperation of producers in helping to mix the poison at the plant is appreciated by the committee, said Chairman Poage, because it helps to keep the cost down and provides a greater distribution of the poison bait.

"The fight has just begun," declares Agent Ballard. "It is cheap crop insurance. All communities should take advantage of this opportunity to protect their crops by a united effort on each farm to stop the 'gillies' of hoppers that are growing older day by day, and developing appetites that mean destruction of our cotton and feed crops."

School at Pyron Has Full Closing Day Last Friday

A full day of school closing and other community activities was on tap at Pyron last Friday, with Superintendent M. H. Greenwood as the general ring leader.

Books were checked in and report cards were handed out to start the day. John E. Sentell of Snyder was principal speaker, using "Building" as his subject.

The seventh grade student program follows: Opal Joe Williams, salutatorian address of welcome; Mildred Coldey, class prophecy; Gladys Reed, class will; Katherine McGlothlin, valedictorian. Robert Taylor, grade school principal, was in charge of this section of the day's program.

At noon the entire community joined in a basket lunch. Ball games were played in the afternoon.

The day was climaxed with the high school graduation exercises at 8:00 p. m. The program was in charge of the graduates, with "Progress of Education" as the subject. Lucille Kinney was named as valedictorian and Mildred West as salutatorian, with grades of 89 and 85, respectively.

W. M. Edmonds, high school principal, presented the diplomas. The following awards were announced by Superintendent Greenwood: Jancy Gilmore, freshman scholarship award; Viola Schwarz, sophomore scholarship award; Mabel Glass, junior scholarship award; Lucille Kinney, senior scholarship award; Gladys Light, best-all-around girl award; Odel Miller, best-all-around boy award.

Perfect attendance records were announced as follows: Freddy Rogers, first grade; L. Q. Young, third grade; Billy Carter Young, sixth grade; Walter Kinney, seventh grade; Thomas Miller, high school.

Moffett Not Improved.
Brandon Moffett, Snyder businessman, who has been ill with an infected foot for the past two weeks, is no better today announces his tailoring partner, Abe Rogers. He is still remaining at home, but will be taken to a local hospital for X-ray today.

SNYDER BONDS ARE APPROVED

Attorney General William McCraw Saturday approved a \$37,000 waterworks and sewer refunding bond issue for the City of Snyder, according to a report from Austin.

The issue dated February 1, 1938, ordered by the Snyder City Council on March 4, 1933, consists of 37 bonds of \$1,000 each. They bear interest at 4 1/2 per cent a year and mature in groups beginning February 1, 1940, through February 1, 1959.

McCraw said his approval was based on the fact that Snyder has taxable valuations of \$1,290,130 on which a tax of 25 cents per \$100 has been levied.

Patients at Roscoe.
Patients at the Young Hospital, last week, included Mrs. L. H. McClinton of Snyder, minor surgery, and Luella Layne of Snyder, tonsillectomy, according to Sunday's Sweetwater Daily Reporter.
